6. The Notice indicated that Beaufort, the largest city in Beaufort County, was a fast growing recreational center which had almost a 50 percent increase in permanent residents between 1960-1970. It also stated that Beaufort was the educational and civic center of the county, in addition to having the Beaufort Regional Technical Center and the regional branch of the University of South Carolina located there.

7. Channel 285A could be assigned to Beaufort in conformance with all minimum distance separation requirements without affecting existing assignments. The proposed assignment would foreclose future assignments only on Channels 285A and 288A in areas along the narrow Atlantic coastline in and near Beaufort and extend-

<sup>1</sup>Polan acknowledges that his comments are filed several years after the due date specified by the Commission in the Notice. He requests that in the event it is determined by the Commission that the comments cannot be treated as such, the Commission then consider them to be an informal request for action pursuant to section 1.41 of the Rules.

<sup>2</sup>60 F.C.C. 2d 148.

<sup>3</sup>Population figures are taken from the 1970 U.S. Census.

ing north to the Charleston area which presently has six AM and four commercial class C FM stations in operation. Communities of over 2,500 population without FM assignments in the Channel 285A "precluded" area include Capehart (pop. 4,490); Parris Island (8,868) and Port Royal (2,864), in Beaufort County. However, since they are all within 10 miles of Beaufort, a Beaufort Channel 285A assignment would be available to them for application and use under the "10-mile" rule (§ 73.203(b) of the rules). While Hilton Head is within the small precluded area for Channel 288A, Channel 292A, (Station WHHR) is assigned to that community, and it does not appear to warrant another FM channel assignment.

8. The assignment of Channel 285A to Beaufort would result in intermixing a class A with a class C channel (254). Although it is the usual policy not to intermix class A channels and class C channels in the same community, we have deviated from this policy where there is no other class C channel available, where there is a demand for a class A channel, and there is someone willing to compete under such circumstances. Yakima, Washington, 42 F.C.C. 2d 548 (1973). This case meets those requirements. The proposed channel would provide for a third local nighttime aural service in a growing community. Thus, it would be in the public interest to assign Channel 285A to Beaufort. This action should not be interpreted as prohibiting Sea Island from filing an application for the channel assigned herein. However, the disposition of any such application would necessarily have to give recognition to the outcome of the AM revocation proceeding.

9. Authority for the adoption of the amendment contained herein appears in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

10. In view of the foregoing: It is ordered, That effective March 1, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, with respect to Beaufort, South Carolina, is amended, to read as follows:

City and Channel No.

Beaufort, S.C.—254, 285A.

11. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307).)

For the Federal Communications Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

[Docket No. 20033; RM-2200]

## PART 73—RADIO BROADCAST SERVICES

Television Broadcast Stations in Monahans and Odessa, Tex.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: This action reassigns VHF TV Channel 9 from Monahans, Tex., to Odessa-Monahans, Tex., on a hyphenated basis, in order to permit further evaluation of the need for an additional Odessa TV station in connection with the filing of an application.

EFFECTIVE DATE: March 1, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mark N. Lipp, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING  
TERMINATED

Adopted: January 13, 1978.

Released: January 20, 1978.

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Monahans and Odessa, Tex.), Docket No. 20033, RM-2200.

1. The Commission has before it a Notice of Proposed Rule Making, 39 FR 15317, proposing to reassign VHF TV Channel 9 from Monahans, Tex., to Odessa-Monahans, Tex., on a hyphenated basis. This Notice was issued in response to a petition by Grayson Enterprises, Inc. ("petitioner"), licensee of Station KMOM-TV (Channel 9), Monahans. Petitioner filed supporting comments and replies. Oppositions to the Notice were submitted by Forward Communications of Texas, Inc., licensee of Station KOSA-TV (Channel 7), Odessa, Tex.; Midland Telecasting Co., licensee of Station KDCD-TV (Channel 18), Midland, Tex.; the Monahans Chamber of Commerce; and the Association of Maximum Service Telecasters, Inc. ("AMST").

2. Grayson seeks a hyphenated assignment so that it may seek a modification of its license to specify Odessa, Tex., as its community of license, a step which would permit it to move its main studio to Odessa, approximately 59 kilometers (37 miles), northeast of Monahans. Petitioner states that this move will enable its station to become a viable competitive outlet in the Odessa-Midland market in which it

now competes<sup>1</sup> and thereby provide better service. The transmitter site for Station KMOM-TV is located approximately 43 kilometers (27 miles) north of Monahans and 48 kilometers (30 miles) west of Odessa. It already provides a city grade signal to both communities, and no change in the site or service area is proposed by petitioner.

3. The Notice proposed to hyphenate the assignment, noting that Odessa is the much larger community and that its size and economic base could better foster the development of an economically viable local station. It also stated that a fully competitive third network service in the Odessa-Midland market<sup>2</sup> was an important public interest objective which made this proposal worth pursuing in a rule making proceeding. It was thought that by using the hyphenation technique, a further and more extensive evaluation of a specific proposal to move the assignment from the smaller to the larger community could be undertaken in an application context. To lessen the effects of a possible loss in local service to Monahans, petitioner was asked to respond to the desirability of our requiring that an auxiliary studio be maintained in Monahans if Odessa were to ultimately become the city of license.

4. In its comments, petitioner states that it supports the Commission's proposal as set forth in the Notice. It reiterates that Channel 9 should be reassigned to Odessa-Monahans because of the great disparity in growth between the two communities and its own difficulty competing with two other network stations in the market. In this connection petitioner argues that Odessa has a greater need for and ability to sustain an additional channel since it is a thriving community of 78,380 in population whereas Monahans (pop. 8,333)<sup>3</sup> is a dying town. Opponents disagree with this assessment, citing what are essentially isolated examples of growth in Monahans. In addition, one opponent expressed a concern that Monahans will lose service if the reassignment is made. Another opponent warns that this proposal could seriously affect further development of UHF broadcasting in the Odessa-Midland market. AMST does not oppose the reassignment as such; rather, it urges that a short spacing

<sup>1</sup>Midland, which is part of this hyphenated television market, lies approximately 91 kilometers (57 miles) northeast of Monahans.

<sup>2</sup>This region is presently served by two other network affiliates—Station KMID-TV (Ch. 2) (NBC), Midland, and Station KOSA-TV (Ch. 7) (CBS), Odessa. Petitioner's Station KMOM-TV is affiliated with the ABC network.

<sup>3</sup>Population data are taken from the 1970 U.S. Census.

not be created with Channel 9, Abilene, Texas.\* Since no change in coverage is proposed, however, these questions present matters which are more appropriately considered in the specific context of an application for a station at Odessa.\* Looking towards adoption of its proposal, petitioner states that it would maintain a studio at Monahans from which at least 1 hour of local live programing would originate.

5. Hyphenation is an assignment tool used in those instances where it appears best to postpone until the application stage any unresolved questions as to which community warrants the assignment.\* Thus, the use of hyphenation permits the filing of an application to utilize the assigned channel at a choice of communities;\* it does not actually change an existing city of license.

6. In light of the growth patterns of the various communities in the area and the development of competitive factors over a 20 year period,\* hyphenation now appears appropriate. In our view, Monahans does not appear to be of sufficient size to warrant a TV station under normal circumstances,\* let alone in these circumstances where its local outlet must compete in this market with two other network stations both of which are licensed to much larger communities. However, to insure that the loss of service to Monahans be kept at a minimum, we have suggested, and petitioner has agreed, that an auxiliary studio should be maintained in Monahans. Therefore, we shall impose a condition that any

\*The present transmitter location is already short-spaced to Channel 9, Abilene, Tex., by 5.5 miles. Since no change in transmitter site is proposed, no short-spacing problem is presented at this stage.

\*Midland Telecasting Co. complained that its own chances of obtaining an ABC affiliation would be hampered by the proposal and asked that a petition to deny the renewal of petitioner's TV station, filed November 4, 1974, be incorporated herein. But this filing, since it concerns issues of an economic nature, including its chances for a network affiliation, are matters which should more appropriately be considered in connection with the application.

\*See *Hay Springs-Scottsbluff, Neb.*, Docket No. 20065, 42 Fed. Reg. 41123.

\*It is now settled, that if a reassignment of the channel is warranted, a new application for license rather than a modification of an existing license must be filed so that other interested persons may have the opportunity to apply for the new community. *Santa Ana, Cal.*, 65 F.C.C. 2d 920 (1977). See also *Hay Springs-Scottsbluff, Neb.*, *supra*.

\*Monahans has had a TV station in operation on Channel 9 since 1958.

\*When the Monahans channel was assigned in the original Table, the city, although small, was expected to grow. However the anticipated growth has not occurred.

application for Channel 9 to serve Odessa must include a provision for an auxiliary studio at Monahans. We note that under the action taken here, the station will continue to be licensed to Monahans until such time as favorable action would be taken on an application for a license to serve Odessa.

7. Mexican concurrence in the action taken here has been obtained.

8. Accordingly, it is ordered, That § 73.606(b) of the Commission's rules, is amended, effective March 1, 1978, insofar as the listed communities are concerned, as follows:

City:	Channel No.
Monahans, Tex.....	9
Monahans-Odessa, Tex.....	9

9. Authority for the adoption of the amendment contained herein appears in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

10. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307).)

For the Federal Communications Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

##### Title 49—Transportation

##### CHAPTER X—INTERSTATE COMMERCE COMMISSION

##### SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. 293; Sub. No. 2]

##### PART 1125—STANDARDS FOR DETERMINING RAIL SERVICES CONTINUATION SUBSIDIES

###### Extension of Comment Period

AGENCY: Rail Services Planning Office, Interstate Commerce Commission.

ACTION: Extension of comment period.

SUMMARY: The Rail Service Planning Office restated the Regional Subsidy Standards on January 11, 1978 (43 FR 1692) to conform with the ICC's new Uniform System of Accounts (USOA). Comments are invited on substantive changes and whether in light of the new USOA, the formulas for apportioning common costs may be refined. Due to delays in publication and distribution, and in order to allow adequate time for interested persons to review the reissued rules, the comment period has been extended to February 27, 1978.

DATE: Comments may be filed on or before February 27, 1978.

ADDRESS: An original and six copies should be submitted to: Rail Services Planning Office, 1900 L Street NW., Washington, D.C. 20036. Attn: Regional Subsidy Standards.

FOR FURTHER INFORMATION CONTACT:

James Wells, Chief, Cost Evaluation Branch, Rail Services Planning Office, 202-254-7552.

SUPPLEMENTARY INFORMATION: RSPO invites comments on those areas in which substantive changes were made or a party believes substantive changes may have been made. Interested parties are also asked to consider whether the formulas for apportioning costs (§ 1125.8) may be refined in light of the new USOA.

This is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

Accordingly, it is ordered, that comments on the reissued Regional Subsidy Standards (Part 1125 of Chapter X of Title 49 of the Code of Federal Regulations) will be accepted until February 27, 1978. Issued January 18, 1978, by Alan M. Fitzwater, Director, Rail Services Planning Office.

By the Commission.

H. GORDON HOMME, Jr.,  
Acting Secretary.

##### SUBCHAPTER D—TARIFFS AND SCHEDULES [Docket No. 35867]

##### PART 1310—FREIGHT RATE TARIFFS AND CLASSIFICATIONS OF MOTOR COMMON CARRIERS

###### Revision of Regulations for the Construction, Filing, and Posting of Tariffs of Common Carriers of Property by Motor Vehicle and Tariffs of Certain Common Carriers by Water

AGENCY: Interstate Commerce Commission, Washington, D.C. 20423.

ACTION: Clarification.

SUMMARY: FR Doc. 77-25737, published at 42 FR 44236, September 2, 1977, showed an effective date of October 5, 1977, for the regulations published in Part 1310 which were adopted in the above-entitled proceeding. This notice is to clarify that the regulations in Part 1310, as amended, became effective in their entirety on that date, as provided in the order of the Commission served August 23, 1977. This order thereby discontinued the stay order served March 17, 1977, and all the regulations in Part 1310, as amended, became effective October 5, 1977.

\*This proceeding is consolidated with Docket No. 35867 (Sub-No. 1), standard headings and standard item numbers for commonly published rules in tariffs of class I motor common carriers of property and of agents.

This document is therefore amended to read as follows:

Under "EFFECTIVE DATES" change the sentence now reading: "The effective date of the regulations is October 5, 1977." to read "The effective date of Part 1310 is October 5, 1977."

EFFECTIVE: October 5, 1977.

#### SUPPLEMENTARY INFORMATION:

##### GENERAL

Sport fishing on portions of the following refuges shall be in accordance with applicable State and Federal regulations, subject to additional special regulations and conditions as indicated. Portions of refuges which are open to sport fishing are designated by signs and/or delineated on maps. Special conditions applying to individual refuges and maps are available at refuge headquarters or from the Office of the Area Manager (addresses listed above).

§ 33.5 Special regulations; sport fishing for individual wildlife refuge areas.

##### FLORIDA

###### LAKE WOODRUFF NATIONAL WILDLIFE REFUGE

Sport fishing on the Lake Woodruff National Wildlife Refuge, DeLeon Springs, Fla. is permitted on approximately 650 acres. The sport fishing season is open year-round on delineated refuge waters west of Norris Dead River, Lake Woodruff, Spring Garden Creek, Highland Park Canal, and the canal bordering the east side of Norris Dead River. Refuge waters east of Norris Dead River Canal, Lake Woodruff, and Spring Garden Creek will be open to fishing and access March 15 to October 15, 1978. Fishing and access on refuge waters are permitted during daylight hours only. Air thrust boats are prohibited.

###### LOXAHATCHEE NATIONAL WILDLIFE REFUGE

Sport fishing is permitted in all waters (61,352 acres) of the Loxahatchee National Wildlife Refuge, Delray Beach, Fla., except those marked by

signs as being closed. All public entry onto the refuge for any purpose is limited to the following points: (a) S-5A (Twenty-Mile Bend) boat ramp; (b) Headquarters area; (c) Loxahatchee Recreation Area. Sport fishing is permitted year-round. Fishing is restricted to 1½ hours before sunrise until 1 hour after sunset. Boats must enter or leave the refuge through the three public ramps: (a) S-5A (Twenty-Mile Bend) boat ramp; (b) Headquarters boat ramp; (c) S-39 (Loxahatchee Recreation Area) boat ramps. Method of fishing allowed is with attended rod and reel and/or pole and line. Air thrust boat use is authorized only by special permit issued by the refuge manager. Speed boats and racing craft are prohibited.

###### MERRITT ISLAND NATIONAL WILDLIFE REFUGE

Sport fishing on the Merritt Island National Wildlife Refuge, Titusville, Fla., is permitted on designated areas. Sport fishing is permitted during daylight hours, year-round, except when posted as closed. Sport fishing is permitted from boats at night by those persons possessing a refuge special use permit under the following conditions: (a) Subject to the payment of an annual fee (\$5); (b) Refuge boat launching is permitted only at Beacon 42 Fish Camp. Air thrust boats are not allowed on refuge waters. Coast Guard approved life preservers shall be worn by persons in small craft less than 20 feet in length while these boats are in motion in the Indian River, Banana River, and Mosquito Lagoon within refuge boundaries.

###### ST. MARKS NATIONAL WILDLIFE REFUGE

Sport fishing on the St. Marks National Wildlife Refuge, St. Marks, Fla., is permitted on approximately 50,000 acres. The sport fishing season on the refuge extends from March 15 through October 15, 1978. Fishing is permitted ½ hour before sunrise until ½ hour after sunset during open season. Boats with electric motors and gasoline engines up to and including 4 horsepower are permitted. Trotlines shall be taken up daily prior to closing hours of fishing.

###### ST. VINCENT NATIONAL WILDLIFE REFUGE

Sport fishing on the St. Vincent National Wildlife Refuge, Franklin County, Apalachicola, Fla., is permitted on 360 acres. The sport fishing season extends from March 1 through October 30, 1978. Fishermen are permitted on the refuge from 1 hour before sunrise to 1 hour after sunset. No motors of any type may be used. Boats may be left on the island at designated points during the open season provided they are identified with their owner's name and address. Boats must

be removed from the refuge no later than October 30, 1978. Use of live minnows as bait is prohibited.

##### GEORGIA

###### BLACKBEARD ISLAND NATIONAL WILDLIFE REFUGE

Fresh water sport fishing on the Blackbeard Island National Wildlife Refuge, McIntosh County, Townsend, Ga., is permitted only on two areas totaling 350 acres. The sport fishing season extends from March 15 through October 25, 1978. Fishing is permitted in daylight hours only. Boats with electric motors permitted. Gasoline powered motors prohibited. Use of live minnows as bait prohibited.

###### KEFENOKEE NATIONAL WILDLIFE REFUGE

Sport fishing is permitted on the Okefenokee National Wildlife Refuge, Waycross, Ga., in the designated open water areas connected by established boat runs. Fishing permitted during posted hours only. Boats with motors not larger than 10 horsepower, canoes, and rowboats permitted. Use of live minnows as bait prohibited. Trotlines, limb lines, nets, or other set tackle prohibited. Persons entering refuge from main access points must register with the respective concessioner. Persons using the sill access ramp on the pocket and Kingfisher Landing access ramp are required to sign the respective registers when they enter the swamp and again when they leave.

###### PIEDMONT NATIONAL WILDLIFE REFUGE

Sport fishing on the Piedmont National Wildlife Refuge, Round Oak, Ga., is permitted on approximately 32 acres, during daylight only. Open Season: March 11 through September 16, 1978—The Falling Creek Bridge Area on Round Oak-Juliette Road and the Little Falling Creek Area at County Line Bridge; April 29 through September 16, 1978—Allison Lake; July 15 through September 16, 1978—Five Points Lake. Boats permitted in Allison Lake only. Electric motors permitted; all other motors prohibited. Boats may not be left on the refuge overnight. Bank fishing permitted within posted areas only.

##### GEORGIA AND SOUTH CAROLINA

###### SAVANNAH NATIONAL WILDLIFE REFUGE

Sport fishing on the Savannah National Wildlife Refuge is permitted only in designated impounded waters, tidal creeks, ditches and canals in an area comprising 26,000 acres. The sport fishing season extends from March 15 through October 25, 1978. Fishing is permitted from sunrise to 1 hour past sunset. Outboard motors are prohibited in impounded waters. Tidal creeks may be fished from boats only from February 1 through October 25,

1978. Rod and reel, pole and line, artificial and live baits are permitted. All areas posted with "closed area" signs are closed to all activities including fishing. Private boats may not be left on the refuge overnight.

##### SOUTH CAROLINA

###### SAVANNAH NATIONAL WILDLIFE REFUGE

Sport fishing on the Savannah National Wildlife Refuge, Jasper County, Hardeeville, S.C., is permitted only on designated impounded waters, tidal creeks, ditches and canals in an area comprising 26,000 acres. The sport

fishing season extends from March 15 through October 25, 1978 for all impounded waters. Fishing is permitted from sunrise to 1 hour past sunset. Outboard motors are prohibited in impounded waters. Tidal creeks may be fished from boats only from February 1 through October 25. Rod and reel, pole and line, artificial and live baits are permitted. All areas posted with "closed area" signs are closed to all activities including fishing. Private boats may not be left on the refuge overnight.

The provisions of these special regulations supplement the regulations set

forth in Title 50 Code of Federal Regulations, Part 33, which govern sport fishing on wildlife refuge areas generally. The public is invited to offer suggestions and comments at any time.

NOTE.—The Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: January 17, 1978.

JOHN C. OBERHEU,  
Acting Area Manager.

Packaging and Transportation by Air,  
Environmental Statement

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Issuance of a Final Environmental Statement on Transportation of Radioactive Material by Air and other Modes.

SUMMARY: A final environmental statement on transportation of radioactive material has been issued and will be considered in deciding the disposition of the present transportation rule making proceeding.

DATES: Comments must be received on or before March 15, 1978.

ADDRESS: Comments should be filed with the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention, Director, Office of Standards Development.

FOR FURTHER INFORMATION CONTACT:

Mr. Donald R. Hopkins, phone: 301-443-6910.

**SUPPLEMENTARY INFORMATION:** In its advance notice initiating a rule-making proceeding to reevaluate the Commission's regulations concerning the transportation of radioactive material by air published in the FEDERAL REGISTER on June 2, 1975, (40 FR 23768), the Nuclear Regulatory Commission noted that a generic environmental impact statement would be prepared and related ground transportation. Although the statement was to be directed at air transportation, other transportation modes—land and water—were to be considered in light of the requirement of the National Environmental Policy Act of 1969 (NEPA) that the relative cost and benefit of alternatives to certain proposed federal actions be fully considered. The statement was to be generic in nature, assessing the impact from all transportation, not just that associated with a particular rule change.

Pursuant to the National Environmental Policy Act of 1969 and the Commission's regulations in 10 CFR Part 51 "Licensing and Regulatory

Policy and Procedures for Environmental Protection," the Commission's Office of Standards Development issued a draft environmental statement on transportation in March, 1976. After consideration of the 28 letters of comment received from the public and from Federal, state and local agencies, a Final Environmental Statement on the Transportation of Radioactive Material by Air and Other Modes, dated December 1977, and designated NUREG-0170, has been issued.

Taking into account the conclusions of the final environmental statement, public comments received on the proceeding, and other information, the Nuclear Regulatory Commission will consider the disposition of the rule making proceeding announced on June 2, 1975. Persons with views on the content or conclusions of the final environmental statement which may be helpful to the Commission in its deliberations should file such comments by March 15, 1978, with the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Office of Standards Development. If sufficient need for clarification of the final environmental statement becomes apparent, the Office of Standards Development will consider holding one or more public meetings for this purpose.

The final environmental statement is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. Single copies of the statement (NUREG-0170) may be obtained by written request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Copies can also be obtained from the National Technical Information Service, Springfield, Va. 22161.

(5 U.S.C. 552(a).)

Dated at Silver Spring, Md., this 29th day of December 1977.

CLIFFORD V. SMITH, Jr.,  
Director, Office of Nuclear  
Material Safety and Safeguards.

### DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 24]

#### PROCEDURES AND STANDARDS APPLICABLE TO SUSPENSIONS AND PROHIBITIONS WHERE FELONY IS CHARGED

Proposed Rulemaking

AGENCY: Comptroller of the Currency.

ACTION: Proposed regulations.

**SUMMARY:** The procedures and standards set forth in these proposed regulations would be applicable to proceedings by the Comptroller of the Currency to suspend and/or prohibit from participation any officer or director or other person participating in the affairs of a national bank, where such person is charged with a felony involving dishonesty or breach of trust. These proposed regulations are also intended to make available to such persons a hearing at which they may present such facts as will aid the Comptroller in determining whether any existing suspension should continue in effect.

DATE: Comments must be received on or before February 24, 1978.

ADDRESS: Interested parties are invited to submit written data, views or arguments in connection with these proposed regulations to Mr. John E. Shockey, Chief Counsel, Comptroller of the Currency, 490 L'Enfant Plaza, Washington, D.C. 20219. All written comments submitted will be made available for public inspection at the above address.

FOR FURTHER INFORMATION, CONTACT:

Robert S. Pasley, Attorney, Office of the Comptroller of the Currency, Washington, D.C. 20219, Tel. No. 202-447-1989.

**SUPPLEMENTARY INFORMATION:** Substantially identical regulations were adopted by the Federal Deposit Insurance Corporation on November 18, 1977 (42 FR 59491) and have been proposed by the Federal Home Loan Board on June 23, 1977 (42 FR 31803).

#### DRAFTING INFORMATION

The principal drafter of this document was Robert S. Pasley, Attorney.

## PROPOSED RULES

3369

### PROPOSED AMENDMENT

Accordingly, the Comptroller hereby proposes to adopt 12 CFR Part 24, to read as follows:

#### PART 24—PROCEDURES AND STANDARDS APPLICABLE TO SUSPENSIONS AND PROHIBITIONS WHERE FELONY IS CHARGED

Sec.

24.1 Suspension and prohibition where a felony is charged.

24.2 Notice of hearing.

24.3 Hearing.

24.4 Waiver of hearing.

24.5 Decision of the Comptroller.

24.6 Reconsideration by the Comptroller.

24.7 Relevant considerations.

AUTHORITY: 12 U.S.C. 1818(g)(1).

§ 24.1 Suspension and prohibition where a felony is charged.

Whenever a director or officer of a national bank, or any other person participating in the conduct of the affairs of such bank, is charged in any State, Federal or territorial information or indictment, or in any complaint authorized by a United States Attorney, with the commission of or participation in a felony (or a misdemeanor under State or territorial law which, because of the length of the maximum sentence that may be imposed, is equivalent to a felony under Federal law) involving dishonesty or breach of trust, the Comptroller, upon a preliminary determination that the offense alleged in the information, indictment or complaint is, or may be, within any or all of the criteria established in § 24.7, shall, by written notice served upon such director, officer, or other person by registered United States mail, suspend him from office or prohibit him from further participation in any manner in the affairs of the bank, or both. A copy of the notice of suspension shall also be served upon the bank.

§ 24.2 Notice of hearing.

(a) Any notice of suspension issued pursuant to § 24.1 shall be accompanied by a further notice to the individual that he may request in writing a hearing, at which he may present evidence and argument as to why the suspension and/or prohibition should not continue in effect. Any notice of the opportunity for a hearing shall be accompanied by a description of the hearing procedure and the criteria to be considered.

(b) A petition filed pursuant to paragraph (a) of this section shall state with particularity the relief desired, the grounds therefor, and shall include, when available, supporting evidence. Such petition and supporting evidence shall be filed with the Comptroller.

(c) If an individual fails to request a hearing, or fails to appear at a hearing, either in person or through an at-

torney, or fails to submit a written argument where a hearing has been waived pursuant to § 24.4, the suspension and/or prohibition shall remain in effect until such information, indictment or complaint is finally disposed of, or until terminated by the Comptroller.

§ 24.3 Hearing.

(a) After the receipt of a petition complying with § 24.2(b), the Comptroller will order a hearing to commence within 30 days, to be held in Washington, D.C., or in such other place as is designated by the Comptroller, before a panel designated by the Comptroller to conduct said hearing.

(b) The Notice of Hearing shall be served by the Comptroller upon the party or parties afforded the hearing, and shall set forth the time and place of the hearing, and the names and business addresses of the members of the hearing panel.

(c) The subject individual may appear at the hearing personally, through counsel, or personally with counsel. The individual shall have the right to introduce relevant and material evidence, and to present an oral argument before the panel. Members of the Comptroller's legal staff may also attend the hearing, and may participate as a party. Neither the formal rules of evidence nor the adjudicative procedures of the Administrative Procedure Act (5 U.S.C. 551, et seq.) shall apply to the hearing. The proceedings shall be recorded and a transcript will be furnished to the subject individual, upon request and after the payment of the cost thereof. Witnesses may be presented so long as a list of the witnesses is furnished to the panel prior to the hearing. Witnesses shall not be sworn, unless specifically requested by either party, or by the panel. The panel may ask questions of any witness, and every party shall have the opportunity to cross-examine any witness presented by a participating party. Upon the request of either the subject individual or a representative of the Comptroller's legal staff, the record shall remain open for a period of five (5) business days following the hearing, during which time the parties may make any additional, relevant submissions to the record. Thereafter, the record shall be closed.

(d) The panel will make its recommendations to the Comptroller within ten (10) business days following the closing of the record, except that such period may be extended by the Comptroller.

§ 24.4 Waiver of hearing.

The subject individual may, in writing, waive an oral hearing, and elect instead to have the matter determined by the Comptroller on the basis of written submissions alone.

§ 24.5 Decision of the Comptroller.

(a) Within thirty (30) days following receipt of the panel's recommended decision, or receipt of the subject individual's written submissions where a hearing has been waived pursuant to § 24.4, the Comptroller shall render his decision. The decision shall include a statement of the basis for the decision, and such statement shall be provided to the subject individual and to the bank.

(b) The Comptroller may extend this thirty (30) day time period for good cause, but in no instance shall the extension be greater than sixty (60) days after the close of the hearing, or after the receipt of written submissions if the hearing has been waived. Where an extension is required, the individual will be notified of the reason for the extension and of the expected date upon which a final decision will be rendered.

§ 24.6 Reconsideration by the Comptroller.

(a) The subject individual shall have ten (10) business days following receipt of the decision of the Comptroller in which to petition the Comptroller for reconsideration.

(b) The subject individual shall also be entitled to petition the Comptroller for reconsideration of his decision any time after the expiration of a one-year period from the date of the Comptroller's decision; *Provided, however*, that no petition for reconsideration may be made within one year of a previous petition.

(c) A petition for reconsideration shall state with particularity the basis for reconsideration, the relief sought, and any exceptions the individual takes to the Comptroller's finding. A petition may be accompanied by a memorandum of points and authorities in support of the petition, and any supporting documentation the individual may wish to have considered.

(d) No hearing need be granted on any such petition for reconsideration. The Comptroller shall promptly render his decision following receipt of the petition.

§ 24.7 Relevant considerations.

(a) In deciding the question of suspension under this section, the Comptroller will consider the following:

(1) Whether the alleged offense: (i) Is a felony (or a misdemeanor under State or territorial law which, because of the length of the maximum sentence that may be imposed, is equivalent to a felony under Federal law), and (ii) involves dishonesty or breach of trust;

(2) Whether the continued presence of the subject individual in his position constitutes a possible danger to the safety of deposits or the soundness of the national bank because of: (i) The nature and extent of the individ-

ual's participation in the affairs of the national bank; or (ii) the nature of the offense with which the individual has been charged;

(3) Whether there is cause to believe that there may be an erosion of public confidence in the integrity, safety, or soundness of the particular bank or the national banking system (either generally or in the particular locality in which the bank is situated) if the subject individual is permitted to remain in his position in that bank; and

(4) Whether the individual is covered by the bank's fidelity bond, and, if so, whether the bonding company is likely to revoke the bond, or coverage under the bond is likely to be adversely affected, as a result of the charge.

(b) The Comptroller may consider any other factors which, in the specific case appear relevant to the continuation of a suspension order.

(d) In deciding whether a notice of suspension and/or prohibition shall continue in effect or shall terminate, the Comptroller shall not consider the ultimate question of the guilt or innocence of the subject individual with regard to the offense with which he has been charged.

Dated: January 6, 1978.

JOHN G. HEIMANN,

##### COMMUNITY REINVESTMENT ACT OF 1977

Joint Hearing

AGENCY: Federal Reserve System, Comptroller of the Currency, Federal

Deposit Insurance Corporation, and Federal Home Loan Bank Board.

ACTION: Notice of joint hearing.

SUMMARY: The Community Reinvestment Act of 1977 (the "CRA") requires each appropriate Federal financial supervisory agency to use its authority when examining financial institutions, to encourage such institutions to help meet the credit needs of the local communities in which they are chartered consistent with the safe and sound operation of such institutions. This document announces a joint hearing to be held to aid these agencies in the preparation of regulations prescribed by the "CRA". The document also sets forth questions the agencies are especially interested in having addressed in written and oral submissions.

DATES: Hearing: March 15 and 16, 1978, at 10 a.m. Comments: Due on or before March 8, 1978. The agencies also expect to hold hearings in the following cities between March 20 and April 20, 1978: Atlanta, Boston, Chicago, Dallas, and San Francisco. Details regarding exact times and places will be announced later.

ADDRESSES: Hearing location: Conference Room E, Terrace Level, Federal Reserve Martin Building Annex, 20th and C Street NW., Washington, D.C. Comments: Send to Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

#### FOR FURTHER INFORMATION CONTACT:

Robert J. Lawrence, Deputy Staff Director for Management, Federal Reserve System, Washington, D.C. 20551, phone 202-452-3766.

SUPPLEMENTARY INFORMATION: On October 12, 1977, the President signed into law the Housing and Community Development Act of 1977 (Pub. L. 95-128). Title VIII of that Act is the Community Reinvestment Act of 1977 ("the CRA"). The CRA requires that, in connection with its examination of a financial institution within its jurisdiction, the Board of Governors of the Federal Reserve System, the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Federal Home Loan Bank Board (collectively referred to as "the agencies") shall assess the institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the institution, and that the appropriate agency take that record into account in its evaluation of any application by the institution for a charter, deposit insurance, branch or other deposit facility, office relocation, merger, or acquisition of bank or savings institution shares. Pursuant to the author-

ity contained in section 806 of the CRA, the agencies will prescribe regulations to carry out the purposes of the CRA to take effect no later than November 8, 1978.

On behalf of the four agencies, notice is hereby given that, to aid in the preparation of those regulations, a hearing will be held before representatives of the agencies in conference room E on the terrace level of the Federal Reserve's Martin Building Annex, 20th and C Streets NW., Washington, D.C., on March 15 and 16, 1978. The proceedings will commence at 10 a.m. on both dates and will consist of presentations of statements in oral or written form. Interested persons are invited, however, to submit written comments regardless of whether they intend to participate in the hearing.

The agencies also expect to hold hearings in the following cities between March 20 and April 20, 1978: Atlanta, Boston, Chicago, Dallas, and San Francisco. Details regarding exact times and places will be announced later.

Any person desiring to submit written comments, give testimony, present evidence, or otherwise participate in the proceedings should file with the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, on or before March 8, 1978, four copies of their written comments or a written request containing a statement of the nature of the petitioner's interest in the proceedings, the city in which petitioner wishes to testify, the length of time requested for oral presentation, a summary of the matters concerning which the petitioner wishes to give testimony or submit evidence, and the names and identify of witnesses who propose to appear. Copies of all written submissions will be distributed by the Board of Governors to each of the other agencies and will be made available for public inspection and copying upon request in accordance with the agencies' respective rules regarding availability of information. All material submitted should refer to Docket No. R-0139.

To aid persons in preparing written comments and testimony, the text of the CRA is reprinted below, followed by questions that the agencies are especially interested in having addressed in written and oral submissions.

#### TITLE VIII—COMMUNITY REINVESTMENT

Sec. 801. This title may be cited as the "Community Reinvestment Act of 1977."

Sec. 802. (a) The Congress finds that—

(1) Regulated financial institutions are required by law to demonstrate that their deposit facilities serve the convenience and needs of the communities in which they are chartered to do business;

(2) The convenience and needs of communities include the need for credit services as well as deposit services; and

(3) Regulated financial institutions have continuing and affirmative obligation to

help meet the credit needs of the local communities in which they are chartered.

(b) It is the purpose of this title to require each appropriate Federal financial supervisory agency to use its authority when examining financial institutions, to encourage such institutions to help meet the credit needs of the local communities in which they are chartered consistent with the safe and sound operation of such institutions.

Sec. 803. For the purposes of this title—

(1) The term "appropriate Federal financial supervisory agency" means—

(A) The Comptroller of the Currency with respect to national banks;

(B) The Board of Governors of the Federal Reserve System with respect to State-chartered banks which are members of the Federal Reserve System and bank holding companies;

(C) The Federal Deposit Insurance Corporation with respect to State-chartered banks and savings banks which are not members of the Federal Reserve System and the deposits of which are insured by the Corporation; and

(D) The Federal Home Loan Bank Board with respect to institutions the deposits of which are insured by the Federal Savings and Loan Insurance Corporation and to savings and loan holding companies;

(2) The term "regulated financial institution" means an insured bank as defined in section 3 of the Federal Deposit Insurance Act or an insured institution as defined in section 401 of the National Housing Act; and

(3) The term "application for a deposit facility" means an application to the appropriate Federal financial supervisory agency otherwise required under Federal law or regulations thereunder for—

(A) A charter for a national bank or Federal savings and loan association;

(B) Deposit insurance in connection with a newly chartered State bank, savings bank, savings and loan association, or similar institution;

(C) The establishment of a domestic branch or other facility with the ability to accept deposits of a regulated financial institution;

(D) The relocation of the home office or a branch office of a regulated financial institution;

(E) The merger or consolidation with, or the acquisition of the assets, or the assumption of the liabilities of a regulated financial institution requiring approval under section 18(e) of the Federal Deposit Insurance Act or under regulations issued under the authority of title IV of the National Housing Act; or

(F) The acquisition of shares in, or the assets of, a regulated financial institution requiring approval under section 3 of the Bank Holding Company Act of 1956 or section 408(e) of the National Housing Act.

Sec. 804. In connection with its examination of a financial institution, the appropriate Federal financial supervisory agency shall—

(1) Assess the institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of such institution; and

(2) Take such record into account in its evaluation of an application for a deposit facility by such institution.

Sec. 805. Each appropriate Federal financial supervisory agency shall include in its annual report to the Congress a section out-

lining the actions it has taken to carry out its responsibilities under this title.

Sec. 806. Regulations to carry out the purposes of this title shall be published by each appropriate Federal financial supervisory agency, and shall take effect no later than 390 days after the date of enactment of this title.

#### QUESTIONS

A. Community. Section 804 of the Act requires the Agencies to assess an institution's record of meeting the credit needs "of its entire community, including low- and moderate-income neighborhoods . . ."

1. How should the terms "entire community" and "low- and moderate-income neighborhoods" be defined?

2. Should the geographic determination of community vary for different types of credit needs, such as mortgage, agricultural, business, or consumer credit needs?

3. Should identical community measurement criteria be used for urban, suburban, and rural communities?

4. Should the definitions take into account the size, location, or branch structure of an institution?

5. Should the geographic criteria for these definitions be framed in terms of political boundaries, such as city limits, counties and metropolitan areas; or should the criteria relate to economic bases such as trading areas, areas from which deposits are obtained, or banking market areas?

B. Credit needs. Section 804 of the Act requires the agencies to assess an institution's record of meeting the "credit needs" of its community.

1. How should "credit needs" be defined and measured? What is the difference, if any, between needs for credit and demands for credit? To what extent should the lenders' creditworthiness standards influence the definition and measurement of credit needs?

2. Do community credit needs include financing needs of State and local governments and other local public agencies?

3. How should the credit needs of those who have access to regional or national credit markets, and those who do not have such access, be taken into account in determining community credit needs?

4. To what extent do community credit needs include the credit needs of borrowers operating within many communities such as the Federal government and large manufacturing and retail firms?

C. Assessing an institution's record. Section 804 of the Act requires the agencies "to assess" an institution's record in meeting community credit needs.

1. What reporting or record keeping by financial institutions is necessary to carry out the purposes of the Act?

2. To what extent should the agencies consider lending policy statements of a financial institution?

3. In the assessment process, should the same standards be applied to national banks; State-chartered banks which are members of the Federal Reserve System; bank holding companies; State-chartered banks which are not members of the Federal Reserve System and the deposits of which are insured by the Federal Deposit Insurance Corporation; savings banks which are not members of the Federal Reserve System and the deposits of which are insured by the Federal Deposit Insurance Corporation; and savings and loan holding companies?

4. Should the agencies apply the same standards in assessing the records of large and small institutions? Urban, suburban, and rural institutions? Institutions that may lawfully open branches and those that may not?

5. For what period of time should an institution's record be assessed?

6. In determining whether the credit needs of a community are being met, should the credit extended by all financial institutions in that community be combined and compared to the community's total credit needs? Should a particular institution be considered to have a satisfactory record if it is contributing a proportionate share of the total credit extended in the community?

7. Should an institution's efforts in meeting specific types of local credit needs be weighed equally in assessing whether it is helping to meet the credit needs of its entire community?

8. In making assessments, how should the agencies take into account specialization in meeting certain types of credit needs (for example, agricultural loans, business loans, mortgage loans, investments in municipal securities) by an institution being assessed or by other institutions in the community?

9. What criteria should be used in determining whether an institution is helping to meet community credit needs "consistent with the safe and sound operation" of that institution?

10. How should the agencies assess the record of institutions with branch offices, of affiliated institutions within a holding company, or of affiliated institutions not in a holding company? How should the records of individual offices be taken into account in assessing the parent or affiliated company?

11. In making the assessment, what consideration, if any, should be given to the institution's costs and sources of funds? To its rate of return on investment? To its liquidity?

12. For institutions with foreign offices, how should the extent of foreign loans and foreign deposits be taken into account, if at all, in the assessment?

## PROPOSED RULES

D. *Evaluating applications.* Section 804 of the Act requires the agencies to take an institution's record into account in evaluating its applications.

1. What weight should be given to the record of the institution in meeting community credit needs compared to the weight given other factors such as competition, safety and soundness, and other managerial and financial factors?

2. Under what circumstances, if any, should the agencies deny an application? Approve an application on the condition that the institution improve its record? Grant unconditional approval?

E. *Other administrative matters.* 1. Section 802(b) of the Act indicates that its purpose is to require the agencies to "encourage" institutions to help meet community credit needs. In addition to decisions on applications, how may or should the agencies use their authority to "encourage" institutions?

2. If an agency believes that an institution's record in meeting community credit needs is unsatisfactory, what action, if any, may or should the agency take when there is not a pending application?

3. What are the specific policies or regulatory requirements, other than those stated in response to the previous questions, which you believe the agencies are required to follow or should follow in fulfilling their responsibilities under the Act?

This notice is published pursuant to section 553(b) of Title 5 United States Code.

THEODORE E. ALLISON,  
Secretary of the Board.  
GAIL W. POHN,  
Associate Deputy Comptroller.  
ALAN R. MILLER,  
Executive Secretary, Federal  
Deposit Insurance Corporation.

# DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[24 CFR Part 1917]

[Docket No. FI-37961]

CITY OF AVALON, LOS ANGELES COUNTY, CALIF.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Avalon, Los Angeles County, Calif. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Planner's Office, Santa Catalina Island, Avalon, Calif. Send comments to Mr. Charles Wagner, City Manager, City of Avalon, City Hall, 209 Metropole Avenue, Avalon Calif. 90704.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Avalon, Calif., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Avalon Canyon.....	Intersection of Tremont St. and Claressa Ave.	32
	Intersection of Beacon St. and Catalina Ave.	19
	Intersection of Third St. and Catalina Ave.	15
	Intersection of Sumner Ave. and Crescent Ave.	13

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 28, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Newark, Calif., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Line B.....	Birch St.*.....	26
	Cherry Rd.....	22
	Mowry Ave.*.....	10
Line I.....	Sycamore St.....	17
	Southern Pacific RR.	16
	Spruce St.....	11
	Thorton Ave.....	10
Line H.....	Haley St.....	15
	Southern Pacific RR.	15
	Bettencourt St.....	10
	Thornton Ave.....	10
Line F-1.....	Cedar St.....	32
	Birch St.....	26
	Cherry St.....	22
	Magnolia St.....	20
	Southern Pacific RR.	18
	Fibert St.....	11
	Elm St.....	10

## PROPOSED RULES

Source of flooding	Location	Elevation in feet, national geodetic vertical datum

[Docket No. FI-37981]

CITY OF THOUSAND OAKS, VENTURA COUNTY, CALIF.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Thousand Oaks, Ventura County, Calif. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, 401 West Hillcrest Drive, Thousand Oaks, Calif. Send Comments to: Mayor Alex Fiore, City Hall, 401 West Hillcrest Drive, Thousand Oaks, Calif. 91360.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Ad-

ministrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Thousand Oaks, Calif., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
South Branch Arroyo Conejo.	Vent-Tu Park Rd.	621
	U.S. Highway 101 (Rancho Conejo Blvd. Overpass).	641
	Kimber Rd.....	684
	West Lynn Rd.....	736
	Briar Rd.....	757
	(upstream side).	
Tributary to South Branch Arroyo Conejo.	Reno Rd.....	663
Lang Creek.....	Wilbur Rd.....	750
	Combes Ave.....	761
	Gainsborough Rd..	763

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 28, 1977.

[Docket No. FI-3799]

#### TOWN OF ERIE, WELD AND BOULDER COUNTIES, COLO.

##### Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Erie, Weld and Boulder Counties, Colo. These base (100-year) flood elevations are the basis for the flood plan management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Town Hall, Erie, Colo. Send comments to: Mayor Harlan Brock, P.O. Box 98, Erie, Colo. 80516.

##### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Erie, Colo., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum

#### PROPOSED RULES

that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Coal Creek.....	Briggs, St.....	5011
	Cheesman St.....	5016
	Moffat St.....	5020
	Anderson St.....	5023

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

##### Proposed Flood Elevation Determinations; Correction

AGENCY: Federal Insurance Administration, HUD.

ACTION: Correction of proposed rule.

SUMMARY: This document corrects a proposed rule on base (100-year) flood elevations that appeared on page 59197 of the FEDERAL REGISTER of November 15, 1977.

EFFECTIVE DATE: November 15, 1977.

##### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

The following elevation should be added:

#### PROPOSED RULES

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Apopka, Fla., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Lake Francis.....	From a point on Francis Dr. which is 970 ft west along the road from the intersection with Kilean Court, flooding exists from 120 ft south of this point to the shoreline.	68
Lake Alden.....	From a point on Errol Parkway which is 3,900 ft south along the road from the intersection with Francis Dr., flooding exists from 150 ft east of this point to the shoreline.	70
Lake Marion.....	East of Schopke Lester Rd.	66
Dream Lake.....	The intersection of Laurel St. and Central Ave.	117
Lake McCoy.....	Votaw Road Bridge.	65
Buchan Pond.....	West side of Lake Ave. from Nightingale St. to Grossenbacher Dr.	140
Upper Doe Lake.....	At north, south, and west corporate limits.	70

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Waggons Pond.....	Shoreline.....	11

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 28, 1977.

#### [4210-01]

[24 CFR Part 1917]

[Docket No. FI-3804]

#### COBB COUNTY, GEORGIA

##### Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the pro-

posed base (100-year) flood elevations listed below for selected locations in Cobb County, Ga.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Cobb County Courthouse, 10 East Park Square, Marietta, Georgia. Send comments to: Mr. Ernest W. Barrett, Chairman, Cobb County Commission, P.O. Box 649, Marietta, Ga.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for Cobb County, Ga., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

[Docket No. FI-3805]

CITY OF NEWNAN, COWETA COUNTY, GA.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Newnan, Coweta County, Ga.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, 25 Jefferson Street, Newnan, Ga.

Send comments to: Mayor Joe P. Norman or City Planner George D. Robinson, P.O. Box 1193, Newnan, Ga. 30264.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Newnan, Coweta County, Ga., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 930234), 87

Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Wahoo Creek	Just downstream of Atlanta and West Point Railroad.	851
	Approximately 150 feet upstream of Bullsboro Dr. (State Highway 34).	874
	Approximately 75 feet upstream of East Broad St.	890
Tributary 1	Phillips Street (extended).	930
Tributary 2	Approximately 100 feet upstream of lower crossing of Bullsboro Dr. (State Highway 34).	871
	Just upstream of Jefferson St.	909
Tributary 3	Just upstream of Bullsboro Dr.	871
Tributary 4	Approximately 630 feet upstream of confluence with Tributary 3.	872
Tributary 5	Approximately 120 feet upstream of confluence with Tributary 2.	875
Tributary 6	Approximately 200 feet upstream of confluence with Tributary 2.	881
Tributary 7	Just upstream of American Avenue.	880
	Approximately 100 feet downstream of Church St.	
Tributary 8	Just downstream of Greison Trail.	896

## PROPOSED RULES

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Tributary 9	Approximately 860 feet upstream of confluence with Wahoo Creek.	875
Tributary 10	Approximately 160 feet downstream of Greison Trail.	930
Tributary 11	Just upstream of Roberts Rd.	893
Tributary 12	Just downstream of Pinson St.	915
	Just upstream of Calhoun St.	930
Snake Creek	Just upstream of Christian Dr.	859
	Just upstream of Willow Dr.	890
	Just downstream of Atkinson St.	925
Tributary 13	Approximately 180 feet upstream of confluence with Snake Creek.	875
Tributary 14	Just downstream of Willow Dr.	899
Mineral Springs Branch	Just upstream of Boone Drive.	885
	Approximately 75 feet downstream of Fourth St.	890
Tributary 15	Southern corporate limits.	841
Tributary 16	Western corporate limits.	835
	Just downstream of Washington St.	870
Sandy Creek	Just upstream of Water Works Rd.	835
	Just upstream of Sewell Rd.	860
	Just upstream of Alpine Dr.	901

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

UNINCORPORATED AREAS OF ROCKDALE COUNTY, GA.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the pro-

posed base (100-year) flood elevations listed below for selected locations in the unincorporated areas of Rockdale County, Ga.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Planning and Inspection office, 922 Court Street, Conyers, Ga.

Send comments to: Mr. Hayward Woodward, Chairman of the County Commissioners, or Mr. Raymond G. Davis, Jr., Director of Community Development, P.O. Box 289, Conyers, Ga. 30207.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the unincorporated areas of Rockdale County, Ga., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood evaluations for selected locations are:

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Village of Elk Grove, Cook County, Ill. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed

rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Elk Grove Village Hall, 901 Wellington Street, Elk Grove, Ill. Send comments to: Honorable Charles Zettek, Mayor of Elk Grove, 901 Wellington Street, Elk Grove, Ill. 60007.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Village of Elk Grove, Cook County, Ill., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Salt Creek.....	Downstream corporate limits. J. F. Kennedy Blvd.	683 685
	Upstream corporate limits. J. F. Kennedy Blvd.	687 684
Elk Grove Blvd. drainage ditch.	Elk Grove Blvd..... Ridge Ave..... Victoria LA..... Crest Ave..... Love St.....	684 684 685 685 685

## PROPOSED RULES

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Unnamed creek	Tonne Rd.	885
	Downstream corporate limits.	711
	Nerge Rd. (downstream).	712
West branch of Salt Creek.	Nerge Rd. (upstream).	716
	Downstream corporate limits.	709
	Confluence with Tributary D.	710
Tributary D of west branch Salt Creek.	Upstream corporate limits.	711
	Confluence with west branch Salt Creek.	710
	Elk Grove corporate limits.	722

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 27, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

## CITY OF SATSUMA, MOBILE COUNTY, ALABAMA

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Satsuma, Mobile County, Calif. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Satsuma, Ala. Send comments to: Mayor W. A. Winters, P.O. Box 517, Satsuma, Ala. 36572.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Satsuma, Ala., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second-layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Steele Creek	Old Highway 43	11
	Southern RR	12
Spat Creek	Orange Ave	10
	Corporate limits, 1,760' upstream from Orange Ave.	10
Tributary to Spat Creek	Tajacha Dr. North.	10
	Corporate limits, 720' upstream from Tajacha Dr. North.	11
Sweet Gum Creek	Juniper Ave.	11
	Northeast corporate limits.	11
Gunnison Creek	East corporate limits.	10

## CITY OF DOUGLAS, COCHISE COUNTY, ARIZ.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Douglas, Cochise County, Ariz. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of Public Works, City Hall, Douglas, Ariz. Send comments to: Mayor Ray D. Wilcox, 425 10th Street, Douglas, Ariz. 85607.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Douglas, Cochise County, Ariz., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum

that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum	Depth of flooding in feet above ground surface
Palm Grove Wash.	Just upstream of 16th St.	3,963	
	Intersection of "J" Ave. and 17th St.	3,968	
Palm Grove branch.	Intersection of 20th St. and Pan American Ave.	3,990	
Airport Rd. Channel.	Just downstream of Airport Ave.	4,120	
Major floodwater collection area within southwest section of city.	Just upstream of Pan American Avenue Bridge.	3,950	
Shallow flooding in southwest-central portion of town.	Intersection of "C" Ave. and 3d St.	1	
	Intersection of Dolores Ave. and 4th St.	1	
Pan American Ave. Channel.	Intersection of Pan American Ave. Channel and 10th St.	2	
Rose Ave. Channel.	West of intersection of Rose Ave. and 6th St.	3	
Washington Ave. Channel.	Intersection of Washington Ave. and 7th St.	3	
Louis Ave. Channel.	West of intersection of Louis Ave. and 17th St.	2	

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

[24 CFR Part 1917]  
[Docket No. FI-3817]

CITY OF SONOMA, SONOMA COUNTY, CALIF.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Sonoma, Sonoma County, Calif. These base (100-year) flood elevations are the basis for the flood plain management measures that the

community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Sonoma, Calif. Send comments to: Mr. Richard Rowland, Director of Public Works, City of Sonoma, City Hall, Sonoma, Calif. 95476.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll-free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Sonoma, Calif., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Sonoma Creek.....	Confluence with Dowdell Creek.	58
	Riverside Dr.....	75

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Nathanson Creek..	Napa Rd.....	51
	East MacArthur St.	68
	Patten St.....	79
	Sebastiani Bridge.	96
Fryer Creek.....	MacArthur St. (upstream side).	64
	Andrieux St.....	68

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

[Docket No. FI-3820]

#### TOWN OF BAYFIELD, LA PLATA COUNTY, COLO.

##### Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Bayfield, La Plata County, Colo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Town Hall, Bayfield, Colo. Send comments to: Mayor E. W. Ranta, Town Hall, Bayfield, Colo. 81122.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Ad-

ministrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Bayfield, Colo., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Los Pinos River .....	U.S. Highway 160 (alternate).	6,865

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

[24 CFR Part 1917]

[Docket No. FI-3823]

**TOWN OF SILVER PLUME, CLEAR CREEK COUNTY, COLO.**

**Proposed Flood Elevation Determinations**

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Silver Plume, Clear Creek County, Colo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Town Hall, Silver Plume, Colo. Send comments to: Mayor Peter Kenney, Box 457, Silver Plume, Colo. 80476.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Silver Plume, Colo., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Clear Creek .....	U.S. Interstate 70 (upstream side).	9,905
	Cherokee St .....	9,108
	Woodward Ave .....	9,114
	Garland St .....	9,123

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

[Docket No. FI-3824]

**TOWN OF MADISON, NEW HAVEN COUNTY, CONN.**

**Proposed Flood Elevation Determinations**

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Madison, New Haven County, Conn.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the Na-

tional Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Planning and Zoning Office, Town Hall, Madison, Conn.

Send comments to: Mrs. Vera Dallas, First Selectman, or Mr. Edward Ellertson, Planning and Zoning Officer, 8 Meeting House Lane, Madison, Conn. 06443.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Madison, New Haven County, Conn., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Hammonasset River.	Approximately 100 feet upstream of Chestnut Hill Rd.	52
Hammonasset River.	Approximately 100 feet upstream of confluence of Camp Laurelwood Brook.	121
Hammonasset River.	Route 80 (Old Toll Rd.).	214
Camp Laurelwood Brook.	Just upstream of Summer Hill Rd.	184
Bailey Creek .....	Approximately 100 feet upstream of Sandeewood Rd.	11
Bailey Creek .....	Approximately 100 feet of Salem Rd.	12
Neck River .....	Approximately 100 feet upstream of Fort Path Rd.	17
Neck River .....	Approximately 200 feet downstream of Route 95 (Connecticut Turnpike).	21
Neck River .....	Approximately 100 feet downstream of Warpass Rd.	31
Long Island Sound	Entire shoreline...	11

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

**CITY OF BELLE ISLE, ORANGE COUNTY, FLA.**

**Proposed Flood Elevation Determinations**

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Belle Isle, Orange County, Fla.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or

show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Belle Isle, Fla.

Send comments to: Mayor W. C. Hand, P.O. Box 13135, Orlando, Fla. 32809.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Belle Isle, Fla., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These evaluations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Lake Conway .....	Shoreline .....	89
Little Lake Conway.	Shoreline .....	89

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

## RICHMOND COUNTY, GA.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in

## PROPOSED RULES

Richmond County, Ga. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City-County Building, Augusta, Ga. Send comments to: Mr. Harrell Tiller, Chairman, Richmond County Commissioners, Room 605, City-County Building, Augusta, Ga. 39003.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for Richmond County, Ga., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

[Docket No. FI-3827]

## VILLAGE OF WHEELING, COOK COUNTY, ILL.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Village of Wheeling, Cook County, Ill. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the pro-

posed base (100-year) flood elevations are available for review at Village Hall, Wheeling, Ill. Send comments to: Mr. Gregory J. Peters, Acting Village President, Village of Wheeling, Village Hall, Wheeling, Ill. 60090.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Village of Wheeling, Illinois, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Des Plaines River	Dan No. 1	640
	Dundee Rd.	641
Wheeling Drainage Ditch.	Hintz Rd.	641
	Jeffery Ave.	645
	Dundee Rd.	648
	12th St.	648

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Ellinwood, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the

Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected location are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Arkansas River.....	950 feet upstream from County Road Bridge.	1,788
	2000 feet upstream from County Road Bridge.	1,787
	0.86 mile upstream from County Road Bridge.	1,790

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

CITY OF HALSTEAD, HARVEY COUNTY, KANS.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Halstead, Harvey County,

Kans. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Halstead, Kans. Send comments to: Mr. Ken Pfeiffer, City Administrator, City of Halstead, City Hall, Halstead, Kans. 67056.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Halstead, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Little Arkansas River.	1900 feet Upstream from County Rd. (6th Street Extended) Bridge.	1,393
	50 feet Downstream from Atchison Topeka Santa Fe Railroad Bridge.	1,394
	Upstream of Atchison Topeka Santa Fe Railroad Bridge.	1,396
	530 feet Upstream from Main Street Bridge.	1,397
	1160 feet Downstream from County Road FAS 307.	1,398
Black Kettle Creek.	350 feet Downstream from Main Street.	1,397
	County Road ..... 1100 feet	1,398
Halstead Slough.....	Upstream from Tenth Street Bridge.	1,392

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations

listed below for selected locations in the town of Abbot, Piscataquis County, Maine. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Town Office, Abbot, Maine 04406. Send comments to: Mr. Erwin McAllister, Chairman of the Board of Selectmen, RFD, Abbot, Maine 04406.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Abbot, Piscataquis County, Maine, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Piscataquis River	Just upstream of Upper Abbot Bridge (Government Farm Rd.).	419
	Just downstream of Back Gullford Rd.	401
Brown Brook	Approximately 200 ft downstream of the abandoned railroad bridge.	403
Kingsbury Stream	Approximately 150 ft upstream of Abbot Village Bridge (Perkins Rd., Route 15).	433

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

(Docket No. FI-3834)

## TOWN OF LONGMEADOW, HAMPDEN COUNTY, MASS.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Longmeadow, Hampden County, Mass. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Planning Board's Office, Town Hall, 20 Williams

Street, Longmeadow, Mass. 01106. Send comments to: Mr. Clifford Zundell, Chairman, Board of Selectmen, Town Hall, 20 Williams Street, Longmeadow, Mass. 01106. Attention: Mr. Joseph Coty, Town Engineer.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Longmeadow, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Connecticut River.	At southern corporate limit.	56
	10,000' ft upstream of confluence of Longmeadow Brook.	58
Longmeadow Brook.	Confluence with Connecticut River.	57
	400 ft downstream of Route 91.	58
	300 ft upstream of Route 91.	63
	150 ft downstream of Longmeadow St.	64
	Upstream end of Longmeadow St. culvert.	78

PROPOSED RULES

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
	800 ft upstream of Mill Rd.	78
	325 ft downstream of Old Shaker Rd.	82
	50 ft downstream of Old Shaker Rd.	88
	50 ft upstream of Shaker Rd.	101

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

SUPPLEMENTARY INFORMATION:

The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Davison, Mich., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing building and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Black Creek.....	Private bridge at upstream corporate limits.	785
	Main St.*	782
	Michigan	780
	Route 15* Dayton St.*	777

\*Downstream side.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

PROPOSED RULES

[4210-01]

[24 CFR Part 1917]

(Docket No. FI-3836)

VILLAGE OF GOODRICH, GENESSEE COUNTY, MICH.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the village of Goodrich, Genessee County, Mich. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Village Hall, 10237 Hegel Road, Goodrich, Mich. Send comments to: Mr. Douglas Pierson, Village President, Village of Goodrich, Village Hall, 10237 Hegel Road, Goodrich, Mich. 48438.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Village of Goodrich, Mich., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood

plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Kearsley Creek.....	Dutch Rd.....	858
	Erie St.....	864
	Rhodes Rd.....	882

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PROPOSED RULES

[4210-01]

[24 CFR Part 1917]  
[Docket No. FI-3838]

TOWNSHIP OF MENOMINEE, MENOMINEE  
COUNTY, MICH.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Adminis-  
tration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or  
comments are solicited on the pro-  
posed base (100-year) flood elevations  
listed below for selected locations in  
the township of Menominee, Meno-  
minee County, Mich. These base (100-  
year) flood elevations are the basis for  
the flood plain management measures  
that the community is required to  
either adopt or show evidence of being  
already in effect in order to qualify or  
remain qualified for participation in  
the national flood insurance program  
(NFIP).

DATES: The period for comment will  
be ninety (90) days following the  
second publication of this proposed  
rule in a newspaper of local circulation  
in the above-named community.

ADDRESSES: Maps and other infor-  
mation showing the detailed outlines  
of the flood-prone areas and the pro-  
posed base (100-year) flood elevations  
are available for review at Township  
Hall, Menominee, Mich. Send com-  
ments to: Mr. Art Ostrenga, Township  
Supervisor, Township of Menominee,  
RA 392, Menominee, Mich. 49858.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Richard Krimm, Assistant Ad-  
ministrator, Office of Flood Insur-  
ance, 202-755-5581 or Toll Free Line  
800-424-8872, Room 5270, 451  
Seventh Street SW., Washington,  
D.C. 20410.

SUPPLEMENTARY INFORMATION:  
The Federal Insurance Administrator  
gives notice of the proposed determi-  
nations of base (100-year) flood eleva-  
tions for the township of Menominee,  
Mich., in accordance with section 110  
of the Flood Disaster Protection Act  
of 1973 (Pub. L. 93-234), 87 Stat. 980,  
which added section 1363 to the Na-  
tional Flood Insurance Act of 1968  
(Title XIII of the Housing and Urban  
Development Act of 1968 (Pub. L. 90-  
448)), 42 U.S.C. 4001-4128, and 24 CFR  
1917.4(a).

These elevations, together with the  
flood plain management measures re-  
quired by section 1910.3 of the pro-  
gram regulations, are the minimum  
that are required. They should not be  
construed to mean the community  
must change any existing ordinances  
that are more stringent in their flood  
plain management requirements. The

community may at any time enact  
stricter requirements on its own, or  
pursuant to policies established by  
other Federal, State or regional enti-  
ties. These proposed elevations will  
also be used to calculate the appropri-  
ate flood insurance premium rates for  
new buildings and their contents and  
for the second layer of insurance on  
existing buildings and their contents.  
The proposed base (100-year) flood  
elevations for selected locations are:

Source of Flooding	Location	Elevation in feet, national geodetic vertical datum
Menominee River..	Riverbank at downstream corporate limits.	611
	Riverbank at upstream corporate limits.	615
Green Bay .....	Shoreline .....	584

(National Flood Insurance Act of 1968 (Title  
XIII of Housing and Urban Development  
Act of 1968), effective January 28, 1969 (33  
FR 17804, November 28, 1968), as amended  
(42 U.S.C. 4001-4128); and Secretary's dele-  
gation of authority to Federal Insurance  
Administrator, 34 FR 2680, February 27,  
1969, as amended (39 FR 2787, January 24,  
1974).)

Issued: November 29, 1977.

enth Street SW., Washington, D.C.  
20410.

SUPPLEMENTARY INFORMATION:  
The Federal Insurance Administrator  
gives notice of the proposed determi-  
nations of base (100-year) flood eleva-  
tions for the city of New Baltimore,  
Mich., in accordance with section 110  
of the Flood Disaster Protection Act  
of 1973 (Pub. L. 93-234), 87 Stat. 980,  
which added section 1363 to the Na-  
tional Flood Insurance Act of 1968  
(Title XIII of the Housing and Urban  
Development Act of 1968 (Pub. L. 90-  
448)), 42 U.S.C. 4001-4128, and 24 CFR  
1917.4(a).

These elevations, together with the  
flood plain management measures re-  
quired by section 1910.3 of the pro-  
gram regulations, are the minimum  
that are required. They should not be  
construed to mean the community  
must change any existing ordinances  
that are more stringent in their flood  
plain management requirements. The  
community may at any time enact  
stricter requirements on its own, or  
pursuant to policies established by  
other Federal, State, or regional enti-  
ties. These proposed elevations will  
also be used to calculate the appropri-  
ate flood insurance premium rates for  
new buildings and their contents and  
for the second layer of insurance on  
existing buildings and their contents.  
The proposed base (100-year) flood  
elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Crapaud Creek .....	Main St. ....	578
	Green St. ....	578
	Perren St. ....	579
	Base Rd .....	580

ENVIRONMENTAL PROTECTION  
AGENCY

[40 CFR Part 55]  
[ERL 846-6]

ENERGY RELATED AUTHORITY: KANSAS

Proposed Withdrawal of Compliance Date  
Extension

AGENCY: Environmental Protection  
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Administrator of the  
U.S. Environmental Protection Agency  
proposes to withdraw the Compliance  
Date Extension previously issued to  
the Kansas City, Kansas Board of  
Public Utilities, Kaw Station, Unit K-  
3, Kansas City, Kans. The Compliance  
Date Extension was promulgated in  
the FEDERAL REGISTER of October 5,  
1976, (41 FR 43904), pursuant to § 119  
of the Clean Air Act of 1970, as  
amended (42 U.S.C. 1857c-10), setting  
out compliance by September 1, 1977.

DATE: Comments must be received on  
or before February 24, 1978.

ADDRESS: Comments should be sent  
to Director, Enforcement Division,  
U.S. Environmental Protection  
Agency, Region VII, 1735 Baltimore,  
Kansas City, Mo. 64108. Information  
on which this proposal is based is  
available for public inspection at the  
Environmental Protection Agency,  
Region VII Office, 1735 Baltimore,  
Kansas City, Mo. 64108.

FOR FURTHER INFORMATION  
CONTACT:

Gale A. Wright or Henry F. Rom-  
page, Legal Branch, EPA, Region  
VII, 1735 Baltimore, Kansas City,  
Mo. 64108, 816-374-2576.

SUPPLEMENTARY INFORMATION:  
This withdrawal of the Compliance  
Date Extension is made necessary by  
the failure of the source to meet the  
September 1, 1977, date for compli-  
ance, due to an inability to upgrade  
the original control equipment to the  
necessary efficiency to achieve compli-  
ance, as originally planned. New equip-  
ment must be installed under a new  
compliance schedule. The Compliance  
Date Extension for Unit K-1 issued at  
the same time remains in effect.

This proposed rulemaking is issued  
under the authority of sections 110,  
113(d) and 301 of the Clean Air Act.

3401

Dated January 16, 1978.

EARL J. STEPHENSON,  
Acting Regional Administrator.

In part 55 of Chapter I, Title 40 of  
the Code of Federal Regulations,  
§ 55.872 is amended by revising the in-  
troduutory text of paragraph (a) and  
by revising paragraph (a)(1) to read as  
follows:

Subpart R—Kansas

§ 55.872 Compliance date extension.

(a) The Administrator issues a Com-  
pliance Date Extension to the Kansas  
City Board of Public Utilities, Kaw  
Station, Unit K-1, 2015 Kansas,  
Kansas City, Kansas (the source) upon  
the following conditions:

(1) *Regional Limitation.* Unit K-1  
shall comply with KAPEC 28-19-31A  
by December 31, 1978, in accordance  
with the approved compliance plan.

• • • • •  
(FR Doc. 78-2034 Filed 1-24-78; 8:45 am)

[6560-01]

[FRL 847-3]

[40 CFR Part 162]

PESTICIDE PROGRAMS

Special Packaging of Pesticides

AGENCY: Office of Pesticide Pro-  
grams, Environmental Protection  
Agency.

ACTION: Notice of availability of list  
of registrants.

SUMMARY: A list is being made avail-  
able of registrants who may have pes-  
ticide products that will be affected by  
the proposed regulations for the spe-  
cial packaging of pesticides.

DATES: This list will be available as  
of January 25, 1978.

ADDRESS: Requests for the list  
should be addressed to: Maureen J.  
Grimmer, Project Leader, (WH-566),  
Office of Pesticide Programs, Environ-  
mental Protection Agency, 401 M  
Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION  
CONTACT:

Maureen J. Grimmer, 202-755-8030  
or at the above address.

SUPPLEMENTARY INFORMATION:  
Since the publication of the proposed  
regulations for the special packaging  
of pesticides (42 FR 55235, Oct. 14,  
1977; 42 FR 63437, Dec. 16, 1977) the  
Agency has received several requests  
for a list of affected pesticide manu-  
facturers. The packaging industry  
would use such information to discov-  
er the packaging needs of the pesticide  
industry. Registrants would be con-  
tacted on the numbers, sizes and types

of containers needed. The sooner the flow of this information begins, the quicker and more smoothly the special packaging regulations will be implemented.

For this reason the Agency is making available a list of pesticide registrants who may have products affected by the proposed special packaging regulations. The list is not intended as a complete list. There may be registrants not on the list who have products which will be affected, and there may be registrants on the list who do not have products affected. However, this is as complete a list as the agency can compile at this time. Requests should specify the list entitled "Registrants who may have products affected by the proposed regulations for the Special Packaging of Pesticides."

Dated: January 18, 1978.

EDWIN L. JOHNSON,  
Deputy Assistant  
Administrator  
for Pesticide Programs.

(FR Doc. 78-2033 Filed 1-24-78; 8:45 am)

## [6712-01]

FEDERAL COMMUNICATIONS  
COMMISSION

[47 CFR PARTS 1, 73]

[Docket No. 21473]

## AM BROADCAST STATIONS

Conversion of Radiation Patterns for Inquiry;  
Order Extending Time for Filing Comments  
and Reply Comments

AGENCY: Federal Communications  
Commission.

ACTION: Order.

SUMMARY: Action taken herein extends the dates for filing comments and reply comments in a rulemaking proceeding concerning rules governing the conversion of radiation patterns for AM broadcast stations. Petitioner, Association of Federal Communications Consulting Engineers, states that the additional time is needed so that an ad hoc committee which it has established can review and respond to the questions outlined in the Notice of Inquiry in addition to obtaining suggestions from its members.

DATES: Comments must be filed on or before April 24, 1978, and reply comments on or before May 24, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION  
CONTACT:

Mildred B. Nesterak, Broadcast  
Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: January 11, 1978.

Released: January 18, 1978.

In the matter of amendment of rules governing the conversion of radiation patterns for AM Broadcast Stations, Docket No. 21473.

1. On November 9, 1977, the Commission adopted a *Notice of Inquiry*, 42 F.R. 59889, in the above-entitled proceeding. The dates for filing comments and reply comments are January 23, and February 22, 1978, respectively.

2. On January 9, 1978, the Association of Federal Communications Consulting Engineers ("AFCEE"), requested a 90-day extension of time in which to file comments. In support of its request, AFCEE states that at its meeting in December an ad-hoc committee was set up to review and respond to the questions outlined in the *Notice of Inquiry*, to obtain suggestions from members and to prepare comments to be submitted to the Executive Committee and to the outstanding membership of the AFCEE. AFCEE notes that the comments must then be approved by the membership before filing with the Commission.

3. We are of the view that the public interest would be served by this extension so that the Association of Federal Communications Consulting Engineers may file any information which could well be helpful to the Commission in reaching a decision in this proceeding.

4. Accordingly, it is ordered, That the dates for filing comments and reply comments in Docket No. 21473 are extended to and including April 24, and May 24, 1978, respectively.

5. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules. For the Federal Communications Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

[BC Docket No. 78-18; RM-2928]

TELEVISION BROADCAST STATION IN  
OPELIKA, ALA.

## Proposed Changes in Table of Assignments

AGENCY: Federal Communications  
Commission.

ACTION: Notice of Proposed Rule-  
making.

SUMMARY: Action herein proposes the assignment of a first UHF television channel to Opelika, Alabama. Petitioner, Wardean, Inc., states the proposed channel could bring a first local television service to the community.

DATES: Comments must be filed on or before March 17, 1978, and reply comments on or before April 6, 1978.

ADDRESSES: Federal Communica-  
tions Commission, Washington, D.C.  
20554.

FOR FURTHER INFORMATION  
CONTACT:

Mildred B. Nesterak, Broadcast  
Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:  
Adopted: January 13, 1978.

Released: January 20, 1978.

In the matter of amendment of § 73.606(b), *Table of Assignments*, Television Broadcast Stations. (Opelika, Alabama), BC Docket No. 78-18, RM-2928.

1. The Commission has under consideration a petition for rulemaking<sup>1</sup> seeking amendment of § 73.606(b) of the Commission's rules, the Table of Television Assignments. The petition was filed on behalf of Wardean, Inc. ("petitioner") requesting the assignment of UHF TV Channel 66 to Opelika, Alabama.

2. Opelika (pop. 19,027),<sup>2</sup> seat of Lee County (pop. 66,100), is located in the central eastern part of Alabama, approximately 24 kilometers (15 miles) west of the border between Alabama and Georgia.

3. According to estimates in a population study of Lee County by James Wright Associates of Atlanta, Opelika will have a population of 31,100 by 1995. We are told that Opelika is a growing community with a balance of industry, agriculture, commerce and trade. Petitioner notes that Opelika's industries are diversified and number over fifty. It adds that its agricultural products are beef, cotton, dairy products and poultry.

4. Opelika does not have a local television broadcast station nor is there one elsewhere in Lee County.

5. In view of the above, the Commission is persuaded that a sufficient public interest showing has been made to warrant further consideration of petitioner's proposal in a rule making proceeding. Channel 66 could be assigned in conformity with the Commission's distance separation requirements and other technical criteria and could bring the community its first local television service.

6. Accordingly, the Commission proposes to amend § 73.606(b) of the Commission's rules, the Television Table of Assignments, with regard to Opelika, Alabama, as follows:

<sup>1</sup>Public Notice of the petition was given on July 29, 1977 (Report No. 1068).

<sup>2</sup>Population figures are taken from the 1970 U.S. Census unless otherwise indicated.

## City and Channel No.

Opelika, Ala., Present —, Proposed 66.

7. The Commission's authority to institute rulemaking proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix below and are incorporated herein.

NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before March 17, 1978, and reply comments on or before April 6, 1978.

For the Federal Communications  
Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

## APPENDIX

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(8) of the Commission's rules, it is proposed to amend the TV Table of Assignments § 73.606(b) of the Commission's rules and regulations, as set forth in the notice of proposed rulemaking to which this Appendix is attached.

2. Showings required. Comments are invited on the proposal(s) discussed in the notice of proposed rulemaking to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. Cut-off procedures. The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. Comments and reply comments; service. Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rulemaking to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which

the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission rules).

5. Number of copies. In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. Public inspection of filings. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW, Washington, D.C.

[FR Doc. 78-2096 Filed 1-24-78; 8:45 am]

[Docket No. 19784; RM-2036; RM-2835]

FM BROADCAST STATIONS IN LEONARDTOWN  
AND LEXINGTON PARK, MD. AND FAL-  
MOUTH, VA.

## Proposed Changes in Table of Assignments

AGENCY: Federal Communications  
Commission.

ACTION: Memorandum Opinion and  
Order and Further Notice of Proposed  
Rulemaking.

SUMMARY: The FCC proposes to add FM Channel 240A at Leonardtown, Maryland, or in the alternative to add Channel 240A at Falmouth, Virginia. The channel can only be used in one of those places. It also proposes to delete FM Channel 249A at Leonardtown and add it at nearby Lexington Park, Maryland, since the station using Channel 249A is actually located at Lexington Park.

DATES: Comments are due on or before March 20, 1978, and reply comments on or before April 10, 1978.

ADDRESSES: Federal Communica-  
tions Commission, Washington, D.C.

## SUPPLEMENTAL INFORMATION:

MEMORANDUM OPINION AND ORDER AND  
FURTHER NOTICE OF PROPOSED RULE  
MAKING

Adopted: January 17, 1978.

Released: January 24, 1978.

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Leonardtown and Lexington Park, Md., and Falmouth, Va., Docket No. 19784, RM-2036, RM-2835.

1. We are considering here (1) a "Supplement to Petition for Rule Making: Order to Show Cause" ("Supplement") filed by Sound Media, Inc. ("Sound Media"), on October 26, 1976;

(2) a Response to the "Supplement" filed by Key Broadcasting Corporation ("Key"), on December 10, 1976; (3) an Opposition to the "Supplement" filed by Vincent L. Carr ("Carr"), on January 19, 1977; and (4) Sound Media's Reply to Carr's Opposition filed on January 28, 1977.

2. Background: Since this proceeding has involved several parties and several requests for different FM assignments, a brief history is in order. Originally, Sound Media and Key were mutually exclusive applicants for FM Channel 249A, Leonardtown, Md., which Key proposed to use at nearby Lexington Park, Md., under the 10 mile rule. The applications were designated for hearing in 1972, and a final Commission decision granting Key's application was released August 11, 1976. Key Broadcasting Corporation, 60 F.C.C. 2d 575 (1976). Both applicants were found qualified, but Key prevailed on a Section 307(b) (of the Communications Act) issue since its proposal would provide a first aural outlet at night to Lexington Park, while Sound Media's would provide a second aural outlet at night to Leonardtown, and Key's would provide a first nighttime aural service to more persons than Sound Media's. Since then Key has built its station, WMDM-FM, at Lexington Park, and has been on the air since December 10, 1976.

3. At an earlier stage in this proceeding, while the hearing between Sound Media and Key was still going on, we decided between conflicting proposals involving Sound Media and a third party, Edward Mason De Maso ("De Maso"). De Maso had proposed assigning Channel 276A at Grasonville, Md., while Sound Media, in an attempt to resolve the conflict between it and Key by providing both of them with assignments, proposed Channel 276A at Leonardtown and Channel 249A at Lexington Park. We granted De Maso's request and assigned Channel 276A at Grasonville, so De Maso is no longer a party in this proceeding. At the same time we declined to decide on an alternative proposal, to assign Channel 240A at Lexington Park, while leaving Channel 249A at Leonardtown, until after the end of the hearing between Sound Media and Key. Grasonville, Maryland, 35 R.R. 2d 614 (1975). Key was the only applicant interested in Lexington Park, and if its application were denied because of adverse findings on disqualifying issues, there would be no need for an assignment there.

<sup>1</sup>47 CFR Sec. 203(b) provides, "A [Class A] channel assigned to a community listed in the Table of Assignments is available upon application in any unlisted community which is located within 10 miles of the listed community \* \* \*."

4. The pleadings now under consideration were filed after the decision in the Sound Media-Key hearing became final, and relate to the proposal we had declined to decide while the hearing was going on: Whether Channel 240A should be assigned at Lexington Park, leaving Channel 249A at Leonardtown. However, there is now an additional conflicting proposal, that of Carr, to assign Channel 240A to Falmouth, Va. Sound Media asks that Channel 240A be assigned to Lexington Park, and Key be required to change to 240A, leaving Channel 249A vacant at Leonardtown. Key opposes this since it has already built its station on Channel 249A and could not change to 240A at its existing site because it would be short spaced to WISZ-FM, Glen Burnie, Md. Carr wishes Channel 240A to be assigned at Falmouth, Virginia, which conflicts with assigning it at Lexington Park. Sound media, however, argues that Carr's proposal cannot be entertained because it is untimely, by several years.

5. The first issue we must decide is whether Carr's proposal should be dismissed as untimely since it was not filed at the time that the original proposal for Leonardtown and Lexington Park were made. If so, we need only to decide on the proposals for Lexington Park and Leonardtown. If not, we must also consider whether we should propose assigning Channel 240A at Falmouth.

6. *Timeliness of Carr's proposal.* Sound Media argues that the cut-off provision of § 1.420(d) of the rules precludes consideration of Carr's proposal, since the original proposal and comments, which should have embodied all counterproposals, were filed in 1973, while Carr's proposal was filed in 1977. Carr, however, argues that the purpose of Section 1.420(d) is to facilitate orderly processing of FM proposals, and since in this case the Commission deferred deciding on the Channel 240A proposal until after the end of the comparative hearing, consideration of his proposal will not disrupt orderly processing.

7. We agree with Carr. We halted this proceeding in our decision in *Grasonville, Maryland, supra*, and announced we would consider the Channel 240A proposal later, after the comparative hearing was over. Since the facts are likely to have changed over a period of several years, it is only natural that a new round of pleadings would be filed after the hearing was over. (In fact the new round was started

\*Section 1.420(d) provides, "Counterproposals (in proceedings to amend the FM or TV Table of Assignments) shall be advanced in initial comments only and will not be considered if they are advanced in reply comments."

by Sound Media, although it was careful to phrase its request as a supplement to the original proposal rather than making a new or different proposal.) Carr's proposal is timely in reference to the new round of pleadings now before us. The purpose of the cut-off rule is to provide orderly processing of proposals taking into account the petitioner's interest in avoiding unnecessary delay and uncertainty as well as the public interest in having assignments to provide the most fair, efficient, and equitable distribution of service. Cf. Broadcast Applications (adopting cut-off rules for FM and TV applications), 53 F.C.C. 2d 1089, 1092 (1975). Carr's proposal, did not delay consideration of the Channel 240 proposal; the Sound Media-Key hearing caused the delay. Carr filed his proposal in a timely fashion after Sound Media's "Supplement" reviving the earlier proposal, and the public interest in assuring the best distribution of service will be better served by at least considering it.

8. *Sound Media's request.* Sound Media wishes us to adopt the proposal on which we did not act in 1975, to assign Channel 240A to Lexington Park, leaving Channel 249A at Leonardtown, and also asks us to require Key to change from operating on Channel 249A to Channel 240A. This would leave Channel 249A vacant for Sound Media to use at Leonardtown. However, Key's Station WMDM-FM presently operates from the site of its AM station at Lexington Park, and it could not operate from this site on Channel 240A since it is short spaced to WISZ-FM, Glen Burnie, Maryland. Anticipating this problem, Sound Media states that it has found and even obtained FAA clearance for a site from which Key could operate and that it will pay the expenses of moving to the new site.

9. In response, Key says it has already built at its AM site and details unexpected difficulties and expenses which it encountered in so doing. For instance, after installing the FM antenna on one of its AM towers, it learned that the tower was not structurally sound, so that it had to be torn down and rebuilt. It states that zoning clearances might not be obtained for Sound Media's proposed site and notes that even if Sound Media paid all expenses of moving, it would cost more in operating expenses to operate from two sites. Key suggests adding Channel 240A at Leonardtown, instead, or in the alternative, it says it would accept a change to Channel 240A if it were simultaneously granted a waiver for the short spacing so that it could operate from its present site.

10. Carr also comments adversely on Sound Media's request that we adopt the proposal to add Channel 240A at Lexington Park and require Key to

change channels. He states that circumstances have changed since the proposal was originally made, noting that Sound Media's "Supplement" refers to "documents heretofore filed" in the earlier stages of this proceeding to show "the public interest factor involved in the allocation of a channel at Leonardtown." In its earlier comments in response to the Notice in 1973, Sound Media had supported its proposal by saying Leonardtown had no nighttime AM service; that a Leonardtown FM station would provide a first FM service to 21,273 persons, a first aural service to 19,035, and a second aural service to 13,000. All of these facts have changed, Carr asserts, since Sound Media was granted full-time authority for its AM station, WKIK, Leonardtown, on November 14, 1973. WMDM-FM is now on the air in Lexington Park, and there have been changes in the facilities of FM stations in other communities.

11. Concerning Sound Media's request to require Key to change channels, Carr points out that Sound Media probably also wants to operate the FM station it hopes to build from its AM site, which is also short spaced to WISZ. As to waiving the short spacing for Key on Channel 240A, Carr argues that such waivers are granted on the basis of applications, not as part of the assignment process.

12. We will not assign Channel 240A to Lexington Park, and will reject Sound Media's request that Key be required to change to Channel 240A. We will, however, propose to add Channel 240A at Leonardtown. It is apparent that both Key and Sound Media want to operate from their AM sites, which they cannot do on Channel 240A without being short spaced to WISZ-FM. However, Key should be favored. It, after all, won the comparative hearing between it and Sound Media. Also, the inconvenience to Key which would be occasioned by changing to Channel 240A would be greater since it has already built and would have to move. The disruption to its audience, which is accustomed to Channel 249A, would not be felt by Sound Media. Accordingly, we will propose to assign Channel 240A to Leonardtown, and if the proposal is adopted, Sound Media will be able to apply for Channel 240A. We will also propose to delete Channel 249A from Leonardtown and add it at Lexington Park, since Key's station is actually at Lexington Park.

13. *Carr's request.* Carr proposes to assign Channel 240A to Falmouth, Va., which conflicts with assigning it to Leonardtown/Lexington Park. Sound Media filed a reply questioning the timeliness of Carr's proposal, as discussed above in paragraphs 6-7, but did not comment substantively. Key did not comment.

14. Carr states that Falmouth, Va., is an unincorporated community which

had a 1970 population of 2,139, and has no local transmission service. He says that Stafford County, in which it is located, had a 1970 population of 24,587, and has no radio station. We note that Falmouth is adjacent to Fredericksburg, Virginia (pop. 14,450), which has two Class B FM stations and two AM stations, one of which is fulltime, WFVA-AM/FM and WFIS AM/FM. Carr states that Falmouth is the largest community within the Channel 240A preclusion area with no local radio station. According to his engineering study, the precluded communities with no AM or FM station assignment are Shenandoah, Virginia (pop. 1,714), Elkton, Virginia (pop. 1,511), Stanley, Virginia (pop. 1,208), and Colonial Beach, Virginia (pop. 2,058). Carr made some estimates of persons which his proposed assignment would provide with second and third aural service at night, but these were made on the basis of presently available service and not on a proper *Roanoke Rapids/Anamosa* showing.\* In light of the stations at Fredericksburg, his proposal obviously would not provide second aural of FM services to Falmouth.

15. While we are proposing assignment of Channel 240A at Falmouth as an alternative to proposing it at Leonardtown, there are some specific questions on which we would like comment. Is Falmouth a community? While Carr provided a list of businesses, churches, and other organizations located in Falmouth, we would like comment on whether it really is a community. We must also point out that the reasoning behind the "suburban community" *Policy Statement*,<sup>4</sup> which applied to applications for new and changed AM facilities, has been applied to FM applications, *Berwick Broadcasting Corporation*, 20 F.C.C. 2d 393 (1969). Thus, under *Berwick*, an applicant could not specify a small town to meet the priority of bringing a first service to it while really intending to serve a nearby larger town.

16. Carr should make a *Roanoke Rapids* showing if he wishes to support his estimates of second and third services at night. For purposes of com-

\**Roanoke Rapids, N.C.*, 9 F.C.C. 2d 672 (1967), sets forth assumptions to be used in calculating the extent of service which an FM proposal would provide, and under *Anamosa, Iowa*, 40 F.C.C. 2d 520 (1974), a petitioner must take into account nighttime AM service.

<sup>4</sup>*Policy Statement on Section 307(b) Considerations for Standard Broadcast Facilities Involving Suburban Communities*, 2 F.C.C. 2d 190 (1965). Although "suburban community" was subsequently limited to apply only in comparative hearing, the Commission's concern that applicants intend to serve the communities they specify remains. *AM Assignment Standards*, 54 F.C.C. 2d 1, 21-22.

paring Falmouth and Leonardtown, parties may wish to update the showings filed previously in this proceeding to take account of new or changed service.

17. *It is ordered* That, the proposal to assign FM Channel 240A at Lexington Park, Maryland, is denied.

18. *Conclusion:* The Commission proposes to amend the FM Table of Assignments, 47 CFR 73.202(b), as follows:

#### City and Channel No.

Leonardtown, Md., Present 249A, Proposed 240A.

Lexington Park, Md., Present — Proposed 249A.

Or, in the alternative,

Leonardtown, Md., Present 249A, Proposed —.

Lexington Park, Md., Present —, Proposed 249A.

Falmouth, Va., —, Proposed 240A.

19. The Commission's authority to institute rulemaking proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix and are incorporated herein.

NOTE—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

20. Interested parties may file comments on or before March 20, 1978, and reply comments on or before April 10, 1978.

For the Federal Communications Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

#### APPENDIX

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the notice of proposed rulemaking to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the notice of proposed rulemaking to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rulemaking to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

[BC Docket No. 78-21; RM-2932]

#### FM BROADCAST STATION IN RONAN, MONT.

##### Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rule making.

SUMMARY: Action taken herein proposes to assign a first class C FM channel to Ronan, Mont. Petitioner, KDMR, Inc., states that the proposed channel could bring first and second FM, as well as first and second nighttime aural service to Ronan and the surrounding area.

DATES: Comments must be received on or before March, 17, 1978, and reply comments on or before April 6, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

## SUPPLEMENTARY INFORMATION:

Adopted: January 18, 1978.

Released: January 23, 1978.

In the matter of amendment of § 73.202(b), table of Assignments, FM broadcast stations (Ronan, Mont.), BC Docket No. 78-21, RM-2932.

1. *Petitioner, comments, proposal.*—(a) Notice of proposed rulemaking is given concerning amendment of the FM table of assignments (§ 73.202(b) of the Commission's rules) as it relates to Ronan, Mont.

(b) Petition for rulemaking<sup>1</sup> was filed on behalf of KDMR, Inc., ("petitioner"), licensee of AM station KERR, Polson, Mont., seeking the assignment of class C FM channel 222 to Ronan, Mont. No responses to the petition have been received.

(c) Petitioner states that it will file an application for a construction permit to operate on the proposed channel, if assigned, and if granted, will promptly construct the station and commence operation.

2. *Community data.*—(a) *Location.* Ronan is located in Lake County in northeastern Montana, 218 kilometers (135 miles) west of Great Falls, Mont., and 248 kilometers (155 miles) east of Spokane, Wash. It is located in the Flathead Indian Reservation which extends through several counties.

(b) *Population.* Ronan—1,347; Lake County—14,445.<sup>2</sup>

(c) *Local aural broadcast service.* None.

(d) *Economic data.* Petitioner states that Lake County has had a 10 percent increase in population between 1960-1970. It notes that the county is essentially rural and is situated in the heart of the Flathead Indian Reservation. The principal industry in the area surrounding the reservation is related to forestry. Petitioner adds that natural recreation attractions of the reservation and its proximity to Glacier Park makes the entire Flathead Valley a potentially important tourist center. Petitioner has submitted detailed information which demonstrates a need for a first local full-time broadcast service in Ronan and Lake County.

3. *Preclusion studies.* Preclusion will be caused on noncommercial educational channels (219A, 220A, 220C) to Kallispell (population 10,526), Columbia Falls (2,652), Missoula (29,497), Polson (2,464), and Whitefish (3,349). All of the above, plus nine additional communities over 1,000 population will sustain preclusions on one or more commercial channels. A total of nine communities<sup>3</sup> are without commercial

FM assignments and will sustain commercial channel preclusion. However, petitioner states that other class A and class C channels (educational or commercial as the case may be) are available for the communities in the precluded areas.

4. *Additional considerations.* Petitioner states that there is no FM broadcast service in Ronan or Lake County. It asserts that Ronan is centrally located in a large, sparsely populated area and, because of its importance to the area and the Indian population in and around the Flathead Reservation, as well as the general population, granting of the proposed assignment is warranted. In its Roanoke Rapids-Anamosa study it shows that a class C station operating with effective radiated power of 74 kilowatts and antenna height of 152 meters (500 feet) would provide a first FM service to 3,046 persons in a 2,800 square kilometer (1,050 square miles) area and a second FM service to 5,104 persons in a 4,000 square kilometer (1,580 square miles) area. The same figures would apply to a first and second nighttime aural service.

5. Based on an examination of petitioner's proposal there appears to be a basis for considering an exception to our general policy of assigning class C channels only to larger communities. The proposed assignment of an FM channel to this small isolated community could provide for an aural broadcast service to people residing in the sparsely populated areas.

6. Accordingly the Commission proposes to amend the FM table of assignments (§ 73.202(b) of the Commission's rules) with regard to Ronan, Mont., as follows:

## City and Channel No.

Ronan, Mont., present: —; proposed: 222.

7. The Commission's authority to institute rulemaking proceedings; showings required; cutoff procedures; and filing requirements are contained in the attached appendix and are incorporated by reference herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the appendix before a channel will be assigned.

8. Interested parties may file comments on or before March 17, 1978, and reply comments on or before April 6, 1978.

For the Federal Communications Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

## APPENDIX

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of

Browning (1,700), Columbia Falls (2,652), Whitefish (3,349), Polson (2,464); Idaho: Mullan (1,279), Kellogg (3,811).

the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM table of assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the notice of proposed rulemaking to which this appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the notice of proposed rulemaking to which this appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cutoff procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and public notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rulemaking to which this appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b), and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's public reference room at its headquarters, 1919 M Street NW., Washington, D.C.

[BC Docket No. 78-20; RM-2925]

## FM BROADCAST IN CLOVIS, N. MEX.

## Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the assignment of a third FM channel to Clovis, N. Mex. Petitioner, Zia Broadcasting Co., states that additional areas would be provided with first and second FM as well as first and second aural nighttime service as a result of the proposed assignment.

DATES: Comments must be filed on or before March 14, 1978, and reply comments on or before April 3, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

## SUPPLEMENTARY INFORMATION:

Adopted: January 13, 1978.

Released: January 23, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM broadcast stations (Clovis, N. Mex.), BC Docket No. 78-20, RM-2925.

1. *Petitioner, proposal, and comments.* (a) Notice of proposed rulemaking is hereby given concerning amendment to the FM table of assignments, § 73.202(b) of the Commission's rules, regarding the assignment of class C channel 298 to Clovis, N. Mex., as that community's third FM assignment.

(b) The petition was filed on behalf of Zia Broadcasting Co. ("petitioner") and was given public notice on July 26, 1977 (report No. 1066). No responses to the petition were received.

(c) Petitioner states that, if the channel is assigned, it will file an application for its use.

2. *Demographic data.* (a) *Location.* Clovis, the seat of Curry County, is situated in eastern New Mexico, 152 kilometers (95 miles) southwest of Amarillo, Tex.

(b) *Population.* Clovis—28,495; Curry County—39,517.<sup>1</sup>

(c) *Present aural services.* FM stations: KMTV-FM (channel 256) and KTQM-FM (channel 260). Full-time AM stations: KCLV, KICA, and KWKA.

3. *Community data.* Petitioner states that the Clovis Chamber of Commerce

<sup>1</sup>Population figures are taken from the 1970 U.S. Census.

estimated the population of Clovis to be 32,864 in 1976, as compared to 28,495 in 1970. We are told that the city's economy is dominated by agriculture, grain storage, ranching, cattle raising, and meat packing. In addition there are said to be several significant manufacturing concerns in the area consisting of sash and door factories, concrete, dairy products, steel pipe, feed mills, etc. Petitioner notes that Clovis is the center of a large trading area and the hub of transportation for eastern New Mexico.

4. *Preclusion considerations.* Assignment of channel 298 to Clovis would cause preclusion on seven channels for 49 communities with populations greater than 1,000. Twenty-five of these communities have no commercial FM channel assignments. Of the 25, 7 have populations over 2,500. All are in Texas. They are: Wellington (2,884), Abernathy (2,625), Post (3,854), Tahoka (2,956), Friona (3,111), Dimit (4,327), and Littlefield (6,738). Post, Dimit, and Littlefield have AM stations. Petitioner also states that channels 298A and 244A could be assigned to Post and Friona. Petitioner did not indicate whether FM channels are available for assignment to Abernathy, Tahoka, Dimit, Littlefield, and Wellington, and it should provide this information in its comments.

5. *Additional considerations.* Petitioner submitted a Roanoke Rapids-Anamosa study which indicates that a first FM service would be provided to 1,007 persons in a 550 square kilometer (204 square mile) area and a second FM service to 1,610 persons in a 850 square kilometer (324 square mile) area. The same figures would hold true for first and second nighttime aural service. Petitioner asserts that on this basis Clovis needs a third FM assignment and it asserts that it could support an additional station.

6. The request for a third FM assignment to a community of 28,495 persons exceeds the FM population guidelines. However, in view of petitioner's showing that the proposed assignment would provide additional areas and populations with a first and second FM and first and second nighttime aural service, we believe consideration of the proposal described above is warranted.

7. In light of the foregoing, the Commission proposes to amend the FM table of assignments, § 73.202(b) of the Commission's rules, with regard to Clovis, N. Mex., as follows:

## City and Channel No.

Clovis, N. Mex., Present: 256, 260; Proposed: 256, 260, 298.

8. The Commission's authority to institute rulemaking proceedings; showings required; cutoff procedures; and filing requirements are contained in the attached appendix and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the appendix before a channel will be assigned.

9. Interested parties may file comments on or before March 14, 1978, and reply comments on or before April 3, 1978.

For the Federal Communications Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

## APPENDIX

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM table of assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the notice of proposed rulemaking to which this appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the notice of proposed rulemaking to which this appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cutoff procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and public notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rulemaking to which this appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b), and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for

examination by interested parties during regular business hours in the Commission's public reference room at its headquarters, 1919 M Street NW., Washington, D.C.

#### AVIATION SERVICES

Permitting Authorization of an Additional Aeronautical Advisory Station at a Landing Area To Separate Helicopter and Fixed-Wing Aircraft Communications

AGENCY: Federal Communications Commission.

ACTION: Proposed Rulemaking.

**SUMMARY:** The Commission is proposing to amend the rules to permit the authorization of an additional Aeronautical Advisory station at a landing area to separate communications for helicopters and fixed wing aircraft. Present rules provide for separate frequencies for this, but limit their use to one station. Where the service and landing facilities for these two types of aircraft are widely separated at one location, it is practical to permit a separate station to be installed at each facility. This will enable both to operate simultaneously and independent of each other, thus providing a more efficient use of the spectrum.

**DATES:** Comments must be received on or before February 24, 1978, and reply comments must be received on or before March 6, 1978.

**ADDRESSES:** Send Comments to: Federal Communications Commission, Washington, D.C. 20554.

**FOR FURTHER INFORMATION CONTACT:**

John E. Jacobs, Safety and Special Radio Services Bureau, 202-632-7197.

**SUPPLEMENTARY INFORMATION:** Adopted: January 11, 1978.

Released: January 23, 1978.

In the matter of amendment of Part 87 of the FCC rules and regulations to permit the authorization of an additional Aeronautical Advisory Station at a landing area to separate helicopter and fixed-wing aircraft communications, SS Docket No. 78-9.

1. Notice of proposed rulemaking in the above entitled matter is hereby given.

2. The Commission rules provide that only one aeronautical advisory (Unicom) station may be authorized at any one landing area. The reason for such a limitation is safety. Since the primary purpose of these Unicom sta-

tions is to provide advisory information necessary to the safe and expeditious operation of private aircraft, but not traffic control a definite safety hazards would exist were two stations to give conflicting information to two different aircraft. For the most part, the information exchanged between the aircraft and the Unicom station consists of airport information (services available, etc.) and, where permitted, wind, weather and runway conditions.

3. In further interests of safety, only one frequency is normally authorized to each station. Because of the differences in the types and methods of operation, separate and discrete frequencies are available for those landing areas used primarily for fixed-wing aircraft and those used exclusively as heliports. Many stations combine both types of operations on the one frequency, but where a licensee can show a need, an additional, specified frequency can be authorized to separate the communications. In instances such as this, multiple control points may be authorized for the station with each separate operation having the ability to communicate over the station facility for its own purpose.

4. During the past several years, there has been a substantial growth in the use of both helicopters and fixed-wing aircraft for business and pleasure. The number of helicopters in use has grown at a rate of 12.5 percent per year for the past ten years and in 1976 the number increased at a rate almost double that of fixed-wing aircraft. Quite naturally, this has resulted in an increase in activities at many airports. The facilities providing service to these aircraft have expanded accordingly in many areas and the airports have become rather large complexes. As a result of this expansion and because of the inherent differences in their needs and methods of operation, the fixed-wing and helicopter facilities have become widely separated physically, even though still located at one location classified as a landing area. In many instances, helicopters and fixed-wing aircraft operate in separate patterns safely. Although separate frequencies can be authorized for the two operations to separate their communications, it still remains under current rules that they both must be operated from one station. Additionally, the characteristically normal short flight operations and the numerous short transmissions of helicopters have a tendency to heavily load the channel being used. This presents an operational problem in that, although separate frequencies are available, only one person can be the licensee and it often become impossible for the Unicom station operator to provide adequate and timely communications to both types of aircraft. This

is especially true during peak periods of activity at the landing area. Further, if the Unicom operator's main business is fixed-wing aircraft he will naturally tend to render better services to these aircraft as they represent his livelihood.

5. In order to relieve this situation, we propose to amend the rules to permit the authorization of an additional Unicom station for separation of fixed-wing and helicopter communications. Obviously, the mixture of aircraft types does not present a problem at most airports, but our concern here is to facilitate the safe and efficient operation at those airports where not only frequency, but traffic congestion is a problem. Our intent is not to subvert the original valid reasons for the "one station" limitation; nor is it to give the impression that additional air traffic control, with its inherent element of danger, is available. Rather, we wish to relieve any frequency congestion which might be caused by combining fixed-wing and helicopter operations in one station and to relieve the station licensees of the necessity to communicate for two diverse functions from the same station. We believe that, even though traffic at a busy airport may be heavy, it is possible to separate helicopters and fixed-wing aircraft and have them conduct their affairs within the same environment without including a safety hazard.

6. Accordingly, we propose to amend Rule § 87.251 to permit the authorization of an additional aeronautical advisory station for the specific purpose of separating the helicopter and fixed-wing communications where a need is determined. Any applicant for the additional station must show conclusively that the radio traffic on the existing Unicom station is such that authorization of an additional station will relieve the congestion and, further, that the available facilities serving the two types of aircraft are separated to the point that the proximity of the stations will not present an interference or a safety problem. We do not intend to make a second station available, per se, but to provide a more efficient means of communicating with two different types of aircraft activities. Therefore, where such authorizations are granted, the communications from each station must be limited to that purpose for which application was made.

7. Additionally, we will amend § 87.253(b) to continue to permit the authorization of a second frequency where and in the manner presently permitted when a second physical installation cannot be justified.

8. The proposed amendments to the rules as set forth below are issued pursuant to the authority contained in sections 4(i), 303(b), (d), (f) and (r) of the Communications Act of 1934, as amended.

9. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before February 24, 1978, and reply comments on or before March 6, 1978. All relevant and timely comments will be considered by the Commission before final action is taken in the proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

10. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 5 copies of all statements, briefs or comments filed shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

For the Federal Communications Commission.

WILLIAM J. TRICARICO,  
Secretary.

Part 87 of Chapter I of Title 47 of the Code of Federal Regulations is proposed to be amended as follows:

1. In § 87.251 paragraph (a) is amended, new paragraphs (b) and (c) are added to read as follows; and pre-

sent paragraphs (b), (c), (d), and (e) are redesignated as paragraphs (d), (e), (f) and (g) to read as follows:

#### § 87.251 Special conditions.

(a) Except as provided in paragraphs (b) and (c) of this section, only one aeronautical advisory station may be authorized to operate at a landing area.

(b) Where the Commission has good cause to believe that an existing station has been abandoned or ceased operation, another station may be authorized to provide service at the landing area on an interim basis while the original station is not operating and pending final determination of the status of the original station.

(c) Upon showing of need, an additional aeronautical advisory station may be authorized at a landing area for the specific purpose of separating the communications pertaining to helicopters and fixed wing aircraft. Such showing must clearly demonstrate to the Commission the need for the additional station and why the anticipated communications cannot be accommodated from one station. Further, it must be clearly demonstrated that the facilities for helicopters and fixed wing aircraft are sufficiently separated physically at the landing area that operation of both types of aircraft at

the same time will not introduce a safety hazard.

2. In § 87.253 paragraphs (a)(3) and (b) are amended to read as follows:

#### § 87.253 Frequency assignment.

(a) . . . .

(3) Landing area that is used (i) exclusively as a heliport or (ii) for helicopters when a second station is justified pursuant to § 87.251(c); 123.050 or 123.075 MHz.

(b) Upon a showing of need, and where a second station cannot be justified in accordance with § 87.251(c), stations authorized to operate on 123.050 or 123.075 MHz also may be assigned 122.700, 122.800 or 123.000 MHz for communications primarily with fixed wing aircraft, and stations authorized use of 122.700, 122.800, 122.950 or 123.000 MHz may also be assigned 123.050 or 123.075 MHz for communications primarily with helicopters.

## DEPARTMENT OF AGRICULTURE

Farmers Home Administration  
[Notice of Designation No. A559]

### LOUISIANA

#### Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in certain Louisiana Parishes as a result of various adverse

weather conditions shown in the following chart.

Therefore, the Secretary has designated these areas as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended, and the provisions of 7 CFR 1904 Subpart C, Exhibit B, Paragraph V B, including the recommendation of Governor Edwin Edwards that such designation be made.

Applications for emergency loans must be received by this Department no later than July 19, 1978, for physical losses and January 18, 1979, for

production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 19th day of January 1978.

GORDON CAVANAUGH,  
Administrator,  
Farmers Home Administration.

[3410-07]

[Notice of Designation Number A554]

### NEW YORK

#### Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in the following New York Counties as a result of flooding, severe low temperatures, frost and/or freezing conditions, drought, excessive rainfall, snow, wind, and hail during the period March 13 through October 25, 1977: Delaware, Montgomery, Schoharie, Tioga.

Therefore, the Secretary has designated these areas as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended, and the provisions of 7 CFR Part 1904 Subpart C, Exhibit D, Paragraph V B, including the recommendation of Governor Hugh L. Carey that such designation be made.

Applications for emergency loans

must be received by this Department no later than July 17, 1978, for physical losses and January 18, 1979, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 18th day of January 1978.

GORDON CAVANAUGH,  
Administrator,  
Farmers Home Administration.  
[FR Doc. 78-2165 Filed 1-24-78; 8:45 am]

[3410-07]

[Notice of Designation Number A557]

### NORTH CAROLINA

#### Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or

aquaculture operations have been substantially affected in the following North Carolina Counties as a result of excessive rainfall September 1, 1977, through November 15, 1977, in Tyrrell County and drought June 1, 1977, through September 15, 1977, and excessive rainfall September 16, 1977, through October 15, 1977, in Hertford County.

Therefore, the Secretary has designated these areas as eligible for emergency loans pursuant to the provisions of the consolidated Farm and Rural Development Act, as amended, and the provisions of 7 CFR Part 1904 Subpart C, Exhibit D, Paragraph V B, including the recommendation of Governor James B. Hunt, Jr. that such designation be made.

Applications for emergency loans must be received by this Department no later than July 17, 1978, for physical losses and January 18, 1979, for production losses, except that quali-

fied borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 18th day of January 1978.

GORDON CAVANAUGH,  
Administrator,  
Farmers Home Administration.

[3410-07]

[Notice of Designation Number A555]

### TEXAS

#### Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, and aquaculture operations have been substantially affected in the following Texas Counties as a result of drought during the period ranging from April 1 through November 29, 1977: Anderson, Kaufman, Lamar, San Saba, Shackelford.

Therefore, the Secretary has designated these areas as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended, and the Provisions of 7 CFR Part 1904 Subpart C, Exhibit D, Paragraph V B, including the recommendation of Governor Dolph Briscoe that such designation be made.

Applications for emergency loans must be received by this Department no later than July 17, 1978, for physical losses and January 16, 1979, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C. this 18th day of January, 1978.

GORDON CAVANAUGH,  
Administrator,  
Farmers Home Administration.

### Forest Service

#### VOLUME I, MOUNT ROGERS NATIONAL RECREATION AREA UNIT PLAN, AND EIS VOLUME II, MOUNT ROGERS SCENIC HIGHWAY EIS

#### Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Mount Rogers National Recreation area, Jefferson National Forest, Va., USDA-FS-R8/DES (Adm.) 78-02 and in cooperation with the Federal Highway Administration an environmental statement on the Mount Rogers Scenic Highway, Jefferson National Forest, Va. FHWA-VA-EIS-77-03-D.

The volume I environmental statement concerns the proposed environmental impacts of proposed activities in each project component and are discussed in relation to each component of the environment. The unit contains 107,660 acres of national forest land in Carroll, Grayson, Smyth, Washington, and Wythe Counties, Va. Volume II environmental statement summarizes and expands on the direct or physical impacts of the scenic highway.

These draft environmental statements were transmitted to EPA on

January 20, 1978. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3210, 12th Street and Independence Avenue SW., Washington, D.C. 20013.

USDA, Forest Service, 1720 Peachtree Road NW., Room 804, Atlanta, Ga. 30309.

USDA, Forest Service, Jefferson National Forest, 210 Franklin Road SW., Roanoke, Va. 24011.

USDA, Forest Service, Jefferson National Forest, Mount Rogers NRA District Office, Route 1, Box 303, Marion, Va. 24354.

A limited number of single copies are available upon request to Forest Supervisor Michael J. Penfold, Jefferson National Forest, 210 Franklin Road SW., Roanoke, Va. 24011.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically. Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Michael J. Penfold, Jefferson National Forest, 210 Franklin Road SW., Roanoke, Va. 24011. Comments must be received by April 3, 1978, in order to be considered in the preparation of the final environmental statement.

Dated: January 20, 1978.

ROBERT F. WILLIAMS,  
Regional Environmental  
Coordinator.

#### CCNY RESEARCH FOUNDATION

#### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of

Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00349. Applicant: City College of New York Research Foundation, 138 Street and Convent Avenue, New York, N.Y. 10031. Article: Spin Lock CPS-2 NMR Pulse Spectrometer and Accessories. Manufacturer: Spin-Lock Electronics Co., Canada. Intended use of article: The article will provide capabilities for detecting and quantitating the formation of each of the ternary enzyme-metal PRPP complexes and the quaternary enzyme-metal PRPP-nitrogenous substrate complexes using water-proton relaxation rate enhancement techniques.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the U.S. Customs Service received this application (August 29, 1977).

Reasons: The foreign article provides for a combination of pulsed operation and the capability of operation at 30 megahertz (MHz). The Department of Health, Education, and Welfare advises in its memorandum dated November 26, 1977 that: (1) The combination of capabilities described above is pertinent to the applicant's intended use and (2) it knows of no domestic instrument which provides this combination of pertinent features.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the U.S. Customs Service received this application.

#### Decision on Application for Duty-free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 77-00332. Applicant: Colorado State University, Fort Collins, CO 80523. Article: FX-100 NMR Spectrometer. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for a variety of studies of the molecular structure type, utilizing <sup>13</sup>C and <sup>1</sup>H nuclear magnetic resonance (NMR) in the fourier transform (FT) mode. Specific research will include studies of the following:

(1) Geometrical dependence of substituent effects on <sup>13</sup>C chemical shifts,  
(2) <sup>13</sup>C signal intensities in hydrocarbons,  
(3) The synthesis of complex organic systems,  
(4) Structural characterizations of natural products,  
(5) Biosynthesis of toxic plant nitro compounds, and  
(6) Polymer chemistry.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability for making <sup>13</sup>C measurements. The National Bureau of Standards advises in its memorandum dated November 30, 1977 that (1) the capability of the article described above is pertinent to the applicant's intended research and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### ERDA—RICHLAND, WASHINGTON

#### Decision on Application for Duty-free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00325. Applicant: United States Energy Research and Development Administration, P.O. Box 550, Richland, Wash. 99325. Article: Camera, Image Converter Imacon Model 790/520 and Accessories. Manufacturer: Hadland Photonics Ltd., United Kingdom. Intended use of article: The article is intended to be used for the investigation of recording photographic images of transient events in experiments to see if laser heated solenoid will provide energy. The article and accessories will be attached to the laser beam tube in such a way as to allow them to be used to photograph the events which occur during the experiments.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability for making <sup>13</sup>C measurements. The National Bureau of Standards advises in its memorandum dated December 1, 1977 that the capability of the articles to provide the maximum possible frames per period (up to 16) and a framing rate of at least 10° per second is pertinent to the applicant's intended use. NBS also advises that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### GEOPHYSICAL INSTITUTE

#### Decision on Application for Duty-free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00173. Applicant: Geophysical Institute, C.T. Elvey Bldg., University of Alaska, Fairbanks, Alaska 99701. Article: Recording Current Meter, Model 4 and Pressure and Conductivity Sensors. Manufacturer: Aanderaa Instruments, Norway. Intended use of article: The article is intended to be used to measure the basic water circulation parameters for the first time under arctic conditions on the Alaskan coastal shelf.

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (March 18, 1977). REASONS: In response to Question 8, the applicant alleges the foreign article provides the following pertinent features:

- (1) Ability to operate instrument under Arctic Conditions,
- (2) Ability to measure current speed and direction at the same place that the water quality parameters are measured (conductivity, temperature and depth),
- (3) Ability to operate at temperatures below 0 degrees C.,
- (4) Small compact size of instrument, and
- (5) Long term reliable operation under cold water conditions.

The National Oceanic and Atmospheric Administration (NOAA) advises in its memorandum dated May 20, 1977 that features (1), (2), (3), and (4) are provided by the article and are

pertinent to the applicant's intended uses within the meaning of Subsection 301.2(n) of the regulations. In addition, NOAA advises that two domestic instruments, the Model 9021 and the Model Sea Trak, manufactured by Plessey Environmental Systems (Plessey) and Hydro Products (Hydro) respectively, provide all the features cited above found to be pertinent. As to the specific allegations of the applicant in reply to Question 8.c.(2), in the order listed above, the following is noted:

(1) The Plessey Model 9021 and Hydro Sea Trak both provide the ability to operate under Arctic conditions. The Model 9021 provides a temperature range of -5° to +40° centigrade (°C) and the Sea Trak provides -5 to +35°C. NOAA advises that these instruments both provide the ability to operate at temperatures below 0°C and based on their temperature specifications are designed for Arctic operations. The Department notes that the article provides an operational range of -2.46°C to 24.60°C as its standard range and that the domestic instruments are designed to operate at lower temperatures than the article.

(2) NOAA advises and we concur, that both the Model 9021 and the Sea Trak provide this pertinent feature.

(3) As noted in (1) above, both domestic instruments provide the ability to operate at temperatures below zero degrees centigrade.

(4) The applicant states that the foreign article is to be used in shallow water. The size/weight specifications of the shallow water versions of domestic instruments are similar to those of the article. The Model 9021 has a weight in air of 51 pounds (lbs.), a housing diameter of 5.5 inches (in.), a guard frame width of 8 in., an instrument and fin height of 24 in. and an instrument and fin length of 51.8 in. The Sea Trak has a weight in air of the recording unit and vane of 67.9 lbs., and a recording unit height of 26.1 in. with a 6 in. diameter. The foreign article has a weight in air of 56.1 lbs. for recorder and vane assembly, an overall length of 53.9 in., an overall height of 29.5 in. and a recording unit height of 20 in. with a diameter of 5 in. NOAA has compared the size/weight specifications of the domestic instruments with those of the foreign article and advises and we find that both of the domestic instruments meet the applicant's requirement for small compact size.

(5) The applicant states he requires long term reliable operation under cold water conditions. In this connection, the Department notes that both domestic instruments are designed to provide for operation in cold water to a lower limit of -5°C whereas the article is designed to operate in cold water to a lower limit of -2.46°C. We note

that the domestic instruments are capable of operation at lower temperatures than the article. Further we find that reliability which is associated with the level of maintenance and hence, cost of ownership, is not a pertinent specification within the meaning of § 301.2(n) of the regulations. In general, information which can lead to a direct quantitative comparison of the reliability (i.e., ability to conform to specifications without excessive breakdown) of two instruments is almost never available. When a specification is "guaranteed" the manufacturer is stating, in effect, that the necessary steps have been taken to verify ability to meet this obligation. Thus a guaranteed specification presupposes a determination of reliability to some "engineered-in" degree. Customarily, manufacturers neither issue quantitative specifications on reliability nor guarantee reliability. Moreover, the reliability of a single instrument can, and frequently does, improve abruptly with time (for example, as the manufacturer gains experience and makes minor modifications dictated by such experience). No two instruments of the same model supplied by the same manufacturer will have identical records insofar as reliability is concerned and a documented history of poor reliability does not mean that such performance will not vastly improve with the very next instrument (and subsequent instruments) produced. Without strong and substantive supporting evidence in the record that the reliability of two instruments were measurably different and the difference in reliability precluded performance of the work intended, reliability could not be considered a justifiable basis for duty-free entry under Pub. L. 89-651. While reputations with respect to reliability which are derived from subjective, word-of-mouth allegations or even personal experience may, reasonably or otherwise, enter into a person's decision to buy a particular instrument, such a yardstick could not serve as a clear-cut objective basis for duty-free entry. Moreover, we would reemphasize that reliability is considered a cost-related consideration for duty-free entry purposes which by regulation and by Congressional intent is not a sufficient basis for the granting of duty-free entry.

Thus, based on NOAA advice, our own review of the application as well as factual information in our possession (specifications, textbooks, etc.), we find that the Model 9021 and Sea Trak recording current meters were of equivalent scientific value to the foreign article for such purposes as the article is intended to be used at the time the foreign article was ordered.

## IOWA STATE UNIVERSITY AND UNIVERSITY OF FLORIDA

## Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301). (See especially § 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00010. Applicant: Iowa State University, College of Veterinary Medicine, Ames, Iowa 50011. Article: LKB 8800A Ultratome III Ultramicrotome complete and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare tissues and cells taken from animals involved in a variety of research projects, including studies of nutritional, metabolic, toxicological, infectious, and parasitic diseases for ultramicrotomy and electron microscopic examination. Research projects will include studies of changes in cell organelles and membrane in response to nutritional deficiencies, evaluation of cell reactions to parasitism and bacterial infections, studies of parasite ultrastructure, determinations of the presence and precise location of viruses in tissues, observations in subcellular responses to toxicological agents and drugs and histochemical localizations in enzymes within cells. The article will also be used to prepared specimens for demonstrations of pathological changes in animal tissues in various graduate and undergraduate courses in Vet. Pathology. Application received by Commissioner of Customs: October 12, 1977. Advice submitted by the Department of Health, Education, and Welfare on: December 13, 1977.

Docket No. 78-00018. Applicant: University of Florida, College of Dentistry, Box J-424, J. Hillis Miller Health Center, Gainesville, Fla. 32610. Article: LKB 8800A Ultratome III Ultramicrotome and Accessories. Manufacturer:

## NOTICES

LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to support research studies related to dental research including the following: (a) Electron microscopy of fibril purification from Actinomyces viscosus, (b) comparative ultrastructure of various strains of Actinomyces viscosus, (c) effects of carbohydrate and nutrient of the ultrastructure of Actinomyces viscosus, (d) electron microscopy of osteoclasts in studies on stress related bone resorption, (e) electron microscopy studies on the effect of pharmacologic agents on salivary gland cells, and (f) electron microscopy of obligated anaerobic microorganisms in the oral cavity. The overall objective of this research is further basic knowledge and understanding of the ultrastructure of cells and tissues and microorganisms found in the oral cavity, the reaction of such cells and tissues to the introduction of foreign objects such as implants, and to gain insight into the mechanisms leading to periodontal disease. In addition the article will be used in the courses "Introduction to Electron Microscopy" and "Electron Microscopy in Dental Research" for the instruction of dental students. Application received by Commissioner of Customs: October 18, 1977. Advice submitted by the Department of Health, Education, and Welfare on: December 13, 1977.

Comments: No comments have been received with respect to any of the foregoing applications.

Decision: Applications approved.

No instrument or apparatus of equivalent scientific value to the foreign articles for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each of the foreign articles provides a range of cutting speeds 0.1 to 20 millimeters per second. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorvall, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.09 to 3.2 millimeters per second. The conditions for obtaining high-quality sections that are uniform in thickness, depend to a large extent on the hardness, consistency, toughness and other properties of the specimen materials, the properties of the embedding materials, and geometry of the block. In connection with a prior application (Docket Number 69-00665-33-46500), which relates to the duty-free entry of an article that is identical to those to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting, (among such other) factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned.

The range of cutting speeds and a capability for the higher cutting speeds is, therefore, a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section. In connection with another prior application (Docket Number 70-00077-33-46500) which also relates to an article that is identical to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that the "production of ultrathin serial sections of specimens that have a great variation in physical properties is very difficult." Accordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 millimeters per second are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

## [3510-25]

## LONG ISLAND UNIVERSITY

## Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 73-00406-01-77040. Applicant: Long Island University, Chem-

istry Department, 385 Flatbush Avenue Extension, Brooklyn, N.Y. 11201. Article: Mass Spectrometer, Model CH-7. Manufacturer: Varian MAT, West Germany. Intended use of article: The article will be used as both a teaching and research tool. Studies concern quantitative analysis of trace amounts of material, measurement of molecular weight, scanning of ion fragmentation spectra, determination of appearance potentials and determination of isotope abundance ratio. The research programs involve inorganic, organic, biological, physical, and nuclear chemistry.

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (August 18, 1969).

Reasons: This application is a resubmission of Docket No. 71-00413-01-77040 which was denied without prejudice to resubmission on September 25, 1972 for information deficiencies.

In response to Question 8, the applicant alleges that the foreign article provides certain features which are pertinent to the purposes for which the foreign article is intended to be used that are unmatched in comparable domestic instruments. However, the National Bureau of Standards in its memorandum dated February 2, 1977 and May 18, 1977 (which references and reaffirms the findings of its memorandum of August 15, 1972, March 12, 1975, and September 9, 1976) advises that these features are either not pertinent within the meaning of § 301.2(n) of the regulations or were matched by features available at the time of order in Nuclide's Model 12-90-G mass spectrometer. A description of the features listed in the response to Question 8 and our discussion thereof follows.

1. Sensitivity—The foreign article yields well evaluable mass spectra at a rate of sample consumed of only 0.01 nanograms per second. The detection limit is 0.001 nanograms of sample consumed per second. All sensitivity values are referred to resolving power  $M/\Delta M$  of 1000 on the 10 percent valley definition. (Alternate definition:  $10^{-12}$  g/sec cholesterol will produce S/N of 3 to 1 or better at parent peak). Ionizing current 300  $\mu$ a accelerating voltage 2 kV (kilovolts).

Discussions. In the notice of denial without prejudice to resubmission of the original application, the applicant was referred to Section 701.4 of the regulations then in force (15 CFR 301.4 in current regulations) which requires that the specifications of the

## NOTICES

foreign article which are alleged to be pertinent to the applicant's intended purposes must be in a form that permits comparison with the specifications of domestic instruments. This is especially important in the comparison of mass spectrometers because the specification for any given parameter (resolution, sensitivity, mass range, etc.), is functionally related to the substance used as a reference sample and to the values of other relevant parameters that are correspondingly attained. For example, the specification for resolution is meaningful only if the corresponding value for sensitivity, scan speed, the mass range over which the specified resolution is attainable and the basis for measuring the resolution—i.e., 10 percent valley definition, 50 percent valley definition, one percent cross contribution, etc.—are also given. A basic factor in determining sensitivity is the substance used as the reference sample, the minimum quantity of the sample which provides a useable spectrum, signal-to-noise ratio, the corresponding accelerating voltage and the ionizing current. In this resubmitted application, however, the applicant did not comply with § 301.4 of the applicable regulations.

NBS states and we concur that it is difficult to make a comparison of sensitivity for a given resolution of a mass spectrometer, for various instruments because many sensitivity definitions

"In fact the various definitions for sensitivity used by the applicant proved to be very confusing. In the initial submission the specifications of the foreign article cited by the applicant in response to Question 13 (identification of pertinent specifications and comparison with similar characteristics of available domestic instruments) of the application form applicable at the time of submission did not identify the sample, the signal to noise ratio (S/N), accelerating voltage or ionizing current. Although these specifications were in agreement with manufacturer's literature attached to the application, they did not agree fully with specifications provided in response to Question 8 and Question 11. In this, the second, submission the applicant submitted typed undated specifications in response to Question 5 expressing the article's sensitivity as follows:  $10^{-12}$  g/s (grams per second) cholesterol will produce a S/N of 3 to 1 or better at the parent peak with resolution m/m (sic) 1000 (10 percent valley). However, the applicant's purchase specifications and the foreign manufacturer's quotation (no. 187484) express sensitivity as follows:  $1 \times 10^{-11}$  grams/sec flow of cholesterol will give S/N=100:1 with wide slits, at an scan rate of 10 sec/mass decade at resolution 600:1 on the 10 percent valley definition; detection limit of  $1 \times 10^{-12}$  gram/sec of cholesterol under the same conditions with S/N=3:1. In view of the multiplicity of specifications to be considered confusion is to be expected. In this connection, we note that NBS addresses itself to sensitivity specifications claimed for the foreign article which exceed the specifications actually guaranteed.

are employed rendering such comparisons meaningless. NBS notes, for example, that (a) the applicant claims a required sensitivity for the foreign article of:  $10^{-12}$  g/s cholesterol will produce a S/N of 3 to 1 or better at the parent peak with resolution m/m 1000 (10 percent valley), (b) the normal sensitivity of Consolidated Electrodynamic Corporation (CEC; now doing business as DuPont Instruments) is given as:  $3 \times 10^{-11}$  amperes per micron-microampere for mass charge ratio (m/e) 58 of normal butane at a leak rate of 0.2 cubic centimeters per second and a resolving power of 2500, and (c) Nuclide states that the sensitivity in terms of nitrogen partial pressure is less than  $5 \times 10^{-14}$  torr with a standard source; further the Nuclide 12-90-G is capable of detecting above background signals of  $10^{-12}$  amperes or less. In addition, the Department notes that Nuclide's 12-90-G brochure (effective at the time the foreign article was ordered) also states that (1) with the direct insertion probe, 10 nanograms of cholesterol (or similar material) can readily be identified and (2) with a gas chromatograph and single stage glass frit helium separator, 2 nanograms of benzene injected into the column can be detected at a signal-to-noise ratio of 500 to 1 for the parent peak at a sample flow rate of  $1 \times 10^{-11}$  gm/sec into the separator (Emphasis added to show capability of the 12-90-G after the sample has passed through the gas chromatograph). Thus NBS feels, and we concur, that the comparison of the sensitivity of various instruments must be done within the same parameters in order to be considered relevant.

Although Nuclide provides sensitivity which, with respect to S/N at a flow rate of  $1 \times 10^{-11}$  g/s, appears superior to that of the foreign article and the applicant makes no claim that the Nuclide 12-90-G is not equivalent with respect to sensitivity, we find that the sensitivity specification of the foreign article is not presented in a form that affords a direct comparison with the same specification of the domestic Nuclide instrument as required by Section 301.4 of the regulations. NBS advises, however, that sensitivity better than that provided by the Nuclide 12-90-G is not pertinent to the applicant's intended purposes. It is noted in this connection, that Nuclide, in a letter to the Department dated June 30, 1969 stated that both its 12-90-G and its smaller 6-60-G could meet the sensitivity specifications of the foreign article.

2. Resolving Power—On the 10 percent valley definition, a resolving power of  $M/\Delta M=1000$  is standard;  $M/\Delta M=3000$  is the upper limit. With the mechanical slit option the resolution guaranteed is  $M/\Delta M=7000$ . This resolution over the mass range from 18 to 2500 at scan rate of one mass decade/sec, sensitivity 0.1 nanogram/sec.

**Discussion.** NBS notes in its memorandum of February 2, 1977 that the resolving power with the mechanical slit was not guaranteed by the foreign manufacturer to be  $M/\Delta M=7000$ . NBS points out not only that the manufacturer quoted a resolving power of only  $M/\Delta M=5000$  (10 percent valley) but also that the applicant provided no information indicating that this option was even ordered. In this connection, the Department notes that the mechanical slit option is described in Quotation No. 111169 which is dated November 11, 1969, i.e., after the foreign article was ordered. Pursuant to § 301.6(a)(3) this option cannot be a factor in the Department's decision because it is not an accompanying accessory. The slit option will be discussed further below.

Regarding resolving power without the mechanical slit option, NBS notes that the applicant no longer claims a resolving power of  $M/\Delta M=5000$  without the mechanical slit option (e.g., in reply to Question 8 of the initial submission), but changed the specification to correspond to that of the foreign article  $M/\Delta M=3000$  (10 percent valley) as the upper limit resolving power (as indicated on the purchase order). The Department notes that, at the time of order, Nuclide provided a guaranteed resolving power of  $M/\Delta M=5000$  (10 percent valley) which exceeds the resolving power of the foreign article. The Department further notes that the applicant makes no claim that the 12-90-G is not equivalent to the foreign article with respect to resolution. Accordingly, we find that the Nuclide 12-90-G is scientifically equivalent to the foreign article for the applicant's intended purposes where resolving power is concerned. Moreover, NBS advises that resolving power is not a pertinent issue.  $\frac{1}{2}$  North Atlantic).

3. Mass range—The foreign article covers masses one to 1200 at 3 kV and 2-3600 at 1 kV.

**Discussion.** NBS finds this feature to be pertinent but matched by Nuclide because the 12-90-G provided a mass range of from one to 6500 to satisfy the pertinent aspects of specification 3 at the time of order. In this connection, we note that, at the time of order, Nuclide provided mass ranges of 1-1300 at 5 kV, 1-2600 at 2.5 kV and 1-6500 at 1 kV which compares favorably with the mass ranges of the article.

4. Mass Scale—Both logarithmic and linear mass readout are standard.

**Discussion.** Although the Department would consider any matching feature that a domestic manufacturer would be willing and able to provide as an option, we note that this feature was a standard item in the 12-90-G at the time of order. Moreover, NBS advises that this feature is a convenience which is not pertinent. Based on the

foregoing, we find that the Nuclide 12-90-G is scientifically equivalent to the foreign article with respect to mass scale.

5. Ionizing Voltage—Continuously variable from 5 to 105 volts (v). Resettable to 0.1 percent, regulated to better than  $5 \times 10^{-3}$  with line voltage fluctuation to 10 percent.

**Discussion.** The applicant states in both submissions that this work requires a wide range of ionizing voltages "(up to at least 100v, resettable to better than 1 percent)". The applicant also states that he specifically requires for his work the ionizing voltage ranges: 0-20v, 5-25v, and 50-100v. NBS advises that an ionizing voltage of 5 to 100v is pertinent to the applicant's intended purposes. NBS also advises that Nuclide provides an ionizing voltage range variable from 0-100v satisfying the pertinent aspects of this specification. In addition, the Department notes that ionizing voltages of 5 to 105v, resettable to 0.01 percent, and stability of better than  $5 \times 10^{-3}$  as described above is a special order variant of the ionizing voltage specifications not listed in the foreign manufacturer's literature available at the time of order. A Nuclide brochure for the 12-90-G which was received by the Department in August 1969 states:

"... The electron energy can be varied from 0 to 100 e.v. The potential selected will remain constant to within  $\pm 0.02$  percent  $\pm 0.01$  volts. Resettable of the voltage is approximately 20 millivolts hour-to-hour and 50 millivolts day-to-day. Automatic switching between two pre-set levels can be provided." These specifications match the requirement of 0 to 100v, provide resettable ranging from 0.4 percent to 0.02 percent and provide regulations ranging from  $2 \times 10^{-3}$  to  $3 \times 10^{-4}$ .

The applicant makes no claim that feature 5 as described in the foreign manufacturer's quotation could not be provided by Nuclide and Nuclide was not afforded an opportunity to bid on this or any other specification. Accordingly, we find that Nuclide could provide the pertinent aspects of feature 5.

6. Reproducibility—In measuring the ratio of the peaks 43 and 35 amu, reproducibility of ratio to a precision of one percent with a resolution of 600, when measured at 20 minute intervals over a period of 2 hours. In addition, Varian guaranteed accuracy of 0.01 percent on ratio of 1:100 such as  $H_2/D_2$  and  $C_{12}/C_{13}$ .

Accuracy of 0.1 percent on ratio of 1:100 such as  $H_2/D_2$  and  $C_{12}/C_{13}$  is dependent on a double collector accessory which the applicant did not order as part of the foreign article. Therefore, pursuant to §§ 301.2(d) and 301.6(a)(3) of the regulations, this aspect of feature 6 cannot be a factor in our decision. The balance of feature 6, relating to reproducibility of ratio

to a precision of one percent, is a special order variant which was not listed in the specifications of the article available at the time of order but is a part of the foreign manufacturer's quotation (187484) and the applicant's purchase order. Nuclide was not given an opportunity to bid on this specification. Further, the applicant, in the denial without prejudice to resubmission of the initial application, was asked to compare the pertinent specifications of the foreign article with similar pertinent specifications of the 12-90-G and has made no claim that Nuclide could not match feature 6. Moreover, NBS advises that feature 6 could have been satisfied by the domestically manufactured 12-90-G. Accordingly, we find that the 12-90-G is scientifically equivalent to the article with respect to feature 6.

7. Three Separate Entry Devices—These are available, independent from one another with respect to temperature and operation. Each may be connected to the instrument in operational form at any time.

**Discussion.** We note that Nuclide could provide three or four separate entry devices which can be attached to the source for simultaneous use at the time of order. Therefore, Nuclide could match this feature at the time of order. In addition, NBS advises this feature is a convenience which is not pertinent.

8. Direct Entry—The entry device ESV allows an inlet temperature range from ambient to  $+300^\circ C$  in 2 seconds. The ESV can maintain a sample at any intermediate temperature regulated to  $\pm 0.5^\circ C$ .

**Discussion.** According to §§ 301.2(d) and 301.6(a)(3) of the regulations features not ordered with the article cannot be considered in the Department's determination. Since this feature was not ordered with the article as an accompanying accessory in August 1969 but was ordered in March 1971 the capabilities that it might confer on the article cannot become a factor in our decision.

9. Vacuum System Cooling—The vacuum system may be cooled electrically with a Peltier baffle system.

**Discussion.** We note that Peltier cooled baffles could have been supplied by Nuclide at the time the article was ordered. Therefore, Nuclide could have matched this feature at the time the article was ordered. Moreover, NBS advises that this feature is not pertinent for the intended purposes.

10. The instrument is very simple to operate, requiring only two manual operations for recording a spectrum (injection and mass scan start).

**Discussion.** The applicant's program is research oriented with education at a relatively sophisticated level. Although, in response to Question 7, the applicant identifies 5 courses for ad-

vance undergraduate and graduate students involving some use of the foreign article (including one entitled "undergraduate research" and one consisting of "research toward masters degree"), only one student activity is discussed in response to Question 8 (wherein the need for simplicity must be related to the purposes described in response to Question 7). That activity is research by advanced undergraduate students (Chemistry 186). For such research the applicant states that a mass spectrometer must be simple enough for such students to learn to operate in a short time, sufficiently uncomplicated for them to handle without constant supervision, and rugged enough to withstand the wear and tear that relatively untrained personnel may put upon it.

The applicant states that the 12-90-G is a research instrument which is not suited for student use and quotes, in part, undated Nuclide literature entitled "Modular Mass Spectrometers for the Analysis of Gases, Liquids, and Volatile Solids" which describes the 12-90-G as the "ideal basic instrument for both research and control laboratories." The applicant did not attach the quoted literature to the application but the Department found a very similar quotation in specifications for the 12-90-G received in 1966. Section "J" of these specifications terms the 12-90-G the "ideal instrument for both research and control laboratories." But it also states, "The 12-90-G is nevertheless relatively easy to operate, so that experimenters who are not specialists in mass spectrometry can use the instrument with complete confidence."

NBS advises that the applicant's rejection of the Nuclide 12-90-G as unacceptable for teaching purposes is based, not on fact, but on a description (quoted by the applicant above) extracted from promotional literature. The Department cannot regard the comparison of such promotional literature as the comparison of instruments which was requested of the applicant in the denial without prejudice to resubmission of the initial application and which is a requirement of § 301.11(a) of the regulations. For this reason, NBS advises that the applicant's outright rejection of the Nuclide instrument is not justified.

NBS further advises that (a) for the applicant's use "in courses for advanced undergraduates and graduate students" instrument sophistication should pose no significant problem to them or the lecturer and (b) the foreign article is no less complex than the domestic instruments (including the 12-90-G) referred to for comparison purposes by the applicant. Accordingly, NBS advises that feature 10 is not pertinent to the applicant intended purposes. The Department concurs

[3510-25]

## NATIONAL INSTITUTES OF HEALTH

## Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00364. Applicant: DHEW, National Institutes of Health, National Cancer Institute, 9000 Rockville Pike, Building 37, Room 2B23, Bethesda, Md. 20014. Article: LKB 8800A Ultratome III Ultramicrotome. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of tumor cells and tumor tissues following treatments with various agents (e.g., enzymes, hormones, metabolic inhibitors, etc.). Investigations will involve cyto- and histochemical studies on tumor cells and tumor tissues treated with various chemical and physical agents. The studies will include (a) localization of antigen and complement binding sites, (b) fine structure analysis of membranes, and (c) subcellular changes in the cells. The objectives pursued in the course of the investigations is to understand the alterations which take place in tumor cells following various treatments and to correlate these changes with susceptibility to immune attack.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has a cutting speed range of 0.1 to 50 millimeters/second (mm/sec). The most closely comparable domestic instrument is the Model MT-2B ultramicrotome manufactured by Ivan Sorvall, Inc. (Sorvall). The Sorvall Model MT-2B ultramicrotome has a cutting speed range of 0.09 to 3.2 mm/sec. We are advised by the National Bureau of Standards in its memorandum dated December 6, 1977 that (1) cutting speeds in the excess of 4mm/sec. are pertinent to the applicant's research studies and (2) the domestic instrument does not provide the pertinent feature. We, therefore, find that the

with NBS and moreover finds that such matters as ruggedness are cost-related matters which are not pertinent within the meaning of Subsection 301.2(n) of the regulations.

11. Variable Slit System—Adjustment of a single knob allows variation of the resolution from 0 to 7000  $M/\Delta M$ .

**Discussion.** According to §§ 301.2(d) and 301.6(a)(3) of the regulations, features not ordered with the article cannot be considered in the Department's determination of scientific equivalency. This feature was not ordered with the foreign article. NBS further notes that applicant is quoting specifications in 1969 that are only now being made available by the foreign manufacturer, and in the case of the variable slit system, the foreign manufacturer today does not guarantee  $M/\Delta M=7000$  or better as a standard available option. Moreover, the Department notes that Nuclide could have provided a matching variable slit option at the time of order.

In connection with the foregoing discussion of the features listed by the applicant in response to Question 8, we note that Nuclide was not afforded an opportunity to bid on the applicant's technical requirements (although the applicant did request literature from Nuclide and received a response dated May 22, 1968—a full 15 months before the article was ordered). We note further that the Department requested the applicant to compare the pertinent specifications of the foreign article with similar pertinent specifications of Nuclide's 12-90-G in the Denial Without Prejudice to Resubmission of the applicant's initial application for the foreign article. On resubmission, the only reason given for rejecting the 12-90-G was the claim that it was not suited for student use. The balance of the features listed in reply to Question 8 were not compared with similar ones in the 12-90-G, presumably because the applicant considered the 12-90-G, scientifically equivalent to the foreign article in these respects.

Based on the foregoing considerations, NBS advice, our own review of the application as well as other information in our possession (specifications, textbooks, etc.) we find that the Nuclide Model 12-90-G mass spectrometer was of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the article was ordered.

## STEVENS INSTITUTE OF TECHNOLOGY

## Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00329. Applicant: Stevens Institute of Technology, Castle Point Station, Hoboken, N.J. 07030. Article: PLM-3 Platinum NMR Thermometer and Accessories. Manufacturer: Instruments for Technology, Finland. Intended use of article: The article is intended to be used for studying experimentally low temperature properties of helium-three with the objective of furthering the conceptual understanding of the phenomenon of superfluidity.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides temperature measurements of Helium-Three in its superfluid phases (0.1 to 100 millikelvins). The National Bureau of Standards advises in its memorandum dated December 6, 1977 that (1) the specification of the article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or

apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

## UNIVERSITY OF CALIFORNIA—LOS ALAMOS

## Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00338. Applicant: University of California, Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, N. Mex. 87545. Article: Image Converter Camera System with S-20 image tube. Manufacturer: Hadland Photonics, Ltd., United Kingdom. Intended use of article: The article is intended to be used to photograph the behavior of a high velocity (up to 10<sup>6</sup> cm/sec) plasma stream emerging from a coaxial plasma gun. The phenomena to be studied will include the initial gas breakdown and subsequent behavior inside the gun (gun barrel phase) and the behavior of the plasma as it is injected into appropriate magnetic fields. Specific experiments to be conducted include the following:

A. Studies of the initial gas breakdown in the gun.

B. Study of the formation and subsequent behavior of the plasma stream in front of the gun nozzle.

C. The injection of this plasma into a magnetic field.

D. The measurement of the plasma properties such as axial velocity, transverse energy, temperature, impurity content, total energy.

E. Experiments to optimize gun parameters for production of thermonuclear plasmas.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the combination of streak and framing capability with a framing rate of at least 10<sup>4</sup> per second and up to 20 frames per run. The National Bureau of Standards advises in its memorandum dated December 5, 1977, that: (1) The combination of capabilities of the article described above is pertinent to the applicant's intended purposes, and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

## COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

## Partially Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is hereby given that a meeting of the Computer Systems Technical Advisory Committee will be held on Thursday, February 16, 1978, at 9:30 a.m. in Room 3817, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974 and January 13, 1977, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Committee advises the Office of Export Administration, Bureau of Trade Regulation, with respect to questions involving: (A) technical matters; (B) Worldwide availability and actual utilization of production technology; (C) licensing procedures which may affect the level of export controls

applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee meeting agenda has four parts:

## GENERAL SESSION

- (1) Opening remarks by the Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Report on the work programs of the Subcommittees: a. Technology Transfer; b. Foreign Availability; c. Hardware; and d. Licensing Procedures.

## EXECUTIVE SESSION

- (4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Acting Assistant Secretary of Commerce for administration, with the concurrence of the delegate of the General Counsel, formally determined on January 27, 1977, pursuant to section 10 (d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government in The Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under Executive Order 11652. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer Room 3012, Industry and Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Systems Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on February 2, 1977 (42 FR 6374).

Dated: January 20, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, Department of Commerce.

(FR Doc. 78-2076 Filed 1-24-78; 8:45 am)

## [3510-25]

## FOREIGN AVAILABILITY SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

## Partially Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is hereby given that a meeting of the Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee will be held on Tuesday, February 14, 1978, at 1:30 p.m. in Room 5611, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974 and January 13, 1977, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee was established on July 8, 1975, with the approval of the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving: (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Foreign Availability Subcommittee was formed to ascertain if certain kinds of equipment are available in non-COCOM and Communist countries, and if such equipment is

available, then to ascertain if it is technically the same or similar to that available elsewhere.

The Subcommittee meeting agenda has five parts:

## GENERAL SESSION

- (1) Opening remarks by the Subcommittee Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Review of RYAD II draft report.
- (4) Discussion of other areas to be considered for future reports.

## EXECUTIVE SESSION

- (5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5) the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on January 27, 1977, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government in The Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under Executive Order 11652. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: 202-377-4196.

The Complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Systems Technical Ad-

## NOTICES

visory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on February 2, 1977 (42 FR 6374).

Dated: January 20, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, Department of Commerce.

[FR Doc. 78-2074 Filed 1-24-78; 8:45 am]

## [3510-25]

## LICENSING PROCEDURES SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

## Partially Closed Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is hereby given that a meeting of the Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee will be held on Tuesday, February 14, 1978, at 9:30 a.m. in Room 5611, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974 and January 13, 1977, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee was initially established on February 4, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this Subcommittee, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Licensing Procedures Subcommittee was formed to review the procedural aspects of export licensing and recommend areas where improvements can be made.

The Subcommittee meeting agenda has six parts:

- GENERAL SESSIONS
- (1) Opening remarks by the Subcommittee Chairman.
  - (2) Presentation of papers or comments by the public.
  - (3) Discussion of proposed modifications to Part 379 (Technical Data) of the Export Administration Regulations.
  - (4) Discuss current regulations with respect to proposals, documentation, and training.
  - (5) Discussion of the future work program for the Subcommittee.

## EXECUTIVE SESSION

- (6) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (6) the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on January 27, 1977, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under Executive Order 11652. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Systems Technical Ad-

visory Committee and of any Subcommittees thereof, was published in the FEDERAL REGISTER on February 2, 1977 (42 FR 6374).

Dated: January 20, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, Department of Commerce.

## [3510-22]

National Oceanic and Atmospheric Administration  
FOREIGN FISHING

## Proposed Amendment to Schedule of Fees

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Proposed amendment to schedule of fees for foreign fishing.

SUMMARY: This proposed amendment would add sharks and certain species of billfish, and the "ex-vessel" price for each, to the list of species which was published in the FEDERAL REGISTER on October 7, 1977 (42 FR 54588).

DATES: Public comments concerning this proposed amendment must be received no later than midnight, February 15, 1978.

ADDRESS: Comments may be addressed to the Assistant Administrator for Fisheries, NOAA, 3300 Whitehaven Street NW., Washington, D.C. 20235.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard H. Schaefer, Chief, Fishery Management Operations Division, National Marine Fisheries Service, Washington, D.C. 20235. Telephone: 202-634-7454.

SUPPLEMENTARY INFORMATION: Section 204 of the Fishery Conservation and Management Act requires that certain fees be charged foreign fishermen who desire to participate in fisheries over which the United States exercise exclusive fishery management authority.

A schedule of species together with their "ex-vessel" values from which the fees are derived was published on October 7, 1977. (42 FR 54588).

This proposed amendment would add the following to that list of species:

Species	Average ex-vessel value (per metric ton)
Swordfish, Pacific	\$4,040
Striped marlin, Pacific	1,579
Other billfish, Pacific	875

Species	Average ex-vessel value (per metric ton)
Sharks, Atlantic (except dogfish)	140
Sharks, Pacific (except dogfish)	134

\* Includes blue marlin, black marlin, and sailfish.

Prices are based on U.S. commercial landings in 1978 (source: Data Management and Statistics Division, National Marine Fisheries Service).

Signed at Washington, D.C., this 19th day of January 1978.

WINFRED H. MEIBOHM,  
Associate Director.

## [3510-22]

## GULF OF MEXICO FISHERY MANAGEMENT COUNCIL

## Public Meeting With Partially Closed Session

Notice is hereby given of a meeting of the Gulf of Mexico Fishery Management Council established by Section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265).

The meeting will be held, Tuesday, Wednesday, and Thursday, February 7, 8, and 9, 1978, in the Fortress Room of the Fort Brown Motor Hotel, 1900 East Elizabeth Street, Brownsville, Tex. The meeting will convene at 1:30 p.m. on February 7, and adjourn at about noon on February 9, 1978. The daily sessions will start at 8:30 a.m. and adjourn at 5 p.m. except as otherwise noted. The meeting may be extended or shortened depending on progress on the agenda.

Proposed Agenda: February 7; (1) Management plans; (2) Personnel and administration categories; (3) Review of foreign fishing applications, if any; February 8; (1) Closed session to discuss proposals by potential contractors in a negotiated procurement for the preparation of a draft fishery management plan; (2) Other fishery management business. February 9; (1) Other fishery management business.

With the exception of the first agenda item on February 8 the meeting is open to the public. For information on seating arrangements, changes to the agenda, and/or written comments, contact: Mr. Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council, Lincoln Center, Suite 881, 5401 West Kennedy Boulevard, Tampa, Fla. 33609; Telephone: 813-228-2815.

The closed session is planned for 8:30 a.m. until 12 noon, but may continue into the afternoon on February 8, 1978, to discuss proposals by potential contractors in a negotiated pro-

## NOTICES

curement for the preparation of a draft fishery management plan.

The Assistant Secretary for Administration of the Department of Commerce, with the concurrence of the General Counsel, formally determined on January 18, 1978 pursuant to section 10(d) of Federal Advisory Committee Act, that the agenda item covered in the closed session may be exempt from the provisions of the Act relating to open meetings and public participation therein because these items will be concerned with matters that are within the purview of 5 U.S.C. 552b(c) (4), (6), and (9)(B). (A copy of the determination is available for public inspection and copying in the Public Reading Room, Central Reference and Record Inspection Facility, Room 5317, Department of Commerce.)

Dated: January 18, 1978.

WINFRED H. MEIBOHM,  
Associate Director, National Marine Fisheries Service.

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

## TEXTILE CATEGORY SYSTEM

## Correlation; Correction

JANUARY 20, 1978.

AGENCY: Committee for the Implementation of Textile Agreement.

ACTION: Corrections and changes in the Correlation: Textile and apparel categories with tariff schedules of the United States Annotated.

SUMMARY: A notice, published in the FEDERAL REGISTER on January 4, 1978, Part VI, announced adoption of a new textile category system to be effective January 1, 1978. There is published below a list citing corrections and changes in the textile category system. These corrections and changes are identified by page numbers in the correlation which was reproduced in the FEDERAL REGISTER on January 4, 1978.

EFFECTIVE DATE: January 25, 1978.

## FOR FURTHER INFORMATION CONTACT:

Leonard A. Mobley, Director, Trade Analysis Division, Office of Textiles,

U.S. Department of Commerce, Washington, D.C. 20230, 202-377-4212.

ROBERT E. SHEPHERD,  
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Domestic Business Development, U.S. Department of Commerce.

## DEPARTMENT OF DEFENSE

Department of the Air Force

## USAF SCIENTIFIC ADVISORY BOARD

## Meeting

JANUARY 19, 1978.

The USAF Scientific Advisory Board Electronic Systems Division Advisory Group, Air Force Systems Command, will hold meetings on February 9, 1978, from 8:30 a.m. to 5 p.m., and February 10, 1978, from 8:30 a.m. to 12 p.m., at Hanscom Air Force Base, Massachusetts, in the Command Management Center, Building 1606.

The group will receive classified briefings and hold classified discussions on selected Air Force Command, control and communications programs.

The meetings concern matters listed in section 552b(c) of Title 5, United States Code, specifically subparagraph (1) thereof, and accordingly the meetings will be closed to the public.

For further information contact the Scientific Advisory Board Secretariat at 202-697-8404.

FRANKIE S. ESTEP,  
Air Force Federal Register Liaison Officer, Directorate of Administration.

## DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

(Docket No. E-9805)

## BLACK HILLS POWER &amp; LIGHT CO.

Order of Authorizing Transfer of Electric Facilities

JANUARY 18, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977), and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE

## NOTICES

now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above-mentioned authorities.

On September 27, 1977, the Black Hills Power & Light Co. (BHP&L) filed with the Federal Power Commission (predecessor to the Federal Energy Regulatory Commission), pursuant to section 203 of the Federal Power Act, an application seeking authorization for the sale by BHP&L and the purchase by the city of Gillette, Wyo. (city), of a 1-mile section of 69 kV single pole transmission line and a 10,500 kVA substation.

Black Hills Power & Light is incorporated under the laws of the State of South Dakota with its principal place of business in Rapid City, S. Dak. The company is engaged in the generation, transmission, distribution, and sale of electric power in a territory comprising 19 incorporated communities, certain unincorporated communities, and rural areas located in western South Dakota, eastern Wyoming and southeastern Montana utilizing an interconnected transmission network. During 1976, BHP&L generated at its system plants 710,249 MWh; purchased 667,250 MWh, and delivered to other systems 570,970 MWh. The resulting net energy from its system after energy transfers and losses was 743,003 MWh which the company supplied to 40,483 customers.

The city of Gillette operates a small municipally owned electric system without generation. It purchases all of its energy requirements from BHP&L. In 1976, the city purchased 51,948 MWh which it delivered to 4,176 customers all of which are located within the city limits. The city's system is presently experiencing considerable growth requiring it to expand its distribution facilities. As an example, the city's 1972 energy requirements were 28,394 MWh. It expects continued growth resulting from the increased mining of nearby coal deposits.

BHP&L has agreed to sell the facilities in question to the city for \$62,482. This amount is stated by BHP&L to be equal to the original cost of the transmission line and substation amounting to \$18,070 and \$60,049, respectively, minus \$15,637 for the accumulated depreciation as of March 1, 1977.

The city has been leasing the substation facilities for \$741 per month from BHP&L pursuant to a rental agreement filed with this Commission and designated supplemental No. 1 to FPC rate schedule No. 17, effective December 3, 1969. As a result of the sale, supplement No. 1 should be amended to reflect the sale and a description of the delivery point.

The application states that the city has agreed to purchase the facilities involved in this instant proceeding, and in addition, to provide additional substation facilities when necessary to meet its contemplated load growth.

BHP&L states that the sale of the subject facilities will not affect its ability to provide electric energy at whole-sale to the city.

Public notice of the application was issued by the Secretary on September 29, 1977, and published in the FEDERAL REGISTER on October 6, 1977 (42 FR 54457). The notice provided that any protest or petition for intervention in this application should be filed on or before October 11, 1977. No petition or request to be heard has been received.

The Commission finds: (1) The Black Hills Power & Light Co., a corporation, is a public utility within the meaning of section 203 of the Federal Power Act, and, as such, it is subject to the jurisdiction of the Federal Energy Regulatory Commission.

(2) The proposed sale of the electric facilities owned by the Black Hills Power & Light Co. as described above, will constitute a transaction within the purview of section 203 of the Federal Power Act.

(3) The proposed transaction, as described above, upon the terms and conditions of this order, will be consistent with the public interest as expressed in section 203 of the Federal Power Act.

(4) The period of public notice given in this matter is reasonable.

The Commission orders: (A) The proposed transaction, as described above, is authorized and approved upon the terms and conditions and for the purposes set forth in the application, subject to the provisions of this order.

(B) The applicant, Black Hills Power & Light Co., shall record the proposed transaction related to the facilities described above in accordance with the Commission's uniform system of accounts.

(C) This authorization shall expire unless the transaction herein authorized and approved is consummated within 90 days from the date of this order.

(D) The foregoing authorization is without prejudice to the authority to this Commission or any other regulatory body with respect to rates, service, accounts, valuation, estimates, or determinations of cost, or any matter

## NOTICES

whatsoever now pending or which may come before this Commission.

(E) Nothing in this order shall be construed to imply acquiescence by this Commission in any estimate or determination of cost or any valuation of property claimed or asserted.

(F) Pursuant to this authorization of sale of the described facilities, Black Hills Power & Light Co. is advised that the change in ownership requires a change in supplement No. 1 to rate schedule FPC No. 17 to reflect the sale and a description of the new delivery point which applicant should file within 60 days from the date of this order.

(G) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

(FR Doc. 78-2126 Filed 1-24-78; 8:45 am)

## Economic Regulatory Administration

## CASES FILED WITH THE OFFICE OF ADMINISTRATIVE REVIEW

Week of January 6 through January 13, 1978

Notice is hereby given that during the week of January 6 through January 13, 1978, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Administrative Review of the Economic Regulatory Administration of the Department of Energy.

## APPENDIX—List of cases received by the Office of Administrative Review

Week of Jan. 6, 1978 through Jan. 13, 1978

Date	Name and location of applicant	Case No.	Type of submission
Jan. 10, 1978	Buck's Butane & Propane Service San Jose, Calif. If granted: The Nov. 15, 1977 decision and order issued to Buck's Butane & Propane Service would be modified to provide the acting director of enforcement, DOE Region IX an additional period of time in which to prepare remedial orders regarding the level of refunds and payments of interest to be required of Buck's.	DRX-0025	Supplemental order.
Do	Clarke County Supply, Inc., Berryville, Va. If granted: Clarke County Supply, Inc. would be required to file only 1 of 2 monthly survey reports: Form EIA-9 "No. 2 Heating Oil Supply/Price Monitoring Report" or Form EIA-2 "Monthly Coal Report—Retail Dealers—Upper Lake Docks".	DEE-0452	Exception to reporting requirements.
Do	Howmet Aluminum Corp., Lancaster, Pa. If granted: The Howmet Aluminum Corp. would be supplied propane by Suburban Propane Gas, Inc. rather than its base period supplier, Ugitte Gas Co.	DEE-0453	Exception to change suppliers.
Do	Jacobus Co. (Quickflash), Milwaukee, Wis. If granted: Jacobus Co. (Quickflash) would be permitted to compute retroactively its cost of product in inventory on a separate inventory basis.	DEE-0454	Price exception (pt. 212, subpt. f).
Do	Arizona Fuels Corp., Salt Lake City, Utah. If granted: Arizona Fuels Corp. would receive a reduction of its entitlement purchase obligations pending a final determination on its application for exception.	DEX-0027	Supplemental order.
Do	Charter Oil Co., Jacksonville, Fla. If granted: Charter Oil Co. would receive an exception from the provisions of sec. 212.83 which pertain to the pass through of increased costs for the production levels attained by the firm in December 1977.	DEE-0456	Price exception (§ 212.83).
Do	Coastal States Gas Corp., Houston, Tex. If granted: Coastal States Gas Corp. would be permitted to increase its prices to reflect nonproduct cost increases in excess of \$0.005/gal for natural gas liquid products produced at the Lakin plant.	DEE-0458	Price exception (§ 212.165).
Do	Dorchester Gas Corp., American Petrofina, Washington, D.C. If granted: The Nov. 22, 1977 decision and order issued to Dorchester Gas Corp. and American Petrofina would be modified with respect to the assignment of certain base period supply obligations.	DEX-0028	Supplemental order.
Do	Doric Petroleum, Inc., Washington, D.C. If granted: Doric Petroleum, Inc. would receive an extension of the exception relief granted in the July 22, 1977 decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of \$0.005/gal for natural gas liquid products produced at the Enid plant.	DXE-0457	Extension of the relief granted in Doric Petroleum, Inc., case No. FXE-4353 (decided July 22, 1977) (unreported decision).
Do	Great Southern Oil & Gas Co., Inc., Lafayette, La. If granted: Great Southern Oil & Gas Co., Inc. would be permitted to sell the crude oil produced from the St. Martin No. 1 and Tipton No. 1 wells located in the Anse LaButte Field in St. Martin Parish, La. at upper tier ceiling prices.	DEE-0455	Price exception (§ 212.73).
Do	Phillips-Good Oil Co., Enid, Okla. If granted: The remedial order issued by DOE Region VI on Dec. 20, 1977 would be rescinded and Phillips-Good Oil Co. would not be required to refund overcharges made on its sales of crude oil.	DRA-0108 and DRS-0108	Appeal of remedial order issued by DOE Region VI. Stay request.

Under the DOE's procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the DOE action sought in such cases may file with the DOE written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be January 25, 1978, or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Administrative Review, Economic Regulatory Administration, Department of Energy, Washington, D.C. 20461.

MELVIN GOLDSTEIN,  
Director, Office of  
Administrative Review.

JANUARY 18, 1978.

Date	Name and location of applicant	Case No.	Type of submission
Jan. 10, 1978	Southland Oil Co./VOS Corp. Jackson, Miss. If granted: The Office of Administrative Review would reduce the level of entitlements exception relief which was granted the Southland Oil Co./VOS Corp. in a decision and order issued on Dec. 20, 1977 on the basis of revised data made available to the DOE.	DEX-0026	Supplemental order.
Do	Common Carrier Pipelines, Washington, D.C. If granted: The Federal Trade Commission would receive access to the confidential material developed by the Interstate Commerce Commission in its investigation of the common carrier pipeline.	DOP-0002	Application for review of ICC confidential information determination.
Do	Lunday-Thagard Oil Co., Washington, D.C. If granted: Lunday-Thagard Oil Co. would receive a stay of its entitlement purchase obligations for December 1977 and January 1978 pending a final determination on its Application for Exception.	DES-0023	Stay request.

NOTICES OF OBJECTION RECEIVED  
Week of Jan. 6 through Jan. 13, 1978

SUPRON ENERGY CORP. (FORMERLY SOUTHERN UNION PRODUCTION CO.)

[Docket Nos. CI61-1265, et al.]

Redesignation

JANUARY 17, 1978.

On May 11, 1977, as amended, May 17 and June 2, 1977, the Commission was advised that effective April 18, 1977, the Certificate of Incorporation of Southern Union Production Co. (Southern) was amended to change the name to Supron Energy Corp. (Supron). Supron requests amendment of the certificates and redesignation of the related rate schedules, as listed in the attached Appendix A to reflect the change in name. In addition, Supron is being substituted in the proceedings listed in the attached Appendix B.

Accordingly, the rate schedules listed on the attached Appendix A are redesignated, and the related notices of change in name dated May 5, 1977, are accepted for filing to be effective April 18, 1977, and the certificates issued in the dockets shown on Appendix A are amended to reflect the change in name from Southern to Supron, and Supron is substituted as a party in the proceedings listed in the Appendix B in lieu of Southern.

Lois D. CASHELL,  
Acting Secretary.

[6740-02]

[Docket No. E-9588]

FLORIDA POWER CORP.

Order Authorizing Sale of Certain Electric Facilities

JANUARY 18, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977), and Executive Order No. 12009, 42 FR 48467 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above-mentioned authorities.

On April 8, 1977, Florida Power Corp. (Applicant) filed an application pursuant to section 203 of the Federal

Power Act for authority to sell 2.1 miles of transmission facilities to Gulf Power Co. (Gulf).

Applicant is a public utility incorporated in the State of Florida with its principal office in St. Petersburg, Fla., and is engaged in the generation, transmission, distribution, and sale of electricity wholly within the State of Florida.

The transmission facilities to be sold are the westernmost 2.1 miles of applicant's 115 kV transmission line extending from applicant's Port St. Joe substation 37 miles westward to Gulf's Wewa Road substation. The facilities connect the Wewa Road substation to a tap serving Gulf's Parker Road substation, and they are used, and will continue to be used, to supply Gulf's Parker Road substation from its Wewa Road substation as well as part of the interconnection between the Parker Road substation and applicant's Port St. Joe substation.

Applicant has agreed to sell the subject facilities to Gulf for consideration of \$146,090. The original cost of the facilities was \$274,377, and the accumulated depreciation attributable to the facilities is \$44,763. Applicant states that the proposed sale of the subject facilities will provide Gulf with control over its power source to its Parker Road substation, and thereby, will avoid Gulf having to construct an additional transmission line, or to obtain transmission services from applicant, in order to supply this substation.

By letter of May 17, 1977, the Commission Secretary told Gulf that it too must submit an application in accordance with Part 33 of the Commission's regulations under the Act requesting authorization to purchase the above-described facilities from applicant. In a letter to the Commission dated July 25, 1977, Gulf stated that it concurs in Florida Power Corp.'s application, but, Gulf argued, it is not required to file its own application with the Commission in this proceeding because, inter alia, Gulf has previously filed an application with the Securities and Exchange Commission pursuant to the Public Utility Holding Company Act of 1935. Section 318 of the Federal Power Act states that if the acquisition of facilities is subject to a requirement of the Public Utility Holding Company Act and to a requirement of the Federal Power Act, then the acquisition is subject to the requirements of the Public Utility Holding Company Act and not the requirements of the Federal Power Act. In view of section 318, Gulf is not required to file an application in this proceeding with this Commission.

Notice of the proposed sale was

given by publication in the FEDERAL REGISTER, stating that any person desiring to be heard or to make any protest with reference to said application should, on or before April 27, 1977, file petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR, 1.8, 1.10), with the Federal Power Commission, Washington, D.C. 20426. No protest or petition to be heard in opposition to the granting of the application has been received.

The Commission finds: (1) Florida Power Corp. is a public utility within the meaning of section 203 of the Federal Power Act, and subject to the jurisdiction of the Commission.

(2) The proposed sale of electric facilities, as described above, will constitute a transaction within the purview of section 203 of the Federal Power Act.

(3) The proposed transaction, as described above, upon the terms and conditions and for the purposes set forth in this order, will be consistent with the public interest as expressed in section 203 of the Federal Power Act.

(4) The period of public notice given in this matter is reasonable.

The Commission orders: (A) The proposed transaction, as described above, is authorized and approved upon the terms and conditions and for the purposes set forth in the application subject to the provisions of this order.

(B) Applicant shall record the proposed transaction related to the facilities and properties described above in accordance with the Commission's uniform system of accounts.

(C) This authorization shall expire unless the transaction herein authorized and approved is consummated within 90 days from the date of issuance of this order.

(D) The foregoing authorization is without prejudice to the authority of this Commission or any other regulatory body with respect to rates, service, accounts, valuation, estimates, or determinations of cost, or any matter whatsoever now pending or which may come before this Commission.

(E) Nothing in this order shall be construed to imply acquiescence by this Commission in any estimate or determination of cost or any valuation of property claimed or asserted.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-2128 Filed 1-24-78; 8:45 am]

## [6740-02]

(Docket Nos. CP75-104, et al.)

## HIGH ISLAND OFFSHORE SYSTEM

Notice of Gas Tariff Filing

JANUARY 18, 1978.

Take notice that on December 28, 1977, High Island Offshore System (HIOS) filed its FERC Gas Tariff consisting of Original Volume Nos. 1 and 2.

HIOS requests that the Commission waive the notice requirements of section 154.51 of the Regulations in order to permit the tariff to become effective on January 10, 1978. HIOS states that it is anticipated that gas will be available for transportation in the HIOS system early in January 1978. HIOS states that the requested waiver is necessary in order to avoid a possible delay in the delivery of gas to HIOS from shippers having gas available for transportation in the High Island offshore area.

HIOS states that the Interim Transportation Rate specified in the Schedule of Rates is the same as that approved by the Commission in its order issued December 6, 1977, in this proceeding.

HIOS further states that the demand and commodity rates have not been set forth in the tariff as these rates will be determined in accordance with HIOS' certificate issued in this docket and will be submitted to the Commission prior to the termination of the Interim Transportation Rate. According to HIOS, the demand charge for short haul shippers will be based upon the percentage of capacity which is actually utilized in transporting the maximum daily volumes to be received from such shippers. For long haul shippers, the percentage will be shown as 100 percent. HIOS also enclosed as Original Volume No. 2, conformed copies executed transportation agreements between HIOS of the shippers.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filings of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before January 25, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file

a petition to intervene in accordance with the Commission Rules.

LOIS D. CASHELL,  
Acting Secretary.

## [6740-02]

(Docket No. ER77-90)

## HOLYOKE WATER POWER CO. AND HOLYOKE POWER &amp; ELECTRIC CO.

Order Approving Settlement Agreements

JANUARY 18, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act) Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 56267 (September 15, 1977) the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC), which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On August 3, 1977, the Holyoke Water Power Co. and the Holyoke Power & Electric Co. (hereinafter collectively referred to as "HWP") filed with the Federal Power Commission an executed Settlement Agreement, dated as of July 21, 1977. The Settlement Agreement was executed by HWP, the city of Chicopee and the town of South Hadley, being all of the parties rendering or receiving service under the rate schedule which is the subject of the Commission's proceeding in the above-captioned docket. The Commission finds that the Settlement Agreement is in the public interest and accepts and approves it as hereinafter ordered and conditioned.

Proceedings in this docket were initiated on December 1, 1976, when the HWP tendered for filing a proposed increase in rates to its wholesale customers, the city of Chicopee and the town of South Hadley, Mass. The proposed rates would yield additional revenues from jurisdictional sales of \$3,202,000 based on the estimated (Period II) test year ended December 31, 1977.

By order issued December 27, 1976, in the above-captioned docket, the Federal Power Commission determined that the contracts between the parties are most reasonably interpreted as requiring prospective relief from the date of a final decision by the appropriate regulatory agency.

Settlement discussions were held by the parties, including the Staff and an executed settlement was reached. As noted previously, the executed Settlement Agreement and a motion for acceptance and approval were filed with the Federal Power Commission on August 3, 1977. Public notice of the filing of the Settlement Agreement was issued on August 15, 1977, with comments, protests and petitions to be filed on or before October 12, 1977. Both Staff and the Intervenor Cities filed comments in support of the proposed settlement which would reduce the originally requested increase of \$3,202,000 by \$1,399,200. On November 14, 1977, HWP and the Intervenor Cities filed a joint motion for expedited action on the Settlement Agreement. No other comments were received.

In particular, the Settlement Agreement provides for a Period II test year dollar increase of \$1,802,800 (\$1,157,105 from the city of Chicopee and \$645,659 from the town of South Hadley, such revenue level being achieved by reducing the originally proposed demand charges to each customer) and includes an August 1, 1977 effective date. In addition, the Agreement provides that upon Commission approval, HWP agrees to withdraw its petition for review of the Federal Power Commission's December 27, 1976, order which held that the contracts between the parties are most reasonably interpreted as requiring prospective relief from the date of a final decision. Such petition is currently pending before the United States Court of Appeals for the District of Columbia Circuit. Further, the Agreement provides that no principles are being established which would be binding in future cases.

The proposed Settlement Agreement would yield additional revenues from jurisdictional sales of \$1,802,800 based on the estimated test year ending December 31, 1977. Staff's analysis indicates that the settlement rate will not produce revenues in excess of Staff's recommended rate of return of 8.74

percent, including 12.20 percent return on common equity with a 50.60 percent common equity ratio.

Upon review of the entire record in this proceeding, the Commission finds that the proposed Settlement Agreement represents a reasonable resolution of all of the issues in this proceeding. Accordingly, the proposed Settlement Agreement shall be incorporated herein by reference and shall be approved and adopted.

The Commission finds: The Settlement Agreement submitted for the Federal Power Commission approval in this docket on August 3, 1977, should be approved and made effective as hereinafter ordered.

The Commission orders: (A) The Settlement Agreement submitted to the Federal Power Commission on August 3, 1977, in this proceeding is hereby accepted as of August 1, 1977, incorporated herein by reference and approved subject to the following conditions.

(B) HWP is hereby ordered to file within 30 days of the issuance of this order, rate schedules appropriate to reflect terms of the proposed Settlement Agreement.

(C) This order is without prejudice to any findings or orders which have been made or which will hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, or any party or person affected by this order, in any proceeding now pending or hereafter instituted by or against HWP or any person or party.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

## [6740-02]

(Docket No. ER77-511)

## NEW YORK POWER POOL

Order Establishing Procedures; Electric Rates

JANUARY 18, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to

\*Consonant with the provisions of ordering paragraph (F) of the Federal Power Commission's Order of December 27, 1976, HWP shall file a fuel adjustment clause which conforms to §35.14 of the Regulations within 30 days of the issuance of this order.

exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above-mentioned authorities.

On July 11, 1977, the New York Power Pool (Pool) tendered for filing a proposed superseding New York Power Pool Agreement containing increased rates and charges for Pool members. By order issued August 1, 1977, the Commission accepted the submittal for filing, suspended the rates and charges for 1 day, to become effective April 5, 1977, subject to refund, and called for a public hearing.

Notice of the Pool submittal was issued on August 1, 1977, with protests or petitions due on or before August 12, 1977. No protests or petitions have been filed.

It is in the public interest to set a date for a prehearing conference in this docket. At the conference, a date shall be set for the Pool's submission of its Case-In-Chief as well as for the service of Staff's top sheets.

The Commission finds: Good cause exists to set a prehearing conference date in this docket.

The Commission orders: (A) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see, Delegation of Authority, 18 CFR 33.5(d)), shall convene a prehearing conference in this proceeding at 10 a.m. on February 7, 1978, in a hearing

\*See Attachment for rate designations and descriptions.

\*The Pool requested a retroactive effective date of April 4, 1977, the date of initiation of Pool-wide central dispatching of generating units.

room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. The Law Judge is authorized to establish all procedural dates and to rule upon all motions (except petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure, and is specifically directed to set the dates for the Pool's submission of its Case-In-Chief and Staff's top sheets in this proceeding.

(B) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to §1.18 of the Commission's Rules of Practice and Procedure.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

NEW YORK POWER POOL DOCKET NO. ER 77-511 RATE SCHEDULE DESIGNATIONS

Filing date: July 11, 1977

Description: Superseding New York Power Pool Agreement

Other party	Rate schedule FPC No.	Supersedes as supplemented FPC No.
Central Hudson Gas & Electric Co.	54	54
Consolidated Edison Co. of N.Y.	43	36
Long Island Lighting Co.	26	21
New York State Electric & Gas Corp.	68	66
Niagara Mohawk Power Corp.	99	93
Orange & Rockland Utilities.	38	35
Rochester Gas and Electric Corp.	23	20

## NON-JURISDICTIONAL.—Power Authority of the State of New York

Supplements to all the above Rate Schedules

**PENNZOIL LOUISIANA AND TEXAS OFFSHORE, INC. AND PENNZOIL OFFSHORE GAS OPERATORS, INC.**

**Application for Certificate Pursuant To Optional Procedure**

JANUARY 18, 1978.

Take notice that on July 25, 1977, Pennzoil Louisiana and Texas Offshore, Inc. (PLATO) and Pennzoil Offshore Gas Operators, Inc. (POGO), P.O. Box 2967, Houston, Tex. 77001 filed respectively in Docket No. CI77-702 and CI77-703, applications for certificates of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act and section 2.75 of the Commission's General Policy and Interpretations (18 CFR § 2.75). Each applicant requests authorization to sell to Sea Robin Pipe Line Co. (Sea Robin) its gas interests underlying 7 offshore Louisiana blocks, namely, West Cameron Blocks 563, 609, and 617 and Eugene Island Blocks 261, 262, 312, and 333. PLATO requests an initial rate of \$3.30/Mcf and POGO asks for approval of a \$2.54/Mcf initial rate. Both Applicants request Commission approval of the periodic price escalation methodology which, if ap-

**NOTICES**

proved, would allow the company to recalculate its price based on the most current reserve and cost data. Each Applicant has depth limitation clauses in its contracts with Sea Robin there are approximately 169 Bcf of reserves involved in the 7 blocks which if approved to be sold at the initial rates proposed would result in total charges to the purchasing pipeline of about \$477 million over the life of the reserves.

Any person desiring to be heard or to make any protest with reference to said petition should on or before February 9, 1978, file with the Federal Energy Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-2132 Filed 1-24-78; 8:45 am]

[Dockets Nos. CP71-264, CP71-276]

**SOUTHERN ENERGY CO. AND SOUTHERN NATURAL GAS CO.**

**Order Granting Further Extension of Time**

JANUARY 18, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsibilities for the function under the DOE Act and regulations promulgated thereunder.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided

that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

In Opinion No. 622, issued June 28, 1972, 47 FPC 1624 the Federal Power Commission issued certificates of public convenience and necessity authorizing construction and operation of an LNG terminal at Elba Island, Georgia (Docket No. CP71-264) and construction and operation of certain pipeline and related facilities (Docket No. CP71-276) to be utilized in conjunction with a program to import natural gas from Algeria. December 31, 1975, was set as the original deadline for completing construction and placing the facilities in operation. By motion dated November 12, 1975, the Applicants requested a two year extension, alleging delays in foreign and domestic construction, which motion was granted by Commission order issued December 27, 1975. Owing to additional delays, the Commission has been presented with a request for an additional extension which is authorized herein.

On August 8, 1977, the Applicants filed a motion for an extension of the construction completion date alleging additional delays in both foreign and domestic construction. At the time this motion was filed the Applicants' best estimate for completion and testing of the certificated facilities was during the first half of 1978. The Applicants accordingly sought extension until June 30, 1978. On November 22, 1977, the Applicants filed a supplemental motion requesting an extension until December 31, 1978. They cite further unspecified delays, and note that certain appurtenant facilities necessary to accomplish reverse flow of regassified LNG west of the Wrens Station will not be completed until sometime after the start-up of the other LNG facilities. No answers to either of these motions have been received.

The Commission finds: It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the previous orders in the above-captioned dockets be amended as hereafter ordered.

The Commission orders: The order issued December 22, 1975, in Docket Nos. CP71-264 and CP71-276 is amended to provide that the facilities authorized in these dockets be completed and placed in service by December 31, 1978. In all other respects this order shall remain in full force and effect.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

**TRANSCONTINENTAL GAS PIPE LINE CORP.**

**Order Disapproving Retroactive Increase in Frozen Rates, and Directing Refunds**

JANUARY 18, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by section 402(a)(1) or 402(a)(2) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

**SUMMARY**

The Federal Power Commission, by order issued April 5, 1974 (51 FPC 1243, at page 1246), found that the Article IV of a settlement agreement pertaining to the rates of Transcontinental Gas Pipe Line Corp. (Transco) in Docket No. RP73-69 was reasonable and should be approved "[t]o the extent jurisdiction rests with this Commission," but the Commission left for future decision questions pertaining to whether Article IV was consistent with the Economic Stabilization Act of 1970, as amended. Today,

<sup>1</sup>As used herein, the term "Commission" means the Federal Power Commission in contexts prior to October 1, 1977, and the Federal Energy Regulatory Commission in contexts on and after that date.

we find that Article IV has resulted in a retroactive increase in Transco's rates for natural gas service rendered from July 1, 1973, through August 12, 1973, while those rates were subject to a price freeze, and, therefore, that Article IV is inconsistent with the Economic Stabilization Program. Accordingly, we are ordering a refund of a surcharge which Transco has collected thereunder.

**BACKGROUND**

On December 15, 1972, Transco tendered for filing in Docket No. RP73-69 certain revised tariff sheets by which it proposed general increases in its rates. After notice, the Commission, by order issued January 31, 1973, among other matters, suspended the use of the revised tariff sheets and consequently, the rate increases, until July 1, 1973, and permitted the intervention, among others, of the Public Service Commission of the State of New York (New York).

The rate increases were subject to Phase III of the President's Economic Stabilization Program. 6 CFR § 130.80 then provided, in this connection, that the regulatory subpart pertaining to increase in rates of public utilities applied "to each rate increase authorized under law to be placed into effect after January 10, 1973." But on June 13, before Transco's suspended rate increases went into effect, the President issued Executive Order 11723 which initiated "pre-Phase IV", as it was called, and imposed "a comprehensive freeze for a maximum period of 60 days on the prices of all commodities and services offered for sale except the prices charged for raw agricultural products." And the Commission, on June 19, 1973 (but effective as of June 13, 1973), issued Order No. 437-B in which it reaffirmed its Statement of General Policy To Implement the Economic Stabilization Act of 1970, as Amended, and Executive Orders 11615 and 11627 (18 CFR §§ 2.90 and 2.90a) and promulgated § 2.90b of its General Policy and Interpretations (18 CFR § 2.90b), which said, among other matters, that the Commission would continue to carry out its responsibilities under the Natural Gas Act and the Federal Power Act by establishing just and reasonable rates.

With a view toward consistency of those rates with the Economic Stabilization Act of 1970, as amended.

On or about June 13, 1973, the Cost of Living Council adopted regulations to implement the pre-Phase IV price freeze. 6 CFR § 140.40(a) provided, in this connection,

Any practice which constitutes a means to obtain a price higher than is permitted by this regulation is a violation of this regulation. Such practices include, but are not

limited to, devices making use of . . . retroactive increases . . .

The Economic Stabilization Program entered Phase IV on August 13, 1973, at which time the Cost of Living Council's regulations provided, 6 CFR § 150.56,

Rate increases for commodities or services provided by a public utility are exempt.

On January 4, 1974, the presiding Administrative Law Judge certified to the commission a proposed agreement for settlement of Docket No. RP73-69. Article IV of that agreement utilized a technique which in the past was utilized with so-called "tracking" rate increases for increased costs of purchased gas, and is now utilized with purchased gas adjustment provisions. The technique, simply stated, is to charge (debit) a deferral account with the increased costs associated with sales during one period of time, and to reduce (credit) that account against an adjusted rate (or surcharge) applied to sales during a later period of time. Thus, Article IV provides,

The settlement agreement herein is based upon a recognition of costs incurred and settlement rates to be collected effective July 1, 1973. However, in compliance with the President's freeze order and in an effort to stabilize Transco's rates for a period of time beyond the freeze period, Transco hereby agrees that it will not place into effect prior to September 1, 1973 the settlement rates provided in Article III hereof; provided, however, in recognition of the legitimate costs to be incurred by Transco during period from July 1, 1973 to September 1, 1973, it is agreed that from after July 1, 1973 until September 1, 1973, Transco shall accumulate and charge to Account No. 186, Miscellaneous Deferred Debits, an amount of costs represented by the difference between the rates in effect as of April 1, 1973 (the currently effective rates) and the settlement rates provided in Article III hereof based upon actual sales and services rendered during such period. (viz., July 1, 1973, to September 1, 1973, most of which was included in the pre-phase IV price freeze); provided, further, that such accumulated amount shall, for rate purposes, be treated in the same manner as a balance in the Unrecovered Purchased Gas Cost Account. . . . Accordingly, any such amount would be included in the determination of the amount of rate adjustment by Transco for the next subsequent effective date occurring at least thirty (30) days from September 1, 1973. . . . (Emphasis added.)

Article IV also provides,

It is understood and agreed that the foregoing rate treatment shall be subject to the approval of the Cost of Living Council or any successor agency under the Economic Stabilization Act of 1970, as amended and extended, either by specific ruling or by general rules and regulations as are applicable. It is further agreed and understood that such rate treatment shall not be effectuated by Transco unless the Cost of Living Coun-

<sup>2</sup>Similar language appears in 6 CFR § 150.20 applicable to Phase IV.

cil or successor agency, either by specific approval or by general rules and regulations as are applicable, permits such increased rates to be reflected in the rates of Transco's customers.

The Commission, by order issued April 5, 1974 (51 FPC 1243), approved the settlement agreement with certain modifications. It said, beginning at page 1245, that New York, among others, filed comments in opposition to Article IV:

The commenting parties express the view that Article IV of the settlement would, in effect, result in circumvention of the price freeze by Transco, and would be contrary to the policy and regulations of the Cost of Living Council. Transco replies that pursuant to Article IV it would not be collecting increased rates for sales made during the price freeze period, but rather simply deferring costs incurred during the price freeze period for collection at a later date. The disagreement between the parties appears to be one purely of semantics.

Article IV provides that the specified procedures shall be subject to approval by the Cost of Living Council or 'successor agency'. Transco, in its motion for approval of the settlement, argues that this Commission is in a position to approve the proposed procedures as the 'successor agency', referring to the fact that on August 7, 1973, the Cost of Living Council published its final Phase IV regulations to be effective from and after August 13, 1973. These regulations provide, in Section 150.56, that "Rate increases for commodities or services provided by a public utility are exempt." Transco argues that the effect of this exemption of utilities was to give this Commission full power to approve rates in accordance with the standards of the Natural Gas Act, and, therefore, the power to approve Article IV of the Settlement.

We are unable to determine on the record before us whether authority to approve Article IV resides with this Commission or with the Cost of Living Council. The Phase IV regulations under which we would have authority in this matter, apply only from and after August 13, 1973, and it is true that Transco's collection of the deferred amount will occur under Article IV subsequent to August 13, 1973. Yet the amounts to be collected are clearly applicable to sales made by Transco during the price freeze. To the extent the Cost of Living Council retains jurisdiction to approve the provisions of Article IV of the settlement, we defer to that jurisdiction. To the extent jurisdiction rests with this Commission, we find that Article IV is reasonable, and should be approved. The amounts to be recovered represent costs which we have found justified and approved to be included in the settlement cost of service and related rates. Article IV is specifically approved as to all amounts related to the period from August 13, 1973, to September 1, 1973.

In light of the foregoing we shall require Transco, as a condition to approval of the proposed settlement, to make application to the Cost of Living Council for approval of the procedures set forth in Article IV as it applies to amounts deferred during the period July 1, 1973, through August 12, 1973. At such time as Transco applies to this Commission for authorization to track these deferred amounts, it shall submit a statement outlining its efforts to obtain Cost of

Living Council approval, and the results of such efforts. We shall consider such representations by Transco in determining the action to be taken.

Transco applied for such approval by letter dated April 11, 1974; and the Cost of Living Council, on April 18, 1974, replied that it would be inappropriate to approve or disapprove Article IV, explaining that "'costs' do not include revenues lost or foregone because of Stabilization Regulations".

It is the opinion of the Council that, while the FPC is free to judge the reasonableness of rate increases based on all the facts and circumstances and without adherence to Economic Stabilization pricing rules, the FPC should not approve any rate increase which is specifically based upon the principle of retroactive recovery of revenues which were not permissible prior to August 12, 1973, and which could not have been recovered under the Phase IV rules. To permit such rate increases would be to nullify the purposes of the Economic Stabilization Act and the results achieved thereunder.

Transco sought clarification by letter dated April 26, 1974. (The Economic Stabilization Act of 1970, as amended, expired at midnight, April 30, 1974.) And the Cost of Living Council replied again on June 4, 1974, stating:

During the meeting held on May 28, 1974, at your request, you advised me that your proposed rate increase does in fact include a temporary 'surcharge' designed to recoup revenues lost because cost-justified price increases had to be deferred during the 1973 price freeze.

The Cost of Living Council takes the general position that any action taken after the end of controls to recover specific revenues which were prohibited during the Economic Stabilization Program is unlawful.

The Cost of Living Council thereby equated the procedures set forth in Article IV to the unlawful practice of "back billing", and reaffirmed its prior position.

On or about June 28, 1974, Transco sought reconsideration, and by letter dated August 13, 1974, the Office of Economic Stabilization of the Department of the Treasury, as successor to the Cost of Living Council, reaffirmed the prior decisions.

Transco, on or about September 20, 1974, filed a Complaint against the Department of the Treasury and others in the United States District Court for the District of Columbia, Civil Action No. 74-1389, seeking an order which would vacate and set aside the Office of Economic Stabilization's disapproval of Article IV. On October 17, 1975, the parties entered into a Stipulation to the effect that (1) the litigation was moot, (2) because the litigation was moot, the determinations by the Cost of Living Council and the Office of Economic Stabilization did not prohibit implementation of Article IV, and (3) because the litigation was moot, the implementation of Article IV was subject to the exclusive jurisdiction of

the Commission under the Natural Gas Act. And by order also dated October 17, 1975, the Honorable Joseph C. Waddy dismissed the litigation for mootness.

On March 31, 1976, Transco tendered for filing in the captioned dockets certain revised tariff sheets embodying, among other matters, a proposed rate increase of 2.0 cents per Mcf to recover costs incurred by Transco during the pre-Phase IV price freeze. New York, on April 21, 1976, filed a Protest asking the Commission to "reject so much of the rate filing as purports to provide for recovery over a six months period of the increased revenues which Transco was required to forego as a result of the . . . price freeze in effect between June 13, 1973 and August 12, 1973 . . . or to suspend this part of the proposed increase for such period of time as may be necessary for the Commission to receive and consider briefs from all interested parties on the legal and factual issues involved." Transco filed a response on April 27, 1976. And the Commission, by order issued April 30, 1976, among other matters, accepted the revised tariff sheets for filing and suspended their use until May 2, 1976, and ordered briefing of the price freeze issues.

In the case before us, Transco and others agreed to Article IV while the Economic Stabilization Act was still in effect and, in the eyes of the Cost of Living Council and the Office of Economic Stabilization, the implementation of Article IV after the expiration of price controls would operate to violate both the Economic Stabilization Act and the regulations thereunder. While we therefore have reservations with respect to the legal basis for the Stipulation, it would appear that Transco and the Department of the Treasury are bound by it.

#### POSITION OF THE PARTIES

Initial and reply briefs were filed by Transco, New York and the Commission staff.

Transco argues that under the terms of the Stipulation by which the District Court litigation was dismissed for

"The stipulation of mootness relied principally upon *United States v. State of California, et al.*, 504 F.2d 750 (1974), cert. denied, 421 U.S. 1015 (1975), wherein Judge Estes said, speaking for the Temporary Emergency Court of Appeals, at page 755:

The second exception to the general expiration provision of Section 218 [of the Economic Stabilization Act of 1970, as amended] is that 'such expiration shall not affect . . . any action or proceeding based upon any act committed prior to May 1, 1974.' This provision is clearly designed to allow the initiation of proceedings after the expiration date of the Act, so long as such proceedings are based upon an act committed before expiration.

mootness, the implementation of Article IV is subject to the exclusive jurisdiction of the Commission, and the rulings of the Cost of Living Council and the Office of Economic Stabilization do not prohibit implementation of Article IV. Transco argues, additionally, that in its order of April 5, 1974, approving the settlement agreement, the Commission approved as just and reasonable the costs incurred by Transco from July 1, 1973, through August 31, 1973, and, as a result, "the only lawful action which the Commission can now take is approval of the specific tracking filing here involved."

The Commission staff supports Transco, stating:

There can be no question that the Commission in its order of April 5, 1974, gave full approval to Article IV by stating "To the extent jurisdiction rests with this Commission, we find that Article IV is reasonable, and should be approved."

And the staff characterizes the "essential issue raised by New York's protest" as

... whether the Commission can now vacate or revoke its prior approval of Article IV, and whether, in light of the representations of the Cost of Living Council and the Office of Economic Stabilization, it should do so,

concluding that, "In the staff's judgment the Commission should not and cannot." And, finally, the staff points out that Transco made refunds to its customers in reliance upon the Commission's approval of the settlement agreement and, therefore, "the Commission should not now revoke the prior approval."

New York, on the other hand, characterizes the "underlying issue before the Commission" as

... whether Transco . . . should now be permitted to recoup from its customers the increased revenues foregone during the freeze through a temporary surcharge on its currently effective rates.

New York asserts, in this connection, that it was not the intent of the parties to the settlement agreement that Transco be permitted to charge its customers for the increased revenues foregone as a result of the freeze unless it was affirmatively determined by the Cos. of Living Council, or its successor under the Economic Stabilization Program, that such charges would be lawful under the Economic Stabilization Act; that the Cost of Living Council and the Office of Economic Stabilization specifically rejected Article IV as being unlawful; and the fact that *United States v. California, supra*, precluded judicial review of those agencies' determinations does not transform the Commission into a "successor agency" within the meaning of Article IV. New York asserts that the parties could not reach a substantive agreement with respect to the

foregone revenues and, therefore, negotiated a procedural agreement by which, in the words of New York, "Transco would accumulate and charge to Account 186 an amount reflecting the difference between the previously effective rates and the settlement rates."

In reply, Transco asserts,

New York's principal argument . . . boils down to the simple proposition that, whatever may be the actual lawfulness of this Commission's approval of the collection by Transco of its legitimate freeze period costs, Transco did not receive a specific piece of paper from the Cost of Living Council . . . or successor agency which states that such approval is lawful and, therefore, the terms of Article IV have not been complied with and the Commission may not approve the collection. New York also argues that, even if this interpretation of Article IV is incorrect, the Commission should still regard the [Cost of Living Council] letters as governing.

Transco points out, in this connection, that Article IV provides that its approval by the Cost of Living Council may be "by general rules and regulations as are applicable"; and it argues that 6 CFR § 150.56, which exempted public utility rate increases from Phase IV "exempted Transco from the scope of the Economic Stabilization Act and restored full authority to the Commission to sanction rates in accordance with the standards of the Natural Gas Act." And Transco repeats its position that the Stipulation in the District Court is lawful and binding and, therefore, the Commission "is exclusively empowered to rule on the instant surcharge proposal" and must authorize it in conformance with its previous finding.

The staff claims, in reply, that New York's arguments must be rejected because they conflict with the Stipulation in the District Court. The staff claims, additionally, that the Commission agreed to be bound by the ruling of the Cost of Living Council only if that body had jurisdiction in the matter:

In light of the rulings of the Cost of Living Council it is clear that if the Council had jurisdiction over the matter, it would reject Article IV. The . . . Commission, however, does have jurisdiction in the matter, and has approved Article IV.

And the staff concludes that no facts or circumstances have been shown which would warrant any change in the Commission's prior approval of the settlement agreement.

New York, in reply, disagrees with the staff's formulation of the "essential issue", asserting that New York "seeks not the abrogation of the terms of Article IV of the Settlement

\* The staff thereby implies that the Cost of Living Council did not have jurisdiction, but does not explain why.

Agreement approved by the Commission[,] but its enforcement." Article IV precludes the presently proposed surcharge, New York asserts, because the rate treatment therein was not approved by the Cost of Living Council or the Office of Economic Stabilization, which office was the Cost of Living Council's only successor "under the Economic Stabilization Act of 1970, as amended and extended", within the meaning of that phrase in Article IV. And finally, New York asserts, since the Commission conditioned its approval of Article IV upon Transco's applying to the Cost of Living Council for approval of the procedures set forth therein, Transco knew, when it made refunds based on the settlement rates, that it was assuming the risk that it might never be permitted to impose the surcharge which is now before the Commission.

#### DISCUSSION

Transco's surcharge was permitted to go into effect, subject to refund, on May 2, 1976, and in view of its temporary character, it has expired. Transco claims that the amounts which it collected thereunder are "costs". New York, on the other hand, contends that those amounts are "foregone revenues". In view of this difference in terminology, which the Commission characterized on April 5, 1974, as "one purely of semantics," it is appropriate to begin our analysis by focusing upon the nature of the accumulations in Account No. 186 which were recovered by Transco's surcharge.

As appears from Article IV of the settlement agreement, Transco was to accumulate in Account No. 186 an amount of costs which was to be measured by the difference between the rates in effect on July 1, 1973 (the date within the pre-Phase IV price freeze on which its then-proposed suspended rates would have gone into effect), and the settlement rates which went into effect on September 1, 1973, "based upon actual sales and services rendered during such period" (viz., July 1, 1973, to September 1, 1973). Account No. 186 entitled "Miscellaneous Deferred Debits" is an asset account which includes "all debits not elsewhere provided for, such as . . . unusual or extraordinary expenses not included in other accounts which are in process of amortization. . . ." 18 CFR, Part 201.

The process of rate-making practiced by this Commission allows a public utility to set rates which will cover its

\* The \$3,932,252 in issue is limited to the accumulation from July 1, 1973, through August 12, 1973, after which Phase IV went into effect. Conversely, New York does not take issue with respect to the accumulation beginning August 13, 1973, through August 31, 1973.

operating costs and result in a reasonable rate of return on the property devoted to its business. The utility's costs are, therefore, to be recovered dollar for dollar, and are said to be "flowed through" in setting its rates. When Article IV is considered in the light of this flow-through concept, and in the light of what may be debited to Account No. 186, it becomes apparent that Transco is referring to the costs which enter the rate-making formula, and that New York is referring to the equal amount of revenues which must be collected to recover those costs. In other words, the difference in terminology is one of perspective.

The same difference in perspective appears within Article IV of the settlement agreement. While Transco could not accumulate foregone revenues in Account No. 186, it could accumulate costs and later amortize them. But the amounts of accumulations were measured by the revenues which were foregone by Transco during the pre-Phase IV price freeze. And Transco would amortize the accumulations, or at least credit them, against the surcharge in question.

Turning to the issues involving the Economic Stabilization Act of 1970, as amended, we would observe that the Commission was not a party to the District Court litigation and, therefore, we believe that we are not bound by the terms of the Stipulation. Nonetheless, we believe that the Stipulation binds Transco and the Department of the Treasury and, as a result, that it precludes judicial review of the Office of Economic Stabilization's affirmation of the Cost of Living Council's determination that Article IV is inconsistent with the Economic Stabilization Program.\* As a further result, the Stipulation leaves the implementation or final rejection of Article IV to our exclusive jurisdiction. But we, and not the Stipulation, will decide upon the appropriate statutory standard; and we, and not the Stipulation, will decide upon the weight to be given to the Cost of Living Council and Office of Economic Stabilization decisions.

The Economic Stabilization Act of 1970, as amended, did not establish rate-making machinery to supersede the areas of economic activity regulated by the Commission. Instead, it supplemented the Federal Power Act and the Natural Gas Act in much the same way that the Environmental Policy Act of 1969 supplements those statutes. In furtherance of that concept, the Commission issued a statement of policy in Order No. 437 on August 18, 1971, effective as of August 15, 1971, implementing the Economic Stabilization Act of 1970, as amended, and Ex-

\*This assumes, of course, that judicial review is not precluded under the principles of *United States v. California*, supra.

ecutive Order 11615 which stabilized prices, rents, wages and salaries for a period of 90 days from August 15, 1971, and established the Cost of Living Council which was specifically authorized to utilize the services of other agencies, such as the Federal Power Commission. On November 16, 1971, the Commission issued Order No. 437-A which reaffirmed Order No. 437 and promulgated further regulations to implement Executive Order 11627 which, in turn, authorized certain increases in rates during Phase II of the Economic Stabilization Program (effective November 14, 1971) if found to be consistent with the Economic Stabilization Act of 1970, as amended.

The Economic Stabilization Program entered Phase III, a period of price, rent, wage and salary reporting and monitoring, as a result of Executive Order 11695 issued January 11, 1973. And finally, it entered pre-Phase IV, as noted, as a result of Executive Order 11723, issued June 13, 1973, which order was superseded in part by Executive Order 11730 issued July 18, 1973, establishing Phase IV effective August 13, 1973. Executive Order 11730 confirmed and ratified all other orders which were in effect on July 18, 1973, including Executive Orders 11615, 11627 and 11695.

No party contends that the matter which is before us is not "saved" by Section 218 of the Economic Stabilization Act of 1970, as amended. Indeed, the Commission's order of April 5, 1974, indicates that Article IV was drafted during the pre-Phase IV price freeze (as the prospective language therein confirms), during which period Cost of Living Council approval of the rate treatment therein would clearly have been required. But the settlement agreement was not finally certified to the Commission for approval until Phase IV had gone into effect; and although rate increases of public utilities were then exempt from stabilization, the provision in Article IV requiring Cost of Living Council approval had not been eliminated or modified. The Commission could, of course, have conditioned its approval of the settlement agreement upon Transco's receipt of approval of the rate treatment in Article IV from the Cost of Living Council, which approval is required by the terms of Article IV, but the Commission appears to have been concerned that the Cost of Living Council might not issue a ruling on the merits in the light of 6 CFR § 150.56. Accordingly, the Commission

\*12 U.S.C. § 218 provided, "The authority to issue and enforce orders and regulations under this title expires at midnight April 30, 1974, but such expiration shall not affect any action or pending proceedings, civil or criminal, not finally determined on such date, nor any action or proceeding based upon any act committed prior to May 1, 1974."

conditioned its approval of the settlement agreement upon Transco's applying to the Cost of Living Council for approval (which condition was subsequently fulfilled), stating in Ordering Paragraph (C), among other matters,

At such time as Transco applies to this Commission for authorization to track the deferred amounts under said Article IV, it shall submit, as part of its application, a statement outlining its efforts to obtain Cost of Living Council approval, and the results of such efforts.

And the Commission said that when Transco applied for such tracking authorization it would consider Transco's representations "in determining the action to be taken." The Commission thereby left for future decision questions pertaining to Transco's possible failure to obtain Cost of Living Council approval of the then-proposed rate treatment in Article IV, whether through outright rejection of Article IV or failure to obtain a ruling on the merits. These issues have been pending in Docket No. RP73-69 at least since April 5, 1974, prior to the expiration of the Economic Stabilization Act, and they are now ripe for decision.

Since we have before us questions which were left unresolved by the Commission's order of April 5, 1974, we believe that Order Nos. 437, 437-A and 437-B continue to reflect the policy of the Commission in carrying out our regulatory duties under the Natural Gas Act with respect to such questions. Under that policy, we are required by 18 CFR § 2.90b, as noted, to establish just and reasonable rates under the Natural Gas Act "with a view toward consistency of those rates with the Economic Stabilization Act of 1970 as amended." A rate which would be "just and reasonable" within the meaning of Section 4 of the Natural Gas Act, but which would violate the Economic Stabilization Act of 1970, as amended, and/or its implementing orders and/or regulations, would in turn be unjust and unreasonable within the meaning of the Natural Gas Act to the extent of such violation. In other words, the Cost of Living Council, and later the Office of Economic Stabilization, were delegated the authority to determine the extent to which natural gas rates subject to the Commission's jurisdiction might violate the economic stabilization law, orders and/or regulations and, consequently, also the Natural Gas Act.\* But they were not delegated

\*We find, in this connection, the Cost of Living Council and the Office of Economic Stabilization acted within the scope of their authority in considering, on the merits, Transco's application for approval of the procedures set forth in Article IV. But, as noted, we believe that the stipulation in the District Court precludes the Office of Economic Stabilization from acting further.

authority to determine the extent to which such rates might violate the Natural Gas Act other than in an economic stabilization context.

We find, therefore, that the Economic Stabilization Act of 1970, as amended, has continued viability with respect to the matter which is before us and, as a result, that the appropriate legal standard to apply is the "just and reasonable" standard of the Natural Gas Act to the extent that such standard is not inconsistent with the policies of the Economic Stabilization Act, 18 CFR § 2.90b. We find, additionally, that while 6 CFR § 150.56 exempted public utility rate increases from Phase IV, it did not exempt public utilities from Phase IV generally.\* And we find incorrect Transco's position in its brief opposing exceptions that 6 CFR § 150.56 "exempted Transco from the scope of the Economic Stabilization Act and restored full authority to the Commission to sanction rates in accordance with the standards of the Natural Gas Act."

We conclude, therefore, that 6 CFR § 150.1(d) was applicable to public utilities, including Transco, during Phase IV:

Price renegotiation provisions in price or rent contracts which depend for their operation upon the modification of or termination of the Economic Stabilization Program, were previously declared to be inoperative as unreasonably inconsistent with the goals of the Economic Stabilization Program. Such renegotiation provisions continue to be inoperative on the same ground. This part shall not operate to permit:

(1) A retroactive increase in prices or rents for goods or services sold or leased while those prices or rents were subject to past or present provisions of this title, or

(2) A prospective increase in prices or rents under the terms of a contract subject to a decision and order issued at any time pursuant to this title, except to the extent consistent with such decision and order.

Indeed, one of the policies of the Economic Stabilization Program throughout its various phases was the prohibition of practices by which prices which were frozen or otherwise stabilized during one phase might be raised retroactively in a subsequent phase or after decontrol, thereby nullifying the effects of the prior freeze or other stabilization. Such a practice was specifically prohibited by Execu-

\*6 CFR § 140.2, which was applicable to the pre-Phase IV price freeze, defines the term "exemption" as meaning "a general waiver of the requirements of all rules, regulations, and orders issued pursuant to the Act." Since that provision was superseded by the Phase IV regulations, and since the Phase IV regulations did not include a similar definition, we believe that we are justified in concluding that the exemption of public utility rate increases from Phase IV did not also exempt public utilities, as such, from Phase IV.

tive Order 11695 in essentially the same language as 6 CFR § 150.1(d). The Commission specifically provided in Order No. 437-A that increases retroactive to Phase I would not be allowed, and the Commission in fact prohibited such a retroactive increase in its order issued February 14, 1977, in *Tennessee Gas Pipeline Company, a Division of Tenneco, Inc.*, Docket Nos. RP71-6, et al.

Although the Federal Power Commission on April 5, 1974, approved Article IV "[t]o the extent jurisdiction rests with this Commission", we read such approval in context as being an exercise of its authority under the Natural Gas Act without also considering possible inconsistencies with the Economic Stabilization Act. First, the Commission was unsure of its jurisdiction under the Economic Stabilization Act, as Transco concedes. Second, the Finding Paragraph states that the settlement agreement (which includes Article IV) "is reasonable and proper and in the public interest in carrying out the provisions of the Natural Gas Act", without also mentioning the Economic Stabilization Act. And third, the Commission appears to have deferred any decisions under the Economic Stabilization Act by directing Transco to file an application with the Cost of Living Council and stating that it would later consider the results of such action.

Furthermore, we find that the Federal Power Commission did not have exclusive authority to act in the premises because the Cost of Living Council then had the primary responsibility under the Economic Stabilization Act of 1970, as amended, for determining whether Article IV was consistent with the Economic Stabilization Program. And we reject the staff's position that the Commission "gave full approval to Article IV."

Although Transco's surcharge was applied to natural gas service which was rendered for a limited period of time beginning May 2, 1976, we find that it clearly resulted in a retroactive increase in Transco's rates for natural gas service rendered from July 1, 1973, through August 12, 1973. We agree, in this connection, with the similar findings of the Cost of Living Council and the Office of Economic Stabilization that implementation of Article IV would have such a result. In the context of the Economic Stabilization Program, the "foregone revenues" perspective of the ratemaking formula is the significant one. And since the revenues (and costs) foregone by Transco

\*A petition for review was filed on June 7, 1977, in the United States District Court for the District of Columbia, sub nom *Tennessee Gas Pipeline Company v. Federal Power Commission*, No. 77-1511.

were measured, in the words of Article IV, by the "actual sales and services rendered during such period" (viz., July 1, 1973, to September 1, 1973, but limited for present purposes through August 12, 1973), Transco's surcharge accomplished precisely what was forbidden by 6 CFR § 150.1(d). Transco, New York and others negotiated a settlement rate in Docket No. RP73-69 which, insofar as concerns the period from July 1, 1973, through August 12, 1973, depended for its effectiveness upon the modification or termination of the Economic Stabilization Program. We find that such rate is inoperative for that period as being unreasonably inconsistent with the goals of the Economic Stabilization Program. And we find that Article IV is unjust and unreasonable insofar, but only insofar, as it is inconsistent with the Economic Stabilization Program and, therefore, violative of 18 CFR § 2.90b. And, lastly, we find that the revenues which were collected by Transco thereunder should be refunded with interest.

Finally, we agree with New York's basic position that Transco was not authorized by the terms of Article IV to have collected the surcharge because of a condition precedent to its collection—approval by the "Cost of Living Council or successor agency"—has not occurred. Assuming *arguendo* that the Federal Power Commission, and this Commission as its successor, is a "successor agency under the Economic Stabilization Act, as amended and extended", within the meaning of Article IV, Transco agreed in Article IV not to impose a surcharge "unless the Cost of Living Council or successor agency, either by specific approval or by general rules and regulations as are applicable, authorized Transco to charge the increased rates. Today, we join the Cost of Living Council and the Office of Economic Stabilization in rejecting the procedures described

"The Federal Power Commission was not, and this Commission as its successor is not, a 'successor agency under the Economic Stabilization Act, as amended and extended,' because neither agency was formally designated as such by an Executive Order. The authority which we exercise today was possessed by the Federal Power Commission from the beginning of economic stabilization, and is possessed by this Commission as its successor, but was subservient to the dominant authority of the Cost of Living Council and other bodies under the Executive Orders which implemented the Economic Stabilization Act. The Office of Economic Stabilization, which was the last successor to possess the dominant authority, was legally disabled by the Stipulation in the District Court litigation from acting further in the premises, thereby leaving the Federal Power Commission, and this Commission as its successor, with the exclusive authority in the premises under the Economic Stabilization Act.

in Article IV and, as a result, the condition precedent will not occur.<sup>12</sup>

The Commission orders: (A) Within 60 days from the date of issuance of this order, Transcontinental Gas Pipe Line Corporation shall refund, with interest at 9% per annum from May 2, 1976, the revenues collected based on charges to its Miscellaneous Deferred Debits Account in Docket No. RP73-69 during the period from and including July 1, 1973, through August 12, 1973.

(B) The refunds mandated by Ordering Paragraph (A) shall be based upon the sales of Transcontinental Gas Pipe Line Corporation from and including July 1, 1973, through August 12, 1973, and shall be reported to the Commission in accordance with 18 CFR §154.67(c). One copy of each such refund report shall be transmitted concurrently to each State Commission having jurisdiction over the customers of Transcontinental Gas Pipe Line Corporation to receive the refunds.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

#### [6550-01] ENVIRONMENTAL PROTECTION AGENCY

[FRL 847-5; PP 6G1757/T1371]  
GLYPHOSATE

##### Renewal of Temporary Tolerances

On September 17, 1976, the Environmental Protection Agency (EPA) gave notice (41 FR 40220) that in response to a pesticide petition (PP 6G1757) submitted to the Agency by Monsanto Co., 800 N. Lindbergh Blvd., St. Louis, Mo. 63166, temporary tolerances were established for combined residues of the herbicide glyphosate (*N*-(phosphonomethyl) glycine) and its metabolite aminomethylphosphonic acid in or on the raw agricultural commodities cottonseed at 5 parts per million (ppm), soybean grain, soybean forage, and soybean hay at 10 ppm, cotton forage at 20 ppm, and the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep at 0.1 ppm. These temporary tolerances expired September 7, 1977.

Monsanto Co. has requested a one-year renewal of these temporary tolerances both to permit continued testing

"That part of the Stipulation in the District Court litigation which states that the determinations of the Cost of Living Council and the Office of Economic Stabilization 'do not prohibit the implementation of Article IV' is not a 'specific approval' of the surcharge. Nor is 6 CFR §150.56 a general regulatory approval in the light of 6 CFR §150.1(d)(1).

to obtain additional data and to permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of an experimental use permit that is being extended concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 69 Stat. 751; 7 U.S.C. 136(a) et seq.).

The scientific data reported and all other relevant material have been evaluated, and it has been determined that a renewal of the temporary tolerances will protect the public health. (A related document renewing a feed additive regulation for residues of glyphosate in soybean hulls appears elsewhere in today's FEDERAL REGISTER). Therefore the temporary tolerances are renewed on condition that the pesticide is used in accordance with the experimental use permit with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. Monsanto Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the Food and Drug Administration.

These temporary tolerances expire January 17, 1979. Residues not in excess of 5 ppm remaining in or on cottonseed; 10 ppm remaining in or on soybean grain, forage, and hay; 20 ppm remaining in or on cotton forage; and 0.1 ppm remaining in the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep after this expiration date will not be considered actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerances. These Temporary tolerances may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health. Inquiries concerning this notice may be directed to Special Registrations Branch, Registration Division (WH-567), Office of Pesticide Programs, Room 315, East Tower, 401 M Street SW., Washington, D.C. 20460 202-755-4851.

(Sec. 408(j), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348a(j)).)

Dated: January 13, 1978.

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

#### PESTICIDE PROGRAMS

##### Filing of Pesticide Petition

BASF Wyandotte Corp., 100 Cherry Hill Road, P.O. Box 181, Parsippany, N.J. 07054, has submitted a petition (PP 8F2033) to the Environmental Protection Agency (EPA) which proposes that 40 CFR 180.355 be amended by establishing a tolerance of 0.50 part per million for the combined residues of the herbicide bentazon (3-Isopropyl-1H-2,1,3-benzothiadiazine-4(3H)-one 2,2-dioxide) and its 6- and 8-hydroxy metabolites in or on the raw agricultural commodities beans and peas (succulent). The proposed analytical method for determining residues is gas chromatography using a flame photometric detector in the sulfur specific mode. Notice of this submission is given pursuant to the provisions of Section 408(d)(1) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on this petition to the FEDERAL REGISTER section, Technical Services Division, (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. Inquiries concerning this petition may be directed to Product Manager (PM)25, Registration Division (WH-567), Office of Pesticide Programs, at the above address or by telephone at 202-426-2456. Written comments should bear a notation indicating the petition number. Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the FEDERAL REGISTER Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: January 17, 1978.

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

#### REPORT BY TSCA INTERAGENCY TESTING COMMITTEE

Extension of Comment Period; Availability of Documents

AGENCY: Environmental Protection Agency.

ACTION: Extension of comment period; availability of documents.

SUMMARY: On October 12, 1977, EPA published a notice in the FEDERAL

REGISTER inviting all interested persons to submit comments within 90 days on a report by the Toxic Substances Control Act (TSCA) Interagency Testing Committee (ITC). The report also appeared in the October 12, 1977 FEDERAL REGISTER. This notice extends the deadline for comments on the ITC report from January 12 to March 12, 1978. Written comments shall bear the identifying notation OTS-040002 and should be submitted in triplicate to the U.S. Environmental Protection Agency, Office of Toxic Substances (WH-557), 401 M Street SW., Washington, D.C. 20460, Attention: Joan Urquhart. All written comments will be available for public inspection in Room 623 East Tower, at the same address, between 8:30 a.m. and 4:30 p.m., weekdays.

Also in the October 12, 1977 FEDERAL REGISTER notice, EPA announced that dossiers for specific chemicals, containing references used in developing the ITC report, would be available within a few weeks. The dossiers are now available. Copies may be obtained by ordering from the National Technical Information Service (NTIS), Springfield, Va. 22161, 703-557-4650. Reference should be made to document number PB-275-367. Price per printed copy is \$13 for those copies mailed to addressees in the United States and \$26 for those copies mailed to addressees outside the United States. Microfiche copies are \$3 for those copies mailed to addressees within the United States and \$4.50 for those copies mailed to addressees outside the United States. To facilitate review, a limited number of copies will be available at no cost for associations, societies, and other membership groups, and single copies will be available to individual firms, from the Director, Industry Assistance Office, OTS (TS-788), Environmental Protection Agency, Washington, D.C. 20460, 202-755-0535.

Dated: January 17, 1978.

STEVEN D. JELLINEK,  
Assistant Administrator  
for Toxic Substances.

[FRL 846-8; OPP-42005E]

#### WYOMING

Final Approval of State Plan for the  
Certification of Pesticide Applicators

Section 4(a)(2) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.), and the implementing regulations of 40 CFR Part 171, require each State desiring to certify applicators of restricted use pesticides to submit a plan for such purpose to the Environmental Protection Agency. On

January 9, 1978, the Wyoming State Plan was approved by EPA contingent upon promulgation of necessary regulations under the Wyoming Environmental Pesticide Control Act. Notice of contingent approval was published in the FEDERAL REGISTER on January 29, 1978 (41 FR 4359).

Subsequently, on May 26 and September 29, 1977, Wyoming submitted final regulations to implement the Plan and to meet the terms of the contingent approval. These final regulations differed substantially from the draft regulations upon which the contingent approval was based. On November 18, 1977 (42 FR 59548), EPA published its intent to approve the Wyoming Plan as amended and allowed thirty days for public comment on the changes in the Plan. No comments were received. Therefore, the Regional Administrator, EPA Region VIII, gives notice that the Wyoming State Plan is now a fully approved state plan.

Dated: January 13, 1978.

ALAN MERSON,  
Regional Administrator,  
Region VIII.

#### FEDERAL COMMUNICATIONS COMMISSION

##### CABLE SIGNAL LEAKAGE ADVISORY COMMITTEE

Establishment of a Federal Advisory  
Committee

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the Federal Communications Commission is establishing a new advisory committee, the Advisory Committee for Cable Signal Leakage, for an initial period of one year. The Commission has determined that establishment of this committee is in the public interest and necessary in order for the FCC and other participating Federal agencies to properly discharge their responsibilities.

The purpose of the Advisory Committee for Cable Signal Leakage is to assist in the design of a research program necessary to protect against interference to aeronautical and marine navigation and communications from cable television systems. The commit-

#### FCC SETS NEW SYSTEM FOR ASSIGNING DOCKET NUMBERS

DECEMBER 30, 1977.

Effective January 3, the Commission will institute a new system for assigning docket numbers. The new docket designation will include reference to the type of service, the year in which the docket was established and the number assigned. The docket numbers will follow in sequence, regardless of the service involved. The following examples illustrate the new numbering system:

BC Docket No. 78-1 (first docket established in 1978; Broadcast proceeding)  
CC Docket No. 78-2 (second docket established in 1978; Common Carrier proceeding)  
SS Docket No. 78-3 (Safety and Special proceeding)  
BC Docket No. 78-4 (second Broadcast docket of the year)  
CT Docket No. 78-5 (Cable Television proceeding)  
GEN Docket No. 78-6 (a proceeding involving two or more Bureaus)

When reference is made to a docket established under the new numbering system the entire designator (BC Docket No. 78-4) should be used. The new numbering system will not affect in any way the numbers previously assigned for existing dockets.

For the Federal Communications Commission.

William J. Tricarico,  
Secretary.

#### RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

##### Meetings

JANUARY 18, 1978.

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

To: RTCM Officers, Executive Committee Representatives and Alternates, and Special Committee Chairman.  
Subject: Executive Committee Meeting, Thursday, February 16, 1978.

The next Executive Committee Meeting will be on Thursday, February 16, at 9:30 a.m. in Conference Room 847, 1919 M Street NW., Washington, D.C.

##### AGENDA

1. Call to Order; Chairman's Report.
2. Introduction of Attendees; Adoption of Agenda.
3. Acceptance of the Minutes of Executive Committee Meetings.
4. Committee Reports—SC-65: "Ship Radar"; SC-66: "Receiver Standards for the Maritime Mobile Service"; SC-69: "WARC Advisory Committee"; SC-70: "Minimum Performance Standards (MPS)—Marine Loran-C Receiving Equipment"; SC-71: "VHF Automated Radiotelephone Systems"; and SC-72: "Numerical Identification of Stations in Maritime Telecommunications Systems."
5. New Membership Applications for Executive Committee Approval.
6. Approval of SC-65 "Ship Radar" papers.
7. Approval of SC-66 "Receiver Standards" paper.
8. Approval of establishment of SC-73 "Minimum Performance Standards (MPS)—Marine Omega Receiving Equipment."
9. Report of Nominating Committee for RTCM officers.
10. Acceptance of First Quarter FY-78 Financial Statement.
11. Acceptance of FY-1977 Audit Report.
12. Discussion on Establishment of RTCM Award for Outstanding Technical Papers.
13. Report on 1978 Assembly Meeting.
14. Summary Reports and Announcements.

15. New business.
16. Establishment of next meeting date.

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. All RTCM meetings are open to the public. Written statements are preferred, but by previous arrangement, oral presentations will be permitted within time and space limitations.

Those desiring additional information concerning the above meeting(s) may contact either the designated chairman or the RTCM Secretariat, phone: 202-632-6490.

For the Federal Communications Commission.

WILLIAM J. TRICARICO,  
Secretary.

#### FEDERAL MARITIME COMMISSION

[Amdt. No. 5 to Commission Order No. 1  
(Revised)]

#### SECTION 7. SPECIFIC AUTHORITIES DELEGATED TO THE MANAGING DIRECTOR

##### Organization and Functions

Subsection 7.21 of the Revised Order is amended to give the Managing Director additional authority to carry out certain provisions of 46 CFR Part 507. The new subsection is amended to read:

7.21 Authority pursuant to section 19 of the Merchant Marine Act of 1920 and 46 CFR Part 507 to (1) issue orders of the Commission requiring a "favored carrier" to show cause why such carrier is not in violation of 46 CFR Part 507 and why it should not be ordered to cease and desist such violations whenever the Commission receives notification from the U.S. Customs Service or is otherwise aware that a vessel owned, operated, controlled by, or carrying cargo for such "favored carrier" has departed a U.S. port while carrying cargo destined for Guatemala and such carrier does not have an Equalization Fee Payment Guarantee on file with the Commission or such carrier does not file an Equalization Fee or Summary Report of Cargo Carrying within four days of his departure from the last U.S. port of call; (2) to reject any Surety Bond (FMC

Form 128), Equalization Fee Payment Guarantee (FMC Form 129) or Summary Report of Cargo Carrying (FMC Form 147) whenever such forms are incomplete, inaccurate or incorrectly filed or completed as required by 46 CFR Part 507; (3) receive any payment of money due under 46 CFR Part 507; (4) to return any Equalization Fee whenever it is determined that (a) the particular shipment is not receiving benefits under the Guatemalan industrial development laws or the Central American Agreement on Tax Incentives for Industrial Development, (b) the Government of Guatemala is waiving the imposition of Decree 41-71 penalties on all cargo carried by non-favored carriers, or (c) the Government of Guatemala is waiving the imposition of Decree 41-71 penalties on the same class of cargo for which the refund is requested (commodity, container, etc.) carried by non-favored carriers; (5) return any amount received as a guarantee for the payment of Equalization Fees upon a showing that the carrier has withdrawn from the U.S./Guatemalan trade and that all Equalization Fees and Summary Reports have been filed; and (6) amend, by appropriate notice in the FEDERAL REGISTER, the list of "favored carriers" designated in 46 CFR 507.2 whenever the Managing Director determines that (a) an unlisted carrier is a Guatemalan-flag or associated carrier, or (b) that a listed carrier is not a Guatemalan-flag or associated carrier.

JANUARY 13, 1978.

By the Commission.

JOSEPH C. POLKINO,  
Assistant Secretary.

#### FEDERAL RESERVE SYSTEM

##### CHEMICAL NEW YORK CORP.

Proposed Expansion of Activities of Sun States Life Insurance Co. and Great Lakes Insurance Co.

Chemical New York Corp., New York, N.Y., has applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to expand the activities of its subsidiaries, Sun States Life Insurance Co., Cleveland Ohio, and Great Lakes Insurance Co., Cleveland, Ohio. Notice of the application was published on November 22, 1977, in The New York Times, a newspaper circulated in New York, N.Y., and on November 17, 1977, in The Plain Dealer, a newspaper circulated in Cleveland, Ohio.

Applicant states that by the proposed expansion, the two subsidiaries would engage in the activity of reinsuring credit life and credit accident and health insurance written in connection with extensions of credit by Applicant's indirect subsidiaries in Arizona, Indiana, Kentucky, Mississippi, and Oklahoma. Such activities have

been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 17, 1978.

Board of Governors of the Federal Reserve System, January 19, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

#### CHILTON BANCSHARES, INC.

##### Formation of Bank Holding Company

Chilton Bancshares, Inc., Thorsby, Ala., has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(1)) to become a bank holding company by acquiring 84 per cent of the voting shares of Chilton County Bank, Thorsby, Ala. The factors that are considered in acting on the application are set forth in § 3(c) of the act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than February 14, 1978.

Board of Governors of the Federal Reserve System, January 18, 1978.

[6210-01]

#### MERCANTILE BANCORPORATION, INC.

##### Proposed Acquisition of Thorp Credit Co. of Charleston

Mercantile Bancorporation, Inc., St. Louis, Mo., has applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to acquire, through its subsidiary,

Franklin Finance Co., Clayton, Mo., the assets of Thorp Credit Co. of Charleston, Charleston, W. Va. Notice of the application was published on November 5, 1977, in the Charleston Gazette, a newspaper circulated in Charleston, W. Va.

Applicant states that the proposed subsidiary would engage in the activities of making direct consumer loans under the West Virginia Industrial Loan Act (operating as an industrial loan company) and of selling credit related life and disability insurance. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 14, 1978.

The Board of Governors of the Federal Reserve System, January 18, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

[FR Doc. 78-2160 Filed 1-24-78; 8:45 am]

[6210-01]

#### FEDERAL OPEN MARKET COMMITTEE

##### Domestic Policy Directive of December 19-20, 1977

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on December 19-20, 1977.

The Record of Policy Actions of the Committee for the meeting of December 19-20, 1977, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

The information reviewed at this meeting suggests that real output of goods and services is growing in the current quarter at about the pace in the third quarter. The dollar value of total retail sales, which had increased sharply in October, rose considerably further in November. Industrial production continued to expand, and employment increased substantially. However, the unemployment rate, at 6.9 per cent, remained in the narrow range prevailing since April. The wholesale price index for all commodities rose sharply in November for the second successive month, reflecting another large increase in average prices of farm products and foods. However, the rise in average prices of industrial commodities was less rapid than in the preceding 2 months. The index of average hourly earnings has advanced at a somewhat faster pace so far this year than it had on the average during 1976.

The dollar has been under considerable pressure in foreign exchange markets in recent weeks, and its trade-weighted value against major foreign currencies has declined more than 3 per cent further since mid-November. In October the U.S. foreign trade deficit widened sharply, primarily as a result of the dock strike at many U.S. ports.

M-1—which had expanded substantially in October—declined slightly in November, and M-2 increased relatively little. The total of savings deposits and small-denomination time deposits at commercial banks declined somewhat, but growth in large-denomination time deposits accelerated sharply further as credit demands remained strong. Inflows to nonbank thrift institutions slowed further in November. Market interest rates have changed relatively little since mid-November.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster bank reserve and other financial conditions that will encourage continued economic expansion and help resist inflationary pressures, while contributing to a sustainable pattern of international transactions.

At its meeting on October 18, 1977, the Committee agreed that growth of M-1, M-2, and M-3 within ranges of 4 to 6 1/2 percent, 6 1/2 to 9 percent, and 8 to 10 1/2 percent, respectively, from the third quarter of 1977 to the third quarter of 1978 appears to be consistent with these objections. These ranges are subject to reconsideration at any time as conditions warrant.

At this time, the Committee seeks to maintain about the prevailing money market conditions during the period immediately ahead, provided that monetary aggregates appear to be growing at approximately the rates currently expected, which are believed to be on a path reasonably consistent with the longer-run ranges for monetary aggregates cited in the preceding paragraph. Specifically, the Committee seeks to maintain the weekly-average Federal funds rate at about the current level, so long as M-1 and M-2 appear to be growing over the December-January period at annual rates within ranges of 2 1/2 to 8 1/2 percent and 6 to 10 percent, respectively.

If, giving approximately equal weight to M-1 and M-2, it appears that growth rates over the 2-month period are approaching or moving beyond the limits of the indicated ranges, the operational objective for the weekly-average Federal funds rate shall be modified in an orderly fashion within a range of 6 1/2 to 8 1/2 percent. In the conduct of day-to-day operations, account shall be

taken of emerging financial market conditions, including the unsettled conditions in foreign exchange markets.

If it appears during the period before the next meeting that the operating constraints specified above are proving to be significantly inconsistent, the Manager is promptly to notify the Chairman who will then decide whether the situation calls for supplementary instructions from the Committee.

NOTE.—On January 9, 1978, the Committee modified the domestic policy directive adopted at its meeting of December 19-20, 1977, by raising the range for the Federal funds rate to 6 1/2 to 7 percent and by instructing the Manager to raise the rate to 6 1/2 percent over the next few days.

By order of the Federal Open Market Committee, January 20, 1978.

ARTHUR L. BROIDA,  
Secretary.

##### ROYAL TRUSTCO LTD.

###### Acquisition of Bank

Royal Trustco Ltd., Ottawa, Ontario, Canada, a wholly-owned subsidiary of the Royal Trust Co., Quebec, Canada, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to indirectly acquire, through Royal Trust Bank Corp., Miami, Fla., 51 percent or more of the voting shares of the American Bank of Orange County, Orlando, Fla. The factors that are considered in acting on the application are set forth in 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 7, 1978.

Board of Governors of the Federal Reserve System, January 23, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

##### GENERAL ACCOUNTING OFFICE

###### REGULATORY REPORTS REVIEW

###### Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports

Review Staff, GAO, on January 19, 1978. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipts.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FEC and ICC requests are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed requests, comments (in triplicate) must be received on or before February 13, 1978, and should be addressed to Mr. John M. Lovelady, Assistant Director, Regulatory Reports Review Office, Room 5106, 441 G Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-275-3532.

##### FEDERAL ELECTION COMMISSION

In a Decision dated April 20, 1977 (File B-130961), the Comptroller General considered whether 44 U.S.C. 3512 applies to the Federal Election Commission (FEC) and concluded that it does and that, accordingly, FEC's information-gathering activities are subject to review and clearance by GAO. The FEC's Form 3 and supporting schedules, which are discussed in this notice, represent FEC's first submission to GAO under the Federal Reports Act.

The Federal Election Commission (FEC) requests clearance of revisions to its Form 3 and supporting schedules. Included in the revision are FEC Form 3, Report of Receipts and Expenditures for a Candidate or Committee Supporting Candidate(s) for Nomination or Election to Federal Office; Schedule A, Itemized Receipts; Schedule B, Itemized Expenditures; Schedule C, Debts and Obligations; Schedule D, Itemized Receipts, Sales and Collections; Schedule E, Itemized Independent Expenditures; and a new schedule, Schedule F, Itemized Coordinated Expenditures Made by Political Party Committees. Most revisions are simply clarification of what information needs to be reported and greater detail has been provided concerning reporting of contributions in-kind, transfers and primary and general receipts.

Any candidate for Federal Office who has not been granted a waiver or any political committee which receives contributions or makes expenditures in excess of \$1,000 in any calendar quarter during an election year (or the combined total of \$5,000 of receipts and expenditures in the case of a can-

didate or authorized committees in a non-election year) must file reports of receipts and expenditures on FEC Form 3. Political committees not receiving or expending more than \$1,000 in a calendar quarter of any election year (or the combined total of \$5,000 of receipts and expenditures in the case of a candidate or an authorized committee in a non-election year) may file on FEC Form 3a except that a pre-election, a post-election and an annual report must be filed by all reporting candidates and committees on FEC Form 3.

The FEC estimates that respondents to Form 3 are comprised of four categories as follows: approximately 1,400 candidates whose reporting time averages 2.5 hours each report; 3,200 candidate committees whose reporting time averages 4.5 hours each report; 800 political party committees whose reporting time averages 12 hours per response; and other party committees whose reporting time averages 10 hours per report.

##### INTERSTATE COMMERCE COMMISSION

The ICC requests an extension without change clearance of Quarterly Report of Revenues, Expenses and Statistics, Form QFF, which is required to be filed by some 146 Class A freight forwarders pursuant to Section 412 of the Interstate Commerce Act. Data collected by the form are used for economic regulatory purposes. Reports are mandatory and available for use by the public. The ICC estimates that reporting time averages 9 hours per report.

The ICC requests an extension without change clearance of Quarterly Report of Revenues, Expenses and Statistics, Form QWS, which is required to be filed by some 90 carriers by water having average annual revenues of \$100,000 or more pursuant to Section 313 of the Interstate Commerce Act. Reports are mandatory and available for use by the public. Data collected by Form QWS are used for economic regulatory purposes. The ICC estimates that reporting time averages 3 1/2 hours per report.

JOHN M. LOVELADY,  
Assistant Director,  
Regulatory Reports Review.

##### NATIONAL COMMISSION FOR THE PROTECTION OF HUMAN SUBJECTS OF BIOMEDICAL AND BEHAVIORAL RESEARCH

###### Notice of Meeting

The National Commission for the Protection of Human Subjects of Bio-

medical and Behavioral Research will meet on February 10 and 11, 1978, in Conference Room 6, C Wing, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. The meeting will convene at 9 a.m. each day and will be open to the public, subject to the limitations of available space. Topics included in the mandate to the Commission under the National Research Act (Pub. L. 93-348), as amended, including the performance of institutional review boards, the basic ethical principles that should underlie the conduct of research on human subjects, delivery of health services under programs conducted or supported by the Department of Health, Education, and Welfare (including comments on proposed regulations applicable to sterilizations) and other matters identified in the legislative mandate to the Commission, will be the agenda for this meeting.

Written materials of any length may be submitted to the Commission at any time. Requests for information should be directed to Ms. Betsy Singer, Information Officer, 301-496-7776, Westwood Building, Room 125, 5333 Westbard Avenue, Bethesda, Md. 20016.

Dated: January 18, 1978.

MICHAEL S. YESLEY,  
Staff Director, National Commission for the Protection of  
Human Subjects of Biomedical  
and Behavioral Research.

##### Office of Education

##### GUARANTEED STUDENT LOAN PROGRAM

###### Special Allowance for Quarter Ending December 31, 1977

The Commissioner announces that for the 3-month period ending December 31, 1977, and under the statutory formula of section 438(b) of the Higher Education Act of 1965, a special allowance at the annual rate of 2 1/2 percent will be paid to holders of eligible loans in the guaranteed student loan program.

Using the statutory formula, the special allowance for this 3-month period was computed by determining the average of the bond equivalent rates of the 91-day Treasury bills for this period (6.32 percent), by subtracting 3.5 percent from this average, by rounding the resultant percent (2.82) upward to the nearest one-eighth of 1 percent (2.875), and by dividing the resultant percent by 4 (0.71875 percent). Thus the special allowance to be paid for this period will be 0.71875 percent of the average unpaid balance of principal (not including unearned interest added to principal) of all eligible loans held by lenders.

(20 U.S.C. 1087-1(b).)

Dated: January 19, 1978.

ERNEST L. BOYER,  
U.S. Commissioner of Education.

##### Office of Human Development Services

[Program Announcement No. 13629-782]

##### REHABILITATION LONG-TERM TRAINING

###### Announcement of Grants for FY 1978

The Rehabilitation Services Administration, Office of Human Development Services, announces that applications will be accepted from State vocational rehabilitation agencies and other public or nonprofit agencies and organizations, including institutions of higher education, wishing to compete for grants in fiscal year 1978 under the Rehabilitation Long-Term Training Grant Program authorized by section 203 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 762).

Applications in the areas of "Rehabilitation Medicine," "Rehabilitation Counseling," "Prosthetics and Orthotics," "Rehabilitation Continuing Education," and "Experimental and Innovative Training Projects" will be accepted until March 24, 1978.

Applications in all other areas of rehabilitation long-term training will be accepted until April 21, 1978.

All applications received by these closing dates which are complete and conform to the requirements of this program announcement will be accepted for review and considered for an award.

Regulations governing rehabilitation long-term training were published in the FEDERAL REGISTER in Subpart A and Subpart E, Part 1362 of Chapter XIII of Title 45 of the Code of Federal Regulations (45 CFR Part 1362) on November 25, 1975.

Scope of this Program Announcement: This program announcement identifies the general program objectives of the Rehabilitation Long-Term Training Program for Fiscal Year 1978.

A. Program purpose. Long-term training grants in vocational rehabilitation are made for the purpose of paying part of the costs of projects designed to increase the supply of personnel available for employment in public and private agencies involved in the rehabilitation of physically and mentally handicapped individuals, especially those who are the most severely disabled. Long-term training projects include: Training projects in established rehabilitation disciplines, experimental and innovative training projects; and rehabilitation continuing education programs.

**B. Eligible applicants.** Applications may be submitted by State vocational rehabilitation agencies and other public or nonprofit agencies or organizations, including institutions of higher education.

**C. Available funds.** An estimated \$28 million will be available for rehabilitation long-term training grants during the 1978-1979 academic year beginning July 1, 1978. Of the 425 rehabilitation long-term training projects funded during the 1977-1978 academic year, 130 new and competing extension applications were approved and funded. The size of the individual grants is variable and may range from approximately \$10,000 to approximately \$200,000.

**D. Program objectives and priorities for funding.** Grants are made to provide a balanced program of assistance to meet the medical, vocational and other personnel training needs of both public and private rehabilitation programs and institutions. In awarding long-term training grants, priority will be given to the support of ongoing training projects which are eligible for continuation grants and which have been determined to be making satisfactory progress toward achieving established objectives. In addition, special priority will be assigned to training in those professional fields which directly support and enhance the vocational rehabilitation service delivery activities of the State vocational rehabilitation agencies.

**E. Grantee Share of Project.** It is expected that grantees will provide some of the total project costs. Grantee contributions must be project-related and allowable under the Department's applicable cost principles in 45 CFR Part 74, Subpart Q. Institutions of higher learning and other nonprofit institutions may consider actual indirect costs in excess of the 8 percent allowed on training grants as part of the grantee contribution to the project.

**F. The application process—OMB Circular A-95 Clearinghouse Notice.** Applicants for rehabilitation long-term training grants are not routinely required to notify the State and Area-wide A-95 Clearinghouse of the intent to apply for Federal assistance. States are authorized to extend the project notification and review procedures of OMB Circular A-95 to include training grants. If the applicant's State has extended the coverage of OMB Circular A-95 to this program, however, the Clearinghouse procedures must be observed.

**State vocational rehabilitation agency review.** Applicants are advised to consult with their State vocational rehabilitation agency in the initial stages of application development. Applications submitted under this program are not expected to have State vocational rehabilitation agency ap-

proval before submission to the Rehabilitation Services Administration. State vocational rehabilitation agencies are requested to review and comment on the application after formal submission.

**Application submission.** In order to be considered for a rehabilitation long-term training grant, all applications must be submitted on standard forms provided for this purpose by the Commissioner, Rehabilitation Services Administration, in accordance with guidelines established by the Commissioner. The application shall be executed by an individual authorized to act for the applicant agency and to assume the obligations imposed by the terms and conditions of the grant award, including the regulations for the Rehabilitation Long-Term Training Program.

One signed original and two copies of the grant application, including all attachments, are required.

1. Applications for the support of special long-term training projects of national scope including experimental and innovative training projects, should be addressed as follows: Division of Grants and Contracts Management, Office of Human Development Services, Room 1427, 330 C Street SW., Washington, D.C. 20201.

Special long-term training projects of national scope are those projects which are designed to: (a) have a direct impact on vocational rehabilitation programs throughout the country; (b) have objectives which, if achieved, could result in an improved delivery system for vocational rehabilitation services, especially as it relates to those with the most severe handicaps; and which could affect national policies or standards established for the rehabilitation training program; (c) encompass participants from all sections of the country and do not necessarily relate to a single rehabilitation field of practice; and (d) be conducted by an institution, agency or organization with the capacity to offer training in more than one geographical location.

2. Applications for the support of long-term training projects of Regional scope should be addressed to the appropriate Director, Office of Rehabilitation Services as follows:

#### REGION I

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, John F. Kennedy Federal Building, Room 2011, Government Center, Boston, Mass. 02203.

#### REGION II

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 26 Federal Plaza, Room 4106, New York, N.Y. 10007.

#### REGION III

Director, Office of Rehabilitation Services, Department of Health, Education, and

Welfare, 3535 Market Street, P.O. Box 13716, Philadelphia, Pa. 19101.

#### REGION IV

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 101 Marietta Street NW., Suite 903, Atlanta, Ga. 30323

#### REGION V

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 300 South Wacker Drive, 31st Floor, Chicago, Ill. 60606.

#### REGION VI

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Fidelity Union Life Building, Room 340, 1511 Bryan Street, Dallas, Tex. 75201.

#### REGION VII

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 601 East 12th Street, Room 384, Kansas City, Mo. 64106.

#### REGION VIII

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Federal Office Building, Room 11037, 19th and Stout Streets, Denver, Colo. 80294.

#### REGION IX

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Federal Office Building, 50 United Nations Plaza, San Francisco, Calif. 94102.

#### REGION X

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Arcade Building, 1321 Second Avenue (MS 622), Seattle, Wash. 98101.

**Application consideration.** The Commissioner, Rehabilitation Services Administration determines the final action to be taken with respect to each grant application.

All grant applications are subject to a competitive review and evaluation conducted by qualified non-Federal consultants experienced in the training of rehabilitation personnel. The Commissioner takes into account the competitive review by the non-Federal consultants, and the comments of the State vocational rehabilitation agencies, the HEW Regional Offices and the Rehabilitation Services Administration Central Office program office, in reaching a decision on each competitive application.

After the Commissioner has reached a decision either to disapprove or not to fund a competing grant application, the unsuccessful applicant is notified of that decision.

**Grant Awards.** The Commissioner makes grant awards consistent with the purposes of the Act, the regulations, and program announcements within the limits of Federal funds available. The official grant award

document is the Notice of Grant Awarded which sets forth in writing the amount of funds granted, the purpose of the grant, the terms and conditions of the grant award, the effective date of the award, the budget period for which support is given and the total grantee participation. The initial award also specifies the project period for which support is contemplated.

**G. Criteria for review and evaluation of grant applications.** All applications received in response to this announcement will receive a technical review by qualified experts. Applications are evaluated against the following criteria:

1. The relevance of the purpose of the content and the training project to the administratively established objectives of the public rehabilitation program and the Rehabilitation Act of 1973, as amended;
2. The methodology to be employed in implementing the project and its feasibility for the achievement of the established educational objectives;
3. The adequacy of the plan for the evaluation of the effectiveness of project activities;
4. The existence of a working relationship with the State vocational rehabilitation agency and other agencies and rehabilitation facilities providing vocational rehabilitation services;
5. The extent to which the training projects holds promise of increasing the supply of personnel or improving the skill competence of personnel trained to deliver vocational rehabilitation services to physically or mentally handicapped persons, especially those with the most severe handicaps, or other groups of handicapped persons, such as handicapped persons from minority groups;
6. The extent to which other training programs in the same field are available in the State or Region;
7. The utilization, for clinical, field, or instructional experiences, of a "rehabilitation setting": Which means an agency or institution operating an organized program of vocational rehabilitation services designed to help severely physically or mentally handicapped persons function optimally in society within their capacities and limitations.
8. Evidence that the supervised clinical practice will be educationally focused and that standards to assure the competence of those staff persons supervising students have been established and will be maintained by the training institution;
9. Designation of a project director qualified in a professional field which contributes to the vocational rehabilitation of the disabled, who is able to devote sufficient time to the project to ensure its proper direction;
10. The financial resources of the applicant for accomplishing the objec-

tives of the training project, how much the applicant plans to contribute to the total cost of the project, and the extent to which the estimated cost to the government is reasonable and necessary to accomplish the project objectives.

11. The personnel and facility resources available to the applicant for accomplishing the objectives of the training project;

12. The criteria to be used for the selection of students to whom traineeships are to be awarded;

13. Evidence that the training institution and all clinical and field instruction settings are free of architectural and other barriers to the training of handicapped students;

14. Where appropriate, evidence of current accreditation by the designated accrediting agency;

15. Information on the employment outlook for graduates of the training program including reports from potential employers, job vacancies in the geographical area served by the educational institution, and records of positions held by students who have completed the training program; and

16. Extent to which application instructions are adequately addressed, including both the narrative statement and budget justification.

**H. Closing Date for Receipt of Applications.** 1. Applications in the areas of "Rehabilitation Medicine", "Rehabilitation Counseling", "Prosthetics and Orthotics", "Rehabilitation Continuing Education", and "Experimental and Innovative Rehabilitation Long-Term Training Projects" will be accepted until March 24, 1978.

2. Applications in all other areas of rehabilitation long-term training will be accepted until April 21, 1978.

3. Applications will be judged on time if: a. The application was sent by registered or certified mail not later than the date specified above as evidenced by the U.S. Postal Service postmark or the original receipt from the U.S. Postal Service;

b. The application is sent by mail and received on or before the closing date in the appropriate Department of Health, Education, and Welfare, the Office of Human Development Services of the Rehabilitation Services Administration mailrooms as evidenced by the time date stamp or other documentary evidence of receipt maintained by such mailroom, or

c. The application is hand delivered to the office designated to receive the application in the application instructions. Hand delivered applications will be accepted no later than close of business on the date specified above in any case.

**I. Late Applications.** Applications received after the closing date are not accepted and applicants are notified accordingly.

**J. Availability of application forms.** Application kits which contain the prescribed application forms and other appropriate information for the applicant will be mailed to grantees who have been conducting long-term training projects during the 1977-1978 academic year. Other eligible applicants may request application materials from the appropriate Regional Office of the Rehabilitation Services Administration.

### National Institutes of Health

### COMMITTEE ON CANCER IMMUNOTHERAPY

#### Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Committee on Cancer Immunotherapy, National Cancer Institute, February 9, 1978, Building 10, Room 4B14, National Institutes of Health. The meeting will be open to the public on February 9, 1978, from 1:15 p.m. to 1:45 p.m., to review administrative details. Attendance by the public will be limited to space available.

In accordance with provisions set forth in section 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on February 9, 1978, from 1:45 p.m. to adjournment, for the review, discussion and evaluation of individual contract proposals. These proposals and the discussions could reveal personal information concerning individuals associated with the proposals.

Mrs. Marjorie F. Early, Committee Management Officer, National Cancer Institute, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014, 301-496-5708 will provide summaries of the meeting and a roster of committee members.

Dr. George M. Steinberg, Executive Secretary, National Cancer Institute, Building 10, Room 4B09, National Institutes of Health, Bethesda, Maryland 20014 (301/496-1791) will furnish substantive program information.

##### GENERAL CLINICAL RESEARCH CENTERS COMMITTEE

###### Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the General Clinical Research Centers Committee, Division of Research Resources, on February 6 and 7, 1978, at the LaPlaya Hotel, Camino Real at 8, Carmel-by-the-Sea, Calif.

The meeting will be open to the public on February 6, 1978, from 9 a.m. to 11 a.m., to discuss administrative matters. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10 (d) of Pub. L. 92-463, the meeting will be closed to the public on February 6 from 11 a.m. to 5 p.m., and on February 7 from 9 a.m. to adjournment for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the application.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Room 5B13, Building 31, Bethesda, Md. 20014, telephone 301-496-5545, will provide summaries of the meeting and rosters of the Committee members. Dr. Ephraim Y. Levin, Executive Secretary of the General Clinical Research Centers Committee, Room 5B51, Building 31, National Institutes of Health, Bethesda, Md. 20014, telephone 301-496-6595, will furnish substantive program information.

##### DEPARTMENT OF THE INTERIOR

###### Bureau of Land Management [F-14909-A2]

###### ALASKA NATIVE CLAIMS SELECTION

On November 15, 1973, Kuugpik Corp., Inc., for the Native village of Nookksut (Nuiqsut, Nuiqsat), filed selection application F-14909-A2 under the provisions of section 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (Supp. V, 1975)), for the surface estate of certain lands in the Nookksut area.

As to the lands described below, the application, as amended is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with Federal laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to section 12(b), aggregating approximately 7,637 acres, is considered proper for acquisition by Kuugpik Corp., Inc. and is hereby approved for conveyance pursuant to section 14(a) of the Alaska Native Claims Settlement Act:

###### UMIAT MERIDIAN, ALASKA (UNSURVEYED)

T. 12 N., R. 2 E.

Secs. 2 to 12, inclusive, all.  
Containing approximately 8,917 acres.

T. 14 N., R. 2 E.

Secs. 19 and 20 (fractional), all; Secs. 28 to 32 (fractional), inclusive, all.  
Containing approximately 720 acres.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

A right-of-way thereon for ditches and canals constructed by the authority of the United States, as prescribed and directed by the act of August 30, 1890, 26 Stat. 391, 43 U.S.C. 945;

2. A right-of-way thereon for the construction of railroads, telegraph, and telephone lines, as prescribed and directed by the act of March 12, 1914, 38 Stat. 305, 43 U.S.C. 975d;

3. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(f) (Supp. V, 1975)); and

4. Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 708; 43 U.S.C. 1601, 1618(b) (Supp. V, 1975)), the following public easements, referenced by easement identification under (EIN) on the easement maps in case file F-14909-EE are reserved to the United States and subject to further regulation thereby:

a. (EIN 1 C3, D1) An easement for an existing access trail fifty (50) feet in width from section 38, T. 13 N., R. 2 E., Umiat Meridian, southerly to public lands. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

b. (EIN 5 C3, C5, D1, D9) A continuous linear easement twenty-five (25) feet in width upland of and parallel to the mean high tide line in order to provide access to and along the marine coastline and use of such shore for purposes such as beaching of watercraft or aircraft, travel along the shore, recreation, and other similar uses. Deviations from the waterline are permitted when specific conditions so require, e.g., impassable topography or waterfront obstruction. This easement is subject to the right of the owner of the servient estate to build upon such easement a facility for public or private purposes, such right to be exercised reasonably and without undue or unnecessary interference with or obstruction of the easement. When access along the marine coastline easement is to be obstructed, the owner of the servient estate will be obligated to convey to the United States an acceptable alternate access route, at no cost to the United States, prior to the creation of such obstruction.

c. (EIN 11 C) The right of the United States to enter upon the lands hereinabove granted for cadastral, geodetic, or other survey purposes is reserved, together with the right to do all things necessary in connection therewith.

d. (EIN 12C) Easements for the transportation of energy, fuel, and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. These easements also include the right to build any related facilities necessary for the exercise of the right to transport energy, fuel, and natural resources, including those related facilities necessary during periods of planning, locating, constructing, operating, maintaining, or terminating transportation systems. The specific location of these easements shall be determined only after consultation with the owner of the servient estate. Whenever the use of such easements will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement. Provided, however, That the United States may exercise the right of eminent domain if such consent is not given. Only those portions of these easements that are actually in use or that are expressly authorized on March 3, 1996, shall continue to be in force.

e. In addition to the foregoing, the United States incorporates by reference the agreement of May 14, 1974, between the United States Department of the Navy, Arctic Slope Regional Corp., Kuugpik Corp., Inc., and three other Arctic Slope village corporations, and reserves those easements necessary to implement said agreement. A copy of the agreement is located in Bureau of Land Management file F-14909-EE.

The grant of land shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under

section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. Ch. 2, Sec. 6(g) (1970))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him;

3. Requirements of section 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c) (Supp. V, 1975)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section; and

4. The terms and condition of the agreement dated August 6, 1976 between the Secretary of the Interior, Arctic Slope Regional Corporation, Kuugpik Corp., Inc., and the seven other Arctic Slope village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in the Bureau of Land Management easement case file for Kuugpik Corp., Inc., serialized F-14909-EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

Arctic Slope Regional Corporation has reallocated 8,403 acres to Kuugpik Corporation, Inc., for selection pursuant to section 12(b) of the Alaska Native Claims Settlement Act. Upon this initial conveyance of 7,637 acres, a total of approximately 766 acres will remain to be conveyed to the corporation before the village reaches full 12(b) entitlement.

Conveyance of the remaining entitlement to Kuugpik Corporation, Inc. will be made at a later date. It should be noted that no interim conveyance will be issued to the Arctic Slope Regional Corp. for the subsurface estate of the lands hereinabove described since they lie within the National Petroleum Reserve in Alaska. Section 12(a)(1) of the Alaska Native Claims Settlement Act provides that when a village corporation selects the surface estate of lands within this reserve, the regional corporation may make in lieu selections of the subsurface estate, in an equal acreage, from other lands withdrawn by subsection 11(a) of the act; therefore, Arctic Slope Regional Corp. is entitled to approximately 7,637 acres in lieu subsurface estate.

No determination of navigability or tidal influence affecting the inland water bodies within the lands herein described is necessary as the lands were withdrawn by Public Land Order No. 82 (43 FR 1796, February 3, 1943) when the Alaska Statehood Act of July 7, 1958 was passed (see 72 Stat. 339, 343; 48 U.S.C., Ch. 2, Sec. 6(m) (1970)); therefore, the lands beneath tidal or navigable water bodies did not vest in the State pursuant to the Submerged Lands Act of May 22, 1953 (67 Stat. 29, 32, Sec. 5; 43 U.S.C. Ch. 29, 1313(a) (1970)).

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in

the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the Fairbanks Daily News-Miner. Any party claiming a property interest in lands affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510 with a copy served upon both the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501 and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501, also:

1. Any party receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign the return receipt shall have until February 24, 1978, to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of, and requirements for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

If an appeal is taken, the adverse parties to be served are:

Kuugpik Corp., Inc., Nookksut (Nuiqsut), Alaska 99724.  
Arctic Slope Regional Corp., P.O. Box 129, Barrow, Alaska 99723.

ROBERT E. SORENSON,  
Chief, Branch of Lands  
and Minerals Operations.

##### National Park Service

##### CHESAPEAKE AND OHIO CANAL NATIONAL HISTORICAL PARK COMMISSION

###### Meeting

Notice is hereby given in accordance with Federal Advisory Committee Act that a meeting of the Chesapeake and Ohio Canal National Historical Park Commission will be held Saturday, February 18, 1978, at 10 a.m. at the Williamsport Municipal Building (second floor council chambers), Williamsport, Md.

The Commission was established by Pub. L. 91-664 to meet and consult with the Secretary of the Interior on

## NOTICES

general policies and specific matters related to the administration and development of the Chesapeake and Ohio Canal National Historical Park.

The members of the Commission are as follows:

Mr. Donald R. Frush (chairman), Hagerstown, Md.  
Mrs. Bonnie Troxell, Cumberland, Md.  
Miss Nancy Long, Glen Echo, Md.  
Mrs. Constance Morella, Bethesda, Md.  
Mr. Kenneth Rollins, Brookmont, Md.  
Mr. Vladimir A. Whabe, Baltimore, Md.  
Mr. Edwin F. Wesely, Jr., Brookmont, Md.  
Mr. John D. Millar, Cumberland, Md.  
Mr. James B. Coulter, Annapolis, Md.  
Mrs. Dorothy Grotos, Arlington, Va.  
Miss Margaret Diets, Lovettsville, Va.  
Mr. James H. Gilford, Frederick, Md.  
Mr. Lorenzo W. Jacobs, Jr., Washington, D.C.

Mr. Dayton C. Casto, Jr., Great Cacapon, W. Va.

Mr. Silas F. Starry, Shepherdstown, W. Va.  
Mr. Rockwood H. Foster, Washington, D.C.  
Mr. R. Lee Downey, Williamsport, Md.  
Mr. John C. Frye, Gapland, Md.

The matters to be discussed at this meeting include:

1. On-site inspections of various areas in the Williamsport vicinity.
2. Call to order and roll call.
3. Approval of minutes, November 19, 1977.
4. Widespread area construction project.
5. Access to Town of Brunswick campground.
6. State of Maryland study on the Potomac River by the Department of Natural Resources.
7. Water pollution report.
8. Interpretive signs and status report on Interpretive Planning on the Palisades District.
9. Construction program and priorities through 1981.
10. Abner Cloud House site plans.
11. Harpers Ferry Road improvements.
12. Turning basin, Williamsport.
13. Western Maryland Railroad abandonment (Roundtop to Cumberland).
14. District of Columbia Planning Office report on Georgetown planning activities.
15. B&O Railroad line abandonment in Washington County.
16. Water intake structures, WSSC and Fairfax County.
17. Potomac River Safety program.
18. Committee reports.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 30 persons will be able to attend the sessions. Any member of the public may file with the Committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish

to submit written statements, may contact William R. Fallor, Superintendent, C&O Canal National Historical Park, P.O. Box 4, Sharpsburg, Md. 21782, telephone area code 301-432-2231. Minutes of the meeting will be available for public inspection 2 weeks after the meeting at park Headquarters, Sharpsburg, Md.

Dated: January 16, 1978.

MANUS J. FISH, Jr.,  
Regional Director,  
National Capital Region.

Office of the Secretary

[INT-DES 77-35]

## BISCAYNE NATIONAL MONUMENT, FLA.

## Notice of Availability and Notice of Public Meetings on Draft Environmental Statement on General Management Plan

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a Draft Environmental Statement on the proposed General Management Plan for Biscayne National Monument.

The statement discusses proposals for the management, development and operation of Biscayne National Monument.

Copies are available from or for inspection at the following locations:

Southeast Regional Office, National Park Service, 1895 Phoenix Boulevard, Atlanta, Ga. 30349.  
Superintendent, Everglades National Park, P.O. Box 279, Homestead, Fla. 33030.  
Superintendent, Biscayne National Monument, P.O. Box 1390, Homestead, Fla. 33030.

In addition, as part of the Service's program for public participation in planning, public meetings to consider the material in the assessment will be held at the following locations and times:

January 25, 1978 at 7 p.m.:  
Vizcaya Museum Auditorium, 3251 South Miami Avenue, Miami, Fla.  
January 26, 1978 at 7 p.m.:  
Dade County Agricultural Center, 18710 Southwest 288 Street, Homestead, Fla. (Biscayne Drive at Redlands Road).

Public comments on the proposed General Management Plan and Environmental Statement are solicited. Written and oral comments on the statement and its contents will be received for consideration at the meetings. In addition written comments will be received at the offices listed above for a period of 30 days following the public meetings.

NOTE.—The U.S. Department of the Interior has determined that this document

does not contain a major proposal requiring a preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Dated: December 6, 1977.

DAVID USHIO,  
Acting Deputy Assistant  
Secretary of the Interior.

## LEGAL SERVICES CORPORATION

## GRANTS AND CONTRACTS

JANUARY 19, 1978.

The Legal Services Corporation was established pursuant to the Legal Services Corporation Act of 1974, Pub. L. 93-355, 88 Stat. 378, 42 U.S.C. 2996-2996f, as amended, Pub. L. 95-222 (December 28, 1977). Section 1007(f) provides: "At least 30 days prior to the approval of any grant application or prior to entering into a contract or prior to the initiation of any other project, the Corporation shall announce publicly . . . such grant, contract or project."

The Legal Services Corporation hereby announces publicly that it is considering the grant application submitted by: Greater Boston Legal Services, Inc. in Boston, Mass. to serve Brookline, Malden, Medford and environs and the Quincy/South Shore area, Massachusetts.

Interested persons are hereby invited to submit written comments or recommendations concerning the above application to the Regional Office of the Legal Services Corporation at: Legal Services Corporation, Boston Regional Office, 84 State Street, Room 520, Boston, Mass. 02101.

THOMAS EHRLICH,  
President.

## NATIONAL SCIENCE FOUNDATION

## LONG-TERM ECOLOGICAL MEASUREMENTS

## Conference

The Biological Research Resources Program of the National Science Foundation is sponsoring a meeting to be held at the Marine Biological Laboratory, Woods Hole, Mass., on February 6, 7, 8, 9, and 10th, 1978.

The objective of the conference is to formulate an integrating system for collection of long-time series ecological data.

While this meeting is not considered to be a meeting of an "advisory committee" as defined in Section 3 of the Federal Advisory Committee Act (Pub. L. 91-463), the meeting is believed to be of sufficient importance and interest to the general public to be announced in the FEDERAL REGISTER as a meeting open to the public.

The conference will be coordinated by Daniel B. Botkin of the Marine Biological Laboratory.

Copies of the final report of the conference will be available through William E. Sievers, Biological Research Resources Program, NSF, Washington, D.C. 20550.

WILLIAM E. SIEVERS,  
Program Director, Biological  
Research Resources Program.

## [7555-01]

## SYSTEMATICS/ECOLOGY COMMUNITY

## Symposium on the Impact of Federal Wildlife Regulations

The Biological Research Resources Program of the National Science Foundation is sponsoring a symposium to be held at the National Academy of Sciences, Washington, D.C. on February 14 and 15th, 1978.

The symposium will be devoted to the impact of federal wildlife regulations on the work of systematists and ecologists. It is the intent to explore the histories and intents of various wildlife laws, to inform the scientific

community of its responsibilities, and to initiate a balanced dialogue between the regulators and the regulated.

While this meeting is not considered to be a meeting of an "advisory committee" as defined in Section 3 of the Federal Advisory Committee Act (Pub. L. 91-463), the meeting is believed to be of sufficient importance and interest to the general public to be announced in the FEDERAL REGISTER as a meeting open to the public.

Dr. Peter Raven, of the Missouri Botanical Garden will act as moderator. Copies of the final report of the symposium will be available through William E. Sievers, Biological Research Resources Program, NSF, Washington, D.C. 20550.

WILLIAM E. SIEVERS,  
Program Director, Biological  
Research Resources Program.

## [7555-01]

## SUBCOMMITTEE ON HUMAN CELL BIOLOGY

## Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

NAME: Subcommittee on Human Cell Biology of the Advisory Committee for Physiology, Cellular, and Molecular Biology.

DATE AND TIME: February 10 and 11, 1978—9 a.m. to 6 p.m. each day.

PLACE: Room 338, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

TYPE OF MEETING: Closed.

## CONTACT PERSON:

Dr. Herman W. Lewis, Program Director, Human Cell Biology Program, Room 326, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4200.

PURPOSE OF SUBCOMMITTEE: To provide advice and recommendations concerning support for research in Human Cell Biology.

AGENDA: To review and evaluate research proposals as part of the selection process for awards.

REASON FOR CLOSING: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of

## NOTICES

Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

JANUARY 20, 1978.

## NUCLEAR REGULATORY COMMISSION

## ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

## Meeting

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards will hold a meeting on February 9-11, 1978, in Room 1046, 1717 H Street N.W., Washington, D.C. The agenda for the subject meeting will be as follows:

THURSDAY, FEBRUARY 9, 1978

8:30 A.M.—9:30 A.M.—EXECUTIVE SESSION (OPEN)

The committee will hear and discuss the report of the ACRS Chairman regarding miscellaneous matters relating to ACRS activities. The committee will hear and discuss the report of the ACRS subcommittee and consultants who may be present regarding the request for an operating license for Arkansas nuclear one, unit 2. Portions of this session will be closed if necessary to discuss proprietary information applicable to this facility and provisions for physical protection of this plant.

9:30 A.M.—12:30 P.M.—ARKANSAS NUCLEAR ONE, UNIT 2 (OPEN)

The committee will hear and discuss presentations by representatives of the NRC staff and the applicant related to the request for operation of this unit. Portions of this session will be closed if necessary to discuss proprietary information applicable to this facility and provisions for physical protection of this plant.

1:30 P.M.—2 P.M.—EXECUTIVE SESSION (OPEN)

The committee will hear and discuss the report of the ACRS subcommittee and consultants who may be present regarding proposed operation of the Maine Yankee atomic power station at increased power. Portions of this session will be closed if required to discuss proprietary information related to this plant and provisions for physical protection of this facility.

2 P.M.—3:30 P.M.—MAINE YANKEE ATOMIC POWER STATION (OPEN)

The committee will hear and discuss presentations by representatives of

the NRC staff and the applicant related to the request for a power level increase for this plant. Portions of this session will be closed if required to discuss proprietary information related to this plant and provisions for physical protection of this facility.

**3:30 P.M.-4 P.M.—EXECUTIVE SESSION (OPEN)**

The committee will hear and discuss the report of the ACRS subcommittee and consultants who may be present on the La Crosse boiling water reactor. Portions of this session will be closed if required to discuss proprietary information related to this plant.

**4 P.M.-5:30 P.M.—LA CROSSE BOILING WATER REACTOR (OPEN)**

The committee will hear presentations by and hold discussions with representatives of the NRC staff and the Dairyland Power Cooperative regarding operation of the La Crosse boiling water reactor specifically related to performance of the reactor fuel and proposed operation with replacement fuel. Portions of this session will be closed if required to discuss proprietary information related to this plant.

**5:30 P.M.-6:30 P.M.—EXECUTIVE SESSION (OPEN)**

The committee will hear and discuss reports of subcommittees, working groups, and members on a number of generic matters related to reactor safety including proposed regulatory guides, program plans for resolution of generic matters, and calculation of control room doses following postulated accidents.

FRIDAY, FEBRUARY 10, 1978

**8:30 A.M.-9:30 A.M.—MEETING WITH NRC STAFF (OPEN)**

The committee will hear presentations from and hold discussions with members of the Nuclear Regulatory Commission staff regarding recent licensing actions and operating experience including seismic reevaluation of the Vallecitos boiling water reactor, combination of seismic and other loadings in the design of nuclear plants, requirements for key-card security systems for nuclear facilities.

The future schedule for ACRS activities will also be discussed including consideration of a request for information regarding the seismic design of the North Anna power station.

**9:30 A.M.-10 A.M.—EXECUTIVE SESSION (OPEN)**

The committee will hear and discuss the report of the ACRS subcommittee and consultants who may be present related to the request for an operating license for the Edwin I. Hatch nuclear plant, unit 2. Portions of this session will be closed if required to discuss

proprietary information related to this plant and provisions for physical protection of this facility.

**10 A.M.-12:30 P.M.—EDWIN I. HATCH NUCLEAR PLANT, UNIT 2 (OPEN)**

The committee will hear presentations by and hold discussions with representatives of the NRC staff and the applicant related to the request for an operating license for this plant. Portions of this session will be closed if required to discuss proprietary information related to this plant and provisions for physical protection of this facility.

**1:30 P.M.-2 P.M.—EXECUTIVE SESSION (OPEN)**

The committee will hear and discuss the report of its subcommittee and consultants who may be present on the design of containers for the air shipment of plutonium.

**2 P.M.-4 P.M.—CONTAINERS FOR AIR SHIPMENT OF PLUTONIUM (OPEN)**

The committee will hear presentations by and hold discussions with representatives of the NRC staff and the Sandia Laboratory regarding the design and qualification testing of containers to be used for the air shipment of plutonium.

**4 P.M.-4:30 P.M.—EXECUTIVE SESSION (OPEN)**

The committee will hear and discuss the report of its subcommittee and consultants who may be present on plans and procedures for the decommissioning of nuclear facilities.

**4:30 P.M.-6:30 P.M.—MEETING ON DECOMMISSIONING OF NUCLEAR FACILITIES (OPEN)**

The committee will hear presentations by and hold discussions with representatives of the NRC staff, the Department of Energy, and the nuclear industry regarding procedures and practices related to the decommissioning of nuclear facilities. Portions of this session will be closed if required to discuss proprietary information related to this matter.

SATURDAY, FEBRUARY 11, 1978

**8:30 A.M.-4 P.M.—EXECUTIVE SESSION (OPEN/CLOSED)**

The committee will prepare its reports to the Nuclear Regulatory Commission on the Edwin I. Hatch nuclear plant, unit 2; Arkansas nuclear one, unit 2; Maine Yankee atomic power station; and the La Crosse boiling water reactor.

The committee will complete the preparation of comments and positions discussed during this meeting including comments regarding the design of containers for air shipment of plutonium and procedures for decommissioning of nuclear facilities.

Portions of this session will be closed as necessary to discuss matter involved in adjudicatory proceedings.

I have determined in accordance with subsection 10(d) of Pub. L. 92-463

that it is necessary to close portions of the meeting as noted above to protect proprietary information (5 U.S.C. 552b(c)(4)), and to preserve the confidentiality of information related to safeguarding of special nuclear material and the physical protection of nuclear facilities (5 U.S.C. 552b(c) (1) and (4)). The portions of the meeting during which ACRS comments on matters involved in adjudication are prepared will be held in closed session pursuant to exemption (10) of 5 U.S.C. 552b(c). Separation of factual information from information considered exempt from disclosure during closed portions of the meeting is not considered practical.

Procedures for the conduct of and participation in this meeting were outlined in the FEDERAL REGISTER on October 31, 1977, page 56972. In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the committee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

Background information concerning items to be considered during this meeting can be found in documents on file and available for public inspection in the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the following public document rooms:

ARKANSAS NUCLEAR ONE, UNIT 2  
Arkansas Polytechnic College, Russellville, Ark. 72801.

MAINE YANKEE ATOMIC POWER STATION  
Wiscasset Public Library, High Street, Wiscasset, Maine 04578.

LA CROSSE BOILING WATER REACTOR  
La Crosse Public Library, 800 MAIN STREET, La Crosse Wis. 54601.

[Docket No. STN 50-560]

FLUOR PIONEER, INC.

Notice of Receipt of Amendment to Standard Safety Analysis Report

Fluor Pioneer, Inc., in accordance with the provisions of Appendix O to 10 CFR Part 50 of the Nuclear Regulatory Commission's (Commission) rules and regulations, filed with the Commission a document entitled, "Balance of Plant Standard Safety Analysis Report" (BOPSSAR), which was docketed on January 27, 1976. A Notice of Receipt of Standard Safety Analysis Report was published in the FEDERAL REGISTER on February 6, 1976 (41 FR 5640).

The original BOPSSAR application describes the balance of plant design for a pressurized water reactor standard nuclear power plant utilizing the Westinghouse Electric Corp.'s RESAR-41 nuclear steam supply system standard design for which the Commission staff issued a Preliminary Design Approval on August 17, 1977.

On October 31, 1977, Fluor Pioneer, Inc. filed Amendment No. 15 to the BOPSSAR application which revised the application to reflect changes to the balance of plant design for a plant utilizing the Babcock & Wilcox Company's BSAR-205 nuclear steam supply system standard design. Certain portions of the Fluor Pioneer, Inc. application which utilizes the RESAR-41 design previously reviewed by the staff, are proposed to be the same for utilization of the BSAR-205 design. Therefore, the staff review of BOPSSAR/BSAR-205 will be directed toward the differences from the previous approved design.

Upon completion of the review of BOPSSAR/BSAR-205 the Commission's staff will publish a Safety Evaluation Report (SER) documenting the results of the review. Moreover, BOPSSAR/BSAR-205 will be referred to the Advisory Committee on Reactor Safeguards (ACRS) for its review and a report thereon. Copies of the SER and ACRS report will be made available to the public. A notice relating to the availability of these documents will be published in the FEDERAL REGISTER.

All interested persons who desire to submit written comments for consideration by the staff and ACRS should send them to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555,

ATTN: Docketing and Service Section by March 27, 1978.

A copy of the BOPSSAR/BSAR-205 application and amendments thereto and other related documents are available for public inspection at the Commission's Public Document Room 1717 H Street NW., Washington, D.C. 20555. When available, the SER and ACRS report will also be made available for public inspection at the Commission's Public Document Room.

Dated at Bethesda, Md., this 18th day of January 1978.

For the Nuclear Regulatory Commission.

JOHN F. STOLZ,  
Chief, Light Water Reactors  
Branch No. 1, Division of Project Management.

[7590-01]

[Docket Nos. 50-282 and 50-306]

NORTHERN STATES POWER CO.

Notice of Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 25 and 19 to Facility Operating License Nos. DPR-42 and DPR-60, issued to the Northern States Power Co. (the licensee), which revised the licenses and their appended Technical Specifications for operation of Unit Nos. 1 and 2 of the Prairie Island Nuclear Generating Plant (the facilities) located in Goodhue County, Minn. The amendments are effective as of their date of issuance.

The amendments consisted of miscellaneous changes in the Technical Specifications to (1) revise the diesel generator testing, (2) revise the sampling tests for Boron and I-131, (3) clarify the dual role of the Residual Heat Removal system, and (4) make miscellaneous administrative changes to correct typographical errors, clarify the intent of the Technical Specifications and relocate the Spent Fuel Pool Special Ventilation System limiting conditions for operation and surveillance requirements. In addition, we have deleted from the Technical Specifications any reference to respiratory protection equipment since it is now specifically addressed by section 20.103 of 10 CFR Part 20 of the Commission's regulations.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments.

Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

For further details with respect to this action, see: (1) The application for amendments dated July 8, 1977, (2) Amendment Nos. 25 and 19 to License Nos. DPR-42 and DPR-60, respectively, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at The Environmental Conservation Library of the Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minn. 55401. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 18th day of January 1978.

For the Nuclear Regulatory Commission.

MARSHALL GROTEHUIS,  
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[7590-01]

[Docket No. 50-285]

OMAHA PUBLIC POWER DISTRICT

Notice of Issuance of Amendment to Facility Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 35 to Facility Operating License No. DPR-40 issued to Omaha Public Power District which revised Technical Specifications for operation of the Fort Calhoun Station, Unit No. 1, located in Washington County, Nebr. The amendment is effective as of its date of issuance.

The amendment modifies portions of the Administrative Controls section and portions of the Environmental Technical Specifications dealing with Planktonic and Larval Organisms and the chemical and thermal discharge limits.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act

of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for the revised Technical Specifications and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the action other than that which has already been predicted and described in the Commission's Final Environmental Statement for the facility dated August 1972.

For further details with respect to this action, see (1) The applications for amendment dated January 21, March 14 (which was superseded in its entirety by letter dated October 11), September 16, and October 31, 1977, (2) Amendment No. 35 to License No. DPR-40, (3) the Commission's related Safety Evaluation and Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Blair Public Library, 1665 Lincoln Street, Blair, Nebr. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 16th day of January 1978.

For the Nuclear Regulatory Commission.

GEORGE LEAR,  
Chief, Operating Reactors  
Branch No. 3, Division of Operating Reactors.

[Docket No. PRM-20-10]

#### CITIZENS UNITED FOR RESPONSIBLE ENERGY

##### Filing of Petition for Rule Making

Notice is hereby given that Citizens United for Responsible Energy, by letter dated December 27, 1977, has filed with the Nuclear Regulatory Commission a petition for rule making to amend the Commission's regulation "Standards for Protection Against Radiation", 10 CFR Part 20.

The petitioner requests the Commission to amend § 20.403 Notifications of

incidents, of 10 CFR Part 20, to require that all abnormal incidents be reported immediately (within ½ hour) to the Director of the appropriate Nuclear Regulatory Commission Inspection and Enforcement Regional Office. The petitioner defines "Abnormal incident" as an incident which involves the release of radioactive products to either the air or water. The petitioner requests also that the amendment of § 20.403 require the utility involved to report immediately (within ½ hour) to the director of a designated state agency responsible for public health and safety which is within 200 miles of such incident.

The petitioner states that the basis for the requested amendment is the provision in § 20.403 which allows up to 24 hours in certain instances for reporting abnormal occurrences in nuclear power plants, and the absence of rules requiring any communications with State agencies within close geographic proximity. The petitioner states also that the petition is prompted by numerous incidents occurring in close proximity to Iowa, as well as in other sections of the country, which have not been reported promptly to State officials.

A copy of the petition for rule making is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

All persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Secretary of the Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, by March 27, 1978.

Dated at Washington, D.C. this 18th day of January 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,  
Secretary of the Commission.

#### OFFICE OF MANAGEMENT AND BUDGET

##### CLEARANCE OF REPORTS

###### List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 16, 1978 (44 U.S.C. 3509). The purpose of

publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

#### NEW FORMS

##### DEPARTMENT OF ENERGY

Distillate Fuel Oil Weekly Status Monitoring Telephone Questionnaire, EIA-47, weekly, distillate refiners and bulk terminal operators, C. Louis Kincannon, 395-3211.

Weekly Propane Status Monitoring Telephone Questionnaire, EIA-48, weekly, propane storage operators, C. Louis Kincannon, 395-3211.

Weekly Telephone Survey of Prime Suppliers, weekly, prime suppliers of distillate fuel oil and propane, C. Louis Kincannon, 395-3211.

##### DEPARTMENT OF AGRICULTURE

Extension Service, Headboat Survey, North Carolina, single-time, operators of recreational headboats, Ellett, C. A., Office of Federal Statistical Policy and Standard, 395-6132.

##### DEPARTMENT OF DEFENSE

Department of the Navy, Enlistee Financial Statement, NAVCRUIT, 1130-13, on occasions, prospective enlistees, Marsha Traynham, 395-3773.

##### DEPARTMENT OF LABOR

Employment and Training Administration, Summary of the Public's Views of the Problem of Unemployment, ETA-281, single-time, U.S. population 18 years or older, Strasser, A., Housing, Veterans and Labor Division, 395-6132.

##### REVISIONS

##### VETERANS' ADMINISTRATION

Notice of Eligibility, Application and Enrollment Certification, 22-1990V, on occasions, veterans, Lowry, R. L., 395-3772.

Application for Dependency and Indemnity Compensation by Parent(s), 21-535, on occasions, parent(s), Lowry, R. L., 395-3772.

##### DEPARTMENT OF COMMERCE

#### SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-14386; File No. SR-Amex-77-40]

##### AMERICAN STOCK EXCHANGE, INC.

###### Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 3, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission (the "SEC") a proposed rule change as follows:

###### TEXT OF THE PROPOSED RULE CHANGE

The American Stock Exchange, Inc. (the "Amex") proposed to amend paragraph (c) of Rule 5, which pertains to over-the-counter transactions in equity securities admitted to dealings on the Amex. Words to be added are italicized and words to be deleted are bracketed[ ].

Rule 5

(c) The provisions of paragraph (a) of this Rule shall not apply to any of the following transactions:

(vii) any purchase or sale of any security trading in which [has been suspended by the Exchange pending review of the listing status of such security] is currently subject to (i) a suspension by the Exchange, or (ii) a halt by the Exchange which has been in effect in excess of thirty days;

Commentary .50 to Rule 5 is proposed to be added, as follows:

Members and member organizations making markets over-the-counter in securities exempt pursuant to paragraph (c)(vii) of this Rule are subject to the requirements of Rule 15c2-11 under the Securities Exchange Act of 1934.

##### AMEX'S STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

When a security is suspended or has been subject to a halt for over 30 days, but where the SEC permits trading to continue, the interests of investors are served by permitting Exchange members to participate in over-the-counter trading of such securities.

The Amex believes that the proposed amendment will enhance competition among market makers consistent with section 6(b)(5) of the Act. Section 6(b)(5) requires, among other things, that the rules of a national securities exchange be designed to facilitate securities transactions, to remove impediments to and perfect the mechanism of a free and open market and a national market system.

The Amex states that no comments were solicited or received with respect to the proposed rule change.

In addition the Amex has determined that no burden on competition will be imposed by the proposed rule change.

On or before March 1, 1978 or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be

available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 15, 1978.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

JANUARY 17, 1978.

[FR Doc. 78-2154 Filed 1-24-78; 8:45 am]

[8010-01]

[Release No. 34-14367; File No. SR-Amex-77-36]

##### AMERICAN STOCK EXCHANGE, INC.

###### Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on December 27, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission proposed rule changes as follows:

##### AMERICAN STOCK EXCHANGE, INC. ("AMEX'S") STATEMENT OF BASIS AND PURPOSE OF THE PROPOSED RULE CHANGE

The American Stock Exchange, Inc. (the "Amex") proposes to amend certain Constitutional and rule provisions relating to record-keeping and certain other matters. The terms of substance of the proposed rule changes are summarized in the following section of this notice.

##### AMEX'S STATEMENT OF BASIS AND PURPOSE

In December 1976, the Commission informed the Exchange by letter that in its view certain Exchange rules appeared not to comply with the amended Exchange Act. Discussions were subsequently held between the Exchange and Commission staffs. The proposed rule changes outlined below are designed to bring these rules into compliance with the Act.

##### A. AMEX RECORDKEEPING RULES

The Commission indicated that a number of Amex record-keeping and reporting rules could be interpreted as being less restrictive than corresponding requirements imposed by the SEC under section 17(a) of the Exchange Act, and suggested that members

## NOTICES

might be misled into believing that the SEC requirements do not apply to them. The Exchange therefore proposes to amend the following Amex provisions to make clear that SEC requirements are applicable to Exchange members:

Article XI, Section 3—general requirement concerning the keeping of accurate books and records.  
Rules 153 and 180—preservation of records of orders.  
Rule 192—records and reports of commission income and dealer profit and loss.  
Rule 317 (Commentary .23)—books and records of corporate affiliates.  
Rule 340 (Commentary .02)—information relating to prospective employees.  
Rule 441—financial statements of certain member organizations.  
Rule 442—reporting financial condition to customers of member organizations.  
Rule 443—annual audit of sole Amex member organizations.  
Rule 447—filing of financial information with Exchange.  
Rule 448—periodic securities counts of certain member organizations.

## B. AMEX RULE 7 ("SHORT SALES")

SEC Rule 10a-1 and Amex Rule 7 both prohibit a member from executing a short sale on the Exchange on a minus or zero-minus tick. However, the Commission pointed out that the exemptions contained in Rule 7 do not completely conform to exemptions contained in Rule 10a-1 and suggested that Rule 7 be amended to achieve conformity.

The proposed amendment would provide that transactions exempted from the SEC rule are also exempt from the Amex rule and would reproduce the full text of SEC Rule 10a-1 in a commentary for the convenience of the membership.

## C. AMEX RULE 418 ("BUCKET SHOPS")

Amex Rule 418 prohibits a member, member organization or employee thereof from transacting business, or being in any way connected, with (1) any bucket shop, (2) any organization which falsely purports to offer exchange quotations, and (3) any organization which purports to handle customer orders on an agency basis, but instead deals as principal from its own inventory.

The Commission staff stated that paragraph (2) of this rule was unnecessary because the practice it was intended to prohibit no longer exists today, and, moreover, would be sufficiently protected against by the anti-fraud provisions of the Exchange Act. The Commission stated that the practice covered by paragraph (3) is also dealt with adequately by federal regulation.

In view of the Commission's comments and since conduct in violation of these provisions would, in many cases, be violative of the Amex Consti-

tutional provision prohibiting conduct inconsistent with just and equitable principles of trade, the Exchange proposes to delete both paragraphs (2) and (3) of Rule 418.

The basis under the Act for the proposed rule changes is as follows:

## A. AMEX RECORDKEEPING RULES

The amendments to the Amex recordkeeping and reporting rules, which would make clear that SEC requirements are applicable to Exchange members, would enable the Exchange to enforce compliance by its members with Section 17(a) of the Exchange Act and are consistent with Section 6(b)(1) of the Act.

## B. AMEX RULE 7 ("SHORT SALES")

The amendment to Rule 7 would facilitate the Exchange's enforcement of compliance with the Exchange Act and Rule 10a-1 thereunder and would eliminate an Exchange provision that is not related to the purposes of the Act or the administration of the Exchange. The amendment is consistent with Sections 6(b)(1) and 6(b)(7) of the Act, respectively.

## C. AMEX RULE 418 ("BUCKET SHOPS")

The proposed amendment to Rule 418 is consistent with Section 6(b)(7) of the Act in that it eliminates an Exchange provision that is not related to the purposes of the Act or the administration of the Exchange.

Amex states that no comments were solicited or received with respect to the proposed rule changes.

The Exchange has determined that no burden on competition will be imposed by the proposed rule changes.

On or before March 1, 1978 or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the princi-

pal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 15, 1978.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE FITZSIMMONS,  
Secretary.

## NOTICES

## [8010-01]

(Rel. No. 10094; 811-2227)

HARTFORD VARIABLE ANNUITY LIFE  
INSURANCE CO. SEPARATE ACCOUNT NO. 2

Notice of Filing of Application for Order Pursuant to Section 8(f) of the Act Declaring That Company Has Ceased To Be an Investment Company

JANUARY 18, 1978.

Notice is hereby given that Hartford Variable Annuity Life Insurance Co. Separate Account No. 2 ("Applicant"), Hartford Plaza, Hartford, Conn. 06115, a separate account of Hartford Variable Annuity Life Insurance Co., a Connecticut stock life insurer, which is registered as a unit investment trust under the Investment Company Act of 1940 ("Act"), filed an application on November 23, 1977, pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

Applicant registered under the Act on September 3, 1971. On November 12, 1971, Applicant filed a Registration Statement under the Securities Act of 1933 pursuant to which Applicant proposed to make a public offering of \$5,000,000 of individual variable annuity contracts. The Registration Statement was never declared effective and no public offering was ever made. On January 9, 1978, the Commission by Order consented to the withdrawal of the Registration Statement.

On November 7, 1977, the Board of Directors of Hartford Variable Annuity Life Insurance Co., Applicant's depositor, approved the immediate abandonment of the Applicant. As of that date Applicant's existence under Connecticut law was terminated.

The Applicant has always been completely inactive, has never had any assets, liabilities or shareholders. No public offering of Applicant's securities is being made presently and no such public offering is proposed for the future.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 13, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of

his interest, the reason for such request, and the issues, if any, of fact, or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following February 13, 1978, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

HARTFORD VARIABLE ANNUITY LIFE  
INSURANCE CO. SEPARATE ACCOUNT NO. 3

Filing of Application for Order Pursuant to Section 8(f) of the Act Declaring That Company Has Ceased To Be an Investment Company

JANUARY 18, 1978.

Notice is hereby given that Hartford Variable Annuity Life Insurance Co. Separate Account No. 3 ("Applicant"), Hartford Plaza, Hartford, Conn. 06115, a separate account of Hartford Variable Annuity Life Insurance Co., a Connecticut stock life insurer, which is registered as an open-end management investment company under the Investment Company Act of 1940 ("Act"), filed an application on November 23, 1977, pursuant to section 8(f) of the act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

Applicant registered under the act on April 3, 1973. No registration statement was ever filed by the Applicant under the Securities Act of 1933.

On November 7, 1977, the Board of Directors of Hartford Variable Annu-

ity Life Insurance Co., approved the immediate abandonment of the Applicant. As of that date Applicant's existence under Connecticut law was terminated.

The Applicant has always been completely inactive, has never had any assets, liabilities or contractholders. No public offering of Applicant's securities is being made presently and no such public offering is proposed for the future.

Section 8(f) of the act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 13, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0-5 of the Rules and Regulations promulgated under the act, an order disposing of the application herein will be issued as of course following February 13, 1978, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

SMALL BUSINESS ADMINISTRATION  
COLUMBIA VENTURES, INC.  
(License No. 03/02-0021)

Approval of Transfer of Control of Licensed Small Business Investment Company  
On December 18, 1977, a Notice of filing of application for transfer of

## NOTICES

control was published in the *FEDERAL REGISTER* (Vol. 42, No. 242). This Notice stated that an application had been filed with the Small Business Administration (SBA) pursuant to Section 107.701 of the Regulations governing Small Business Investment Companies (13 CFR 107.701 (1977)), for the transfer of control of Columbia Ventures, Inc. (Columbia), 1701 Pennsylvania Avenue NW., Washington, D.C. 20006.

The application stated that three individuals would each purchase 1/3 of a total of 327,242 shares of the outstanding stock of Columbia from Intermediate Credit Corp., 1701 Pennsylvania Avenue NW., Washington, D.C. 20006. The three individuals are George J. Darnelle, 502 South Post Oak Lane, Houston, Tex. 77056; Maurice T. Reed, Jr., 4042 Pinehill Drive, Jackson, Miss. 39206; and Stradco Trading Co., Ltd., P.O. Box N4743, Nassau, Bahamas.

Interested parties were invited to submit to SBA by December 27, 1977 their comments relative to the transfer of control. No comments were received.

Notice is hereby given that, after having considered the application and all other relevant information, SBA approved this application for transfer of control effective December 28, 1977.

## DEPARTMENT OF THE TREASURY

## Customs Service

OPTIC LIQUID LEVEL SENSING SYSTEMS FROM  
CANADAReceipt of Countervailing Duty Petition and  
Initiation of Investigation

AGENCY: U.S. Customs Service, Treasury Department.

ACTION: Initiation of Countervailing Duty Investigation.

SUMMARY: This notice is to advise the public that a satisfactory petition has been received and that a countervailing duty investigation has been initiated for the purpose of determining whether or not benefits are granted by the Government of Canada to manufacturers/exporters of optic liquid level sensing systems which constitute the payment of a bounty or grant within the meaning of the U.S. Countervailing Duty Law. A preliminary determination will be made no later than May 14, 1978 and a final determination no later than November 14, 1978.

EFFECTIVE DATE: January 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Vincent Kane, Operations Officer, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5492.

SUPPLEMENTARY INFORMATION: A petition was received in satisfactory form on November 14, 1977, alleging that payments or bestowals conferred by the Government of Canada upon the manufacture, production or exportation of optic liquid level sensing systems constitute the payment or bestowal of a bounty or grant within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303).

Optic liquid level sensing systems are classifiable under item 711.84 of the Tariff schedules of the United States (TSUS).

Pursuant to section 303(a)(4) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)(4)), the Secretary of the Treasury is required to issue a preliminary determination as to whether or not any bounty or grant is being paid or bestowed within the meaning of the statute within 6 months of the receipt, in satisfactory form, of a petition alleging the payment or bestowal of a bounty or grant and a final determination within 12 months of the receipt of such petition.

Therefore, a preliminary determination on this petition will be made no later than May 14, 1978 as to whether or not alleged payments or bestowals conferred by the Government of Canada upon the manufacture, production, or exportation of the above-described merchandise constitute a bounty or grant within the meaning of section 303, Tariff Act of 1930, as amended. A final determination will be issued no later than November 14, 1978.

The payments involved in this case were made under a program administered by the Canadian Government which provides funds for the research and development of new products. There is no stipulation under this program that the product under development must be export oriented. In determining whether assistance of this kind constitutes a bounty or grant, the Treasury intends to consider, among other factors, the ad valorem benefits involved as well as whether a preponderance of the production which benefits from such assistance is exported. Information regarding Canadian sales of this product is not presently available although sufficient information regarding exports of optic liquid level sensing devices to the U.S. has been received to warrant a formal investigation.

This notice is published pursuant to section 303(a)(3), Tariff Act of 1930, as amended (19 U.S.C. 1303(a)(3)).

Pursuant to Reorganization Plan No. 26 of 1950 and Treasury Department Order 190 (Revision 14), July 1, 1977, the provisions of Treasury Department Order No. 165, Revised, November 2, 1954, and § 159.47(c) of the Customs Regulations (19 CFR 159.47(c)), insofar as they pertain to the initiation of a countervailing duty investigation by the Commissioner of Customs, are hereby waived.

HENRY C. STOCKELL, Jr.,  
Acting General  
Counsel of the Treasury.

JANUARY 19, 1978.

(FR Doc. 78-2047 Filed 1-24-78; 8:45 am)

[4830-01]

## Office of the Secretary

## ISSUANCE OF NEW BOYCOTT GUIDELINES

JANUARY 20, 1978.

The Treasury Department today issued new guidelines, consisting of questions and answers, relating to the provisions of the Tax Reform Act of 1976 which deny certain tax benefits for participation in or cooperation with international boycotts.

The new guidelines supersede earlier sets of guidelines issued November 4, 1976 (Treasury news release WS-1156), December 30, 1976 (WS-1239), and August 12, 1977 (B-390), and published in the FEDERAL REGISTER on November 11, 1976, January 5, 1977, and August 17, 1977, respectively. The guidelines issued today generally are effective for operations occurring after, requests received after, and agreements made after November 3, 1976. As qualified by the following exceptions, this effective date affords a retroactive benefit to taxpayers who can claim the advantage of any rule in today's guidelines which is more favorable than previous guidelines. There are five exceptions to this general effective date:

First: Until February 13, 1978, affected persons will be entitled to the benefits of any previously published Treasury guidelines with respect to any specific issue covered in parts H through M of the guidelines.

Second: In the case of binding contracts entered into before October 25, 1977, operations that do not constitute participation in or cooperation with an international boycott under any previously published Treasury guideline will not constitute participation in or cooperation with an international boycott until July 1, 1978.

Third: In the case of binding contracts entered into before February 13, 1978, but after October 24, 1977, operations that do not constitute participation in or cooperation with an international boycott under the August 12, 1977, guidelines will not constitute participation in or cooperation with an international boycott until January 1, 1979.

Fourth: In the case of binding contracts entered into before February 13, 1978, guidelines H-1B, H-8, H-29A, H-29B, I-8, J-11, and K-5 of today's guidelines will not be effective until July 1, 1978.

Fifth: If a particular guideline in parts A through G or N through O of today's guidelines results in an increase in the reporting burden or tax liability of a person, that answer will be effective for taxable years ending after January 20, 1978.

Although the guidelines issued today differ in many respects from earlier guidelines, substantial revisions are reflected in guidelines A-3, A-10B,

## NOTICES

A-14A, A-14B, A-23, D-3, D-4, D-5, F-2, H-1B, H-2B, H-29A, H-29B, H-32, H-33, H-34, I-8, J-2A, J-2B, J-5, J-11, K-5, M-5, N-1A, N-1B, and N-2.

The principal authors of these guidelines were John C. Holberton, Russell L. Munk, and Leonard E. Santos of the Office of the Secretary of the Treasury.

DEPARTMENT OF THE TREASURY GUIDELINES  
BOYCOTT PROVISIONS (SECTION 999) OF THE  
INTERNAL REVENUE CODE

## Table of Contents

- A. Boycott reports.
- B. Definition of "operations."
- C. Definition of "reason to know" of official requirement of boycott participation.
- D. Definition of "clearly separate and identifiable operations."
- E. Effective date provisions.
- F. International boycott factor and specifically attributable taxes and income.
- G. Determinations.
- H. Definition of an agreement to participate in or cooperate with a boycott (section 999(b)(3)).
- I. Refraining from doing business with or in a boycotted country (section 999(b)(3)(A)(i)).
- J. Refraining from doing business with any U.S. person engaged in trade in a boycotted country (section 999(b)(3)(A)(ii)).
- K. Refraining from doing business with any company whose ownership or management in made up, in whole or in part, of individuals of a particular nationality, race, or religion (section 999(b)(3)(A)(iii)).
- L. Refraining from employing individuals of a particular nationality, race, or religion (section 999(b)(3)(A)(iv)).
- M. As a condition of the sale of a product, refraining from shipping or insuring that product on a carrier owned, leased, or operated by a person who does not participate in or cooperate with an international boycott (section 999(b)(3)(B)).
- N. Reduction of foreign tax credit.
- O. Subpart F income.
- In the questions and answers:
  - (a) Company A and company B are companies organized under the laws of one of the States of the United States;
  - (b) Company C, company D, and company E (and bank C and bank D), unless otherwise stated in the question, are companies organized under the laws of any country, including the United States;
  - (c) Country X is a boycotting country, which, inter alia, boycotts country Y;
  - (d) Country Y is a country boycotted by country X;
  - (e) Country Z is any country and may be the United States; a boycotting country, or a boycotted country;
  - (f) All references to "sections" are to sections of the Internal Revenue Code of 1954, as amended;
  - (g) In parts H-M in instances where the action described in the question by itself does not, according to the answer, provide sufficient evidence to support an inference that an agreement under section 999(b)(3) exists, an overall course of conduct which includes such action in addition to other factors could support such an inference; whether an agreement can be inferred from

a given course of conduct is an evidentiary question which turns on the probative value of particular facts and circumstances; the examples offered in parts H-M are illustrative, not comprehensive; and

(h) In many questions in part H-M, a person deals with either country X or the government, a company or a national of country X. The result reached in the answer to each of those questions would be the same irrespective of whether the person is an individual, a company or any other type of person, and whether the person dealt with is country X or the government, a company or a national of country X.

## BOYCOTT REPORTS

A-1. Q. Who must report as required by section 999(a)?

A. Generally, a U.S. person (within the meaning of section 7701(a)(30)) is required to report under section 999(a) if it—

1. Has operations; or
2. Is a member of a controlled group (within the meaning of section 993(a)(3)), a member of which has operations; or
3. Is a U.S. shareholder (within the meaning of section 951(b)) of a foreign corporation that has operations, but only if the U.S. shareholder owns (within the meaning of section 958(a)) stock of that foreign corporation; or
4. Is a partner in a partnership that has operations (see, however, answer A-17); or
5. Is treated under section 671 as the owner of a trust that has operations.

in or related to a boycotting country (or with the government, a company, or a national of a boycotting country). A person (within the meaning of section 7701(a)(1)) that is not a U.S. person is required to report under section 999(a) if it satisfies any one of the five conditions specified above and it either claims the benefit of the foreign tax credit under section 901 or owns stock of a DISC. For purposes of section 999(a), a foreign corporation engaged in a trade or business in the United States is not a U.S. person.

If a person controls a corporation within the meaning of section 304(c) and that person is required to report under section 999(a), then under section 999(e) that person must report whether the corporation participated in or cooperated with the boycott. If the corporation is required to report under section 999(a), then under section 999(e) the corporation must report whether the person participated in or cooperated with the boycott.

A boycotting country is—

- (i) Any country that is on the list maintained by the Secretary under section 999(a)(3), or
- (ii) Any country not on the list maintained by the Secretary under section 999(a)(3), in which the person required to file the report (or a member of the controlled group that includes that person) has operations, and which that person knows or has reason to know requires any person to participate in or cooperate with an international boycott that is not excepted by section 999(b)(4) (A), (B), or (C). Thus, even if the boycott participation required of the person reporting the operation is excepted by section 999(b)(4) (A), (B), or (C), if that person knows or has reason to know that boycott participation not excepted by section 999(b)(4) (A), (B), or (C) is required of any other person, the country is a boycotting country.

If the person required to file the report (or a member of the controlled group that includes that person) has operations related to a country, but not operations in that country, that country is not a boycotting country with respect to that person unless it is on the list maintained by the Secretary under section 999(a)(3). (For the definition of operations in or related to a country, see the questions and answers under part B.)

A-2. Q. Do the reporting requirements of section 999(a) that refer to "U.S. shareholders" of foreign corporations require U.S. minority shareholders to report the operations of such foreign corporations?

A. Yes. Under section 951(b) the term "U.S. shareholder" includes any U.S. person who owns (within the meaning of section 958(a)), or is considered as owning (by the application of the rules of ownership of section 958(b)), 10 percent or more of the total combined voting power of all classes of stock entitled to vote of such foreign corporation. The reporting requirement applies even if the U.S. shareholder is a minority shareholder and even if the foreign corporation is not a controlled foreign corporation within the meaning of section 957(a). However, as stated in answer A-1, the reporting requirement applies only to minority shareholders that actually own some stock within the meaning of section 958(a).

A-3. Q. If one member of a controlled group of corporations (within the meaning of section 993(a)(3)) files a report under section 999(a) with respect to the reportable operations of all members of that group, is this sufficient to discharge the reporting obligation of all members of the group?

A. Generally, every member of a controlled group of corporations (within the meaning of section 993(a)(3)) is required to report under section 999(a) if any member of the controlled group has operations in or related to a boycotting country. There are, however, two exceptions to this rule. First: A common parent (as defined in the regulations under section 1504) may file the report under section 999(a) on behalf of all the members of a controlled group that join with the common parent in the filing of a consolidated income tax return, and thereby discharge the obligation of each such member to file the report. Second: The requirement that each member of the controlled group file a report under section 999(a) is waived for each such member who, for its own taxable year:

1. Had no operations (other than those that meet the requirements of Answer A-20) in or related to a boycotting country (or with the government, a company, or a national of a boycotting country) and owned no stock, directly or indirectly, of any corporation having such operations; and
2. Received no request to participate in or cooperate with an international boycott and owned no stock, directly or indirectly, of any corporation receiving such a request; and
3. Is not entitled to (or forfeits) any benefits of deferral, DISC, or the foreign tax credit; and
4. Attaches to its income tax return a certificate signed by a person authorized to sign the tax return of the common parent certifying that the common parent filed a form 5713 on behalf of such member.

A-4. Q. If one U.S. shareholder of a foreign corporation files a report under section 999(a) in respect of the reportable operations of the foreign corporation, is this sufficient to discharge the reporting obligation of all U.S. shareholders of the foreign corporation in respect of that corporation's operations?

A. No. Each U.S. shareholder of a foreign corporation must file the section 999(a) report in respect of the activities of that corporation. However, if two or more U.S. shareholders of a foreign corporation are included in the same consolidated return, only one report need be filed with respect to all U.S. shareholders included in the return.

A-5. Q. How will the reporting requirements under section 999(a) be satisfied?

A. A taxpayer required to file an international boycott report under section 999(a) will fulfill this requirement by filing IRS Form 5713, "International Boycott Report," and all applicable supporting schedules and forms contained in the taxpayer's income tax returns that indicate the amounts and computations of benefits denied under sections 908(a), 952(a)(3), and 995(b)(1)(F) of the Internal Revenue Code.

A-6. Q. What degree of confidentiality will the international boycott reports submitted by taxpayers receive?

A. The reports by taxpayers will be submitted as part of the income tax return and, therefore, will be accorded the same degree of confidential treatment under section 6103 as any other information contained in an income tax return.

A-7. Q. Where and how should the Form 5713 be filed?

A. The Form 5713 should be filed in duplicate by all reporting taxpayers. One copy of Form 5713 should be sent to the Internal Revenue Service, 11601 Roosevelt Blvd., Philadelphia, Pa. 19155, and the other copy of Form 5713 should be attached to the taxpayer's income tax return that is filed with the taxpayer's customary Internal Revenue Service Center.

A-8. Q. Do individuals as well as corporations use Form 5713?

A. Yes. All taxpayers required to file a report under section 999(a) use IRS Form 5713. However, some parts of the form apply to corporations only; individual taxpayers can ignore these parts and complete only the parts relevant to individuals.

A-9. Q. Section 999(b)(4) permits a person to agree to comply with certain laws without being treated as having agreed to participate in or cooperate with an international boycott. In the course of its operations in or related to a boycotting country, a person agrees to comply with a prohibition on importation and exportation that is described in section 999(b)(4)(B) and section 999(b)(4)(C). Is that person required to report the operations on Form 5713?

A. Yes, although agreements described in section 999(b)(4) (B) and (C) do not constitute participation in or cooperation with an international boycott, the operations in or related to a boycotting country must be reported on Form 5713.

A-10A. Q. Section 999(b)(4)(A) permits a person to meet requirements imposed by a foreign country with respect to an international boycott if U.S. law or regulations, or an Executive order, sanctions participation in or cooperation with that international boycott. If a person's operations fall within this exception, is the person required to report such operations?

A. No. The reporting requirements with respect to operations under such international boycotts are waived.

A-10B. Q. Certain types of conduct that would otherwise be covered under section 999 of the Internal Revenue Code are not covered by, or are excepted from the penalties of, the Export Administration Amendments of 1977. Are those types of conduct permitted under section 999(b)(4)(A) of the Internal Revenue Code and thereby exempt from the coverage of section 999?

A. No. Both the reporting requirements of section 999 and the sanctions of sections 908(a), 952(a)(3), and 995(b)(1)(F) apply to those types of conduct. The exception of section 999(b)(4)(A) applies to an international boycott such as the embargo against Rhodesia in which the United States participates or with which the United States cooperates pursuant to U.S. law or regulations or to an Executive order.

A-11. Q. Company C sells goods or services outside a boycotting country to a person that is not a boycotting country, or the government, a company, or a national of a boycotting country. Company C knows or has reason to know that person in turn will either use the goods or services in a boycotting country, or will sell the goods or services for use in a boycotting country. Is company C required to report its sale of goods or services to that person?

A. Although the sale of the goods or services by company C constitutes an operation of company C related to a boycotting country (see answer B-1), the requirement that company C report the sale is waived, provided that in connection with the operation company C does not receive a request to participate in or cooperate with an international boycott (within the meaning of section 999(b)(3)), company C does not participate in or cooperate with an international boycott, and facilitation of participation in or cooperation with an international boycott was not one of the principal purposes for company C's entering into either the relationship or the transaction between company C and the other person. If facilitation of boycott participation or cooperation is a principal purpose of the relationship or the transaction, then company C's failure to report the sale of the goods or services to the other person is a willful failure to report within the meaning of section 999(f). The result in this answer would be the same were company C an individual or any other type of person, or if company C did other business with the other person outside a boycotting country.

A-12. Q. Company A is a U.S. shareholder (within the meaning of section 951(b)) of company C, a foreign corporation that is not a member of a controlled group that includes company A. Company A has a taxable year ending January 31, and company C has a taxable year ending June 30. Both companies have operations in country X, which is on the list maintained pursuant to section 999(a)(3). Who should file Form 5713 and for what period?

A. As indicated in answer A-1, company C need not file Form 5713 unless it claims the benefit of the foreign tax credit under section 901 or owns stock of a DISC. Company A must file Form 5713 for its taxable year ending January 31, and must report operations of company C during company C's taxable year ending within the period covered by company A's report.

A-13. Q. In the case of a Form 5713 filed by a member of a controlled group, what period of time should be reflected in the report, and when should the report be filed?

A. Each person described in Answer A-1 ("reporting person") is required to report all reportable operations, requests and participation or cooperation of each member of

the controlled group for each member's taxable year that ends with or within the common taxable year of the controlled group that ends with or within the taxable year of the reporting person.

In addition, each reporting person is required to report all reportable operations, requests and participation or cooperation of each foreign corporation having a United States shareholder that is a member of the controlled group. Such operations, requests and participation or cooperation of a foreign corporation are reported for the foreign corporation's taxable year that ends with or within the taxable year of the United States shareholder that ends with or within the common taxable year of the controlled group that ends with or within the taxable year of the reporting person.

In general, the common taxable year of the controlled group is the taxable year of the common parent of the controlled group. However, the members of the controlled group may elect the taxable year of one of the members of the controlled group to serve as the common taxable year of the controlled group. In the event that no common parent exists and that no common taxable year election has been made, the common taxable year of the controlled group will be the taxable year of the member of the controlled group whose taxable year ends latest in the calendar year.

In general, if a common taxable year election is made, it must be consented to in writing by each member of the controlled group. A common parent may, however, consent to the common taxable year election on behalf of all members of the controlled group that join with the common parent in the filing of a consolidated income tax return. In addition, foreign corporations that are members of the controlled group need not sign the consent if they are not required to report under Answer A-1. (However, if a foreign corporation is required to report in a year subsequent to the year in which a common taxable year election is made by the domestic members of the controlled group, it will be bound by the common taxable year election previously made by the group.) The consents must be attached to each member's Form 5713 filed during the first taxable year of such member to which the common taxable year election applies. The common taxable year election is a binding election and is made only once. Approval of the Secretary of the Treasury or his delegate is required for any changes in the common taxable year.

Each reporting person will use its normal taxable year for making adjustments required under sections 908(a), 952(a)(3) and 995(b)(1)(F), and for all purposes other than reporting and computing the international boycott factor. For example, if the reporting person uses the international boycott factor, the international boycott factor will be applied to the reporting person's normal taxable year for determining the reporting person's adjustments under sections 908(a), 952(a)(3) and 995(b)(1)(F).

More details concerning the time period covered in the international boycott report are contained in the instructions to Form 5713. Details concerning the time period covered in the international boycott factor are contained in the instructions to Form 5713 and in Temp. Regs. § 1.999-1 and Proposed Regs. § 1.999-1.

As stated in Answer A-7, the reporting person's Form 5713 is filed at the time the reporting person files its income tax return.

**A-14A. Q.** Company A is a U.S. corporation and is required to report under section 999(a). Company A is also a subsidiary or a sister of a foreign corporation that is not required to report under section 999(a). Is Company A required to report the operations, requests and participation or cooperation of the foreign parent or sister corporation?

**A.** Generally, under section 999(a) and Answer A-1, a person required to report must report the operations, requests and participation or cooperation of all members of the controlled group of which it is a member. However, if the foreign parent or sister corporation is not otherwise required to report, the requirement that Company A report the operations, requests and participation or cooperation of the foreign parent or sister corporation will be waived if Company A—

1. Is not entitled to any benefits of deferral, DISC, or the foreign tax credit; or

2. Applies the international boycott factor, and forfeits all the benefits of deferral, DISC and the foreign tax credit to which it is entitled (i.e., applies an international boycott factor of one under sections 908(a), 952(a)(3), and 995(b)(1)(F)); or

3. Identifies specifically attributable taxes and income, and forfeits all the benefits of deferral, DISC, and the foreign tax credit attributable to: (a) operations related to boycotting countries in connection with which there was participation in or cooperation with an international boycott; or (b) operations in boycotting countries which have not been clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was participation in or cooperation with an international boycott.

Although the requirement that Company A report operations, requests and the participation or cooperation of its foreign parent or sister corporations may be waived, Company A must report all operations, requests and participation or cooperation—

(i) Of itself, and

(ii) Of all United States members of each controlled group of which Company A is a member, and

(iii) Of all foreign corporations of which Company A is a United States shareholder within the meaning of section 951(b), but only if Company A owns (within the meaning of section 958(a)) stock of the foreign corporation.

If Company A is required to report on behalf of a foreign corporation under (iii) above, it must report all operations, requests and participation or cooperation of the foreign corporation, even if conducted or received by the foreign corporation in connection with operations that are not effectively connected with a United States trade or business.

**A-14B. Q.** Company C, a foreign corporation engaged in operations in the United States through U.S. Branch A, is required to report under section 999(a). Company C may also have a parent, subsidiaries or sister corporations that are not United States persons. Is Company C required to report either the operations, requests and participation or cooperation of its non-U.S. parent, subsidiaries or sister corporations or its own operations, requests and participation or cooperation that do not relate to Branch A?

**A.** Generally, under section 999(a) and Answer A-1, a person required to report must report the operations, requests and

participation or cooperation of all members of the controlled group of which it is a member. However, the requirement that Company C report the operations, requests and participation or cooperation of its non-U.S. parent, subsidiaries or sister corporations and its own operations, requests and participation or cooperation that do not relate to Branch A will be waived if Company C—

1. Is not entitled to any benefits of deferral, DISC, or the foreign tax credit; or

2. Applies the international boycott factor, and forfeits all the benefits of deferral, DISC and the foreign tax credit to which it is entitled (i.e., applies an international boycott factor of one under sections 908(a), 952(a)(3), and 995(b)(1)(F)); or

3. Identifies specifically attributable taxes and income, and forfeits all the benefits of deferral, DISC, and the foreign tax credit attributable to: (a) operations related to boycotting countries in connection with which there was participation in or cooperation with an international boycott; or (b) operations in boycotting countries which have not been clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was participation in or cooperation with an international boycott.

Although there may be a waiver of the requirement that Company C report the operations, requests and participation or cooperation of its non-U.S. parent, subsidiaries, or sister corporations and of itself to the extent that the operations, requests and participation or cooperation do not relate to Branch A, Company C must report all operations, requests and participation or cooperation—

(i) Of Branch A, and

(ii) Of all United States members of each controlled group of which Company C is a member.

Company C is, moreover, required to report all the operations, requests and participation or cooperation of Branch A, even if conducted or received by Branch A in connection with operations that are not effectively connected with a United States trade or business. In addition, if Company C or any member of a controlled group of corporations that includes Company C engages in operations in the United States directly (i.e., not through Branch A), and those operations are also operations in or related to a boycotting country, then those operations, as well as all requests and participation or cooperation relating to those operations, must be reported by Company C.

**A-15. Q.** Company C receives an unsolicited invitation to tender for a contract for the construction of an industrial plant in Country X. The tender documents contain a provision stating that the person inviting the tender will not enter into the contract unless the successful tenderer makes an agreement described in section 999(b)(3). Company C does not respond to the unsolicited invitation. Is Company C required to report the invitation under section 999(a)(2) as a request to participate in or cooperate with an international boycott?

**A.** No. The section 999(a)(2) reporting requirement will be waived provided that Company C neither solicited the invitation to tender nor responded to the invitation. This answer would be the same were Company C an individual or any other type of person.

**A-16. Q.** Before May 13, 1977, Company C received requests to comply with interna-

tional boycotts. Company C preserved the requests that were evidenced in writing and preserved the notations it made concerning the details of oral requests. When Form 5713 was issued on May 13, 1977, it required more details concerning the requests made of Company C than were preserved, and many of those details can no longer be ascertained. Will Company C's report under section 999(a)(2) be deemed deficient?

**A.** On October 4, 1976, Company C was put on notice that it would be required to document boycott requests received after November 3, 1976. Form 5713 does not require any details that would not have been preserved by a prudent person having such notice. In addition, under Answer A-15, the reporting requirements of section 999(a)(2) have been waived for certain unsolicited boycott requests. If Company C does not supply the required information with respect to the remaining requests that were either solicited or responded to, its report will be deficient. This answer would be the same were Company C an individual or any other type of person.

**A-17. Q.** A United States partnership consisting of 100 United States partners has operations in or related to a boycotting country, or with the government, a company, or a national of a boycotting country. Is each partner required to file Form 5713?

**A.** Generally, if a partnership has operations in or related to a boycotting country, or with the government, a company, or a national of a boycotting country, each partner is required to file Form 5713. However, if the partnership files Form 5713 with its information return and has no operations for the taxable year that constitute participation in or cooperation with an international boycott, then the requirement that each partner file Form 5713 will be waived for each partner that has no operations in or related to a boycotting country, or with the government, a company, or a national of a boycotting country other than operations that are reported on the Form 5713 filed by the partnership.

**A-18. Q.** A United States shareholder (within the meaning of section 951(a)) owns stock of Company C, a foreign corporation that has operations in Country X, but the United States shareholder does not have effective control over Company C. The United States shareholder is required to report under section 999(a). The United States shareholder requests information from Company C in order to meet its reporting obligations under section 999(a). Company C refuses to provide (or is prevented by local law, regulation, or practice from providing) that information. Will the United States shareholder be subject to the section 999(f) penalties for willful failure to report the activities of Company C?

**A.** The United States shareholder must report on the basis of that information that is reasonably available to it. For example, in most cases it will be aware that Company C has operations in or related to Country X, even though it is not aware of the operational details. The United States shareholder must report on Form 5713 that Company C has operations in or related to Country X. The United States shareholder should also describe in a statement attached to Form 5713 the good faith efforts that it has made to obtain all the information required under section 999(a). Although each case must be resolved on the basis of the particular facts and circumstances, the United States shareholder will not be sub-

ject to the section 999(f) penalties for willful failure to provide the information relating to Company C if it can demonstrate that it made good faith efforts to obtain the information but was denied the information by Company C.

**A-19. Q.** The facts are the same as in Question A-18 except that the United States shareholder owns less than 50 percent of the stock of Company C and Company C is not a controlled foreign corporation. What are the tax sanctions to which the United States shareholder will be subject?

**A.** Since Company C is neither a controlled foreign corporation nor a DISC, the sanctions of section 952(a)(3) and 995(b)(1)(F) are not relevant. However, the United States shareholder will be subject to the sanctions of section 908(a). Thus, if the United States shareholder applies an international boycott factor, that factor is applied to its foreign tax credits in accordance with Answers F-5, N-1A and N-2. If the United States shareholder identifies specifically attributable taxes and income under section 999(c)(2), it will lose its section 902 indirect foreign tax credit for those taxes paid by Company C that the United States shareholder cannot demonstrate are attributable to Company C's operations that are:

(a) Not in or related to a boycotting country;

(b) Related to a boycotting country and in connection with which there was no participation in or cooperation with an international boycott; or

(c) In a boycotting country and have been clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was participation in or cooperation with an international boycott.

(To determine whether Company A will lose its section 901 direct foreign tax credit for income tax withheld by Country X on dividends paid by Company C to Company A, see Answer N-3.)

**A-20. Q.** Individual G is a national of Country X, which is on the list maintained by the Secretary. G engages in an operation with Company C. For example, if Company C were a bank, the operation might involve a deposit by G, or if Company C were an automobile dealer, the operation might involve the purchase of a car, or if Company C were a stockbroker, the operation might involve the purchase or sale of a security, or if Company C were a hotel, the operation might involve the letting of a room. Irrespective of the specific nature of the operation, the agreement under which the operation is consummated is the same agreement that Company C requires of all other customers. Company C is aware of G's nationality, but participation in or cooperation with an international boycott is neither contemplated nor required as a condition of G's willingness to enter into the operation with Company C. Under section 999(a), what are the reporting obligations of Company C with respect to these operations?

**A.** In many business operations, there will be incidental contacts between the nationals or business enterprises of boycotting countries and persons from other countries. Company C's obligation to report these incidental contacts under section 999(a) will be waived provided that the contacts satisfy the following criteria:

1. All aspects of the operation contemplated by the parties are carried on outside a boycotting country; and

2. No request for an agreement described in section 999(b)(3) is made or received by any party to the operation; and

3. There is no such agreement in connection with the operation; and

4. a. The operation does not involve the importation of property, funds or services from or produced in a boycotting country and Company C does not know or have reason to know that the property, funds or services involved in the operation will be used, consumed or disposed of in a boycotting country; or

b. The value of the property, funds or services involved in the operation does not exceed \$5,000.

The answer to the question would be the same if Company C were an individual or any other type of person and if G were a corporation or any other type of person.

**A-21. Q.** Individual G, a U.S. citizen, owns 15 percent of the stock of Company A. Company A has operations in Country X. Is Individual G required to report the operations of Company A?

**A.** An individual generally is not required to report the operations of a domestic corporation of which the individual is a shareholder. However, if Individual G controls (within the meaning of section 304(c)) Company A and if Individual G is required to report under section 999(a), then under section 999(e) Individual G must report whether Company A participated in or cooperated with an international boycott.

**A-22. Q.** Companies C, D, and E are all U.S. or foreign corporations reporting on a calendar year basis. Companies C, D, and E each had operations in Country X during the calendar year and were each required to file Form 5713. From January 1 to June 1, Company C owned more than 50 percent of the stock of Company D. On June 1, Company E acquired more than 50 percent of the stock of Company D. What operations must be reflected in the Forms 5713 filed by Companies C, D, and E for the calendar year?

**A.** The Form 5713 filed by Company C must reflect the operations of Company C for the entire calendar year and the operations of Company D for the period January 1-May 31. The Form 5713 filed by Company E must reflect the operations of Company E for the entire calendar year and the operations of Company D for the period June 1-December 31. The Form 5713 filed by Company D must reflect the operations of Company D for the entire calendar year, the operations of Company C for the period January 1-May 31 and the operations of Company E for the period June 1-December 31. If the sale of stock had occurred during the first 30 days of the calendar year, the requirement that Company C report the operations of Company D and that Company D report the operations of Company C for the period of 30 days or less would be waived unless under Reg. § 1.1502-76(b)(5) Company D is included in the consolidated return filed by Company C for that period. The requirement that Company D report the operations of Company E, and that Company E report the operations of Company D for the period of 30 days or less would also be waived unless under Reg. § 1.1502-76(b)(5) Company D is included in the consolidated return filed by Company E for that period. Similarly, if the sale of stock had occurred during the last 30 days of the calendar year, the requirement that Company C report the operations of Company D and that Company D report the operations of Company C for the period of 30

days or less would be waived unless under Reg. § 1.1502-76(b)(5) Company D is included in the consolidated return filed by Company C for that period, and the requirement that Company D report the operations of Company E and that Company E report the operations of Company D for the period of 30 days or less would be waived unless under Reg. § 1.1502-76(b)(5) Company D is included in the consolidated return filed by Company E for that period.

A-23. Q. In 1977, Company A owns more than 10 percent and up to 50 percent of the stock of Company C, a foreign corporation that has operations in Country X that constitute participation in or cooperation with an international boycott. Company C is not a controlled foreign corporation. Company A reports on a calendar year basis and computes its loss of tax benefits using the section 999(c)(2) specific attribution of taxes and income method. Company C pays no dividend in 1977, but pays a dividend in 1978 attributable to its 1977 earnings.

In 1978 neither Company A nor Company C has operations in any boycotting country. Company A claims a foreign tax credit under section 902 in 1978 in respect of the taxes paid by Company C. For which year, 1977 or 1978, must Company A report the operations of Company C, and for which year is the sanction of section 908(a) applicable?

A. Company C's operations are reported by Company A in 1977. The sanction of section 908(a) is applicable to Company A's foreign tax credits in 1978. Accordingly, in 1978 Company A will lose that portion of the section 902 foreign tax credits specifically attributable to Company C's 1977 boycott operations. In this case, even though in 1978 Company A and Company C have no operations that are required to be reported by Company A on Form 5713, Company A must nevertheless file Form 5713 in 1978 (which will show no reportable operations) and complete Schedules B and C to Form 5713, on which Company A will show the loss of the section 902 foreign tax credits attributable to Company C's boycott operations for 1977.

Had Company C been a controlled foreign corporation, section 952(a)(3) would have applied to require Company A to take into income in 1977 its pro rata share of Company C's income attributable to boycotting operations. In addition, under section 908(a), Company A would lose in 1977 the section 902 foreign tax credits accompanying Company C's income included in Company A's income under section 952(a)(3).

#### B. DEFINITION OF "OPERATIONS"

B-1. Q. Under what circumstances does a person have operations in, or related to, a boycotting country (or with the government, a company, or a national of that country)?

A. A person has operations in, or related to, a boycotting country (or with the government, a company, or a national of that country) if the operation in which it engages:

1. Is carried on in whole or part in a boycotting country ("in a boycotting country");
2. Is carried on outside a boycotting country either for or with the government, a company, or a national of a boycotting country ("with the government, a company, or a national of a boycotting country"); or
3. Is carried on outside a boycotting country for the government, a company, or a national of a non-boycotting country if the

person having the operation knows or has reason to know that the specific goods, services or funds produced by the operation are intended for use in a boycotting country, for use by or the benefit of the government, a company, or a national of a boycotting country, or use in forwarding or transporting to a boycotting country ("related to a boycotting country").

For purposes of applying the presumption of section 999(b)(1) and the sanctions of sections 908(a), 952(a)(3), and 995(b)(1)(F), and for purposes of computing the international boycott factor, operations "with the government, a company, or a national of a boycotting country" that are carried out in whole or in part in a boycotting country are deemed to be operations "in a boycotting country", and operations with such governments, companies and nationals that are not carried out in whole or in part in a boycotting country are deemed to be operations "related to a boycotting country."

The term "operation" encompasses all forms of business or commercial activities and transactions (or parts of transactions), whether or not productive of income, including, but not limited to, selling; purchasing; leasing; licensing; banking; financing and similar activities; extracting; processing; manufacturing; producing; constructing; transporting; performing activities ancillary to the foregoing (e.g., contract negotiating, advertising, site selecting, etc.); and performing services, whether or not ancillary to the foregoing.

Operations described in principles 2 and 3 above are illustrated in the following two examples:

(a) Company C engages in a joint venture manufacturing operation in a non-boycotting country with Company D, a company incorporated under the laws of Country X. Alternatively, Company C sells goods or services to Company D in a non-boycotting country. In both cases, Company C has operations "with" a company of a boycotting country.

(b) D, a national of a non-boycotting country, has a contract to construct a dam in Country X. D subcontracts to Company C for the manufacture of a generator for the dam. The contract between D and Company C and the generator specifications indicate that the generator is for use in Country X. The contract specifies delivery of the generator to D f.o.b. New York. Company C has operations "related to" a boycotting country.

B-2. Q. Individual G is a U.S. citizen living in Country X. G is retired. G receives social security payments and a pension, but has no business activities. Does G have "operations" in, or related to, Country X?

A. No. G is not engaged in any business or commercial activities.

B-3. Q. Individual H is a U.S. citizen living in Country X and working there as an employee. H earns a salary and has passive investment income, but has no business income. Does H have "operations" in, or related to, Country X?

A. No. The performance of personal services as an employee does not constitute an "operation."

#### C. DEFINITION OF "REASON TO KNOW" REQUIREMENT OF BOYCOTT PARTICIPATION

C-1. Q. Under what circumstances, in the absence of a Treasury listing of a country under section 999(a)(3), will it be deemed under section 999(a)(1)(B) that a person knows or has reason to know that partici-

pation in or cooperation with an international boycott is required as a condition of doing business within such country or with the government, a company, or a national of such country?

A. A person will be deemed to know or have reason to know that a country requires participation in or cooperation with an international boycott as a condition of doing business within a country or with the government, a company, or a national of a country, if that person receives what could be interpreted as an official request of that country to participate in or cooperate with an international boycott or if that person knows that others have received such requests. Whether a request could be interpreted as an official request of a country depends on an analysis of the facts and circumstances surrounding the request. However, the request need not be made directly by a government official or representative in order to be interpreted as an official request. For example, assume that Company C has a contract with the government of a boycotting country to build a dam in that country and is required under the contract to require its subcontractors to agree to participate in or cooperate with the boycott. Assume further that Company C requires Subcontractor D to make such an agreement as a condition of receiving the subcontract to build a generator for the dam. Subcontractor D will be deemed to have reason to know that participation in or cooperation with an international boycott is a condition of doing business within the boycotting country or with the government, a company, or a national of such country.

D. DEFINITION OF "CLEARLY SEPARATE AND IDENTIFIABLE OPERATIONS"

D-1. Q. If a person or a member of a controlled group (within the meaning of section 993(a)(3)) enters into an agreement that constitutes participation in or cooperation with an international boycott (within the meaning of section 999(b)(3)), what operations of that person or group will be considered to be operations in connection with which such participation or cooperation occurred?

A. All operations of that person or any member of that group in—

- (a) The country in connection with which the agreement is made; and
- (b) Any other country that requires participation in or cooperation with the boycott with respect to which the agreement is made

will be presumed to be operations in connection with which there was participation in or cooperation with an international boycott. (See, however, Answer D-4 for an exception to the presumption in the case of agreements that are unintentional and unauthorized and that relate to a minor aspect of an operation.)

This presumption may be rebutted, however, if the person (or, if applicable, the U.S. shareholder of a foreign corporation) or member of the group clearly demonstrates that a particular operation is a clearly separate and identifiable operation from the operation in connection with which the agreement was made, and that no agreement constituting participation in or cooperation with an international boycott applied to, or was made in connection with, such separate and identifiable operation.

The presumption of participation in or cooperation with the boycott will not apply

with respect to operations outside the countries described in (a) and (b) above, but such operations will be considered to be operations in connection with which there was participation in or cooperation with an international boycott if so warranted by the facts.

D-2. Q. Who has the burden of proof of clearly demonstrating that a particular operation is a "clearly separate and identifiable operation" and that there was no participation in or cooperation with an international boycott in connection with that operation?

A. If a person or a member of a controlled group has participated in or cooperated with an international boycott in connection with one or more of its operations, that person (or, if applicable, the U.S. shareholder of a foreign corporation) or that group bears the burden of proof of clearly demonstrating that any other operation is clearly separate and identifiable from the operation in connection with which such participation or cooperation occurred and that no such participation or cooperation occurred in connection with the separate and identifiable operation.

D-3. Q. How can a taxpayer determine what constitutes a "clearly separate and identifiable operation"?

A. The determination whether an operation constitutes a clearly separate and identifiable operation must be based on an examination of all the facts and circumstances. The following factors are among those that may be considered in determining whether an operation is clearly separate and identifiable from an operation in connection with which participation in or cooperation with an international boycott occurred:

1. Were the two operations conducted by different corporations, partnerships, or other business entities?
2. Were the operations, whether conducted by separate entities or not, supervised by different management personnel?
3. Did the operations involve distinctly different products or services?
4. Were the operations undertaken pursuant to separate and distinct contracts?
5. If business operations in the countries conducting the international boycott in question were not continuous over time, was each transaction separately negotiated and performed?

The factors listed above are not intended to represent all the factors that will be considered in determining whether an operation is a clearly separate and identifiable operation. Additional factors will be considered if so warranted by the facts. No relative weight is assigned to any specific factor; instead, the weight to be given to any factor will depend on the facts and circumstances of each individual case. In addition, a positive answer to all the listed factors will not necessarily result in a determination that an operation is a clearly separate and identifiable operation if a contrary conclusion is warranted by the facts.

The application of the five factors is illustrated by the following examples:

(a) Company C contracts to build several major buildings in Country X. Company C has never engaged in any business in Country X prior to such contract. Nine months later Company C enters into a second contract to build a large dock facility in Country X. Construction of the dock facility will constitute an operation separate and identifiable from construction of the buildings.

(b) Company C contracts, as general contractor, to build a pipeline in Country X. In connection with the construction of the pipeline, Company C must retain engineering consultants. Company D, a member of the same controlled group of which Company C is a member, is engaged in the business of providing engineering consulting services to both related and unrelated parties. Company C is not headquartered in the same city as Company D, and does not share any management personnel with Company D. Company C retains Company D to provide such services with respect to the pipeline construction. The engineering consulting services provided by Company D will constitute operations separate and identifiable from the construction of the pipeline by Company C.

(c) Company C markets electronic computers and medical diagnostic equipment in Country X and Country Z. The two product lines, computers and medical equipment, are handled by representatives of two separate divisions which are located in different offices. The managers of each division report to different superiors in the United States. The activities of Company C with respect to sales of computers will constitute operations separate and identifiable from Company C's activities in connection with the sales of medical equipment.

(d) Company C imports and sells motor vehicles in Country X. Company C maintains a national office and import depot at a major port in Country X and has five sales offices located in various cities in Country X. The managers of the sales offices are authorized to handle local matters relating to maintaining the offices and are subject to the close supervision and inspection of national office personnel. For internal accounting purposes, Company C treats each sales office as a profit center, charging each office for its inventory and a proportional share of corporate overhead. The marketing activities of the various sales offices do not constitute operations separate and identifiable from each other, nor do the marketing activities of Company C as a whole constitute operations separate and identifiable from the import and distribution activities of Company C.

(e) Company C markets appliances, such as refrigerators, washers and dryers, and home entertainment equipment, such as televisions and tape recorders, in Country X. The appliances are manufactured in Country X by Company D, a company wholly-owned by Company C, and the home entertainment equipment is manufactured in Country X by Company E, also wholly-owned by Company C. Company C purchases the production of Company D and Company E for resale to independent retailers who generally handle both lines of products. Company C's resales to the various independent retailers are made pursuant to separate and distinct contracts, each of which is separately negotiated. The boards of directors of Companies C, D, and E are composed of the same individuals and the same individual serves as president of each company. The products of Companies D and E are manufactured in the same plant, and the executive offices of Companies C, D, and E are all located in a building adjacent to that plant. Company C's various resale operations are not separate and identifiable from one another, and the respective operations of Companies C, D, and E do not constitute operations that are clearly separate and identifiable from each other.

(f) Bank C provides international banking and financing services throughout the world through its home office and foreign branches and subsidiaries. The services include wholesale lending, retail lending, deposit gathering and letter of credit services. The letter of credit services involve the opening, confirming and advising of letters of credit and the negotiation, payment and acceptance of drafts by beneficiaries under letters of credit. The letter of credit services are performed by specialized bank personnel that are organized into separate sections in the respective offices of Bank C and of its subsidiaries. These letter of credit services are supervised by management personnel different from the personnel responsible for the other banking and financing services provided by Bank C. The letter of credit services of Bank C, conducted through the respective offices of Bank C and of its subsidiaries, constitute operations that are separate and identifiable from the other international banking and financing services provided by Bank C and its subsidiaries.

D-4. Q. Company C has operations in or related to Country X. In connection with a minor aspect of those operations, an employee of Company C enters into an unintentional and unauthorized boycott agreement. For example, a clerk of Company C signs an invoice for office supplies. On the reverse side of the invoice, a boycott clause is printed in fine print or in a foreign language. Will that agreement give rise to the presumption that all the operations of C

company C in boycotting countries are operations in connection with which there is participation in or cooperation with an international boycott? Will that agreement trigger the application of the sanctions of 908(a), 952(a)(3), or 995(b)(1)(F)?

A. An agreement to participate in or cooperate with an international boycott made in connection with a minor aspect of Company C's operations will not taint the operations of Company C in boycotting countries and will not trigger the application of the sanctions of sections 908(a), 952(a)(3), or 995(b)(1)(F) if the agreement was unintentional. Company C has not authorized the employee to agree to participate in or cooperate with the international boycott and Company C does not comply with the terms of the unauthorized boycott clause.

D-5. Q. The facts are the same as in example (c) of Answer D-3 with the following additional facts:

Company C's computer sales, each made pursuant to a separately negotiated contract, are as follows:

(a) Sales in Country X with boycott agreements.....	10
(b) Sales in Country X without boycott agreements.....	15
(c) Sales in Country Z related to Country X with boycott agreements.....	20
(d) Sales in Country Z related to Country X without boycott agreements.....	25
(e) Sales in Country Z not related to Country X.....	30

(f) Total sales of computers..... 100

Company C's medical equipment sales, each made pursuant to a separately negotiated contract, are as follows:

(g) Sales in Country X with boycott agreements.....	0
(h) Sales in Country X without boycott agreements.....	35
(i) Sales in Country Z related to Country X with boycott agreements.....	0

(j) Sales in Country Z related to Country X without boycott agreements.....	40
(k) Sales in Country Z not related to Country X.....	45
(l) Total sales of computers.....	120

To which sales does the section 999(b)(1) presumption apply, and to which sales do the sanctions of section 908(a), 952(a)(3), and 995(b)(1)(F) apply?

A. Since Company C has participated in an international boycott in connection with at least one sale, the presumption of section 999(b)(1) applies to Company C's 60 sales in Country X (a+b+g+h). The presumption does not apply to the 85 sales related to Country X (c+d+i+j) or to the 75 sales that are not in or related to Country X (e+k). The sanctions of 908(a), 952(a)(3), and 995(b)(1)(F) apply to Company C's 20 sales related to Country X that involve boycott participation or cooperation (c+i) and also to Company C's 25 computer sales in Country X that Company C has not clearly demonstrated are clearly separate and identifiable from sales in connection with which there was participation in or cooperation with an international boycott (a+b). Had Company C not been able to clearly demonstrate that the 35 sales of medical equipment in Country X (g+h) were clearly separate and identifiable from the tainted sales of computers in Country X (a+b), then the sanctions of 908(a), 952(a)(3), and 995(b)(1)(F) would also have applied to those 35 sales.

#### E. EFFECTIVE DATE PROVISIONS

E-1. Q. What are the effective dates of the reporting requirements and sanctions of the international boycott provisions?

A. Generally, the reporting requirements and the sanctions of the international boycott provisions apply to agreements to participate in or cooperate with an international boycott made after November 3, 1976, and to agreements made on or before November 3, 1976, that continue in effect thereafter. However, there are two exceptions to this general rule. First, the reporting requirements of section 999(a) apply to all operations referred to in section 999(a)(1) or (2) after November 3, 1976, whether or not there has been an agreement to participate in or cooperate with an international boycott, and whether or not the operations are carried out in accordance with the terms of a binding contract entered into before September 2, 1976. All operations on or before November 3, 1976, are reportable if there has been participation in or cooperation with the boycott during the taxable year after November 3, 1976, in connection with any operation (see Answer E-2). Second, in the case of an operation carried out in accordance with the terms of a binding contract entered into before September 2, 1976, the sanctions of the international boycott provisions apply only to agreements to participate in or cooperate with an international boycott made on or after September 2, 1976, and to agreements made before that date that continue in effect after December 31, 1977. More details concerning reporting requirements and the application of sanctions for years affected by the effective date of the international boycott provisions are contained in the instructions to Form 5713, in Temp. Regs. § 7.999-1 and in Proposed Regs. § 1.999-1.

E-2. Q. If a person who reports tax liability on a calendar year basis makes an agreement on November 20, 1976, to participate in or cooperate with an international boy-

#### NOTICES

cott, which of that person's operations conducted during the taxable year are reportable, which operations are included in the international boycott factor calculations, and how are the sanctions applied?

A. All operations of the person during the entire 1976 taxable year (including pre-November 20, 1976, operations) in or related to a boycotting country or with the government, a company, or a national of such country must be reported under section 999(a) and will be considered in calculating the international boycott factor (or the amount of taxes or income specifically attributable to operations in which there was participation in or cooperation with an international boycott) for the taxable year. However, under section 999(c)(1), those operations that are—

(1) related to boycotting countries and in connection with which there was no boycott participation or cooperation, and

(2) in boycotting countries and that are clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was boycott participation or cooperation.

need not be reflected in the numerator of the international boycott factor. In addition, under section 999(c)(2) the tax benefits specifically attributable to such operations will not be denied. See also Temp. Regs. § 7.999-1 and Proposed Regs. § 1.999-1.

The sanctions are applied to the year 1976 on a pro rata basis. If a person uses the international boycott factor for 1976, the factor is applied under sections 908(a), 952(a)(3), and 995(b)(1)(F) after it has been multiplied by the fraction 58/366, representing the number of days after the November 3, 1976, effective date remaining during the calendar year. If a person identifies specifically attributable taxes and income, the tax benefits denied under sections 908(a), 952(a)(3), and 995(b)(1)(F) are computed by first ascertaining the tax benefits of the foreign tax credit, deferral, and DISC, respectively, for the taxable year attributable to all operations that are—

(1) related to boycotting countries and in connection with which there was boycott participation or cooperation, and

(2) in boycotting countries and that are not clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was boycott participation or cooperation.

and then multiplying those amounts by 58/366.

E-3. Q. If a person having a July 1-June 30 taxable year carries out an operation or operations in accordance with the terms of a binding contract entered into before September 2, 1976, and, in furtherance of that contract, makes an agreement on February 15, 1978, to participate in or cooperate with an international boycott, which of the person's operations conducted during the taxable year July 1, 1977-June 30, 1978, are reportable, which operations are included in the international boycott factor calculations, and how are the sanctions applied?

A. All operations of the person during the entire July 1, 1977-June 30, 1978, taxable year (including pre-February 15, 1978 operations) in or related to a boycotting country or with the government, a company, or a national of such country must be reported under section 999(a) and will be considered in calculating the international boycott factor (or the amount of taxes or income specifically attributable to operations in

which there was participation in or cooperation with an international boycott) for the taxable year. However, under section 999(c)(1), those operations that are—

(1) related to boycotting countries and in connection with which there was no boycott participation or cooperation, and

(2) in boycotting countries and that are clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was boycott participation or cooperation.

need not be reflected in the numerator of the international boycott factor. In addition, under section 999(c)(2) the tax benefits specifically attributable to such operations will not be denied. See also Temp. Regs. § 7.999-1 and Proposed Regs. § 1.999-1.

The sanctions are applied to the July 1, 1977-June 30, 1978, taxable year on a pro rata basis. If a person uses the international boycott factor for the taxable year, the factor is applied under sections 908(a), 952(a)(3), and 995(b)(1)(F) after it has been multiplied by the fraction 194/366, representing the number of days after the December 31, 1977, effective date remaining during the taxpayer's taxable year. (See also Temp. Regs. § 7.999-1 and Proposed Regs. § 1.999-1.) If a person identifies specifically attributable taxes and income, the tax benefits denied under sections 908(a), 952(a)(3), and 995(b)(1)(F) are computed by first ascertaining the tax benefits of the foreign tax credit, deferral, and DISC, respectively, for the taxable year attributable to all operations that are—

(1) related to boycotting countries and in connection with which there was boycott participation or cooperation, and

(2) in boycotting countries and that are not clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was boycott participation or cooperation.

and then multiplying those amounts by 194/366.

E-4. Q. What is a binding contract for purposes of the binding contract rule?

A. A binding contract with respect to a person, a member of a controlled group that includes that person, or a foreign corporation of which that person is a United States shareholder is a contract that was, on September 1, 1976, and is at all times thereafter, binding on that person, foreign corporation or member, and under which all material terms are fixed or are ascertainable with reference to an objectively determinable standard.

E-5. Q. If, under a binding contract existing before September 2, 1976, a person made an agreement described in section 999(b)(3), will the operation or operations that are the subject of the contract be subject to the international boycott provisions in years after 1977?

A. Yes, unless the person establishes that, on or before December 31, 1977, the agreement to participate in or cooperate with the boycott was renounced, the renunciation was communicated to the government or person with which the agreement was made, and the agreement was not reaffirmed after 1977.

E-6. Q. If, under a contract made in 1979, a person who reports tax liability on a calendar year basis makes an agreement described in section 999(b)(3), but does not comply with the agreement after 1980, will the operation or operations that are the subject of the contract be subject to the in-

ternational boycott provisions in years after 1980?

A. Yes, unless the person establishes that, on or before December 31, 1980, the agreement to participate in or cooperate with the boycott was renounced, the renunciation was communicated to the government or person with which the agreement was made, and the agreement was not reaffirmed after 1980.

E-7. Q. If, under a contract made after January 1, 1977, a person makes an agreement described in section 999(b)(3), and later renounces the agreement and communicates such renunciation to the government or person with which the agreement was made, which operations of such person during the taxable year of the renunciation are reportable, which operations are included in the international boycott factor calculations, and how are the sanctions applied?

A. All operations of the person during the entire taxable year within which the agreement was renounced (including post-renunciation operations) in or related to a boycotting country or with the government, a company, or a national of such country must be reported under section 999(a) and will be considered in calculating the international boycott factor (or the amount of taxes or income specifically attributable to operations in which there was participation in or cooperation with an international boycott) for the taxable year. However, under section 999(c)(1), those operations that are—

(1) related to boycotting countries and in connection with which there was no boycott participation or cooperation, and

(2) in boycotting countries and that are clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was boycott participation or cooperation.

need not be reflected in the numerator of the international boycott factor. In addition, under section 999(c)(2) the tax benefits specifically attributable to such operations will not be denied. See also Temp. Regs. § 7.999-1 and Proposed Regs. § 1.999-1. There is no proration between the pre-renunciation and post-renunciation portions of the taxable year of either the boycott factor or the specifically attributable taxes and income.

E-8. Q. Before September 2, 1976, Company A entered into a binding contract that did not contain an agreement to boycott or by itself support an inference of the existence of an agreement to boycott. However, Company A's course of conduct in carrying out the operation or operations in accordance with the terms of the contract evidences that there is an implied agreement that constitutes participation in or cooperation with an international boycott. Will the sanctions of sections 908(a), 952(a)(3), and 995(b)(1)(F) be applied to such participation or cooperation that takes place prior to January 1, 1978?

A. If the course of conduct from which the existence of the implied agreement was inferred took place before September 2, 1976, then the sanctions of sections 908(a), 952(a)(3), and 995(b)(1)(F) will not be applied to such participation in or cooperation with an international boycott that takes place prior to January 1, 1978. However, if the inference of the existence of the implied agreement would depend on conduct on or after September 2, 1976, then those sanctions will be applied to participation in or cooperation with the international boycott

#### NOTICES

after November 3, 1976. See section 1068(a)(1) of the Tax Reform Act of 1976.

E-9. Q. Company C entered into a binding contract prior to September 2, 1976, to manufacture and deliver equipment to a customer located in Country X. The contract requires Company C to use no components that are manufactured by blacklisted United States companies. The contract also requires that the vessel on which the equipment is shipped not be blacklisted. On January 15, 1977, Company C is able to have the contract amended to eliminate the requirement regarding components, but is unable to secure any change regarding vessels. Will the amendment regarding components remove the binding contract protection otherwise afforded until December 31, 1977, that Company C has regarding vessels?

A. No. Since Company C could have waited to abrogate or renegotiate its contract until the end of 1977 and since it is in accord with the legislative purpose for Company C to accelerate elimination of the provision regarding components, it will remain protected until December 31, 1977, from the consequences of its continuing to refrain from shipping the goods on blacklisted vessels.

E-10. Q. If, before December 31, 1977, a person carries out several different operations in boycotting countries and the only operation of that person that constitutes participation in or cooperation with an international boycott is carried out in accordance with the terms of a binding contract entered into before September 2, 1976, will the existence of that one boycotting operation trigger the section 999(b)(1) presumption that the other operations of that person in boycotting countries are also operations in connection with which boycott participation or cooperation occurred?

A. No. Operations carried out before December 31, 1977, in accordance with the terms of a binding contract entered into before September 2, 1976, will not trigger the section 999(b)(1) presumption. However, if the boycott agreements are not renounced on or before December 31, 1977, those operations will trigger the section 999(b)(1) presumption after December 31, 1977.

E-11. Q. Are operations of a person that constitute participation in or cooperation with an international boycott reflected in the numerator of a person's international boycott factor before December 31, 1977, if those operations are carried out in accordance with the terms of a binding contract entered into before September 2, 1976?

A. No. Boycotting operations carried out before December 31, 1977, in accordance with the terms of a binding contract entered into before September 2, 1976, are not reflected in the numerator of the international boycott factor. They are reflected in the denominator, however. See Temp. Regs. § 7.999-1 and Proposed Regs. § 1.999-1.

E-12. Q. On June 30, 1976, Company A, a domestic corporation that reports its operations on a calendar year basis, disposed of all of its stock in Company C, a foreign corporation. Will Company A be required to report any operations, requests or participation or cooperation of Company C for calendar year 1976? Will the operations of Company C be included in Company A's international boycott factor for 1976?

A. No. Since Company A did not own any stock of Company C after the effective date of the boycott provisions, Company A is not required to report any operations, requests or participation or cooperation of Company

C in 1976 and will exclude Company C's operations from its international boycott factor computations.

E-13. Q. Are operations, requests or participation in or cooperation with an international boycott of a person for that person's taxable year that ends before November 4, 1976, required to be reported, either by that person or by any other person?

A. No. Operations, requests and participation in or cooperation with an international boycott of a person for that person's taxable year that ends before November 4, 1976, need not be reported by any person. However, as stated in Answers E-1 and E-2, operations, requests and participation in or cooperation with an international boycott before November 4, 1976, during a taxable year that ends on or after that date are reportable if there has been participation in or cooperation with an international boycott during that taxable year but on or after that date.

#### F. INTERNATIONAL BOYCOTT FACTOR AND SPECIFICALLY ATTRIBUTABLE TAXES AND INCOME

F-1. Q. How is the international boycott factor computed?

A. Section 999(c)(1) provides that the international boycott factor is determined under regulations prescribed by the Secretary. The international boycott factor is a fraction the numerator of which reflects boycotting operations in or related to countries associated in carrying out an international boycott and the denominator of which reflects worldwide foreign operations. Temporary and proposed regulations setting forth the method of determining the international boycott factor were issued in February, 1977. See Temp. Regs. § 7.999-1 and Proposed Regs. § 1.999-1.

F-2. Q. In the case of a controlled group (within the meaning of section 993(a)(3)), is a single international boycott factor computed for the entire group?

A. Yes. All members of a controlled group share a single, common international boycott factor. Currently, the international boycott factor regulations provide that the international boycott factor of a controlled group reflects the operations of all members of the controlled group, regardless of whether all members of the group choose to compute their loss of tax benefits using the international boycott factor. It is anticipated that those regulations will be changed to provide that the international boycott factor of a controlled group will reflect the operations of only those members of the controlled group that choose to compute their loss of tax benefits using the international boycott factor.

F-3. Q. Once an international boycott factor has been computed for a controlled group (within the meaning of section 993(a)(3)), how is the factor applied to individual members of the group?

A. The international boycott factor of a controlled group is applied separately under sections 908(a), 952(a)(3), and 995(b)(1)(F) to each individual member of the controlled group that chooses to compute its loss of tax benefits using the international boycott factor.

F-4. Q. If a person applies the international boycott factor to some operations during the taxable year, must the factor be applied to all operations of that person for the taxable year?

A. Yes. If a person applies the international boycott factor to one operation during the taxable year, the factor must be applied

to all operations during the taxable year under each of sections 908(a), 952(a)(3), and 995(b)(1)(F). If a person identifies specifically attributable taxes and income under section 999(c)(2), that method must be applied to all operations during the taxable year and must be applied under each of sections 908(a), 952(a)(3), and 995(b)(1)(F).

F-5. Q. In the case of a controlled group (within the meaning of section 993(a)(3)), may one member use the international boycott factor under section 999(c)(1) and another member identify specifically attributable taxes and income under section 999(c)(2)?

A. Yes. Each member may independently choose either to apply the international boycott factor under section 999(c)(1) or to identify specifically attributable taxes and income under section 999(c)(2). The method chosen by each member for determining the loss of tax benefits must be applied consistently to determine all loss of tax benefits of that member. For example, if one member of a controlled group, Company A, chooses to use the international boycott factor, then it must apply the international boycott factor to determine its loss of the section 902 indirect foreign tax credit in respect of a dividend paid to it by another member of the controlled group, Company C, even if Company C determines its loss of tax benefits by identifying specifically attributable taxes and income.

F-6. Q. If a person chooses to determine its loss of tax benefits by applying the specifically attributable taxes and income method set forth in section 999(c)(2), may it demonstrate the amount of foreign taxes paid and income earned attributable to the specific operations by applying an overall effective rate of foreign taxes and an overall profit margin to each operation?

A. No. A person must clearly demonstrate foreign taxes paid and income earned attributable to specific operations by analyzing the profit and loss data of each separate and identifiable operation. The principles of Regs. 1.861-8 are applicable in determining income and taxes attributable to specific operations.

F-7. Q. A United States partnership has operations in a boycotting country. Is the international boycott factor computed at the partnership level?

A. No. The international boycott factor is computed separately by each partner based on information submitted by the partnership and on other activities of that partner. Of course, if the partner can meet the conditions of section 999(c)(2) of the Code, he need not use the international boycott factor.

F-8. Q. A person desires to determine its loss of tax benefits by applying the specifically attributable taxes and income method set forth in section 999(c)(2). That person is able to clearly demonstrate that some of its operations in boycotting countries consti-

tute clearly separate and identifiable operations in connection with which there was no participation in or cooperation with an international boycott. That person is also able to clearly demonstrate the taxes and income attributable to those operations. With respect to the remainder of its operations in boycotting countries, that person is either unable to clearly demonstrate that those operations are clearly separate and identifiable from operations in connection with which there was participation in or cooperation with an international boycott or is unable to identify taxes and income specifically attributable to separate and identifiable operations in connection with which there was such participation or cooperation. Under these facts, will that person be required to determine its loss of tax benefits by applying the international boycott factor?

A. No. That person may compute its loss of tax benefits by applying the specifically attributable taxes and income method if it forfeits the benefits of deferral, DISC and the foreign tax credit attributable to all its operations that are in boycotting countries and which it cannot clearly demonstrate are operations that are clearly separate and identifiable from operations in connection with which there was participation in or cooperation with an international boycott.

F-9. Q. If a person chooses to compute its loss of tax benefits in one year by applying the international boycott factor, may that person compute its loss of tax benefits in another year using the specifically attributable taxes and income method?

A. Yes. The election to use the international boycott factor or the specifically attributable taxes and income method is an annual election. The election is made by completing the appropriate Schedule A or B to Form 5713.

F-10. Q. In 1978 a person computes its loss of tax benefits using the international boycott factor. On audit, it is determined that adjustments are to be made to the international boycott factor. May that person then recompute its loss of tax benefits for 1978 using the specifically attributable taxes and income method?

A. Yes. A person may change its method of computing loss of tax benefits under the international boycott provisions at any time for any open taxable year.

#### G. DETERMINATIONS

G-1. Q. What degree of confidentiality will determinations, and requests for determinations, under section 999(d) receive?

A. A determination under section 999(d) will be treated as a "written determination" within the meaning of section 6110(b)(1). Therefore, the determination and any background file document related thereto will be subject to public inspection in accordance with the rules set forth in section 6110, and subject to the deletions set forth in section 6110(c).

G-2. Q. What procedures are applicable to requests for, and the issuance of, determinations under section 999(d)?

A. The procedures applicable to requests for, and the issuance of, determinations under section 999(d) are set forth in Revenue Procedure 77-9, 1977-10 IRB 12.

#### H. DEFINITION OF AN AGREEMENT TO PARTICIPATE IN OR COOPERATE WITH A BOYCOTT (SECTION 999(b)(3))

H-1A. Q. Company C enters into a written contract to export goods to Country X. The

contract requires Company C not to obtain any of the goods from any person blacklisted by Country X. Does Company C's action constitute an agreement under section 999(b)(3)?

A. Generally, any express agreement (written or oral) providing that a person will refrain from doing business with a person blacklisted by Country X (or by a group of countries associated with Country X in carrying out an international boycott) constitutes participation in or cooperation with an international boycott within the meaning of section 999(b)(3). Blacklists are normally maintained to provide a convenient list of persons that engage in activities that are inconsistent with the boycott.

However, such an agreement does not constitute participation in or cooperation with an international boycott if it is established that the blacklist is maintained for reasons other than furtherance of the boycott as, for example, to exclude persons who have previously supplied defective goods.

H-1B. Q. Company C enters into a contract to export goods to Country X. The contract requires Company C to obtain goods from Company D, which is specified in the contract, and to pass on to the purchaser a certificate from Company D that Company D is not blacklisted by Country X. Does Company C's action constitute an agreement under section 999(b)(3)?

A. Yes, if Company D is a company organized under the laws of Country Y or is a U.S. person within the meaning of section 7701(a)(30).

The result would be the same if Company C had reason to know that it would not be able to obtain the required certificate because of the nationality, race or religion of Company D's ownership, management or directors.

However, if Company D is neither a company organized under the laws of Country Y nor a U.S. person and if Company C does not have reason to know that it will not be able to obtain the certificate because of the nationality, race or religion of Company D's ownership, management or directors, Company C's action in entering into such a contract would not constitute participation in or cooperation with an international boycott under section 999(b)(3).

H-2. Q. During negotiations concerning a contract for the export of goods to Country X, Company C and Country X agree orally that Company C will not purchase any of the goods from any blacklisted company. They also agree that this agreement will not be reflected in the written contract for the export of the goods or in any other writing. Does Company C's action constitute an agreement under section 999(b)(3)?

A. Generally, yes. See Answer H-1A.

H-3. Q. Company C signs a contract to construct an industrial plant in Country X. The contract states that the laws, regulations, requirements or administrative practices of Country X will apply to Company C's performance of the contract in Country X. The laws, regulations, requirements or administrative practices of Country X prohibit the importation into Country X of goods manufactured by any company engaged in trade in Country Y or with the government, companies or nationals of Country Y. Does Company C's action constitute an agreement under section 999(b)(3)?

A. No. An agreement under section 999(b)(3) will not be inferred solely from the inclusion in a contract of a provision stating that the laws, regulations, require-

ments or administrative practices of Country X will apply to the performance of the contract in that country. However, an overall course of conduct which includes the signing of a contract with such a provision in addition to other factors could support such an inference. Examples of other factors which could give rise to such an inference include the termination or lessening of business relationships with blacklisted firms or with Country Y (in the absence of compelling non-boycott considerations) or the refusal to enter into such business relationships where there are opportunities and compelling business reasons for doing so (apart from boycott considerations). On the other hand, repeated inclusion of such a provision in contracts does not give rise to such an inference.

H-4. Q. The facts are the same as in Question H-3, except that the contract states that Company C will comply with the laws, regulations, requirements or administrative practices of Country X in its performance of the contract in Country X. Does Company C's action constitute an agreement according to section 999(b)(3)?

A. Yes. Entering into a contract that requires compliance with the laws, regulations, requirements or administrative practices of Country X constitutes an agreement under section 999(b)(3), if some of those laws, regulations, requirements or administrative practices prohibit the importation into Country X of goods manufactured by any company engaged in trade in Country Y or with the government, companies or nationals of Country Y.

H-5. Q. Company C signs a contract to export goods to Country X. The contract contains no clause concerning a boycott. The laws, regulations, requirements or administrative practices of Country X include prohibitions on the importation into Country X of goods manufactured by persons engaged in trade in Country Y. Company C does not purchase any goods with which to fulfill its obligations under the contract from any U.S. company engaged in trade in Country Y or with the government, companies or nationals of Country Y. Does Company C's action constitute an agreement under section 999(b)(3)?

A. Where there is no express agreement, the existence of an agreement will not be inferred solely from the fact that Company C, consistent with the laws, regulations, requirements or administrative practices of Country X, has not purchased goods with which to fulfill its obligations under the contract from any U.S. company engaged in trade in Country Y or with the government, companies or nationals of Country Y. An agreement under section 999(b)(3) will not be inferred solely from the absence of a business relationship. But an overall course of conduct which includes such an absence of business relationships in addition to other factors could support such an inference. See Answer H-3.

H-6. Q. Questions and answers H-1A, H-1B, H-2, and H-5 all involve contracts for the export of goods by company C to country X. Would the issue of whether an agreement exists under section 999(b)(3) be resolved in the same way as in each of the above answers if the contract were for (a) the supply of services to country X or (b) a construction project in country X?

A. Yes.

H-7. Q. (a) Company C incorporates a subsidiary in country X. In the documents submitted by company C relating to the incor-

poration of the subsidiary there is a general acknowledgment that the subsidiary is subject to the laws, regulations, requirements, and administrative practices of country X.

(b) Company C establishes a branch in country X. In the documents relating to the registration of the branch there is a general acknowledgment that the laws, regulations, requirements, and administrative practices of country X apply to the branch.

Included in the laws, regulations, requirements, or administrative practices of country X is a requirement that companies incorporated in country X and branches registered in country X refrain from doing business with any person engaged in trade in country Y or with the government, companies, or nationals of country Y. Does either the acknowledgment of the subsidiary or the undertaking of the branch constitute an agreement under section 999(b)(3)?

A. The mere acknowledgment in incorporation or registration documents of the general applicability of the laws, regulations, requirements, or administrative practices of a boycotting country will not give rise to the inference of the existence of an agreement under section 999(b)(3). However, such an acknowledgment in addition to other factors could support such an inference. See answer H-3. Moreover, if the incorporation or registration documents state that the subsidiary or branch will comply with the laws, regulations, requirements, or administrative practices, there is an agreement under section 999(b)(3).

H-8. Q. Company C signs a contract to export goods to country X. The contract contains no clause concerning a boycott. Payment is made by means of a letter of credit that requires, as a condition of payment, that company C provide bank D with a certificate that the goods were not manufactured by a person blacklisted by country X. Company C provides the required certificate to bank D. Does company C's action constitute an agreement under section 999(b)(3)?

A. Generally, yes. See answer H-1A. The terms of a letter of credit upon which payment is made are part of the agreement made by company C.

H-9. Q. Company C signs a contract to carry out a construction project in country X. The contract says nothing about the nationality, race, or religion of the individuals who are to be employed to carry out the contract within country X. However, company C is aware that the laws, regulations, requirements, or administrative practices of country X may prohibit the issuances of visas by country X to individuals of religion R to work on projects in that country. Company C excludes individuals of that religion from consideration for employment on the project in country X. Does company C's action constitute an agreement under section 999(b)(3)?

A. Where there is no express agreement, the existence of an agreement under section 999(b)(3) will not be inferred solely from the fact that a person's action is apparently consistent with boycott requirements of country X, provided that there appear to be valid business reasons for such action. In the absence of valid business reasons, such an action could support the inference of an agreement under section 999(b)(3). It is highly unlikely here that there are valid business reasons for company C's action.

H-10. Q. Company C signs a contract to carry out a construction project in country X. The contract says nothing about the na-

tionality, race, or religion of the individuals who are to be employed to carry out the contract within country X. However, company C is aware that the laws, regulations, requirements, or administrative practices of country X may prohibit the issuance of visas to individuals of religion R. Company C, in hiring people for the project, informs all such people that if they cannot obtain a visa to enter country X, their employment will be terminated. Several individuals of religion R are unsuccessful in obtaining visas and their employment is subsequently terminated. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. The existence of an agreement under section 999(b)(3) will not be inferred from company C's action.

H-11. Q. The facts are the same as in question H-10, except that company C enters into employment contracts with individuals for work on the project in country X subject to the condition that such individuals obtain visas from country X that will permit them to work in country X. Few, if any, individuals of religion R are successful in obtaining visas. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. The existence of an agreement under section 999(b)(3) will not be inferred from company C's action.

H-12. Q. The facts are the same as in question H-10, except that no individuals of religion R are willing to accept employment on the terms offered by company C. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. H-13. Q. Company C signs a contract with country X to carry out a construction project in country X. The contract says nothing about who may or may not be a subcontractor to do certain work in country X other than that country X has the right of prior approval of all subcontractors. Does company C's action constitute an agreement under section 999(b)(3)?

A. The contract provision giving the project owner a right of prior approval does not itself constitute an agreement under section 999(b)(3). However, an overall course of conduct which includes the signing of a contract with such a provision in addition to other factors could give rise to such an inference. Examples of other factors which could give rise to such an inference include: Company C's supplying of boycott information relating to possible subcontractors and the compilation by company C of lists of subcontractors from which blacklisted companies are excluded for no valid business reasons. On the other hand, repeated inclusion of such a provision in contracts does not give rise to such an inference.

H-14. Q. Company C signs a contract to carry out a construction project in country X. The contract specifies a number of permissible subcontractors. All the subcontractors, in the view of company C, are capable of carrying out the work, but none of them appears on a list of companies that are blacklisted by country X. Company C has previously done business with each of the specified companies, but it has also done business with certain of the blacklisted companies with which it has had satisfactory relations. Does company C's action constitute an agreement under section 999(b)(3)?

A. A contract that on its face indicates a pattern of exclusion of certain companies, including companies with which company C has no particular reason not to do business,

gives rise to an inference that company C has agreed to refrain from doing business with the blacklisted companies, unless company C is able to show that the excluded companies were not specified as permissible subcontractors for reasons not related to the boycott. See answer H-1A.

H-15. Q. Company C signs a contract to carry out a construction project in country X. The contract provides that country X is to engage all the subcontractors that are to be engaged from outside country X but that are to perform all or part of their services in country X. Company C, however, is given the right to disapprove any company that country X proposes to engage for a subcontract. While the contract is being carried out, none of the companies that country X proposes to prequalify or invite to bid are included on a list of companies blacklisted by country X. Does company C's action constitute an agreement under section 999(b)(3)?

A. Under the contract, company C has not agreed to refrain from doing business with companies that are on the blacklist. The contract, moreover, does not give company C the right to select subcontractors other than those nominated by country X. Therefore, company C's action does not constitute an agreement under section 999(b)(3). Nevertheless, an agreement may be inferred from an overall course of conduct which includes the signing of a contract with such a provision in addition to other factors. See answer H-13 for examples of such other factors. On the other hand, the repeated signing of contracts with such provisions would not give rise to such an inference.

H-16. Q. Company C signs a contract to carry out a construction project in country X. The contract states that any disputes arising under the contract will be resolved in accordance with country X's laws. The laws of country X contain boycott provisions. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. The provision that disputes will be resolved in accordance with country X's laws does not constitute an agreement by company C to comply with country X's boycott laws with respect to the carrying out of the contract.

H-17. Q. Company C receives an inquiry from country X about certain goods that company C manufactures. The inquiry also requests company C to furnish information about the following matters: Whether it does business with country Y and whether it does business with any U.S. person engaged in trade in country Y. Company C furnishes the requested information to country X. Later company C signs a contract with country X to export goods to country X. Does company C's action constitute an agreement under section 999(b)(3)?

A. By furnishing such information company C has not agreed to take any action, as a condition of doing business with country X, that is described in section 999(b)(3). Nevertheless, an agreement under section 999(b)(3) could be inferred from an overall course of conduct that includes the furnishing of such information in addition to other factors. An example of another factor which could give rise to such an inference is any contemporaneous termination or lessening in company C's relationships with country Y or with U.S. persons engaged in trade with country Y for no valid business reason. On the other hand, the repeated furnishing of such information would not give rise to such an inference.

H-18. Q. Company C signs a contract to export goods to country X. The contract contains a clause requiring company C not to obtain any of the goods from any company blacklisted by country X. Company C, however, purchases some of the goods from one of the blacklisted companies. Does company C's action constitute an agreement according to section 999(b)(3)?

A. Yes. An agreement to refrain from doing business with persons blacklisted by country X generally constitutes participation in or cooperation with an international boycott within the meaning of section 999(b)(3), even if company C, fully or partially, does not abide by, or intend to abide by, such agreement. See answer H-1A.

H-19. Q. Company C signs a contract with country X to export goods to country X. Included in the contract is a provision that company C will refrain from doing business with country Y. Company C has done considerable business with country Y in the past, but soon after it concludes the contract with country X its distributor in country Y, learning of the contract with country X, refuses to continue to handle company C's products and company C tries but is unable to conclude any other satisfactory distribution arrangement in country Y. Does company C's action constitute an agreement under section 999(b)(3)?

A. Yes, for the reason stated in answer H-18.

H-20. Q. Company C has been unable to do business with country X because company C has been on a blacklist of companies maintained by an organization of countries to which country X belongs. As a condition of being removed from the list, company C agrees to refrain from doing business with country Y. Does company C's action constitute an agreement under section 999(b)(3)?

A. Yes. Even though company C has not yet entered into a contract to do business with any boycotting country, it has agreed, as a condition of being in a position to do business with one or more of the countries maintaining the blacklist, to refrain from doing business with country Y. This action constitutes an agreement under section 999(b)(3).

H-21. Q. The facts are the same as in question H-20, except that company C does several different types of business with country Y. It is requested to, and agrees to, refrain from doing one of those types of business with country Y, but it continues to do the other types of business with country Y. Does company C's action constitute an agreement under section 999(b)(3)?

A. Yes. An agreement to refrain from some, but not all, business with a boycotted country constitutes an agreement under section 999(b)(3).

H-22. Q. Company C is doing business in country X. It contracts with company D, which is not related to company C, for company D to build an office building for company C's use in country X. In the course of constructing the building, company D participates in or cooperates with an international boycott imposed by country X. Does company C's action constitute an agreement under section 999(b)(3)?

A. Unless company C directs or requires company D to take action that constitutes participation in or cooperation with the boycott by company D, or unless company C's relationship with company D is established to facilitate participation in or cooperation with the boycott, company D's action will not be attributed to company C

under section 999(b)(3), and company C will not be deemed to be participating in or cooperating with an international boycott.

H-23. Q. Company C signs a contract with country X to export goods to country X. The contract does not contain any provision as to which ships should be used for shipping the goods to country X or which insurance companies should be used. The laws, regulations, requirements or administrative practices of country X do not permit the importation of goods carried on a ship owned by companies that trade in country Y or goods insured by companies that trade in country Y. Company C is aware of these laws, regulations, requirements, or administrative practices and ships the goods on the ships of a company, and insures the goods with a company, that does not trade in country Y. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. See Answer H-5.

H-24. Q. Company C is competing for an industrial plant construction contract for which country X is inviting international tenders. The tender documents contain a provision to the effect that country X will not enter into the contract unless the successful tenderer certifies that in carrying out the contract it will refrain from doing business with companies blacklisted by country X. Company C does not win the contract, but in its tender it indicates that it would be prepared to sign a contract in the form indicated in the tender documents, and gives country X a tender bond to that effect. Does company C's action constitute an agreement under section 999(b)(3)?

A. Since its offer was not accepted, company C has not made an agreement under section 999(b)(3). Nevertheless, an agreement may be inferred, in other direct or indirect business transactions of company C in boycotting countries or with the governments, companies, or nationals of boycotting countries, from an overall course of conduct which includes company C's stated willingness to cooperate with country X's boycott in addition to other factors.

H-25. Q. Company C successfully prequalifies to tender for a contract for the construction of an industrial plant in country X. At the time it attempts to prequalify, company C is required to state that it understands that the successful tenderer for the contract will have to agree not to do business in connection with the project with any company blacklisted by country X or with the government, companies, or nationals of country Y. After it prequalifies, company C decides not to tender for the contract. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. But see answer H-24.

H-26. Q. Company C competes for an industrial plant construction contract for which country X is inviting international tenders. The tender documents contain a provision to the effect that country X will not enter into a contract unless the successful tenderer certifies that in carrying out the contract it will refrain from doing business with any company blacklisted by country X. Company C wins the tender and successfully convinces country X that the boycott clause should be deleted from the final contract. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. Company C has not made an agreement under section 999(b)(3). However, if the deletion of the boycott clause is not accomplished in good faith or is a subterfuge to mask an unstated understanding to par-

ticipate in or cooperate with an international boycott, there is an agreement under section 999(b)(3).

H-27. Q. Company D charters a vessel to company C to be used by company C in carrying its goods to country X. At the request of company D, company C agrees in the charter agreement not to issue any orders to, or take any action with respect to, the vessel that would result in limiting the vessel's ability to call at ports in country X or subject the vessel to arrest or confiscation in country X. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. Company C's agreement to take actions enumerated in section 999(b)(3) is not as a condition of doing business directly or indirectly within a boycotting country or with the government, a company, or a national of a boycotting country.

H-28. Q. Company D charters a vessel to company C to be used by company C in carrying its goods to or from specifically named ports, or a range of ports within a specified geographical area. Company D and company C agree on a charter agreement which precludes that vessel from calling at a number of countries, including country Y. Does company C's action constitute an agreement under section 999(b)(3)?

A. No. Q. Company A signs a contract to export goods to country X. The contract provides that payment will be made by means of a letter of credit confirmed by bank C. The letter of credit requires company A to provide to bank C a certificate that it is not blacklisted before it can be paid by bank C. Bank C confirms the letter of credit and later makes payment to company A after determining that all documents, including the boycott certificate, are in order. Does bank C's action constitute an agreement under section 999(b)(3)?

A. Yes. Bank C's action constitutes an agreement to refrain from doing business with a U.S. person and therefore constitutes an agreement under section 999(b)(3)(A)(ii). The answer would be the same under section 999(b)(3)(A)(i) if the beneficiary of the letter of credit were organized under the law of country Y and under section 999(b)(3)(A)(iii) if company C had reason to know that it will not be able to obtain the required certificate because of the nationality, race, or religion of the beneficiary's ownership, management, or directors. The answer would also be the same were bank C merely to confirm, pay, honor, negotiate, open, or otherwise implement the letter of credit. However, merely advising company A of the letter of credit does not constitute an agreement under section 999(b)(3).

Bank C's action would not constitute participation in or cooperation with an international boycott under section 999(b)(3) if the beneficiary were neither a country Y person nor a U.S. person and if bank C did not have reason to know that it would not be able to obtain the required certification because of the nationality, race, or religion of the beneficiary's ownership, management, or directors. See answer H-1B. If bank C has reason to know that a person has been inserted as the beneficiary of the letter of credit solely for the purpose of funneling payment to another person, the letter of credit will be viewed as also having that other person as a beneficiary.

H-29B. Q. The facts are the same as in H-29A, except that company A is required to provide to bank C a certificate that none of

the goods for which it is to be paid under the letter of credit is produced by a blacklisted person. Does bank C's action constitute an agreement under section 999(b)(3)?

A. Yes, for the same reasons and with the same qualifications as in Answer H-29A.

H-30. Q. Company C signs a contract to supply goods to Country X. The contract provides that Company C will not trade with Country Y, and that payment will be made by means of a letter of credit confirmed by Bank D provided that Bank D certifies to Country X that it will not confirm letters of credit relating to the export of goods to Country Y. Bank D confirms the letter of credit, after issuing the requested certificate. Does Bank D's action constitute an agreement under section 999(b)(3)?

A. Yes, regardless of Company C's nationality.

H-31. Q. Company C signs a contract to export goods to Country X. The contract, consistent with the laws, regulations, requirements or administrative practices of Country X, provides that the goods may not be produced in whole or in part in Country Y or contain any parts, raw materials or labor originating in Country Y. The contract also provides that payment will be made by means of a letter of credit confirmed by Bank D. The letter of credit requires Company C to provide to Bank D a certificate that the goods are not produced in whole or in part in Country Y and contain no parts, raw materials or labor originating in Country Y before it can be paid by Bank D. Bank D confirms the letter of credit and later makes payment to Company C after determining that all documents, including the certificate, are in order. Does Bank D's action constitute an agreement under section 999(b)(3)?

A. No. Bank D's action constitutes an agreement in furtherance of a prohibition on the importation of goods produced in whole or in part in a country that is the object of an international boycott. According to section 999(b)(4)(B), agreeing to such a prohibition does not constitute participation in or cooperation with an international boycott. (Similarly, Company C's action does not constitute participation in or cooperation with an international boycott. See Answer I-1.)

H-32. Q. Company C signs a contract to export goods to Country X. The contract contains no clause concerning a boycott. The laws, regulations, requirements or administrative practices of Country X prohibit the importation into Country X of goods manufactured by persons engaged in trade with Country Y and require import licenses. In order to obtain an import license, Company C provides a certificate indicating that the goods were not manufactured by a person engaged in trade in Country Y or with the government, companies or nationals of Country Y and that they were not shipped on a blacklisted ship. Does Company C's action constitute an agreement under section 999(b)(3)?

A. No. Merely providing at the time of import a certificate as to the content and shipper of goods, as is required to obtain an import license, does not by itself constitute an agreement under section 999(b)(3). Nor does the repetitive supplying of such certificates at the time of import by itself constitute an agreement under section 999(b)(3). However, an agreement to provide such a certificate would constitute an agreement under section 999(b)(3).

H-33. Q. Country X deposits money in a foreign branch of Bank C, a U.S. bank. As a

condition of making the deposit, Country X requires that all loans by the branch be made only to companies which can supply certificates that they are not blacklisted. The branch agrees to this condition. Does Bank C's action constitute an agreement under section 999(b)(3)?

A. Yes. Bank C's action constitutes an agreement under section 999(b)(3), which is made as a condition of doing business with Country X.

H-34. Q. Company C enters into an agreement with Country X to manufacture airplanes for Country X. The contract between Company C and Country X provides that no components in the airplane may be produced by blacklisted companies. Company C enters into an agreement with Company D pursuant to which Company D agrees to manufacture the seats and to provide Company C with a certificate that no components in the seats were produced by blacklisted companies. Company D knows or has reason to know that the seats are being incorporated in the airplanes being sold to Country X. Does Company D's action constitute an agreement under section 999(b)(3)?

A. Yes. Company D has agreed to refrain from doing business with blacklisted persons as a condition of doing business indirectly with Country X.

I. REFRAINING FROM DOING BUSINESS WITH OR IN A BOYCOTTED COUNTRY (SECTION 999(b)(3)(A)(i)).

I-1. Q. Company C signs a contract to export goods to Country X. In that contract, consistent with the laws, regulations, requirements or administrative practices of Country X, there is a provision that none of the goods to be provided shall be produced in whole or in part in Country Y or contain any parts, raw materials or labor from Country Y. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. No. Company C is complying with Country X's prohibition on the importation of goods produced in whole or in part in a country which is the object of an international boycott. Such action, according to section 999(b)(4)(B), does not constitute participation in or cooperation with an international boycott.

I-2. Q. Company C owns a number of ships. It understands that if one of its ships visits Country Y, that ship will thereafter be unable to visit Country X. Company C has some ships that visit Country Y but not Country X and other ships that visit Country X but not Country Y. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. No. Company C has not agreed to refrain from doing business with Country Y. Therefore Company C's action does not constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i).

I-3. Q. Company C signs a contract licensing a company in Country X to use to certain of its patents and trademarks in Country X. The contract provides that Company C will not enter into any agreement with any national of Country Y with respect to the use in Country Y of patents and trademarks. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. Yes. Company C has agreed to refrain from doing business with nationals of Country Y and such action constitutes participation in or cooperation with an international boycott under section 999(b)(3)(A)(i).

I-4. Q. The facts are the same as in Question I-3, except that Company C has a number of licensing agreements with Country Y and enters into still more such agreements after it signs the contract with Country X. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. Yes, for the reasons stated in Answer I-3. Answer H-18 is also relevant in this context.

I-5. Q. Company C signs a contract to export products from Country X. The contract, consistent with the laws, regulations, requirements or administrative requirements of Country X, requires Company C to certify that the goods will not be sent to Country Y. Company C so certifies. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. No. Company C's compliance with Country X's prohibition on the exportation of products of Country X to Country Y does not constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i).

I-6. Q. Company C signs a contract to export goods to Country X. The contract provides that no capital of Country Y origin will be used in the production or manufacture of the goods. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. Yes. Company C has agreed to refrain from doing business with the government, a company or a national of Country Y.

I-7. Q. Company C enters into a contract for the manufacture and sale of goods to Country X and the provision of customer support services. The contract provides that Company C may assign its rights and obligations under the contract, but that such rights and obligations cannot be assigned to a company incorporated under the laws of Country Y without the express approval of Country X. There is no similar requirement with respect to companies incorporated under the laws of other countries. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. The contract provision requiring company C to obtain the approval of Country X prior to an assignment of the rights and obligations to a company incorporated under the laws of Country Y constitutes sufficient evidence from which to infer the existence of an agreement under section 999(b)(3)(A)(i) unless Company C can establish valid business reasons for this provision apart from the boycott.

I-8. Q. Company C, incorporated under the laws of any country other than Country X, signs a contract to export goods to Country X. The contract provides that payment will be made by means of a letter of credit confirmed by Bank D. The letter of credit requires Company C to provide to Bank D a certificate that it is not organized under the laws of Country Y before it can be paid by Bank D. Bank D confirms the letter of credit and later makes payment to Company C after determining that all documents, including the boycott certificate, are in order. Does Bank D's action constitute participa-

tion in or cooperation with an international boycott under section 999(b)(3)(A)(i)?

A. No. Because Company C is not a Country Y company, Bank D's action does not constitute an agreement to refrain from doing business with a person described in section 999(b)(3)(A)(i).

#### J. REFRAINING FROM DOING BUSINESS WITH ANY UNITED STATES PERSON ENGAGED IN TRADE IN A BOYCOTTED COUNTRY (SECTION 999(b)(3)(A)(ii)).

J-1. Q. Company C signs a contract with Country X for the turn-key construction of an industrial plant in Country X. The contract provides that Company C will not use as subcontractors a number of named U.S. firms whose past performance on contracts in Country X has been unsatisfactory, according to Country X, for reasons unrelated to the boycott. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. No. The exclusion of subcontractors based on performance is not covered by section 999(b)(3).

J-2A. Q. Company C enters into a contract to export goods to Country X. The contract provides that Company C will not use any goods manufactured by Company A in performing the contract since Company A is blacklisted by Country X even though Company A does not engage in any kind of trade in Country Y or with the government, companies, or nationals of that country. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. Yes. An agreement providing that a person will refrain from doing business with a blacklisted U.S. person constitutes participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii), even if that person is not engaged in trade with Country Y, unless Company C can establish that the blacklist is maintained for reasons other than the furtherance of the boycott. See Answer H-1A.

J-2B. Q. The facts are the same as in Question J-2A, except that the contract provides that Company C will not use any goods manufactured by Company D, a company incorporated under the laws of any country other than the United States or Country Y. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. No, because Company D is not a United States person. In addition, since Company D is not organized under the laws of Country Y, Company C's action does not constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii). However, if Company C had reason to know that Company D was blacklisted because of the nationality, race or religion of Company D's ownership, management or directors, Company C's action would constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii). See Answer H-1B.

J-3. Q. Company C competes for an industrial plant construction contract for which Company P of Country W is inviting international tenders. The contract is to be financed by Country X, which maintains a blacklist of companies. Country X requires contracts for projects which it finances to state that the contractor is required to refrain from making any purchase for the

project from any blacklisted company. Country W does not boycott those companies. Company C wins the tender and signs the contract with Company P with the blacklist provision. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. Generally, yes. See Answer H-1A. Although the boycott is not implemented by Country W, but by Country X, and the project is being carried out in Country W, Company C has agreed not to do business with blacklisted U.S. companies as a condition of doing business indirectly with Country X.

J-4. Q. Company C signs a contract to export goods to Country X. The contract provides that Company C will not do business with any company blacklisted by Country X. Company C establishes that although a number of the blacklisted companies are foreign subsidiaries of U.S. companies, no U.S. companies are on the list. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. Yes. For purposes of this particular section, "United States person" does not include foreign subsidiaries of a United States person. However, since the blacklist may be changed to add U.S. persons between the time when Company C enters into the agreement and when it completes performance, Company C has agreed not to do business with any U.S. person that may be added to the blacklist.

J-5. Q. Bank C advises Country X on its investments in the United States. Country X instructs Bank C not to recommend for investment any shares of certain companies that are blacklisted by Country X. Bank C follows these instructions. Does Bank C's action constitute participation in or cooperation with an international boycott according to section 999(b)(3)(A)(ii)?

A. No. The recommendation of shares of certain companies by Bank C does not constitute "doing business" with those companies. Therefore Bank C's action does not constitute participation in or cooperation with an international boycott under section 999(b)(3).

J-6A. Q. Bank C manages Country X's investment portfolio in the United States. Bank C has been given certain powers to act for Country X pursuant to instructions that, among other things, require Bank C not to invest Country X's funds in stocks and bonds issued by certain blacklisted United States companies. Bank C is authorized by Country X to purchase and sell stocks and bonds only through recognized exchanges, over the counter markets, or the so-called third market. Does Bank C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. No. Purchasing stocks or bonds of any company on recognized exchanges, over the counter markets, or the so-called third market does not constitute "doing business" with that company, and an agreement to refrain from such purchases does not constitute an agreement to refrain from doing business with that company. Accordingly, Bank C's action does not constitute participation in or cooperation with an international boycott under section 999(b)(3).

J-6B. Q. The facts are the same as in Question J-6A, except that Bank C is also authorized to purchase original issues of stocks and bonds directly from the issuing company. Does Bank C's action constitute

participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. Generally, yes. An agreement not to purchase original issues of stocks or bonds directly from a U.S. company blacklisted by Country X constitutes participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii). If, however, Bank C can establish that the blacklist is maintained for reasons other than the furtherance of the boycott, Bank C's action does not constitute participation in or cooperation with an international boycott under section 999(b)(3). See Answer H-1A.

J-7. Q. Company C signs a contract to construct an industrial plant in Country X. The laws, regulations, requirements or administrative practices of Country X prohibit the importation into Country X of goods produced by blacklisted companies. The contract states that the laws, regulations, requirements or administrative practices of Country X will apply to company C's performance of the contract in Country X. In carrying out the project, Company C invites bids to furnish all goods and equipment on a delivered-in-Country X basis. No company on the blacklist maintained by Country X bids. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. No. By the terms of the agreement Company C has not agreed to refrain from doing business with any of the blacklisted companies. The fact that blacklisted companies are unable to meet the conditions that Company C establishes is not due to any agreement by Company C with Country X, but is due to Country X's laws, regulations, requirements or administrative practices.

J-8. Q. The facts are the same as in Question J-7, except that Company C's purchase contracts require vendors to reimburse Company C for the purchase price and transportation costs, plus interest, of any goods that Company C cannot import into Country X because of Country X's import restrictions. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. No, for the reasons given in Answer J-7. J-9. Q. Company C signs a contract to produce goods in Country X for export. The contract requires Company C to certify that, consistent with the laws, regulations, requirements or administrative practices of Country X, the goods will not be sent to Country Y and that Company C will require any purchaser of the products to certify that the goods will not be sent to Country Y if they are substantially unaltered at the time of resale by the purchaser. Company C thereafter sells these goods to Company A, requiring the certification. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. No. Company C's agreement to refrain, and to require Company A to refrain, from sending Country X's unaltered products to Country Y does not constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii).

J-10. Q. Company C signs a contract to export goods to Country X. The contract requires that the goods be produced by Company A and that a certain component in the goods be produced by Company B. The laws, regulations, requirements or administrative practices of Country X prohibit the impor-

tation into Country X of goods manufactured by any company blacklisted by Country X. Company A and Company B are not blacklisted by Country X. Does Company C's action constitute an agreement under section 999(b)(3)(A)(ii)?

A. No. The existence of an agreement to refrain from doing business with a person blacklisted by Country X will not be inferred solely from a provision in a contract that goods or components must be produced by a specific company that does not in fact appear on the blacklist. Accordingly, Company C's action does not constitute an agreement under section 999(b)(3).

J-11. Q. Company C, incorporated under the laws of any country other than the United States, signs a contract to export goods to Country X. The contract provides that payment will be made by means of a letter of credit confirmed by Bank D. The letter of credit requires Company C to provide to Bank D a certificate that it is not engaged in trade with Country Y before it can be paid by Bank D. Bank D confirms the letter of credit and later makes payment to Company C after determining that all documents, including the boycott certificate, are in order. Does Bank D's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(ii)?

A. No. Bank D's confirmation represents its agreement to refrain from doing business with a person that is not a United States person. Such an agreement does not come within the coverage of section 999(b)(3)(A)(ii).

#### K. REFRAINING FROM DOING BUSINESS WITH ANY COMPANY WHOSE OWNERSHIP OR MANAGEMENT IS MADE UP, IN WHOLE OR IN PART, OF INDIVIDUALS OF A PARTICULAR NATIONALITY, RACE OR RELIGION (SECTION 999(b)(3)(A)(iii)).

K-1. Q. Company C signs a contract to export goods to Country X. The contract provides that the goods will not bear any mark symbolizing Country Y or religion R. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A. No. Section 999(b)(3)(A)(iii) prohibits agreements to refrain from doing business on the basis of the nationality, race or religion of the owners or management of an organization and to refrain from selecting (or to remove) directors of a particular nationality, race or religion. It does not prohibit agreements not to import goods bearing certain marks into a country. No part of section 999(b)(3) concerns refusals to purchase goods bearing marks symbolizing a certain country or religion.

K-2. Q. As a condition of doing business in Country X, Company C's subsidiary in Country X agrees that the board of directors of the subsidiary must consist of a specified number of nationals of Country X. Does such action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A. No. K-3. Q. Company C is the leader of a syndicate of U.S. and foreign banks that is underwriting a public bond issue of Country X. Company D is a member of that syndicate. During the loan negotiations Country X indicates that Company E, which is not a U.S. company, should be excluded from the syndicate because of the religion of some of its directors. Company C and Company D did

not contemplate that Company E would be a member of the syndicate in any event and they agree to comply with the request of Country X. Does the action of Company C and Company D constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A. Yes. The action of Company C and Company D is an agreement to refrain from doing business with a company whose management consists of individuals of a particular religion. Under section 999(b)(3)(A)(iii) this constitutes participation in or cooperation with an international boycott.

K-4. Q. The facts are the same as in Question K-3, except that Country X indicates that Company E may be included only if it removes several of its directors who are of nationality Y. Does the action of Company C and Company D in agreeing to the request of Country X constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A. Yes. The action of Company C and Company D is an agreement to obtain the removal of corporate directors of a particular nationality as a condition of including Company E. This constitutes an agreement under section 999(b)(3)(A)(iii).

K-5. Q. Company C signs a contract to export goods to Country X. The contract provides that payment will be made by means of a letter of credit confirmed by Bank D. The letter of credit requires Company C to provide to Bank D a certificate that its board of directors does not contain any Country Y nationals before it can be paid by Bank D. Bank D confirms the letter of credit and later makes payment to Company C after determining that all documents, including the boycott certificate, are in order. Does Bank D's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii)?

A. Yes. Bank D's action constitutes an agreement to refrain from doing business with companies whose management includes individuals of a particular nationality. This constitutes participation in or cooperation with an international boycott under section 999(b)(3)(A)(iii).

#### L. REFRAINING FROM EMPLOYING INDIVIDUALS OF A PARTICULAR NATIONALITY, RACE OR RELIGION (SECTION 999(b)(3)(A)(iv)).

L-1. Q. Company C signs a construction contract that provides that Company C is not to employ individuals of religion R to work on the project in Country X. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv)?

A. Yes. L-2. Q. Company C signs a contract for a construction project in Country X. The contract specifies that only individuals who are nationals of the United States or Country X will be allowed to work on the project. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv)?

A. No. There is no evidence of an attempt to specifically exclude persons of a particular nationality. Persons of a number of different nationalities, including those from both friendly and unfriendly countries, have been evenhandedly excluded.

L-3. Q. As a condition of doing business in Country X, Company C agrees to employ a specified percentage of nationals of Country X or to employ increasing numbers of nationals of Country X. Does such action con-

stitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv)?

A. No.

L-4. Q. Company C, incorporated under the laws of Country Z, signs a contract for the engineering and construction of an industrial plant in Country X. The contract excludes from working in Country X nationals of Country Z who are also nationals of Country Y. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv)?

A. Yes. Any agreement to differentiate among citizens of Country Z on the basis of dual nationality for employment on a project constitutes participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv).

L-5. Q. Company C signs a contract for the engineering and construction of an industrial plant in Country X. The contract provides that Company C is not to employ in its home office any individuals who are nationals of Country Y to work on the design of the plant. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(A)(iv)?

A. Yes.

M. AS A CONDITION OF THE SALE OF A PRODUCT, REFRAINING FROM SHIPPING OR INSURING THAT PRODUCT ON A CARRIER OWNED, LEASED, OR OPERATED BY A PERSON WHO DOES NOT PARTICIPATE IN OR COOPERATE WITH AN INTERNATIONAL BOYCOTT (SECTION 999(b)(3)(B))

M-1. Q. Company C enters into a c.i.f. contract to export goods to Country X. The contract states that the goods are not to be shipped on a ship blacklisted by Country X. The blacklist contains the names of vessels that have called at ports in Country Y, vessels that are owned, leased or operated by the government, a company or a national of Country Y, and vessels that are owned, leased or operated by persons who engage in activities that are inconsistent with the boycott. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)?

A. Yes. Company C has entered into an agreement described in section 999(b)(3)(B), as well as section 999(b)(3)(A). The answer would be the same if the contract stated that the goods were not to be insured by a company blacklisted by Country X.

M-2. Q. Company C enters into a f.a.s. Port of New York contract for the sale of goods to Country X. While no overseas shipping or insurance provisions are contained in the contract, Company C has reason to believe that arrangements will be made by the purchaser to see that the goods are not shipped on a carrier owned, leased or operated by a person who does not participate in or cooperate with Country X's boycott of Country Y and that the goods are not insured by a person who does not participate in or cooperate with the boycott. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(B)?

A. No. Company C has not agreed as a condition of sale to refrain from shipping on a carrier owned, leased or operated by a person who does not participate in or cooperate with an international boycott or to refrain from insuring the goods with a person who does not participate in or cooperate with an international boycott. It has not

agreed to any shipping or insurance arrangements. Its action thus does not constitute participation in or cooperation with an international boycott according to section 999(b)(3)(B).

M-3. Q. Company C, having its place of business in Country Z, is requested by Country X to enter into a c.i.f. contract to export goods to Country X. However, to avoid participating in or cooperating with an international boycott, Company C successfully convinces Country X that the contract should specify shipment f.a.s. port of Country Z. The remainder of the circumstances are as described in Question M-2. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(B)?

A. No, for the reasons given in Answer M-2.

M-4. Q. Company C, a freight forwarding company having its place of business in Country Z, has a contract with Country X to make, as an agent of Country X, shipping and insurance arrangements for goods which Country X purchases in Country Z on a f.a.s. port of Country Z basis. The contract provides that no shipments will be made on a carrier owned, leased or operated by a person who does not participate in or cooperate with Country X's boycott of Country Y and that the goods will not be insured by a person who does not participate in or cooperate with the boycott. Company C makes shipping and insurance arrangements on that basis. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(B)?

A. Company C's agreement is not made as a condition of the sale of a product to Country X. Therefore, Company C's action does not constitute participation in or cooperation with an international boycott under section 999(b)(3)(B). However, Company C's agreement may constitute participation in or cooperation with an international boycott under section 999(b)(3)(A).

M-5. Q. Company C enters into a contract to export goods to or from Country X. As a precaution to protect against war risk or confiscation, the contract requires Company C not to ship the goods on a Country Y flag vessel or on a vessel owned, controlled, operated or chartered by Country Y or by companies or nationals of Country Y, or on a ship which during the voyage calls at Country Y enroute to or from Country X. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)?

A. No. The requirement in the contract is not a restrictive boycott practice. Rather, the contract provision is presumed to arise from the need to protect goods from damage or loss. However, this answer would not cover a restriction on the choice or route of a vessel when it carries no goods destined for or originating in Country X.

M-6. Q. Company C enters into a contract to export goods to Country X. The contract requires Company C to ship the goods only on a ship registered in Country X. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(B)?

A. No. An agreement to ship goods only on a ship registered in Country X does not constitute an agreement to refrain from shipping or insuring those goods on a carrier owned, leased, or operated by a person who does not participate in or cooperate with an international boycott. Therefore, Company

C's action does not constitute participation in or cooperation with an international boycott under section 999(b)(3).

M-7. Q. Company A signs a contract to export goods to Country X. The contract provides that the goods may not be shipped on a vessel that has been blacklisted by Country X because it has called at Country Y in the past. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(B)?

A. Yes.

M-8. Q. Company C signs a contract to export goods to Country X. The contract contains no requirement that the seller refrain from shipping the goods on a vessel that has been blacklisted by Country X. Company C does not ship the goods on a blacklisted vessel. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)(B)?

A. No. See Answers H-5 and H-23.

M-9. Q. Company C signs a c.i.f. contract to export goods to Country X to be paid for by means of a letter of credit. The letter of credit for this transaction requires, as a condition of payment, that Company C certify as to the identity of the vessel and the identity of the insurer. Company C provides such a certificate to the paying bank. Does Company C's action constitute participation in or cooperation with an international boycott under section 999(b)(3)?

A. An agreement under section 999(b)(3) will not be inferred solely from Company C's certification. However, an overall course of conduct which includes the furnishing of such a certificate in addition to other factors could give rise to such an inference. Repeatedly furnishing such certificates does not constitute such a course of conduct.

#### N. REDUCTION OF FOREIGN TAX CREDIT

N-1A. Q. In the case of a taxpayer applying the international boycott factor under section 999(c)(1), how is the reduction of foreign tax credits for the current year computed under section 908, and how are the foreign taxes carried from the current year to other years treated?

A. 1. *Treatment of foreign tax credits available after applying the limitations of sections 904 and 907.* The international boycott factor is applied to the foreign tax credits available after the application of the limitations of sections 904 and 907 (determined without regard to section 908) in accordance with the following rules:

a. *Foreign tax credits attributable to current year sections 901, 902, and 906 taxes.* The foreign tax credits attributable to foreign taxes paid in the current year under sections 902 or 906 are multiplied by the taxpayer's international boycott factor for the current year. Foreign tax credits in the amount of this product are disallowed in the current year under section 908(a).

b. *Foreign tax credits attributable to section 904(c) and 907(f) taxes carried from a boycott factor year.* The foreign tax credits attributable to foreign taxes deemed paid in the current year under sections 904(c) and 907(f) that are carried from a year in which the taxpayer applied the international boycott factor are multiplied by the taxpayer's international boycott factor for the year from which the foreign taxes were carried. Foreign tax credits in the amount of this product are disallowed in the current year under section 908(a).

c. *Other section 904(c) and 907(f) taxes.* There is no disallowance in the current year under section 908(a) for foreign tax credits attributable to foreign taxes deemed paid in the current year under section 904(c) and 907(f) that are carried from a year: (i) in which the taxpayer did not participate in or cooperate with an international boycott; or (ii) in which the taxpayer applied the specific attribution of taxes and income method under section 999(c)(2); or (iii) ending before November 4, 1978.

If Answers E-2 or E-3 are applicable, the disallowance of foreign tax credits may be computed on a pro rata basis in accordance with those answers.

After the amount of disallowed foreign tax credits has been determined, the taxpayer determines the amount of the disallowed foreign tax credits that may be deducted under Answers N-4 and N-5. No adjustment is made under sections 901, 904 or 908 to reflect the deduction for disallowed credits. Thus, the allowable foreign tax credits for the current year equals the foreign tax credits available (after applying sections 904 and 907 without regard to section 908) less the foreign tax credits disallowed under a. and b. above.

2. *Treatment of foreign taxes not available as a credit by reason of the limitations of sections 904 and 907.* There is no reduction or disallowance in the current year for foreign taxes paid or deemed paid that are not available as credits solely by reason of the limitations of sections 904 and 907. Instead, those foreign taxes remain available for carrying-over and will be disallowed in the year to which they are carried in accordance with the following rules:

a. If the foreign taxes are carried to a year in which the taxpayer applies the international boycott factor, there will be a disallowance (after applying the limitations of sections 904 and 907) of foreign tax credits attributable to the carried-over foreign taxes in an amount equal to the product of those credits multiplied by the taxpayer's international boycott factor for the year from which the taxes were carried.

b. If the foreign taxes are carried to a year in which the taxpayer applies the specific attribution of taxes and income method, there will be a disallowance (after applying the limitations of sections 904 and 907) of foreign tax credits attributable to the carried-over foreign taxes in an amount equal to the product of those credits multiplied by the taxpayer's international boycott factor for the year from which the taxes were carried. (See Answer N-1B.)

c. If, the foreign taxes are carried either to a year in which there was no participation in or cooperation with an international boycott or to a year ending before November 4, 1978, there will be a disallowance (after applying the limitations of sections 904 and 907) of foreign tax credits attributable to the carried-over foreign taxes in an amount equal to the product of those credits multiplied by the taxpayer's international boycott factor for the year from which the taxes were first carried.

If Answers E-2 or E-3 are applicable, the disallowance of the credits attributable to the carried-over taxes may be computed on a pro rata basis in accordance with those answers. No adjustment is made under sections 901, 904 or 908 to reflect any deduction that may be allowed under Answers N-4 and N-5 for the disallowed credits.

N-1B. Q. In the case of a taxpayer applying the specific attribution of taxes and

income method under section 999(c)(2), how is the reduction of foreign taxes or foreign tax credits computed for the current year under section 908, and how are foreign taxes carried from the current year to other years treated?

A. 1. *Treatment of foreign taxes other than foreign taxes carried from a boycott factor year.* The taxpayer first reduces the amount of all foreign taxes paid or deemed paid in the current year, other than foreign taxes deemed paid in the current year under sections 904(c) and 907(f) that are carried from a year in which the taxpayer applied the international boycott factor, by the sum of those foreign taxes that are attributable to specific operations that are—

(a) related to boycotting countries and in connection with which there was boycott participation or cooperation; or

(b) in boycotting countries and have not been clearly demonstrated to be clearly separate and identifiable from operations in connection with which there was boycott participation or cooperation.

There is, of course, no reduction for foreign taxes that are deemed paid in the current year but are attributable to operations completed before November 4, 1976, or to operations completed before December 31, 1977 if the operations are carried out in accordance with the terms of a binding contract entered into before September 2, 1976. Additionally, if Answers E-2 or E-3 are applicable, the reduction of foreign taxes may be computed on a pro rata basis in accordance with those answers.

After the amount of the reduction of foreign taxes has been determined, the taxpayer determines which of the disallowed foreign taxes are deductible under Answers N-4 and N-5. The taxpayer then computes its section 904 limitation, which will reflect a reduction in both taxable income from sources without the United States and entire taxable income for the entire amount of the disallowed foreign taxes that are deducted under Answers N-4 and N-5.

2. *Treatment of foreign taxes carried from an international boycott factor year.* After the taxpayer has determined the reduction in foreign taxes (other than taxes carried from an international boycott factor year) and after the limitations of sections 904 and 907 have been applied in accordance with 1. above, the taxpayer multiplies the foreign tax credits that are attributable to foreign taxes carried from a year in which the taxpayer applied the international boycott factor by the international boycott factor for the year from which the taxes were carried. Foreign tax credits in this amount are disallowed. If Answers E-2 or E-3 are applicable, the disallowance of these credits may be computed on a pro rata basis in accordance with those answers. No adjustment is made at this point under sections 901, 904 or 908 to reflect any deduction that may be allowed under Answers N-4 and N-5 for the disallowed credits attributable to foreign taxes carried from a year in which the taxpayer applied the international boycott factor.

3. *Treatment of foreign taxes carried from a specific attribution of taxes and income year.* Since, in a year in which the taxpayer uses the specific attribution of taxes and income method, the reduction in foreign taxes is made before the determination of the section 904 limitation (see 1. above), no "tainted" foreign taxes will be available for carrying-over to another year. Thus, there will be no reduction in foreign taxes and no

disallowance of credits in another year for taxes carried from a year in which the taxpayer used the specific attribution of taxes and income method.

N-2. Q. After the reduction of foreign taxes or the disallowance of foreign tax credits has been determined in accordance with the processes described in Answers N-1A and N-1B, some of the disallowed taxes or credits may be deductible under section 908(b). If the disallowed taxes or credits are deducted, is a new limitation under section 904, a new section 901 amount or a new section 908(a) amount computed to reflect the reduction in income by reason of the deduction?

A. See Answers N-1A and N-1B.

N-3. Q. Company A owns 20 percent of the stock of Company C, a corporation organized under the laws of Country Z, a foreign country. Company C participates in an international boycott in connection with all its operations. Company C pays a dividend to Company A and Country Z withholds income tax on the dividend paid to Company A. Company A computes its loss of tax benefits by identifying specifically attributable taxes and income under section 999(c)(2). Will Company A be denied its section 901 direct foreign tax credit in respect of the income tax withheld by Country Z on the dividend paid by Company C?

A. If Company A can clearly demonstrate that its investment in Company C is a clearly separate and identifiable operation in connection with which Company A did not participate in or cooperate with an international boycott, Company A will not be denied its section 901 direct foreign tax credit in respect of the withholding tax on the dividend paid by Company C. On the other hand, even if Company C had not participated in an international boycott, if Company A participated in or cooperated with an international boycott in connection with its investment in Company C, Company A would lose its foreign tax credit in respect of the withholding tax on the dividend. Thus, whether Company C participates in an international boycott is not relevant to the determination of Company A's loss of foreign tax credit under the facts of this question. (To determine the denial of the section 902 indirect foreign tax credit for foreign income taxes paid by Company C, see Answer A-19.)

N-4. Q. As a result of participation in or cooperation with an international boycott and the application of section 908(a), Company A loses a portion of its foreign tax credit under both sections 901 and 902. Are the foreign taxes denied creditability under both sections 901 and 902 deductible under section 908(b)?

A. The section 901 taxes denied creditability by reason of section 908(a) are deductible, but the section 902 taxes are not. Section 908(b) merely renders sections 275(a)(4) and 78 inapplicable to taxes denied creditability under section 908(a). Since section 902 taxes are not otherwise deductible under the Code, and since no section 78 gross-up is required in respect of section 902 taxes denied creditability, no deduction is allowed for those section 902 taxes.

N-5. Q. Company A has foreign tax credits under both sections 901 and 902. Company A applies the international boycott factor to determine its loss of foreign tax credits under section 908(a). What portion of the taxes denied creditability will be deductible under section 908(b)?

A. Since the section 901 taxes denied creditability under section 908(a) are deductible

but the section 902 taxes are not, Company A may deduct that portion of the total taxes denied creditability under section 908(a) that the total section 901 taxes (before application of section 908(a)) bear to the total section 901 and 902 taxes (before application of section 908(a)).

#### O. SUBPART F INCOME

O-1. Q. In determining the amount of subpart F income included in gross income by reason of section 952(a)(3), may any deductions be taken into account?

A. Yes. In computing subpart F income included in gross income under section 952(a)(3), a reasonable allowance may be made for deductions (including foreign taxes) properly allocable to that income. See Regs. sections 1.861-8 and 1.954-1(c) for guidance in this regard.

Dated: January 20, 1978.

W. MICHAEL BLUMENTHAL,  
Secretary.

#### [4810-22]

##### NYLON YARN FROM FRANCE

##### Antidumping Proceeding Notice

AGENCY: U.S. Treasury Department.

ACTION: Initiation of Antidumping Investigation.

SUMMARY: This notice is to advise the public that a petition in proper form has been received and an antidumping investigation is being initiated for the purpose of determining whether nylon yarn is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. Sales at less than fair value generally occur when the prices of the merchandise sold for exportation to the United States are less than the prices in the home market or to third countries.

EFFECTIVE DATE: January 25, 1978.

FOR FURTHER INFORMATION CONTACT:

David P. Mueller, Operations Officer, United States Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5492.

SUPPLEMENTARY INFORMATION: On December 15, 1977, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from E. I. duPont de Nemours & Company, Inc., Wilmington, Del., indicating the possibility that the subject merchandise from France is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

For purposes of this investigation, the term "nylon yarn" means nylon

yarn and grouped nylon filaments, not textured, provided for in items 309.3030, 309.3130, 310.0149, and 310.0249, Tariff Schedules of the United States, Annotated.

Pricing information thus far obtained indicates that imports of nylon yarn from France may be sold up to 40 percent below French home market prices for such or similar merchandise.

There is evidence on record concerning injury to, or likelihood of injury to, or prevention of establishment of an industry in the United States. This information indicates that imports of nylon yarn from France are underselling prices of domestic nylon yarn by approximately 10 percent. This underselling is fully accounted for by the alleged dumping margins. In addition, petitioner's production of nylon yarn which had previously been returning profits has now declined to a loss position. Employment in petitioner's plants producing nylon yarn have declined approximately 21 percent between 1975 and 1977, accompanied by a decline in production of similar proportions. Capacity utilization and capital investment have also declined.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

This notice is being published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

HENRY C. STOCKELL, Jr.,  
Acting General Counsel of  
the Treasury.

JANUARY 19, 1978.

##### INTERSTATE COMMERCE COMMISSION

(Ex Parte No. 241, Rule 19; 35th Rev.  
Exemption No. 90)

##### 50-FT. PLAIN BOXCARS

##### Exemption Under Mandatory Car Service Rules

To all railroads:  
It appearing, that the railroads named below own numerous 50-ft. plain boxcars; that under present conditions there are substantial surpluses of these cars on their lines; that return of these cars to the owners would result in their being stored idle; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote

from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of these cars, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, 50-ft. plain boxcars described in the Official Railway Equipment Register, I.C.C.-R.E.R. No. 405 issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM", and bearing reporting marks assigned to the railroads named below, shall be exempt from provisions of Car Service Rules 1, 2(a), and 2(b).

##### FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 20, 1978.

These applications for long-and-short-haul relief have been filed with the ICC.

Protests are due at the ICC on or before February 9, 1978.

FSA No. 43492, The East Asiatic Company's No. 102, on intermodal rates on general commodities, from ports in Japan and Korea, to rail terminals on the U.S. Atlantic and Gulf Coasts by way of U.S. Pacific Coast interchanges, in Trans-Pacific Freight Conference of Japan/Korea, Agent, tariff No. 1, ICC No. 1, to become effective February 16, 1978. Grounds for relief—water competition.

FSA No. 43493, Seaspeed Services' No. 4, on intermodal rates on general commodities, from rail terminals at U.S. Pacific Coast ports, by way of Houston, Tex., to ports in the Middle East, in its tariff No. 1, ICC No. 1, to become effective February 17, 1978. Grounds for relief—water competition.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

#### [7035-01]

(Notice No. 6)

##### SPECIAL PROPERTY BROKERS

JANUARY 19, 1978.

The following applicants seek to participate in the property broker special licensing procedure under 49 CFR 1045A authorizing operations as a broker at any location, in arranging for the transportation by motor vehicle, in interstate or foreign commerce, of property (except household goods), between all points in the United States including Alaska and Hawaii. Any interested person shall file an original and (1) copy of a verified statement in opposition limited in scope to matters regarding applicant's fitness on or before February 24, 1978. Statements must be mailed to:

Broker Entry Staff, Room 2379, Interstate Commerce Commission, Washington, D.C. 20423.

Opposing parties shall serve (1) copy of the statement in opposition concurrently upon applicant's representative, or applicant if no representative is named.

If an applicant is not otherwise informed by the Commission, it may commence operation March 13, 1978.

##### REPUBLICATION

B-77-10, filed October 20, 1977. Applicant: BEKINS DISTRIBUTION SERVICES CO., a California corporation, 910 Grand Central, Glendale, Calif. 91201. Applicant's representative: Norman S. Marshall, 1335 South Figueroa Street, Los Angeles, Calif. 90015.

B-77-14, filed October 30, 1977. Applicant: BEKINS MOVING & STORAGE CO. OF HAWAII, INC., a California corporation, 777 Flower Street, Glendale, Calif. 91202. Applicant's representative: Norman S. Marshall, 1335 South Figueroa Street, Los Angeles, Calif. 90015.

B-77-16, filed October 30, 1977. Applicant: BEKINS MOVING & STORAGE CO. OF MARYLAND, INC., a Maryland corporation, 777 Flower Street, Glendale, Calif. 91202. Applicant's representative: Norman S. Marshall, 1335 South Figueroa Street, Los Angeles, Calif. 90015.

B-77-17, filed October 30, 1977. Applicant: BEKINS MOVING & STORAGE CO., INC., a Massachusetts corporation, 777 Flower Street, Glendale, Calif. 91202. Applicant's representative: Norman S. Marshall, 1335 South Figueroa Street, Los Angeles, Calif. 90015.

B-77-22, filed October 30, 1977. Applicant: BEKINS MOVING & STORAGE CO., INC., a New Mexico corporation, 777 Flower Street, Glendale, Calif. 91202. Applicant's representative: Norman S. Marshall, 1335 South Figueroa Street, Los Angeles, Calif. 90015.

B-77-23, filed October 30, 1977. Applicant: BEKINS MOVING & STORAGE CO., INC., a New York corporation, 777 Flower Street, Glendale, Calif. 91202. Applicant's representative: Norman S. Marshall, 1335 South Figueroa Street, Los Angeles, Calif. 90015.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

### [6720-01]

#### FEDERAL HOME LOAN BANK BOARD.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: Vol. 43, No. 14, Pg. 3010, Friday, January 20, 1978.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 9:30 a.m. January 25, 1978.

PLACE: 1700 G. Street NW., Sixth Floor, Washington, D.C.

STATUS: Open meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Robert Marshall, 202-377-6679.

CHANGES IN THE MEETING: The following item has been added to the open portion of the meeting: Appointment of Director, Office of Community Investment, No. 129, January 20, 1978.

[S-177-78 Filed 1-23-78; 3:57 pm]

### [6720-02]

#### FEDERAL HOME LOAN MORTGAGE CORPORATION.

TIME AND DATE: 2:30 p.m., January 26, 1978.

PLACE: 1700 G Street NW., Sixth Floor, Washington, D.C.

STATUS: Open meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Henry Judy, 202-624-7107.

MATTERS TO BE CONSIDERED: Consideration of Status Report on FHLMC moved to the New FHLBB

Building. Discussion of Loan-to-Value Ratio on Refinance Loans. Announcement is being made at the earliest practicable time.

RONALD A. SNIDER,  
Assistant Secretary.

[S-169-78 Filed 1-23-78; 9:36 am]

### [6730-01]

#### FEDERAL MARITIME COMMISSION.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: January 12, 1978, 43 FR 1883.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: January 18, 1978, 10 a.m.

CHANGES IN THE MEETING: Addition of the following item to the open session:

9. Docket No. 77-22—Action to Adjust or Meet Conditions Unfavorable to Shipping in the Foreign Trade of the United States with Guatemala—Petition for Postponement of Effective Date.

[S-170-78 Filed 1-23-78; 2:14 pm]

### [6210-01]

#### BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., Monday, January 30, 1978.

The closed portion of the meeting will commence at the conclusion of the open discussion.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Part of the meeting will be open; part will be closed.

MATTERS TO BE CONSIDERED:

Open portion: (1) Proposed guide to conduct for directors of Federal Reserve Banks and regulation to be issued, pursuant to 18 U.S.C. 208, regarding specific actions by such directors.

(2) Possible amendments to Regulation H (Membership of State Banking Institutions in the Federal Reserve System) to require that State member banks that effect certain transactions for customers provide confirmations of and maintain certain records with respect to such transactions. Consider-

ation will also be given to seeking comments on the need for regulations involving obtaining the best execution of securities transactions and the establishment of competency and testing requirements for bank employees.

(3) Any agenda items carried forward from a previously announced meeting.

Closed portion: (1) Appointment of new members to the Consumer Advisory Council.

(2) Proposed negotiation of a competitive purchase of computer equipment at the Federal Reserve Bank of Cleveland.

(3) Request by the Federal Reserve Bank of Dallas for approval of a refurbishment program, many aspects of which will involve competitive purchases.

(4) Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

GRIFFITH L. GARWOOD,  
Deputy Secretary of  
the Board.

JANUARY 20, 1978.

[S-168-78 Filed 1-23-78; 9:36 am]

### [6750-01]

#### FEDERAL TRADE COMMISSION.

TIME AND DATE: 10 a.m., Friday, January 27, 1978.

PLACE: Room 432, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

STATUS: Closed.

MATTERS TO BE CONSIDERED: Review of first quarter fiscal year 1978 budget and consideration of fiscal year 1979 budget request to Congress for the following three missions: Maintaining Competition, Consumer Protection, and Economic Activities.

CONTACT PERSON FOR MORE INFORMATION:

Wibur T. Weaver, Office of Public Information, 202-523-3830; recorded message, 202-523-3806.

[S-175-78 Filed 1-23-78; 3:29 pm]

### [6750-01]

#### FEDERAL TRADE COMMISSION.

TIME AND DATE: 10 and 11:30 a.m., and 2 p.m., Thursday, January 26, 1978.

PLACE: Room 432, Federal Trade Commission Building, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

STATUS: Closed/open.

MATTERS TO BE CONSIDERED:

Closed Session: 10 a.m. and 2 p.m.: Monthly policy review session.

(a) (10 a.m.) Discussion of current Commission activities concerning energy, including non-public Part II matters, energy surveys, ad substantiation and Section 205 (Magnuson-Moss) enforcement programs.

(b) (2 p.m.) Discussion of certain future Commission activities relating to energy, including initiation of non-public investigations and intervention in civil proceedings.

Open Session: 11:30 a.m.

Monthly policy review session—Focus on energy; discussion of general Commission responsibilities under the Energy Policy and Conservation Act and proposed National Energy Act, and of the proposed trade regulation rule on labeling and advertising of thermal insulation materials.

CONTACT PERSON FOR MORE INFORMATION:

Wilbur T. Weaver, Office of Public Information, 202-523-3830; recorded message, 202-523-3806.

### [7590-01]

#### NUCLEAR REGULATORY COMMISSION.

TIME AND DATE: Week of January 23, 1978 (Changes).

PLACE: Commissioners' Conference Room, 1717 H Street NW., Washington, D.C.

STATUS: Open/Closed.

MATTERS TO BE CONSIDERED:

Schedule of Meetings for the week has been changed to the following:

Monday, January 23

(11 a.m.)

1.—Proposals for Settlement of Sheffield Waste Disposal Case. Approximately ½ hour, public meeting, as announced.

(1:30 p.m.)

1.—Discussion of Appellate Review in Midland. Approximately 1 hour, closed—Exemptions 6 and 10. Replaces Briefing on Safeguards Contingencies, which is cancelled.

2.—Discussion of Notification of Congress with Regard to International Safeguards Matters. As announced, approximately 1 hour, public meeting.

3.—Briefing on MBO on Decommissioning. As announced, approximately 1 hour, public meeting.

Tuesday, January 24

(9:30 a.m.)

1.—Oral Arguments in St. Lucie (ALAB-420). As announced, approximately 1 hour, public meeting.

2.—Discussion of St. Lucie (ALAB-420). As announced, approximately 1 hour, public meeting.

(1:30 p.m.)

1.—Briefing by Department of State Representatives on Export Matters. As announced, approximately 1 hour, closed—Exemption 1.

2.—Staff Notification to Boards of Relevant and Material New Information. Approximately 1 hour, public meeting. Previously announced as "Briefing on NRC Policy on Notifying Boards and Panels"; rescheduled from January 23, 1978.

3.—Affirmations items, approximately 5 minutes, public meeting, as announced.

Wednesday, January 25

(2 p.m.)

Briefing on Supergrade Study. Approximately 1 hour, public meeting, portions may be closed. Postponed from January 24, 1978.

Thursday, January 26

(11 a.m.)

Discussion of FOIA Appeal for EICSB Report. Approximately 1 hour, postponed from January 24, 1978, public meeting, portions may be closed.

CONTACT PERSON FOR MORE INFORMATION:

Walter Magee, 202-634-1410.

WALTER MAGEE,  
Office of the Secretary.

## PRIVACY ACT OF 1974

### Systems of Records; Annual Compilation

Pursuant to 5 U.S.C. 522a(e)(4), the U.S. Environmental Protection Agency hereby publishes the systems of records as currently maintained by the Agency. EPA has added four systems of records to the compilation since the previous annual publication in *FEDERAL REGISTER* Vol. 41, No. 180, pages 39689-39692, Wednesday, September 15, 1976. Additionally corrections have been made at reference EPA-2 (addresses for system locations in the regions) and at EPA-4 (authority citation for maintenance of the system).

Dated: January 8, 1978.

WILLIAM DRAYTON, Jr.,  
Assistant Administrator  
for Planning and Management.

EPA-1 Payroll System (Departmental Integrated Payroll System; Payroll Accounting Master File; and Detail History File).

EPA-2 General Personnel Records.

EPA-3 Health Unit and Stress Lab Medical Records.

EPA-4 Inspection Branch Reports.

EPA-5 Personnel Security File System.

EPA-6 Security Computer Program System.

EPA-7 Travel Voucher Folders.

EPA-8 Confidential Statement of Employment and Financial Interest Files.

EPA-9 Freedom of Information Act Record.

EPA-10 Parking Permits File System.

EPA-11 Professional Expertise Inventory.

#### EPA-1

**System name:** Payroll System (Departmental Integrated Payroll System; Payroll Accounting Master File; and Detail History File)—EPA

**System location:** U.S. Geological Survey Computer Facility, Reston, Virginia, 20244, HSMA Computer Facility, DHEW, Parklawn Bldg., Rockville, Maryland, 20203; Financial Management Division, EPA, 401 M Street, S.W., Washington, D.C. 20460.

**Categories of individuals covered by the system:** EPA employees.

**Categories of records in the system:** Salary and related payroll cost data and reports.

**Authority for maintenance of the system:** 5 U.S.C. 301; 44 U.S.C. 3301; Title 6, GAO Policy and Procedures Manual, pursuant to 31 U.S.C. 66(a) and sections of 112(a) and 113 of Budget and Accounting Procedures Act of 1950.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To conduct all necessary and appropriate intra-agency payroll activities. To furnish information U.S. Treasury requires to issue paychecks and distribute pay according to employees' directions. To report tax withholding to IRS and appropriate State and local taxing authorities; FICA deductions to SSA; dues deductions to labor unions; withholdings for health and life insurance to insurance carriers and U.S. C.S.C.; charity contribution deductions to agents of charitable institutions; annual W-2 statements to taxing authorities and the individual. Also see routine use paragraphs in Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Computer records maintained on tape, others on paper.

**Retrievability:** Name and employee number.

**Safeguards:** Paper records in locked metal file cabinets and automated filing banks within locked room.

**Retention and disposal:** Retained and disposed of according to (proposed) EPA Records Control Schedules, Appendix B, Records Management Manual.

**System manager(s) and address:** Chief, Payroll Accounts Office, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Individuals, supervisors, timekeepers, official personnel records, IRS.

#### EPA-2

**System name:** General Personnel Records—EPA

**System location:** (a) Personnel Management Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

(b) EPA, Rm. 2211, John F. Kennedy Federal Bldg., Boston, MA 02203

(c) EPA, Rm. 1032, 26 Federal Plaza, New York, NY 10007

(d) EPA, Curtis Bldg., 6th and Walnut Sts., Philadelphia, PA 19106

(e) 345 Courtland Street N.W., Atlanta, Georgia 30308

(f) EPA, 230 S. Dearborn, Chicago, IL, 60604

(g) 1201 Elm Street, First International Building, Dallas, Texas 75201

(h) EPA, 1735 Baltimore Ave., Kansas City, MO 64108

(i) EPA, Lincoln Tower Bldg., 1860 Lincoln St., Denver CO 80203

(j) EPA, 100 California St., San Francisco, CA 94111

(k) EPA, 1200 Sixth St., Seattle, WA 98101

(l) EPA Laboratory, P.O. Box 15027, Las Vegas, NV 89114

(m) EPA Laboratory, 26 West St. Clair Street, Cincinnati, Ohio 45268

(n) EPA, Research Triangle Park, NC 27711

(o) EPA, Office of Mobile Source Air Pollution Control, 2565 Plymouth Rd., Ann Arbor, MI 48105

**Categories of individuals covered by the system:** Employees of EPA and applicants for EPA employment.

**Categories of records in the system:** Nonpermanent personnel records not required to be maintained by the CSC.

**Authority for maintenance of the system:** 5 U.S.C. 301, implemented by 5 CFR Parts 293 and 297.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** These records and the information in the records are used to carry out authorized personnel programs. Routine uses include: Review of employment histories of employees and applicants. Identification of high potential employees designated under the Agency executive development program. Review of developmental needs of high potential employees and current managers GS-15 and above. Review of status of employees participating in special counseling or developmental programs. Identification of candidates for job vacancies.

The records system may include files covering employee relations, individual development plans for high potential employees, individual development plans for current managers GS-15 and above, ACCENT program, Academic Career Advancement program, counseling programs, exit interviews, and voluntary applications. All of the above files are not maintained at each Headquarters/field location. Also see routine use paragraphs of Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** These records are maintained in file folders and generally, in locked cabinets.

**Retrievability:** Indexed by name.

**Safeguards:** Access to and use of is limited to those persons whose official duties require such access.

**Retention and disposal:** Records of employees are kept manually and are generally maintained until the individual terminates his employment with EPA. Records of applicants are kept manually and are destroyed or returned after one year.

**System manager(s) and address:** For records at location (a)—Director, personnel Management Division, (address as given in Systems location above). For records located at (b) to (o)—Personnel Officers (address as given in Systems location above).

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Information in this system comes from the individual to whom it applies or is derived from information provided by Agency officials.

**Systems exempted from certain provisions of the act:** Pursuant to 5 U.S.C. 522a(k)(5), all information and material in the record which meets the criteria of these subsections are or may be exempted from the notice, access, and contest requirements.

#### EPA-3

**System name:** Health Unit and Stress Lab Medical Records—EPA

**System location:** EPA Health Unit, Room 3228, WSM, and EPA Stress Lab, Room 2915, WSM, 401 M Street, S.W., Washington, D.C. 20460.

**Categories of individuals covered by the system:** EPA employees, contract employees, and EPA visitors requiring or requesting medical attention and full-time EPA employees participating in Stress Lab.

**Categories of records in the system:** Medical histories and treatment records.

**Authority for maintenance of the system:** OMB Circular No. A-78, EPA Contract for Health Care.

**Routine uses of records maintained in the system including categories of users and the purposes of such uses:** To document single incidences of walk-in patients, symptoms and treatment, and to maintain a continuing history file on each patient. To document the treatment of those patients requiring the recurring administration of allergy shots and other shots, such as travel immunizations. To document physicals, complete with histories and lab reports, of those 500 employees so examined annually. (Physicals limited to those in grades 14 and above and those over age 40 in grades 11, 12, and 13.) To document requested screenings of patients for various illnesses and conditions through the use of diagnostic tools and tests. For referral of patients to private doctors for treatment, as indicated. To evaluate cardiac status of exercise program participants and the individual desirability of such a program. To detail for patient and personnel specifics and exercise treatment program.

Users of the system are restricted to contracted health personnel, patients, and, upon patient approval, to the patient's private doctor. Also see routine use paragraphs in Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** The records, primarily handwritten or typed cards, forms, files, and EKG graphs, are stored in locked file cabinets.

**Retrievability:** Indexed by name.

**Safeguards:** Access to and use of system is limited to Health Unit and Stress Lab personnel, patients, and, upon patient approval, the patient's doctor. All materials are under lock and key. (Records relating to psychiatric matters may not be made available to a patient, if the physician deems it imprudent, but may be released upon patient approval to the patient's designated physician.)

**Retention and disposal:** Records maintained until employee leaves Agency, when employee may take permanent possession of same. Should employee not take possession, sealed records are sent to Personnel Office for inclusion in official personnel folder, which is sent to Federal Records Center in St. Louis for retention or to new Federal employer, as appropriate.

**System manager(s) and address:** Assistant Director for Operations, Personnel Management Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Patients, patient's doctors, on approval of patient, accident/incidence of illness witnesses, family members of patients, and past Federal employer medical records.

#### EPA-4

**System name:** Inspection Branch Reports—EPA

**System location:** Security and Inspection division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Categories of individuals covered by the system:** EPA employees, or persons or firms under contract to EPA or receiving grants from EPA, suspected of having committed illegal or unethical acts.

**Categories of records in the system:** Contains investigative case file of any person or firm suspected of having committed illegal or unethical acts.

**Authority for maintenance of the system:** Title 28, U.S. Code, Section 535(b), and EPA Order 3120.1A, dated November 29, 1976.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Records reviewed and cases investigated within EPA for illegal or unethical acts. Also see routine use paragraphs of Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** In individual case files.

**Retrievability:** Indexed by name or type of violation.

**Safeguards:** Records are maintained in a vault room secured by a Class 6 manipulation proof three-way combination lock on the vault door, an ultrasonic space alarm, and contact points on the door.

**Retention and disposal:** Held 10 years after investigation is completed and then destroyed by fire.

**System manager(s) and address:** Chief, Inspection Branch, Security and Inspection Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Individual on whom the record is maintained, fellow workers, acquaintances, concerned citizens, phone calls, letters, law enforcement agencies.

**Systems exempted from certain provisions of the act:** Pursuant to 5 U.S.C. 522a(k)(5), all information and material in the record which meets the criteria of these subsections are or may be exempted from the notice, access, and contest requirements.

#### EPA-5

**System name:** Personnel Security File System—EPA

**System location:** Security and Inspection Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Categories of individuals covered by the system:** EPA employees and consultants in sensitive and nonsensitive positions and applicants for sensitive positions within EPA.

**Categories of records in the system:** Full field investigations, national agency checks and inquiries from prior employers, credit checks, and local police checks on the individual and any other checks necessary to further develop questionable suitability/security information. May contain copies of the SF-85, SF-86, and the SF-171, furnished by the individual depending on the sensitivity of the position the individual occupies or will occupy.

**Authority for maintenance of the system:** E.O. 10450, E.O. 11652, and Atomic Energy Act of 1954, as amended.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Information used with E.O. 11652, E.O. 10450, Civil Service Regulations, and the Federal Personnel Manual to issue a security clearance and/or to make suitability determinations on hiring or retention of EPA employees. Also see routine use paragraphs of Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Paper records in file folders.

**Retrievability:** By name.

**Safeguards:** When not in use, within a vault room which has a three-way combination locked door with a contact alarm and an ultrasonic alarm system. Within the vault room, the files are also stored within either a key-locked or three-way combination power file or security cabinet. Access to this vault room is limited to EPA Security and Inspection Division personnel.

**Retention and disposal:** Procedures require a one-year retention after the employee terminates employment with EPA. Upon termination,

the Civil Service Commission investigative reports are destroyed by shredding as is the remainder of the file unless the personnel security file contains derogatory information. If the file contains derogatory information, it is forwarded to the Federal Record Center for retention for 20 years.

**System manager(s) and address:** Director, Security and Inspection Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Direct written requests to the system manager. The request should include requester's full name, date and place of birth, and social security number and signature to preclude erroneous identification. A comparison of the signature of the requester and those in the record will be made to determine identity prior to any release.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Sources vary, but normally could include information furnished by the subject, background data furnished through investigations by authorized Federal investigatory agencies; local police department checks; former employers' inquiries; credit inquiries; and educational institutions inquiries.

**Systems exempted from certain provisions of the act:** Pursuant to 5 U.S.C. 552a(k)(1), (k)(2), and (k)(5), all information and material in the record which meets the criteria of these subsections are or may be exempted from the notice, access, and contest requirements.

#### EPA-6

**System name:** Security Computer Program System—EPA

**System location:** Security and Inspection Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Categories of individuals covered by the system:** Security clearance status of EPA employees or consultants and terminated employees who have been processed through the Security and Inspection Division.

**Categories of records in the system:** Security computer programs are a subsystem of the Personnel Computer System. Security data is entered into the system as follows: social security number, type of investigation requested, position sensitivity, type security clearance requested, place of birth, type of clearance granted, date of clearance, agency conducting investigation, ERDA clearance, date of ERDA clearance and ERDA file number. Only security clearance information applicable to the individual in his EPA position is lifted. Other data listed on the Personnel Computer System is retrievable under the security computer programs, such as name, date of birth, organization, geographical location, etc., and is retrievable through matching of the social security number.

**Authority for maintenance of the system:** E.O. 10450 and E.O. 11652.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Internal use is limited to exchanges between EPA offices requiring clearance data prior to release of classified information. Records of this system of records may be disclosed as 'routine use' to security representatives of Federal, State, or local agencies or to Government contractors performing classified work where security clearance information is required under a statute, or by regulation, rule or order issued pursuant thereto, to permit EPA employees access to classified national security information.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Disc-pack on line with the computer contractor with a backup file stored off line.

**Retrievability:** By Security and Inspection Division personnel via a low-speed remote terminal utilizing IRS Alpha computer language and is printed out on a remote printer. Access to security computer program is gained by using account names, initials, and key words known only to personnel working directly with the system.

**Safeguards:** Printouts obtained from the system are stored, when not in use, within a vault room which has a three-way combination locked door and an ultrasonic alarm system. Access to the printout information is limited to EPA Security and Inspection Division Personnel.

**Retention and disposal:** Clearance information is maintained in an active file until the employee terminates. Subsequent to the employee's termination, the clearance information is removed from the active file,

placed in a terminated file, and maintained for archival purposes.

**System manager(s) and address:** Director, Security and Inspection Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Notification procedure:** Inquiries should be addressed to system manager as above.

**Record access procedures:** Direct written requests to system manager. Request should include subject's full name, date and place of birth, and social security number to preclude erroneous identification. A comparison of the signature of the requester and those of record will be made to determine identity prior to any release.

**Contesting record procedures:** Requests should be addressed to the system manager as above.

**Record source categories:** Sources for this information are obtained from the Personnel Security File and the Personnel Computer System maintained on subject.

#### EPA-7

**System name:** Travel Voucher Folders, Advance Cards, and Payee Files—EPA

**System location:** Financial Management Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Categories of individuals covered by the system:** Employees of EPA, consultants, and private citizens who travel or perform services for EPA.

**Categories of records in the system:** Travel vouchers with reimbursable details for specific trips. Travel advance cards with details of advances received and trip expenses applied. Payee files with itemized invoices.

**Authority for maintenance of the system:** Travel Expense Amendments Act of 1975 (P.L. 94-22); Budget and Accounting Act of 1921; Accounting and Auditing Act of 1950; Federal Claim Collection Act of 1966.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Subgroups of files are used to determine amounts due an individual for authorized and official travel for EPA, and conduct other payee-related activities. Transmittal to U.S. Treasury for payment. Also see routine use paragraphs of Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Manual

**Retrievability:** Name

**Safeguards:** Voucher files are kept in locked room. Advance cards in lockable metal file cabinets. Payee files in locked cabinets.

**Retention and disposal:** Retained and disposed of according to (proposed) EPA Records Control Schedules, Appendix B, Records Management Manual.

**System manager(s) and address:** Accountant-In-Charge, Financial Management Division, EPA, 401 M St., S.W., Washington, D.C. 20460.

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Individual, supervisors, and finance (or accounting) office standard references.

#### EPA-8

**System name:** Confidential Statements of Employment and Financial Interest Files

**System location:** (a) Agency Counselor and Deputy Counselors; EPA, 401 M St., S.W., Washington, DC 20460.

(b) EPA, John F. Kennedy Federal Bldg., Boston, MA 02203.

(c) EPA, 26 Federal Plaza, New York, NY 10007

(d) EPA, 6th & Walnut Sts., Philadelphia, PA 19106

(e) EPA, 345 Courtland Street, N.W., Atlanta, GA 30308

(f) EPA, 230 S. Dearborn, Chicago, IL 60604

(g) EPA, 1201 Elm Street, First International Bldg., Dallas, TX 75270

(h) EPA, 1735 Baltimore Avenue, Kansas City, MO 64108

(i) EPA, Lincoln Tower Bldg., 1860 Lincoln Street, Denver, CO 80203

(j) EPA, 215 Fremont St., San Francisco, CA 94105

(k) EPA, 1200 Sixth Street, Seattle, WA 98101

(l) EPA, Research Triangle Park, NC 27711

(m) EPA Laboratory, 26 West St. Clair Street, Cincinnati, OH 45268

**Categories of individuals covered in the system:** EPA employees at the GS-13 and above grade level or receiving equivalent pay, consultants and experts, Public Health Commissioned Officers.

**Categories of records covered in the system:** Contains EPA Form 1320.1.

**Authority for maintenance of the system:** 40 CFR 3, Section 3.304, EPA Conduct and Discipline Manual, Chapter 4, dated 10/18/76, and E.O. 11222.

**Routine uses of records maintained in the system, including categories of users and the purpose of such use:** Records are evaluated for possible conflict of interest in accordance with law 18 U.S.C. 208 prohibiting Federal employees participation in official activities where there is conflicting interest and Agency regulation in 40 CFR Part 3.

**Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:**

**Storage:** Paper records in file folders.

**Retrievability:** By name.

**Safeguards:** Records are maintained in locked limited access file cabinets.

**Retention and disposal:** Records maintained until employee leaves the Agency then destroyed.

**System manager(s) and address:** For records at (a) Agency Counselor and Deputy Counselors (address as given in system location above). For records located at (b) to (m) Regional Administrators (address as given in system location above).

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Information in this system comes from the individual to whom it applies.

**Systems exempted from certain provisions of the Act:** Pursuant to 5 U.S.C. 522a(k)(5), all information and material which meets the criteria of these subsections are or may be exempted from notice, access, and contest requirements.

#### EPA-9

**System name:** Freedom of Information Act Requests File

**System location:**

(a) Freedom of Information Section, Office of the Administrator, EPA, 401 M St., S.W., Washington, DC 20460.

(b) EPA, Region I, Room 2303, John F. Kennedy Federal Building, Boston, MA 02203

(c) EPA, Region II, Room 1005, 26 Federal Plaza, New York, NY 10007

(d) EPA, Region III, Curtis Building, 6th & Walnut Sts., Philadelphia, PA 19106

(e) EPA, Region IV, 345 Courtland Street, N.E., Atlanta, GA 30308

(f) EPA, Region V, 230 S. Dearborn St., Chicago, IL 60604

(g) EPA, Region VI, First International Building, 1201 Elm St., Dallas, TX 75201

(h) EPA, Region VII, 1735 Baltimore Ave., Kansas City, MO 64108

(i) EPA, Region VIII, Suite 900, 1860 Lincoln Street, Denver, CO 80203

(j) EPA, Region IX, 215 Fremont St., San Francisco, CA 94105

(k) EPA, Region X, 1200 Sixth Ave., Seattle, WA 98101

(l) EPA, Office of General Counsel, 401 M St., S.W., Washington, DC 20460

**Categories of individuals covered by the system:** All persons requesting information under the Freedom of Information Act.

**Categories of records in the system:** Copy of each Freedom of Information Act request received and a copy of the Agency's response and other pertinent correspondence and records.

**Authority for maintenance of the system:** EPA Order 1550.1B, dated 5/31/75 and 40 CFR Part dated September 1, 1976.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To conduct all necessary and

appropriate intra-agency Freedom of Information activities. To compile the reports required by 5 U.S.C. 522(d).

**Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:**

**Storage:** These records are maintained in file folders and in locked cabinets (Duplicate copies of FOI requests and agency responses are filed in binders and are available for public inspection).

**Retrievability:** Name and request identification control number.

**Retention:** Records are maintained in accordance with EPA Record Control Schedules.

**System manager(s) and address:** For records at (a) through (k) Freedom of Information Office (address as given in system location). For records at (l) Contracts and General Administration Branch (address as given in system location above).

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Information in this system comes from the individual to whom it applies.

**System exempted from certain provisions of the Act:** Pursuant to 5 U.S.C. 522a(k)(5), all information and material which meets the criteria of these subsections are or may be exempted from notice, access, and contest requirements.

#### EPA-10

**System name:** EPA Parking Control Office File

**System location:** General Services Branch, Facilities and Support Division, EPA, 401 M St., S.W., Washington, DC 20460.

**Categories of individuals covered by the system:** Persons in existing carpool with principal member being an EPA employee other members may be employed by other Federal agencies or private industry.

**Categories of records in the system:** Permit applications, EPA Form 5160.1.

**Authority for maintenance of the system:** EPA Administrative Services Manual, Chapter 11, dated April 23, 1975.

**Routine uses of records maintained:** To maintain control of numbers of vehicles authorized to use EPA Waterside Mall Garage.

**Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:**

**Storage:** These files are maintained in file folder.

**Retrievability:** Filed by name and permit number.

**Retention:** Records are maintained until carpool is disbanded or employee leaves the Agency.

**System manager(s) and address:** Parking Control Office, General Services Branch, address same as given in system location.

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Information in this system comes from the individual to whom it applies.

NOTICES

**Categories of records covered in the system:** Name of individual, current organization, title, educational background, disciplines, specialty areas, specific subject knowledge, specific chemical substance experience, names of government organizations with which the individual has worked with or for, names of countries with which the individual has a technical or environmental awareness, specific language skills, membership in professional societies and working group affiliations, publication references, and professional history (includes period of employment, name of employer, position title, and description of significant projects).

**Authority for maintenance of the system:** 5 U.S.C. 301.

**Routine uses of records maintained in the system:** Information will be used internally by EPA to identify individuals with appropriate expertise for appointment or nomination to working groups and task forces, provision of consultation support on projects, and contact on collaborative studies.

**Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:**

**Storage:** Maintained in file folders in cabinets and on computer disk.

**Retrievability:** By any data item included in a record.

**Safeguards:** Access and use of information is limited to those persons whose official duties require access.

**Retention and disposal:** Records maintained until employee leaves the Agency, then destroyed.

**System manager(s) and addresses:** For records at (a) Assistant Administrator for Research and Development (address as given in system location in (a) and (b) above). For records located at (b) Laboratory Directors (address as given in system location for (c) through (k) above).

**Notification procedure:** Inquiries may be addressed to system manager.

**Record access procedures:** Requests should be addressed to system manager.

**Contesting record procedures:** Requests should be addressed to system manager.

**Record source categories:** Information in this system comes from the individual to whom it applies.

WEDNESDAY, JANUARY 25, 1978  
PART III

DEPARTMENT OF  
COMMERCE  
Industry and Trade  
Administration

RESTRICTIVE  
TRADE PRACTICES  
OR BOYCOTTS

## [3510-25]

## Title 15—Commerce and Foreign Trade

## CHAPTER III—INDUSTRY AND TRADE ADMINISTRATION, BUREAU OF TRADE REGULATION, DEPARTMENT OF COMMERCE

## PART 369—RESTRICTIVE TRADE PRACTICES OR BOYCOTTS

AGENCY: Industry and Trade Administration (formerly Domestic and International Business Administration), Bureau of Trade Regulation, Department of Commerce.

ACTION: Final Rules.

SUMMARY: The agency is amending the Restrictive Trade Practices or Boycotts part of the Export Administration Regulations (Part 369, Title 15, Code of Federal Regulations). The changes are being made to implement Title II of the Export Administration Amendments of 1977 (Pub. L. 95-52), signed into law on June 22, 1977. In general, these regulations prohibit United States persons from complying with specified foreign boycott requirements, including the furnishing of boycott-related information.

DATE: These rules are effective January 18, 1978, as required by Pub. L. 95-52, upon filing with the Federal Register. The promulgation of these boycott regulations is exempt from Administrative Procedure Act rulemaking procedures.

FOR ADDITIONAL INFORMATION CONTACT: Vincent J. Rocque (telephone 202-377-5491) or Kent N. Knowles (telephone 202-377-2512).

SUPPLEMENTARY INFORMATION: Pursuant to Section 4A(a)(5) of the Export Administration Act of 1969, as amended (the "Act") (50 U.S.C. App. 2403-1a(a)(5)), the Department of Commerce published proposed rules concerning restrictive trade practices or boycotts in the FEDERAL REGISTER dated September 23, 1977 (42 FR 48556).

More than 7,000 copies of the proposed rules were mailed to members of Congress, state government officials, exporters, business and trade associations, special interest groups, law firms, and all persons requesting a copy. Interested parties were invited to provide comments on or before noon, November 21, 1977. Department officials have carefully considered all comments received and revised the proposed regulations as appropriate.

## DISCUSSION OF COMMENTS

On September 20, 1977 the Department invited interested persons to submit comments on its proposed regulations to implement Title II of the Export Administration Amendments of 1977. Comments were to be deliv-

## RULES AND REGULATIONS

ered by noon, November 21, 1977. In response, the Department received 178 submissions containing comments and suggestions totalling over 1,000 pages. Earlier, in response to its July 13, 1977 advance notice of proposed rulemaking in this matter, the Department received 152 submissions containing comments totalling over 1,750 pages. Included in these totals are written summaries of meetings between officials of the Department and numerous persons who requested such meetings in order to make comments and suggestions on the regulations to implement the Act. All these comments are on the public record and have been carefully considered by the Department.

The principal issues raised by the comments and the Department's response to them are described below.

## "CONTROLLED IN FACT"

Title II of the Export Administration Amendments of 1977 applies only to United States persons. The statute defines "United States person" to include any domestic concern's foreign subsidiary or affiliate which is controlled in fact by such domestic concern as determined by the regulations.

Under the proposed regulations, the presence of certain factors (such as ownership or control of more than 50 percent of a subsidiary's voting stock) would have created a conclusive presumption that a foreign subsidiary was controlled in fact by its domestic parent. Other factors (such as ownership or control of more than 25 percent of a subsidiary's voting stock) would have created a rebuttable presumption of control. In addition, a presumption of control would have existed where a United States person had authority to appoint both a majority of the members of the board of directors and the chief operating officer of its foreign subsidiary or affiliate.

A number of those commenting argued that there should be no conclusive presumptions of control and that the presumptions set forth as rebuttable presumptions were invalid presumptions. They further argued that a foreign subsidiary or affiliate should be presumed not to be controlled by its domestic parent where the parent owns or controls 50 percent or less of the subsidiary's or affiliate's voting securities.

Others contended that the regulations should not require that the authority to appoint both a majority of the subsidiary's board and its chief operating officer be present in order to raise a presumption of control. Either authority, it was argued, should be sufficient.

The final regulations provide that all presumptions of control are rebuttable; none are conclusive. Conclusive presumptions leave no scope for the

wide variety of factors which bear on the question of control. It is possible, for example, to own well over 50% of a foreign subsidiary's voting securities and not possess effective control. Under the regulations as modified, presumptions of control still exist; however, they may be rebutted by competent evidence showing that despite the existence of certain factors evidencing control, control does not in fact exist.

The final regulations establish a rebuttable presumption of control where the domestic concern owns or controls more than 50 percent of the voting securities of the foreign subsidiary or affiliate. In addition, they establish a rebuttable presumption of control where the domestic concern owns or controls more than 25 percent of the voting securities of the foreign subsidiary or affiliate and no other person owns or controls an equal or larger percentage.

Finally, the final regulations provide for a presumption of control if the domestic concern has the authority to appoint either a majority of the board of directors or the chief operating officer of the foreign subsidiary of affiliate. The first power presumes the authority or ability to establish the general policies of the subsidiary or affiliate. The second power presumes the authority or ability to control the subsidiary's or affiliate's day-to-day operations.

All these presumptions of control may be rebutted by competent evidence showing that control does not in fact exist.

The final regulations establish no presumptions regarding the absence of control. Control in fact consists of the authority or ability to establish a subsidiary's or affiliate's general policies or control its day-to-day operations. Control in practice does not necessarily require ownership of a particular proportion of a subsidiary's voting securities, nor does it necessarily require any other particular relationship between parent and subsidiary to the exclusion of all others. Hence, it would be illogical to presume that any particular factor indicated the absence of control.

## ACTIVITIES IN THE INTERSTATE AND FOREIGN COMMERCE OF THE UNITED STATES

Disposition of U.S.-origin goods by controlled foreign subsidiaries or affiliates. The proposed regulations provided that a controlled foreign subsidiary's or affiliate's activities with respect to U.S.-origin goods are in United States commerce if the goods are acquired for incorporation into or manufacture of another product for purposes of filling an order from or completing a transaction with a boycotting country. They further provided that the activities of such sub-

sidary or affiliate with respect to U.S.-origin goods are in United States commerce if the goods are ultimately used, without substantial alteration or modification, in filling an order from or completing a transaction with a boycotting country.

The final regulations remain essentially unchanged.

Several persons argued for adoption of a "come to rest" theory whereby United States commerce would end at the point where U.S.-origin goods reach the foreign subsidiary. Under that theory, the subsidiary's subsequent disposition of the goods would not constitute an activity in United States commerce.

The final regulations do not adopt this "come to rest" theory. The legislative history makes it clear that Congress intended the Act to apply to dispositions by a controlled foreign subsidiary of U.S.-origin goods and services. Under the "come to rest" theory, such dispositions would not be subject to this Part.

The regulations give the term "activities in the interstate or foreign commerce of the United States" a scope sufficiently broad to accomplish the Congressional purpose without unduly interfering in the interest of foreign countries in regulating the conduct of persons subject to their jurisdiction.

Ancillary services. The proposed regulations provided that if any part of a transaction were in U.S. commerce, the entire transaction would be in U.S. commerce. For example, a U.S. bank's financing (other than through a letter of credit) of a U.S.-controlled foreign subsidiary's transaction with a boycotting country would bring the subsidiary's transaction into U.S. commerce even though the transaction was otherwise wholly outside U.S. commerce.

A number of persons commented that a foreign subsidiary's receipt from the United States of ancillary services such as financial assistance, insurance, or legal counsel should not, in and of itself, bring the subsidiary's transaction with a third party into U.S. commerce.

The final regulations provide that the furnishing of such U.S.-source "ancillary" services is itself an activity in U.S. commerce. However, they further provide that a foreign subsidiary's receipt of such services does not, in and of itself, bring the subsidiary's otherwise foreign transaction into U.S. commerce.

Ancillary services are provided primarily for the subsidiary's own use rather than that of a third person. They include financial, accounting, legal, transportation or other services (whether provided by the subsidiary's parent or an unrelated entity).

Such ancillary services are typically interchangeable with those furnished

## RULES AND REGULATIONS

by non-U.S. persons and could be obtained from non-U.S. sources with relative ease. A rule which discourages the use of U.S.-source ancillary services would have little if any positive anti-boycott effect. Indeed it could have adverse anti-boycott consequences by driving U.S.-controlled foreign subsidiaries into the hands of foreign companies which have little if any compunction about complying with foreign boycotts opposed by the United States.

Thus, the provision of project financing by a U.S. bank or legal services by a U.S. law firm to a U.S.-controlled foreign subsidiary is an ancillary service which, in and of itself, will not cause the subsidiary's transaction to be in U.S. commerce. By contrast, where a domestic concern, on behalf of its controlled foreign subsidiary, gives a guaranty of performance to a boycotting country customer, that is a service provided to the customer, and, as such, brings the subsidiary's transaction with the customer into U.S. commerce. Similarly, architectural or engineering services provided by a U.S. company in connection with a U.S.-controlled foreign subsidiary's construction project in a third country are typically passed through to the subsidiary's customers and, as such, bring the subsidiary's transaction in the third country into U.S. commerce.

Direction to a Foreign Subsidiary. The proposed regulations provided that the activities of a U.S. parent corporation in specifically directing the activities of its controlled foreign subsidiary or affiliate are activities in U.S. commerce. The proposed regulations further provided that such activities brought the foreign subsidiary's otherwise wholly foreign transaction into U.S. commerce.

Several of those who commented argued that it is an impermissible extension of the concept of U.S. commerce to bring within its framework otherwise wholly foreign activities simply because they were taken at the direction of a U.S. person. Furthermore, it was pointed out that jurisdiction over the person making the specific direction is sufficient to accomplish the anti-boycott objectives of the statute.

The final regulations agree with this view. The activities of a U.S. parent corporation in specifically directing prohibited boycott compliance by its controlled foreign subsidiary or affiliate are activities in U.S. commerce. In and of themselves they do not bring into U.S. commerce activities which are otherwise wholly outside U.S. commerce. From the point of view of U.S. anti-boycott policy, this distinction is immaterial. From the point of view of conformity with permissible notions of U.S. commerce, this distinction is essential.

## FURNISHING PUBLICLY AVAILABLE BOYCOTT-RELATED INFORMATION

The statute prohibits a U.S. person from furnishing or knowingly agreeing to furnish information relating to its own or any other person's past, present or proposed business relationships with a boycotted country or any person who is known or believed to be blacklisted. However, the law permits the furnishing of normal business information in a commercial context.

The proposed regulations provided that no information could be furnished in response to a boycott request even if the information is publicly available—such as through a company's annual report.

A number of persons submitted comments arguing that the regulations permit a subtle form of "international blackmail." They expressed the fear that competitors would prompt boycotting countries to send American companies boycott questionnaires to which a law-abiding company will refuse to respond and, thus, result in the company being blacklisted. They contend, therefore, that this potential harm should be mitigated by permitting companies to respond to boycott requests with information which is publicly available.

The final regulations carry forward the provision in the proposed regulations. No information about business relationships with blacklisted persons or boycotted countries may be furnished—with intent to comply with, further, or support a foreign boycott. It makes no difference whether the information is publicly available. The statute creates no exception for such circumstances. So long as the necessary intent exists, the furnishing of such information is a violation of the law.

## "INTENT"

In order for there to be a violation of the law, the statute requires that a person take action with intent to comply with, further or support an un-sanctioned foreign boycott.

The proposed regulations provided a definition of intent under which a person would be presumed to have the necessary intent when the boycott was "a motivating factor" in its decision.

Some persons urged that no regulations on intent be issued and that the matter of intent be left entirely to the courts to decide. Others argued that a person must specifically intend to comply with, further, or support a boycott before a violation can be proven. Still others took the position that the use of the term "motivating factor" in defining intent created an unnecessary and difficult standard for the Government in proving the requisite intent.

The final regulations provide that a person has the necessary intent when

compliance with, furthering, or supporting an unsanctioned foreign boycott is at least one of the reasons for his action. So long as that is at least one of the reasons for his action, a violation occurs regardless of whether the action is also taken for non-boycott reasons. Stated differently, the fact that an action is taken for legitimate business reasons does not remove that action from the scope of these regulations if compliance with a boycott is also a reason for the action.

So far as the meaning of intent is concerned, the statute makes it clear that intent is a necessary element of any violation. It is not sufficient that one take action that is specifically prohibited under the statute. It is essential that one take such action with intent to comply with, further, or support a foreign boycott. Intent in that context means the reason or purpose for one's behavior. It does not mean that one has to agree with the boycott in question or desire that it succeed or that it be furthered or supported. But it does mean that the reason why a particular action was taken must be established.

Reason or purpose can be proved by circumstantial evidence. For example, if a person receives a request to supply certain boycott information which the statute proscribes and he knowingly supplies that information in response, he clearly intends to comply with that boycott request. It is irrelevant that he may disagree with or object to the boycott itself. On the other hand, if he refuses to do business with someone who happens to be blacklisted, but the reason is because that person produces an inferior product, the requisite intent does not exist.

This view of intent is consistent with the Congressional intent, as evidenced by the statute and its legislative history, to require that action be punishable only if its reason or purpose was to comply with, further, or support an unsanctioned foreign boycott.

#### UNILATERAL SELECTION

The statute allows an exception for compliance with the unilateral and specific selection by a boycotting country, or national or resident thereof, of carriers, insurers, suppliers of services to be performed within the boycotting country or suppliers of specifically identifiable goods to be imported into a boycotting country.

**Pre-selection services.** Under the proposed regulations, a person's selection of goods or services is "unilateral" even if he has been provided pre-selection services so long as such services are not in any way boycott based.

Pre-selection services might consist of a general contractor supplying his client with a list of qualified architects or competent engineers from which the customer may make his selection.

Under the proposed regulations, so long as such services are provided wholly without reference to boycott considerations (e.g., so long as the contractor does not exclude an architect from his list of qualified architects because he is blacklisted), they do not destroy the unilateral character of the customer's or client's subsequent selection.

Some of those who commented took the position that the provision of any pre-selection services destroys the "unilateral" character of the selection subsequently made by the client, and, thus, no such selection may be complied with by a person subject to the Act where pre-selection services have been provided.

As in the proposed regulations, the final regulations provide that the provision of so-called "pre-selection" services does not, in and of itself, destroy the unilateral character of another person's selection so long as such services are not boycott-based. However, the final regulations also require that such services be of a type customarily provided in similar transactions by the firm (or industry of which the firm is a part) as measured by the practice in non-boycotting as well as boycotting countries. If such services are not customarily provided in similar transactions or are provided in such a way as to exclude blacklisted persons from participating in a transaction or diminish their opportunity for such participation, then they may not be provided without destroying the unilateral character of any subsequent selection.

These additional constraints are imposed in the final regulations in order to ensure that pre-selection services are not used as a device to facilitate boycott-based decisions by boycotting country buyers. But pre-selection services, in and of themselves, do not destroy the unilateral character of another person's selection so long as that other person in fact is the one that makes the selection and so long as those services are not provided in order to help that other person make a boycott-based selection.

To conclude otherwise would effectively bar U.S. persons, principally those engaged in general contracting, from providing in boycotting countries services which they customarily provide elsewhere, and there is no evidence of Congressional intent to do so.

Indeed, such an absolute bar would be counter-productive from the point of view of U.S. anti-boycott policy, since it would drive boycotting country buyers into the hands of foreign suppliers of pre-selection services who might have no compunction about excluding blacklisted suppliers from lists of qualified suppliers or otherwise discriminating against blacklisted persons. By permitting U.S. persons to

supply pre-selection services and by insisting that they be provided wholly without reference to any boycott, the opportunity for blacklisted persons to participate in boycotting country transactions is likely to be enhanced.

**Services to be performed within the boycotting country.** The proposed regulations permitted a person to comply with a unilateral selection of a supplier of services so long as some portion of the services were to be performed within the boycotting country.

Several persons urged the Department to permit use of the exception for the selection of services only if the services are to be performed exclusively or almost exclusively within the boycotting country. Others took the position that the exception should be permitted only if most of the services are to be performed within the boycotting country. Many urged that the provision be retained as proposed.

Neither the statute nor its legislative history restrict the availability of this exception to services which are performed totally or primarily within the boycotting country. However, in order to prevent use of this exception as a device for complying with foreign boycotts in circumstances where it was not intended, the final regulations provide that services are "to be performed within the boycotting country" for the purposes of this exception only if they are of a type which would customarily be performed within the boycotting country and the part performed within the country is a necessary and not insignificant part of the total service performed.

What is "customary" and "necessary" for these purposes depends on the practice of the supplier of the service or the industry of which it is a part as measured by the practice in non-boycotting as well as boycotting countries insofar as the practice in boycotting countries is not the result of accommodation to these regulations.

These constraints will permit use of the exception for the selection of suppliers of services which in good faith must be performed within the boycotting country while ensuring that it is not used as a mechanism for unrestrained compliance with foreign boycotts in the selection of suppliers of services.

**Specifically identifiable goods.** The statute contains two exceptions—for "unilateral selections" and compliance with local law—which, under certain conditions, permit the boycott-based importation of products into a boycotting country. In order for the exceptions to be available, the statute requires that the origin of the products be specifically identifiable at the time of their entry into the boycotting country.

Under the proposed regulations, identifiability is measured by the ability

to identify the source of the product either by physical inspection of the goods themselves or their packaging.

Several persons who commented argued that the proposed regulations construe the exceptions too narrowly and that identifiability should also be measurable by what an inspection of the import or shipping documents accompanying the goods would disclose. Others took the position that the proposed regulations construe this exception too broadly and that identifiability must be measured only by what a physical inspection of the items themselves would disclose and not by what an inspection of their packaging would disclose.

The final regulations adopt neither view and are retained as proposed. The legislative history of the statute makes it clear that the test for "identifiability" is whether it is generally possible, in the normal course of business, for the buyer or customs agent or similar official to identify the supplier or manufacturer of a particular product or component by inspection of the product itself. The "product" necessarily includes both the items and their packaging. For example, a product such as ready-to-eat breakfast cereal clearly consists of both the cereal itself as well as the box in which it is contained. On the other hand, to permit identifiability to be measured by what the shipping documents would disclose would vitiate virtually all limitations on the notion of specific identifiability.

Regardless of whether an inspection is in fact made, the test is whether an inspection of the items, including their packaging but excluding their shipping documentation, would disclose the source of the product. If so, it is "specifically identifiable" for purposes of these exceptions; if not, it does not qualify. This view is consistent with legislative purpose and intent.

#### COMPLIANCE WITH LOCAL LAW

The statute contains an exception to the prohibitions to permit a U.S. person resident in a boycotting country to comply with that country's boycott laws with respect to his activities exclusively within the country and with respect to the importation of products "for his own use, including the performance of contractual services."

"For his own use, including the performance of contractual services." The proposed regulations interpreted the phrase "for his own use, including the performance of contractual services," to include goods imported for turnkey and general retail merchandising operations.

Several of those who commented took the position that the phrase was construed too broadly. They argued

that the exception should be available only with respect to goods intended for a person's own use in the sense of consumption or permanent possession and not where the goods might subsequently be transferred directly or indirectly to another person's possession. Under that view, the exception would not be available for goods imported for resale in a retail operation or for goods, such as cement, nails, steel, etc., which were incorporated into a building being constructed for another.

Under the final regulations, the importation of goods that are to be placed in inventory for subsequent resale without further manufacture or incorporation into another product are excluded from the coverage of this exception. In addition, the final regulations restrict the availability of the exception to situations where goods are imported for further manufacture or incorporation into a project, such as a construction project, whether on a turnkey basis or otherwise. Moreover, under the final regulations, goods imported for such purposes are not for one's own use if they are not customarily incorporated into, or do not customarily become permanently affixed as a functional part of, the project.

These limitations are intended to ensure that this exception is not utilized for import transactions which are akin to import for resale operations. The legislative history of this exception makes it clear that it was not intended to be used for simple resale operations or where the person making the imports acts as a procurement agent for another. By limiting its availability to circumstances where the goods are incorporated as a functional part of another product or project, the final regulations will help ensure that the exception is not used in a manner unintended by the Congress.

**Importation of services.** The exception which permits a U.S. person who is a bona fide resident of another country to comply with the import laws of that country with respect to the importation of products for his own use, makes no mention of services.

A number of persons who commented contended that the exception should be available for compliance with laws or regulations relating to the import of services as well as goods. A principal party to the negotiations that led to the drafting of the statutory language has characterized the omission of an express reference to services in this exception as "an inadvertent error in draftsmanship."

The final regulations have not been modified to bring services within this exception. However forceful the arguments the other way, the language of the statute is simply not susceptible of such a construction. In other provisions of the statute (e.g. the excep-

tions for unilateral selection and compliance with import requirements) the Congress made express reference to services. It could have done so under this provision as well but did not.

**Scope of the exception.** The proposed regulations provide that the exception governing compliance with local import law would be available for all United States persons qualifying as bona fide residents of a foreign country in order to avoid serious adverse economic and political consequences for the United States.

Some of those who commented took the position that the exception should be available not through regulations, but only through individual applications for case-by-case waivers. Others urged that the exception should be available only in limited circumstances, but they did not specify which circumstances.

The final regulations governing the scope of this exception have not been substantively changed. The legislative history of the Act clearly demonstrates Congressional intent that this exception be available through regulations and not through a case-by-case waiver system advocated in some of the comments. Under such a system, the exception would be available for a company only after its waiver application was approved by the Department. The result would be inherent unfairness for those whose applications awaited approval. In addition, it would impose on the Department an administrative burden which it could not possibly meet.

Congress intended this exception not as an avenue for general boycott compliance but rather as a means to permit limited boycott compliance by U.S. persons resident in a boycotting country. Accordingly, the final regulations place careful limits on its scope.

A resident must be a bona fide resident before the exception is available. Nine criteria are set out for determining whether a United States person is a bona fide resident. In addition, the regulations limit the exception's coverage to products that are both "specifically identifiable" and for the importing person's own use with stringent tests of what constitutes "own use."

Use of this exception will be monitored and continually reviewed to determine whether its continued availability is consistent with the national interest. Its availability may be limited or withdrawn as appropriate.

#### "RISK OF LOSS" CONTRACTUAL PROVISIONS

The statute prohibits boycott-based refusals to do business. Under the proposed regulations, use of a contractual clause requiring a person to assume the risk of loss for non-delivery of his products in a boycotting country would not, in and of itself, constitute a

refusal to do business. The rationale for that position is that a person insisting on such a provision stands ready to do business with anyone. His insistence that the supplier of goods bear any loss arising from the inability of the goods to gain entry into a boycotting country is not a refusal to do business with anyone who will not agree to such a provision.

Some of those commenting took the position that use of the "risk of loss" provision constitutes a refusal to do business, because it would inhibit anyone on a blacklist from bidding to supply a product destined for a boycotting country. At the very least, they argued, its use should constitute evasion. Others who commented agreed with the proposed regulations on this point.

The final regulations recognize that various devices, including risk of loss provisions, may be employed in such a way as to place a person at a commercial disadvantage because he is blacklisted and thereby effect discrimination against him because of his blacklisted status. Accordingly, use of any artifice, device, or scheme which is intended to place a person at a commercial disadvantage or imposes on him special burdens because he is blacklisted or otherwise restricted from having a business relationship with or in a boycotting country will be regarded as evidence of evasion for purposes of these regulations. Among the factors which will be considered in determining whether a particular arrangement is employed for purposes of evasion are customary practice and usage.

Unless permitted under one of the exceptions, use of risk of loss provisions which expressly impose a financial risk on another because of the import laws of a boycotting country may constitute evasion. If they are introduced after the effective date of these regulations, there is a rebuttable presumption that they are used for purposes of evasion. If used by a U.S. person prior to the effective date of these regulations, there is a presumption that his use does not constitute evasion.

The Department recognizes that it is not possible to deal categorically with the variety of contractual or other arrangements that may be employed in transactions with boycotting countries. But unusual arrangements which have the effect of limiting the economic opportunities of blacklisted persons because of their blacklisted status will be carefully scrutinized to determine whether they are employed for purposes of evading these regulations.

#### EVASION

The anti-evasion section of the statute provides that the law applies to any transaction or activity undertaken

with intent to evade the provisions of the law.

The proposed regulations gave some examples of what constitutes evasion and also expressly stated that repeated use of the exceptions would not constitute or give rise to an inference of evasion.

Some persons commented that repeated use of the exceptions should be evidence of, or should raise a presumption of, an intent to evade the Act. They urged that the regulations spell out the type of activity that will constitute evidence of intent to evade.

Others took the position that the interpretation of evasion should be limited to the use of contrivances or artifices to accomplish what would otherwise be an unlawful act.

Still others argued that the matter of evasion should be left to the courts. However, they suggested that the regulations clarify that restructuring one's business relationships in an effort to comply with the Act should not be considered evasion.

The final regulations on evasion make it clear that the exceptions do not permit activities or agreements (express or implied by a course of conduct, including a pattern of responses) which are otherwise prohibited and which are not within the intent of the exceptions. However, activities within the coverage and intent of the exceptions do not constitute evasion regardless of how often the exceptions are utilized. The rationale for this position is that repeated lawful actions cannot be treated as violations of the law just because they are repeated. The creation of these exceptions would have been a futile gesture by the Congress if their use were itself a violation of the law.

Under the final regulations, use of any artifice, device or scheme which is intended to place a person at a commercial disadvantage or impose on him special burdens because he is blacklisted will be regarded as evasion unless permitted by one of the exceptions. In addition, unless permitted under one of the exceptions, use of risk of loss provisions which expressly impose a financial risk on another because of the import laws of a boycotting country may constitute evasion. If they are introduced after the effective date of these regulations, there will be a rebuttable presumption that they are used for purposes of evasion. If used by a U.S. person prior to the effective date of these regulations, there is a presumption that such use does not constitute evasion. Furthermore, use of dummy corporations or other devices to mask prohibited activity will also be regarded as evasion. Similarly, it is evasion to divert specific boycotting country orders from United States parent companies to their foreign subsidiaries for purposes of complying

with prohibited boycott requirements. However, alteration of a person's structure or method of doing business will not constitute a violation of this section so long as the alteration is based on legitimate business considerations and is not undertaken solely to avoid the application of the prohibitions of this Part.

In all potential cases of evasion, the facts and circumstances of an arrangement or transaction will be carefully scrutinized to see whether appearances conform to reality.

**DRAFTING INFORMATION:** The principal authors of these rules were Stanley J. Marcuss, Deputy Assistant Secretary for Trade Regulation; Homer E. Moyer, Jr., Deputy General Counsel; Kent N. Knowles, Deputy Assistant General Counsel for Industry and Trade; Vincent J. Rocque, Special Assistant to the Director, Bureau of Trade Regulation; and Pamela P. Breed, Office of General Counsel.

The old sections 369.1, 369.2, and 369.3 of Part 369 of Title 15 of the Code of Federal Regulations are revoked, and new sections 369.1, 369.2, 369.3, 369.4 and 369.5 of this Part 369 are issued as set forth below. The old section 369.4 of this Part is redesignated as section 369.6, to remain in effect until later revised. (Proposed regulations to revise old section 369.4 were published for comment in the *FEDERAL REGISTER* on December 30, 1977 (42 FR 65592).)

Issued in Washington, D.C., on January 18, 1978.

STANLEY J. MARCUSS,  
Deputy Assistant Secretary  
for Trade Regulation.

#### § 369.1 Definitions.

(a) *Definition of "Person".* For purposes of this Part, the term "person" means any individual, or any association or organization, public or private, which is organized, permanently established, resident, or registered to do business, in the United States or any foreign country. This definition of "person" includes both the singular and plural and, in addition, includes:

- (1) any partnership, corporation, company, branch, or other form of association or organization, whether organized for profit or non-profit purposes;
- (2) any government, or any department, agency, or commission of any government;
- (3) any trade association, chamber of commerce, or labor union;
- (4) any charitable or fraternal organization; and
- (5) any other association or organization not specifically listed above.

(b) *Definition of "United States Person".* (1) Part 369 applies to United States person. For purposes of this Part, the term "United States person"

means any person who is a United States resident or national, including individuals, domestic concerns, and controlled in fact foreign subsidiaries, affiliates, or other permanent foreign establishments of domestic concerns. This definition of "United States person" includes both the singular and plural and, in addition, includes:

- (i) the government of the United States or any department, agency, or commission thereof;
- (ii) the government of any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any subdivision, department, agency, or commission of any such government;
- (iii) any partnership, corporation, company, association, or other entity organized under the laws of (i) or (ii) above;
- (iv) any foreign concern's subsidiary, partnership, affiliate, branch, office, or other permanent establishment in any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States; and
- (v) any domestic concern's foreign subsidiary, partnership, affiliate, branch, office, or other permanent foreign establishment which is controlled in fact by such domestic concern. (See section 369.1(c) on "Definition of 'Controlled in Fact'".)

(2) The term "domestic concern" means any partnership, corporation, company, association, or other entity of, or organized under the laws of, any jurisdiction named in (i) or (ii) above, or any permanent domestic establishment of a foreign concern.

(3) The term "foreign concern" means any partnership, corporation, company, association, or other entity of, or organized under the laws of, any jurisdiction other than those named in (i) or (ii) above.

(4) The term "United States person" does not include an individual United States national who is resident outside the United States and who is either (a) employed permanently or temporarily by a non-United States person or (b) assigned to work as an employee for, and under the direction and control of, a non-United States person.

#### EXAMPLES OF "UNITED STATES PERSON"

The following examples are intended to give guidance in determining whether a person is a "United States person". They are illustrative, not comprehensive.

(i) U.S. bank A has a branch office in foreign country P.

Such branch office is a United States person, because it is a permanent foreign establishment of a domestic concern.

(ii) Ten foreign nationals establish a manufacturing plant, A, in the United States, incorporating the plant under New York law.

A is a United States person, because it is a corporation organized under the laws of one of the states of the United States.

(iii) A, a foreign corporation, opens an office in the United States for purposes of soliciting U.S. orders. The office is not separately incorporated.

A's U.S. office is a United States person, because it is a permanent establishment, in the United States, of a foreign concern.

(iv) A, a U.S. individual, owns stock in foreign corporation B.

A is a United States person. However, A is not a "domestic concern", because the term "domestic concern" does not include individuals.

(v) A, a foreign national resident in the United States, is employed by B, a foreign corporation.

A is a United States person, because he is resident in the United States.

(vi) A, a foreign national, who is resident in a foreign country and is employed by a foreign corporation, makes occasional visits to the United States, for purposes of exploring business opportunities.

A is not a United States person, because he is not a United States resident or national.

(vii) A is an association of U.S. firms organized under the laws of Pennsylvania for the purpose of expanding trade.

A is a United States person, because it is an association organized under the laws of one of the states of the United States.

(viii) At the request of country Y, A, an individual employed by U.S. company B, is transferred to company C as an employee. C is a foreign company owned and controlled by country Y. A, a U.S. national who will reside in Y, has agreed to the transfer provided he is able to retain his insurance, pension, and other benefits. Accordingly, company B has agreed to keep A as an employee in order to protect his employee benefits, and company C has agreed to pay for A's salary. At all times while he works for C, A will be under C's direction and control.

A is not a United States person while under C's direction and control, because he will be resident outside the United States and assigned as an employee to a non-United States person. The arrangement designed to protect A's insurance, pension, and other benefits does not destroy his status as an employee of C so long as he is under the direction and control of C.

(ix) A, a U.S. citizen, has resided in Europe for three years, where he is a self-employed consultant for United States and foreign companies in the communications industry.

A is a United States person, because he is a U.S. national and because he is not a resident outside the United States who is employed by other than a United States person.

(c) *Definition of "Controlled in Fact".* (1) Part 369 applies to any domestic concern's foreign subsidiary, partnership, affiliate, branch, office, or other permanent foreign establishment which is "controlled in fact" by such domestic concern. "Control in fact" consists of the authority or ability of a domestic concern to establish the general policies or to control day-to-day operations of its foreign subsidiary, partnership, affiliate, branch, office, or other permanent foreign establishment.

(2) A foreign subsidiary or affiliate of a domestic concern will be presumed to be controlled in fact by that

domestic concern, subject to rebuttal by competent evidence, when:

(i) the domestic concern beneficially owns or controls (whether directly or indirectly) more than 50 percent of the outstanding voting securities of the foreign subsidiary or affiliate;

(ii) the domestic concern beneficially owns or controls (whether directly or indirectly) 25 percent or more of the voting securities of the foreign subsidiary or affiliate, if no other person owns or controls (whether directly or indirectly) an equal or larger percentage;

(iii) the foreign subsidiary or affiliate is operated by the domestic concern pursuant to the provisions of an exclusive management contract;

(iv) a majority of the members of the board of directors of the foreign subsidiary or affiliate are also members of the comparable governing body of the domestic concern;

(v) the domestic concern has authority to appoint the majority of the members of the board of directors of the foreign subsidiary or affiliate; or

(vi) the domestic concern has authority to appoint the chief operating officer of the foreign subsidiary or affiliate.

(3) A brokerage firm or other person which holds simple record ownership of securities for the convenience of clients will not be deemed to control the securities.

(4) A domestic concern which owns, directly or indirectly, securities that are immediately convertible at the option of the holder or owner into voting securities is presumed to own or control those voting securities.

(5) A domestic concern's foreign branch office or other unincorporated permanent foreign establishment is deemed to be controlled in fact by such domestic concern under all circumstances.

#### EXAMPLES OF "CONTROLLED IN FACT"

The following examples are intended to give guidance in determining the circumstances in which a foreign subsidiary, affiliate, or other permanent foreign establishment of a domestic concern is "controlled in fact". They are illustrative, not comprehensive.

(i) Company A is incorporated in a foreign country. Fifty-one percent of the voting stock of A is owned by U.S. company B.

A is presumed to be controlled in fact by B. This presumption may be rebutted by competent evidence showing that control does not, in fact, lie with B.

(ii) Company A is incorporated in a foreign country. Ten percent of the voting stock of A is owned by U.S. company B. A has an exclusive management contract with B pursuant to which A is operated by B.

As long as such contract is in effect, A is presumed to be controlled in fact by B. This presumption may be rebutted by competent evidence showing that control does not, in fact, lie with B.

(iii) Company A is incorporated in a foreign country. Ten percent of the voting

stock of A is owned by U.S. company B. A has 10 persons on its board of directors. Six of those persons are also members of the board of directors of U.S. company B.

A is presumed to be controlled in fact by B. This presumption may be rebutted by competent evidence showing that control does not, in fact, lie with B.

(iv) Company A is incorporated in a foreign country. Thirty percent of the voting securities of A is owned by U.S. company B and no other person owns or controls an equal or larger share.

A is presumed to be controlled in fact by B. This presumption may be rebutted by competent evidence showing that control does not, in fact, lie with B.

(v) Company A is incorporated in a foreign country. In A's articles of incorporation, U.S. company B has been given authority to appoint A's board of directors.

A is presumed to be controlled in fact by B. This presumption may be rebutted by competent evidence showing that control does not, in fact, lie with B.

(vi) Company A is a joint venture established in a foreign country, with equal participation by U.S. company B and foreign company C. U.S. company B has authority to appoint A's chief operating officer.

A is presumed to be controlled in fact by B. This presumption may be rebutted by competent evidence showing that control does not, in fact, lie with B.

(vii) Same as (vi), except that B has no authority to appoint A's chief operating officer.

B is not presumed to control A, absent other facts giving rise to a presumption of control.

(viii) Company A is incorporated in a foreign country. U.S. companies B, C, and D each own 20 percent of A's voting securities and regularly cast their votes in concert.

A is presumed to be controlled in fact by B, C, and D, because these companies are acting in concert to control A.

(ix) U.S. bank B located in the United States has a branch office, A, in a foreign country. A is not separately incorporated.

A is deemed to be controlled in fact by B, because A is a branch office of a domestic concern.

(x) Company A is incorporated in a foreign country. Fifty-one percent of the voting stock of A is owned by company B, which is incorporated in another foreign country. Fifty-one percent of the voting stock of B is owned by C, a U.S. company.

Both A and B are presumed to be controlled in fact by C. The presumption of C's control over B may be rebutted by competent evidence showing that control over B does not, in fact, lie with C. The presumption of B's control over A (and thus C's control over A) may be rebutted by competent evidence showing that control over A does not, in fact, lie with B.

(xi) B, a U.S. individual, owns 51 percent of the voting securities of A, a manufacturing company incorporated and located in a foreign country.

A is not "controlled in fact" under this Part, because it is not controlled by a "domestic concern."

(d) Definition of "Activities in the Interstate or Foreign Commerce of the United States".

#### ACTIVITIES INVOLVING UNITED STATES PERSONS LOCATED IN THE UNITED STATES

(1) For purposes of this Part, the activities of a United States person located in the United States are in the interstate or foreign commerce of the United States if they involve the sale, purchase, or transfer of goods or services (including information) between:

(i) two or more of the several States (including the District of Columbia);

(ii) any State (including the District of Columbia) and any territory or possession of the United States;

(iii) two or more of the territories or possessions of the United States; or

(iv) a State (including the District of Columbia), territory or possession of the United States and any foreign country.

(2) For purposes of this Part, the export of goods or services from the United States and the import of goods or services into the United States are activities in United States commerce. In addition, the action of a domestic concern in specifically directing the activities of its controlled in fact foreign subsidiary, affiliate, or other permanent foreign establishment is an activity in United States commerce.

(3) Activities of a United States person located in the United States may be in United States commerce even if they are part of or ancillary to activities outside United States commerce. However, the fact that an ancillary activity is in United States commerce does not, in and of itself, mean that the underlying or related activity is in United States commerce.

(4) Hence, the action of a United States bank located in the United States in providing financing from the United States for a foreign transaction that is not in United States commerce is nonetheless itself in United States commerce. However, the fact that the financing is in United States commerce does not, in and of itself, make the underlying foreign transaction an activity in United States commerce, even if the underlying transaction involves a foreign company that is a "United States person" within the meaning of this Part.

(5) Similarly, the action of a United States person located in the United States in providing financial, accounting, legal, transportation, or other ancillary services to its controlled in fact foreign subsidiary, affiliate, or other permanent foreign establishment in connection with a foreign transaction is in United States commerce. But the provision of such ancillary services will not, in and of itself, bring the foreign transaction of such subsidiary, affiliate, or permanent foreign establishment into United States commerce.

#### ACTIVITIES OF CONTROLLED IN FACT FOREIGN SUBSIDIARIES, AFFILIATES, AND OTHER PERMANENT FOREIGN ESTABLISHMENTS

(6) Any transaction between a controlled in fact foreign subsidiary, affiliate, or other permanent foreign establishment of a domestic concern and a person located in the United States is an activity in United States commerce.

(7) Whether a transaction between such a foreign subsidiary, affiliate, or other permanent foreign establishment and a person located outside the United States is an activity in United States commerce is governed by the following rules.

#### ACTIVITIES IN UNITED STATES COMMERCE

(8) A transaction between a domestic concern's controlled in fact foreign subsidiary, affiliate, or other permanent foreign establishment and a person outside the United States, involving goods or services (including information) but not including ancillary services) acquired from a person in the United States is in United States commerce under any of the following circumstances:

(i) If the goods or services were acquired for the purpose of filling an order from a person outside the United States;

(ii) If the goods or services were acquired for incorporation into, refining into, reprocessing into, or manufacture of another product for the purpose of filling an order from a person outside the United States;

(iii) If the goods or services were acquired for the purpose of fulfilling or engaging in any other transaction with a person outside the United States; or

(iv) If the goods were acquired and are ultimately used, without substantial alteration or modification, in filling an order from, or fulfilling or engaging in any other transaction with, a person outside the United States (whether or not the goods were originally acquired for that purpose). If the goods are indistinguishable as to origin from similar foreign-origin goods with which they have been mingled in a stockpile or inventory, the subsequent transaction involving the goods is presumed to be in United States commerce unless, at the time of filling the order, the foreign-origin inventory on hand was sufficient to fill the order.

(9) For purposes of this section, goods or services are considered to be acquired for the purpose of filling an order from or engaging in any other transaction with a person outside the United States where:

(i) they are purchased by the foreign subsidiary, affiliate, or other permanent foreign establishment upon the

receipt of an order from or on behalf of a customer with the intention that the goods or services are to go to the customer;

(ii) they are purchased by the foreign subsidiary, affiliate, or other permanent foreign establishment to meet the needs of specified customers pursuant to understandings with those customers, although not for immediate delivery; or

(iii) They are purchased by the foreign subsidiary, affiliate, or other permanent foreign establishment based on the anticipated needs of specified customers.

(10) If any non-ancillary part of a transaction between a domestic concern's controlled foreign subsidiary, affiliate, or other permanent foreign establishment and a person outside the United States is in United States commerce, the entire transaction is in United States commerce. For example, if such a foreign subsidiary is engaged in filling an order from a non-United States customer both with goods acquired from the United States and with goods acquired elsewhere, the entire transaction with that customer is in United States commerce.

#### ACTIVITIES OUTSIDE UNITED STATES COMMERCE

(11) A transaction between a domestic concern's controlled foreign subsidiary, affiliate, or other permanent foreign establishment and a person outside the United States, not involving the purchase, sale, or transfer of goods or services (including information) to or from a person in the United States, is not an activity in United States commerce.

(12) The activities of a domestic concern's controlled foreign subsidiary, affiliate, or other permanent foreign establishment with respect to goods acquired from a person in the United States are not in United States commerce where:

(i) they were acquired without reference to a specific order from or transaction with a person outside the United States; and

(ii) they were further manufactured, incorporated, into, refined into, or reprocessed into another product.

(13) The activities of a domestic concern's controlled foreign subsidiary, affiliate, or other permanent foreign establishment with respect to services acquired from a person in the United States are not in United States commerce where:

(i) they were acquired without reference to a specific order from or transaction with a person outside the United States; or

(ii) they are ancillary to the transaction with the person outside the United States.

(14) For purposes of this section, services are "ancillary services" if they

are provided to a controlled foreign subsidiary, affiliate, or other permanent foreign establishment primarily for its own use rather than for the use of a third person. These typically include financial, accounting, legal, transportation, and other services, whether provided by a domestic concern or an unrelated entity.

(15) Thus, the provision of project financing by a United States bank located in the United States to a controlled foreign subsidiary unrelated to the bank is an ancillary service which will not cause the underlying transaction to be in United States commerce. By contrast, where a domestic concern, on behalf of its controlled foreign subsidiary, gives a guaranty of performance to a foreign country customer, that is a service provided to the customer and, as such, brings that subsidiary's transaction with the customer into United States commerce. Similarly, architectural or engineering services provided by a domestic concern in connection with its controlled foreign subsidiary's construction project in a third country are services passed through to that subsidiary's customer and, as such, bring that subsidiary's foreign transaction into United States commerce.

#### GENERAL

(16) Regardless of whether the subsequent disposition of goods or services from the United States is in United States commerce, the original acquisition of goods or services from a person in the United States is an activity in United States commerce subject to this Part. Thus, if a domestic concern's controlled foreign subsidiary engages in a prohibited refusal to do business in stocking its inventory with goods from the United States, that action is subject to this Part whether or not subsequent sales from that inventory are.

(17) In all the above, goods and services will be considered to have been acquired from a person in the United States whether they were acquired directly or indirectly through a third party, where the person acquiring the goods or services knows or expects, at the time he places the order, that they will be delivered from the United States.

#### LETTERS OF CREDIT

(18) Implementation of a letter of credit in the United States by a United States person located in the United States, including a permanent United States establishment of a foreign concern, is an activity in United States commerce.

(19) Implementation of a letter of credit outside the United States by a United States person located outside the United States is in United States commerce where the letter of credit

(a) specifies a United States address for the beneficiary, (b) calls for documents indicating shipment from the United States, or (c) calls for documents indicating that the goods are of United States origin.

(20) See Section 369.2(f) on "Letters of Credit" to determine the circumstances in which paying, honoring, confirming, or otherwise implementing a letter of credit is covered by this Part.

#### EXAMPLES OF ACTIVITIES IN THE INTERSTATE OR FOREIGN COMMERCE OF THE UNITED STATES

The following examples are intended to give guidance in determining the circumstances in which an activity is in the interstate or foreign commerce of the United States. They are illustrative, not comprehensive.

#### UNITED STATES PERSON LOCATED IN THE UNITED STATES

(i) U.S. company A exports goods from the United States to a foreign country.

A's activity is in U.S. commerce, because A is exporting goods from the United States.

(ii) U.S. company A imports goods into the United States from a foreign country.

A's activity is in U.S. commerce, because A is importing goods into the United States.

(iii) U.S. engineering company A supplies consulting services to its controlled foreign subsidiary, B.

A's activity is in U.S. commerce, because A is exporting services from the United States.

(iv) U.S. company A supplies consulting services to foreign company B. B is unrelated to A or any other U.S. person.

A's activity is in U.S. commerce even though B, a foreign-owned company located outside the United States, is not subject to this Part, because A is exporting services from the United States.

(v) Same as (iv), except A is a bank located in the United States and provides a construction loan to B.

A's activity is in U.S. commerce even though B is not subject to this Part, because A is exporting financial services from the United States.

(vi) U.S. company A issues policy directives from time to time to its controlled foreign subsidiary, B, governing the conduct of B's activities with boycotting countries.

A's activity in directing the activities of its foreign subsidiary, B, is an activity in U.S. commerce.

#### FOREIGN SUBSIDIARIES, AFFILIATES, AND OTHER PERMANENT FOREIGN ESTABLISHMENTS OF DOMESTIC CONCERNS

(i) A, a controlled foreign subsidiary of U.S. company B, purchases goods from the United States.

A's purchase of goods from the United States is in U.S. commerce, because A is importing goods from the United States. Whether A's subsequent disposition of these goods is in U.S. commerce is irrelevant. Similarly, the fact that A purchased goods from the United States does not, in and of itself, make any subsequent disposition of those goods an activity in U.S. commerce.

(ii) A, a controlled foreign subsidiary of U.S. company B, receives an order from boycotting country Y for construction materials. A places an order with U.S. company B for the materials.

A's transaction with Y is an activity in U.S. commerce, because the materials are purchased from the United States for the purpose of filling the order from Y.

(iii) A, a controlled foreign subsidiary of U.S. company B, receives an order from boycotting country Y for construction materials. A places an order with U.S. company B for some of the materials, and with U.S. company C, an unrelated company, for the rest of the materials.

A's transaction with Y is an activity in U.S. commerce, because the materials are purchased from the United States for the purpose of filling the order from Y. It makes no difference whether the materials are ordered from B or C.

(iv) A, a controlled foreign subsidiary of U.S. company B, is in the wholesale and retail appliance sales business. A purchases finished air conditioning units from the United States from time to time in order to stock its inventory. A's inventory is also stocked with air conditioning units purchased outside the United States. A receives an order for air conditioning units from Y, a boycotting country. The order is filled with U.S.-origin units in A's inventory.

A's transaction with Y is in U.S. commerce, because its U.S.-origin goods are resold without substantial alteration.

(v) Same as (iv), except that A is in the chemicals distribution business. Its U.S.-origin goods are mingled in inventory with foreign-origin goods.

A's sale to Y of unaltered goods from its general inventory is presumed to be in U.S. commerce unless A can show that at the time of the sale the foreign-origin inventory on hand was sufficient to cover the shipment to Y.

(vi) A, a foreign subsidiary of U.S. company B, receives an order from boycotting country Y for computers. A places an order with U.S. company B for some of the components; with U.S. company C, an unrelated company, for other components; and with foreign company D for the rest of the components. A then assembles the computers and ships them to Y.

A's transaction with Y is an activity in U.S. commerce, because some of the components are acquired from the United States for purposes of filling an order from Y.

(vii) Same as (vi), except A purchases all the components from non-U.S. sources.

A's transaction with Y is not an activity in U.S. commerce, because it involves no export of goods from the United States. It makes no difference whether the technology A uses to manufacture computers was originally acquired from its U.S. parent.

(viii) A, a controlled foreign subsidiary of U.S. company B, manufactures computers. A stocks its general components and parts inventory with purchases made at times from the United States and at times from foreign sources. A receives an order from Y, a boycotting country, for computers. A fills that order by manufacturing the computers using materials from its general inventory.

A's transaction with Y is not in U.S. commerce, because the U.S.-origin components are not acquired for the purpose of meeting the anticipated needs of specified customers in Y. It is irrelevant that A's operations may be based on U.S.-origin technology.

(ix) Same as (viii), except that in anticipation of the order from Y, A orders and receives the necessary materials from the United States.

A's transaction with Y is in U.S. commerce, because the U.S.-origin goods were

acquired for the purpose of filling an anticipated order from Y.

(x) A, a controlled foreign subsidiary of U.S. company B, manufactures typewriters. It buys typewriter components both from the United States and from foreign sources. A sells its output in various places throughout the world, including boycotting country Y. Its sales to Y vary from year to year, but have averaged approximately 20 percent of sales for the past five years. A expects that its sales to Y will remain at approximately that level in the years ahead although it has no contracts or orders from Y on hand.

A's sales of typewriters to Y are not in U.S. commerce, because the U.S. components are not acquired for the purpose of filling an order from Y. A general expectancy of future sales is not an "order" within the meaning of this section.

(xi) U.S. company A's corporate counsel provides legal advice to B, its controlled foreign subsidiary, on the applicability of this Part to B's transactions.

While provision of this legal advice is itself an activity in U.S. commerce, it does not, in and of itself, bring B's activities into U.S. commerce.

(xii) A, a controlled foreign subsidiary of U.S. company B, is in the general construction business. A enters into a contract with boycotting country Y to construct a power plant in Y. In preparing engineering drawings and specifications, A uses the advice and assistance of B.

A's transaction with Y is in U.S. commerce, because B's services are used for purposes of fulfilling the contract with Y. B's services are not ancillary services, because the engineering services in connection with construction of the power plant are part of the services ultimately provided to Y by A.

(xiii) Same as (xii), except that A gets no engineering advice or assistance from B. However, B's corporate counsel provides legal advice to A regarding the structure of the transaction. In addition, B's corporate counsel draws up the contract documents.

A's transaction with Y is not in U.S. commerce. The legal services provided to A are ancillary services, because they are not part of the services provided to Y by A in fulfillment of its contract with Y.

(xiv) A, a controlled foreign subsidiary of U.S. company B, enters into a contract to construct an apartment complex in boycotting country Y. A will fulfill its contract completely with goods and services from outside the United States. Pursuant to a provision in the contract, B guarantees A's performance of the contract.

A's transaction with Y is in U.S. commerce, because B's guaranty of A's performance involves the acquisition of services from the United States for purposes of fulfilling the transaction with Y, and those services are part of the services ultimately provided to Y.

(xv) Same as (xiv), except that the guaranty of A's performance is supplied by C, a non-U.S. person located outside the United States. However, unrelated to any particular transaction, B from time to time provides general financial, legal, and technical services to A.

A's transaction with Y is not in U.S. commerce, because the services acquired from the United States are not acquired for purposes of fulfilling the contract with Y.

(xvi) A, a foreign subsidiary of U.S. company B, has a contract with boycotting country Y to conduct oil drilling operations in that country. In conducting these oper-

ations, A from time to time seeks certain technical advice from B regarding the operation of the drilling rigs.

A's contract with Y is in U.S. commerce, because B's services are sought for purposes of fulfilling the contract with Y and are part of the services ultimately provided to Y.

(xvii) A, a controlled foreign subsidiary of U.S. company B, enters into a contract to sell typewriters to boycotting country Y. A is located in non-boycotting country P. None of the components are acquired from the United States. A engages C, a U.S. shipping company, to transport the typewriters from P to Y.

A's sales to Y are not in U.S. commerce, because in carrying A's goods, C is providing an ancillary service to A and not a service to Y.

(xviii) Same as (xvii), except that A's contract with Y calls for title to pass to Y in P. In addition, the contract calls for A to engage a carrier to make delivery to Y.

A's sales to Y are in U.S. commerce, because in carrying Y's goods, C is providing a service to A which is ultimately provided to Y.

(xix) A, a controlled foreign subsidiary of U.S. company B, has general product liability insurance with U.S. company C. Foreign-origin goods sold from time to time by A to boycotting country Y are covered by the insurance policy.

A's sales to Y are not in U.S. commerce, because the insurance provided by C is an ancillary service provided to A which is not ultimately provided to Y.

(xx) A, a controlled foreign subsidiary of U.S. company B, manufactures automobiles abroad under a license agreement with B. From time to time, A sells such goods to boycotting country Y.

A's sales to Y are not in U.S. commerce, because the rights conveyed by the license are not acquired for the specific purpose of engaging in transactions with Y.

(e) "Intent." (1) Part 369 prohibits a United States person from taking or knowingly agreeing to take certain specified actions with intent to comply with, further, or support an unsanctioned foreign boycott.

(2) A United States person has the intent to comply with, further, or support an unsanctioned foreign boycott when such a boycott is at least one of the reasons for that person's decision whether to take a particular prohibited action. So long as that is at least one of the reasons for his action, a violation occurs regardless of whether the prohibited action is also taken for non-boycott reasons. Stated differently, the fact that such action was taken for legitimate business reasons does not remove that action from the scope of this Part if compliance with an unsanctioned foreign boycott was also a reason for the action.

(3) Intent is a necessary element of any violation of this Part. It is not sufficient that one take action that is specifically prohibited by this Part. It is essential that one take such action with intent to comply with, further, or support an unsanctioned foreign boycott. Accordingly, a person who inadvertently, without boycott intent, takes a prohibited action, does not commit any violation of this Part.

(4) Intent in this context means the reason or purpose for one's behavior. It does not mean that one has to agree with the boycott in question or desire that it succeed or that it be furthered or supported. But it does mean that the reason why a particular

prohibited action was taken must be established.

(5) Reason or purpose can be proved by circumstantial evidence. For example, if a person receives a request to supply certain boycott information, the furnishing of which is prohibited by this Part, and he knowingly supplies that information in response, he clearly intends to comply with that boycott request. It is irrelevant that he may disagree with or object to the boycott itself. Information will be deemed to be furnished with the requisite intent if the person furnishing the information knows that it was sought for boycott purposes. On the other hand, if a person refuses to do business with someone who happens to be blacklisted, but the reason is because that person produces an inferior product, the requisite intent does not exist.

(6) Actions will be deemed to be taken with intent to comply with an unsanctioned foreign boycott if the person taking such action knew that such action was required or requested for boycott reasons. On the other hand, the mere absence of a business relationship with a blacklisted person or with or in a boycotted country does not indicate the existence of the requisite intent.

(7) In seeking to determine whether the requisite intent exists, all available evidence will be examined.

#### EXAMPLES OF "INTENT"

The following examples are intended to illustrate the factors which will be considered in determining whether the required intent exists. They are illustrative, not comprehensive.

(i) U.S. person A does business in boycotting country Y. In selecting firms to supply goods for shipment to Y, A chooses supplier B because B's products are less expensive and of higher quality than the comparable products of supplier C. A knows that C is blacklisted, but that is not a reason for A's selection of B.

A's choice of B rather than C is not action with intent to comply with Y's boycott, because C's blacklist status is not a reason for A's action.

(ii) Same as (i), except that A chooses B rather than C in part because C is blacklisted by Y.

Since C's blacklist status is a reason for A's choice, A's action is taken with intent to comply with Y's boycott.

(iii) U.S. person A bids on a tender issued by boycotting country Y. A inadvertently fails to notice a prohibited certification which appears in the tender document. A's bid is accepted.

#### § 369.2 Prohibitions.

##### (a) Refusals to do business.

#### RULES AND REGULATIONS

A's action in bidding was not taken with intent to comply with Y's boycott, because the boycott was not a reason for A's action.

(iv) U.S. bank A engages in letter of credit transactions, in favor of U.S. beneficiaries, involving the shipment of U.S. goods to boycotting country Y. As A knows, such letters of credit routinely contain conditions requiring prohibited certifications. A fails to take reasonable steps to prevent the implementation of such letters of credit. A receives for implementation a letter of credit which in fact contains a prohibited condition but does not examine the letter of credit to determine whether it contains such a condition.

Although Y's boycott may not be a specific reason for A's action in implementing the letter of credit with a prohibited condition, all available evidence shows that A's action was taken with intent to comply with the boycott, because A knows or should know that its procedures result in compliance with the boycott.

(v) U.S. bank A engages in letter of credit transactions, in favor of U.S. beneficiaries, involving the shipment of U.S. goods to boycotting country Y. As A knows, the documentation accompanying such letters of credit sometimes contains prohibited certifications. In accordance with standard banking practices applicable to A, it does not examine such accompanying documentation. A receives a letter of credit in favor of a U.S. beneficiary. The letter of credit itself contains no prohibited conditions. However, the accompanying documentation, which A does not examine, does contain such a condition.

All available evidence shows that A's action in implementing the letter of credit was not taken with intent to comply with the boycott, because A has no affirmative obligation to go beyond applicable standard banking practices in implementing letters of credit.

(vi) A, a U.S. company, is considering opening a manufacturing facility in boycotted country X. A already has such a facility in boycotting country Y. After exploring the possibilities in X, A concludes that the market does not justify the move. A is aware that if it did open a plant in X, Y might object because of Y's boycott of X. However Y's possible objection is not a reason for A's decision not to open a plant in X.

A's decision not to proceed with the plant in X is not action with intent to comply with Y's boycott, because Y's boycott of X is not a reason for A's decision.

(vii) Same as (vi), except that after exploring the business possibilities in X, A concludes that the market does justify the

move to X. However, A does not open the plant because of Y's possible objections due to Y's boycott of X.

A's decision not to proceed with the plant in X is action taken with intent to comply with Y's boycott, because Y's boycott is a reason for A's decision.

(viii) A, a U.S. chemical manufacturer, receives a "boycott questionnaire" from boycotting country Y asking, among other things, whether A has any plants located in boycotted country X. A, which has never supported Y's boycott of X, responds to Y's questionnaire, indicating affirmatively that it does have plants in X and that it intends to continue to have plants in X.

A's responding to Y's questionnaire is deemed to be action with intent to comply with Y's boycott, because A knows that the questionnaire is boycott-related. It is irrelevant that A does not also wish to support Y's boycott.

(ix) U.S. company A is on boycotting country Y's blacklist. In an attempt to secure its removal from the blacklist, A wishes to supply to Y information which demonstrates that A does at least as much business in Y and other countries engaged in a boycott of X as it does in X. A intends to continue its business in X undiminished and in fact is exploring and intends to continue exploring an expansion of its activities in X without regard to Y's boycott.

A may furnish the information, because in doing so it has no intent to comply with, further, or support Y's boycott.

(x) U.S. company A has a manufacturing facility in boycotted country X. A receives an invitation to bid on a construction project in boycotting country Y. The invitation states that all bidders must complete a boycott questionnaire and send it in with the bid. The questionnaire asks for information about A's business relationships with X. Regardless of whether A's bid is successful, A intends to continue its business in X undiminished and in fact is exploring and intends to continue exploring an expansion of its activities in X without regard to Y's boycott.

A may not answer the questionnaire, because, despite A's intentions with regard to its business operations in X, Y's request for completion of the questionnaire is for boycott purposes and by responding, A's action would be taken with intent to comply with Y's boycott.

(NOTE.—Example (ix) is distinguishable from (x), because in (ix) A is not responding to any boycott request or requirement. Instead, on its own initiative, it is supplying information to demonstrate non-discriminatory conduct as between X and Y without any intent to comply with, further, or support Y's boycott.)

#### PROHIBITION AGAINST REFUSALS TO DO BUSINESS

(1) No United States person may:	to do business	when such refusal is pursuant to
refuse, knowingly agree to refuse, require any other person to refuse, or knowingly agree to require any other person to refuse,	with or in a boycotted country, with any business concern organized under the laws of a boycotted country, with any national or resident of a boycotted country, or with any other person,	an agreement with the boycotting country, a requirement of the boycotting country, or a request from or on behalf of the boycotting country.

(2) Generally, a refusal to do business under this section consists of action that excludes a person or country from a transaction for boycott reasons. This includes a situation in which a United States person chooses or selects one person over another on a boycott basis or takes action to carry out another person's boycott-based selection when he knows or has reason to know that the other person's selection is boycott-based.

(3) Refusals to do business which are prohibited by this section include not only specific refusals, but also refusals implied by a course or pattern of conduct. There need not be a specific offer and refusal to constitute a refusal to do business; a refusal may occur when a United States person has a financial or commercial opportunity and declines for boycott reasons to consider or accept it.

(4) A United States person's use of either a boycott-based list of persons with whom he will not deal (a so-called "blacklist") or a boycott-based list of persons with whom he will deal (a so-called "whitelist") constitutes a refusal to do business.

(5) An agreement by a United States person to comply generally with the laws of the boycotting country with which it is doing business or an agreement that local laws of the boycotting country shall apply or govern is not, in and of itself, a refusal to do business. Nor, in and of itself, is use of a contractual clause explicitly requiring a person to assume the risk of loss of non-delivery of his products a refusal to do business with any person who will not or cannot comply with such a clause. (But see section 369.4 on "Evasion.")

(6) If, for boycott reasons, a United States general manager chooses one supplier over another, or enters into a contract with one supplier over another, or advises its client to do so, then the general manager's actions constitute a refusal to do business under this section. However, it is not a refusal to do business under this section for a United States person to provide management, procurement, or other pre-award services for another person so long as (i) the provision of such pre-award services is customary for that firm (or industry of which the firm is a part), without regard to the boycotting or non-boycotting character of the countries in which they are performed, and (ii) the United States person, in providing such services, does not act to exclude a person or country from the transaction for boycott reasons, or otherwise take actions that are boycott-based. For example, a United States person under contract to provide general management services in connection with a construction

project in a boycotting country may compile lists of qualified bidders for the client if that service is a customary one and if persons who are qualified are not excluded from that list because they are blacklisted.

(7) With respect to post-award services, if a client makes a boycott-based selection, actions taken by the United States general manager or contractor to carry out the client's choice are themselves refusals to do business if the United States contractor knows or has reason to know that the client's choice was boycott-based. (It is irrelevant whether the United States contractor also provided pre-award services.) Such actions include entering into a contract with the selected supplier, notifying the supplier of the client's choice, executing a contract on behalf of the client, arranging for inspection and shipment of the supplier's goods, or taking any other action to effect the client's choice. (But see section 369.3(c) on "Compliance with Unilateral Selection" as it may apply to post-award services.)

(8) An agreement is not a prerequisite to a violation of this section since the prohibition extends to actions taken pursuant not only to agreements but also to requirements of, and requests from or on behalf of, a boycotting country.

(9) Agreements under this section may be either express or implied by a course or pattern of conduct. There need not be a direct request from a boycotting country for action by a United States person to have been taken pursuant to an agreement with or requirement of a boycotting country.

(10) This prohibition, like all others, applies only with respect to a United States person's activities in the interstate or foreign commerce of the United States and only when such activities are undertaken with intent to comply with, further, or support an unsanctioned foreign boycott. The mere absence of a business relationship with or in the boycotted country, with any business concern organized under the laws of the boycotted country, with national(s) or resident(s) of the boycotted country, or with any other person does not indicate the existence of the required intent.

#### EXAMPLES OF REFUSALS AND AGREEMENTS TO REFUSE TO DO BUSINESS

The following examples are intended to give guidance in determining the circumstances in which, in a boycott situation, a refusal to do business or an agreement to refuse to do business is prohibited. They are illustrative, not comprehensive.

#### REFUSALS TO DO BUSINESS

(i) A, a U.S. manufacturer, receives an order for its products from boycotting coun-

try Y. To fill that order, A solicits bids from U.S. companies B and C, manufacturers of components used in A's products. A does not, however, solicit bids from U.S. companies D or E, which also manufacture such components, because it knows that D and E are restricted from doing business in Y and that their products are, therefore, not importable into that country.

Company A may not refuse to solicit bids from D and E for boycott reasons, because to do so would constitute a refusal to do business with those persons.

(ii) A, a U.S. exporter, uses company B, a U.S. insurer, to insure the shipment of its goods to all its overseas customers. For the first time, A receives an order for its products from boycotting country Y. Knowing that B is on the blacklist of Y, A arranges with company C, a non-blacklisted U.S. insurer, to insure the shipment of its goods to Y.

A's action constitutes a refusal to do business with B.

(iii) A, a U.S. exporter, purchases all its liability insurance from company B, a U.S. company that does business in boycotted country X. A wishes to expand its operations into country Y, the boycotting country. Before doing so, A decides to switch from insurer B to insurer C in anticipation of a request from Y that A sever its relations with B as a condition of doing business in Y.

A may not switch insurers for this reason, because doing so would constitute a refusal to do business with B.

(iv) U.S. company A exports goods to boycotting country Y. In selecting vessels to transport the goods to Y, A chooses only from among carriers which call at ports in Y.

A's action is not a refusal to do business with carriers which do not call at ports in Y.

(v) A, a U.S. bank with a branch office in boycotting country Y, sends representatives to boycotted country X to discuss plans for opening a branch office in X. Upon learning of these discussions, an official of the local boycott office in Y advises A's local branch manager that if A opens an office in X it will no longer be allowed to do business in Y. As a result of this notification, A decides to abandon its plans to open a branch in X.

Bank A may not abandon its plans to open a branch in X as a result of Y's notification, because doing so would constitute a refusal to do business in boycotted country X.

(vi) A, a U.S. company that manufactures office equipment, has been restricted from doing business in boycotted country Y because of its business dealings with boycotted country X. In an effort to have itself removed from Y's blacklist, A ceases its business in X.

A's action constitutes a refusal to do business in boycotted country X.

(vii) A, a U.S. computer company, does business in boycotting country Y. A decides to explore business opportunities in boycotted country X. After careful analysis of possible business opportunities in X, A decides, solely for business reasons, not to market its products in X.

A's decision not to proceed is not a refusal to do business, because it is not based on boycott considerations. A has no affirmative obligation to do business in X.

(viii) A, a U.S. oil company with operations in boycotting country Y, has regular-

ly purchased equipment from U.S. petroleum equipment suppliers B, C, and D, none of whom is on the blacklist of Y. Because of its satisfactory relationship with B, C, and D, A has not dealt with other suppliers, including supplier E, who is blacklisted by Y.

A's failure affirmatively to seek or secure business with blacklisted supplier E is not a refusal to do business with E.

(ix) Same as (viii), except U.S. petroleum equipment supplier E, a company on boycotting country Y's blacklist, offers to supply U.S. oil company A with goods comparable to those provided by U.S. suppliers B, C, and D, because it has satisfactory, established relationships with suppliers B, C, and D, does not accept supplier E's offer.

A's refusal of supplier E's offer is not a refusal to do business, because it is based solely on non-boycott considerations. A has no affirmative obligation to do business with E.

(x) A, a U.S. construction company, enters into a contract to build an office complex in boycotting country Y. A receives bids from B and C, U.S. companies that are equally qualified suppliers of electrical cable for the project. A knows that B is blacklisted by Y and that C is not. A accepts C's bid, in part because C is as qualified as the other potential supplier and in part because C is not blacklisted.

A's decision to select supplier C instead of blacklisted supplier B is a refusal to do business, because the boycott was one of the reasons for A's decision.

(xi) A, a U.S. general contractor, has been retained to construct a highway in boycotting country Y. A circulates an invitation to bid to U.S. manufacturers of road-building equipment. One of the conditions listed in the invitation to bid is that, in order for A to obtain prompt service, suppliers will be required to maintain a supply of spare parts and a service facility in Y. A includes this condition solely for commercial reasons unrelated to the boycott. Because of this condition, however, those suppliers on Y's blacklist do not bid since they would be unable to satisfy the parts and services requirements.

A's action is not a refusal to do business, because the contractual condition was included solely for legitimate business reasons and was not boycott-based.

(xii) Company A, a U.S. oil company, purchases drill bits from U.S. suppliers for export to boycotting country Y. In its purchase orders, A includes a provision requiring the supplier to make delivery to A's facilities in Y and providing that title to the goods does not pass until delivery has been made. As is customary under such an arrangement, the supplier bears all risks of loss, including loss from fire, theft, perils of the sea, and inability to clear customs, until title passes.

Insistence on such an arrangement does not constitute a refusal to do business, because this requirement is imposed on all suppliers whether they are blacklisted or not. (But see section 369.4 on "Evasion.")

(xiii) A, a U.S. engineering and construction company, contracts with a government agency in boycotting country Y to perform a variety of services in connection with the construction of a large industrial facility in Y. Pursuant to this contract, A analyzes the market of prospective suppliers, compiles a suggested bidders list, analyzes the bids received, and makes recommendations to the client. The client independently selects and awards the contract to supplier C for boy-

cott reasons. All of A's services are performed without regard to Y's blacklist or any other boycott considerations, and are the type of services A provides clients in both boycotting and non-boycotting countries.

A's actions do not constitute a refusal to do business, because, in the provision of pre-award services, A has not excluded the other bidders and because A customarily provides such services to its clients.

(xiv) Same as (xiii), except that in compiling a list of prospective suppliers, A deletes suppliers he knows his client will refuse to select because they are blacklisted. A knows that including the names of blacklisted suppliers will neither enhance their chances of being selected nor provide his client with a useful service, the function for which he has been retained.

A's actions, which amount to furnishing a so-called "whitelist," constitute refusals to do business, because A's pre-award services have not been furnished without regard to boycott considerations.

(xv) A, a U.S. construction firm, provides its boycotting country client with a permissible list of prospective suppliers, B, C, D, and E. The client independently selects and awards the contract to C, for boycott reasons, and then requests A to advise C of his selection, negotiate the contract with C, arrange for the shipment, and inspect the goods upon arrival. A knows that C was chosen by the client for boycott reasons.

A's action in complying with his client's direction is a refusal to do business, because A's post-award actions carry out his client's boycott-based decision. (Note: Whether A's action comes within the unilateral selection exception depends upon factors discussed in section 369.3(c).)

(xvi) Same as (xv), except that A is building the project on a turnkey basis and will retain title until completion. The client instructs A to contract only with C.

A's action in contracting with C constitutes a refusal to do business, because it is action that excludes blacklisted persons from the transaction for boycott reasons. (Note: Whether A's action comes within the unilateral selection exception depends upon factors discussed in section 369.3(c).)

(xvii) A, a U.S. exporter of machine tools, receives an order for drill presses from boycotting country Y. The cover letter from Y's procurement official states that A was selected over other U.S. manufacturers in part because A is not on Y's blacklist.

A's action in filling this order is not a refusal to do business, because A has not excluded anyone from the transaction.

(xviii) A, a U.S. engineering firm under contract to construct a dam in boycotting country Y, compiles, on a non-boycott basis, a list of potential heavy equipment suppliers, including information on their qualifications and prior experience. A then solicits bids from the top three firms on its list—B, C, and D—because they are the best qualified. None of them happens to be blacklisted. A does not solicit bids from E, F, or G, the next three firms on the list, one of whom is on Y's blacklist.

A's decision to solicit bids from only B, C, and D, is not a refusal to do business with any person, because the solicited bidders were not selected for boycott reasons.

#### AGREEMENTS TO REFUSE TO DO BUSINESS

(i) A, a U.S. construction firm, is retained by an agency of boycotting country Y to build a primary school. The proposed con-

tract contains a clause stating that A "may not use goods or services in the project that are produced or provided by any person restricted from having a business relationship with country Y by reason of Y's boycott against country X".

A's action in entering into such a contract would constitute an agreement to refuse to do business, because it is an agreement to exclude blacklisted persons from the transaction. A may, however, renegotiate this clause so that it does not contain terms prohibited by this Part.

(ii) A, a U.S. manufacturer of commercial refrigerators and freezers, receives an invitation to bid from boycotting country Y. The tender states that the bidder must agree not to deal with companies on Y's blacklist. A does not know which companies are on the blacklist, and A's bid makes no commitment regarding not dealing with certain companies. A's bid in response to the tender is accepted.

At the point when A's bid is accepted, A has agreed to refuse to do business with blacklisted persons, because the terms of Y's tender are part of the contract between Y and A.

(iii) A, a U.S. construction firm, is offered a contract to perform engineering and construction services in connection with a project located in boycotting country Y. The contract contains a clause stating that, in the event of a contract dispute, the laws of Y will apply.

A may enter into the contract. Agreement that the laws of boycotting country Y will control in resolving a contract dispute is not an agreement to refuse to do business.

(iv) Same as (iii), except that the contract contains a clause that A and its employees will comply with the laws of boycotting country Y. A knows that Y has a number of boycott laws.

Such an agreement is not, in and of itself, an agreement to refuse to do business. If, however, A subsequently refuses to do business with someone because of the laws of Y, A's action would be a refusal to do business.

(v) Same as (iv) except that the contract contains a clause that A and its employees will comply with the laws of boycotting country Y, "including boycott laws".

A's agreeing, without qualification, to comply with local boycott laws constitutes an agreement to refuse to do business.

(vi) Same as (v), except that A inserts a proviso "except insofar as Y's laws conflict with U.S. laws", or words to that effect.

Such an agreement is not an agreement to refuse to do business.

(vii) A, a U.S. general contractor, is retained to construct a pipeline in boycotting country Y. A provision in the proposed contract stipulates that in purchasing equipment, supplies, and services A must give preference to companies located in host country Y.

A may agree to this contract provision. Agreeing to a "buy local" contract provision is not an agreement to refuse to do business, because A's agreement is not made for boycott reasons.

(viii) A, a U.S. exporter planning to sell retail goods to customers in boycotting country Y, enters into a contract to purchase goods wholesale from B, a U.S. appliance manufacturer. A's contract with B includes a provision stipulating that B may not use components or services of blacklisted companies in the manufacture of its appliances.

A's contract constitutes a refusal to do business, because it would require another

person, B to refuse to do business with other persons for boycott reasons. B may not agree to such a contract, because it would be agreeing to refuse to do business with other persons for boycott reasons.

(ix) Same as (viii), except that A and B reach an implicit understanding that B will not use components or services of blacklisted companies in the manufacture of goods to be exported to Y. In the manufacture of appliances to be sold to A for export to non-boycotting countries B uses components manufactured by blacklisted companies.

The actions of both A and B constitute agreement to refuse to do business. The agreement is implied by their pattern of conduct.

#### (b) Discriminatory Actions.

##### PROHIBITION AGAINST TAKING DISCRIMINATORY ACTIONS

(1) No United States person may: (i) refuse to employ or otherwise discriminate against any individual who is a United States person on the basis of race, religion, sex, or national origin;

(ii) discriminate against any corporation or other organization which is a United States person on the basis of the race, religion, sex, or national origin of any owner, officer, director, or employee of such corporation or organization;

(iii) knowingly agree to take any of the actions described in (i) and (ii) above; or

(iv) require or knowingly agree to require any other person to take any of the actions described in (i) and (ii) above.

(2) This prohibition shall apply whether the discriminatory action is taken by a United States person on its own or in response to an agreement with, request from, or requirement of a boycotting country. This prohibition, like all others, applies only with respect to a United States person's activities in the interstate or foreign commerce of the United States and only when such activities are undertaken with intent to comply with, further, or support an unsanctioned foreign boycott.

(3) The section does not supersede or limit the operation of the civil rights laws of the United States.

##### EXAMPLES OF DISCRIMINATORY ACTIONS

The following examples are intended to give guidance in determining the circumstances in which the taking of particular discriminatory actions is prohibited. They are illustrative, not comprehensive.

(i) U.S. construction company A is awarded a contract to build an office complex in boycotting country Y. A, believing that employees of a particular religion will not be permitted to work in Y because of Y's boycott against country X, excludes U.S. persons of that religion from consideration for employment on the project.

A's refusal to consider qualified U.S. persons of a particular religion for work on the project in Y constitutes a prohibited boycott-based discriminatory action against U.S. persons on the basis of religion.

(ii) Same as (i), except that a clause in the contract provides that "no persons of country X origin are to work on this project".

A's agreement constitutes a prohibited boycott-based agreement to discriminate against U.S. persons, among others, on the basis of national origin.

(iii) Same as (i), except that a clause in the contract provides that "no persons who are citizens, residents, or nationals of country X are to work on this project".

A's agreement does not constitute a boycott-based agreement to discriminate against U.S. persons on the basis of race, religion, sex, or national origin, because the clause requires exclusion on the basis of citizenship, residency, and nationality only.

(iv) U.S. construction company A enters into a contract to build a school in boycotting country Y. Y's representative orally tells A that no persons of country X origin are to work on the project.

A may not comply, because to do so would constitute discrimination on the basis of national origin. It makes no difference that A learned of Y's requirement orally. It makes no difference how A learns about Y's discriminatory requirement.

(v) Boycotting country Y tenders an invitation to bid on a construction project in Y. The tender requires that the successful bidder's personnel will be interviewed and that persons of a particular religious faith will not be permitted to work on the project. Y's requirement is based on its boycott of country X, the majority of whose citizens are of that particular faith.

Agreement to this provision in the tender document by a U.S. person would constitute a prohibited agreement to engage in boycott-based discrimination against U.S. persons of a particular religion.

(vi) Same as (v), except that the tender specifies that "women will not be allowed to work on this project".

Agreement to this provision in the tender by a U.S. person does not constitute a prohibited agreement to engage in boycott-based discrimination, because the restriction against employment of women is not boycott-based. Such an agreement may, however, constitute a violation of U.S. civil rights laws.

(vii) A is a U.S. investment banking firm. As a condition of participating in an underwriting of securities to be issued by boycotting country Y, A is required to exclude investment banks owned by persons of a particular faith from participation in the underwriting. Y's requirement is based on its boycott of country X, the majority of whose citizens are of that particular faith.

A's agreement to such a provision constitutes a prohibited agreement to engage in boycott-based discrimination against U.S. persons on the basis of religion. Further, if A requires others to agree to such a condition, A would be acting to require another person to engage in such discrimination.

(viii) U.S. company A is asked by boycotting country Y to certify that A will not use a six-pointed star on the packaging of its products to be imported into Y. The requirement is part of the enforcement effort by Y of its boycott against country X.

A may not so certify. The six-pointed star is a religious symbol, and the certification by A that it will not use such a symbol constitutes a statement that A will not ship products made or handled by persons of that religion.

(ix) Same as (viii), except that A is asked to certify that no symbol of boycotted coun-

try X will appear on the packaging of its products imported into Y.

Such a certification conveys no statement about any person's religion and, thus, does not come within this prohibition.

(c) *Furnishing Information About Race, Religion, Sex, or National Origin.*

##### PROHIBITION AGAINST FURNISHING INFORMATION ABOUT RACE, RELIGION, SEX, OR NATIONAL ORIGIN

(1) No United States person may: (i) furnish information about the race, religion, sex, or national origin of any United States person;

(ii) furnish information about the race, religion, sex, or national origin of any owner, officer, director, or employee of any corporation or other organization which is a United States person;

(iii) knowingly agree to furnish information about the race, religion, sex, or national origin of any United States person; or

(iv) knowingly agree to furnish information about the race, religion, sex, or national origin of any owner, officer, director, or employee of any corporation or other organization which is a United States person.

(2) This prohibition shall apply whether the information is specifically requested or is offered voluntarily by the United States person. It shall also apply whether the information requested or volunteered is stated in the affirmative or the negative.

(3) Information about the place of birth of or the nationality of the parents of a United States person comes within this prohibition, as does information in the form of code words or symbols which could identify a United States person's race, religion, sex, or national origin.

(4) This prohibition, like all others, applies only with respect to a United States person's activities in the interstate or foreign commerce of the United States and only when such activities are undertaken with intent to comply with, further, or support an unsanctioned foreign boycott.

##### EXAMPLES OF THE PROHIBITION AGAINST FURNISHING DISCRIMINATORY INFORMATION

The following examples are intended to give guidance in determining the circumstances in which the furnishing of discriminatory information is prohibited. They are illustrative, not comprehensive.

(i) U.S. company A receives a boycott questionnaire from boycotting country Y asking whether it is owned or controlled by persons of a particular faith, whether it has any persons on its board of directors who are of that faith, and what the national origin of its president is. The information is sought for purposes of enforcing Y's boycott against country X, and A knows or has reason to know that the information is sought for that reason.

A may not answer the questionnaire, because A would be furnishing information

about the religion and national origin of U.S. persons for purposes of complying with or supporting Y's boycott against X.

(ii) U.S. company A, located in the United States, is asked by boycotting country Y to certify that A has no persons of a particular national origin on its board of directors. A knows that Y's purpose in asking for the certification is to enforce its boycott against country X.

A may not make such a certification, because A would be furnishing information about the national origin of U.S. persons for purposes of complying with or supporting Y's boycott against X.

(iii) U.S. company A believes that boycotting country Y will select A's bid over those of other bidders if A volunteers that it has no shareholders, officers, or directors of a particular national origin. A's belief is based on its knowledge that Y generally refuses, as part of its boycott against country X, to do business with companies owned, controlled, or managed by persons of this particular national origin.

A may not volunteer this information, because it would be furnishing information about the national origin of U.S. persons for purposes of complying with or supporting Y's boycott against X.

(iv) U.S. company A has a contract to construct an airport in boycotting country Y. Before A begins work, A is asked by Y to identify the national origin of its employees who will work on the site. A knows or has reason to know that Y is seeking this information in order to enforce its boycott against X.

A may not furnish this information, because A would be providing information about the national origin of U.S. persons for purposes of complying with or supporting Y's boycott against X.

(v) Same as (iv), except that in order to assemble its work force on site in Y, A sends visa forms to its employees and asks that the forms be returned to A for transmittal to Y's consulate or embassy. A, itself, furnishes no information about its employees, but merely transmits the visa forms back and forth.

In performing the ministerial function of transmitting visa forms, A is not furnishing information about any U.S. person's race, religion, sex, or national origin.

(vi) Same as (iv), except that A is asked by Y to certify that none of its employees in Y will be women, because Y's laws prohibit women from working.

Such a certification does not constitute a prohibited furnishing of information about any U.S. person's sex, since the reason the information is sought has nothing to do with Y's boycott of X.

(vii) U.S. company A is considering establishing an office in boycotting country Y. In order to register to do business in Y, A is asked to furnish information concerning the nationalities of its corporate officers and board of directors.

A may furnish the information about the nationalities of its officers and directors, because in so doing A would not be furnishing information about the race, religion, sex, or national origin of any U.S. person.

(d) *Furnishing Information About Business Relationships with Boycotted Countries or Blacklisted Persons.*

##### PROHIBITION AGAINST FURNISHING INFORMATION ABOUT BUSINESS RELATIONSHIPS WITH BOYCOTTED COUNTRIES OR BLACKLISTED PERSONS

(1) No United States person may furnish or knowingly agree to furnish information concerning his or any other person's past, present or proposed business relationships:

(i) with or in a boycotted country;

(ii) with any business concern organized under the laws of a boycotted country;

(iii) with any national or resident of a boycotted country; or

(iv) with any other person who is known or believed to be restricted from having any business relationship with or in a boycotting country.

(2) This prohibition shall apply: (i) whether the information pertains to a business relationship involving a sale, purchase, or supply transaction; legal or commercial representation; shipping or other transportation transaction; insurance; investment; or any other type of business transaction or relationship; and

(ii) whether the information is directly or indirectly requested or is furnished on the initiative of the United States person.

(3) This prohibition does not apply to the furnishing of normal business information in a commercial context. Normal business information may relate to factors such as financial fitness, technical competence, or professional experience, and may be found in documents normally available to the public such as annual reports, disclosure statements concerning securities, catalogues, promotional brochures, and trade and business handbooks. Such information may also appear in specifications or statements of experience and qualifications.

(4) Normal business information furnished in a commercial context does not cease to be such simply because the party soliciting the information may be such simply because the party soliciting the information may be a boycotting country or a national or resident thereof. If the information is of a type which is generally sought for a legitimate business purpose (such as determining financial fitness, technical competence, or professional experience), the information may be furnished even if the information could be used, or without the knowledge of the person supplying the information is intended to be used, for boycott purposes. However, no information about business relationships with blacklisted persons or boycotted countries, their residents or nationals, may be furnished in response to a boycott request, even if the information is publicly available. Requests for such information from a boycott office will be presumed to be boycott-based.

(5) This prohibition, like all others, applies only with respect to a United

States person's activities in the interstate or foreign commerce of the United States and only when such activities are undertaken with intent to comply with, further, or support an unsanctioned foreign boycott.

##### EXAMPLES CONCERNING FURNISHING OF INFORMATION

The following examples are intended to give guidance in determining the circumstances in which the furnishing of information is prohibited. They are illustrative, not comprehensive.

(i) U.S. contractor A is considering bidding for a contract to build a dam in boycotting country Y. The invitation to bid, which appears in a trade journal, specifies that each bidder must state that he does not have any offices in boycotted country X. A knows or has reason to know that the requirement is boycott-based.

A may not make this statement, because it constitutes information about A's business relationships with X.

(ii) U.S. contractor A is considering bidding for a contract to construct a school in boycotting country Y. Each bidder is required to submit copies of its annual report with its bid. Since A's annual report describes A's worldwide operations, including the countries in which it does business, it necessarily discloses whether A has business relations with boycotted country X. A has no reason to know that its report is being sought for boycott purposes.

A, in furnishing its annual report, is supplying ordinary business information in a commercial context.

(iii) Same as (ii), except that accompanying the invitation to bid is a questionnaire from country Y's boycott office asking each bidder to supply a copy of its annual report.

A may not furnish the annual report despite its public availability, because it would be furnishing information in response to a questionnaire from a boycott office.

(iv) U.S. company A is on boycotting country Y's blacklist. For reasons unrelated to the boycott, A terminates its business relationships with boycotted country X. In exploring other marketing areas, A determines that boycotting country Y offers great potential. A is requested to complete a questionnaire from a central boycott office which inquires about A's business relations with X.

A may not furnish the information, because it is information about A's business relationships with a boycotted country.

(v) U.S. exporter A is seeking to sell its products to boycotting country Y. A is informed by Y that, as a condition of sale, A must certify that it has no salesmen in boycotted country X. A knows or has reason to know that the condition is boycott-based.

A may not furnish the certification, because it is information about A's business relationships in a boycotted country.

(vi) U.S. engineering company A receives an invitation to bid on the construction of a dam in boycotting country Y. As a condition of the bid, A is asked to certify that it does not have any offices in boycotted country X. A is also asked to furnish plans for other dams it has designed.

A may not certify that it has no office in X, because this is information about its business relationships in a boycotted country. A may submit plans for other dams it has designed, because this is furnishing normal business information, in a commercial context.

## RULES AND REGULATIONS

cial context, relating to A's technical competence and professional experience.

(vii) U.S. company A, in seeking to expand its exports to boycotting country Y, sends a sales representative to Y for a one week trip. During a meeting in Y with trade association representatives, A's representative desires to explain that neither A nor any companies with which A deals has any business relationship with boycotted country X. The purpose of supplying such information is to ensure that A does not get blacklisted.

A's representative may not volunteer this information even though A, for reasons unrelated to the boycott, does not deal with X, because A's representative would be volunteering information about A's business relationships with X for boycott reasons.

(viii) U.S. company A is asked by boycotting country Y to furnish information concerning its business relationships with boycotted country X. A, knowing that Y is seeking the information for boycott purposes, refuses to furnish the information asked for directly, but proposes to respond by supplying a copy of its annual report which lists the countries with which A is presently doing business. A does not happen to be doing business with X.

A may not respond to Y's request by supplying its annual report, because A knows that it would be responding to a boycott-based request for information about its business relationships with X.

(ix) U.S. company A receives a letter from a central boycott office asking A to "clarify" A's operations in boycotted country X. A intends to continue its operations in X, but fears that not responding to the request will result in its being placed on boycotting country Y's blacklist. A knows or has reason to know that the information is sought for boycott reasons.

A may not respond to this request, because the information concerns its business relationships with a boycotted country.

(x) U.S. company A, in the course of negotiating a sale of its goods to a buyer in boycotting country Y, is asked to certify that its supplier is not on Y's blacklist.

A may not furnish the information about its supplier's blacklist status, because this is information about A's business relationships with another person who is believed to be restricted from having any business relationship with or in a boycotting country.

(xi) U.S. company A has a manufacturing plant in boycotted country X and is on boycotting country Y's blacklist. A is seeking to establish operations in Y, while expanding its operations in X. A applies to Y to be removed from Y's blacklist. A is asked, in response, to indicate whether it has manufacturing facilities in X.

A may not supply the requested information, because A would be furnishing information about its business relationships in a boycotted country.

(xii) U.S. bank A plans to open a branch office in boycotting country Y. In order to do so, A is required to furnish certain information about its business operations, including the location of its other branch offices. Such information is normally sought in other countries where A has opened a branch office, and A does not have reason to know that Y is seeking the information for boycott reasons.

A may furnish this information, even though in furnishing it A would disclose information about its business relationships in a boycotted country, because it is being furnished in a normal business context and A

does not have reason to know that it is sought for boycott reasons.

(xiii) U.S. architectural firm A responds to an invitation to submit designs for an office complex in boycotting country Y. The invitation states that all bidders must include information concerning similar types of buildings they have designed. A has not designed such buildings in boycotted country X. Clients frequently seek information of this type before engaging an architect.

A may furnish this information, because this is furnishing normal business information, in a commercial context, relating to A's technical competence and professional experience.

(xiv) U.S. oil company A distributes to potential customers promotional brochures and catalogues which give background information on A's past projects. A does not have business dealings with boycotted country X. The brochures, which are identical to those which A uses throughout the world, list those countries in which A does or has done business. In soliciting potential customers in boycotting country Y, A desires to distribute copies of its brochures.

A may do so, because this is furnishing normal business information, in a commercial context, relating to professional experience.

(xv) U.S. company A is interested in doing business with boycotting country Y. A wants to ask Y's Ministry of Trade whether, and is so why, A is on Y's blacklist or is otherwise restricted for boycott reasons from doing business with Y.

A may take this limited inquiry, because it does not constitute furnishing information.

(xvi) U.S. company A is asked by boycotting country Y to certify that it is not owned by subjects or nationals of boycotted country X and that it is not resident in boycotted country X.

A may not furnish the certification about its residency in X, because it is information about A's business relationships with or in a boycotted country. However, A may furnish the information about the nationality of its owners, because it is not information about A's business relationships.

(xvii) U.S. company A, a manufacturer of certain patented products, desires to register its patents in boycotting country Y. A receives a power of attorney form required to register its patents. The form contains a question regarding A's business relationships with or in boycotted country X. A has no business relationships with X and knows or has reason to know that the information is sought for boycott reasons.

A may not answer the question, because A would be furnishing information about its business relationships with or in a boycotted country.

(e) *Information Concerning Association with Charitable and Fraternal Organizations.*

#### PROHIBITION AGAINST FURNISHING INFORMATION ABOUT ASSOCIATIONS WITH CHARITABLE AND FRATERNAL ORGANIZATIONS

(1) No United States person may furnish or knowingly agree to furnish information about whether any person is a member of, has made contributions to, or is otherwise associated with or involved in the activities of any charitable or fraternal organization which supports a boycotted country.

(2) This prohibition shall apply whether:

(i) the information concerns association with or involvement in any charitable or fraternal organization which (a) has, as one of its stated purposes, the support of a boycotted country through financial contributions or other means, or (b) undertakes, as a major organizational activity, to offer financial or other support to a boycotted country;

(ii) the information is directly or indirectly requested or is furnished on the initiative of the United States person; or

(iii) the information requested or volunteered concerns membership in, financial contributions to, or any other type of association with or involvement in the activities of such charitable or fraternal organization.

(3) This prohibition does not prohibit the furnishing of normal business information in a commercial context as defined in section 369.2(d) of this Part.

(4) This prohibition, like all others, applies only with respect to a United States person's activities in the interstate or foreign commerce of the United States and only when such activities are undertaken with intent to comply with, further, or support an unsanctioned foreign boycott.

#### EXAMPLES OF PROHIBITION AGAINST FURNISHING INFORMATION ABOUT ASSOCIATIONS WITH CHARITABLE OR FRATERNAL ORGANIZATIONS

The following examples are intended to give guidance in determining the circumstances in which the furnishing of information concerning associations with charitable or fraternal organizations is prohibited. They are illustrative, not comprehensive.

(i) U.S. engineering firm A receives an invitation to bid from boycotting country Y. The invitation includes a request to supply information concerning any association which A's officers have with charitable organization B, an organization which is known by A to contribute financial support to boycotted country X. A knows or has reason to know that the information is sought for boycott reasons.

A may not furnish the information.

(ii) U.S. construction company A, in an effort to establish business dealings with boycotting country Y, proposes to furnish information to Y showing that no members of its board of directors are in any way associated with charitable organizations which support boycotted country X. A's purpose is to avoid any possibility of its being blacklisted by Y.

A may not furnish the information, because A's purpose in doing so is boycott-based. It makes no difference that no specific request for the information has been made by Y.

(iii) A, a citizen of the United States, is applying for a teaching position in a school in boycotting country Y. In connection with his application, A furnishes a resume which happens to disclose his affiliation with charitable organizations. A does so completely without reference to Y's boycott and without knowledge of any boycott requirement of Y that pertains to A's application for employment.

The furnishing of a resume by A is not a boycott-related furnishing of information about his association with charitable organizations which support boycotted country X.

#### (f) *Letters of Credit.*

#### PROHIBITION AGAINST IMPLEMENTING LETTERS OF CREDIT CONTAINING PROHIBITED CONDITIONS OR REQUIREMENTS

(1) No United States person may pay, honor, confirm, or otherwise implement a letter of credit which contains a condition or requirement compliance with which is prohibited by this Part, nor shall any United States person, as a result of the application of this section, be obligated to pay, honor or otherwise implement such a letter of credit.

(2) For purposes of this section, "implementing" a letter of credit includes:

(i) issuing or opening a letter of credit at the request of a customer;

(ii) honoring, by accepting as being a valid instrument of credit, any letter of credit;

(iii) paying, under a letter of credit, a draft or other demand for payment by the beneficiary;

(iv) confirming a letter of credit by agreeing to be responsible for payment to the beneficiary in response to a request by the issuer;

(v) negotiating a letter of credit by voluntarily purchasing a draft from a beneficiary and presenting such draft for reimbursement to the issuer or the confirmer of the letter of credit; and

(vi) taking any other action to implement a letter of credit.

(3) In the standard international letter of credit transaction facilitating payment for the export of goods from the United States, a bank in a foreign country may be requested by its customer to issue a revocable or irrevocable letter of credit in favor of the United States exporter. The customer usually requires, and the letter of credit provides, that the issuing (or a confirming) bank will make payment to the beneficiary against the bank's receipt of the documentation specified in the letter of credit. Such documentation usually includes commercial and consular invoices, a bill of lading, and evidence of insurance, but it may also include other required certifications or documentary assurances such as the origin of the goods and information relating to the carrier or insurer of the shipment. Banks usually will not accept drafts for payment unless the documents submitted therewith comply with the terms and conditions of the letter of credit.

(4) A United States person is not prohibited under this section from advising a beneficiary of the existence of a letter of credit in his favor, or from taking ministerial actions to dispose of a letter of credit which it is prohibited from implementing.

## RULES AND REGULATIONS

(5) Compliance with this section shall provide an absolute defense in any action brought to compel payment of, honoring of, or other implementation of a letter of credit, or for damages resulting from failure to pay or otherwise honor or implement the letter of credit. This section shall not otherwise relieve any person from any obligations or other liabilities he may incur under other laws or regulations, except as may be explicitly provided in this section.

#### LETTERS OF CREDIT TO WHICH THIS SECTION APPLIES

(6) This prohibition, like all others, applies only with respect to a United States person's activities taken with intent to comply with, further, or support an unsanctioned foreign boycott. In addition, it applies only when the transaction to which the letter of credit applies is in United States commerce and the beneficiary is a United States person.

#### IMPLEMENTATION OF LETTERS OF CREDIT IN THE UNITED STATES

(7) A letter of credit implemented in the United States by a United States person located in the United States, including a permanent United States establishment of a foreign bank, will be presumed to apply to a transaction in United States commerce and to be in favor of a United States beneficiary where the letter of credit specifies a United States address for the beneficiary. These presumptions may be rebutted by facts which could reasonably lead the bank to conclude that the beneficiary is not a United States person or that the underlying transaction is not in United States commerce.

(8) Where a letter of credit implemented in the United States by a United States person located in the United States does not specify a United States address for the beneficiary, the beneficiary will be presumed to be other than a United States person. This presumption may be rebutted by facts which could reasonably lead the bank to conclude that the beneficiary is a United States person despite the foreign address.

#### IMPLEMENTATION OF LETTERS OF CREDIT OUTSIDE THE UNITED STATES

(9) A letter of credit implemented outside the United States by a United States person located outside the United States will be presumed to apply to a transaction in United States commerce and to be in favor of a United States beneficiary where the letter of credit (a) specifies a United States address for the beneficiary and (b) calls for documents indicating shipment from the United States or otherwise indicating that the goods are of United States origin. These pre-

sumptions may be rebutted by facts which could reasonably lead the bank to conclude that the beneficiary is not a United States person or that the underlying transaction is not in United States commerce.

(10) Where a letter of credit implemented outside the United States by a United States person located outside the United States does not specify a United States address for the beneficiary, the beneficiary will be presumed to be other than a United States person. In addition, where such a letter of credit does not call for documents indicating shipment from the United States or otherwise indicating that the goods are of United States origin, the transaction to which it applies will be presumed to be outside United States commerce. The presumption that the beneficiary is other than a United States person may be rebutted by facts which could reasonably lead the bank to conclude that the beneficiary is a United States person. The presumption that the transaction to which the letter of credit applies is outside United States commerce may be rebutted by facts which could reasonably lead the bank to conclude that the underlying transaction is in United States commerce.

#### GRACE PERIOD

(11) If the underlying transaction to which the letter of credit relates is entitled to grace period treatment under this Part, implementation of the letter of credit is also entitled to such grace period treatment. A letter of credit may be implemented at any time after the end of a grace period regarding the underlying transaction so long as all the prohibited boycott certifications have been given or other boycott-related acts carried out prior to the expiration of a grace period. Similarly, an implementing United States bank may complete implementation of a letter of credit containing prohibited boycott terms after the effective date of this Part provided the beneficiary has complied with all such boycott terms prior to the effective date.

#### EXAMPLES OF THE PROHIBITION AGAINST IMPLEMENTING LETTERS OF CREDIT

The following examples are intended to give guidance in determining the circumstances in which this section applies to the implementation of a letter of credit and in which such implementation is prohibited. They are illustrative not comprehensive.

#### IMPLEMENTATION OF LETTERS OF CREDIT IN UNITED STATES COMMERCE

(1) A, a U.S. bank located in the United States, opens a letter of credit in the United States in favor of B, a foreign company located outside the United States. The letter of credit specifies a non-U.S. address for the beneficiary.

The beneficiary is presumed to be other than a U.S. person, because it does not have a U.S. address. The presumption may be re-

butted by facts showing that A could reasonably conclude that the beneficiary is a U.S. person despite the foreign address.

(ii) A, a branch of a foreign bank located in the United States, opens a letter of credit in favor of B, a foreign company located outside the United States. The letter of credit specifies a non-U.S. address for the beneficiary.

The beneficiary is presumed to be other than a U.S. person, because it does not have a U.S. address. The presumption may be rebutted by facts showing that A could reasonably conclude that the beneficiary is a U.S. person despite the foreign address.

(iii) A, a U.S. bank branch located outside the United States, opens a letter of credit in favor of B, a person with a U.S. address. The letter of credit calls for documents indicating shipment of goods from the United States.

The letter of credit is presumed to apply to a transaction in U.S. commerce and to be in favor of a U.S. beneficiary because the letter of credit specifies a U.S. address for the beneficiary and calls for documents indicating that the goods will be shipped from the United States. These presumptions may be rebutted by facts showing that A could reasonably conclude that the beneficiary is not a U.S. person or that the underlying transaction is not in U.S. commerce.

(iv) A, a U.S. bank branch located outside the United States, opens a letter of credit which specifies a beneficiary, B, with an address outside the United States and calls for documents indicating that the goods are of U.S.-origin. A knows or has reason to know that although B has an address outside the United States, B is a U.S. person.

The letter of credit is presumed to apply to a transaction in U.S. commerce, because the letter of credit calls for shipment of U.S.-origin goods. In addition, the letter of credit is presumed to be in favor of a beneficiary who is a U.S. person, because A knows or has reason to know that the beneficiary is a U.S. person despite the foreign address.

(v) A, a U.S. bank branch located outside the United States, opens a letter of credit which specifies a beneficiary with a U.S. address. The letter of credit calls for documents indicating shipment of foreign-origin goods.

The letter of credit is presumed to be in favor of a U.S. beneficiary but to apply to a transaction outside U.S. commerce, because it calls for documents indicating shipment of foreign-origin goods. The presumption of non-U.S. commerce may be rebutted by facts showing that A could reasonably conclude that the underlying transaction involves shipment of U.S.-origin goods or goods from the U.S.

#### PROHIBITION AGAINST IMPLEMENTING LETTERS OF CREDIT

(i) Boycotting country Y orders goods from U.S. company B. Y opens a letter of credit with foreign bank C in favor of B. The letter of credit specifies as a condition of payment that B certify that it does not do business with boycotted country X. Foreign bank C forwards the letter of credit it has opened to U.S. bank A for confirmation.

A may not confirm or otherwise implement this letter of credit, because it contains a condition with which a U.S. person may not comply.

(ii) Same as (i), except U.S. bank A desires to advise the beneficiary, U.S. company B, of the letter of credit.

A may do so, because advising the beneficiary of the letter of credit (including the

term which prevents A from implementing it) is not implementation of the letter of credit.

(iii) Same as (i), except foreign bank C sends a telegram to U.S. bank A stating the major terms and conditions of the letter of credit. The telegram does not reflect the boycott provision. Subsequently, C mails to A documents setting forth the terms and conditions of the letter of credit, including the prohibited boycott condition.

A may not further implement the letter of credit after it receives the documents, because they reflect the prohibited boycott condition in the letter of credit. A may advise the beneficiary and C of the existence of the letter of credit (including the boycott term), and may perform any essentially ministerial acts necessary to dispose of the letter of credit.

(iv) Same as (iii), except that U.S. company B, based in part on information received from U.S. bank A, desires to obtain an amendment to the letter of credit which would eliminate or nullify the language in the letter of credit which prevents A from paying or otherwise implementing it.

Either company B or bank A may undertake, and the other may cooperate and assist in, this endeavor. A could then pay or otherwise implement the revised letter of credit, so long as the original prohibited language is of no force or effect.

(v) Boycotting country Y requests a foreign bank in Y to open a letter of credit to effect payment for goods to be shipped by U.S. supplier B, the beneficiary of the letter of credit. The letter of credit contains prohibited boycott clauses. The foreign bank forwards a copy of the letter of credit to its branch office, A, in the United States.

A may advise the beneficiary but may not implement the letter of credit, because it contains prohibited boycott conditions.

(vi) On November 1, 1977, boycotting country Y orders goods from U.S. company B. U.S. bank A is asked to implement, for the benefit of B, a letter of credit which contains a clause requiring documentation that the goods shipped are not of boycotted country X origin.

A may implement the letter of credit, but after June 21, 1978, may accept only a positive certificate of origin as satisfactory documentation. (See section 369.3(b) on "Import and Shipping Document Requirements.")

(vii) Same as (vi), except that U.S. company B has a contract with Y to supply a certain quantity of goods each month over a two-year period. B's contract was entered into on May 15, 1977, and thus qualifies for grace period treatment until December 31, 1978. Each month, Y causes a letter of credit to be opened in favor of B in order to effect payment. Such letters of credit call for negative certificates of origin.

A may accept negative certificates of origin in fulfillment of the terms of the letter of credit through December 31, 1978, because the underlying contract is entitled to a grace period through that date. (See section 369.5 on "Grace Period.")

(viii) B is a foreign bank located outside the United States. B maintains an account with U.S. bank A, located in the United States. A letter of credit issued by B in favor of a U.S. beneficiary provides that any negotiating bank may obtain reimbursement from A by certifying that all the terms and conditions of the letter of credit have been met and then drawing against B's account. B notifies A by cable of the issuance of a

letter of credit and the existence of reimbursement authorization; A does not receive a copy of the letter of credit.

A may reimburse any negotiating bank, even when the underlying letter of credit contains a prohibited boycott condition, because A does not know or have reason to know that the letter of credit contains a prohibited boycott condition.

(ix) Same as (viii), except that foreign bank B forwards a copy of the letter of credit to U.S. bank A, which then becomes aware of the prohibited boycott clause.

A may not thereafter reimburse a negotiating bank or in any way further implement the letter of credit, because it knows of the prohibited boycott condition.

(x) Boycotting country Y orders goods from U.S. exporter B and requests a foreign bank in Y to open a letter of credit in favor of B to cover the cost. The letter of credit contains a prohibited boycott clause. The foreign bank asks U.S. bank A to advise and confirm the letter of credit. Through inadvertence, A does not notice the prohibited clause and confirms the letter of credit. A thereafter notices the clause and then refuses to honor B's draft against the letter of credit. B sues bank A for payment.

A has an absolute defense against the obligation to make payment under this letter of credit. (NOTE: This section does not alter any other obligations or liabilities of the parties under appropriate law.)

(xi) U.S. bank A has confirmed and is in the midst of implementing a letter of credit in favor of a U.S. beneficiary when the rules and regulations of this Part are issued in final form and become effective. Upon examination of this Part, A determines that the letter of credit contains a prohibited boycott clause calling for a negative certificate of origin.

A may accept a negative certificate of origin in fulfillment of the terms of the letter of credit until June 21, 1978, one year from the date of enactment of the Export Administration Amendments of 1977, because negative certificates of origin are not prohibited through that date.

(xii) Boycotting country Y orders goods from U.S. company B. A letter of credit which contains a prohibited boycott clause is opened in favor of B by a foreign bank in Y. The foreign bank asks U.S. bank A to advise and confirm the letter of credit, which it forwards to A.

A may advise B that it has received the letter of credit (including the boycott term), but may not confirm the letter of credit with the prohibited clause.

(xiii) Same as (xii), except U.S. bank A fails to tell B that it cannot process the letter of credit. B requests payment.

A may not pay. If the prohibited language is eliminated or nullified as the result of renegotiation, A may then pay or otherwise implement the revised letter of credit.

(xiv) U.S. bank A receives a letter of credit in favor of U.S. beneficiary B. The letter of credit requires B to certify that he is not blacklisted.

A may implement such a letter of credit, but it may not insist that the certification be furnished, because by so insisting it would be refusing to do business with a blacklisted person in compliance with a boycott.

(xv) A, a U.S. bank located in the U.S., opens a letter of credit in favor of U.S. beneficiary B for B's sale of goods to boycotting country Y. The letter of credit contains no boycott conditions, but A knows that Y cus-

tomarily requires the seller of goods to certify that it has dealt with no blacklisted supplier. A, therefore, instructs B that it will not make payment under the letter of credit unless B makes such a certification.

A's action in requiring the certification from B constitutes action to require another person to refuse to do business with blacklisted persons.

(xvi) A, a U.S. bank located in the U.S., opens a letter of credit in favor of U.S. beneficiary B for B's sale of goods to boycotting country Y. The letter of credit contains no boycott conditions, but A has actual knowledge that B has agreed to supply a certification to Y that it has not dealt with blacklisted firms, as a condition of receiving the letter of credit in its favor.

A may not implement the letter of credit, because it knows that an implicit condition of the credit is a condition with which B may not legally comply.

#### § 369.3 Exceptions to Prohibitions.

##### (a-1) Import Requirements of a Boycotting Country.

#### COMPLIANCE WITH IMPORT REQUIREMENTS OF A BOYCOTTING COUNTRY

(1) A United States person, in supplying goods or services to a boycotting country, or to a national or resident of a boycotting country, may comply or agree to comply with requirements of such boycotting country which prohibit the import of:

(i) goods or services from the boycotted country;

(ii) goods produced or services provided by any business concern organized under the laws of the boycotted country; or

(iii) goods produced or services provided by nationals or residents of the boycotted country.

(2) A United States person may comply or agree to comply with such import requirements whether or not he has received a specific request to comply. By its terms, this exception applies only to transactions involving imports into a boycotting country. A United States person may not, under this exception, refuse on an across-the-board basis to do business with a boycotted country or a national or resident of a boycotted country.

(3) In taking action within the scope of this exception, a United States person is limited in the types of boycott-related information he can supply. (See section 369.2(d) on "Furnishing Information About Business Relationships with Boycotted Countries or Blacklisted Persons" and section 369.3(b) on "Import and Shipping Document Requirements".)

#### EXAMPLES OF COMPLIANCE WITH IMPORT REQUIREMENTS OF A BOYCOTTING COUNTRY

The following examples are intended to give guidance in determining the circumstances in which compliance with the import requirements of a boycotting country is permissible. They are illustrative, not comprehensive.

(i) A, a U.S. manufacturer, receives an order from boycotting country Y for its

products. Country X is boycotted by country Y, and the import laws of Y prohibit the importation of goods produced or manufactured in X. In filling this type of order, A would usually include some component parts produced in X.

For the purpose of filling this order, A may substitute comparable component parts in place of parts produced in X, because the import laws of Y prohibit the importation of goods manufactured in X.

(ii) Same as (i), except that A's contract with Y expressly provides that in fulfilling the contract A "may not include parts or components produced or manufactured in boycotted country X."

A may agree to and comply with this contract provision, because Y prohibits the importation of goods from X. (NOTE: After June 21, 1978, A may not furnish negative certifications regarding the origin of components in response to import and shipping document requirements.)

(iii) A, a U.S. building contractor, is awarded a contract to construct a plant in boycotting country Y. A accepts bids on goods required under the contract, and the lowest bid is made by B, a business concern organized under the laws of X, a country boycotted by Y. Y prohibits the import of goods produced by companies organized under the laws of X.

For purposes of this contract, A may reject B's bid and accept another, because B's goods would be refused entry into Y because of Y's boycott against X.

(iv) Same as (iii), except that A also rejects the low bid by B for work on a construction project in country M, a country not boycotted by Y.

This exception does not apply, because A's action is not taken in order to comply with Y's requirements prohibiting the import of products from boycotted country X.

(v) A, a U.S. management consulting firm, contracts to provide services to boycotting country Y. Y requests that A not employ residents or nationals of boycotted country X to provide those services.

A may agree, as a condition of the contract, not to have services furnished by nationals or residents of X, because importation of such services is prohibited by Y.

(vi) A, a U.S. company, is negotiating a contract to supply machine tools to boycotting country Y. Y insists that the contract contain a provision whereby A agrees that none of the machine tools will be produced by any business concern owned by nationals of boycotted country X, even if the business concern is organized under the laws of a non-boycotted country.

A may not agree to this provision, because it is a restriction on the import of goods produced by business concerns owned by nationals of a boycotted country even if the business concerns themselves are organized under the laws of a non-boycotted country.

##### (a-2) Shipment of Goods to a Boycotting Country.

#### COMPLIANCE WITH REQUIREMENTS REGARDING THE SHIPMENT OF GOODS TO A BOYCOTTING COUNTRY

(1) A United States person, in shipping goods to a boycotting country, may comply or agree to comply with requirements of that country which prohibit the shipment of goods:

(i) on a carrier of the boycotted country; or

(ii) by a route other than that prescribed by the boycotting country or the recipient of the shipment.

(2) A specific request that a United States person comply or agree to comply with requirements concerning the use of carriers of a boycotted country is not necessary if the United States person knows, or has reason to know, that the use of such carriers for shipping goods to the boycotting country is prohibited by requirements of the boycotting country. This exception applies whether a boycotting country or the purchaser of the shipment:

(i) explicitly states that the shipment should not pass through a port of the boycotted country; or

(ii) affirmatively describes a route of shipment that does not include a port in the boycotted country.

(3) For purposes of this exception, the term "carrier of a boycotted country" means a carrier which flies the flag of a boycotted country or which is owned, chartered, leased, or operated by a boycotted country or by nationals or residents of a boycotted country.

#### EXAMPLES OF COMPLIANCE WITH THE SHIPPING REQUIREMENTS OF A BOYCOTTING COUNTRY

The following examples are intended to give guidance in determining the circumstances in which compliance with requirements regarding shipment of goods to a boycotting country is permissible. They are illustrative, not comprehensive.

(i) A is a U.S. exporter from whom boycotting country Y is importing goods. Y directs that the goods not pass through a port of boycotted country X.

A may comply with Y's shipping instructions, because they pertain to the route of shipment of goods being shipped to Y.

(ii) A, a U.S. fertilizer manufacturer, receives an order from boycotting country Y for fertilizer. Y specifies in the order that A may not ship the fertilizer on a carrier of boycotted country X.

A may comply with this request, because it pertains to the carrier of a boycotted country.

(iii) B, a resident of boycotting country Y, orders textile goods from A, a U.S. distributor, specifying that the shipment must not be made on a carrier owned or leased by nationals of boycotted country X and that the carrier must not pass through a port of country X enroute to Y.

A may comply or agree to comply with these requests, because they pertain to the shipment of goods to Y on a carrier of a boycotted country and the route such shipment will take.

(iv) Boycotting country Y orders goods from A, a U.S. retail merchant. The order specifies that the goods shipped by A "may not be shipped on a carrier registered in or owned by boycotted country X."

A may agree to this contract provision, because it pertains to the carrier of a boycotted country.

(v) Boycotting country Y orders goods from A, a U.S. pharmaceutical company, and requests that the shipment not pass through a port of country P, which is not a country boycotted by Y.

This exception does not apply in a non-boycotting situation. A may comply with

the shipping instructions of Y, because in doing so he would not violate any prohibition of this Part.

(b) *Import and Shipping Document Requirements.*

#### COMPLIANCE WITH IMPORT AND SHIPPING DOCUMENT REQUIREMENTS OF A BOYCOTTING COUNTRY

(1) A United States person, in shipping goods to a boycotting country, may comply or agree to comply with import and shipping document requirements of that country, with respect to:

- (i) the country of origin of the goods;
- (ii) the name of the carrier;
- (iii) the route of the shipment;
- (iv) the name of the supplier of the shipment; and
- (v) the name of the provider of other services.

(2) After June 21, 1978, all such information must be stated in positive, non-blacklisting, non-exclusionary terms except for information with respect to the names of carriers or routes of shipment, which may continue to be stated in negative terms in conjunction with shipments to a boycotting country, in order to comply with precautionary requirements protecting against war risks or confiscation. The purpose of this delayed effective date, which is provided by Section 4A(a)(2)(B) of the Export Administration Act of 1969, as amended, is to allow time for persons to adjust their practices to the use of import and shipping documentation stated in positive rather than negative terms.

#### EXAMPLES OF COMPLIANCE WITH IMPORT AND SHIPPING DOCUMENT REQUIREMENTS

The following examples are intended to give guidance in determining the circumstances in which compliance with import and shipping document requirements of a boycotting country is permissible. They are illustrative, not comprehensive.

(1) Boycotting country Y contracts with A, a U.S. petroleum equipment manufacturer, for certain equipment. Y requires that goods being imported into Y must be accompanied by a certification that the goods

being supplied did not originate in boycotted country X.

Until June 21, 1978, A may comply with such import requirements in the terms requested. After June 21, 1978, A may not supply such a certification in negative terms but may identify instead the country of origin of the goods in positive terms only.

(ii) Same as (i), except that Y requires that the shipping documentation accompanying the goods specify the country of origin of the goods.

A may furnish the information:

(iii) On February 1, 1978, A, a U.S. distributor, enters into a two-year contract with boycotting country Y to make monthly shipments of goods to Y. A clause in the contract requires that all shipments into the country must be accompanied by a certification that the goods did not originate in X, a country boycotted by Y.

A may supply such a negative certification until June 21, 1978. After that date, A may state the origin of the goods on the shipping or import documents in positive terms only.

(iv) A, a U.S. apparel manufacturer, has contracted to sell certain of its products to B, a national of boycotted country Y. The form that must be submitted to customs officials of Y requires the shipper to certify that the goods contained in the shipment have not been supplied by "blacklisted" persons.

Until June 21, 1978, A may furnish the information required in the terms requested. After June 21, 1978, A may not furnish the information in negative terms but may certify, in positive terms only, the name of the supplier of the goods.

(v) Same as (iv), except the customs form requires certification that the insurer and freight forwarder used are not "blacklisted".

Until June 21, 1978, A may furnish the information required in the terms requested. After June 21, 1978, A may not comply with the request but may supply a certification stating, in positive terms only, the names of the insurer and freight forwarder.

(vi) A, a U.S. petrochemical manufacturer, executes a sales contract with B, a resident of boycotted country Y. A provision of A's contract with B requires that the bill of lading and other shipping documents contain certifications that the goods have not been shipped on a "blacklisted" carrier.

Until June 21, 1978, A may furnish the information required in the terms requested. After June 21, 1978, A may not agree to supply a certification that the carrier is not "blacklisted" but may certify the name of the carrier in positive terms only.

(vii) Same as (vi), except that the contract requires certification that the goods will not be shipped on a carrier which flies the flag of, or is owned, chartered, leased, or operated by boycotted country X, or by nationals or residents of X.

Such a certification, which is a reasonable requirement to protect against war risks or confiscation, may be furnished at any time.

(viii) Same as (vi), except that the contract requires that the shipping documents certify the name of the carrier being used.

A may, at any time, supply or agree to supply the requested documentation regarding the name of the carrier, either in negative or positive terms.

(ix) Same as (vi), except the contract requires a certification that the carrier will not call at a port in boycotted country X before making delivery in Y.

Such a certification, which is a reasonable requirement to protect against war risks or confiscation, may be furnished at any time.

(x) Same as (vi), except that the contract requires that the shipping documents indicate the name of the insurer and freight forwarder.

A may comply at any time, because the statement is not required to be made in negative or blacklisting terms.

(xi) A, a U.S. exporter, is negotiating a contract to sell bicycles to boycotting country Y. Y insists that A agree to certify that the goods will not be shipped on a vessel which has ever called at a port in boycotted country X.

As distinguished from a certification that goods will not be shipped on a vessel which will call enroute a port of boycotted country X, such a certification is not a reasonable requirement to protect against war risks or confiscation, and hence, may not be supplied.

(xii) Same as (xi), except that Y insists that A agree to certify that the goods will not be shipped on a carrier that is ineligible to enter Y's waters.

Such a certification, which is not a reasonable requirement to protect against war risks or confiscation may not be supplied.

(xiii) A, a U.S. exporter, sells some of its products to boycotting country Y. A foreign bank located in Y opens a letter of credit to pay for the goods. The letter of credit requires that A supply documentation certifying that "the goods are not manufactured in boycotted country X."

A may make the required certification until June 21, 1978, because import and shipping document requirements of a boycotting country may be reflected in letters of credit.

(2) This exception pertains to what is permissible for a United States person who is the recipient of a unilateral and specific selection of goods or services to be furnished by a third person. It does not pertain to whether the act of making such a selection is permitted; that question is covered, with respect to United States persons, in section 369.3(f) on "Compliance with Local Law". Nor does it pertain to the United States person who is the recipient of an order to supply its own goods or services. Nothing in this Part prohibits or restricts a United States person from filling an order himself, even if he is selected by the buyer on a boycott basis (e.g., because he is not blacklisted), so long as he does not himself take any action prohibited by this Part.

#### UNILATERAL AND SPECIFIC CHARACTER OF THE SELECTION

(3) In order for this exception to apply, the selection with which a United States person wishes to comply must be unilateral and specific.

(4) A "specific" selection is one which is stated in the affirmative and which specifies a particular supplier of goods or services.

(5) A "unilateral" selection is one in which the discretion in making the selection is exercised by the boycotting country buyer. If the United States person who receives a unilateral selection has provided the buyer with any boycott-based assistance (including information for purposes of helping the buyer select someone on a boycott basis), then the buyer's selection is not unilateral, and compliance with that selection by a United States person does not come within this exception.

(6) The provision of so-called "pre-selection" or "pre-award" services, such as providing lists of qualified suppliers, subcontractors, or bidders, does not, in and of itself, destroy the unilateral character of a selection, provided such services are not boycott-based. Lists of qualified suppliers, for example, must not exclude anyone because he is blacklisted. Moreover, such services must be of the type customarily provided in similar transactions by the firm (or industry of which the firm is a part) as measured by the practice in non-boycotting as well as boycotting countries. If such services are not customarily provided in similar transac-

tions or such services are provided in such a way as to exclude blacklisted persons from participating in a transaction or diminish their opportunity for such participation, then the services may not be provided without destroying the unilateral character of any subsequent selection.

#### SELECTION TO BE MADE BY BOYCOTTING COUNTRY RESIDENT

(7) In order for this exception to be available, the unilateral and specific selection must have been made by a boycotting country, or by a national or resident of a boycotting country. Such a resident may be a United States person. For purposes of this exception, a United States person will be considered a resident of a boycotting country only if he is a bona fide resident. A United States person may be a bona fide resident of a boycotting country even if such person's residency is temporary.

(8) Factors that will be considered in determining whether a United States person is a bona fide resident of a boycotting country include:

- (i) physical presence in the country;
- (ii) whether residence is needed for legitimate business reasons;
- (iii) continuity of the residency;
- (iv) intent to maintain the residency;
- (v) prior residence in the country;
- (vi) size and nature of presence in the country;
- (vii) whether the person is registered to do business or incorporated in the country;
- (viii) whether the person has a valid work visa; and
- (ix) whether the person has a similar presence in both boycotting and non-boycotting foreign countries in connection with similar business activities.

No one of these factors is dispositive. All the circumstances will be examined closely to ascertain whether there is, in fact, a bona fide residency. Residency established solely for purposes of avoidance of the application of this Part, unrelated to legitimate business needs, does not constitute bona fide residency.

(9) The boycotting country resident must be the one actually making the selection. If a selection is made by a non-resident agent, parent, subsidiary, affiliate, home office or branch office of a boycotting country resident, it is

not a selection by a resident within the meaning of this exception.

(10) A selection made solely by a bona fide resident and merely transmitted by another person to a United States person for execution is a selection by bona fide resident within the meaning of this exception.

#### DUTY OF INQUIRY

(11) If a United States person receives, from another person located in the United States, what may be a unilateral selection by a boycotting country customer, and knows or has reason to know that the selection is made for boycott reasons, he has a duty to inquire of the transmitting person to determine who actually made the selection. If he knows or has reason to know that the selection was made by other than a boycotting country, or a national or resident of boycotting country, he may not comply. A course or pattern of conduct which a United States person recognizes or should recognize as consistent with boycott restrictions will create a duty to inquire.

(12) If the United States person does not know or have reason to know that the selection it receives is boycott-based, its compliance with such a selection does not offend any prohibition and this exception is not needed.

#### SELECTION OF SERVICES

(13) This exception applies only to compliance with selections of certain types of suppliers of services—carriers, insurers, and suppliers of services to be performed "within the boycotting country". Services to be performed wholly within the United States or wholly within any country other than the boycotting country are not covered.

(14) For purposes of this Part, services are to be performed "within the boycotting country" only if they are of a type which would customarily be performed by suppliers of those services within the country of the recipient of those services, and if the part of the services performed within the boycotting country is a necessary and not insignificant part of the total services performed.

(15) What is "customary and necessary" for these purposes depends on the usual practice of the supplier of the services (or the industry of which he is a part) as measured by the practice in non-boycotting as well as boy-

#### (c) Compliance with Unilateral Selection.

#### COMPLIANCE WITH UNILATERAL AND SPECIFIC SELECTION

(1) A United States person may comply or agree to comply in the normal course of business with the unilateral and specific selection by	of	provided that:
a boycotting country, a national of a boycotting country, or a resident of a boycotting country (including a United States person who is a bona fide resident of a boycotting country)	carriers, insurers, suppliers of services to be performed within the boycotting country, or specific goods.	with respect to services, it is necessary and customary that a not insignificant part of the services be performed within the boycotting country, and with respect to goods, the items, in the normal course of business, are identifiable as to their source or origin at the time of their entry into the boycotting country by (a) uniqueness of design or appearance; or (b) trademark, trade name, or other identification normally on the items themselves, including their packaging.

cotting countries, except where such practices are instituted to accommodate this Part.

#### SELECTION OF GOODS

(16) This exception applies only to compliance with selections of certain types of goods—goods that, in the normal course of business, are identifiable as to their source or origin at the time of their entry into the boycotting country. The definition of "specifically identifiable goods" is the same under this section as it is in section 369.3(f) on "Compliance with Local Law."

(17) Goods "specifically identifiable" in the normal course of business are those items which at the time of their entry into a boycotting country are identifiable as to source or origin by (a) uniqueness of design or appearance; or (b) trademark, trade name, or other identification normally on the items themselves, including their packaging. Goods are "specifically identifiable" in the normal course of business if their source or origin is ascertainable by inspection of the items themselves, including their packaging, regardless of whether inspection takes place. Goods are not considered to be "specifically identifiable" in the normal course of business if a trademark, trade name, or other form of identification not normally present is added to the items themselves, including their packaging, to accommodate this Part.

#### GENERAL

(18) If a unilateral selection meets the conditions described above, the United States person receiving the unilateral selection may comply or agree to comply, even if he knows or has reason to know that the selection was boycott-based. However, no United States person may comply or agree to comply with any unilateral selection if he knows or has reason to know that the purpose of the selection is to effect discrimination against any United States person on the basis of race, religion, sex, or national origin.

#### EXAMPLES OF COMPLIANCE WITH A UNILATERAL SELECTION

The following examples are intended to give guidance in determining what constitutes a unilateral selection and the circumstances in which compliance with such a selection is permissible. They are illustrative, not comprehensive.

#### SPECIFIC AND UNILATERAL SELECTION

(i) A, a U.S. manufacturer of road-grading equipment, is asked by boycotting country Y to ship goods to Y on U.S. vessel B, a carrier which is not blacklisted by Y. A knows or has reason to know that Y's selection of B is boycott-based.

A may comply with Y's request, or may agree to comply as a condition of the contract, because the selection is specific and unilateral.

(ii) A, a U.S. contractor building an industrial facility in boycotting country Y is asked by B, a resident of Y, to use C as the supplier of air conditioning equipment to be used in the facility. C is not blacklisted by country Y. A knows or has reason to know that B's request is boycott-based.

A may comply with B's request, or may agree to comply as a condition of the contract, because the selection of C is specific and unilateral.

(iii) A, a U.S. manufacturer of automotive equipment, is asked by boycotting country Y not to ship its goods to Y on U.S. carriers, B, C, or D. Carriers B, C, and D are blacklisted by boycotting country Y. A knows or has reason to know that Y's request is boycott-based.

A may not comply or agree to comply with Y's request, because no specific selection of any particular carrier has been made.

(iv) A, a U.S. exporter shipping goods ordered by boycotting country Y, is provided by Y with a list of eligible U.S. insurers from which A may choose in insuring the shipment of its goods. A knows or has reason to know that the list was compiled on a boycott basis.

A may not comply or agree to comply with Y's request that A choose from among the eligible insurers, because no specific selection of any particular insurer has been made.

(v) A, a U.S. aircraft manufacturer, is negotiating to sell aircraft to boycotting country Y. During the negotiations, Y asks A to identify the company which normally manufactures the engines for the aircraft. A responds that they are normally manufactured by U.S. engine manufacturer-B. B is blacklisted by Y. In making the purchase, Y specifies that the engines for the aircraft should be supplied by U.S. engine manufacturer C.

A may comply or agree to comply with Y's selection of C, because Y's selection is unilateral and specific.

(vi) A, a U.S. construction firm, is retained by an agency of boycotting country Y to build a pipeline. Y requests A to suggest qualified engineering firms to be used on-site in the construction of the pipeline. It is customary for A, regardless of where it conducts its operations, to identify qualified engineering firms to its customers so that its customers may make their own selection of the firm to be engaged. Choice of engineering firm is customarily a prerogative of the customer. A provides a list of five engineering firms, B-F, excluding no firm because it may be blacklisted, and then confers with and gives it recommendations to Y. A recommends C, because C is the best qualified. Y then selects B, because C is blacklisted.

A may comply with Y's selection of B, because the boycott-based decision is made by Y and is unilateral and specific. Since A's pre-award services are of the kind customarily provided in these situations, and since they are provided without reference to the boycott, they do not destroy the unilateral character of Y's selection.

(vii) A, a U.S. aircraft manufacturer, has an order to supply a certain number of planes to boycotting country Y. In connection with the order, Y asks A to supply it with a list of qualified aircraft tire manufacturers so that Y can select the tires to be placed on the planes. This is a highly unusual request, since, in A's worldwide business operations, choice of tires is customarily made by the manufacturer, not the customer. Nonetheless, A supplies a list of tire

manufacturers, B, C, D, and E. Y chooses tire manufacturer B because B is not blacklisted. Had A, as is customary, selected the tires, company C would have been chosen. C happens to be blacklisted, and A knows that C's blacklist status was the reason for Y's selection of B.

A's provision of a list of tire manufacturers for Y to choose from destroys the unilateral character of Y's selection, because such a pre-selection service is not customary in A's worldwide business operations.

(viii) A, a U.S. aircraft manufacturer, receives an order from U.S. company C, which is located in the United States, for the sale of aircraft to company D, a U.S. affiliate of C. D is a bona fide resident of boycotting country Y. C instructs A that "in order to avoid boycott problems," A must use engines that are manufactured by company B, a company that is not blacklisted by Y. Engines built by B are unique in design and also bear B's trade name.

Since A has reason to know that the selection is boycott-based, he must inquire of C whether the selection was in fact made by D. If C informs A that the selection was made by D, A may comply.

(ix) Same as (viii), except that C initially states that the designation was unilaterally and specifically made by D.

A may accept C's statement without further investigation and may comply with the selection, because C merely transmitted D's unilateral and specific selection.

(x) Same as (ix), except that C informs A that it, C, has selected B on behalf of or as an agent of its affiliated company resident in the boycotting country.

A may not comply with this selection, because the decision was not made by a resident of the boycotting country.

(xi) A, a U.S. management consulting firm, is advising boycotting country Y on the selection of a contracting firm to construct a plant for the manufacture of agricultural chemicals. As is customary in its business, A compiles a list of potential contractors on the basis of its evaluation of the capabilities of the respective candidates to perform the job. A has knowledge that company B is blacklisted, but provides Y with the names of companies B, C, D, and E, listing them in order of their qualifications. Y instructs A to negotiate with C.

A may comply with Y's instruction, because Y's selection is unilateral and specific.

(xii) A, a U.S. exporter, is asked by boycotting country Y not to ship goods on carriers B, C, or D, which are owned by nationals of and are registered in country P, a country not boycotted by Y.

A may comply or agree to comply with Y's request even though the selection is not specific, because A does not know or have reason to know that the request is boycott-based. (NOTE: In example (xii), A has violated no prohibition, because it does not know or have reason to know that Y's instruction is boycott-based. Therefore, A could not act with the requisite intent to comply with the boycott.)

(xiii) A, a U.S. construction company, receives a contract to construct a hotel in boycotting country Y. As part of the contract, A is required to furnish Y with lists of qualified suppliers of various specifically identifiable items. A compiles lists of various qualified suppliers wholly without reference to the boycott, and thereafter Y instructs A to negotiate with, enter into contracts with, and arrange for delivery from each of the suppliers which Y designates. A knows that Y's choices are made on a boycott basis.

A may comply with Y's selections and carry out these post-award services for Y, because Y's selections were unilateral and specific and A's pre-award services were provided without reference to Y's boycott.

#### EXAMPLES OF BOYCOTTING COUNTRY BUYER

(The factors in determining whether a United States person is a "bona fide resident" of a boycotting country are the same as in section 369.3(f) on "Compliance with Local Law." See also the examples in that section.)

(i) A, a U.S. exporter, is asked by B, a U.S. person who is a bona fide resident of boycotting country Y, to ship goods on U.S. carrier C. C is not blacklisted by Y, and A knows that B has chosen on a boycott basis in order to comply with Y's boycott laws.

A may comply or agree to comply with B's request, because B is a bona fide resident of Y.

(ii) A is a U.S. computer company whose subsidiary, B, is a bona fide resident of boycotting country Y. A receives an order from B for specific, identifiable products manufactured by company C in connection with a computer which B is installing in Y.

A may comply or agree to comply with B's unilateral and specific selection, so long as the discretion was in fact exercised by B, not A. (NOTE: Unilateral selection transactions involving related United States persons will be scrutinized carefully to ensure that the selection was in fact made by the bona fide resident of the boycotting country.)

(iii) A, a U.S. engineering firm, has chief engineer B as its resident engineer on a dam construction site in boycotting country Y. B's presence at the site is necessary in order to ensure proper supervision of the project. In order to comply with local law, B selects equipment supplier C rather than D, who is blacklisted, and directs A to purchase certain specific equipment from C for use in the project.

A may comply with this unilateral selection, because the decision was made by a bona fide resident of Y. (As noted above, unilateral selections involving related United States persons will be scrutinized carefully to ensure that the selection was in fact made by the bona fide resident of the boycotting country.)

(iv) B, a branch of U.S. bank A, is located in boycotting country Y. B is in need of office supplies and asks the home office in New York to make the necessary purchases.

A contacts C, a U.S. company in the office supply business, and instructs C to purchase various items from certain specific companies and ship them directly to B. In order to avoid any difficulties for B with respect to Y's boycott laws, A is careful to specify only non-blacklisted companies or suppliers. C knows that that was A's purpose.

C may not comply with A's instruction, because the selection of suppliers was not made by a resident of a boycotting country.

(v) Same as (iv), except that A has given standing instructions to B that whenever it needs office supplies, it should specify certain suppliers designated by A. To avoid running afoul of Y's boycott laws, A's designations consist exclusively of non-blacklisted firms. A receives an order from B with the suppliers designated in accordance with A's instructions.

A may not comply with B's selection, because the selection was not in fact made by a bona fide resident of the boycotting country, but by a person located in the United States.

#### EXAMPLES OF SUPPLIERS OF SERVICES

(i) A, a U.S. manufacturer, is asked by boycotting country Y to ship goods to Y on U.S. vessel B, a carrier which is not blacklisted by Y.

A may comply or agree to comply with Y's request, because compliance with the unilateral and specific selection of carriers is expressly permitted under this exception.

(ii) A, a U.S. exporter shipping goods ordered by C, a national of boycotting country Y, is asked by C to insure the shipment through U.S. insurer B.

A may comply or agree to comply with C's request, because compliance with the unilateral and specific selection of an insurer is expressly permitted under this exception.

(iii) A, a U.S. construction company, is hired by C, an agency of the government of boycotting country Y, to build a power plant in Y. C specifies that A should subcontract the foundation work to U.S. contractor B. Part of the foundation design work will be done by B in the United States.

A may comply or agree to comply with Y's designation, because a necessary and not insignificant part of B's services are to be performed within the boycotting country, and such services are customarily performed on-site.

(iv) A, a U.S. contractor, is engaged by boycotting country Y to build a power plant. Y specifies that U.S. architectural firm B should be retained by A to design the plant. In order to design the plant, it is essential that B's personnel visit and become familiar with the site, although the bulk of the design and drawing work will be done in the United States.

A may comply or agree to comply with Y's unilateral and specific selection of architectural firm B, because a necessary and not insignificant part of B's services are to be performed within Y, and such on-site work is customarily involved in the provision of architectural services. The fact that the bulk of the actual work may be performed in the United States is irrelevant since the part to be performed within Y is necessary to B's effective performance.

(v) Same as (iv), except that Y specifies that the turbine for the power plant should be designed by U.S. engineer C. It is neither customary nor necessary for C to visit the site in order to do any of his work, but C has informed A that he would probably want to visit the site in Y if he were selected for the job.

A may not comply or agree to comply with Y's request, because, in the normal course of business, it is neither customary nor necessary for engineer C's services to be performed in Y.

(vi) A, a U.S. aircraft manufacturer, receives a contract from boycotting country Y to manufacture jet engines for Y's use. Y specifies that the engines should be designed by U.S. industrial engineering firm B.

A may not comply or agree to comply with Y's request, because, in the normal course of business, the services will not be performed in Y.

(vii) U.S. company A has a contract to supply specially designed road graders to boycotting country Y. Y has instructed A that it should engage engineering firm B in the design work rather than engineering firm C, which A normally uses, because C is blacklisted. When A contacts B, B informs A that one of B's personnel customarily visits the location in which any equipment B designs is used after it is in use, in order to determine how good a design job B has done.

Such visits are necessary from B's point of view to provide a check on the quality of its work, and they are necessary from Y's point of view because they make it possible for Y to discuss possible design changes should deficiencies be detected.

A may not comply with Y's selection of B, because the services which B would perform in Y are an insignificant part of the total services to be performed by B.

#### EXAMPLES OF SPECIFICALLY IDENTIFIABLE GOODS

(The test of what constitutes "specifically identifiable goods" under this exception also applies to the term "specifically identifiable goods" as used in section 369.3(f) on "Compliance with Local Law.")

(i) A, a U.S. contractor, is constructing an apartment complex, on a turnkey basis, for boycotting country Y. Y instructs A to use only kitchen appliances manufactured by U.S. company B in completing the project. The appliances normally bear the manufacturer's name and trademark.

A may comply with Y's selection of B, because Y's unilateral and specific selection is of goods identifiable as to source or origin in the normal course of business at the time of their entry into Y.

(ii) Same as (i), except that Y directs A to use lumber manufactured only by U.S. company C. In the normal course of business, C neither stamps its name on the lumber nor identifies itself as the manufacturer on the packaging. In addition, normal export packaging does not identify the manufacturer.

A may not comply with Y's selection, because the goods selected are not identifiable by source or origin in the normal course of business at the time of their entry into Y.

(iii) B, a U.S. contractor who is a bona fide resident of boycotting country Y, is engaged in building roads. B retains the services of A, a U.S. engineering firm, to assist it in procuring construction equipment. B directs A to purchase road graders only from manufacturer C because other road grader manufacturers which A might use are blacklisted. C's road graders normally bear C's insignia.

A may comply with B's selection of C, because the goods selected are identifiable by source or origin in the normal course of business at the time of their entry into Y.

(iv) A, a U.S. company, manufactures computer-operated machine tools. The computers are mounted on a separate bracket on the side of the equipment and are readily identifiable by brand name imprinted on the equipment. There are five or six U.S. manufacturers of such computers which will function interchangeably to operate the machine tools manufactured by A. B, a resident of boycotting country Y, contracts to buy the machine tools manufactured by A on the condition that A incorporate, as the computer drive, a computer manufactured by U.S. company C. B's designation of C is made to avoid boycott problems which could be caused if computers manufactured by some other company were used.

A may comply with B's designation of C, because the goods selected are identifiable by source or origin in the normal course of business at the time of their entry into Y.

(v) A, a U.S. wholesaler of electronic equipment, receives an order from B, a U.S. manufacturer of radio equipment, who is a bona fide resident of boycotting country Y. B orders a variety of electrical components and specifies that all transistors must be purchased from company C, which is not blacklisted by Y. The transistors requested by B do not normally bear the name of the

manufacturer; however, they are typically shipped in cartons, and C's name and logo appear on the cartons.

A may comply with B's selection, because the goods selected by B are identifiable as to source or origin in the normal course of business at the time of their entry into Y by virtue of the containers or packaging used.

(vi) A, a U.S. computer manufacturer, receives an order for a computer from B, a university in boycotting country Y. B specifies that certain integrated circuits incorporated in the computer must be supplied by U.S. electronics company C. These circuits are incorporated into the computer and are not visible without disassembling the computer.

A may not comply or agree to comply with B's specific selection of these components, because they are not identifiable as to their source or origin in the normal course of business at the time of their entry into Y.

(vii) A, a U.S. clothing manufacturer, receives an order for shirts from B, a retailer resident in boycotting country Y. B specifies that the shirts are to be manufactured from cotton produced by U.S. farming cooperative C. Such shirts will not identify C or the source of the cotton.

A may not comply or agree to comply with B's designation, because the cotton is not identifiable as to source or origin in the normal course of business at the time of entry into Y.

(viii) A, a U.S. contractor, is retained by B, a construction firm located in and wholly-owned by boycotting country Y, to assist B in procuring construction materials. B directs A to purchase a range of materials, including hardware, tools, and trucks, all of which bear the name of the manufacturer stamped on the item. In addition, B directs A to purchase steel beams manufactured by U.S. company C. The name of manufacturer C normally does not appear on the steel itself or on its export packaging.

A may comply with B's selection of the hardware, tools, and trucks, because they are identifiable as to source or origin in the normal course of business at the time of entry into Y. A may not comply with B's selection of steel beams, because the goods are not identifiable as to source or origin by trade name, trademark, uniqueness or packaging at the time of their entry into Y.

#### EXAMPLES OF DISCRIMINATION ON BASIS OF RACE, RELIGION, SEX, OR NATIONAL ORIGIN

(i) A, a U.S. paper manufacturer, is asked by boycotting country Y to ship goods to Y on U.S. vessel B. Y states that the reason for its choice of B is that, unlike U.S. vessel C, B is not owned by persons of a particular faith.

A may not comply or agree to comply with Y's request, because A has reason to know that the purpose of the selection is to effect religious discrimination against a United States person.

(d) *Shipment and Transshipment of Exports Pursuant to a Boycotting Country's Requirements.*

#### COMPLIANCE WITH A BOYCOTTING COUNTRY'S REQUIREMENTS REGARDING SHIPMENT AND TRANSSHIPMENT OF EXPORTS

(1) A United States person may comply or agree to comply with the export requirements of a boycotting country with respect to shipments or transshipments of exports to:

- (i) a boycotted country;
- (ii) any business concern of a boycotted country;
- (iii) any business concern organized under the laws of a boycotted country; or
- (iv) any national or resident of a boycotted country.

(2) This exception permits compliance with restrictions which a boycotting country may place on direct exports to a boycotted country; on indirect exports to a boycotted country (i.e., those that pass via third parties); and on exports to residents, nationals, or business concerns of, or organized under the laws of, a boycotted country, including those located in third countries.

#### EXAMPLES OF COMPLIANCE WITH A BOYCOTTING COUNTRY'S REQUIREMENTS REGARDING SHIPMENT OR TRANSSHIPMENT OF EXPORTS

The following examples are intended to give guidance in determining the circumstances in which compliance with the export requirements of a boycotting country is permissible. They are illustrative, not comprehensive.

(i) A, a U.S. petroleum company, exports petroleum products to 20 countries from boycotting country Y. Country Y's export regulations require that products not be exported from Y to boycotted country X.

A may agree to and comply with Y's regulations with respect to the export of goods from Y to X.

(ii) Same as (i), except that Y's export regulations require that goods not be exported from boycotting country Y to any business concern organized under the laws of boycotted country X.

A may agree to and comply with Y's regulations with respect to the export of goods from Y to a business concern organized under the laws of X, even if such concern is located in a country not involved in Y's boycott of X.

(iii) B, the operator of a storage facility in country M, contracts with A, a U.S. carrier, for the shipment of certain goods manufactured in boycotting country Y. A's contract with B contains a provision stating that the goods to be transported may not be shipped or transshipped to boycotted country X. B informs A that this provision is a requirement of C, the manufacturer of the goods who is a resident of boycotting country Y. Country M is not boycotted by Y.

A may agree to and comply with this provision, because such a provision is required by the export regulations of boycotting country Y in order to prevent shipment of Y-origin goods to a country boycotted by Y.

(iv) A, a U.S. petroleum refiner located in the United States, purchases crude oil from boycotting country Y. A has a branch operation in boycotted country X. Y requires, as a condition of sale, that A agree not to ship or transship the crude oil or products refined in Y to A's branch in X.

A may agree to and comply with these requirements, because they are export requirements of Y designed to prevent Y-origin products from being shipped to a boycotted country.

(v) A, a U.S. company, has a petrochemical plant in boycotting country Y. As a condition of securing an export license from Y, A must agree that it will not ship or permit transshipment of any of its output from the

plant in Y to any companies which Y lists as being owned by nationals of boycotted country X.

A may agree to this condition, because it is a restriction designed to prevent Y-origin products from being exported to a business concern of boycotted country X or to nationals of boycotted country X.

(vi) Same as (v), except that the condition imposed on A is that Y-origin goods may not be shipped or permitted to be transshipped to any companies which Y lists as being owned by persons whose national origin is X.

A may not agree to this condition, because it is a restriction designed to prevent Y-origin goods from being exported to persons of a particular national origin rather than to residents or nationals of a particular boycotted country.

(e) *Immigration, Passport, Visa, or Employment Requirements of a Boycotting Country.*

#### COMPLIANCE WITH IMMIGRATION, PASSPORT, VISA, OR EMPLOYMENT REQUIREMENTS OF A BOYCOTTING COUNTRY

(1) A United States individual may comply or agree to comply with the immigration, passport, visa, or employment requirements of a boycotting country, and with requests for information from a boycotting country made to ascertain whether such individual meets requirements for employment within the boycotting country, provided that he furnishes information only about himself or a member of his family, and not about any other United States individual, including his employees, employers, or co-workers.

(2) For purposes of this section, a "United States individual" means a person who is a resident or national of the United States. "Family" means immediate family members, including parents, siblings, spouse, children, and other dependents living in the individual's home.

(3) A United States person may not furnish information about its employees or executives, but may allow any individual to respond on his own to any request for information relating to immigration, passport, visa, or employment requirements. A United States person may also perform any ministerial acts to expedite processing of applications by individuals. These include informing employees of boycotting country visa requirements at an appropriate time; typing, translation, messenger and similar services; and assisting in or arranging for the expeditious processing of applications. All such actions must be undertaken on a non-discriminatory basis.

(4) A United States person may proceed with a project in a boycotting country even if certain of its employees or other prospective participants in a transaction are denied entry for boycott reasons. But no employees or other participants may be selected in advance in a manner designed to comply with a boycott.

#### EXAMPLES OF COMPLIANCE WITH IMMIGRATION, PASSPORT, VISA, OR EMPLOYMENT REQUIREMENTS OF A BOYCOTTING COUNTRY

The following examples are intended to give guidance in determining the circumstances in which compliance with immigration, passport, visa, or employment requirements is permissible. They are illustrative, not comprehensive.

(i) A, a U.S. individual employed by B, a U.S. manufacturer of sporting goods with a plant in boycotting country Y, wishes to obtain a work visa so that he may transfer to the plant in Y. Country Y's immigration laws specify that anyone wishing to enter the country or obtain a visa to work in the country must supply information about his religion. This information is required for boycott purposes.

A may furnish such information, because it is required by Y's immigration laws.

(ii) Same as (i), except that A is asked to supply such information about other employees of B.

A may not supply this information, because it is not information about himself or his family.

(iii) A, a U.S. building contractor, has been awarded a construction contract to be performed in boycotting country Y. Y's immigration laws require that individuals applying for visas must indicate race, religion, and place of birth. The information is sought for boycott purposes. To avoid repeated rejections of applications for work visas by A's employees, A desires to furnish to country Y a list of its prospective and current employees and required information about each so that Y can make an initial screening.

A may not furnish such a list, because A would be furnishing information about the race, religion, and national origin of its employees.

(iv) Same as (iii), except that A selects for work on the project those of its current employees whom it believes will be granted work visas from boycotting country Y.

A may not make a selection from among its employees in a manner designed to comply with the boycott-based visa requirements of Y, but must allow all eligible employees to apply for visas. A may later substitute an employee who obtains the necessary visa for one who has had his application rejected.

(v) Same as (iii), except that A selects employees for the project and then allows each employee individually to apply for his own visa. Two employees' applications are rejected, and A then substitutes two other employees who, in turn, submit their own visa applications.

A may take such action, because in so doing A is not acting in contravention of any prohibition of this Part.

(vi) Same as (v), except that A arranges for the translation, typing and processing of its employees' applications, and transmits all the applications to the consulate of boycotting country Y.

A may take such ministerial actions, because in so doing A is not itself furnishing information with respect to race, religion, sex, or national origin, but is merely transmitting information furnished by its individual employees.

(vii) A, a U.S. contractor, selects U.S. Subcontractor B to perform certain engineering services in connection with A's project in boycotting country Y. The work visa application submitted by the employee B has proposed as chief engineer of this project is

rejected by Y because his national origin is of boycotted country X. Subcontractor B thereupon withdraws.

A may continue with the project and select another subcontractor, because A is not acting in contravention of any prohibition of this Part.

(f) *Compliance with Local Law.* (1) This exception contains two parts. The first covers compliance with local law with respect to a United States person's activities exclusively within a foreign country; the second covers compliance with local import laws by United States persons resident in a foreign country. Under both parts of this exception, local laws are laws of the host country, whether derived from statutes, regulations, decrees, or other official sources having the effect of law in the host country. This exception is not available for compliance with presumed policies or understandings of policies unless those policies are reflected in official sources having the effect of law.

(2) Both parts of this exception apply only to United States persons resident in a foreign country. For purposes of this exception, a United States person will be considered to be a resident of a foreign country only if he is a bona fide resident. A United States person may be a bona fide resident of a foreign country even if such person's residency is temporary.

(3) Factors that will be considered in determining whether a United States person is a bona fide resident of a foreign country include:

- (i) physical presence in the country;
- (ii) whether residence is needed for legitimate business reasons;
- (iii) continuity of the residency;
- (iv) intent to maintain the residency;
- (v) prior residence in the country;
- (vi) size and nature of presence in the country;
- (vii) whether the person is registered to do business or incorporated in the country;
- (viii) whether the person has a valid work visa; and
- (ix) whether the person has a similar presence in both boycotting and non-boycotting foreign countries in connection with similar business activities.

No one of these factors is dispositive. All the circumstances involved will be closely examined to ascertain whether there is, in fact, bona fide residency. Residency established solely for purposes of avoidance of the application of this Part, unrelated to legitimate business needs, does not constitute bona fide residency.

#### EXAMPLES OF BONA FIDE RESIDENCY

The following examples are intended to give guidance in determining the circumstances in which a United States person may be a bona fide resident of a foreign country. For purposes of illustration, each example discusses only one or two factors.

instead of all relevant factors. They are illustrative, not comprehensive.

(i) A, a U.S. radio manufacturer located in the United States, receives a tender to bid on a contract to supply radios for a hotel to be built in boycotting country Y. After examining the proposal, A sends a bid from its New York office to Y.

A is not a resident of Y, because it is not physically present in Y.

(ii) Same as (i), except that after receiving the tender, A sends its sales representative to Y. A does not usually have sales representatives in countries when it bids from the United States, and this particular person's presence in Y is not necessary to enable A to make the bid.

A is not a bona fide resident of Y, because it has no legitimate business reasons for having its sales representative resident in Y.

(iii) A, a U.S. bank, wishes to establish a branch office in boycotting country Y. In pursuit of that objective, A's personnel visit Y to make the necessary arrangements. A intends to establish a permanent branch office in Y after the necessary arrangements are made.

A's personnel in Y are not bona fide residents of Y, because A does not yet have a permanent business operation in Y.

(iv) Same as (iii), except A's personnel are required by Y's laws to furnish certain non-discriminatory boycott information in order to establish a branch in Y.

In these limited circumstances, A's personnel may furnish the non-discriminatory boycott information necessary to establish residency to the same extent a U.S. person who is a bona fide resident in that country could. If this information could not be furnished in such limited circumstances, the exception would be available only to firms resident in a boycotting country before the effective date of this Part.

(v) A, a U.S. construction company, receives an invitation to build a power plant in boycotting country Y. After receipt of the invitation, A's personnel visit Y in order to survey the site and make necessary analyses in preparation for submitting a bid. The invitation requires that otherwise prohibited boycott information be furnished with the bid.

A's personnel in Y are not bona fide residents of Y, because A has no permanent business operation in Y. Therefore, A's personnel may not furnish the prohibited information.

(vi) Same as (v), except that A is considering establishing an office in boycotting country Y. A's personnel visit Y in order to register A to do business in that country. A intends to establish ongoing construction operations in Y. A's personnel are required by Y's laws to furnish certain non-discriminatory boycott information in order to register A to do business or incorporate a subsidiary in Y.

In these limited circumstances, A's personnel may furnish non-discriminatory boycott information necessary to establish residency to the same extent a U.S. person who is a bona fide resident in that country could. If this information could not be furnished in such limited circumstances, the exception would be available only to firms resident in a boycotting country before the effective date of this Part.

(vii) A, a subsidiary of U.S. oil company B, is located in boycotting country Y. A has been engaged in oil explorations in Y for a number of years.

A is a bona fide resident of Y, because of its pre-existing continuous presence in Y for legitimate business reasons.

(viii) Same as (vii), except that A has just been established in Y and has not yet begun operations.

A is a bona fide resident of Y, because it is present in Y for legitimate business reasons and it intends to reside continuously.

(ix) U.S. company A is a manufacturer of prefabricated homes. A builds a plant in boycotting country Y for purposes of assembling components made by A in the United States and shipped to Y.

A's personnel in Y are bona fide residents of Y, because A's plant in Y is established for legitimate business reasons, and it intends to reside continuously.

(x) U.S. company A has its principal place of business in the United States. A's sales agent visits boycotting country Y from time to time for purposes of soliciting orders.

A's sales agent is not a bona fide resident of Y, because such periodic visits to Y are insufficient to establish a bona fide residency.

(xi) A, a branch office of U.S. construction company B, is located in boycotting country Y. The branch office has been in existence for a number of years and has been performing various management services in connection with B's construction operations in Y.

A is a bona fide resident of Y, because of its longstanding presence in Y and its conduct of ongoing operations in Y.

(xii) U.S. construction company A has never done any business in boycotting country Y. It is awarded a contract to construct a hospital in Y, and preparatory to beginning construction, sends its personnel to Y to set up operations.

A's personnel are bona fide residents of Y, because they are present in Y for the purpose of carrying out A's legitimate business purposes; they intend to reside continuously; and residency is necessary to conduct their business.

(xiii) U.S. company A manufactures furniture. All its sales in foreign countries are conducted from its offices in the United States. From time to time A has considered opening sales offices abroad, but it has concluded that it is more efficient to conduct sales operations from the United States. Shortly after the effective date of this Part, A sends a sales representative to boycotting country Y to open an office in and solicit orders from Y. It is more costly to conduct operations from that office than to sell directly from the United States, but A believes that if it establishes a residence in Y, it will be in a better position to avoid conflicts with U.S. law in its sales to Y.

A's sales representative is not a bona fide resident of Y, because the residency was established to avoid the application of this Part and not for legitimate business reasons.

(xiv) Same as (xiii), except that it is in fact more efficient to have a sales office in Y. In fact, without a sales office in Y, A would find it difficult to explore business opportunities in Y. A is aware, however, that residency in Y would permit its sales representative to comply with Y's boycott laws.

A's sales representative is a bona fide resident of Y, because A has a legitimate business reason for establishing a sales office in Y.

(xv) U.S. company B is a computer manufacturer. B sells computers and related pro-

gramming services tailored to the needs of individual clients. Because of the complex nature of the product, B must have sales representatives in any country where sales are made. B has a sales representative, A, in boycotting country Y. A spends two months of the year in Y, and the rest of the year in other countries. B has a permanent sales office from which A operates while in Y, and the sales office is stocked with brochures and other sales materials.

A is a bona fide resident of Y, because his presence in Y is necessary to carry out B's legitimate business purposes; B maintains a permanent office in Y; and B intends to continue doing business in Y in the future.

(xvi) A, a U.S. construction engineering company, is engaged by B, a U.S. general contracting company, to provide services in connection with B's contract to construct a hospital complex in boycotting country Y. In order to perform those services, A's engineers set up a temporary office in a trailer on the construction site in Y. A's work is expected to be completed within six months.

A's personnel in Y are bona fide residents of Y, because A's on-site office is necessary to the performance of its services for B, and because A's personnel are continuously there.

(xvii) A, a U.S. company, sends one of its representatives to boycotting country Y to explore new sales possibilities for its line of transistor radios. After spending several weeks in Y, A's representative rents a post office box in Y, to which all persons interested in A's products are directed to make inquiry.

A is not a bona fide resident of Y, because rental of a post office box is not a sufficient presence in Y to constitute residency.

(xviii) A, a U.S. computer company, has a patent and trademark registered in the United States. In order to obtain registration of its patent and trademark in boycotting country Y, A is required to furnish certain non-discriminatory boycott information.

A may not furnish the information, because A is not a bona fide resident of Y.

(f-1) *Activities Exclusively Within a Foreign Country.* (1) Any United States person who is a bona fide resident of a foreign country, including a boycotting country, may comply or agree to comply with the laws of that country with respect to his activities exclusively within that country. These activities include:

(i) entering into contracts which provide that local law applies or governs, or that the parties will comply with such laws;

(ii) employing residents of the host country;

(iii) retaining local contractors to perform work within the host country;

(iv) purchasing or selling goods or services from or to residents of the host country; and

(v) furnishing information within the host country.

(2) Activities exclusively within the country do not include importing goods or services from outside the host country, and, therefore, this part of the exception does not apply to compliance with import laws in connection with importing goods or services.

#### EXAMPLES OF PERMISSIBLE COMPLIANCE WITH LOCAL LAW WITH RESPECT TO ACTIVITIES EXCLUSIVELY WITHIN A FOREIGN COUNTRY

The following examples are intended to give guidance in determining the circumstances in which compliance with local law is permissible. They are illustrative, not comprehensive.

#### ACTIVITIES EXCLUSIVELY WITHIN A FOREIGN COUNTRY

(i) U.S. construction company A, a bona fide resident of boycotting country Y, has a contract to build a school complex in Y. Pursuant to Y's boycott laws, the contract requires A to refuse to purchase supplies from certain local merchants. While Y permits such merchants to operate within Y, their freedom of action in Y is constrained because of their relationship with boycotted country X.

A may enter into the contract, because dealings with local merchants are activities exclusively within Y.

(ii) A, a banking subsidiary of U.S. bank B, is a bona fide resident of boycotting country Y. From time to time, A purchases office supplies from the United States.

A's purchase of office supplies is not an activity exclusively within Y, because it involves the import of goods from abroad.

(iii) A, a branch of U.S. bank B, is a bona fide resident of boycotting country Y. Under Y's boycott laws, A is required to supply information about whether A has any dealings with boycotted country X. A complies and furnishes the information within Y and does so of its own knowledge.

A may comply with that requirement, because in compiling and furnishing the information within Y, based on its own knowledge, A is engaging in an activity exclusively within Y.

(iv) Same as (iii), except that A is required to supply information about B's dealings with X. From its own knowledge and without making any inquiry of B, A complies and furnishes the information.

A may comply with that requirement, because in compiling and furnishing the information within Y, based on its own knowledge, A is engaging in an activity exclusively within Y.

(v) Same as (iv), except that in making its responses, A asks B to compile some of the information.

A may not comply, because the gathering of the necessary information takes place partially outside Y.

(vi) U.S. company A has applied for a license to establish a permanent manufacturing facility in boycotting country Y. Under Y's boycott law, A must agree, as a condition of the license, that it will not sell any of its output to blacklisted foreign firms.

A may not comply, because the agreement would govern activities of A which are not exclusively within Y.

#### DISCRIMINATION AGAINST UNITED STATES PERSONS

(i) A, a subsidiary of U.S. company B, is a bona fide resident of boycotting country Y. A manufactures air conditioners in its plant in Y. Under Y's boycott laws, A must agree not to hire nationals of boycotted country X.

A may agree to the restriction and may abide by it with respect to its recruitment of individuals within Y, because the recruitment of such individuals is an activity exclusively within Y. However, A cannot abide by this restriction with respect to its recruit-

ment of individuals outside Y, because this is not an activity exclusively within Y.

(ii) Same as (i), except that pursuant to Y's boycott laws A must agree not to hire anyone who is of a designated religion.

A may not agree to this restriction, because the agreement calls for discrimination against U.S. persons on the basis of religion. It makes no difference whether the recruitment of the U.S. persons occurs within or without Y. (NOTE: The exception for compliance with local law does not apply to boycott-based refusals to employ U.S. persons on the basis of race, religion, sex, or national origin even if the activity is exclusively within the boycotting country.)

(f-2) *Compliance with Local Import Law.* (1) Any United States person who is a bona fide resident of a foreign country, including a boycotting country, may, in importing goods, materials or components into that country, comply or agree to comply with the import laws of that country, provided that:

(i) the items are for his own use or for his use in performing contractual services within that country; and

(ii) in the normal course of business, the items are identifiable as to their source or origin at the time of their entry into the foreign country by (a) uniqueness of design or appearance; or (b) trademark, trade name, or other identification normally on the items themselves, including their packaging.

(2) The factors that will be considered in determining whether a United States person is a bona fide resident of a foreign country are those set forth in section 369.3(f) above. Bona fide residence of a United States company's subsidiary, affiliate, or other permanent establishment in a foreign country does not confer such residence on such United States company. Likewise, bona fide residence of a United States company's employee in a foreign country does not confer such residence on the entire company.

(3) A United States person who is a bona fide resident of a foreign country may take action under this exception through an agent outside the country, but the agent must act at the direction of the resident and not exercise his own discretion. Therefore, if a United States person resident in a boycotting country takes action to comply with a boycotting country's import law with respect to the importation of qualified goods, he may direct his agent in the United States on the action to be taken, but the United States agent himself may not exercise any discretion.

(4) For purposes of this exception, the test that governs whether goods or components of goods are specifically identifiable is identical to the test applied in section 369.3(c) on "Compliance With Unilateral Selection" to determine whether they are identifiable as to their source or origin in the normal course of business.

(5) The availability of this exception for the import of goods depends on whether the goods are intended for the United States person's own use at the time they are imported. It does not depend upon who has title to the goods at the time of importation into a foreign country.

(6) Goods are for the United States person's own use (including the performance of contractual services within the foreign country) if:

(i) they are to be consumed by the United States person;

(ii) they are to remain in the United States person's possession and to be used by that person;

(iii) they are to be used by the United States person in performing contractual services for another;

(iv) they are to be further manufactured, incorporated into, refined into, or reprocessed into another product to be manufactured for another; or

(v) they are to be incorporated into, or permanently affixed as a functional part of, a project to be constructed for another.

(7) Goods acquired to fill an order for such goods from another are not for the United States person's own use. Goods procured for another are not for one's own use, even if the furnishing of procurement services is the business in which the United States person is customarily engaged. Nor are goods obtained for simple resale acquired for one's own use, even if the United States person is engaged in the retail business. Likewise, goods obtained for inclusion in a turnkey project are not for one's own use if they are not customarily incorporated into, or do not customarily become permanently affixed as a functional part of, the project.

(8) This part of the local law exception does not apply to the import of services, even when the United States person importing such services is a bona fide resident of a boycotting country and is importing them for his own use. In addition, this exception is available for a United States person who is a bona fide resident of a foreign country only when the individual or entity actually present within that country takes action through the exercise of his own discretion.

(9) Use of this exception will be monitored and continually reviewed to determine whether its continued availability is consistent with the national interest. Its availability may be limited or withdrawn as appropriate. In reviewing the continued availability of this exception, the effect that the inability to comply with local import laws would have on the economic and other relations of the United States with boycotting countries will be considered.

(10) A United States person who is a bona fide resident of a foreign country may comply or agree to comply with the host country's import laws even if he knows or has reason to know that particular laws are boycott-related. However, no United States person may comply or agree to comply with any host country law which would require him to discriminate against any United States person on the basis of race, religion, sex, or national origin, or to supply information about any United States person's race, religion, sex, or national origin.

#### EXAMPLES OF PERMISSIBLE COMPLIANCE WITH LOCAL IMPORT LAW

The following examples are intended to give guidance in determining the circumstances in which compliance with local import law is permissible. They are illustrative, not comprehensive.

#### COMPLIANCE BY A BONA FIDE RESIDENT

(i) A, a subsidiary of U.S. company B, is a bona fide resident of boycotting country Y and is engaged in oil drilling operations in Y. In acquiring certain large, specifically identifiable products for carrying out its operations in Y, A chooses only from non-blacklisted firms because Y's import laws prohibit the importation of goods from blacklisted firms. However, with respect to smaller items, B makes the selection on behalf of A and sends them to A in Y.

A may choose from non-blacklisted firms, because it is a U.S. person who is a bona fide resident in Y. However, because B is not resident in Y, B cannot make boycott-based selections to conform with Y's import laws prohibiting the importation of goods from blacklisted firms.

(ii) Same as (i), except that after making its choices on the larger items, A directs B to carry out its instructions by entering into appropriate contracts and making necessary shipping arrangements.

B may carry out A's instructions provided that A, a bona fide resident of Y, has in fact made the choice and B is exercising no discretion, but is acting only as A's agent. (NOTE: Such transactions between related companies will be scrutinized carefully. A must in fact exercise the discretion and make the selections. If the discretion is exercised by B, B would be in violation of this Part.)

(iii) U.S. construction company A has a contract to build a school in boycotting country Y. A's employees set up operations in Y for purposes of commencing construction. A's employees in Y advise A's headquarters in the United States that Y's import laws prohibit importation of goods manufactured by blacklisted firms. A's headquarters then issues invitations to bid only to non-blacklisted firms for certain specifically identifiable goods.

A's headquarters' choice of non-blacklisted suppliers is not a choice made by a U.S. person who is a bona fide resident of Y, because the discretion in issuing the bids was exercised in the United States, not in Y.

(iv) Same as (iii), except that A's employees in Y actually make the decision regarding to whom the bids should be issued.

The choices made by A's employees are choices made by U.S. persons who are bona fide residents of Y, because the discretion in choosing was exercised solely in Y. (NOTE: Choices purportedly made by employees of U.S. companies who are resident in boycott-

ing countries will be carefully scrutinized to ensure that the discretion was exercised entirely in the boycotting country.)

#### SPECIFICALLY IDENTIFIABLE GOODS

The test and examples as to what constitutes specifically identifiable goods are identical to those applicable under section 369.3(c) on "Compliance With Unilateral Selection".

#### IMPORTS FOR U.S. PERSON'S OWN USE

(i) A, a subsidiary of U.S. company B, is a bona fide resident of boycotting country Y. A plans to import computer operated machine tools to be installed in its automobile plant in boycotting country Y. The computers are mounted on a separate bracket on the side of the equipment and are readily identifiable by brand name. A orders the tools from U.S. supplier C and specifies that C must incorporate computers manufactured by D, a non-blacklisted company. A would have chosen computers manufactured by E, except that E is blacklisted, and Y's import laws prohibit the importation of goods manufactured by blacklisted firms.

A may refuse to purchase E's computers, because A is importing the computers for its own use in its manufacturing operations in Y.

(ii) A, a subsidiary of U.S. company B, is a bona fide resident of boycotting country Y. To meet the needs of its employees in Y, A imports certain specifically identifiable commissary items for sale, such as cosmetics, and canteen items, such as candy. In selecting such items for importation into Y, A chooses items made only by non-blacklisted firms, because Y's import laws prohibit importation of goods from blacklisted firms.

A may import these items only from non-blacklisted firms, because the importation of goods for consumption by A's employees is an importation for A's own use.

(iii) A, a U.S. construction company which is a bona fide resident of boycotting country Y, has a contract to build a hospital complex for the Ministry of Health in Y. Under the contract, A will be general manager of the project with discretion to choose all subcontractors and suppliers. The complex is to be built on a turnkey basis, with A retaining title to the property and bearing all financial risk until the complex is conveyed to Y. In choosing specifically identifiable goods for import, such as central air conditioning units and plate glass, A excludes blacklisted suppliers in order to comply with Y's import laws. These goods are customarily incorporated into, or permanently affixed as a functional part of, the project.

A may refuse to deal with blacklisted suppliers of specifically identifiable goods, because importation of goods by a general contractor to be incorporated into a construction project in Y is an importation of goods for A's own use.

(iv) Same as (iii), except that, in addition, in choosing U.S. architects and engineers to work on the project, A excludes blacklisted firms, because Y's import laws prohibit the use of services rendered by blacklisted persons.

A may not refuse to deal with blacklisted architectural or engineering firms, because this exception does not apply to the import of services. It is irrelevant that, at some stage, the architectural or engineering drawings or plans may be brought to the site in Y. This factor is insufficient to transform such services into "goods" for purposes of this exception.

(v) Same as (iii), except that the project is to be completed on a "cost plus" basis, with Y making progress payments to A at various stages of completion.

A may refuse to deal with blacklisted suppliers of specifically identifiable goods, because the importation of goods by A to be incorporated in a project A is under contract to complete is an importation of goods for its own use. The terms of payment are irrelevant.

(vi) A, a U.S. construction company which is a bona fide resident of boycotting country Y, has a contract for the construction of an office building in Y on a turnkey basis. In choosing goods to be used or included in the office complex, A orders wallboard, office partitions, and lighting fixtures from non-blacklisted manufacturers. A likewise orders desks, office chairs, typewriters, and office supplies from non-blacklisted manufacturers.

Because they are customarily incorporated into or permanently affixed as a functional part of an office building, the wallboard, office partitions, and lighting fixtures are for A's own use, and A may select non-blacklisted suppliers of these goods in order to comply with Y's import laws. Because they are not customarily incorporated into or permanently affixed to the project, the desks, office chairs, typewriters, and office supplies are not for A's own use, and A may not make boycott-based selections of the suppliers of these goods.

(vii) A, a U.S. company engaged in the business of selling automobiles, is a bona fide resident of boycotting country Y. In ordering automobiles from time to time for purposes of stocking its inventory, A purchases from U.S. manufacturer B, but not U.S. manufacturer C, because C is blacklisted. Retail sales are subsequently made from this inventory.

A's import of automobiles from B is not an import for A's own use, because the importation of items for general inventory in a retail sales operation is not an importation for one's own use.

(viii) A, a U.S. company engaged in the manufacture of pharmaceutical products, is a bona fide resident of boycotting country Y. In importing chemicals for incorporation into the pharmaceutical products, A purchases from U.S. supplier B, but not U.S. supplier C, because C is blacklisted.

A may import chemicals from B rather than C, because the importation of specifically identifiable items for incorporation into another product is an importation for one's own use.

(ix) A, a U.S. management company which is a bona fide resident of boycotting country Y, has a contract with the Ministry of Education in Y to purchase supplies for Y's school system. From time to time, A purchases goods from abroad for delivery to various schools in Y.

A's purchase of goods for Y's school system does not constitute an importation of goods for A's own use, because A is acting as a procurement agent for another. A, therefore, cannot make boycott-based selections of suppliers of such school supplies.

(x) A, a U.S. company which is a bona fide resident of boycotting country Y, has a contract to make purchases for Y in connection with a construction project in Y. A is not engaged in the construction of, or in any other activity in connection with, the project. A's role is merely to purchase goods for Y and arrange for their delivery to Y.

A is not purchasing goods for its own use, because A is acting as a procurement agent

for Y. A, therefore, cannot make boycott selections of suppliers of such goods.

(xi) A, a U.S. company which is a bona fide resident of boycotting country Y, imports specifically identifiable goods into Y for exhibit by A at a trade fair in Y. In selecting goods for exhibit, A excludes items made by blacklisted firms.

A's import of goods for its exhibit at a trade fair constitutes an import for A's own use. However, A may not sell in Y those goods it imported for exhibit.

#### FOR USE WITHIN BOYCOTTING COUNTRY

(i) A is a bona fide resident of boycotting countries Y and Z. In compliance with Y's boycott laws, A chooses specifically identifiable goods for its oil drilling operations in Y and Z by excluding blacklisted suppliers. The goods are first imported into Y. Those purchased for A's use in Z are then transshipped to Z.

In selecting those goods for importation into Y, A is making an import selection for its own use, even though A may use some of the imported goods in Z. Further, the subsequent shipment from Y to Z of those goods purchased for use in Z is an import into Z for A's own use.

#### § 369.4 Evasion.

(a) No United States person may engage in any transaction or take any other action, either independently or through any other person, with intent to evade the provisions of this Part. Nor may any United States person assist another United States person to violate or evade the provisions of this Part.

(b) The exceptions set forth in Sections 369.3 (a) through (f) of this Part do not permit activities or agreements (express or implied by a course of conduct, including a pattern of responses) which are otherwise prohibited by this Part and which are not within the intent of such exceptions. However, activities within the coverage and intent of the exceptions set forth in this Part do not constitute evasion regardless of how often such exceptions are utilized.

(c) Use of any artifice, device or scheme which is intended to place a person at a commercial disadvantage or impose on him special burdens because he is blacklisted or otherwise restricted for boycott reasons from having a business relationship with or in a boycotting country will be regarded as evasion for purposes of this Part.

(d) Unless permitted under one of the exceptions, use of risk of loss provisions that expressly impose a financial risk on another because of the import laws of a boycotting country may constitute evasion. If they are introduced after the effective date of this Part, their use will be presumed to constitute evasion. This presumption may be rebutted by a showing that such a provision is in customary usage without distinction between boycotting and non-boycotting countries and that there is a legitimate non-boycott reason for its use. On the

other hand, use of such a provision by a United States person subsequent to the effective date of this Part is presumed not to constitute evasion if the provision had been customarily used by that person prior to the effective date of this Part.

(e) Use of dummy corporations or other devices to mask prohibited activity will also be regarded as evasion. Similarly, it is evasion under this Part to divert specific boycotting country orders from a United States parent to a foreign subsidiary for purposes of complying with prohibited boycott requirements. However, alteration of a person's structure or method of doing business will not constitute evasion so long as the alteration is based on legitimate business considerations and is not undertaken solely to avoid the application of the prohibitions of this Part. The facts and circumstances of an arrangement or transaction will be carefully scrutinized to see whether appearances conform to reality.

#### EXAMPLES

The following examples are intended to give guidance to persons in determining circumstances in which this section will apply. They are illustrative, not comprehensive.

(i) A, a U.S. insurance company, receives a request from boycotting country Y asking whether it does business in boycotted country X. Because furnishing such information is prohibited, A declines to answer and as a result is placed on Y's blacklist. The following year, A's annual report contains new information about A's worldwide operations, including a list of all countries in which A does business. A then mails a copy of its annual report, which has never before contained such information, to officials of the government of country Y.

Absent some business justification unrelated to the boycott for changing the annual report in this fashion, A's action constitutes evasion of this Part.

(ii) A, a U.S. construction firm resident in boycotting country Y, orders lumber from U.S. company B. A unilaterally selects B in part because U.S. lumber producer C is blacklisted by Y and C's products are therefore not importable. In placing its order with B, A requests that B stamp its name or logo on the lumber so that A "can be certain that it is, in fact, receiving B's products." B does not normally so stamp its lumber, and A's purpose in making the request is to appear to fit within the unilateral selection exception of this Part.

Absent additional facts justifying A's action, A's action constitutes evasion of this Part.

(iii) A, a U.S. company, has been selling sewing machines to boycotting country Y for a number of years and routinely supplying negative certificates of origin. A is aware that the furnishing of negative certificates of origin will be prohibited after June 21, 1978 and, therefore, arranges to have all future shipments run through a foreign corporation in a third country which will affix the necessary certification before forwarding the machines on to Y.

A's action constitutes evasion of this Part, because it is a device to mask prohibited activity carried out on A's behalf.

(iv) A, a U.S. company, has been selling hand calculators to boycotting country Y

for a number of years and routinely supplies negative certificates of origin. A is aware that the furnishing of such negative certificates will be prohibited after June 21, 1978. A thereupon ceases all direct sales to Y, and instead arranges to make all future sales to distributor B in a third country. A knows B will step in and make the sales to Y which A would otherwise have made directly. B will make the necessary negative certifications. A's warranty, which it will continue to honor, runs to the purchaser in Y.

A's action constitutes evasion, because the diverting of orders to B is a device to mask prohibited activity carried out on A's behalf.

(v) A, a U.S. company, is negotiating a long-term contract with boycotting country Y to meet all Y's medical supply needs. Y informs A that before such a contract can be concluded, A must complete Y's boycott questionnaire. A knows that it is prohibited from answering the questionnaire so it arranges for a local agent in Y to supply the necessary information.

A's action constitutes evasion of this Part, because it is a device to mask prohibited activity carried out on A's behalf.

(vi) A, a U.S. contractor which has not previously dealt with boycotting country Y, is awarded a construction contract by Y. Because it is customary in the construction industry for a contractor to establish an on-site facility for the duration of the project, A establishes such an office, which satisfies the requirements for bona fide residency. Thereafter, A's office in Y takes a number of actions permitted under the compliance with local law exception.

A's actions do not constitute evasion, because A's facility in Y was established for legitimate business reasons.

(vii) A, a controlled foreign subsidiary of U.S. company B, is located in non-boycotting country M. A and B both make machine tools for sale in their respective marketing regions. B's marketing region includes boycotting country Y. After assessing the requirements of this Part, B decides that it can no longer make machines for sale in Y. Instead, A decides to expand its facilities in M in order to service the Y market.

The actions of A and B do not constitute evasion, because there is a legitimate business reason for their actions. It is irrelevant that the effect may be to place sales which would otherwise have been subject to this Part beyond the reach of this Part.

(viii) A, a U.S. manufacturer, from time to time receives purchase orders from boycotting country Y which A fills from its plant in the United States. A knows that it is about to receive an order from Y which contains a request for a certification which A is prohibited from furnishing under this Part. In order to permit the certification to be made, A diverts the purchase order to its foreign subsidiary.

A's diversion of the purchase order constitutes evasion of this Part, because it is a device to mask prohibited activity carried out on A's behalf.

(ix) A, a U.S. company, is engaged in assembling drilling rigs for shipment to boycotting country Y. Because of potential difficulties in securing entry into Y of materials supplied by blacklisted firms, A insists that blacklisted firms take a 15 percent discount on all materials which they supply to A. As a result, no blacklisted firms are willing to transact with A.

A's insistence on the discount for materials supplied by blacklisted firms constitutes evasion of this Part, because it is a device or

scheme which is intended to place a special burden on blacklisted firms because of Y's boycott.

(x) Same as (ix), except that shortly after the effective date of this Part, A insists that its suppliers sign contracts which provide that even after title passes from the supplier to A, the supplier will bear the risk of loss and indemnify A if goods which the supplier has furnished are denied entry into Y for boycott reasons.

A's action constitutes evasion of this Part, because it is a device or scheme which is intended to place a special burden on blacklisted persons because of Y's boycott.

(xi) Same as (x), except that A customarily insisted on such an arrangement with its suppliers prior to the effective date of this Part.

A's action is presumed not to constitute evasion, because use of this contractual arrangement was customary for A prior to the effective date of this Part.

(xii) A, a U.S. company, has a contract to supply automobile sub-assembly units to boycotting country Y. Shortly after the effective date of this Part, A insists that its suppliers sign contracts which provide that even after title passes to A, the supplier will bear the risk of loss and indemnify A if goods which the supplier has furnished are denied entry into boycotting country Y for whatever reason.

A's insistence on this arrangement is presumed to constitute evasion, because it is a device which is intended to place a special burden on blacklisted firms because of Y's boycott. The presumption may be rebutted by competent evidence showing that use of such an arrangement is customary without regard to the boycotting or non-boycotting character of the country to which it relates and that there is a legitimate non-boycott business reason for its use.

(xiii) Same as (xii), except that A requires that all suppliers make in-country delivery.

A's action does not constitute evasion, because it is an ordinary commercial practice to require in-country delivery of goods.

(xiv) Same as (xii), except that A requires that title remain with the supplier until delivery in Y has been made.

A's action does not constitute evasion, because it is ordinary commercial practice to require that title remain with the supplier until delivery has been made. This example is distinguishable from example (xii), because in example (xii) A had insisted on an extraordinary arrangement designed to require that the risk of loss remain with the supplier even after title had passed to A.

(xv) U.S. bank A is contacted by U.S. company B to finance B's transaction with boycotting country Y. Payment will be effected through a letter of credit in favor of B at its U.S. address. A knows that the letter of credit will contain restrictive boycott conditions which would bar its implementation by A if the beneficiary were a U.S. person. A suggests to B that the beneficiary should be changed to C, a shell corporation in non-boycotting country M. The beneficiary is changed accordingly.

A's action constitutes evasion of this Part, because the arrangement is a device to mask prohibited activity on A's part.

(xvi) Same as (xv), except that U.S. company B, the beneficiary of the letter of credit, arranges to change the beneficiary to B's foreign subsidiary so that A can implement the letter of credit. A knows that this has been done.

A's implementation of the letter of credit in the face of its knowledge of B's action

constitutes evasion of this Part, because its action is part of a device to mark prohibited activity on A's part.

(xvii) U.S. bank A, located in the United States, is contacted by foreign company B to finance B's transaction with boycotting country Y. B is a controlled subsidiary of a U.S. company. The transaction which is to be financed with a letter of credit payable to B at its foreign address, requires B to certify that none of its board members are of a particular religious faith. Since B cannot legally furnish the certificate, it asks A to convey the necessary information to Y through A's bank branch in Y. Such information would be furnished wholly outside the letter of credit transaction.

A's action constitutes evasion of this Part, because it is undertaken to assist B's violation of this Part.

(xviii) U.S. bank A is asked by foreign corporation B to implement a letter of credit in favor of B so that B might perform under its long-term contract with boycotting country Y. Under the terms of the letter of credit, B is required to certify that none of its suppliers is blacklisted. A knows that it cannot implement a letter of credit with this condition, so it tells B to negotiate the elimination of this requirement from the letter of credit and instead supply the certification to Y directly.

A's suggestion to B that it provide the negative certification to Y directly constitutes evasion of this Part, because A is taking an action through another person to mask prohibited activity on A's part.

#### § 369.5 Grace Period.

##### GRACE PERIOD MECHANISM

(a) For written contracts or other agreements entered into by any United States person on or before May 16, 1977, the application of the rules and regulations issued pursuant to this Part shall be delayed until December 31, 1978. Hence, actions otherwise prohibited by this Part may be taken in compliance with the requirements of such agreements until the expiration of the grace period.

(b) This grace period may be extended on a case-by-case basis for a period or periods totaling not longer than one year (to December 31, 1979) provided that:

(1) good faith efforts are being made to renegotiate the contract or agreement to eliminate provisions which are inconsistent with the rules and regulations of this Part; and

(2) application for any extension is made, in writing, to the Deputy Assistant Secretary for Trade Regulation, United States Department of Commerce, Washington, D.C. 20230.

Each application must contain a complete statement of all the facts and circumstances related to the application, as well as a full and precise statement of why the applicant believes his extension should be granted. Any additional evidence or documentation which the applicant believes will support his position should be submitted.

(c) The decision of the Deputy Assistant Secretary for Trade Regulation

#### RULES AND REGULATIONS

will be the final decision for the Department, and will be issued to the applicant in writing. In reaching such decision, the Deputy Assistant Secretary may consult with representatives of government agencies and members of the public as he deems appropriate.

(d) For purposes of this section, good faith efforts may include:

(1) ongoing negotiations, even if no actual agreement has been reached, if it appears that the parties are striving for such agreement;

(2) compliance in fact by the United States person with the rules and regulations of this Part, even if the language of the contract or agreement has not yet been changed; or

(3) documentation that efforts are being made to bring the contract or agreement into compliance with the rules and regulations of this Part.

(e) No extensions may be granted past December 31, 1979.

(f) The mere existence of an agreement containing provisions which are prohibited under this Part is not a violation of this Part if entered into on or before the effective date of this Part. However, actions taken pursuant to such provisions after such effective date are in violation of this Part unless the agreement is subject to the grace period. In that event, such actions are in violation of this Part if taken after the expiration of the grace period.

##### EXAMPLES OF THE GRACE PERIOD MECHANISM

The following examples are intended to give guidance in determining the applicability of the grace period mechanism. They are illustrative, not comprehensive.

(i) A, a U.S. manufacturer, entered into a contract on March 13, 1977, to supply medical equipment not later than June 20, 1978, to B, a state-owned hospital of boycotting country Y. Under the terms of the contract, A is not permitted to purchase electrical components for the equipment from supplier C, who is blacklisted by Y.

A may comply with the terms of the contract after the effective date of this Part, because the contract was entered into on or before May 16, 1977, and the otherwise prohibited action would take place during the grace period.

(ii) Same as (i), except that the contract requires annual purchases and deliveries of medical equipment on June 20, 1978, June 20, 1979, and June 20, 1980.

If A has made good faith efforts to renegotiate the contract to eliminate the provisions inconsistent with this Part, A may apply for and the Deputy Assistant Secretary for Trade Regulation may grant an appropriate extension of the grace period up to December 31, 1979. However, in no event may the grace period be extended to cover purchases and deliveries made after that date.

(iii) Same as (ii), except that A has been granted an extension of the grace period through December 31, 1979.

A may not receive any further extensions and may not take any action after December 31, 1979, which is inconsistent with this Part.

(iv) A, a U.S. management firm, entered into a services contract on May 1, 1977, with B, a retail chain in boycotting country Y. Subsequent to May 16, 1977, but before December 31, 1978, the payment schedule and other provisions of the contract unrelated to the boycott are amended by the parties.

The applicability of the grace period is not altered by amendments to the contract or agreement which are made for business reasons after May 16, 1977.

(v) Same as (iv), except that subsequent to May 16, 1977, but before December 31, 1978, the parties amend the contract so as to require A to engage in certain boycott activities prohibited by this Part.

Grace period treatment is not applicable to prohibited boycott conditions agreed to after May 16, 1977.

(vi) A, a U.S. aircraft manufacturer, entered into an agreement with boycotting country Y on September 15, 1977, after the May 16, 1977 date for qualifying for the grace period but before the effective date of this Part.

A's contract does not qualify for grace period treatment, and A may not take any action pursuant to the September 15, 1977 contract after the effective date of this Part if such action would be inconsistent with this Part.

(vii) A, a U.S. computer manufacturer, entered into a licensing agreement with boycotting country Y in 1974. Pursuant to that agreement, A agreed not to open a manufacturing plant in boycotted country X for a period of 10 years.

Absent an extension of the grace period, A may not act in compliance with this contract provision after December 31, 1978. Although A has no affirmative obligation to open a plant in X, any decision after December 31, 1978, not to open a plant in X because of A's agreement with Y would constitute a refusal to deal with X.

(viii) A, a U.S. manufacturer of bicycles, has a contract to supply bicycles to boycotting country Y. The contract was entered into on June 1, 1977, and calls for deliveries on June 1, 1978, and June 1, 1979. In the contract, A has agreed that none of the parts of the bicycles will be supplied by blacklisted firms.

The contract, which was entered into after May 16, 1977, is not entitled to grace period treatment. However, the mere existence of the contract on the effective date of this Part is not a violation of this Part, and no violation occurs unless and until A takes action to exclude blacklisted firms from purchases for shipments to Y.

(ix) A, a U.S. distributor, has been negotiating with boycotting country Y since April 1977, over terms of a proposed contract. Final agreement is not reached and a contract is not signed until May 31, 1977.

The contract does not qualify for grace period treatment, and A may not backdate the contract to May 16, 1977, to take advantage of the grace period.

(x) Same as (ix), but although the final agreement is concluded on May 10, 1977, the written instrument is not signed until May 20. The agreement was legally enforceable on May 10.

The agreement qualifies for grace period treatment.

(xi) U.S. company B has a contract with boycotting country Y to supply a certain quantity of air conditioners each month over a two-year period. B's contract was entered into on May 15, 1977, and thus qualifies for grace period treatment. The con-

#### RULES AND REGULATIONS

tract specifies that each shipment be accompanied by a certification that none of the components of the air conditioners were supplied by any company blacklisted by Y. B has asked U.S. freight forwarder A to handle the shipments and make any necessary certifications.

A may make the monthly certifications as long as B's contract with Y qualifies for grace period treatment.

## ANG COAL GASIFICATION COMPANY; NORTH DAKOTA PROJECT

## Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement on a coal gasification project proposed by ANG Coal Gasification Company for Mercer County, N. Dak. The statement covers impacts of construction and operation of the gasification plant and its associated facilities (i.e., coal mine, railroad spur, water intake and pipeline, and product delivery pipeline). It also addresses major cumulative impacts of construction and operation of an 880-MW coal-fired electric generating plant proposed for construction adjacent to the gasification plant.

Copies are available for inspection at the following locations:

Office of Assistant to the Commissioner, Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240, Telephone 202-343-4991.

Division of Engineering Support, Technical Services Branch, E&R Center, Denver Federal Center, Denver, Colo. 80225.

Office of the Regional Director, Bureau of Reclamation, P.O. Box 2553, Federal Building, Billings, Mont. 59103, Telephone 406-657-6214.

Missouri-Souris Projects Office, Bureau of Reclamation, P.O. Box 1017, Bismarck, N. Dak. 58501, Telephone 701-255-4011.

Single copies of the final environmental statement may be obtained upon request to the Commissioner of Reclamation or the Regional Director. Please refer to the statement number above.

Dated: January 20, 1978.

LARRY E. MEIEROTTO,  
Deputy Assistant  
Secretary of the Interior.

## DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP75-278, et al.]

## ANG COAL GASIFICATION CO., NORTH DAKOTA PROJECT

Intent To Partially Adopt the Department of the Interior's Final Environmental Impact Statement

JANUARY 19, 1978.

In the matter of Michigan Wisconsin Pipe Line Co., ANG Coal Gasification

Co., Great Lakes Gas Transmission Co., PGC Coal Gasification Co. and Natural Gas Pipeline Company of America.

Notice is hereby given in the above docket that on January 19, 1978, a Final Environmental Impact Statement (FEIS), "ANG Coal Gasification Company (ANGCGC), North Dakota Project," prepared by the Department of the Interior, Bureau of Reclamation (Interior), was made available. Since Interior has the responsibility for permitting ANGCGC to use the 17,000 acre-feet of water required annually from Garrison Reservoir for coal gasification needs through a 40-year water service contract, the Federal Energy Regulatory Commission (FERC) has recognized Interior as the lead agency for the preparation of this environmental impact statement (EIS).

The application by ANGCGC and Michigan Wisconsin Pipe Line Co. (Michigan Wisconsin), filed originally with the Federal Power Commission (now FERC) on March 26, 1975, in Docket No. CP75-278, pursuant to section 7(c) of the Natural Gas Act, requested authorization for the sale by ANGCGC to Michigan Wisconsin of synthetic natural gas (SNG) produced from coal commingled with natural gas and for construction and operation by Michigan Wisconsin of pipeline and compressor facilities to enable it to receive and transport such gas to its existing customers. Great Lakes Gas Transmission Co. (Great Lakes) filed an application on March 31, 1975, with the Federal Power Commission (FPC) in Docket No. CP75-283 requesting authorization for transportation of SNG produced from coal commingled with natural gas for the account of ANGCGC and for construction, modification, and operation of facilities to enable it to receive and transport such gas. On August 8, 1977, Peoples Gas Co., through its subsidiaries PGC Coal Gasification Co. (PGC) and Natural Gas Pipeline Company of America (Natural), filed an application with the FPC in Docket No. CP77-556 requesting authorization for the sale by PGC to Natural of SNG commingled with natural gas, pursuant to a co-ownership arrangement between PGC and ANR Gasification Properties Company. Under that agreement, ANGCGC would become the project administrator. The three applications have been consolidated for hearing in Docket Nos. CP75-278, et al.

The overall proposal by ANGCGC, et al., would involve construction of a gasification complex with attendant water intake, railroad, and mining facilities; approximately 365 miles of new 20-inch diameter SNG pipeline to be installed in existing railroad rights-of-way (with a few minor exceptions); two new 7,600-horsepower (hp) SNG

compressor stations; an interconnection between the SNG facilities and existing interstate natural gas transportation facilities; approximately 245 miles of 36-inch and 30-inch diameter pipeline looping; and 20,000 horsepower of additional compressor facilities at existing compressor stations. Except for the interconnection, the 36-inch and 30-inch diameter pipeline looping, and the 20,000 horsepower of additional compressor facilities which will be discussed in the FERC hearings, the proposal is described and the environmental impact identified and evaluated in the Interior FEIS.

In order to fulfill the requirements of § 2.82(b) of the Commission's General Policy and Interpretations (18 CFR 2.82(b)) which complies with the National Environmental Policy Act of 1969, it is the intention of the FERC staff to adopt parts of the Interior FEIS in lieu of preparing a separate EIS. Interior's FEIS will be incorporated into the record developed in the FERC proceedings in Docket Nos. CP75-278, et al.

The following parts of Interior's FEIS will be adopted by the FERC staff:

(i) *Chapter 1.—Description of proposed project.* (Except the last paragraph of Section 1.5.2 on Pages 1-18, "Land Requirements," which discusses the 36-inch and 30-inch diameter pipeline looping and the 20,000 horsepower of additional compressor facilities.)

The last paragraph of section 1.5.2, "Land Requirements," states that the 217 miles of 36-inch and 28 miles of 30-inch diameter pipeline looping and the 20,000 horsepower of additional compression mentioned earlier (for which construction authorization has been requested to enable Great Lakes and Michigan Wisconsin to transport SNG commingled with natural gas) "may be required" and that "the impacts of these additional facilities are beyond the scope of this EIS." The analysis is therefore incomplete in that it only assesses the impact of facilities and operations up to the interconnection (gas commingling point), without regard to facilities which would be required to transport the commingled gas to the market area. For this reason, the FERC staff does not adopt this portion of the FEIS.

(ii) *Chapters 2 to 8.—Description of existing environment; environmental impacts of proposed action; mitigating measures and air and water quality aspects; unavoidable adverse effects; the relationship between local short-term uses of man's environment and the maintenance and enhancement of*

<sup>1</sup> Note that only those facilities required to receive the SNG (i.e., the interconnection) and to transport the commingled gas are presently under the jurisdiction of the FERC.

*long-term productivity; irreversible and irretrievable commitment of resources; alternatives to the proposed action.* (Except the portion of Chapter 8, section 8.2.2 Alternative Product Pipeline Routes, "Connect with Northern Border Pipeline" on Pages 8-18.)

The subsection of Chapter 8, section 8.2.2, "Connect with Northern Border Pipeline," briefly addresses the feasibility of constructing an alternative 25-mile long SNG pipeline between the gasification complex and interstate pipeline facilities proposed by Northern Border Pipeline Co. (Northern Border) in Docket No. CP78-124 (for transporting Alaskan natural gas from the Saskatchewan-Montana border to Dwight, Illinois) in lieu of the 365-mile long SNG pipeline proposed by ANGCGC. Interior dismisses this alternative because of (a) questions as to whether the Northern Border pipeline (NBP) would be built, (b) changes in design capacity which would be required to enable the NBP to transport both Alaskan gas and the SNG, and (c) problems associated with intermixing the lower Btu SNG with the higher Btu Alaskan gas. Since the Northern Border proposal (part of the Alcan Pipeline Project) has received conditional certification by the FERC and since agreements similar to those which would be enacted at the commingling point proposed by ANGCGC could provide for intermixing the SNG and Alaskan gas, the FERC staff disagrees with the conclusion that the alternative of connecting with the NBP "does not appear viable at this time" and deems the analysis of this alternative inadequate. Furthermore, the FERC staff has chosen to conduct additional analyses which will more substantially support or dismiss this alternative. For these reasons, the FERC staff does not adopt this portion of the FEIS.

(iii) *Chapter 9.—Consultation and coordination.* This section also contains comments which were received by Interior on the DEIS and Interior's responses to those comments. Because Interior's FEIS does not adequately discuss the environmental impact of and alternatives to the facilities jurisdictional under the Natural Gas Act, the FERC staff will prepare a supplemental environmental assessment of these facilities. This assessment, which will be available in the near future, will be incorporated into the record developed in the FERC proceeding in Docket Nos. CP75-278, et al. Copies of this assessment will be sent to all parties receiving Interior's FEIS, and other parties upon request. The FERC is sending copies of the Interior FEIS to all parties in the FERC proceeding and to many Federal, state, and local parties to

which Interior has sent copies of the DEIS is included in the summary sheet preceding Chapter 1 of the FEIS. Those parties to which Interior is sending copies of the FEIS are indicated on this list by an asterisk. In addition, Interior's FEIS is on file with the Commission and is available for public inspection at its Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426. Copies of Interior's FEIS may be obtained from the Commissioner, Bureau of Reclamation, Attention Code 150, 18th and C Street NW., Washington, D.C. 20240, and from the Regional Director, Bureau of Reclamation, Attention Code 160, Post Office Box 2553, Federal Office Building, 316 North 26th Street, Billings, Mont. 59103. Copies of Interior's FEIS are also available in limited quantities from the FERC's Office of Public Information, Washington, D.C., and at its regional office located at 230 South Dearborn Street, Chicago, Ill. 60604.

Persons who have not intervened but who wish to present testimony and to argue environmental positions in this proceeding must comply with §§ 2.80 and 2.82(d) and (e) of the Commission's General Policy and Interpretations and § 1.8 of the Commission's Rules of Practice and Procedure. A copy of these regulations is attached.

LOIS D. CASHELL,  
Acting Secretary.

FEDERAL POWER COMMISSION—ORDER  
415-C

STATEMENT OF GENERAL POLICY TO IMPLEMENT PROCEDURES FOR COMPLIANCE WITH THE NATIONAL ENVIRONMENTAL POLICY ACT OF 1969

(Issued December 18, 1972)

Sec. 2.80 Detailed environmental statement.

(a) It shall be the general policy of the Federal Power Commission to adopt and to adhere to the objectives and aims of the National Environmental Policy Act of 1969 (NEPA) in its regulations under the Federal Power Act and the Natural Gas Act. The National Environmental Policy Act of 1969 requires, among other things, all Federal agencies to include a detailed environmental statement in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment.

(b) Therefore, in compliance with the National Environmental Policy Act of 1969 the Commission staff shall make a detailed environmental statement when the regulatory action taken by us under the Federal Power Act and Natural Gas Act will have a significant environmental impact. A "detailed statement" prepared in compliance with the requirements of §§ 2.81 through 2.82 shall fully develop

the five factors listed hereinafter in the context of such considerations as the proposed activity's direct and indirect effect on the air and water environment of the project or natural gas pipeline facility; on the land, air, and water biota; on established park and recreational areas; and on sites of natural, historic, and scenic values and resources of the area. The statement shall discuss the extent of the conformity of the proposed activity with all applicable environmental standards. The statement shall also fully deal with alternative courses of action to the proposal and, to the maximum extent practicable, the environmental effects of each alternative. Further, it shall specifically discuss plans for future development related to the application under consideration. The above factors are listed to merely illustrate the kinds of values that must be considered in that statement. In no respect is this listing to be construed as covering all relevant factors. The five factors which must be specifically discussed in the detailed statement are:

(1) The environmental impact of the proposed action.

(2) Any adverse environmental effects which cannot be avoided should the proposal be implemented.

(3) Alternatives to the proposed action.

(4) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.

(5) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

(c)(1) To the maximum extent practicable no final administrative action is to be taken sooner than 90 days after a draft environmental statement has been circulated for comment or 30 days after the final text of an environmental statement has been made available to the Council on Environmental Quality and the public.

(2) Upon a finding that it is necessary and appropriate in the public interest, the Commission may dispense with any time period specified in §§ 2.80-2.82.

Sec. 2.82 Compliance with the National Environmental Policy Act of 1969 under the Natural Gas Act.

(d) In the case of each contested application, the applicant, staff, and all interveners taking a position on environmental matters shall offer evidence for the record in support of their environmental position. The applicant and all such interveners shall specify any differences with the staff's position, and shall include, among other relevant factors, a discussion of their position in the context of the factors enumerated in § 2.80.

(e) In the case of each contested application, the initial and reply briefs filed by the applicant, the staff, and all interveners taking a position on environmental matters must specifically analyze and evaluate the evidence in the light of the environmental criteria enumerated in § 2.80. Furthermore, the initial decision of the presiding administrative law judge in such cases, and the final order of the Commission dealing with the application on the merits in all cases, shall include an evaluation of the environmental factors enumerated in § 2.80 and the views and comments expressed in conjunction therewith by the applicant and all those making formal comment pursuant to the provisions of this section.

#### FEDERAL POWER COMMISSION

#### RULES OF PRACTICE AND PROCEDURE 18 CFR 1.8 INTERVENTION

##### Sec. 1.8 Intervention.

(a) *Initiation of intervention.* Participation in a proceeding as an intervener may be initiated as follows:

(1) By the filing of a notice of intervention by a State Commission, including any regulatory body of the State or municipality having jurisdiction to regulate rates and charges for the sale of electric energy, or natural gas, as the case may be, to consumers within the intervening State or municipality.

(2) By order of the Commission upon petition to intervene.

(b) *Who may petition.* A petition to intervene may be filed by any person claiming a right to intervene or an interest of such nature that intervention is necessary or appropriate to the administration of the statute under which the proceeding is brought. Such right or interest may be:

(1) A right conferred by statute of the United States;

(2) An interest which may be directly affected and which is not adequately represented by existing parties and as to which petitioners may be bound by the Commission's action in the proceeding (the following may have such an interest: Consumers served by the applicant, defendant, or respondent; holders of securities of the applicant, defendant, or respondent; and com-

petitors of the applicant, defendant, or respondent).

(3) Any other interest of such nature that petitioner's participation may be in the public interest.

(c) *Form and contents of petitions.* Petitions to intervene shall set out clearly and concisely the facts from which the nature of the petitioner's alleged right or interest can be determined, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding, and citing by appropriate reference the statutory provisions or other authority relied on. *Provided*, That where the purpose of the proposed intervention is to obtain an allocation of natural gas for sale and distribution by a person or municipality engaged or legally authorized to engage in the local distribution of natural or artificial gas to the public, the petition shall comply with the requirements of Part 156 of this chapter (i.e., Regulations Under the Natural Gas Act). Such petitions shall in other respects comply with the requirements of §§ 1.15 to 1.17, inclusive.

(d) *Filing and service of petitions.* Petitions to intervene and notices of intervention may be filed at any time following the filing of a notice of rate or tariff change, or of an application, petition, complaint, or other document seeking Commission action, but in no event later than the date fixed for the filing of petitions to intervene in any order or notice with respect to the proceedings issued by the Commission or its Secretary, unless, in extraordinary circumstances for good cause shown, the Commission authorizes a late filing. Service shall be made as provided in § 1.17. Where a person has been permitted to intervene notwithstanding his failure to file his petition within the time prescribed in this paragraph, the Commission or officer designated to preside may, where the circumstances warrant, permit the waiver of the requirements of

§ 1.26(c)(5) with respect to copies of exhibits for such intervener.

(e) *Answers to petitions.* Any party to the proceeding or staff counsel may file an answer to a petition to intervene, and in default thereof, may be deemed to have waived any objection to the granting of such petition. If made, answers shall be filed within 15 days after the date of service of the petition, but not later than 5 days prior to the date set for the commencement of the hearing, if any, unless for cause the Commission with or without motion shall prescribe a different time. They shall in all other respects conform to the requirements of §§ 1.15 to 1.17, inclusive.

(f) *Notice and action on petitions—*  
(1) *Notice and service.* Petitions to intervene, when tendered to the Commission for filing, shall show service thereof upon all participants to the proceeding in conformity with § 1.17(b).

(2) *Action on petitions.* As soon as practicable after the expiration of the time for filing answers to such petitions or default thereof, as provided in paragraph (e) of this section, the Commission will grant or deny such petition in whole or in part or may, if found to be appropriate, authorize limited participation. No petitions to intervene may be filed or will be acted upon during a hearing unless permitted by the Commission after opportunity for all parties to object thereto. Only to avoid detriment to the public interest will any presiding officer tentatively permit participation in a hearing in advance of, and then only subject to, the granting by the Commission of a petition to intervene.

(g) *Limitation in hearings.* Where there are two or more interveners having substantially like interests and positions, the Commission or presiding officer may, in order to expedite the hearing, arrange appropriate limitations on the number of attorneys who will be permitted to cross-examine and make and argue motions and objections on behalf of such interveners.

# AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

**ATTENTION:** For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

**federal register**

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 43, NO. 18—THURSDAY, JANUARY 26, 1978

## list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month. A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

## reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

### Rules Going Into Effect Today

NOTE: There were no items eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

### List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-02]

## Title 7—Agriculture

## CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 428; Navel Orange Reg. 426, Amendment 1]

## PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

## Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period January 27-February 2, 1978, and increases the quantity of such oranges that may be so shipped during the period January 20-26, 1978. Such action is needed to provide for orderly marketing of fresh navel oranges for the periods specified due to the marketing situation confronting the orange industry.

DATES: The regulation becomes effective January 27, 1978, and the amendment is effective for the period January 20-26, 1978.

## FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-5393.

SUPPLEMENTARY INFORMATION: Findings. Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under this marketing order, and upon other information, it is found that the limitation of handling of navel oranges, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on January 20, 23, and 24, 1978, to consider supply and market conditions and other fac-

tors affecting the need for regulation, and recommended quantities of navel oranges deemed advisable to be handled during the specified weeks. The committee reports the demand for navel oranges continues good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and the amendment relieves restrictions on the handling of navel oranges. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

1. Section 907.728 is added as follows:

§ 907.728 Navel Orange Regulation 428.

Order. (a) The quantities of navel oranges grown in Arizona and California which may be handled during the period January 27, 1978, through February 2, 1978, are established as follows:

- (1) District 1: 949,000 cartons;
  - (2) District 2: 351,000 cartons;
  - (3) District 3: unlimited movement.
- (b) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" mean the same as defined in the marketing order.

2. Paragraph (a) (1) (2) and (3) in § 907.726 Navel Orange Regulation 426 (43 FR 2719), is hereby amended to read:

- (1) District 1: 1,050,000 cartons;
- (2) District 2: 150,000 cartons;
- (3) District 3: unlimited movement.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated: January 25, 1978.

CHARLES R. BRADER,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

## Title 14—Aeronautics and Space

## CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 77-WE-32-AD; Amdt. 39-3129]

## PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corp. BAC 1-11 Series Airplanes With Auxiliary Fuel Tanks Installed in Accordance With Supplemental Type Certificate SA2971WE.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing airworthiness directive (AD) applicable to BAC 1-11 airplanes incorporating auxiliary fuel tanks per Supplemental Type Certificate SA2971WE by providing a means of ensuring the integrity of the auxiliary fuel tank system. The amendment is needed to return the auxiliary fuel tank system to eligibility for operation.

EFFECTIVE DATE: January 31, 1978.

ADDRESSES: The applicable reports may be obtained from: National Aircraft Leasing, 1888 Century Park East, Los Angeles, Calif. 90067, telephone 213-552-6311.

Also, a copy of these reports may be reviewed at, or a copy obtained from:

Rules Docket, in Room 916, FAA, Independence Avenue SW., Washington, D.C. 20591, or Rules Docket, in Room 6W14, FAA Western Region, 15000 Aviation Boulevard, Hawthorne, Calif. 90261.

## FOR FURTHER INFORMATION CONTACT:

Jerry J. Presba, Executive Secretary, Airworthiness Directives Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009, telephone: 213-536-6351.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39-3062 (42 FR 21102), AD 77-21-08 which currently requires either removal or deactivation of the auxiliary fuel system for BAC 1-11 airplanes certifi-

## RULES AND REGULATIONS

cated in all categories incorporating auxiliary fuel tanks per Supplemental Type Certificate SA2971WE. After issuing amendment 39-3062, The FAA has determined that modification of the auxiliary fuel system in accordance with National Aircraft Leasing Service Bulletin TA-4-8, Revision "A" dated November 22, 1977 is adequate to insure the integrity of the fuel fitting shrouds and eliminates the cause of cracking of the inner tanks. Therefore, the FAA is amending Amendment 39-3062 to allow the use of the auxiliary fuel system, conditional upon accomplishment of specified modifications.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and good cause exists for making the amendment effective in less than 30 days.

## DRAFTING INFORMATION

The principal authors of this document are E. W. Mason, Aircraft Engineering Division and DeWitte Lawson, Jr., Office of the Regional Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), Section 39.13 of the Federal Aviation Regulation (14 CFR 39.13) is amended, by amending Amendment 39-3062 (42 FR 21102), AD 77-21-08 as follows:

Add a new Paragraph (d) to read as follows:

(d) The limitation required by Paragraph (a) may be removed and the deactivation or removal required by Paragraph (b) may be reactivated or reinstalled, after the auxiliary fuel system is modified in accordance with National Aircraft Leasing Service Bulletin TA-4-8 Revision "A" dated November 22, 1977 or later FAA approved revision.

This amendment becomes effective January 31, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, Calif, on January 16, 1978.

ROBERT H. STANTON,  
Director,  
FAA Western Region.

(FR Doc. 78-2114 Filed 1-25-78; 8:45 am)

## [4910-13]

(Airspace Docket No. 78-SO-5)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Alteration of Federal Airway; Florida

AGENCY: Federal Aviation Administration (FAA), DOT.

## ACTION: Final rule.

SUMMARY: This amendment alters a VOR Federal airway identified as V-159 between Miami, Fla., and Palm Beach, Fla. This action reduces controller workload and chart clutter and simplifies flight planning for pilots by realigning V-159 along existing airways (V-7, V-51 and V-97) between Miami, Fla., and Palm Beach, Fla.

EFFECTIVE DATE: March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to realign a segment of VOR Federal airway identified as V-159 between Miami, Fla., and Palm Beach, Fla. This action assures that V-159 between Miami and Palm Beach overlies V-7, V-51 and V-97. Since this amendment is a minor matter on which the public would have no particular desire to comment, notice and public procedure thereon are unnecessary.

## DRAFTING INFORMATION

The principal authors of this document are Mr. Richard Huff, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) is amended, effective 0901 GMT, March 23, 1978, as follows: In § 71.123 V-159 "Miami 343" is deleted and "Miami 337" is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and (14 CFR 11.69).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 19, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

(FR Doc. 78-2191 Filed 1-25-78; 8:45 am)

## [4910-13]

(Airspace Docket No. 77-SW-62)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Alteration of Federal Airways; Texas

AGENCY: Federal Aviation Administration (FAA), DOT.

## ACTION: Final rule.

SUMMARY: This amendment alters VOR Federal airways identified as V-76 and V-306 in the vicinity of Austin, Tex. This amendment improves air traffic efficiency by simplifying air traffic control instructions being issued to aircraft arriving into the Austin, Tex., terminal area.

EFFECTIVE DATE: March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

## SUPPLEMENTARY INFORMATION:

## HISTORY

On December 1, 1977, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter two Federal airways identified as V-76 and V-306 in the vicinity of Austin, Tex. Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. We received four responses to the NPRM in which the commenters posed no objection to the proposal. Section 71.123 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 307).

## THE RULE

This amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) adopts the airspace action proposed in the NPRM (42 FR 61049).

## DRAFTING INFORMATION

The principal authors of this document are Mr. Richard Huff, Air Traf-

fic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) is amended, effective 0901 G.m.t., March 23, 1978, as follows:

In § 71.123 V-76 "Industry 305" is deleted and "Industry 310" is substituted therefor. In V-306 between "Navasota, Tex.," and "INT Navasota" "including a south alternate from Austin via INT Austin 109" and College Station, Tex., 240° radials; INT College, Tex., 240° and Industry, Tex., 310° radials;" is added.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 18, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

(FR Doc. 78-2192 Filed 1-25-78; 8:45 am)

## [4910-13]

(Airspace Docket No. 77-RM-11)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Extension of Federal Airway

AGENCY: Federal Aviation Administration (FAA), DOT.

## ACTION: Final rule.

SUMMARY: This amendment extends VOR federal airway V-208 from Myton, Utah, to Page, Ariz. This action provides a route east of the Wasatch Mountain Range to accommodate an increasing amount of north/south traffic.

EFFECTIVE DATE: March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. John Watterson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8525.

## SUPPLEMENTARY INFORMATION:

## HISTORY

On November 25, 1977, the FAA proposed to amend Subpart C of Part 71

## RULES AND REGULATIONS

## [4910-13]

(Airspace Docket No. 77-SO-62)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Federal Airways, Reporting Points, Area High Routes and Jet Routes—Name Changes

AGENCY: Federal Aviation Administration (FAA), DOT.

## ACTION: Final rule.

SUMMARY: These amendments change six names to be identical to the new names of VORTACs located near Birmingham, Ala.; Dothan, Ala.; Mobile, Ala.; Columbus, Miss.; and Hattiesburg, Miss. These actions will eliminate the possible confusion of using two names for the same location. These amendments contain no changes in the designation of airspace or its use.

EFFECTIVE DATE: March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

SUPPLEMENTARY INFORMATION: The purpose of these amendments to Parts 71 and 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) is to: (1) Change the name of Birmingham, Ala., to Vulcan, Ala.; (2) change the name of Dothan, Ala., to Wiregrass, Ala.; (3) change the name of Huntsville, Ala., to Rocket, Ala.; (4) change the name of Mobile, Ala., to Semmes, Ala.; (5) change the name of Columbus, Miss., to Bigbee, Miss.; and (6) change the name of Hattiesburg, Miss., to Eaton, Miss.; where they appear in the description of airways, reporting points, jet routes and area high routes. Because these actions merely rename existing navids without changing the designation of any airspace or its use, these amendments are a minor matter on which the public would have no particular desire to comment; therefore, notice and public procedure thereon are unnecessary.

## DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administra-

tion of the Federal Aviation Regulations (14 CFR Part 71) to extend VOR federal airway V-208 from Myton, Utah, to Page, Ariz., via Carbon, Utah, Hanksville, Utah, to Page (42 FR 60162). Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. The comment received expressed no objection. This amendment is that proposed in the notice. Section 71.123 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 307).

## THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FAR's) (14 CFR Part 71) extends VOR Federal airway V-208 from Myton, Utah, to Page, Ariz., via Carbon, Utah, Hanksville, Utah, to Page. This action is necessary to provide a route east of the Wasatch Mountain Range, where the weather is significantly different than that on the western slope. This airway extension will accommodate an increasing amount of north/south traffic.

## DRAFTING INFORMATION

The principal authors of this document are Mr. John Watterson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) is amended, effective 0901 G.m.t., March 23, 1978, as follows:

In V-208 "From Myton, Utah, 79 MSL, via" is deleted and "From Page, Ariz., via Hanksville, Utah; Carbon, Utah; Myton, Utah; 79 MSL" is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 19, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

(FR Doc. 78-2190 Filed 1-25-78; 8:45 am)

tor, Parts 71 and 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) as republished (43 FR 307, 631, 638, 714 and 730) and amended (42 FR 60123 and 63167) are amended, effective 0901 GMT, March 23, 1978, as follows:

#### § 71.123 [Amended]

1. Section 71.123 (43 FR 307) is amended as follows:

a. "Birmingham" is deleted and "Vulcan" is substituted therefor wherever it appears in the description of V-7, V-18, V-49, V-115, V-159, V-168 and V-241.

b. "Dothan" is deleted and "Wiregrass" is substituted therefor wherever it appears in the description of V-7 and V-241.

c. "Huntsville" is deleted and "Rocket" is substituted therefor wherever it appears in the description of V-54 and V-321.

d. "Mobile" is deleted and "Semmes" is substituted therefor wherever it appears in the description of V-11, V-20, V-209, V-240 and V-241.

e. "Columbus" is deleted and "Bigbee" is substituted therefor wherever it appears in the description of V-245 and V-278.

f. "Hattiesburg" is deleted and "Eaton" is substituted therefor wherever it appears in the description of V-222 and V-455.

#### § 71.203 [Amended]

2. Section 71.203 (43 FR 631) is amended as follows:

a. "Birmingham, Ala." is deleted and "Vulcan, Ala." is substituted therefor.

b. "Columbus, Miss." is deleted and "Bigbee, Miss." is substituted therefor.

c. "Dothan, Ala." is deleted and "Wiregrass, Ala." is substituted therefor.

d. "Hattiesburg, Miss." is deleted and "Eaton, Miss." is substituted therefor.

e. "Huntsville, Ala." is deleted and "Rocket, Ala." is substituted therefor.

f. "Mobile, Ala." is deleted and "Semmes, Ala." is substituted therefor.

#### § 71.207 [Amended]

3. Section 71.207 (43 FR 638) is amended as follows:

a. "Birmingham, Ala." is deleted and "Vulcan, Ala." is substituted therefor.

b. "Mobile, Ala." is deleted and "Semmes, Ala." is substituted therefor.

c. "Columbus, Ala." is deleted and "Bigbee" is substituted therefor wherever it appears in J-52.

#### § 75.100 [Amended]

4. Section 75.100 (43 FR 714) is amended as follows:

a. "Birmingham" is deleted and "Vulcan" is substituted therefor wherever it appears in J-14, J-22, J-31, J-39, J-41, J-52, J-69 and J-151.

b. "Columbus" is deleted and "Bigbee" is substituted therefor wherever it appears in J-52.

c. "Mobile" is deleted and "Semmes" is substituted therefor wherever it appears in J-2, J-37 and J-69.

#### § 75.400 [Amended]

5. Section 75.400 (43 FR 730) is amended as follows:

a. "Birmingham" is deleted and "Vulcan" is substituted therefor wherever it appears in J-811R, J-874R, J-875R, J-934R and J-952R.

b. "Columbus" is deleted and "Bigbee" is substituted therefor wherever it appears in J-934R.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 20, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

#### [4910-13]

[Airspace Docket No. 77-SW-60]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone: Corpus Christi NAS, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This alters the control zone at Corpus Christi (Naval Air Station) NAS, Tex., to provide controlled airspace for aircraft executing revised instrument approach procedures to NAS Corpus Christi. The change in procedures was necessitated by the recent relocation of the Navy Corpus Christi (very high frequency omnidirectional range technical air navigation) (VORTAC).

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

David Gonzalez, Airspace and Procedures Branch (ASW-536), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

#### SUPPLEMENTARY INFORMATION:

##### HISTORY

On November 10, 1977, a notice of proposed rulemaking was published in

the FEDERAL REGISTER (42 FR 58540) stating that the Federal Aviation Administration proposed to alter the Corpus Christi NAS, Tex., control zone.

Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received without objections. Except for editorial changes this amendment is that proposed in the notice.

##### THE RULE

This amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR 71) alters the Corpus Christi NAS, Tex., control zone. This action provides controlled airspace for revised instrument approach procedures necessitated by the recent relocation of the Navy Corpus Christi VORTAC.

##### DRAFTING INFORMATION

The principal authors of this document are David Gonzalez, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

##### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 355) is amended, effective 0901 G.m.t., March 23, 1978, as follows:

In Subpart F, 71.171 (42 FR 355), the Corpus Christi NAS, Tex., control zone is amended as follows:

That airspace within a 5-mile radius of NAS Corpus Christi (Latitude 27°41'30" N., Longitude 97°17'15" W.) including the following extensions based on the Navy Corpus Christi VORTAC (Latitude 27°41'09" N., Longitude 97°17'40" W.): 3 miles each side of the 331 radial, extending from the 5-mile radius zone to 7 miles northwest of the VORTAC; 1.5 miles each side of the 016 radial, extending from the 5-mile radius zone to 7 miles northwest of the VORTAC; 1.5 miles each side of the 016 radial, extending from the 5-mile radius zone to 5.5 miles north of the VORTAC; 3 miles each side of the 118 radial, extending from the 5-mile radius zone to 7 miles southeast of the VORTAC; and 1.5 miles each side of the 160 radial, extending from the 5-mile radius zone to 6.5 miles south of the VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on January 9, 1978.

PAUL J. BAKER,  
Acting Director,  
Southwest Region.

#### [4910-13]

[Airspace Docket No. 77-SW-57]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area: Vernon, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This alters the transition area at Vernon, Tex., to provide controlled airspace for aircraft executing instrument approach procedures to the Wilbarger County Airport, using the newly established nondirectional beacon (NDB) located on the airport. Coincident with this action, the airport is changed from visual flight rules (VFR) to instrument flight rules (IFR) for public use.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

David Gonzalez, Airspace and Procedures Branch (ASW-536), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

#### SUPPLEMENTARY INFORMATION:

##### HISTORY

On November 10, 1977, a notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 58541) stating that the Federal Aviation Administration proposed to alter the Vernon, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received without objections. Except for editorial changes this amendment is that proposed in the notice.

##### THE RULE

This amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR 71) alters the Vernon, Tex., transition area. This action provides additional controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument approach procedures to the Wilbarger County Airport.

##### DRAFTING INFORMATION

The principal authors of this document are David Gonzalez, Airspace

and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

##### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 440) is amended, effective 0901 GMT, March 23, 1978, as follows:

In Subpart G, 71.181 (42 FR 440), the Vernon, Tex., transition area is amended as follows:

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Wilbarger County Airport (latitude 34°14'00" N., longitude 99°17'30" W.) within 2 miles west of the Altus VOR 182° radial extending from the 6-mile radius to 7 miles north of the airport; within 3 miles each side of the 016° bearing from the Vernon NDB (latitude 34°13'48" N., longitude 99°16'44" W.) extending from the 6-mile radius area to 11.5 miles north of the NDB, excluding the portion within the Hobart, Okla., transition area.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on January 10, 1978.

PAUL J. BAKER,  
Acting Director,  
Southwest Region.

#### [4910-13]

[Airspace Docket No. 77-AL-3]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates a 700 foot transition area at Dutch Harbor, Alaska. This action provides controlled airspace for the protection of aircraft executing instrument approaches to the Dutch Harbor Airport.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation

Administration, 800 Independence Avenue, SW., Washington, D.C. 20591, telephone 202-426-3715.

#### SUPPLEMENTARY INFORMATION:

##### HISTORY

On October 17, 1977, the FAA published for comment a proposal to designate a 700 foot transition area at Dutch Harbor, Alaska (42 FR 55477). Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. The only comment received expressed no objection. Section 71.181 of Part 71 was published in the FEDERAL REGISTER on January 3, 1978 (43 FR 440). Since this action involved in part the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

##### THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) designates as a 700 foot transition area the airspace within 5 miles each side of the Dutch Harbor NDB 360° bearing extending from the NDB to 17.5 miles north of the NDB and that airspace within 4.5 miles east and 9.5 miles west of the 360° bearing extending from 11.5 miles to 36 miles north of the NDB. This action provides controlled airspace to accommodate aircraft executing Standard Instrument Approach Procedures (SIAP) to the Dutch Harbor Airport.

##### DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

##### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 G.m.t., March 23, 1978, by adding the Dutch Harbor, Alaska, transition area as follows:

##### DUTCH HARBOR, ALASKA

That airspace extending upward from 700 feet above the surface within 5 miles each side of the Dutch Harbor NDB 360° bearing extending from the NDB to 17.5 miles north of the NDB and within 4.5 miles east and 9.5 miles west of the NDB 360° bearing extending from 11.5 miles to 36 miles north of the NDB.

(Secs. 307(a), 313(a) and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a) and 1510); Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

## RULES AND REGULATIONS

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 19, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

## [4910-13]

(Airspace Docket No. 77-SO-50)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Alteration of Federal Airway

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters VOR Federal airway identified as V-159 in the southeastern United States. This amendment revokes a segment of V-159. An airspace utilization study indicated insufficient IFR traffic on this segment of V-159 to warrant retention.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

## SUPPLEMENTARY INFORMATION:

## HISTORY

On November 14, 1977, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter Federal Airway V-159 in the State of Florida (42 FR 58956). Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. We received three responses to the NPRM in which the commenters posed no objection to the proposal. Section 71.123 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 307).

## THE RULE

This amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) adopts the airspace action proposed in the NPRM (42 FR 58956).

## DRAFTING INFORMATION

The principal authors of this document are Mr. Richard Huff, Air Traf-

fic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) is amended, effective 0901 G.m.t., March 23, 1978, as follows:

In § 71.123 V-159 "Fla., including an E alternate via INT Vero Beach 341" and Orlando 123" radials;" is deleted and "Fla." is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 19, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

(FR Doc. 78-2175 Filed 1-25-78; 8:45 am)

## [4910-13]

(Airspace Docket No. 77-NE-14)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Alteration of Federal Airways

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters VOR federal airways identified as V-2, V-14, V-141, V-229, V-447, V-475 and V-490 in the northeastern United States. This amendment improves air traffic efficiency by providing continuous preferential routing with charted radials, distance and minimum en route altitudes.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

## SUPPLEMENTARY INFORMATION:

## HISTORY

On October 27, 1977, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter seven federal airways identi-

fied as V-2, V-14, V-141, V-229, V-447, V-475 and V-490 in the northeastern United States (42 FR 56619). Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. We received three responses to the NPRM in which the commenters posed no objection to the proposal. Section 71.123 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 307) and amended (42 FR 58930).

## THE RULE

This amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) adopts the airspace action proposed in the NPRM (42 FR 56619).

## DRAFTING INFORMATION

The principal authors of this document are Mr. Richard Huff, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) and amended (42 FR 58930) is amended, effective 0901 GMT, March 23, 1978, as follows:

1. In § 71.123 V-2 "Gardner, Boston, Mass." is deleted and "Gardner" is substituted therefor.
2. In V-14 "128" and Boston, Mass., 251" radials; Boston," is deleted and "195" and Norwich, Conn., 351" radials; Norwich," is substituted therefor.
3. In V-141 "Boston, Mass.: INT Boston 015" and Manchester, N. H. 117" radials; Manchester;" is deleted and "to Boston, Mass. From Manchester, N. H.," is substituted therefor.
4. In V-229 after "Gardner, Vt.," Keene, N. H.; INT Keene 338" and Burlington, Vt., 160" radials; Burlington," is substituted therefor.
5. In V-447 "Montpelier, Vt.," is deleted and "Cambridge, N. Y., Montpelier, Vt.," is substituted therefor.
6. In V-475 between "Providence, R.I.," and "INT Providence" "including an east alternate from Madison to Providence via INT Madison 082" and Providence 212" radials;" is added.
7. In V-490 "INT Manchester 117" and Boston, Mass., 015" radials;" is deleted.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 16, 1978.

## [4910-13]

(Airspace Docket No. 77-SW-45)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Alteration of Federal Airways; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: In a rule published in the FEDERAL REGISTER of December 15, 1977, Vol. 42, page 63167, the Llano, Tex., 026" radial was incorrectly stated as 025" in the amendatory paragraphs numbered 3 and 4. This correction reflects the correct radial of Llano, Tex., to be 026".

EFFECTIVE DATE: January 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

## SUPPLEMENTARY INFORMATION:

FEDERAL REGISTER Document 77-35555 was published on December 15, 1977 (42 FR 63167) with an effective date of January 26, 1978, and designated segments of V-161 and V-163 via the Llano, Tex., 025" radial. This 025" radial was inadvertently published incorrectly and should have been published as 026". Action is taken herein to correct this error.

## DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE CORRECTION

Accordingly, pursuant to the authority delegated to me by the Administrator, FEDERAL REGISTER Document 77-35555 as published on December 15, 1977, page 63167, is amended in the description of a segment of V-161 and a segment of V-163 by deleting the third line of the amendatory paragraph numbered 3 and the eleventh line of the amendatory paragraph numbered 4 and substituting therefor "026" and Millsap, Tex., 193" radials; Millsap;" and "Tex., Llano, Tex., and Int. Llano 026" and" respectively.

## RULES AND REGULATIONS

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

Issued in Washington, D.C., on January 16, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

(FR Doc. 78-2179 Filed 1-25-78; 8:45 am)

## [4910-13]

(Airspace Docket No. 77-SO-43)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## PART 73—SPECIAL USE AIRSPACE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: These amendments alter several restricted areas near Avon Park, Fla. The alterations were requested by the United States Air Force (USAF) to contain the flight profiles of high performance military aircraft engaged in ordnance delivery. These alterations will provide sufficient restricted area airspace to permit the USAF to perform its mission in this area.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Wray McClung, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8525.

## SUPPLEMENTARY INFORMATION:

## HISTORY

The restricted area complex at Avon Park has been used for years by the USAF for expenditure of ordnance. Only the inner portion of the area is used for actual delivery of ordnance, and the outer portions are used for high speed, head in the cockpit operation preparing for ordnance delivery. Introduction of higher performance military aircraft resulted in the USAF request for additional restricted area airspace. Accordingly, on November 14, 1977 (42 FR 58957), the FAA proposed to amend Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) to enlarge the restricted areas at Avon Park as necessary. Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. Two comments were received and due

consideration has been given to all matters presented. Except for editorial changes, and except as specifically discussed below, these amendments are the same as proposed in the notice. Sections 71.151 and 73.29 were republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 344 and 672 respectively).

## THE RULE

The amendment to Part 73 of the Federal Aviation Regulations (FAR's) enlarges the Avon Park, Fla., restricted area complex to provide more restricted area airspace for higher performance military aircraft engaged in ordnance delivery. The amendment to Part 71 of the FAR's makes an administrative change to remove R-2901A from § 71.151 (Subpart D). By definition, the continental control area excludes airspace within restricted areas; however, airspace within restricted areas above 14,500 feet MSL can be designated as continental control area by including those restricted areas in Subpart D of Part 71. R-2901A is presently included in Subpart D; however, since it will no longer extend into the continental control area, it will no longer be necessary to list that restricted area in Subpart D, and it is removed.

In the notice the description of R-2901C inadvertently specified a geographical coordinate as "Lat. 27°44'50" N., Long. 81°25'20" W.", and highway descriptions as "Florida State routes 60 and 80." These descriptions should have been "Lat. 27°46'00" N., Long. 81°25'20" W." and "Florida State routes 60 and 630" respectively. These corrections are reflected herein. Since the correction to the geographical coordinate is minor and the correction to the highway number is administrative, notice and public procedure are deemed unnecessary.

## DISCUSSION OF COMMENTS

Comments were received from the Air Line Pilots Association (ALPA) and the Florida State Department of Transportation. ALPA commented that the proposed enlargement of Avon Park complex would cause substantial increase in distance flown by air carrier aircraft in circumnavigating the area. This was discussed with ALPA and when it was shown that the small increase in area extended up to only 5,000 feet MSL, and that air carrier aircraft would nearly always be above that altitude in the vicinity of Avon Park, ALPA withdrew its objection. The State of Florida Department of Transportation (DOT) suggested that the restricted area boundaries be defined by more prominent landmarks so that nonparticipating aircraft could avoid the area more easily. The boundaries suggested by the Florida DOT would result in a decrease in existing

special use airspace. This was discussed with the United States Air Force (USAF) which advised that they could not accept any decrease in restricted airspace without serious derogation to their training mission. The Florida DOT was advised that the FAA reviewed the USAF position and concurs with the USAF statement on mission derogation.

#### DRAFTING INFORMATION

The principal authors of this document are Mr. Wray McClung, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) are amended, effective 0901 G.m.t., March 23, 1978, as follows:

1. By amending § 71.151 (42 FR 345) by deleting "R-2901A Avon Park, Fla." Part 73, § 73.29.

1. By revoking R-2901A, R-2901B, R-2901C, R-2901D, R-2901E, R-2901F and R-2901G, and substituting therefor the following:

a. R-2901A Avon Park, Fla. Boundaries. Beginning at Lat. 27°44'45" N., Long. 81°25'20" W.; via Lat. 27°44'45" N., Long. 81°11'40" W.; Lat. 27°35'00" N., Long. 81°09'00" W.; Lat. 27°32'30" N., Long. 81°07'30" W.; Lat. 27°29'00" N., Long. 81°13'30" W.; Lat. 27°32'40" N., Long. 81°16'50" W.; Lat. 27°32'32" N., Long. 81°21'40" W.; Lat. 27°42'00" N., Long. 81°25'20" W.; to point of beginning.

Designated altitudes. Surface to and including 14,000 feet MSL.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

b. R-2901B Avon Park, Fla. Boundaries. Beginning at Lat. 27°44'45" N., Long. 81°25'20" W.; via Lat. 27°44'45" N., Long. 81°11'40" W.; Lat. 27°35'00" N., Long. 81°09'00" W.; Lat. 27°32'40" N., Long. 81°12'20" W.; Lat. 27°32'32" N., Long. 81°21'40" W.; Lat. 27°42'00" N., Long. 81°25'20" W.; to point of beginning.

Designated altitudes. 14,000 feet MSL to and including FL 180.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

c. R-2901C Avon Park, Fla. Boundaries. Beginning at Lat. 27°44'45" N., Long. 81°25'20" W.; via Lat. 27°46'00" N., Long. 81°25'20" W.; thence east along Florida State routes 60 and 630 to Lat. 27°48'30" N., Long. 81°14'00" W.; Lat. 27°44'50" N., Long. 81°14'00" W.; to point of beginning.

Designated altitudes. Surface to 14,000 feet MSL.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

d. R-2901D Avon Park, Fla. Boundaries. Beginning at Lat. 27°44'50" N., Long.

81°25'20" W.; via Lat. 27°50'00" N., Long. 81°25'20" W.; Lat. 27°50'00" N., Long. 81°14'00" W.; Lat. 27°48'30" N., Long. 81°14'00" W.; thence west along Florida State routes 80 and 630 to point of beginning.

Designated altitudes. 500 feet MSL to 4,000 feet MSL east of Long. 81°21'00" W.; 1,000 feet AGL to 4,000 feet MSL west of Long. 81°21'00" W.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

e. R-2901E Avon Park, Fla. Boundaries. Beginning at Lat. 27°50'00" N., Long. 81°25'20" W.; via Lat. 27°55'00" N., Long. 81°25'20" W.; Lat. 28°00'00" N., Long. 81°21'00" W.; Lat. 28°00'00" N., Long. 81°14'00" W.; Lat. 27°50'00" N., Long. 81°14'00" W.; to point of beginning.

Designated altitudes. 1,000 feet MSL to 4,000 feet MSL.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

f. R-2901F Avon Park, Fla. Boundaries. Beginning at Lat. 27°32'32" N., Long. 81°21'40" W.; via Lat. 27°32'40" N., Long. 81°16'50" W.; Lat. 27°29'00" N., Long. 81°13'30" W.; Lat. 27°24'45" N., Long. 81°11'00" W.; Lat. 27°30'45" N., Long. 81°17'50" W.; to point of beginning.

Designated altitudes. 4,000 feet MSL to 5,000 feet MSL.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

g. R-2901G Avon Park, Fla. Boundaries. Beginning at Lat. 27°29'00" N., Long. 81°13'30" W.; via Lat. 27°32'30" N., Long. 81°07'30" W.; Lat. 27°29'30" N., Long. 81°05'30" W.; Lat. 27°24'45" N., Long. 81°11'00" W.; to point of beginning.

Designated altitudes. Surface to 5,000 feet MSL.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

h. R-2901H Avon Park, Fla. Boundaries. Beginning at Lat. 27°24'45" N., Long. 81°11'00" W.; via Lat. 27°29'30" N., Long. 81°05'30" W.; Lat. 27°21'00" N., Long. 81°00'00" W.; to point of beginning.

Designated altitudes. 1,000 feet MSL to 4,000 feet MSL.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

i. R-2901I Avon Park, Fla. Boundaries. Beginning at Lat. 27°24'45" N., Long. 81°11'00" W.; via Lat. 27°21'00" N., Long. 81°00'00" W.; Lat. 27°16'45" N., Long. 81°06'00" W.; to point of beginning.

Designated altitudes. 1,500 feet MSL to 4,000 feet MSL.

Time of designation. Continuous. Controlling agency. Federal Aviation Administration, Miami ARTCC. Using/scheduling agency. 56th TFW, MacDill AFB, Fla.

(Airspace Docket No. 77-CE-23)

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Designation of Transition Area—West Union, Iowa

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to designate a transition area at West Union, Iowa, to provide controlled airspace for aircraft executing a new instrument approach procedure to the George L. Scott Municipal Airport, West Union, Iowa, which is based on the Waukon, Iowa, VHF omnidirectional range (VOR), a navigational aid.

EFFECTIVE DATE: March 23, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Dwaine E. Hiland, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-538, FAA, Central Region, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION: A new instrument approach procedure to the George L. Scott Municipal Airport, West Union, Iowa, has been established based on the Waukon, Iowa, VOR, a navigational aid. This navigational aid will provide new navigational guidance for aircraft utilizing said airport. The establishment of an instrument approach procedure based on this navigational aid entails designation of a transition area at and above 700 feet above ground level (AGL) at West Union, Iowa, within which aircraft are provided air traffic control service. The intended effect of this action is to ensure adequate controlled airspace protection for aircraft executing the new instrument approach procedure to George L. Scott Municipal Airport.

#### DRAFTING INFORMATION

The principal authors of this document are Dwaine E. Hiland, Oper-

ations, Procedures and Airspace Branch, Air Traffic Division, and John L. Fitzgerald, Jr., Office of the Regional Counsel.

#### DISCUSSION OF COMMENTS

On pages 59758 and 59759 of the FEDERAL REGISTER dated November 21, 1977, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at West Union, Iowa. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the notice of proposed rulemaking.

Accordingly, subpart G, section 71.181, of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), is amended, effective 0901 G.m.t. March 23, 1978, by adding the following transition area:

##### WEST UNION, IOWA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the George L. Scott Municipal Airport (latitude 42°59'00" N., longitude 91°48'00" W.); and within 2½ miles each side of the 010° bearing from the George L. Scott Municipal Airport, extending from the 5-mile radius to 6 miles northeast of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655 (c)); sec. 11.69 of the Federal Aviation Regulations (14 CFR 11.69).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on January 16, 1978.

JOHN E. SHAW,  
Acting Director,  
Central Region.

(FR Doc. 78-2115 Filed 1-25-78; 8:45 am)

#### [4910-13]

(Airspace Docket No. 77-CE-17)

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Transition Area—Grandview, Mo.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to alter the existing transition area at Grandview, Mo., to provide additional controlled airspace for aircraft executing a new instrument

approach procedure to the Johnson County, Kansas Industrial Airport which is based on the Johnson County TVORW, a navigational aid.

EFFECTIVE DATE: March 23, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Dwaine E. Hiland, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-537, FAA, Central Region, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION: A new instrument approach procedure to the Johnson County, Kansas Industrial Airport has been developed based on the Johnson County, Kans., TVORW, a navigational aid. This navigation aid will provide additional guidance for aircraft utilizing this airport. The establishment of an instrument approach procedure based on the navigation aid entails alteration of the Grandview, Mo., transition area at and above 700 feet above the ground (AGL) within which aircraft will be provided additional air traffic control service. The intended effect of this action is to insure adequate controlled airspace for aircraft executing the new instrument approach procedure.

#### DRAFTING INFORMATION

The principal authors of this document are Dwaine E. Hiland, Operations, Procedures and Airspace Branch, Air Traffic Division, and John L. Fitzgerald, Jr., Office of the Regional Counsel.

#### DISCUSSION OF COMMENTS

On page 59389 of the FEDERAL REGISTER dated November 17, 1977, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Grandview, Mo. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the notice of proposed rule making. The NPRM did not clearly state the location of the TVORW as being located on the Johnson County, Kans., Executive Airport. Since the transition area alteration is not affected by this clarification an amended NPRM is not necessary.

Accordingly, subpart G, section 71.181, of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), is amended, effective 0901 G.m.t. March 23, 1978, by altering the following transition area:

##### GRANDVIEW, MO.

That airspace extending upward from 700 feet above the surface within an 8 mile

radius of Richards-Gebaur AFB (latitude 38°50'50" N., longitude 94°33'20" W.); within a 6 mile radius of Johnson County Executive Airport (latitude 38°51'00" N., longitude 94°44'15" W.), excluding that portion which coincides with Richards-Gebaur AFB's 700 feet transition area; within 3 miles each side of the 182° bearing from Johnson County Executive Airport, extending from the 6-mile radius area to 8 miles south of the airport; and within an 8.5 mile radius of the Johnson County Industrial Airport (latitude 38°49'47" N., longitude 94°53'29" W.), excluding that portion which coincides with the Johnson County Executive Airport's 700 feet transition area.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.69 of the Federal Aviation Regulations (14 CFR 11.69).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on January 16, 1978.

JOHN E. SHAW,  
Acting Director,  
Central Region.

#### [4910-13]

(Airspace Docket No. 77-AL-8)

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Control Zone and Transition Area at Iliamna, Alaska

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the Iliamna, Alaska, control zone and transition area in order to provide protected airspace for aircraft executing approach and departure procedures at Iliamna, Alaska.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

#### FOR FURTHER INFORMATION CONTACT:

John G. Costello, Operations, Procedures and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501, telephone 907-265-4271.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subparts F and G of Part 71 of the

Federal Aviation Regulations (14 CFR Part 71) is to alter the Iliamna, Alaska, control zone and transition area. The NPRM was published in the FEDERAL REGISTER on October 25, 1977 (42 FR 56340) and a corrected NPRM was published in the FEDERAL REGISTER on November 25, 1977 (42 FR 60164). The proposal resulted from a revision to the instrument approach procedure which was necessary due to the relocation of the Iliamna NDB. Interested persons were given the opportunity to comment on the proposal. The two comments received concurred with the proposal.

#### DRAFTING INFORMATION

The principal authors of this document are John Costello, Air Traffic Division, and Donald H. Boberick, Esq., Regional Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subparts F and G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 355 and 440) are amended, effective 0901 G.m.t., March 23, 1978, as follows:

1. In § 71.171 (42 FR 355) the Iliamna, Alaska, control zone is amended to read as follows:

#### ILIAMNA, ALASKA

Within a 5-mile radius of the Iliamna airport (latitude 59°45'12" N., longitude 154°54'54" W.); and within 2.5 miles each side of the 189° bearing from the Iliamna NDB, extending from the 5-mile radius zone to 9.5 miles south of the NDB. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the U.S. Government Flight Information Publication, Supplement Alaska.

2. In § 71.181 (42 FR the Iliamna, Alaska, transition area is amended to read as follows:

#### ILIAMNA, ALASKA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Iliamna Airport (latitude 59°45'12" N., longitude 154°54'54" W.); and within 2.5 miles each side of the 189° bearing from the Iliamna NDB, extending from the 5-mile radius area to 9.5 miles south of the NDB; and that airspace extending upward from 1,200 feet above the surface within 4.5 miles west and 9.5 miles east of the Iliamna NDB 189° bearing from the Iliamna NDB, extending from the NDB to 18.5 miles south of the NDB.

This amendment is made under the authority of § 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); § 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.

NOTE.—The Federal Aviation Administration has determined that this document

## RULES AND REGULATIONS

does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Anchorage, Alaska, on January 13, 1978.

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area: Dumas, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This designates a transition area at Dumas, Tex., to provide controlled airspace for aircraft executing newly established instrument approach procedures to the Dumas Municipal Airport utilizing the Dalhart VORTAC. Coincident with this action, the airport is changed from VFR to IFR.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

David Gonzalez, Airspace and Procedures Branch (ASW-536), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

#### SUPPLEMENTARY INFORMATION:

##### HISTORY

On November 21, 1977, a notice of proposed rule making was published in the FEDERAL REGISTER (42 FR 59759) stating that the Federal Aviation Administration proposed to designate the Dumas, Tex., transition area. Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received without objections. Except for editorial changes this amendment is that proposed in the notice.

##### THE RULE

This amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR 71) designates the Dumas, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument approach procedures to the Dumas Municipal Airport.

#### DRAFTING INFORMATION

The principal authors of this document are David Gonzalez, Airspace and Procedures Branch and Robert C. Nelson, Office of the Regional Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended effective 0901 G.m.t., March 23, 1978, as follows.

In Subpart G, 71.181 (43 FR 440), the following transition area is added:

#### DUMAS, TEX.

That airspace extending upward from 700 feet above the surface within a 6-statute-mile radius of the Dumas Municipal Airport (latitude 35°51'30" N., longitude 102°00'30" W.).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)), and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on January 13, 1978.

PAUL J. BAKER,  
Acting Director,  
Southwest Region.

#### [4910-13]

[Airspace Docket No. 77-SW-64]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area: Lampasas, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This alters the transition area at Lampasas, Tex., to provide additional controlled airspace for aircraft executing instrument approach procedures to the Lampasas Airport utilizing the newly established Lampasas VORTAC.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

David Gonzalez, Airspace and Procedures Branch (ASW-536), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

#### SUPPLEMENTARY INFORMATION:

#### HISTORY

On November 25, 1977, a notice of proposed rule making was published in the FEDERAL REGISTER (42 FR 60163) stating that the Federal Aviation Administration proposed to alter the Lampasas, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received without objections. Except for editorial changes this amendment is that proposed in the notice.

#### THE RULE

This amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR 71) alters the Lampasas, Tex., transition area. This action provides additional controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument approach procedures to the Lampasas Airport utilizing the newly established Lampasas VORTAC.

#### DRAFTING INFORMATION

The principal authors of this document are David Gonzalez, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 GMT, March 23, 1978, as follows:

In Subpart G, 71.181 (43 FR 440), the Lampasas, Tex., transition area is amended by adding the following:

"and within 1.5 miles either side of the 197°R from the Lampasas VORTAC (latitude 31°11'04" N., longitude 98°08'28" W.), extending from the five-mile radius to six miles north of the Lampasas Airport."

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on January 13, 1978.

PAUL J. BAKER,  
Acting Director,  
Southwest Region.

## RULES AND REGULATIONS

#### [4910-13]

[Airspace Docket No. 77-SO-54]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Federal Airways

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters V-5E by changing the Nashville, Tenn., 117° radial one degree to 116° and alters V-16N by changing the Hinch Mountain, Tenn., 301° radial three degrees to 304°. This action reduces two three-airway intersections to single intersections at both GRILL and MCMIN, improves traffic handling at these locations, and reduces chart clutter.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to realign V-5E to overlie the present MCMIN intersection and to realign V-16N to overlie the present GRILL intersection. The slight realignment of these alternate airways will improve traffic handling at GRILL and MCMIN intersections.

As a result of this action, the radials from four different navids will overlie GRILL and radials from five different navids will overlie MCMIN. Chart clutter will be reduced and flight planning made easier. Because this action merely realigns one radial three degrees and another radial one degree, it is a minor matter on which the public would have no particular desire to comment. Therefore, notice and public procedure are unnecessary.

#### DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) is amended, effective 0901 G.m.t., March 23, 1978, as follows:

1. In V-5 "including an east alternate via INT Chattanooga 332° and Nashville 117°

radials;" is deleted and "including an east alternate via INT Chattanooga 332° and Nashville 116° radials;" is substituted therefor.

2. In V-16 "Hinch Mountain; including a north alternate via INT Nashville 085° and Hinch Mountain 301° radials;" is deleted and "Hinch Mountain; including a north alternate via INT Nashville 085° and Hinch Mountain 304° radials;" is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 18, 1978.

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

#### PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Federal Airways and Jet Routes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: These amendments alter VOR Federal airways and a jet route identified as V-130, V-451 and J-79 in the northeastern United States. These actions improve air traffic efficiency by providing continuous preferential routing with charted radials, distance and minimum en route altitudes.

EFFECTIVE DATE: March 23, 1978.

#### SUPPLEMENTARY INFORMATION:

##### HISTORY

On December 8, 1977, the FAA proposed to amend Parts 71 and 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) to alter two Federal airways, one jet route and one area high route identified as V-130, V-451, J-79, and J-833R in the northeastern United States (42 FR 62017). Interest-

ed persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. We received four responses to the NPRM in which the commenters posed no objections to the proposal. Sections 71.123 and 75.100 were republished in the *FEDERAL REGISTER* on January 3, 1978 (43 FR 307 and 714) and amended (42 FR 60123).

#### THE RULE

These amendments to Subpart C of Part 71 and Subpart B of Part 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) realign V-130 from over Norwich, Conn., VOR to Martha's Vineyard VOR; realign and extend V-451 from over Whitman, Mass., VOR to Brunswick, Maine VOR; and extend J-79 from over Kennedy, N.Y., VOR to Bangor, Maine VOR. These amendments, with the exception of J-833R, are those proposed in the notice (42 FR 62017). A review of the area navigation route structure in the United States is presently being conducted which includes J-833R. Therefore, no action, if any, pertaining to J-833R will be taken until the study is completed.

#### DRAFTING INFORMATION

The principal authors of this document are Mr. Richard Huff, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 and Subpart B of Part 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) as republished (43 FR 307 and 714) and amended (42 FR 60123) are amended, effective 0901 G.m.t., March 23, 1978, as follows:

In § 71.123 V-130 "Martha's Vineyard, Mass.," is deleted and "INT Norwich 120° and Martha's Vineyard, Mass., 273° radials; Martha's Vineyard;" is substituted therefor.

In V-451 "Boston, Mass." is deleted and "INT Whitman 041° and Kennebunk, Maine, 181° radials; INT Kennebunk 181° and Brunswick, Maine, 211° radials; Brunswick;" is substituted therefor.

In § 75.100 Jet Route No. 79 "to Kennedy, N.Y." is deleted and "Kennedy, N.Y.; INT Kennedy 080° and Nantucket, Mass., 255° radials; INT Nantucket 255° and Hyannis, Mass., 205° radials; Hyannis; INT Hyannis 003° and Bangor, Maine, 206° radials; Bangor;" is substituted therefor.

(Secs. 307(a), 313(a) and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a) and 1510); Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

#### RULES AND REGULATIONS

Issued in Washington, D.C., on January 17, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

#### PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

#### Alteration of Federal Airways and Jet Routes

#### Correction

In FR Doc. 77-33915 appearing on page 60123 in the issue of Friday, November 25, 1977, in the middle column, under the paragraph entitled, "Adoption of the Amendment", paragraphs 4 and 6 should read as follows:

4. In V-51 all before "Ormond Beach, Fla.," is deleted and "From Biscayne Bay, Fla.; Miami, Fla.; INT Miami 337° and Pahokee, Fla., 174° radials; Pahokee, including an east alternate from Biscayne Bay, Ft. Lauderdale, Fla., INT Ft. Lauderdale 339° and Pahokee 124° radials, INT Pahokee 009° and Vero Beach, Fla., 193° radials, Vero Beach;" is substituted therefor.

6. In V-267 all before "INT Palm Beach" is deleted and "From Biscayne Bay, Fla., INT Biscayne Bay 340° and Pahokee, Fla., 150° radials; Pahokee; Orlando, Fla., including an east alternate from Biscayne Bay, INT Biscayne Bay 340° and Palm Beach, Fla., 201° radials; Palm Beach;" is substituted therefor.

(Airspace Docket No. 78-SO-3)

#### PART 73—SPECIAL USE AIRSPACE

#### Revocation of Restricted Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes restricted area R-2903C, Putnam, Fla. This action restores airspace for public use on the basis that Jacksonville terminal radar approach control facility (TRACON) can provide adequate air traffic control service within this area.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8525.

**SUPPLEMENTARY INFORMATION:** The purpose of this amendment to Part 73 of the Federal Aviation Regulations (14 CFR Part 73) is to revoke restricted area R-2903C, Putnam, Fla. The Navy has lost the land lease required for the utilization of R-2903C Putnam target area. R-2903C is of no value to the Navy without the use of underlying lands. Therefore, the Navy has agreed to the revocation of restricted area R-2903C and such action is taken herein.

#### DRAFTING INFORMATION

The principal authors of this document are Mr. Lewis W. Still, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart B of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) as republished (43 FR 674) is amended, effective 0901 G.m.t., March 23, 1978, as follows:

In § 73.29, "R-2903C, Putnam, Fla.," is revoked.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 19, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

(FR Doc. 78-2176 Filed 1-25-78; 8:45 am)

[4910-13]

(Docket No. 17555; Amdt. No. 1103)

#### SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

#### PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

#### Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAP's) for operations at cer-

tain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

**DATES:** An effective date for each SIAP is specified in the amendatory provisions.

**ADDRESSES:** Availability of matters incorporated by reference in the amendment is as follows:

*For Examination.*—1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

*For Purchase.*—Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

*By Subscription.*—Copies of all SIAP's, mailed once every 2 weeks, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The annual subscription price is \$135. **FOR FURTHER INFORMATION CONTACT:**

William L. Bersch, Flight Procedures and Airspace Branch (AFS-730), Aircraft Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8277.

**SUPPLEMENTARY INFORMATION:** This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAP's). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. § 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FAR's). The applicable FAA forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAP's, their complex nature, and the need for a

special format make their verbatim publication in the *FEDERAL REGISTER* expensive and impractical. Further, airmen do not use the regulatory text of the SIAP's but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAP's. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAP's which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDIC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAP's, an effective date at least 30 days after publication is provided.

Further, the SIAP's contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERP's). In developing these SIAP's, the TERP's criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAP's and safety in air commerce, I find that notice and public procedure before adopting these SIAP's is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAP's effective in less than 30 days.

The principal authors of this document are Rudolph L. Fioretti, Flight Standards Service, and Richard W. Danforth, Office of the Chief Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAP's identified as follows:

... effective March 23, 1978.

Dothan, AL—Dothan, VOR Rwy 13, Amdt. 1  
Dothan, AL—Dothan, VOR Rwy 18, Amdt. 1  
Dothan, AL—Dothan, VOR-A, Amdt. 8  
Wetumpka, AL—Wetumpka - Municipal, VOR-A, Original  
Olathe, KS—Johnson County Industrial, VOR-A, Original  
Alpena, MI—Phelps-Collins, VOR Rwy 36 (TAC), Amdt. 9  
Marlette, MI—Marlette, VOR/DME-A, Amdt. 1

... effective March 9, 1978.

Vernon, AL—Lamar County, VOR/DME-A, Amdt. 2  
Miami, FL—Opa Locka, VOR Rwy 9L, Amdt. 12  
Hopdale, MA—Hopdale-Draper, VOR-A, Amdt. 3  
Manistee, MI—Manistee County-Blacker, VOR Rwy 9, Amdt. 4  
Manistee, MI—Manistee County-Blacker, VOR Rwy 27, Amdt. 4  
Plymouth, MI—Mettrall, VOR-A, Amdt. 3  
Reed City, MI—Miller Field, VOR Rwy 17, Amdt. 4  
Minneapolis, MN—Minneapolis-St. Paul Intl Wold-Chamberlain, RNAV Rwy 29R, Amdt. 3  
St. Louis, MO—Spirit of St. Louis, VOR Rwy 7, Amdt. 1  
Sidney, NE—Sidney Muni, VOR Rwy 12, Amdt. 3  
Socorro, NM—Socorro Municipal, VOR/DME-A, Original  
Alliance, OH—Miller, VOR-A, Amdt. 4  
Fremont, OH—Progress Field, VOR Rwy 9, Amdt. 4  
Meadville, PA—Port Meadville, VOR Rwy 7, Amdt. 3  
San Juan, PR—Puerto Rico International, VOR Rwy 7 and 10, Amdt. 6  
San Juan, PR—Puerto Rico International, VOR Rwy 25, Amdt. 15  
North Kingstown, RI—Quonset State, VOR Rwy 34, Amdt. 1  
Kenmore, WA—Kenmore Air Harbor Seaplane Base, VOR-A, Amdt. 1  
Rock Springs, WY—Rock Springs-Sweetwater County, VOR/DME Rwy 7, Original

... effective February 9, 1978.

Youngstown, OH—Youngstown Municipal, VOR Rwy 18, Amdt. 13  
Newport (Middletown), RI—Newport State, VOR/DME Rwy 16, Amdt. 1  
Newport (Middletown), RI—Newport State, VOR Rwy 16, Amdt. 1  
Pawtucket, RI—North Central State, VOR-A, Amdt. 2  
Providence, RI—Theodore Francis Green State, VOR/DME Rwy 16, Amdt. 1  
Providence, RI—Theodore Francis Green State, VOR/DME Rwy 23L, Amdt. 3  
Providence, RI—Theodore Francis Green State, VOR Rwy 5L and 5R, Amdt. 9

... effective January 26, 1978.

Sault Ste. Marie, MI—Chippewa County International, VOR-A, Original

2. By amending § 97.25 SDF-LOC-LDA SIAP's identified as follows:

... effective March 23, 1978.

Dothan, AL—Dothan, LOC (BC) Rwy 13, Amdt. 2

... effective March 9, 1978

St. Paul, MN—St. Paul Downtown Holman Field, LOC Rwy 30, Amdt. 7

St. Louis, MO—Spirit of St. Louis, LOC BC Rwy 25, Amdt. 2  
 Binghamton, NY—Broome County, LOC Rwy 16, Amdt. 1  
 San Juan, PR—Puerto Rico International, LOC (BC) Rwy 25, Amdt. 6  
 Pierre, SD—Pierre Municipal, LOC BC Rwy 13, Amdt. 3

\*\*\* effective February 9, 1978.

Youngstown, OH—Youngstown Municipal, LOC Rwy 14, Amdt. 1

\*\*\* effective January 26, 1978.

Hoquiam, WA—Bowerman Field, LOC Rwy 24, Original

3. By amending §97.27 NDB/ADF SIAP's identified as follows:

\*\*\* effective March 23, 1978.

Independence, KS—Independence Muni, NDB Rwy 35, Amdt. 6

Alpena, MI—Phelps-Collins, NDB Rwy 36, Amdt. 2

Kaiser/Lake Ozark, MO—Lee C. Fine Memorial, NDB Rwy 21, Amdt. 2

Lebanon, MO—Floyd W. Jones Lebanon, NDB Rwy 36, Amdt. 2

\*\*\* effective March 9, 1978.

Wilmington, DE—Greater Wilmington, NDB Rwy 1, Amdt. 12

Casey, IL—Casey Municipal, NDB Rwy 4, Amdt. 1

Freeport, IL—The Alvertus, NDB Rwy 24, Amdt. 6

6. By amending §97.33 RNAV SIAP's identified as follows:

\*\*\* effective March 9, 1978.

Albany, GA—Albany-Dougherty County, RNAV Rwy 34, Original

Celina, OH—Lakefield, RNAV Rwy 26, Original

San Juan, PR—Puerto Rico International, RNAV Rwy 10, Amdt. 5

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. §§1348, 1354(a), 1421, and 1510); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Delegation: 25 FR 8489 and Paragraph 802 of Order FS P 1100.1, as amended March 9, 1973.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 20, 1978.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on May 12, 1969.

JAMES M. VINES,

Chief,

Aircraft Programs Division.

[FR Doc. 78-2189 Filed 1-25-78; 8:45 am]

## [8010-01]

## Title 17—Commodity and Securities Exchanges

## CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. IC-10098]

## PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

## Delegation of Authority to Director of Division of Investment Management

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: This rule amendment delegates authority to the Director of the Division of Investment Management to notify registered management investment companies that the Commission intends to disclose, in response to requests therefor under the Freedom of Information Act, certain information contained in Part II of their annual report form classified as non-public.

EFFECTIVE DATE: January 17, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard W. Grant, Esq., Division of Investment Management, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202-755-0242.

SUPPLEMENTARY INFORMATION: Instruction F of the general instructions for completing Form N-1R (17 CFR 274.101) the annual report for registered management investment companies under the Investment Company Act of 1940 (15 U.S.C. 80a-1 et seq.) states in part:

F. Non-public classification of Part II of Report. If the registrant desires to have Part II of this report, including the Part II EDP Attachment, classified by the Commission as a nonpublic filing, it shall bind Part II separately from Part I and shall sign Part II separately in the form prescribed therefor. Such nonpublic classification by the Commission shall not preclude the Commission, if it should deem public disclosure necessary or appropriate in the public interest or for the protection of investors, from making public all or any portion of the information contained in Part II. . . . To provide an affected registrant an opportunity to state to the Commission any objections it might have to the public disclosure of any information contained in Part II, unless such information is then a requirement of an existing rule or form requiring public disclosure or unless a proceeding has been commenced before the Commission or a court, the Commission shall notify such registrant in writing of its intention to make or require public disclosure thereof not less than five business days prior to the date of such public disclosure.

The Commission has received requests under the Freedom of Information Act (15 U.S.C. 552) for disclosure of the information in Part II of the re-

ports on Form N-1R of a number of investment companies and has issued notifications to such investment companies as called for by general instruction F above declaring an intention to disclose the information in Part II, except for Item 2.28 thereof. The Commission believes that other similar requests may be filed in the future and that it is not necessary for the Commission to authorize the sending of notifications in each individual instance. Accordingly, the Commission believes it is appropriate to delegate authority to issue such notifications to the Director.

To accomplish this delegation of authority, the Commission hereby amends 17 CFR 200.30-5 by revising paragraph (a)(6) as follows:

§ 200.30-5 Delegation of authority to Director of Division of Investment Management.

(a) . . . .

(6) (i) To authorize the issuance of orders granting confidential treatment pursuant to section 45(a) of the Act (15 U.S.C. 80a-44(a)) where applications for confidential treatment are made regarding matters of disclosure in registration statements filed pursuant to section 8 of the Act (15 U.S.C. 80a-8), or in reports filed pursuant to section 30 of the Act (15 U.S.C. 80a-29), but only when the Commission has previously by order granted confidential treatment to the same information.

(ii) To notify an investment company of an intention to make or require public disclosure of Part II of any annual report on Form N-1R filed by such investment company (except for responses required by Item 2.28 thereof) if the Commission has received a request for disclosure thereof pursuant to the Freedom of Information Act (5 U.S.C. 552).

((15 U.S.C. 80a-44); (15 U.S.C. 78d-1, 78d-2).)

. . . .

The Commission finds that the foregoing action relates solely to agency management and personnel and, accordingly, that notice and prior publication for comment under the Administrative Procedure Act (5 U.S.C. 552 et seq.) are unnecessary.

Rule 45a-1 under the Investment Company Act of 1940 (17 CFR 270.45a-1) provides that the information contained in Item 2.28 of Part II cannot be disclosed without a hearing first being held. That item requires registrants to "(s)et forth, in order of size, for the fiscal year, the 10 dealers, by name, who sold the largest dollar amount of shares of the registrant."

By the Commission.

GEORGE A. FITZSIMMONS,  
 Secretary.

JANUARY 19, 1978.

## SUBCHAPTER F—REGULATIONS UNDER THE NATURAL GAS ACT

## PART 201—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR NATURAL GAS COMPANIES SUBJECT TO THE PROVISIONS OF THE NATURAL GAS ACT (CLASS A AND CLASS B)

## PART 204—UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES (CLASS C AND CLASS D)

## PART 260—STATEMENTS AND REPORTS (SCHEDULES)

## Clarifying Order

AGENCY: Federal Energy Regulatory Commission.

ACTION: Order Clarifying Order Nos. 561 and 561-A.

SUMMARY: The Commission is clarifying only those parts of Order Nos. 561 and 561-A which require the relocation of the allowance for borrowed funds used during construction ("ABFUDC") from its prior location as a credit of the "other income" section of public utilities' income statement to a new location as a credit to the "interest charges" section of the income statement. Several parties to this proceeding petitioned for clarification of whether the Commission intended that the location as described previously would preclude petitioners and other utilities from including ABFUDC in determining earnings available for fixed charges and preferred stock dividend requirements for charter and indenture test purposes. The Commission held that Orders 561 and 561-A do not prevent a public utility from continuing to include

ABFUDC in determining its earnings available for fixed charges and preferred stock dividend requirements for charter and indenture coverage test purposes.

EFFECTIVE DATE: January 20, 1978.  
 FOR FURTHER INFORMATION CONTACT:

L. H. Drennan, Jr., Chief Accountant, Office of Chief Accountant, 202-275-4031.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a) (1) and (2) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —: Provided, That this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On September 19, 1977, Jersey Central Power and Light Co., Metropolitan Edison Co., New England Power Co., Pacific Power and Light Co. and Pennsylvania Electric Co. (collectively referred to as "petitioners") filed with the Commission a petition for clarification of certain parts of Order Nos. 561 and 561-A. The Petitioners state

"The 'Commission' when used in the context of an action taken prior to October 1, 1977, refers to the Federal Power Commission when used otherwise, the reference is to the Federal Energy Regulatory Commission."

"Order Adopting Amendment to Uniform System of Accounts for Public Utilities and Licensees and for Natural Gas Companies, Order No. 561, Docket No. RM75-27, issued February 2, 1977."

"Order Denying Applications for Rehearing and Clarifying Prior Order No. 561-A, Docket No. RM75-27, issued August 1, 1977."

that they seek clarification of only those parts of Order Nos. 561 and 561-A which require the relocation of the allowance for borrowed funds used during construction ("ABFUDC") from its prior location as a credit of the "other income" section of petitioners' income statements to a new location as a credit to the "interest charges" section of the income statement. Specifically, petitioners urge clarification of whether the Commission intended that the relocation of ABFUDC as described above would preclude petitioners and other utilities from including ABFUDC in determining earnings for fixed charges and preferred dividend requirements for charter and indenture test purposes.

In support of their position that ABFUDC is properly includable in earnings available for fixed charges for corporate charter coverage test purposes, petitioners put forth several arguments, the most important of which are:

(1) That ABFUDC, like AOFUDC (Allowance of Other Funds Used During Construction), is compensation earned during the construction period (in the form of additions of Construction Work in Progress) but is not realized in cash (by way of a return on and return of such capital) until after the completed plant is placed in service;

(2) That including ABFUDC in earnings for coverage and indenture test purposes is consistent with the basic objective of the ratemaking process (i.e., to match costs and revenues); and,

(3) That certain language found in Order No. 561-A indicates that the Commission did not intend for ABFUDC to be precluded as a component in earnings available for fixed charges for corporate charter coverage test purposes.

The petitioners are correct in their belief that it was not the intent of the Commission in its Order No. 561 to prevent a public utility from continuing to include ABFUDC in determining its earnings available for fixed charges and preferred stock dividend requirements for charter and indenture coverage test purposes. The purpose of repositioning ABFUDC was, as stated in Order No. 561, "to better inform readers of financial statements of utilities as to the nature and level of the capitalized allowance for funds". In making this change it was not this Commission's intention to influence or interpret the rights of par-

\*Furthermore, the change in the location for the income statement for allowance for interest capitalized does not in itself change either the nature of the item of the degrees of protection afforded security holders by earnings of a utility", Order No. 561-A, *supra*, page six.

ties under existing indenture agreements and corporate charters.

The Commission finds: Good cause exists to grant the petition for clarification and for clarifying Order Nos. 561 and 561-A as hereinafter discussed.

The Commission orders: (A) The petition for clarification filed by Jersey Central Power Company, Metropolitan Edison Co., New England Power Co., Pacific Power & Light Co. and Pennsylvania Electric Co., is hereby granted and the Order Nos. 561 and 561-A issued February 2, 1977 and August 1, 1977, respectively, are clarified as set forth above.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

(FR Doc. 78-2238 Filed 1-25-78; 8:45 am)

#### [4910-22]

##### Title 23—Highways

#### CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

##### SUBCHAPTER D—NATIONAL HIGHWAY INSTITUTE

#### PART 260—EDUCATION AND TRAINING PROGRAMS

##### Fellowship and Scholarship Grants; Revision

AGENCY: Federal Highway Administration, DOT.

ACTION: Final rule.

SUMMARY: This document revises the fellowship and scholarship programs in order to provide greater program flexibility. Specific details for individual programs will continue to be described by annual FHWA Notices.

EFFECTIVE DATE: January 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Roger L. Dean, University and Industry Programs Officer, National Highway Institute, 202-426-9143; or Roberta D. Gabel, Attorney, Office of Chief Counsel, 202-426-0790; Federal Highway Administration, 400 Seventh Street SW., Washington, D.C. 20590. Office hours are 7:45 a.m. to 4:15 p.m. ET, Monday-Friday.

SUPPLEMENTARY INFORMATION: On October 6, 1976, regulations establishing policy and eligibility requirements and selection criteria for certain FHWA programs administered by the National Highway Institute were published at 41 FR 44034. These regulations provided for an annual FHWA Notice announcing the programs scheduled for each year. The revised regulations published herein continue to describe the eligibility requirements and selection process for these programs, but in order to establish maximum program flexibility, provide only criteria relative to all scholarship and fellowship programs. Specific guidance relative to individual programs will continue to be issued in the annual Notices.

This revision codifies the policies and procedures contained in the Federal-aid Highway Program Manual, Volume 3, Chapter 2, Section 1. Inasmuch as the matters affected relate to benefits or contracts within the purview of 5 U.S.C. 553(a)(2), general notice of proposed rulemaking is not required.

NOTE.—The Federal Highway Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and 11949 and OMB Circular A-107.

Issued: January 12, 1978.

L. P. LAMM,  
Executive Director.

In consideration of the foregoing, Subpart A of Part 260, Chapter I of Title 23 of the Code of Federal Regulations is revised to read as follows:

##### Subpart A—Fellowship and Scholarship Grants

Sec.  
260.101 Purpose.  
260.103 Definitions.  
260.105 Policy.  
260.107 Eligibility.  
260.109 Selection.  
260.111 Responsibilities of Educational Institutions.  
260.113 Responsibilities of Employing Agencies.  
260.115 Equal Opportunity.  
260.117 Application procedures.

AUTHORITY: 23 U.S.C. 307(a), 315, 321 and 403; and 49 CFR 1.48(b).

##### Subpart A—Fellowship and Scholarship Grants

##### § 260.101 Purpose.

To establish policy for the Federal Highway Administration (FHWA) Fellowship and Scholarship Programs as administered by the National Highway Institute (NHI).

##### § 260.103 Definitions.

As used in this regulation, the following definitions apply:

(a) *Candidate*. One who meets the eligibility criteria set forth in § 260.107, and who has completed and submitted the necessary forms and documents in order to be considered for selection for a fellowship or scholarship.

(b) *Direct Educational Expenses*. Those expenses directly related to at-

tending school including tuition, student fees, books, and expendable supplies but excluding travel expenses to and from the school.

(c) *Employing Agency*. The agency for which the candidate works. This may be either a State or local highway/transportation agency or the FHWA.

(d) *Fellowship*. The grant presented to the recipient's school and administered by the school to assist the candidate financially during the period of graduate study.

(e) *Living stipend*. The portion of the fellowship or scholarship grant remaining after the direct educational expenses have been deducted.

(f) *Local highway/transportation agency*. The agency or metropolitan planning organization with the responsibility for initiating and carrying forward a highway program or public transportation program utilizing highways at the local level, usually the city or county level.

(g) *National Highway Institute (NHI)*. The organization located within the FHWA responsible for the administration of the FHWA fellowship and scholarship grant programs.

(h) *Recipient*. The successful candidate receiving a fellowship or scholarship.

(i) *Scholarship*. The grant presented to the recipient's school and administered by the school to assist the candidate financially during the period of post-secondary study.

(j) *State highway/transportation agency*. The agency with the responsibility for initiating and carrying forward a highway program or public transportation program utilizing highways at the State level.

##### § 260.105 Policy.

It is the policy of the FHWA to administer, through the NHI, fellowship and scholarship grant programs to assist State and local agencies and the FHWA in developing the expertise needed for the implementation of their highway programs and to assist in the development of more effective transportation programs at all levels of government. These programs shall provide financial support for up to 12 months of full time or up to 24 months of part-time study in the field of highway transportation. The programs for each year shall be announced by FHWA notices. These notices shall contain an application form and shall announce the number of grants to be awarded and their value.

##### § 260.107 Eligibility.

(a) Prior recipients of FHWA scholarships or fellowships are eligible if

\*The Federal Highway Administration notices are available for inspection and copying as prescribed in 49 CFR Part 7, Appendix D.

they will have completed all specific work commitments before beginning study under the programs for which applications are made.

(b) Candidates for the fellowship program shall have earned bachelor's or comparable college-level degrees prior to beginning advanced studies under the program.

(c) Candidates shall submit evidence of acceptance, or probable acceptance, for study in programs that will enhance their contributions to their employers. Evidence of probable acceptance may be a letter from the department chairman or other school official.

(d) Candidates shall agree to pursue certain minimum study loads as determined by the FHWA and designated in the FHWA notices announcing the programs each year.

(e) FHWA employees who receive awards will be required to execute continued service agreements, consistent with the Government Employees Training Act requirements, which obligate the employees to continue to work for the agency for three times the duration of the training received.

(f) Candidates who are students or employees of State or local highway/transportation agencies shall agree in writing to work on a full-time basis in public service with State or local highway/transportation agencies for a specified period of time after completing study under the program. The FHWA notices announcing the programs each year shall specify the time period of the work commitment.

(g) Candidates shall agree to respond to brief questionnaires designed to assist the NHI in program evaluation both during and following the study period.

(h) Recipients of awards for full-time study shall agree to limit their part-time employment as stipulated in the FHWA notice announcing the programs.

(i) Candidates shall not profit financially from FHWA grants. Where acceptance of the living stipend portion of the grant would result in a profit to the candidate, as determined by comparing the candidate's regular full-time salary with the candidate's part-time salary and employer salary support plus living stipend, the grant amount will be reduced accordingly. In cases where a candidate must relocate and maintain two households, exceptions to this condition will be considered.

(j) Candidates shall be citizens, or shall declare their intent to become citizens of the United States.

##### § 260.109 Selection.

(a) Candidates shall be rated by a selection panel appointed by the Director of the NHI. Members of the panel shall represent the highway transpor-

tation interests of government, industry, and the academic community. The factors considered by the selection panel are weighed in accordance with specific program objectives.

(b) The major factors to be considered by the panel are:

(1) Candidate's potential to contribute to a public agency's highway transportation program.

(2) Relevance of a candidate's study program to the objectives of the fellowship or scholarship program.

(3) Relevant experience, and

(4) Academic and professional achievements.

(c) Using ratings given by the selection panel, the Director of the NHI shall select candidates for awards and designate alternates.

(d) The FHWA may designate in the FHWA notices announcing the programs the maximum number of awards that will be made to employees of any one agency.

##### § 260.111 Responsibilities of educational institutions.

(a) The college or university chosen by the grant recipient shall enter into an appropriate agreement with the FHWA providing for the administration of the grant by the college or university.

(b) The college or university chosen by the recipient shall designate a faculty advisor prior to the commitment of funds by the FHWA. The faculty advisor will be requested to submit reports of the recipient's study progress following completion of each study period. These reports are oriented toward total program evaluation. To assure the recipient's rights to privacy, the FHWA will obtain appropriate advance concurrence from the recipient.

##### § 260.113 Responsibilities of employing agencies.

(a) A candidate's employing agency is responsible for furnishing a statement of endorsement and information concerning the relevancy of the candidate's study to agency requirements. The agency is encouraged to identify educational and training priorities and to provide backup to support its priority candidates for these programs.

(b) Employing agencies are encouraged to give favorable consideration to the requests of candidates for educational leave and salary support for the study period to facilitate the candidates' applications. Agency decisions involving salary support and educational leave that will affect the acceptance of awards by recipients should be made at the earliest possible date to provide adequate time for the FHWA to select alternates to replace candidates that decline their awards.

(c) Agencies are responsible for negotiations with their candidates concerning conditions of reinstatement

and the candidates' commitments to return to work.

(d) Employing agencies are encouraged to publicize the availability of these grants throughout the agencies, to implement procedures for internal evaluation of applications, and to forward the applications to the FHWA division office in their State.

(e) Employing agencies that choose to process their employees' applications are responsible for observing the cutoff date for the FHWA to receive applications. This date will be stipulated in the Notices announcing the program for each academic year.

#### § 260.115 Equal opportunity.

(a) Consistent with the provisions of the Civil Rights Act of 1964 and Title VI, assurances executed by each State, 23 U.S.C. 324, and 29 U.S.C. 794, no applicant, including otherwise qualified handicapped individuals, shall on the grounds of race, color, religion, sex, national origin, or handicap, be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination under this program.

(b) In accordance with executive Order 11141, no individual shall be denied benefits of this program because of age.

(c) Agencies should make information on this program available to all eligible employees, including otherwise qualified handicapped individuals, so as to assure nondiscrimination on the grounds of race, color, religion, sex, national origin, age, or handicap.

#### § 260.117 Application procedures.

(a) The FHWA notices announcing each year's programs and containing the application form may be obtained from FHWA regional and division offices, State highway agencies, metropolitan planning organizations, Governors' highway safety representatives, Urban Mass Transportation Administration regional directors, major transit authorities and from colleges and universities. Forms may also be obtained from the NHI, HHI-3, FHWA, Washington, D.C. 20590.

(b) In order to become a candidate, the applicant shall complete and forward the application form according to the instructions in the FHWA notice announcing the programs. The cutoff date for submitting the application stipulated in the notices should be observed.

##### Title 32—National Defense

#### CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

##### SUBCHAPTER M—MISCELLANEOUS (DOD Directive 3224.1)

#### PART 192—ENGINEERING FOR TRANSPORTABILITY

AGENCY: Office of the Secretary of Defense, DOD.

ACTION: Final rule.

SUMMARY: This rule revises and updates Department of Defense policy and responsibilities for assuring that items of materiel, equipment, and transportation systems are so designed, engineered, modified, and constructed that the required quantities can be efficiently moved by available means of transportation.

EFFECTIVE DATE: November 29, 1977.

FOR FURTHER INFORMATION CONTACT:

Lt. Col. Terry E. Harris, Containerization Systems Standardization Coordination Group, Office of the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics), the Pentagon, Washington, D.C. 20301, telephone 202-697-0595.

SUPPLEMENTARY INFORMATION: In FR Doc. 68-11157 published in the FEDERAL REGISTER on September 14, 1968 (33 FR 13015), the Office of the Secretary of Defense published this rule to ensure uniform policies and procedures regarding transportability systems within the Department of Defense. This Part revises and elaborates certain aspects, that is design; impact of international standardization of intermodal containerization; shelters and special purpose vans.

Accordingly, Part 192 reads as follows:

- Sec.  
192.1 Reissuance and purpose.  
192.2 Applicability.  
192.3 Explanation of terms.  
192.4 Policy.  
192.5 Responsibilities.

AUTHORITY: 5 U.S.C. 301.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives, Washington Headquarters Services, Department  
of Defense.

JANUARY 23, 1978.

#### § 192.1 Reissuance and purpose.

This Part reissues 32 CFR 192 to provide policy guidance and assign responsibilities for assuring that items of materiel, equipment and transportation systems are so designed, engineered, modified, and constructed that

the required quantities can be efficiently moved by available means of transportation.

#### § 192.2 Applicability.

The provisions of this Part apply to the Office of the Secretary of Defense, the Military Departments, and the Defense Logistics Agency (DLA) (hereafter referred to as "DOD Components"). The term "Military Services" as used herein refers to the Army, Navy, Air Force and the Marine Corps.

#### § 192.3 Explanation of terms.

As used herein, the following definitions apply:

(a) *Engineering for Transportability* is the performance of those functions required in identifying and measuring the limiting criteria and characteristics of transportation systems; and the integration of these data into the design of materiel to utilize operational and planned transportation capability effectively. Limiting criteria and characteristics will include those created by standard unitizing method (pallets, containers). Transportability engineering criteria will thus consider modularity to improve cube utilization and dimensional standardization for military cargo as well as maximum dimensions and total weight.

(b) *Transportability* means the inherent capability of materiel to be moved by towing, by self-propulsion, or by carrier via railways, highways, waterways, pipelines, oceans and airways.

#### § 192.4 Policy.

(a) Transportability shall be a major consideration in:

(1) Formulating the priority of characteristics to be considered in the design of any new or modified item of materiel, or adoption of a commercial nondevelopmental item.

(2) Modifying existing transportation systems, and

(3) Developing integrated logistics support for systems and equipment in accordance with DOD Directive 4100.35<sup>1</sup>

(b) When planning and designing new or modified materiel, transportability criteria for all possible modes of transportation to be employed shall be considered in order to assure that items are so designed and constructed that they can be efficiently moved by available means of transportation.

(c) Equipment to be developed or procured will be designed so that its outside dimensions and gross weight (axle loads for vehicles) will permit handling, movement, and transfer

<sup>1</sup> Filed as part of original. Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, Pa. 19120 Attention: Code 301.

among the various transportation systems that are expected to be available during its operating life.

(d) Only in exceptional cases may equipment be designed which will require special or unique arrangement of schedules, right-of-ways, clearances, or other operating conditions. In addition, equipment may be designed to the capabilities of a specific mode of transportation only when it has been determined that more restrictive modes will not be used or that such design is necessary to meet required capabilities.

(e) During the design, development, or modification of equipment which is large, bulky, heavy, or sensitive to shock and vibration, full consideration will be given to transportation, handling, tiedown, and slinging points, to disassembly capability for transportation purposes, ease of onsite reassembly for use, and safety during transportation. Self-propulsion will also be considered in the design where applicable and necessary.

(f) Transportability design will specifically consider the impact of international standardization of intermodal containerization in standardizing and facilitating worldwide distribution.

(1) *Intermodal Containerization*. International container systems are designed to International Standards Organization (ISO) dimensional, strength and lift specifications as prescribed by DOD Instruction 4500.37. Accordingly, cargo and equipment packaging considerations must take mode of transportation into account. Design considerations should include standardizing small containers, inserts or other unit loads, which are modular to the interior dimensions of the containers to optimize cube utilization.

(2) *Shelters and Special Purpose Vans*. Specific emphasis will be placed on the design or modification of shelters and special purpose vans to ensure that they conform to International Standards Organization (ISO) dimensional, and strength specifications as directed in DOD Instruction 4500.37, as well as emphasis on the packaging and design/redesign of equipment for use within such shelters/special purpose vans.

#### § 192.5 Responsibilities.

(a) The Secretaries of the Army, Navy, and Air Force shall designate, within existing manpower ceilings, an operating agency at an appropriate level within their respective Departments which will be responsible for:

(1) Issuing, under the sponsorship of the Secretary of the Army, Joint Army, Navy, Air Force and Marine Corps, regulations implementing this Part for uniform use by all DOD Components.

(2) Issuing, under the sponsorship of the appropriate Military Department (see DOD Directives 5160.2, 5160.10, and 5160.53), joint transportability criteria covering (i) modes of transportation and terminals, and (ii) pertinent characteristics of transportation equipment.

(3) Ensuring that the transportability of new materiel is determined by analysis or testing during the Research, Development, Test and Evaluation (RDT&E) programs or prior to procurement for commercial nondevelopment materiel and documenting test results for transportability guidance.

(4) Issuing, under the sponsorship of the appropriate Military Department, joint transportability guidance for materiel for which each Military Department has prime responsibility.

(5) Ensuring that joint Military Service coordination is effected prior to modification of a transportation system which may affect the transportability requirements of another Military Service.

(b) The Secretary of the Navy shall be responsible for (1) coordinating DOD transportability interests in common-user ship construction and modification programs with appropriate Federal agencies, and (2) integrating the foreseen needs of the DOD Components into these programs.

(c) The Secretary of the Air Force shall be responsible for (1) coordinating DOD transportability interests in common-user aircraft construction and modification programs with appropriate Federal agencies, and (2) integrating the foreseen needs of the DOD Components into these programs.

(d) The Secretary of the Army shall be responsible for (1) coordinating DOD transportability interests in common-user land transportation programs with Federal and State agencies in the United States and with appropriate agencies overseas, and (2) integrating the foreseen needs of the DOD Components into these programs. (See 32 CFR 193 concerning coordination of highways for National Defense matters with Federal and State agencies.)

#### [4910-14]

##### Title 33—Navigation and Navigable Waters

#### CHAPTER 1—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 77-051]

#### PART 117—DRAWBRIDGE OPERATION REGULATIONS

Bayou Teche, La.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the regulations for the S-96 highway drawbridge across Bayou Teche at St. Martinville and the S-350 highway drawbridge across Bayou Teche at Parks to require at least 24 hours notice at all times. These changes are being made because of infrequent requests for openings of the draws of these bridges. This amendment also places all of the drawbridges over Bayou Teche, where constant attendance of draw tenders is not required, in one section for clarity. The first paragraph lists the bridges requiring 24 hours' advance notice and the second paragraph lists those requiring 48 hours' advance notice. The regulations requiring 48 hours' notice are the same as existing regulations and apply to the following bridges: S-31 bridge at Ruth; S-31 bridge at Breaux Bridge and the Southern Pacific bridge at Breaux Bridge.

EFFECTIVE DATE: This amendment is effective on February 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: On August 1, 1977, the Coast Guard published a proposed rule (42 FR 38919) concerning this amendment. The Commander (obr), Eighth Coast Guard District, also published these proposals as a Public Notice dated August 2, 1977. Interested persons were given until August 31, 1977 to submit comments.

DRAFTING INFORMATION: The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Edward J. Gill, Project Attorney, Office of the Chief Counsel.

#### DISCUSSION OF COMMENTS

One comment was received which requested that consideration be given to the fact that pleasure boats occasionally visit the state park above the bridges and enjoy the scenery along Bayou Teche. This was considered, however, the openings for these bridges were too infrequent to warrant other than the proposed change. The St. Martinville Bridge had five openings in 1975, 15 in 1976, and seven through July 1977. The Parks bridge had three in 1975, nine in 1976, and five through July 1977.

In consideration of the foregoing, Part 117 of Title 33 of the Code of Federal Regulations, is amended as follows:

# **PART 117—DRAWBRIDGE OPERATION REGULATIONS**

## **§ 117.540 [Amended]**

1. In § 117.540(b)(2), by deleting "Bayou Teche, mile 75.2, S-96 highway drawbridge at St. Martinville," and "Bayou Teche, mile 82.0, S-305 highway drawbridge at Parks," from the listing.

2. By revising § 117.245(j)(10) and deleting § 117.245(j)(11) to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

(j) . . . .

(10) Bayou Teche, La.

(i) S-96 highway drawbridge, mile 75.2, at St. Martinville, and S-350 highway drawbridge, mile 82.0, at Parks. The draws shall open on signal if at least 24 hours notice is given.

(ii) S-31 highway drawbridge, mile 87.5, at Ruth, S-31 highway drawbridge, mile 90.5, at Breaux Bridge, and Southern Pacific Railroad drawbridge (removable span), mile 91.0, at Breaux Bridge. The draws shall open on signal if at least 48 hours notice is given.

(11) [Deleted.]

(Sec. 5, 28 Stat. 362, as amended; sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499; 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: January 17, 1978.

O. W. SILER,  
Admiral, U.S. Coast Guard  
Commandant.

## **[4910-14]**

### **Title 46—Shipping**

# **CHAPTER 1—COAST GUARD, DEPARTMENT OF TRANSPORTATION**

[CGD 77-163]

## **PART 7—BOUNDARY LINES**

### **General Rule**

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard recently published boundary lines that are

## **RULES AND REGULATIONS**

used to ascertain the applicability of certain statutes. This document establishes a general rule for determining the boundary line when it is not specifically listed. The general rule was inadvertently omitted from the previous document.

EFFECTIVE DATE: This amendment is effective on January 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1477.

SUPPLEMENTARY INFORMATION: Since this amendment consists of an interpretive rule, it is excepted from the rulemaking requirements in 5 U.S.C. 553, and may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

### **DRAFTING INFORMATION**

The principal person involved in drafting this rule is: Lieutenant Edward J. Gill, Jr., Project Attorney, Office of the Chief Counsel.

### **DISCUSSION OF REGULATIONS**

When the Coast Guard published the boundary lines (42 FR 35793), a general rule for those areas without a boundary line was inadvertently not included. The general rule published in this document establishes a method of drawing a boundary line for those waters where there is no specific boundary line drawn. This method is the same method that was used prior to the publication of the boundary lines in July 1977. The general rule is clarified to indicate that the line may be drawn through more than one aid to navigation.

Accordingly Part 7 of Title 46 of the Code of Federal Regulations is amended by adding a new § 7.3 to read as follows:

§ 7.3 General rule for establishing boundary lines.

At all buoyed entrances from seaward to bays, sounds, rivers, or other estuaries for which specific lines are not described in this part, the waters inshore of a line approximately parallel with the general trend of the shore, drawn through the outermost buoy or buoys or other aid to navigation of any system of aids, are inland waters.

(Sec. 2, 28 Stat. 672, as amended (33 U.S.C. 151); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b).)

Dated: January 17, 1978.

O. W. SILER,  
Admiral, U.S. Coast Guard  
Commandant.

## **[6730-01]**

# **CHAPTER IV—FEDERAL MARITIME COMMISSION**

[General Order 39, Amdt. No. 1—Docket 77-22]

## **PART 507—ACTIONS TO ADJUST OR MEET CONDITIONS UNFAVORABLE TO SHIPPING IN THE FOREIGN TRADE OF THE UNITED STATES**

### **Summary Reports**

AGENCY: Federal Maritime Commission.

ACTION: Amendment to Final Rule.

SUMMARY: The Commission amends its regulations for summary reports of cargo carryings, to provide that the Equalization Fee imposed upon cargo transported by a favored carrier will be refunded if it is shown to the satisfaction of the Commission that the Government of Guatemala is waiving the imposition of the Decree 41-71 penalties on either all cargo carried by non-favored carriers or on the same class of cargo for which the refund is requested (commodity, container, etc.), carried by non-favored carriers.

EFFECTIVE DATE: January 13, 1978.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, Federal Maritime Commission, room 1101, 1100 L Street NW., Washington, D.C. 20573, 202-523-5725.

SUPPLEMENTAL INFORMATION: Subsequent to the publication of Part 507, but prior to the effective date of its implementation, the Government of Guatemala indicated that it may be willing to suspend the imposition of Decree 41-71 on selected classes of cargo pending repeal of that Decree on February 21, 1977. To the extent that any such waivers are granted, there is no need for the imposition of a countervailing or equalizing fee on such cargo, and the Commission has determined that § 507.4(d) of its regulations should be amended to permit refund of any such fee imposed on the same classes of cargo which are given waivers by the Government of Guatemala during the period in question.

The Commission finds that it would be contrary to the public interest to delay implementation of the foregoing amendment, since such delay would be detrimental to resolution of the conflict between the Government of the United States and the Government of Guatemala. Accordingly, this amendment will be effective on January 13, 1978.

Therefore, pursuant to section 19(1)(b) of the Merchant Marine Act, 1920 (46 U.S.C. 876(1)(b)) and sections

## **RULES AND REGULATIONS**

21, 29, 32, and 43 of the Shipping Act, 1916 (46 U.S.C. 820, 828, 831, and 841a), the Commission hereby amends 46 CFR 507.4(d) as follows:

§ 507.4 Summary reports of cargo carryings.

(d) If the reporting carrier wishes a refund of the Equalization Fee on any particular shipment, it must show, to the satisfaction of the Commission, that (1) the particular shipment is not receiving benefits under the Guatemalan industrial development laws of the Central American Agreement on Tax Incentives for Industrial Development, (2) the Government of Guatemala is waiving the imposition of Decree 41-71 penalties on all cargo carried by non-favored carriers, or (3) the Government of Guatemala is waiving the imposition of Decree 41-71 penalties on the same class of cargo for which the refund is requested (commodity, container, etc.), carried by nonfavored carriers.

By the Commission.

FRANCIS C. HURNEY,  
Secretary.

## **PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS**

## **PART 64—MISCELLANEOUS RULES RELATING TO COMMON CARRIERS**

### **Correction of Inadvertent Drafting Errors**

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The purpose of these amendments is to correct inadvertent drafting errors in the rules regarding applications of telephone common carrier for construction and/or operation of CATV channel facilities, and the furnishing of these facilities for CATV service to the viewing public. These amendments clarify interpretive notes to §§ 63.54 and 64.601.

EFFECTIVE DATE: February 27, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Roger J. Hertz, Tariff Division, Common Carrier Bureau, 202-632-7164.

In the Matter of amendment of §§ 63.54 and 64.601 of the rules and regulations.

Adopted: January 11, 1978.

Released: January 23, 1978.

By the Commission.

1. The Commission has under consideration §§ 63.54 and 64.601 of our rules. Section 63.54 deals with applications of telephone common carriers for authority to construct and/or operate CATV facilities in their service areas, and § 64.601 concerns the furnishing of facilities by telephone common carriers for CATV service to the viewing public. The purpose of the amendments we are adopting herein for these sections is to correct certain inadvertent drafting errors. Since our action herein merely clarifies interpretive notes to our rules, the prior notice provisions of 5 U.S.C. § 553 are inapplicable—See 5 U.S.C. § 553(b)(3)(A).

2. Note 2 of § 64.601 provides a definition of ownership for administrative purposes. However, it refers only to "paragraph (a) of this section." The language of Note 2 is patterned after similar language in Notes 4, 5, and 6 of § 73.35 of our rules concerning multiple ownership of broadcast stations. The language of these notes in effect when § 64.601 was adopted did not limit their applicability to any particular paragraph in § 73.35. Further, paragraph (c) of Note 2 to § 64.601 speaks in terms of "for purposes of this section" without any limitation to paragraph (a) of § 64.601. Finally, neither the Commission's report and order adopting the section, nor its order on reconsideration, provide any reason for not applying Note 2 to paragraph (b) of the section. We believe it evident that it was the Commission's intention that Note 2 apply to paragraph (b), since its application to only paragraph (a) would leave paragraph (b) without any definition of stockholder control despite an obvious need for some kind of definition for purposes of administration. We will therefore amend it to reflect accordingly.

3. Additionally, Note 2 to § 63.54 of the rules, adopted in the same order adopting § 64.601, is made applicable to the "above paragraphs of this section." Section 63.54 contains only one paragraph. Therefore, we will amend Note 2 to state its applicability "to this section."

4. Accordingly, it is ordered, Effective February 27, 1978, That §§ 63.54 and 64.601 of the Commission's rules and regulations are amended as set

<sup>1</sup>See below for current text of §§ 63.54 and 64.601.

<sup>2</sup>See 21 FCC 2d 307, at 329, 22 FCC 2d 746, at 751.

forth below. Authority for these amendments is contained in Sections 4(i) and 4(j) of the Communications Act of 1934, as amended, 47 U.S.C. § 154 (i) and (j).

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

For the Federal Communications Commission.

WILLIAM J. TRICARICO,  
Secretary.

Parts 63 and 64 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

1. In § 63.54, Note 2 is revised to read as follows:

§ 63.54 Applications of telephone common carrier for construction and/or operation of CATV channel facilities in their service areas.

Note 2: In applying the provisions of this section to the stockholders of a corporation which has more than 50 stockholders:

2. In § 64.601, Note 2, introductory paragraph, is revised to read as follows:

§ 64.601 Furnishing of facilities for CATV service to the viewing public.

(b) . . . .

Note 2: In applying the provision of this section to the stockholders of a corporation which has more than 50 stockholders:

Title 49—Transportation

## CHAPTER X—INTERSTATE COMMERCE COMMISSION

[Ex Parte No. MC-100 (Sub-No. 2)]

## REVISION OF PROCEDURES REQUIRING SERVICE OF APPLICATIONS ON STATE OFFICIALS

AGENCY: Interstate Commerce Commission.

ACTION: Final regulations.

**SUMMARY:** These rules eliminate the requirements for serving on State officials copies of applications for permanent motor carrier certificates and permits, applications to consolidate, merge, purchase, lease or control operating rights or properties of motor carriers, and applications for temporary authority to operate motor-carrier properties sought to be acquired under separately filed application under section 5 of the Interstate Commerce Act. They provide that simple FEDERAL REGISTER publication will serve as notice to State Public Utilities Commissions and that those States which need more detailed information in a given proceeding may obtain from the applicant, upon request, a copy of the application as filed with the Commission. This new procedure would expedite the application process (with attendant savings of expense), and also eliminate maintenance of needless records by State functionaries.

EFFECTIVE DATE: April 1, 1978

## FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, Assistant Deputy Director, Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423, 202-275-7292.

**SUPPLEMENTARY INFORMATION:** Upon petition by the National Association of Regulatory Utilities Commissioners (NARUC) and pursuant to Recommendation No. 29 of the Commission's Staff Task Force report (issued July 6, 1977), this proceeding was instituted on September 28, 1977, by notice of proposed rulemaking published in the FEDERAL REGISTER on October 4, 1977 (42 FR 53982-84) to revise the procedures for serving copies of applications on State officials.

## DISCUSSION AND CONCLUSIONS

Notice to the State is required in part by section 205(e) of the Interstate Commerce Act (49 U.S.C. 305(e)).

In accordance with rules prescribed by the Commission, reasonable notice shall be afforded, in connection with any proceeding under this part, to interested parties and to the board of any State, or to the Governor if there be no board, in which the motor-carrier operations involved in the proceeding are or are proposed to be conducted . . .

Additionally, section 5(2)(b) of the Act (49 U.S.C. 5(2)(b)) with regard to various consolidations and mergers:

... the Commission shall notify the Governor of each State in which any part of the properties of the carriers involved in the proposed transaction is situated . . . (and, in case carriers by motor vehicle are involved the persons specified in section 305(e)), and shall afford reasonable opportunity for interested parties to be heard.

The language of these provisions places with the Commission the discretion to determine what type of notice should be provided.

The Commission regulations have long provided that notice of applications will be published in the FEDERAL REGISTER and such publication is the only notice given to "interested parties". This procedure has been held to be sufficient to fulfill the requirements of the Act, *Buckner Trucking, Inc. v ICC*, 354 F. Supp. 1210, 1219 (S.D. Tex. 1973). Section 1508 of the Federal Register Act (44 U.S.C., ch. 15) also provides that FEDERAL REGISTER publication will be deemed notice to all "persons" residing in the States or the District of Columbia. Although State regulatory bodies are not included specifically within the purview of the Federal Register Act, notice which is deemed sufficient to parties which often have large pecuniary interests in these application proceedings, must also be deemed sufficient to the States which do not have comparable interest to protect. We generally agree with those parties which believe that adequate notice of the involved proceedings can be provided to the States through FEDERAL REGISTER publication alone.

Having determined that FEDERAL REGISTER publication is acceptable notice within the meaning of the Interstate Commerce Act, we must decide whether the States have any interest in these proceedings which requires greater protection than that afforded by such notice. The States' apparent lack of concern with this matter is demonstrated by their failure to participate. The bulk of the evidence we have of the States' opinions indicates that they have no substantial stake in maintenance of the existing rules or adoption of the proposed rules. Even those States which desired to continue to receive copies of the involved applications (Connecticut, for example) did not show any substantial or important use to which they are

put.\* On the other hand, the record indicates that many States have no desire to receive this material and either discard it immediately or must spend time and money to keep it on file. The record is replete with examples of the effort, time, and expense required of applicants in preparing copies of their applications. On balance, this cost to applicants has not been shown to be justified by concomitant benefits derived by the States from receipt of such material. However, we agree with the Public Utilities Commissioner of Oregon that some sort of mailed notice should be provided to the State of applicant's domicile or the State where its headquarters are located. This can be achieved with minimal cost and effort on the part of applicant by mailing to such State (1) for motor carrier operating rights, application a copy of the caption summary (49 CFR 1100.247(c)) which already is required to be submitted with such application, and (2) for finance applications, a copy of the FEDERAL REGISTER publication Notice [49 CFR 1100.240(b)].

Finally, if some States do have some substantial interest in obtaining copies of Commission applications which did not come to light here, such interest is protected adequately by the provision in the adopted rules for mailing by applicant of a copy of the application upon request by the States.\*

## CONCLUSION

We are convinced, on the basis of the comments received, that the revisions adopted in this proceeding will be of substantial benefit to applicants and State Public Utilities Commissions alike. Such rules are reasonable and necessary to effectuate the public interest and to promote effective administration of the Act.

Accordingly, 49 CFR 1130.1(b), 1134.1(b), 1134.6(b), and 1134.50(b) are amended to read as follows:

## SUBCHAPTER B—PRACTICE AND PROCEDURE

## PART 1130—APPLICATIONS FOR MOTOR CARRIER CERTIFICATES AND PERMITS

## § 1130.1 Applications.

(b) *Filing and service.* The verified original of each application shall be filed with this Commission, one true copy with the Regional Operations Director of the Bureau of Operations located in the region where applicant is domiciled and one copy shall be delivered,

\*States like Florida which use the applications can continue to receive them upon request.

\*With respect to this provision and to the mailing of notice to domiciliary States, we have given effect to the near unanimous opinion that first-class mail is adequate.

ered, upon written request, by first-class mail, to the Board, Commission, or official (or Governor if there is no Board, Commission, or official) having authority to regulate the business of transportation by motor vehicles, of each State in or through which applicant operates or proposes to operate. A caption summary of the application (as provided in § 1100.247(c) of this chapter) shall be delivered in the same manner to the appropriate Board or official of applicant's State of domicile.

## PART 1134—CONTROL OR CONSOLIDATION OF MOTOR CARRIERS OR THEIR PROPERTIES

## § 1134.1 Applications for authority to merge properties or franchises.

(b) The original of each application and five copies shall be filed with this Commission, one copy with each of the Regional Operations Directors of the Bureau of Operations in which the headquarters of the carriers are located and one copy shall be delivered, upon written request, by first-class mail, to the Board, Commission, or official (or to the Governor where there is no Board, Commission, or Official) having authority to regulate the business of transportation by motor vehicle in each State in which the carriers operate. A summary of the application (as provided in § 1100.240(b) of this chapter) shall be delivered in the same manner to the appropriate Board or official of the State in which the headquarters of the carriers are located.

## § 1134.6 Applications for approval of temporary operation.

(b) The original of each application and five copies shall be filed with this Commission, one copy with each of the Regional Operations Directors of the Bureau of Operations in which the headquarters of applicants are located, and one copy shall be delivered, upon written request, by first-class mail, to the Board, Commission, or Official (or to the Governor where there is no Board, Commission, or Official) having authority to regulate the business of transportation by motor vehicle in each State in which the applicants operate. A summary of the application (as provided in § 1100.240(b) of this chapter) shall be delivered in the same manner to the appropriate Board or official of the State in which the headquarters of applicants are located.

## § 1134.50 Application for authority to acquire control.

resource, and will provide additional recreation opportunity to the public.

DATES: See below.

## FOR FURTHER INFORMATION CONTACT:

Gerald L. Clawson, Refuge Manager, Mingo National Wildlife Refuge, Route 1, Box V, Puxico, Mo. 63960, 314-222-3589.

**SUPPLEMENTARY INFORMATION:** Hunting is permitted on the Mingo National Wildlife Refuge, Missouri, only on the areas designated by signs as being open to hunting. These areas comprising 6,500 acres are delineated on maps. Sport fishing is permitted on the Mingo National Wildlife Refuge, Missouri, only on the areas designated by signs as being open to fishing. These areas comprising 4,300 acres are delineated on maps. Maps for the above areas are available at the refuge headquarters and from the office of the Area Manager, United States Department of the Interior, Fish and Wildlife Service, Suite 106, Rockcreek Office Building, 2701 Rockcreek Parkway, North Kansas City, Mo. 64116.

§ 32.22 Special Regulations; Upland Game; for individual wildlife refuges. Squirrel hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. The open season for hunting squirrels on the refuge extends from opening date of Statewide season, August 1, 1978 through September 30, 1978.

2. Hunters must register when entering the refuge and record kill when leaving.

§ 32.32 Special Regulations; Big Game; for individual wildlife refuges.

Deer hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Hunting with bows and arrows only is permitted.

2. Hunters must register when entering and leaving the area.

3. Hunting from permanent tree stands (one that is connected to the tree by nails, screws, etc.) is prohibited.

§ 33.5 Special Regulations; Sport Fishing; for individual wildlife refuge areas.

Sport fishing shall be in accordance with all applicable State regulations subject to the following conditions:

1. Open Season: January 1, 1978 through March 14, 1978 in designated waters.

2. Open Season: March 15, 1978 through September 30, 1978 in all waters.

3. Open Season: October 1, 1978 through December 31, 1978 in designated waters.

## SUBCHAPTER A—GENERAL RULES AND REGULATIONS

## PART 1003 LIST OF FORMS

The application forms are modified as follows: The Certificate of Service, (found on page 5 of Form OP-OR-9, page 12 of Form OP-F-44, of Page 10 of Form OP-F-45 and page 3 of Form OP-F-46), is deleted to the extent it requires certification of delivery of a copy of such applications to appropriate State Boards. Instruction number 6 (found on page 13 of Form OP-F-44, page 11 of OP-F-45, and page 3 of OP-F-46) is modified by deleting from sentence 1 thereof the instructions following the words, "... the carriers involved in the application."

(49 U.S.C. 5, 304, 305; 5 U.S.C. 552, 553, 559.)

Dated: January 9, 1978.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

## [3510-22]

**CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE**

**PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS**

**Taking of Marine Mammals Incidental to Commercial Fishing Operations**

AGENCY: National Marine Fisheries Service.

ACTION: Final rule.

SUMMARY: The Assistant Administrator for Fisheries, National Marine Fisheries Service (NMFS), in consultation with the Department of State, finds that Bermuda is in substantial conformance with U.S. regulations governing the taking of marine mammals (i.e., porpoise) incidental to commercial fishing operations. In finding that this nation is not fishing in a manner proscribed for persons subject to the jurisdiction of the United States, the Assistant Administrator for Fisheries exempts this nation from the importation prohibition provisions affecting yellowfin tuna and tuna products.

EFFECTIVE DATE: January 20, 1977.  
FOR FURTHER INFORMATION CONTACT:

William P. Jensen, Marine Mammal Program Manager, Marine Mammal and Endangered Species Division, National Marine Fisheries Service, Washington, D.C. 20235, telephone 202-634-7461.

SUPPLEMENTARY INFORMATION: The NMFS published regulations in the FEDERAL REGISTER on December 23, 1977, 42 FR 64551-64560 governing the taking of marine mammals incidental

to commercial fishing operations. (50 CFR 216.24.) These regulations include provisions concerning the importation of yellowfin tuna and tuna products from nations known to be involved in the tuna purse seine fishery in the eastern tropical Pacific Ocean (ETP). Importation of certain yellowfin tuna and tuna products from these countries is contingent upon certain findings by the Assistant Administrator for Fisheries in accordance with § 216.24(e)(5).

Canada, Ecuador, Mexico, the Netherlands Antilles, Nicaragua and Panama previously supplied the NMFS with adequate information to indicate that their tuna purse seine operations in the ETP are in substantial conformance with U.S. regulations. Subsequently, the Assistant Administrator for Fisheries published in the FEDERAL REGISTER (42 FR 56617, October 21, 1977; 42 FR 64121, December 22, 1977; and 43 FR 1093, January 6, 1978) notice that yellowfin tuna and tuna products from those six nations are exempted from the importation prohibition provisions which would have affected them after December 31, 1977. Bermuda is hereby given a similar exemption.

This finding by the Assistant Administrator for Fisheries, made in accordance with § 216.24(e)(5)(i), exempts Bermuda from the import provisions concerning yellowfin tuna and tuna products listed in § 216.24(e)(2)(ii). However, the requirements listed in § 216.24(c)(4) will continue to apply. The Assistant Administrator considered all available information in making this finding. Information submitted by Bermuda is available to the public at the information contact address set out above, and is summarized in the following:

**BERMUDA**

(a) *Fleet.* Five Bermudian tuna purse seine vessels will operate in the ETP in 1978. Two of these vessels are small seiners not capable of intentionally setting on porpoise to catch tuna. Their annual tuna catch is largely comprised of skipjack tuna with yellowfin only represented incidentally. The three remaining vessels are capable of intentionally setting on porpoise and are equipped with porpoise release gear similar to that required on U.S. vessels.

The Bermudian operators are familiar with and regularly follow the porpoise release procedures required for U.S. vessel operators. The Bermudian government will allow observers (Bermudian or international) aboard the vessels upon request.

(b) *Porpoise mortality.* The Bermudian government estimated the 1977 total porpoise mortality among their three purse seiners to be 200 animals. This estimate was based on vessel log-

books and interviews with skippers. The government stated that this mortality level indicated a kill rate similar to that observed in the U.S. fleet in 1977.

The government further stated that this mortality would undoubtedly not be exceeded in 1978. This statement is based on the fact that 1977 was a poor year for schoolfish and Bermudian vessels did not have to compete with U.S. seiners for tuna associated with porpoise in the first part of the year. These facts indicate that 1977 may represent an abnormally high year for porpoise mortality by Bermudian vessels.

(c) *Miscellaneous.* The Bermudian government has secured agreements from the vessel owners that more detailed porpoise mortality logbooks will be maintained in 1978 and that observers may be placed aboard the vessels as mentioned above.

This finding will be subject to an annual review. NMFS will require an update of the items listed in § 216.24(e)(5)(ii) to ensure that the conditions which supported the original finding continue to exist.

NMFS will continue monitoring the status of the international tuna purse seine fleet operating in the ETP. Changes to the list of nations affected by the importation prohibitions of yellowfin tuna and tuna products under § 216.24(e)(5) will be published in the FEDERAL REGISTER.

Dated: January 20, 1978.

WINFRED H. MEIBOHM,  
Associate Director,  
National Marine Fisheries Service.  
[FR Doc. 78-2237 Filed 1-25-78; 8:45 am]

## [3510-22]

**CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE**

**PART 611—FOREIGN FISHING**

**Gear Conflict**

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Final amendment.

SUMMARY: This amendment to the foreign fishing regulations provides U.S. fishermen with an additional method for seeking redress when fixed gear has been damaged as a result of activities by foreign fishermen.

EFFECTIVE DATE: January 19, 1978.  
FOR FURTHER INFORMATION CONTACT:

Mr. Richard H. Schaefer, Chief, Fishery Management Operations Division, National Marine Fisheries

Service, Washington, D.C. 20235, telephone 202-634-7545.

SUPPLEMENTARY INFORMATION: On December 5, 1977, NOAA published an interim amendment to its regulations in order to provide a mechanism through compulsory arbitration by which U.S. fishermen can obtain fair and speedy reimbursement for documented gear losses caused by foreign fishing vessels operating inside the fishery conservation zone under permits issued by the United States. The amendment was effective immediately on an interim basis and comments were solicited prior to the publication of a final amendment.

On December 14, 1977, NOAA published a clarification of the interim final amendment but left the dates for implementation (December 9, 1977) and comment (December 29, 1977) set forth in the original publication the same. No comment which would require revision of the interim final amendment published on December 14, 1977, has been received. Accordingly, that amendment is adopted as a final amendment to the foreign fishing regulations.

Signed at Washington, D.C., this 19th day of January 1978.

WINFRED H. MEIBOHM,  
Associate Director, National  
Marine Fisheries Service.

Amend 50 CFR 611.11 by adding a new paragraph (d) as follows:

§ 611.11 Gear conflict.

(d) Claims concerning the loss of or damage to the fishing vessel, fishing gear or catch of a U.S. citizen which may have been caused by a foreign fishing vessel fishing pursuant to the Act may be resolved as follows:

(1) Claims involving loss or damage of property amounting to \$25,000 or less must be submitted to binding arbitration whenever demanded by the U.S. claimant or the owner or operator of the foreign fishing vessel which may have caused the loss or damage. If arbitration is demanded, both the U.S. claimant and the owner or opera-

tor of the foreign vessel, or their agent, must appear at the arbitration proceedings and be bound by the decision of the arbitrator.

(2) Claims involving loss or damage of property amounting to over \$25,000 must be submitted to binding arbitration whenever demanded by the U.S. claimant. If arbitration is demanded by the U.S. claimant, the owner or operator of the foreign vessel, or their agent, must appear at the arbitration proceedings and the parties will be bound by the decision of the arbitrator.

(3) A demand for arbitration must be made in writing to the other party. Any arbitration proceeding under this paragraph shall be conducted according to the Commercial Arbitration rules of the American Arbitration Association, and shall be conducted in the United States. The list from which arbitrators are selected will, whenever possible, include individuals with knowledge in fishery matters or admiralty law.

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Extension of time for filing exceptions.

SUMMARY: This notice extends the time for filing exceptions to the December 20, 1977, decision recommending a base-excess plan in 11 Southwest markets. Interested parties requested the additional time to complete their analysis of the decision.

DATE: Exceptions now are due on or before March 1, 1978.

ADDRESS: Exceptions (six copies) should be filed with the Hearing Clerk, Room 1077 South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Robert F. Groene, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-4824.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notices of Hearing: Issued February 11, 1977, published February 14, 1977 (42 FR 9674); issued March 3, 1977,

published March 8, 1977 (42 FR 13024); and issued March 25, 1977, published March 31, 1977 (42 FR 17130).

Extension of time for filing briefs: Issued May 18, 1977, published May 23, 1977 (42 FR 26217).

Recommended Decision: Issued December 20, 1977, published December 29, 1977 (42 FR 65088).

Notice is hereby given that the time for filing exceptions to the recommended decision, with respect to the proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the Texas and certain other marketing areas which was issued December 20, 1977 (42 FR 65088) is hereby extended to March 1, 1978.

This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 USC 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Signed at Washington, D.C., on January 20, 1978.

WILLIAM T. MANLEY,  
Deputy Administrator,  
Marketing Program Operations.

### FEDERAL ENERGY ADMINISTRATION

[10 CFR Parts 205 and 303]

#### ADMINISTRATIVE PROCEDURES AND SANCTIONS

##### Appeal From Interpretations

NOTE: A partial version of this document originally appeared in the FEDERAL REGISTER of Thursday, January 19, 1978. The complete document is printed below.

AGENCY: Department of Energy.

ACTION: Notice of Proposed Rule-making; correction.

SUMMARY: The Department of Energy ("DOE") hereby gives notice of a proposal to amend its petroleum

EDITORIAL NOTE: Chapter II will be renamed at a future date to reflect that it contains regulations administered by the Economic Regulatory Administration of the Department of Energy.

price and allocation procedural regulations to eliminate administrative appeal of formal interpretations issued by the Office of the General Counsel or Regional Counsels pursuant to 10 CFR Part 205, Subpart F, while preserving the right to seek modification or rescission of an interpretation at any time under Subpart F of Part 205. The DOE also proposes to revise the procedural regulations to permit applications for reconsideration of an interpretation to be submitted to the General Counsel of the DOE within thirty days of the issuance of the interpretation. A parallel change in the procedural regulations applicable to the coal program at 10 CFR Part 303, Subpart G, is also proposed.

DATE: Written comments by February 22, 1978, 4:30 p.m. e.s.t.

ADDRESS: Written comments to: Department of Energy, Office of Regulations Management, Room 2214, Box RG, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Deanna Williams (DOE Reading Room), 12th and Pennsylvania Avenue NW., Room 2107, Washington, D.C. 20461, 202-566-9161.

Charles Cope (Office of General Counsel), 12th and Pennsylvania Avenue NW., Room 1119, Washington, D.C. 20461, 202-566-9070.

SUPPLEMENTARY INFORMATION:

#### A. BACKGROUND

The procedures which govern the issuance of formal interpretations by the DOE General Counsel or Regional Counsels, relating to the petroleum price and allocation regulations, are found in 10 CFR Part 205, Subpart F. These procedures include a provision, § 205.86, permitting administrative appeals to be taken from such interpretations in accordance with the general administrative appeals provisions found in 10 CFR Part 205, Subpart H. In addition, modification or rescission of such an interpretation may be sought under Subpart F (§ 205.85(d)) or, based on changed circumstances, pursuant to the general administrative modification or rescission provisions in Subpart J or Part 205.

Parallel procedures applicable to formal interpretations issued by the General Counsel under the Coal Program are found in 10 CFR Part 303, Subpart G of Part 303 establishes the

procedures for issuance of such interpretations; Subpart H sets forth the procedures for administrative appeals generally, including appeals of interpretations issued under Subpart G; and Subpart K establishes the procedures for the filing of an application for modification or rescission of certain administrative actions including interpretations issued under Subpart G of Part 303.

Appeals of formal interpretations are heard at present by the Office of Administrative Review, Economic Regulatory Administration, DOE, the successor to the Office of Exceptions and Appeals, Federal Energy Administrative (FEA).

#### B. DISCUSSION

The DOE regards administrative appeal of formal interpretations unnecessary and inappropriate for the reasons outlined below. Therefore, it is proposed that such appeals be eliminated from DOE procedural regulations.

It appears inappropriate to permit internal appeal to an administrative appeals office concerning a matter which in most cases relates solely to a legal judgment rendered by the DOE's Office of the General Counsel concerning the meaning of DOE regulations. Allegations of error or omission in the factual basis of an interpretation, as well as allegations of error in law, may be reviewed by the General Counsel under existing interpretations procedures at any time §§ 205.85(d) and 303.95(d)). Administrative appeal as presently authorized under 10 CFR Part 205, Subpart H, and 10 CFR Part 303, Subpart G, is therefore inappropriate or unnecessary, or both.

It should be noted in this connection that no such administrative appeal of rulings (also issued by the General Counsel) is permitted under existing regulations. See §§ 205.154 and 303.154. DOE interpretations and rulings are both "interpretive rules" under the Administrative Procedures Act, 5 U.S.C. 551, et seq. A DOE ruling is an interpretation of general applicability whereas an interpretation under 10 CFR Part 205, Subpart F, or 10 CFR Part 303, Subpart G, is an interpretive rule of particular applicability. A ruling may affect the rights and interests of a particular firm as much as, or more than, a specific interpretation issued to that firm. The fundamental nature of a ruling—to provide a legal interpretation of what one or more DOE regulations mean in various contexts—is also the essence of DOE interpretations.

#### C. PROPOSED AMENDMENTS

The amendments proposed today would essentially delete various references to interpretations in DOE's appeals regulations (Subpart H of Part

205 and Subpart H of Part 303) and provide, as in the case of rulings, that no administrative appeal of an interpretation may be taken.

In addition, in order to provide appropriate flexibility with respect to the issuance of interpretations in the first instance and reconsideration of an interpretation in certain instances by the Office of General Counsel within the framework of interpretations procedures, it is proposed to amend the definition of "Interpretation" in §§ 205.2 and 303.2 to provide that an interpretation may be issued by the DOE General Counsel or his delegate. It is presently contemplated that the Assistant General Counsel for Interpretations will exercise this delegated authority in most cases. Confirming changes to §§ 205.80(a), 205.85(a), 303.90(a), and 303.95(a) are also proposed.

The proposed amendments also delete references to modification or rescission of interpretations in 10 CFR Part 205, Subpart J, and 10 CFR Part 303, Subpart K (i.e., applications for modification or rescission of an interpretation, based on significantly changed circumstances, filed with the Office of Administrative Review). DOE does not intend by this proposed change to bar such applications. Rather, it is intended that petitions for modification or rescission will be submitted to and reviewed by the Office of the General Counsel pursuant to the procedures set forth in §§ 205.85(d) and 303.95. In addition, DOE also proposes to add a new § 205.85(f) and § 303.95(f) to provide for the filing of a petition for reconsideration of an interpretation with the General Counsel of the DOE within 30 days of the date of service of that interpretation. Any petition for reconsideration of such an interpretation will be reviewed by the General Counsel and will only be considered if it is determined that a prima facie showing has been made that the interpretation was erroneous or was issued in an arbitrary or capricious manner. It should be emphasized that the reconsideration procedure is not the equivalent of an administrative appeal, but merely provides a mechanism to insure that no inadvertent errors are made which affect the validity of the interpretation.

#### D. WRITTEN COMMENT PROCEDURES

Interested persons are invited to participate in this rulemaking by submitting data, views, or arguments with respect to the proposals set forth in this notice to the Office of Regulations Management, Department of Energy. Comments should be identified on the outside envelope and on documents submitted to DOE Office of Regulations Management with the designation "Appeal of Interpretations," Box

RG. Fifteen copies should be submitted. All comments received by DOE will be available for public inspection in the DOE Reading Room, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The DOE reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

#### E. OTHER MATTERS

Since the proposed regulation is not a regulation affecting the quality of the environment, the provisions of section 7(a)(1) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, have been determined to be inapplicable to this proposal.

NOTE—It has also been determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Pursuant to section 404 of the DOE Organization Act, Pub. L. 95-91, these proposed regulations were referred to the Federal Energy Regulatory Commission.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-385; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385; E.O. 11790, 39 FR 23185; Department of Energy Organization Act, Pub. L. 95-91; E.O. 12009, 42 FR 46267.)

In consideration of the foregoing it is proposed to amend Parts 205 and 303 of Chapter II, Title 10 of the Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., January 20, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration,  
Department of Energy.

1. The definition of "Interpretation" in § 205.2 is amended to read as follows:

§ 205.2 Definitions.

"Interpretation" means a written statement issued by the General Counsel or his delegate or Regional Counsel, in response to a written request, that applies the regulations, rulings, and other precedents previously issued, to the particular facts of a prospective or completed act or transaction.

2. Section 205.80(a) is revised to read as follows:

V  
4  
3  
1  
8  
  
J  
A  
2  
6  
  
7  
8  
UMI

PROPOSED RULES

§ 205.80 Purpose and scope.

(a) This subpart establishes the procedures for the filing of a formal request for an interpretation and for the consideration of such request. Responses, which may include verbal or written responses to general inquiries or to other than formal written requests for interpretation filed with the General Counsel or his delegate or a Regional Counsel, are not interpretations and merely provide general information.

§ 205.82 [Amended]

3. In § 205.82 the words "or his delegate" are added after the words "General Counsel."

4. Section 205.85 is amended by revising paragraph (a) and by adding a new paragraph (f) to read as follows:

§ 205.85 Decision and effect.

(a) An interpretation may be issued after consideration of the request for interpretation and other relevant information received or obtained during the proceeding.

(f) (1) Any person aggrieved by an interpretation issued by the General Counsel or his delegate or by a Regional Counsel may submit a petition for reconsideration to the General Counsel within 30 days of service of the interpretation from which the reconsideration is sought. There has not been an exhaustion of administrative remedies until a period of 30 days from the date of service of the interpretation has elapsed without receipt by the General Counsel of a petition for reconsideration or, if a petition for reconsideration of the interpretation has been filed in a timely manner, until that petition has been acted on by the General Counsel.

(2) A petition for reconsideration may be summarily denied if—

(i) It is not filed in a timely manner, unless good cause is shown; or

(ii) It is defective on its face for failure to state, and to present facts and legal argument in support thereof, that the interpretation was erroneous in fact or in law, or that it was arbitrary or capricious.

(3) The General Counsel may deny any petition for reconsideration if the petitioner does not establish that—

(i) The petition was filed by a person aggrieved by an interpretation;

(ii) The interpretation was erroneous in fact or in law; or

(iii) The interpretation was arbitrary or capricious.

The denial of a petition shall be a final order of which the petitioner may seek judicial review.

5. Section 205.86 is revised to read as follows:

§ 205.86 Appeal.

There is no administrative appeal of an interpretation.

§§ 205.100 and 205.101 [Amended]

6. The words "or interpretation" and references to subpart F, are deleted wherever they appear in §§ 205.100 and 205.101.

§ 205.102 [Amended]

7. In § 205.102(a) the words "or an 'Appeal of Interpretation,'" are deleted.

§ 205.103 [Amended]

8. Section 205.103(c) is deleted in its entirety.

§ 205.105 [Amended]

9. The words "or interpretation" are deleted wherever they appear in § 205.105.

§ 205.107 [Amended]

10. In § 205.107(a) the words "or interpretation" are deleted.

§§ 205.130, 205.132, and 205.134 [Amended]

11. In §§ 205.130, 205.132(a), 205.132(b), and 205.134(a) the words "or interpretation" are deleted.

§ 205.135 [Amended]

12. In § 205.135(b) the words "or interpretation" are deleted wherever they appear.

13. The definition of "Interpretation" in § 303.2 is amended to read as follows:

§ 303.2 Definitions.

"Interpretation" means a written statement issued by the General Counsel or his delegate, in response to a written request, that applies the regulations, rulings, and other precedents previously issued, to the particular facts of a prospective or completed act or transaction.

14. Section 303.90(a) is revised to read as follows:

§ 303.90 Purpose and scope.

(a) This subpart establishes the procedures for the filing of a formal request for an interpretation and for the consideration of such request. Responses, which may include verbal or written responses, to general inquiries or to other than formal written requests for interpretation filed with the General Counsel or his delegate, are not interpretations and merely provide general information.

§ 303.92 [Amended]

15. In § 303.92, the words "or his delegate" are added after the words "General Counsel."

16. Section 303.95 is amended by revising paragraph (a) and by adding a new paragraph (f) to read as follows:

§ 303.95 Decision and effect.

(a) An interpretation may be issued after consideration of the request for interpretation and other relevant information received or obtained during the proceeding.

(f) (1) Any person aggrieved by an interpretation issued by the General Counsel or his delegate or by a Regional Counsel may submit a petition for reconsideration to the General Counsel within 30 days of service of the interpretation from which the reconsideration is sought. There has not been an exhaustion of administrative remedies until a period of 30 days from the date of service of the interpretation has elapsed without receipt by the General Counsel of a petition for reconsideration or, if a petition for reconsideration of the interpretation has been filed in a timely manner, until that petition has been acted on by the General Counsel.

(2) A petition for reconsideration may be summarily denied if—

(i) It is not filed in a timely manner, unless good cause is shown; or

(ii) It is defective on its face for failure to state, and to present facts and legal argument in support thereof, that the interpretation was erroneous in fact or in law, or that it was arbitrary or capricious.

(3) The General Counsel may deny any petition for reconsideration if the petitioner does not establish that—

(i) The petition was filed by a person aggrieved by an interpretation;

(ii) The interpretation was erroneous in fact or in law; or

(iii) The interpretation was arbitrary or capricious.

The denial of a petition shall be a final order of which the petitioner may seek judicial review.

17. Section 303.96 is revised to read as follows:

§ 303.96 Appeal.

There is no administrative appeal of an interpretation.

§§ 303.100 and 303.101 [Amended]

18. The words "or interpretation" and references to Subpart G, are deleted wherever they appear in §§ 303.100 and 303.101.

§§ 303.102 [Amended]

19. In § 303.102(a) the words "or an Appeal of Interpretation (ESECA)" are deleted.

§ 303.103 [Amended]

20. In § 303.103 the words "or interpretation" are deleted.

§ 303.106 [Amended]

21. The words "or interpretation" are deleted wherever they appear in § 303.106.

§ 303.108 [Amended]

22. In § 303.108(a) the words "or interpretation" are deleted.

23. The heading for Subpart K of Part 303 is amended to read as follows:

Subpart K—Modification or Rescission of Orders Other Than Prohibition Orders or Construction Orders

§§ 303.140 and 303.143 [Amended]

24. In §§ 303.140(a), and 303.140(b), and 303.143(c)(2) the words "or an interpretation" are deleted.

§ 303.144 [Amended]

25. In § 303.144(a) the words "or interpretation" are deleted.

§ 303.145 [Amended]

26. In § 303.145(b)(1) the words "or an interpretation" are deleted.

§ 303.145 [Amended]

27. The words "or interpretation" are deleted wherever they appear in § 303.145(b)(2)(iii).

28. In § 303.145(c) the words "or interpretation" are deleted.

[3128-01]

DEPARTMENT OF ENERGY

[10 CFR Part 430]

ENERGY CONSERVATION PROGRAM FOR CONSUMER APPLIANCES

Extension of Written Comment Period

AGENCY: Department of Energy.

ACTION: Notice of extension of written comment period.

SUMMARY: The Department of Energy (DOE) gives notice of an extension of the period for submitting written comments pertaining to the proposed test procedures for furnaces; the proposed test procedures for vented home heating equipment (not including furnaces) and the proposed test procedures for unvented home heating equipment. Appliance test procedures are one element of the appliance energy efficiency program required by the Energy Policy and Conservation Act.

DATE: Comments by February 15, 1978.

ADDRESS: Comments to Room 3317, Department of Energy, Box NX, Box OQ or Box MJ, respectively, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

PROPOSED RULES

FOR FURTHER INFORMATION CONTACT:

James A. Smith (Office of Consumer Products), Room 307, Old Post Office Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-4635.

Laurence J. Hyman (Office of the General Counsel), Room 7146, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9750.

SUPPLEMENTARY INFORMATION: Section 323 of the Energy Policy and Conservation Act (Act) (Pub. L. 94-163) requires that test procedures be prescribed for each of thirteen enumerated consumer products, including furnaces, and home heating equipment (not including furnaces).

(Vented and unvented home heating equipment are the two classes which comprise the type home heating equipment not including furnaces.) Test procedures for furnaces were proposed by notice issued July 28, 1977 (42 FR 40826, August 11, 1977). Test procedures for vented home heating equipment (not including furnaces) were proposed by notice issued August 22, 1977 (42 FR 43930, August 31, 1977), and for unvented home heating equipment by notice issued May 4, 1977 (42 FR 23860, May 11, 1977). The FEDERAL REGISTER notice for each product provided for the submission of written and oral comments. The time for written comment for each of the proposed test procedures has expired and a public hearing on each has been held.

At the public hearing on the proposed test procedures for furnaces on October 4, 1977, a number of issues were raised regarding the success with which the proposed procedures would measure energy consumption and the degree of burden the proposed test procedures would place upon the industry. Due to the complex technical nature of the proposal, however, the respondents testified they had been unable to conduct sufficient testing under the proposed procedures to formulate possible alternative test methods. The respondents urged that DOE allow time for tests to be run on a variety of furnace configurations.

The National Bureau of Standards and DOE consider it likely that useful information will result from an appropriate extension of the comment period for furnaces. Because the test methods and calculations proposed for vented home heating equipment (not including furnaces) and unvented home heating equipment are similar to those employed in the proposed furnace procedures, DOE believes that further time for comments on these proposals should be allowed to insure they, too, will provide accurate measures of energy consumption. DOE

has, therefore, extended the written comment period for the proposed test procedures for furnaces, unvented home heating equipment, and vented home heating equipment (not including furnaces) until February 15, 1978. Comments should be submitted to the addresses specified in the FEDERAL REGISTER notice proposing the test procedure for the particular appliance.

Issued in Washington, D.C., January 20, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration.

[FR Doc. 78-2236 Filed 1-25-78; 8:45 am]

[6750-01]

FEDERAL TRADE COMMISSION

[16 CFR Parts 2, 3, 4]

PROTECTION OF CONFIDENTIAL BUSINESS INFORMATION

AGENCY: Federal Trade Commission.

ACTION: Proposed rule.

SUMMARY: The Federal Trade Commission is proposing to revise its adjudicative and miscellaneous rules to provide procedures whereby a person may request protection for information in the custody of the Commission believed by the person to be a trade secret or otherwise confidential commercial or financial information, and to correlate such protection with the requirements of the Freedom of Information Act.

DATES: Written comments must be received on or before March 27, 1978.

ADDRESSES: Comments should be addressed to the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue, NW., Washington, D.C., 20580. Comments will be entered on the public records of the Commission and will be available for public inspection in room 130 at the above address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Barry R. Rubin, Office of General Counsel, Federal Trade Commission, Washington, D.C., 20580, 202-523-3865.

SUPPLEMENTARY INFORMATION: The Commission proposes to establish a new § 4.10a, which would describe the procedures for requesting confidential treatment for information submitted to the Commission, except for information submitted for purposes of an adjudicative proceeding. The section would require a specific prima facie justification for such requests by reference to the criteria of exemption 4 of the Freedom of Information Act. It would delegate to Directors and Deputy Directors of the Commission's

Bureaus the authority to grant confidential treatment, but only after the documents in question had been submitted to the Commission. See *FTC v. Texaco*, 555 F.2d 862 (D.C. Cir. 1977), cert. denied, 431 U.S. 974, *FCC v. Schreiber*, 381 U.S. 279 (1965). New § 4.10b would specify the effects of a grant of confidential treatment, namely notice of FOIA requests and appeals for the protected information, initial denial of such requests unless the grant is waived, the opportunity to supplement one's justification at the time of an FOIA appeal, and ten days' notice of any decision to release protected information with the exception of disclosure to consultants and, in some circumstances, disclosure upon the request of a Congressional Committee or Subcommittee or a Federal agency where the Committee or Subcommittee or the agency requests that no notice be given. The Commission specifically invites comments on the question of whether such a policy, of not providing notice in the above case is required and if not, whether it appropriately reconciles the constitutional and statutory prerogative of the Congress with the due process rights of persons, and is otherwise advisable.

These rules also delegate to the Bureau Directors and Deputy Directors the authority to grant confidential treatment for material submitted in connection with a compliance report. The Commission wishes to receive comment on whether this change is appropriate or whether, because of the fact that compliance reports are generally made public except for material for which confidentiality has been granted, the power to grant such treatment should remain with the Commission itself.

Under this proposal, it should be noted, all documents in the custody of the Commission determined to be confidential—whether by grant of confidential treatment, protective order, or order for in camera treatment—would be afforded like treatment in the event of an FOIA request or appeal. All such agency records are equally subject to the authority of the Commission to disclose documents, in accordance with applicable law and § 4.11.

A new § 3.32 would be added to incorporate in the rules of practice the authority of Administrative Law Judges to grant protective orders in adjudications. The standard for issuing such orders would be the same as for granting confidential treatment. The effect of such orders would be limited to the provision of 4.10b, which applies equally to documents under protective order, in camera order, or grant of confidential treatment. An ALJ could then no longer order documents in the custody of the Commission removed from its custody without the express

authority of the Commission. Nor could such order prevent any Commission employee from having access to the documents, subject to the usual restrictions on dissemination of the information outside the Commission. This change would not affect the power of an ALJ to order restrictions on documents that never come into the custody of the Commission, such as ordering that complaint counsel can view documents only on respondents' premises with limited copying rights. Nor would this change preclude arrangements whereby it is agreed that documents will be submitted to a third party who will then aggregate them for Commission use. Similar conforming changes have been made in rule 3.45 dealing with in camera orders. The Administrative Law Judges would also retain the power to control the course of the hearings, and the conduct of the parties (Commission rule 3.42(c), 16 CFR § 3.42(c)).

These proposed rules would not apply to special grants of confidentiality by the Commission, such as the Commission's Confidentiality Rules and Procedures for Line of Business Reports. Nor would they apply to statutory restrictions on disclosure such as those provided in the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

In consideration of the foregoing, the Commission proposes to amend its rules of practice as follows:

#### PART 2—NONADJUDICATIVE PROCEDURES

1. By amending § 2.33 to read as follows:

##### § 2.33 Compliance procedure.

The Commission may in its discretion require that a proposed agreement containing an order to cease and desist be accompanied by an initial report signed by the respondent setting forth in precise detail the manner in which the respondent will comply with the order when and if entered. Such report will not become part of the public record unless and until the accompanying agreement and order are accepted by the Commission. At the time any such report is submitted a respondent may request confidential treatment for any portion thereof in accordance with § 4.10a of this chapter.

#### PART 3—RULES OF PRACTICE FOR ADJUDICATIVE PROCEEDINGS

2. By adding § 3.32 to read as follows:

##### § 3.32 Protective orders.

The Administrative Law Judge may, upon motion or *sua sponte*, order restrictions on access to documents in the custody of the Commission submitted in the course of the proceeding, whether voluntarily or under compul-

sory process, when necessary to the fair and orderly conduct of the proceeding. The effect of such an order shall be as prescribed in § 4.10b. Such an order shall issue only on a *prima facie* showing that information contained in the documents is a trade secret or otherwise confidential commercial or financial information within the meaning of 5 U.S.C. § 552(b)(4). Documents as to which such an order is made shall be non-public records of the Commission, and such records shall not be removed from the custody of the Commission without its express authorization. Access thereto shall be had only in accordance with the terms of the order, subject, however, to the provisions of § 4.11 of this chapter.

3. By amending § 3.45 to read as follows:

##### § 3.45 In camera orders.

(a) *In camera treatment of evidence and testimony.*—The Administrative Law Judge may, upon motion or *sua sponte*, order documents, other physical evidence, or oral testimony offered in evidence (including an offer of proof), whether admitted or rejected, to be placed *in camera*, but only upon a showing that clearly defined, serious injury would result from public disclosure thereof. The order shall include a description of the evidence or testimony, and a statement of the reasons for granting *in camera* treatment. Each such order shall expire at the end of the three-year period commencing with its issuance unless the Administrative Law Judge shall specify therein a lesser period or unless renewed by the Commission upon request. Any party desiring, for the preparation and presentation of the case, or otherwise, to disclose *in camera* evidence or testimony to experts, consultants, prospective witnesses, or witnesses, shall make application to the Administrative Law Judge, at the time the order is sought or thereafter, setting forth the justification therefor. The Administrative Law Judge may grant such application for good cause found, in which event he shall enter an appropriate order protecting the rights of the affected parties and preventing unnecessary disclosure of information. *In camera* evidence and the transcripts of testimony subject to an *in camera* order shall be segregated from the public record and filed in a sealed envelope or container, bearing the title and docket number of the proceeding, and the notation "*In Camera* Record under § 3.45."

(b) *Disclosure of in camera information.*—Documents and testimony made subject to *in camera* orders shall not be made a part of the public record, and only respondents, their counsel, authorized Commission personnel, and court personnel concerned with judicial

review shall have access thereto, except that upon receipt by the Commission of a request for disclosure under the provisions of § 4.11 of this chapter, the effect of the order shall be as prescribed in § 4.10b. The right of the Administrative Law Judge, the Commission, and reviewing courts to disclose *in camera* data to the extent necessary for the proper disposition of the proceeding is specifically reserved.

(c) *Reference to in camera information.*—In the submittal of proposed findings, briefs, or other papers, and during oral argument, counsel for all parties shall not disclose the specific details of *in camera* evidence or testimony. This shall not preclude references in such proposed findings, briefs, or other papers to such evidence or testimony including generalized statements based on their contents. To the extent that counsel consider it necessary to include specific information contained in *in camera* material in their presentations, such information shall be incorporated in separate proposed findings, briefs, or other papers marked "*In Camera Information*," which shall be placed *in camera* and become a part of the *in camera* record.

(d) Nothing contained herein or in this chapter shall be deemed to preclude the Administrative Law Judge from approving, where appropriate, arrangements in connection with discovery by which a party or its counsel is afforded access to records without obtaining custody thereof, or is afforded some form of use of the information therein, through intermediary analysis by a neutral person, without direct access thereto.

4. By amending § 3.61(f) to read as follows:

##### § 3.61 Reports of Compliance.

(f) All applications for approval of proposed divestitures, acquisitions, or similar transactions subject to Commission review under outstanding orders, together with supporting materials, will be placed on the public record as soon after they are received as circumstances permit, except for information for which confidential treatment has been requested in accordance with § 4.10a of this chapter. Within thirty (30) days after such requests and materials are placed on the public record, any person may file formal written objections or comments with the Secretary of the Commission. Such objections or comments shall be placed on the public record except for information for which confidential treatment has been requested in accordance with § 4.10a of this chapter. Additionally, any communications, written or oral, concerning such proposed transactions, received by any individual member of the Commission or by

any employee involved in the decisional process, from any person not involved in that process, will be placed on the public record immediately after their receipt. In the case of an oral communication, the member or employee shall immediately furnish the Commission with a memorandum setting forth the full contents of such communication and the circumstances thereof, and such memorandum will immediately be placed on the public record. All response to applications for approval of proposed divestitures, acquisitions, or similar transactions subject to Commission review under outstanding orders, together with a statement of supporting reasons, will be published when made.

#### PART 4—MISCELLANEOUS RULES

5. By amending rule 4.9(b) (12) and (13) to read as follows:

##### § 4.9 Public records.

(12) Reports of compliance and supplemental materials in connection therewith filed pursuant to the rules in this chapter or to a provision in an order of the Commission, and reports of compliance filed pursuant to assurances of voluntary compliance which are accepted under § 2.21 of this chapter (excluding matters disposed of under § 1.34 of this chapter), except as provided in §§ 2.33 and 4.9(b)(13), shall be available at the principal offices of the Commission for inspection and copying by the public when received, except for information for which confidential treatment has been requested in accordance with § 4.10a of this chapter.

(13) Reports of compliance and supplemental materials filed in connection with Commission orders requiring divestitures or establishment of business enterprises or facilities, save those otherwise specifically dealt with in §§ 3.61(f) and 4.9(b)(11), are confidential until the last divestiture or establishment of a business enterprise or facility, as required by a particular order, has been finally approved by the Commission. At the time each such report is submitted, the filing party may request continuing confidentiality in whole or in part in accordance with § 4.10a of this chapter.

6. By amending § 4.10 to read as follows:

##### § 4.10 Nonpublic records.

(a) Except as provided in paragraph (b) of this section, the following records of the Commission are exempt from availability for public inspection and copying pursuant to 5 U.S.C. § 552; however, records exempt from disclosure by the provisions of this section

may be made available to a requester for inspection and copying upon request for records under the procedures set forth in § 4.11, or by the Commission on its own motion subject to the provisions of § 4.10b.

7. By adding § 4.10a to read as follows:

##### § 4.10a Requests for confidential treatment of trade secrets and commercial or financial information.

(a) *Scope.*—Any person requested or required to submit any information believed by the person to be a trade secret, or otherwise confidential commercial or financial information, may request confidential treatment for such information in accordance with this section, except that requests for confidential treatment of information submitted for purposes of an adjudicative proceeding shall be made in accordance with § 3.32 or § 3.45, as applicable.

(b) *Form of request.*—A request for confidential treatment shall be addressed to the employee to whom the information is submitted. The envelope shall be marked "Confidentiality Request." The request shall be preceded or accompanied by the documents for which confidentiality is requested. The request shall specify:

(1) The documents or portions thereof that are alleged to merit confidential treatment, including whether any information constitutes a trade secret within the meaning of Section 6(f) of the Federal Trade Commission Act.

(2) The extent to which deletion of specific identifying information prior to public disclosure would protect the person's asserted interests;

(3) The period of time for which confidential treatment is requested;

(4) The extent to which the information is customarily disclosed to others, and the measures taken by the person to prevent unauthorized disclosure;

(5) The manner in which and the degree to which competitive or other harm would result from public disclosure of the specified information.

(c) *Grant of request.*—The Directors and Deputy Directors of the Bureaus of Competition, Consumer Protection, and Economics, pursuant to delegation of authority by the Commission, without power of redelegation, may grant confidential treatment upon a *prima facie* showing that the information is a trade secret or otherwise confidential commercial or financial information within the meaning of those terms in 5 U.S.C. § 552(b)(4), for a period not to exceed 3 years from the date on which the request is granted. The Bureau Director or Deputy Director may grant an additional term of not more than 3 years upon a request made at least 60 days but not more than 120 days prior to the expiration of the original term and providing spe-

cific justification for continued confidential treatment. In the event a request for access to records, which are the subject of a confidentiality request, is received before the Bureau Director or Deputy Director has acted under this section, the person submitting the information shall be promptly notified of the receipt of the request, except as to requests of which § 4.10b hereof provides that no notice shall be given.

8. By adding § 4.10b to read as follows:

§ 4.10b Effects of grant of confidentiality, protective order, or order for *in camera* treatment.

(a) The effects of a grant of confidentiality pursuant to § 4.10a, or of a grant of confidentiality treatment for information submitted for purposes of a compliance report, or of a protective order or order for *in camera* treatment, are as follows:

(1) The Office of the Secretary shall expeditiously notify the person to whom the grant was made of any initial request, pursuant to § 4.11(a)(1) of this chapter, for records containing the information. The Office of the General Counsel or the appropriate liaison officer under § 4.11(b)(2) shall provide such notice for requests pursuant to § 4.11(b) of this chapter, except as otherwise provided in subsection 6(ii) hereof.

(2) The Office of the Secretary shall ascertain whether the person continues to assert the confidentiality of such records.

(3) The Office of the Secretary, during the effective term of a grant of confidentiality treatment or of a protective or *in camera* order, shall deny initial Freedom of Information Act requests for access to records within the scope of the grant or order pursuant to 5 U.S.C. § 552(b)(4) unless the confidentiality of such material is waived by the person to whom it has been granted.

(4) The Office of the General Counsel or the appropriate liaison officer under § 4.11(b)(2) shall expeditiously notify the person to whom the grant or order was given of any appeal, pursuant to § 4.11(a)(2) or request pursuant to § 4.11(b) of this chapter, for release of such records, except as otherwise provided in subsection 6(ii) hereof.

(5) The General Counsel, the Commission, or the appropriate liaison officer under § 4.11(b)(2) shall take into account, in reaching a determination of such an appeal pursuant to § 4.11(a)(2)(iii) of this chapter, or a request pursuant to § 4.11(b), all facts bearing on the issue of the exempt status of the requested records, including any submission by the person received by the Commission within seven (7) working days of notification of the appeal.

(6) If the General Counsel or the Commission or the appropriate liaison officer under § 4.11(b)(2) determines to disclose records or information covered by a grant of confidentiality treatment, protective order, or order for *in camera* treatment, ten (10) days' notice prior to release thereof shall be provided to the person who supplied the records or information; *Provided* that:

(i) As to release in response to an official request from a committee or subcommittee of Congress, or to a court in response to compulsory process or court order, ten days' notice shall be given where possible, and otherwise such notice shall be given as is reasonable under the circumstances. In the event of such release, the congressional committee or subcommittee or the court shall be advised that the person who submitted the records or information considers such records or information to be confidential.

(ii) As to release in response to an official request of a committee or subcommittee of Congress or of a federal agency which includes a request that no notice of either the request or the release be provided, such notice shall not be provided, unless, with respect to requests from another federal agency, the Commission in its discretion so orders.

(b) The protection afforded by this section shall not extend to information which:

(1) Was in the public domain at the time confidential treatment, protective order or *in camera* treatment was granted;

(2) Enters the public domain thereafter from a source other than the Commission or its employees;

(3) Was in the Commission's unrestricted possession prior to disclosure to the Commission by the person;

(4) Is supplied to the Commission without restriction on its use by a third party lawfully in possession thereof.

(c) This section shall not apply to grants of confidentiality made by the Commission under its Line of Business, Corporate Patterns Report, and Quarterly Financial Report programs, which shall be effective according to their terms.

(d) Disclosure of records or information to a consultant retained by the Commission shall not constitute disclosure thereof within the meaning of this section and § 4.11, *provided*, however, that such disclosure shall be made only to a consultant who has agreed not to disclose such records or information to others, except as authorized by the Commission.

(5 U.S.C. 522 and 551(2); 15 U.S.C. 46(g).)

By direction of the Commission dated January 12, 1978.

CAROL M. THOMAS,  
Secretary.

## SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

(Release Nos. 33-5900; 34-14395; IC-10099; File No. S7-729)

## GOING PRIVATE TRANSACTIONS BY PUBLIC COMPANIES OR THEIR AFFILIATES

Proposed Rule and Schedule; Extension of Comment Period

AGENCY: Securities and Exchange Commission.

ACTION: Extension of public comment period for proposed rule and schedule.

SUMMARY: The Commission extends the public comment period with respect to a proposed rule and schedule relating to going private transactions by public companies or their affiliates until February 28, 1978.

DATE: Comments must be received on or before February 28, 1978.

ADDRESS: Comments should be submitted in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Comment letters should refer to File No. S7-729. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 1100 L Street, NW., Washington, D.C. 20549.

## FOR FURTHER INFORMATION CONTACT:

John Huber, Office of Disclosure Policy and Proceedings, Division of Corporation Finance, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202-755-1750.

SUPPLEMENTARY INFORMATION: In Release Nos. 33-5894, 34-14185 and IC-1 0015 (November 23, 1977) (42 FR 60090), the Commission published for comment proposed Rule 13e-3 and proposed Schedule 13E-3 relating to going private transactions by public companies or their affiliates. If adopted, these proposals would provide definitions, specific disclosure and dissemination requirements, substantive regulatory protections and particular anti-fraud provisions with respect to going private transactions. The Commission stated that the public comment period would expire on January 31, 1978.

It has come to the Commission's attention that certain interested members of the public may require more time to complete their consideration of the proposals in order to respond to the Commission's solicitation of comments. The Commission has determined that it is appropriate in the

public interest to allow additional time for the consideration of these proposals. Accordingly, the Commission hereby extends the period for public comment of proposed Rule 13e-3 and Schedule 13E-3 from January 31, 1978 to February 28, 1978.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

JANUARY 20, 1978.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[24 CFR Part 1917]

(Docket No. FI-3841)

## CITY OF FARIBAULT, RICE COUNTY, MINN.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Faribault, Rice County, Minn.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Faribault, Minn. Send comments to: Mr. Eugene Wieneke, City Administrator, City of Faribault, City Hall, 208 First Avenue, Faribault, Minn. 55021.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872; Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Mound, Hennepin County, Minn., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

nations of base (100-year) flood elevations for the city of Faribault, Minn., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rate for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Straight River	14th St.	969
	Division St.	980
	Chicago, Rock Island & Pacific RR.	982
Crocker's Creek	7th St NW	975
	Division St.	985
	Jenson Dr.	997

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

## CITY OF ROSEAU, ROSEAU COUNTY, MINN.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Roseau, Roseau County, Minn.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Roseau, Minn. Send comments to: Mayor N. L. Erikson, City Hall, Box 307, 100 Second Avenue, Roseau, Minn. 56751.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Roseau, Minn., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title

XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Roseau River .....	3d St.....	1,049
	Center St.....	1,049
	Corporate limit (southernmost crossing).	1,051

## [4210-01]

[24 CFR Part 1917]

[Docket No. FI-3844]

## CITY OF WATERTOWN, CARVER COUNTY, MINN.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Watertown, Carver County, Minn.

These base (100-year) flood elevations are the basis for the flood plain management measures that the com-

munity is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Watertown, Minn. Send comments to: Mayor Dorsey Kozel, City Hall, P.O. Box 606, Watertown, Minn. 55388.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Watertown, Minn., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
South Fork Crow River.	County State Aid Highway 10 Bridge.	937
	Chicago & Northwestern RR.	939
Mapes Creek .....	Carver County Rd., No. 10 Bridge.	935
	Pedestrian bridge.	935

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

PROPOSED RULES

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Buckner, Jackson County, Mo., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Fire Prairie Creek.	Eastern corporate limits.	725
	Approximately 140 ft upstream of Buckner-Tarney Rd.	730

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

## [4210-01]

[24 CFR Part 1917]  
[Docket No. FI-3853]

**TOWN OF PERINTON, MONROE COUNTY, N.Y.**

**Proposed Flood Elevation Determinations**

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Perinton, Monroe County, New York.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Perinton Town Hall, Building Inspector's Department, 31 South Main Street, Fairport, N.Y.

Send comments to: Supervisor Lake B. Edwards, Perinton Town Hall, 31 South Main Street, Fairport, N.Y. 14450.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Perinton, Monroe County, N.Y., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section

1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by Section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Irondequoit Creek	Just downstream of Pittsford Palmyra Rd. (N.Y. 31).	393
	Just downstream of Fairport Rd. (N.Y. 31F).	361
	Just upstream of Linden Ave.	361

## [4210-01]

[24 CFR Part 1917]  
[Docket No. FI-3854]

**TOWN OF WAPPINGER, DUTCHESS COUNTY, N.Y.**

**Proposed Flood Elevation Determinations**

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Wappinger, Dutchess County, N.Y.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Wappinger Town Hall, Mill Street, Wappingers Falls, N.Y. Send comments to: Mr. Lou Diehl, supervisor of the town of Wappinger, Mill Street, Wappingers Falls, N.Y. 12590.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Wappinger, Dutchess County, N.Y., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (1-year) flood elevations for selected locations are:

[Docket No. FI-3855]

CITY OF REIDSVILLE, ROCKINGHAM COUNTY, N.C.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Reidsville, Rockingham County, N.C..

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Reidsville, N.C. Send comments to: Mr. Robert Cox, city manager, City of Reidsville, P.O. Box 509, Reidsville, N.C. 27320.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Reidsville, N.C., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)),

42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

PROPOSED RULES

[4210-01]

[24 CFR Part 1917]  
[Docket No. FI-3856]

CITY OF BURLINGTON, WARD COUNTY, N. DAK.

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Burlington, Ward County, N. Dak.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Auditor's Office, Burlington, N. Dak. Send comments to: Mayor Jack Bender, P.O. Box 159, Burlington, N. Dak. 58722.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Burlington, N. Dak., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community

may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Springville, Utah County, Utah.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Springville, Utah. Send comments to: Mr. Don Ormsby, City Planner, city of Springville, City Hall, Springville, Utah 84663.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Springville, Utah, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program reg-

ulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Hobble Creek	900 South	4,650

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

## TOWN OF BROOKFIELD, ORANGE COUNTY, VT.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Brookfield, Orange County, Vt.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed

rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at office of the Town Clerk, Brookfield, Vt. Send comments to: Thomas E. Lyons, Chairman of the Board of Selectmen, or Planning Commission Chairman, Helen Wakefield, Brookfield, Vt. 05036.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Brookfield, Orange County, Vt., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Second Branch White River	Just downstream of town highway 32.	683
	Just downstream of town highway 33.	693
	Approximately 150 ft downstream of town highway 15.	722
Sunset Brook	Just upstream of Brookfield State highway.	1,253

## PROPOSED RULES

## [4210-01]

[24 CFR Part 1917]  
[Docket No. FI-3867]

## TOWN OF OCCOQUAN, PRINCE WILLIAM COUNTY, VA.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Occoquan, Prince William County, Va.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Occoquan Town Hall, 400 Mill St. Occoquan, Va. Sent comments to: Hon. Charles Pugh, mayor of Occoquan, 303 Union St. Occoquan, Va. 22125.

FOR FUTURE INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Occoquan, Prince William County, Va. in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood

plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Occoquan River.....	Downstream corporate limits.	11
	Upstream corporate limits.	12

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

[24 CFR Part 1917]

[Docket No. FI-3870]

WYTHE COUNTY, VA.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in Wythe County, Va.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the Na-

tional Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Wythe County Courthouse, 275 South Fourth Street, Wytheville, Va. 24382. Send comments to: Mr. Billy R. Branson, County Administrator, Wythe County, 275 South Fourth Street, Wytheville, Va. 24382.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for Wythe County, Va., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

## PROPOSED RULES

show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Clerk's Office, Westport, Wash. Send comments to: Mayor Bill Wade, P.O. Box 505, Westport, Wash. 98595.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Westport, Grays Harbor County, Wash., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Pacific Ocean.....	Intersection of Newell Ave. and Surf St.	20
	Harbor St. at Westhaven State Park entrance.	20

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Grays Harbor .....	Intersection of Coast St. and Second Ave.	19
	Intersection of First St. and Patterson St.	19
	Intersection of Tacoma Ave. and Fourth St. East end of Park Ave.	13
Tidal Slough, backwater from Pacific Ocean.	Intersection of Montesano St. and Sprague Ave.	13
	Intersection of Ocean Ave. and Broadway St.	11
	Approximately 400 ft east of the intersection of highway 105 and Newell Ave.	11

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

## [4210-01]

Federal Insurance Administration

[24 CFR Part 1917]

[Docket No. FI-3845]

YELLOW MEDICINE COUNTY, MINN.

## Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in Yellow Medicine County, Minn.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines

of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Yellow Medicine County Courthouse, Granite Falls, Minn. Send comments to: Mr. Luverne Grinager, Chairman, Yellow Medicine County Board of Commissioners, Yellow Medicine County Courthouse, 415 9th Avenue, Granite Falls, Minn. 56241.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for Yellow Medicine County, Minn., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by section 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Minnesota River....	County and State Aid Highway 21.	878
	County and State Aid Highway 7.	925
	U.S. Highway 212.	927
	U.S. Highway 212 and 59.	930
Minnesota River overflows through Granite Falls.	County and State Aid Highway 87.	895
	U.S. Highway 212.	912
	11th Ave.	914
	Township Rd. 101 (downstream side).	919

#### [4910-14]

#### DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 110]

(CGD 77-212)

#### ANCHORAGE GROUNDS, DELAWARE BAY AND RIVER

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

**SUMMARY:** The Coast Guard is proposing to enlarge Anchorage A (tanker lightering) off the entrance of the Mispillion River in Delaware Bay, southwest of the Brandywine Channel. The enlargement is needed to accommodate the increase in the size and number of vessels using the anchorage.

**DATE:** Comments must be received on or before February 27, 1978.

**ADDRESS:** Comments should be submitted to and will be available for examination at the Office of Commander, Third Coast Guard District, Governors Island, New York, N.Y. 10004.

#### FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1477.

**SUPPLEMENTARY INFORMATION:** Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each person submitting a comment should include the writer's name and address, identify the notice (CGD 77-212) and the specific section to which the comment applies, and give the reason for the comments. All comments received before the expiration date of the comment period will be considered before final action is taken on this proposal.

No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

**DRAFTING INFORMATION:** The principal persons involved in drafting

this proposal are: Mr. D. W. Ziegfeld, Project Manager, Office of Marine Environment and Systems, and Mr. S. D. Jackson, Project Attorney, Office of Chief Counsel.

#### DISCUSSION OF THE PROPOSED REGULATION

Anchorage A (tanker lightering) off the entrance to Mispillion River in the Delaware Bay, also known as Big Stone Anchorage, provides anchorage space for deep draft tank vessels to anchor and lighter their cargo before proceeding up the Delaware River.

During 1976, approximately 500 large vessels used this anchorage, for an average of two to three days at a time. The large number of vessels, combined with the barges they use for lightering, have created over-crowded conditions in this anchorage.

Enlarging the anchorage would enhance the safety of barge movements in the anchorage by increasing the maneuvering space between the vessels.

In consideration of the foregoing, it is proposed to amend § 110.157(a)(1) of Title 33 of the Code of Federal Regulations to read as follows:

§ 110.157 Delaware Bay and River.

(a) *The anchorage grounds.*—(1) *Anchorage A (tanker lightering) off the entrance to Mispillion River.* In Delaware Bay southwest of Brandywine Channel beginning at latitude 38°53'57" N., longitude 75°08'00" W.; thence northwesterly to latitude 39°01'22" N., longitude 75°13'25" W.; thence southwesterly to latitude 39°00'49" N., longitude 75°14'57" W.; thence southeasterly to latitude 38°53'22" N., longitude 75°09'26" W.; thence northeasterly to the point of beginning. This anchorage is for the specific purpose of allowing deep draft tankers to anchor and lighter their cargo before proceeding up the Delaware River. Supervision over the anchoring of vessels and over cargo transfer operations in Anchorage A is exercised by the Captain of the Port Philadelphia. The regulations in paragraphs (b)(1) and (b)(2) of this section do not apply to this anchorage.

(Sec. 7, 38 Stat. 1053 as amended (33 U.S.C. 471); sec. 6(g)(1), 80 Stat. 940 (49 U.S.C. 1655(g)(1)); 49 CFR 1.46(c)(1).)

**NOTE.**—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: January 19, 1978.

O. W. SILER,  
Admiral, U.S. Coast Guard  
Commandant.

FEDERAL COMMUNICATIONS  
COMMISSION

[47 CFR Part 61]

[CC Docket No. 78-10; FCC 78-4]

REQUIREMENTS FOR POSTING OF CERTAIN  
TARIFFS

## Proposed Modification

AGENCY: Federal Communications  
Commission.ACTION: Proposed notice and com-  
ment rulemaking.

SUMMARY: The Commission pro-  
poses to amend 47 CFR 61.72 to delete  
the requirement that common carriers  
subject to its jurisdiction post their  
tariffs at toll centers. In a Petition for  
rule making filed on April 13, 1976,  
the American Telephone and Tele-  
graph Company stated that very few  
people went to toll centers to ask  
about tariffs, that the space currently  
devoted to tariff postings is needed for  
other purposes and that security con-  
siderations militate against public  
access to toll centers. This rule making  
is being instituted to determine whether  
it would be in the public interest to  
delete the requirement of posting tar-  
iffs in toll centers.

DATES: Comments must be received  
on or before March 27, 1978 and Reply  
Comments must be received on or  
before April 26, 1978.

ADDRESSES: Send Comments to:  
Federal Communications Commission,  
Washington, D.C. 20554.

FOR FURTHER INFORMATION  
CONTACT:

Kent Nakamura, Common Carrier  
Bureau, 202-632-5550.

Adopted: January 11, 1978.

Released January 23, 1978.

In the matter of Amendment of  
§ 61.72 of the Commission's rules to  
modify the requirements for the post-  
ing of certain tariffs. CC Docket No.  
78.10, RM-2688.

By the Commission:

1. Notice is hereby given of proposed  
rulemaking in the above entitled  
matter.

2. Section 61.72 of the Commission's  
rules and regulations<sup>1</sup> now requires  
the posting of tariffs by common car-  
riers subject to the Commission's jur-  
isdiction. The rule basically requires the  
posting of such tariffs at the carrier's  
main office in every community  
served. Alternatively, the rule states  
that the tariffs may be posted in the  
main office of the filing carrier in  
every city with a population of 100,000

<sup>1</sup>47 CFR 61.72.

## PROPOSED RULES

or more and in the state capital. If the  
filing carrier does not operate in a city  
with a population of 100,000 or more,  
then the tariffs must be posted and  
kept open for public inspection in the  
largest city in the state in which the  
filing carrier does operate and in the  
state capital.

3. If a carrier elects to use this alter-  
native method, section 61.72 also re-  
quires the carrier to state that the  
schedule for interstate and foreign  
message telephone toll rates in use at  
each toll center is available for public  
inspection during regular business  
hours at the toll center. The carrier  
also is required to state, in connection  
with every notice in each toll center,  
the exact location in the toll center  
where the tariffs can be found.

4. In a Petition for Rulemaking  
(RM-2688) filed by the American Tele-  
phone and Telegraph Co. (A.T. & T.)  
on April 13, 1976, it requested that sec-  
tion 61.72 of the rules be amended to  
delete the requirement that tariffs be  
posted and made available to the  
public at the toll centers. A.T. & T.,  
which uses the alternative method of  
posting tariffs described above, states  
that virtually no requests are received  
to examine tariffs at toll centers. A.T.  
& T. further states that the space de-  
voted to posting of tariff schedules is  
needed for equipment and that securi-  
ty considerations militate against  
public access to the toll centers.

5. Public notice of A.T. & T.'s Peti-  
tion for rulemaking was given by the  
Commission pursuant to § 1.403 of the  
Commission's Rules in Report No. 981  
of the Commission, dated May 14,  
1976. On June 14, 1976, GTE Service  
Corp. filed comments in support of  
A.T. & T.'s proposal.

6. Inasmuch as schedules for foreign  
and interstate message toll telephone  
rates are available in many other loca-  
tions that are more accessible to the  
public than are toll centers, it might  
be, based on A.T. & T.'s statements,  
that the deletion of the toll center  
posting requirement would not incon-  
venience the public. It is also possible  
that the telephone companies may be  
able to operate more efficiently by  
eliminating what may be unnecessary  
requirements; this may prove to be in  
the public interest by reducing the  
operational costs of the carriers.

7. Accordingly, we are instituting  
this rulemaking to determine whether  
deletion of the requirement that tar-  
iffs be posted in toll centers would be  
in the public interest. We are particu-  
larly interested in knowing how often  
members of the public go to toll cen-  
ters to inquire about charges or regu-  
lations for foreign and interstate ser-  
vice. It is also proposed to amend  
§ 61.72 to make it clear that the tariff

<sup>1</sup>A.T. & T. Petition for Rulemaking at  
pp.2-3.

material to be posted includes pro-  
posed revisions as well as effective  
tariff material. Further, the language  
of § 61.72 has been changed to make  
the rule more comprehensible.

8. Authority for the proposed rule  
making instituted here is contained in  
sections 4(i) and 203(a) of the Commu-  
nications Act of 1934, as amended.<sup>2</sup>

9. Interested persons may file com-  
ments on the proposed rule and issues  
discussed herein on or before March  
27, 1978, and reply comments on or  
before April 26, 1978. In reaching its  
decision on this matter, the Commis-  
sion may take into account any other  
relevant information before it in addi-  
tion to the comments invited by the  
notice.

10. All comments, replies, pleadings,  
briefs and other documents shall be  
furnished to the Commission in accor-  
dance with § 1.419 of the Commission's  
rules.

11. Responses filed in this proceed-  
ing will be available for public inspec-  
tion during regular business hours in  
the Commission's Public Reference  
Room at its headquarters in Washing-  
ton, D.C. (1919 M Street, NW).

For the Federal Communications  
Commission.

WILLIAM J. TRICARICO,  
Secretary.

## APPENDIX

In Part 61 of Chapter I of Title 47 of  
the Code of Federal Regulations,  
§ 61.72 is proposed to be revised to  
read as follows:

## § 61.72 Posting.

Filing carriers are required to post a  
schedule of charges and regulations to  
be available for public inspection  
during regular business hours. This  
tariff material shall cover all effective  
and proposed rates and regulations  
pertaining to the services offered to  
and from the community or communi-  
ties served and shall be the same as  
that on file with the Commission. This  
posting requirement may be satisfied  
by either of the following methods:

(a) *First method.* The tariff material  
shall be posted in every community  
within the United States in which the  
filing carrier has an office open to the  
public (the main office in the case of a  
filing carrier with more than one  
office in a single community).

(b) *Second method.* The tariff mate-  
rial to be posted shall include charges  
and regulations applicable to or from  
every point in each state in which the  
carrier operates as follows:

(1) In the main office of the filing  
carrier open to the public in every city  
in that state with a population of  
100,000 or more (or in the largest com-

<sup>2</sup>47 U.S.C. 154(i), 203(a).

## PROPOSED RULES

munity served if none has a popula-  
tion of 100,000); and

(2) In the main office of the carrier  
in the state capital.

If a carrier chooses this second  
method, a notice must be posted in  
each and every business office of the  
carrier open to the public in that state  
indicating the street address of the  
nearest location in which a tariff post-  
ing can be found.

[BC Docket No. 78-19; RM-2953]

TELEVISION BROADCAST STATION IN  
SAVANNAH, GA.

## Proposed Changes in Table of Assignments

AGENCY: Federal Communications  
Commission.ACTION: Notice of Proposed Rule-  
making.

SUMMARY: Action taken herein pro-  
poses the assignment of a fourth com-  
mercial television channel to Savan-  
nah, Ga. Petitioner, WALH, Inc.,  
states the proposed assignment would  
provide for a station which could  
render a first independent (non-net-  
work) television programming service  
to Savannah.

DATES: Comments must be received  
on or before March 14, 1978, reply  
comments on or before April 3, 1978.

ADDRESS: Federal Communications  
Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION  
CONTACT:

Mildred B. Nesterak, Broadcast  
Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:  
Adopted: January 13, 1978.

Released: January 23, 1978.

In the matter of amendment of  
§ 73.606(b), Table of Assignments,  
Television Broadcast Stations, (Savan-  
nah, Ga.), BC Docket No. 78-19; RM-  
2953.

By the Chief, Broadcast Bureau:

1. The Commission has before it for  
consideration a petition for rule  
making<sup>1</sup> filed by WALH, Inc. ("peti-  
tioner"), seeking amendment of Sec-  
tion 73.606(b) of the Commission's  
Rules. It proposes that UHF television  
Channel 28 be assigned to Savannah,  
Ga., for commercial use. Channel 28  
may be assigned to Savannah, Ga., in

<sup>1</sup>Public notice of the petition was given on  
September 13, 1977, Report No. 1074.

compliance with the minimum dis-  
tance separation requirements and  
other technical criteria. Supplemental  
comments were filed by petitioner. No  
other responses to the petition have  
been received.

2. Savannah (pop. 118,349), in Chat-  
ham County (pop. 187,816),<sup>2</sup> is located  
in eastern Georgia where the Savan-  
nah River, the boundary between  
Georgia and South Carolina, flows  
into the Atlantic Ocean. Savannah has  
three commercial TV stations (WSAV-  
TV, Channel 3; WTOG-TV, Channel  
11; and WJCL, Channel 22). It also has  
assigned to it Channel \*9, which is  
used by Station WVAN-TV, an educa-  
tional station. Thus, all of the chan-  
nels assigned to Savannah are occu-  
pied by operating stations.

3. Petitioner states that Savannah  
has experienced strong economic  
growth since 1970. We are told that  
the most important factor in the Sav-  
annah area's economy is the city's  
port which is among the largest on the  
eastern coast of the United States. It  
notes that a second factor is manufac-  
turing, which includes paper products,  
chemicals, truck trailers, roofing prod-  
ucts, etc. Petitioner has submitted sta-  
tistics collected by the Savannah area  
Chamber of Commerce indicating that  
the volume of trade at the port has in-  
creased substantially in recent years  
and that port facilities are presently  
being expanded. It adds that in the  
first quarter of 1977, Chatham  
County, in which Savannah is located,  
showed the largest increase in retail  
sales (13.8%) among all metropolitan  
counties in the State of Georgia. Peti-  
tioner contends that its study of the  
area, its economy, and the television  
viewing patterns in the market indi-  
cate that an independent television  
station could become a viable econom-  
ic entity within a short time after  
commencement of operation. It states  
that the proposed station would pro-  
vide the Savannah area with its first  
such independent television program  
service in competition with the pro-  
gramming now provided by the three  
network affiliated stations in the  
market.

4. In view of the foregoing, and the  
fact that the proposed assignment  
could provide the Savannah area with  
a first non-network commercial televi-  
sion service, the Commission finds  
that it would serve the public interest  
to seek comments in rulemaking.

5. Therefore, notice is hereby given  
that the Commission proposes to  
amend the Television Table of Assign-  
ments, § 73.606(b) of the Commission's  
Rules, with respect to Savannah, Ga.,  
as follows:

## City and Channel No.

Savannah, Ga.: Present: 3, \*9-, 11, 22; Pro-  
posed: 3, \*9-, 11, 22, 28-.

<sup>2</sup>Population figures were taken from the  
1970 U.S. Census.

6. The Commission's authority to in-  
stitute rulemaking proceedings; show-  
ings required; cut-off procedures; and  
filing requirements are contained in  
the attached Appendix and are incor-  
porated by reference herein.

7. Interested parties may file com-  
ments on or before March 14, 1978,  
and reply comments on or before April  
3, 1978.

For the Federal Communications  
Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

## APPENDIX

1. Pursuant to authority found in sections  
4(i), 5(d)(1), 303(g), and (r), and 307(b) of  
the Communications Act of 1934, as amend-  
ed, and section 0.281(b)(6) of the Commis-  
sion's Rules, it is proposed to amend the TV  
Table of Assignments, section 73.606(b) of  
the Commission's Rules and Regulations, as  
set forth in the Notice of Proposed Rule  
Making to which this Appendix is attached.

2. *Showings required.* Comments are in-  
vited on the proposal(s) discussed in the Notice  
of Proposed Rule Making to which this Ap-  
pendix is attached. Proponent(s) will be ex-  
pected to answer whatever questions are  
presented in initial comments. The propo-  
nent of a proposed assignment is also ex-  
pected to file comments even if it only re-  
submits or incorporates by reference its  
former pleadings. It should also restate its  
present intention to apply for the channel if  
it is assigned, and, if authorized, to build the  
station promptly. Failure to file may lead to  
denial of the request.

3. *Cut-off procedures.* The following proce-  
dures will govern the consideration of fil-  
ings in this proceeding.

(a) Counterproposals advanced in this pro-  
ceeding itself will be considered, if advanced  
in initial comments, so that parties may  
comment on them in reply comments. They  
will not be considered if advanced in reply  
comments. (See § 1.420(d) of Commission  
Rules.)

(b) With respect to petitions for rule  
making which conflict with the proposal(s),  
in this Notice, they will be considered as  
comments in the proceeding, and Public  
Notice to this effect will be given as long as  
they are filed before the date for filing ini-  
tial comments herein. If they are filed later  
than that, they will not be considered in  
connection with the decision in this docket.

4. *Comments and reply comments; service.*  
Pursuant to applicable procedures set out in  
sections 1.415 and 1.420 of the Commission's  
Rules and Regulations, interested parties  
may file comments and reply comments on  
or before the dates set forth in the Notice of  
Proposed Rule Making to which this Appen-  
dix is attached. All submissions by parties to  
this proceeding or persons acting on behalf  
of such parties must be made in written  
comments, reply comments, or other appro-  
priate pleadings. Comments shall be served  
on the petitioner by the person filing the  
comments. Reply comments shall be served  
on the person(s) who filed comments to  
which the reply is directed. Such comments  
and reply comments shall be accompanied  
by a certificate of service. (See § 1.420 (a),  
(b), and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with  
the provisions of section 1.420 of the Com-  
mission's Rules and Regulations, an original

and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

[47 CFR Part 76]

[Docket No. 21472]

# "SATURATED" CABLE TELEVISION SYSTEMS

Order Extending Time for Filing Comments and Replies

AGENCY: Federal Communications Commission.

ACTION: Extension of time.

SUMMARY: In response to requests by the Community Antenna Television Association and Viacom International, and for good cause shown, a one month extension of time is granted to submit comments in response to the notice of proposed rulemaking in Docket 21472. This proceeding is concerned with problems associated with cable television systems that are required to carry more broadcast signals than they have capacity to carry.

DATES: Comments must now be received on or before February 23, 1978, and reply comments on or before March 27, 1978.

ADDRESSES: Send comments to: Federal Communications Commission, Washington, D.C. 20554.

## FOR FURTHER INFORMATION:

Contact James Hudgens, Cable Television Bureau, 202-632-6468.

SUPPLEMENTARY INFORMATION: Adopted: January 18, 1978.

Released: January 20, 1978.

In the matter of amendment of Part 76 of the Commission's rules and regulations (§§ 76.59-76.63) with respect to "saturated" cable television systems, Docket No. 21472.

1. Separate requests for a 30-day extension of time for submitting comments in the above entitled matter have been submitted by the Community Antenna Television Association (CATA) and Viacom International, Inc. (Viacom).

2. In support of its request, CATA explains that many of the independent cable operators which it represents are experiencing difficulty in accumulating the information which they wish to submit in this proceeding. Moreover, CATA continues, the Association recently has experienced both personnel and office changes and will be unable to meet the filing deadline of January 23, 1978. Such an extension, CATA urges, will allow the Association time to gather the needed data "to give the Commission a better perspective on the true ramifications of the problems encountered by the so-called 'saturated' systems."

3. Viacom, in support of its request, states that it owns many systems in the states of California and New York which are directly affected by the "saturated" problem and that it has commenced certain studies, many of them economic in nature, to submit to the Commission in this proceeding and needs the additional time to complete these studies.

4. In view of these considerations, good cause has been shown for granting the requested extension. Accordingly, it is ordered, That the dates for filing comments and replies in Docket 21472 are extended to February 23 and March 27, 1978, respectively.

This action is taken by the Chief, Cable Television Bureau, pursuant to the authority delegated by § 0.288 of the Commission's rules.

For the Federal Communications Commission.

JAMES R. HOBSON,  
Chief, Cable Television Bureau.

## DEPARTMENT OF TRANSPORTATION

Materials Transportation Bureau

[49 CFR Parts 173, 179]

[Docket No. HM-125; Notice No. 75-4]

### PROHIBITION OF NEW CONSTRUCTION OF SPECIFICATION DOT-112A AND 114A UNINSULATED PRESSURE TANK CAR TANKS

Withdrawal of Notice

AGENCY: Materials Transportation Bureau (the Bureau), DOT.

ACTION: Withdrawal of Notice No. 75-4.

SUMMARY: Notice 75-4 in Docket No. HM-125, published in the FEDERAL REGISTER on April 23, 1975 (40 FR 17853), which proposed amendments to §§ 173.314 and 179.101 of the Hazardous Materials Regulations to prohibit new construction of DOT specification 112A and 114A uninsulated tank car tanks for use in the transportation of hazardous materials, is being withdrawn as no longer necessary in light of amendments published by the Bureau on September 15, 1977 under Docket HM-144 (42 FR 46306).

EFFECTIVE DATE: January 26, 1978.

FOR FURTHER INFORMATION CONTACT:

William F. Black, Office of Safety, Federal Railroad Administration, Washington, D.C. 202-426-2748.

SUPPLEMENTARY INFORMATION: Notice 75-4 in Docket HM-125 was published by the Hazardous Materials Regulations Board and developed in response to several rail accidents involving DOT specification 112A and 114A tank car tanks, which had resulted in loss of life and substantial property damage. However, subsequent to issuance of Notice 75-4, the Bureau proposed more extensive amendments concerning modification of construction standards and criteria for the use of such tank car tanks (Docket HM-144; Notice 76-12; 41 FR 52324).

Notice 76-12 was the basis for the amendments published by the Bureau on September 15, 1977. These amendments addressed the concerns expressed in Notice 75-4 by requiring for all 112A and 114A tank car tanks: (1) bottom and top shelf couplers; (2) headshields or protective headjackets on those tank car tanks used to transport anhydrous ammonia and flammable gases; and (3) thermal protection on those tank car tanks used to transport flammable gases. In light of this action, the preamble to the final rule stated:

As was indicated in the notice, with the promulgation of standards and specifications upgrading existing specification 112 and 114 so as to improve design and construction, the Bureau will withdraw Notice 75-4, under Docket HM-125.

Accordingly, the Bureau hereby withdraws Notice 75-4 under Docket No. 125.

(49 U.S.C. 1804; 49 CFR 1.53(e))

[Docket No. MC-75-3; Notice 78-11]

### PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

Proposed Fire Resistance Test for Nonmetallic Fuel Tanks; Withdrawal of Notice of Proposed Rulemaking

AGENCY: Federal Highway Administration, DOT.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This notice withdraws a proposed fire resistance test for non-metallic fuel tanks on vehicles en-

gaged in interstate or foreign commerce. It has been determined that the proposed test does not assure a level of safety equivalent to that provided by present requirements.

## FOR FURTHER INFORMATION CONTACT:

Donnell W. Morrison, Chief, Vehicle Requirements Branch, Regulations Division, Bureau of Motor Carrier Safety, 202-426-1700; Mrs. Kathleen S. Markman, Office of the Chief Counsel, 202-426-0790, Federal Highway Administration, 400 7th Street SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.s.t. Monday-Friday.

SUPPLEMENTARY INFORMATION: On November 30, 1976, a notice of proposed rulemaking (NPRM) was published (41 FR 52500) proposing a new fire resistance test for nonmetallic fuel tanks as an alternative to the safety venting system test presently contained in the Federal Motor Carrier Safety Regulations (FMCSR). The NPRM was issued in response to a petition from Barry Plastic Industries, Inc., and the original closing date for comments was February 1, 1977. In response to several requests, a Notice published on March 24, 1977 (42 FR 15935) extended the comment closing date until May 1, 1977.

All comments and data received relative to this docket are available for public inspection in Room 3402 of the Department of Transportation Headquarters Building, located at 400 Seventh Street, SW., Washington, D.C.

A total of 16 organizations commented on the NPRM. Several companies made more than one submission. Two of the commenters supported the new test essentially as proposed—Barry Plastic Industries, Inc., (BPI), and Ford Motor Company.

BPI indicated it had conducted a number of fire and drop tests on its prototype plastic fuel tanks developed for heavy duty commercial vehicles but data from these tests were not submitted. Personnel of the Federal Highway Administration (FHWA) did observe a drop test demonstration of an empty tank at Fargo, North Dakota, on April 23, 1977.

BPI submitted technical data concerning the raw material (high density, cross-linked polyethylene (HDPE)) from which the fuel tanks are made. The data was from Phillips Petroleum Co. (Phillips), the HDPE supporter.

The data from Phillips on HDPE is oriented toward the use of this material for relatively small capacity fuel tanks for applications such as lawn mowers and marine outboard motors. The data does not deal adequately with the issue of fire resistance for fuel tanks with a capacity of 25 gallons or more, and on a commercial motor vehicle. The HDPE data also

raise questions concerning its suitability for large fuel tank applications in the following areas: age hardening, stress cracking, permeability, reduced strength at high temperatures, elongation, swell, and interaction with fuel. By contrast, the corresponding properties of the metals (i.e., steel and aluminum) used to make fuel tanks are well established and no detailed specification of these properties is necessary.

BPI cites the three principal advantages of nonmetallic fuel tanks (i.e., lightweight, low cost, and design shape flexibility) and urges that the proposed test "be viewed in the larger context of its application to the national and international urgent need for all concepts of potential fuel conservation."

Six other commenters supported the concept of allowing use of nonmetallic fuel tanks on commercial motor vehicles, but felt that modification should be made to the proposed test. Four of the commenters indicated the need for including requirements to ensure against degradation of nonmetallic fuel tanks due to weathering and aging (i.e., age hardening, permeability, and stress corrosion or cracking). Only one company, BASF Aktiengesellschaft of Germany, provided an example of what form such requirements might take by enclosing a copy of Regulation 34 from the Agreement concerning the Adoption of Uniform Conditions of Approval and Reciprocal Recognition of Approval for Motor Vehicle Equipment and Parts promulgated under the auspices of the United Nations for the regulation of international commerce.

Regulation No. 34 applies only to passenger cars, and contains detailed test requirements for plastic fuel tanks in Annex 5. The tests specified in Annex 5 include the following: impact resistance, mechanical strength, fuel permeability, resistance to fuel, resistance to fire, and resistance to high temperatures.

Regulation No. 34 goes well beyond the scope of the NPRM toward assuring a high level of continued safety for nonmetallic fuel tanks in automotive service. However, it is our considered opinion that even Regulation 34 does not go far enough in the area of fire resistance to assure a level of safety equivalent to that not afforded by commercial vehicle fuel tanks which meet the present requirements contained in § 393.67(d) of the FMCSR (49 CFR 393.67(d)).

The capacities of passenger car fuel tanks average 20 gallons or less, and seldom exceed 30 gallons. Heavy duty commercial motor vehicles, on the other hand, are typically equipped with fuel tanks having a combined capacity of 100 gallons, and frequently can carry as much as 300 gallons. In view of the wide disparity between the

fuel capacities of passenger cars and commercial motor vehicles, the imposing of stringent safety requirements on the latter with respect to the primary fuel hazard, fire, is considered amply justified.

The National Transportation Safety Board and the American Trucking Associations, Inc., expressed serious reservations about finalizing the proposed rule. Both stated that thorough analysis and testing should be conducted before proceeding with any final rulemaking action.

The final six comments, consisting of five metal fuel tank manufacturers and the International Brotherhood of Teamsters, were opposed to the proposed rule.

One of the metal tank manufacturers, Michigan Fleet Equipment of Grand Rapids, Michigan, sponsored a series of test comparing the safety performance of 50-gallon nonmetallic fuel tanks with that of similar metallic fuel tanks in a variety of circumstances. The test were conducted on April 14 and 15, 1977, and personnel from FHWA were invited and attended.

Some of the tests were conducted using Michigan Fleet's own facilities, and the remainder were conducted by the Industrial Testing Laboratory (ITL) of Grand Rapids, Mich., an independent testing firm. As indicated at the beginning of this Notice, the details of these tests, including movies and slides, are available for public inspection in the Bureau of Motor Carrier Safety Docket Room.

The most convincing phase of the testing was a series conducted by ITL on April 14, 1977. Four 50-gallon tanks were tested, one made of steel, one of aluminum, and two of polyethylene.

One of the polyethylene tanks was manufactured by the petitioner, BPI. It was noted by the FHWA personnel who witnessed the fire tests that the manufacturer's label on this tank bore the phrase "Meets all FHWA requirements."

The four tests were conducted in an identical fashion. The tank being tested was supported in an upright position by a steel cradle. The cradle in turn was placed in a fire pan which measured 3 feet by 5½ feet. The pan was filled partially with water, then 10 gallons of diesel fuel were added—enough to support a fire for 6 to 7 minutes, and typical of the amount of fuel present in an accident involving a passenger car fuel tank rupture. At the start of each test, the bottom of the tank was 10 inches above the fuel level in the fire pan, typical of a saddle tank's position relative to the roadway on a truck tractor. All tanks were filled to ¾ capacity with diesel fuel.

The results of each test are summarized in the order conducted: 1. *Steel tank*.—Manufactured by Snyder Tank

## PROPOSED RULES

Corp. About 1 minute after the fire was ignited, the spring-loaded vent in the fill cap was opened, causing a blow torch effect. After about 7 minutes, the fire in the pan burned out, leaving only a small flame at the vent opening. This flame would probably have burned for some time, but was easily extinguished after a total elapsed time of about 10 minutes.

After the test, the tank was intact. No liquid contents had been released, and the only opening was above the liquid level in the fill cap.

2. *Aluminum tank.* Manufactured by Snyder Tank Corp. As in case of the steel tank, the spring-loaded vent in the fill cap opened after about 1 minute. After about 3 minutes, an opening in the tank was observed above the liquid level. As the fire continued, this opening enlarged, but only above the liquid level in the tank.

At the end of about 7 minutes, the fire in the pan burned out leaving a moderate, but contained fire burning through the opening in the tank. This fire was allowed to burn until it was obvious it had reached a steady state.

At the end of the test, an opening of about 2 square feet existed above the liquid level in the tank. The fire burning through this opening could be easily extinguished, and a total of no more than 1 or 2 gallons of the tank's contents had been consumed.

3. *Plastic tank.* Manufactured by Barry Plastic Industries, Inc. Less than 2 minutes after the fire was ignited, the tank began to sag noticeably on the cradle, and drops of molten plastic were running off the tank into the fire pan. The molten plastic added to the intensity of the fire. Total release of tank contents into the fire pan occurred at less than 2½ minutes resulting in a very intense fire which burned for 20 to 30 minutes. It would not have been feasible to control the fire with an extinguisher once release of the contents had occurred.

After the fire, several pieces of plastic remained in the water at the bottom of the fire pan.

4. *Plastic tank.* Manufactured by Muncie. The results of this test were very similar to those of test No. 3 above, with the possible exception that sagging, dripping, and release occurred slightly earlier with this tank.

The principal hazard with a metallic fuel tank has long been recognized as high pressure buildup when exposed to fire with a possible resultant violent explosion. The safety venting system test specified in 49 CFR 393.67(d) was developed to preclude the possibility of pressure buildup—even in the worst case of an inverted tank. The tests performed by ITL demonstrated convincingly that the potential danger of explosion with fuel tanks meeting the present requirements is minimized. Further, the tests showed that steel

and aluminum tanks are capable of withstanding exposure to a severe fire, one which could easily occur in an accident situation, without release of contents.

In the case of a nonmetallic fuel tank, the principal hazard is that, when exposed to fire, the tank will melt or burn resulting in a total release of contents. The petitioner contends that this "nonviolent release of contents" is actually a safety mechanism in that the tank does not explode. The FHWA disagrees that adding a large quantity of fuel to a fire could be considered as a "nonviolent release." Also, as stated above, we believe the likelihood of metallic tanks exploding is minimized by the present venting requirements. None of the comments submitted to the docket identified safety advantages of nonmetallic over metallic fuel tanks which counteract the inherent inability of the former to withstand exposure to fire for more than a few minutes.

The fire tests conducted by ITL were more severe with respect to temperature than the test proposed by the petitioner. In a subsequent temperature gradient test, ITL determined that a temperature of 1000° F. at the tank surface could be maintained only if the fuel tanks were suspended 100 inches above the fire pan. The ITL method of locating the tank 10 inches above the fire, while being more severe, is more representative of a realistic accident situation.

The inability of the petitioner's fuel tank to withstand the fire exposure for even 2½ minutes does not, in FHWA's opinion, afford occupants of the vehicle, who may be temporarily stunned or trapped after a collision, adequate time for escape. Further, if the accident involves other vehicles or occurs in a populated area, the ultimate release of contents could easily transform a relatively minor accident into a major catastrophe.

In view of the foregoing, the November 30, 1976 NPRM is withdrawn and the petition from Barry Plastic Industries, Inc. is hereby denied.

AUTHORITY: 49 U.S.C. 304, 322; 18 U.S.C. 831-35; Pub. L. 93-633, 88 Stat., 8156 (49 U.S.C. 1801, et. seq.); 49 CFR 1.48, 301.60.

[Docket No. FE77-05; Notice 3]

NONPASSENGER AUTOMOBILE AVERAGE  
FUEL ECONOMY STANDARDS

Limited Extension of Deadline for Public  
Comments

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Limited extension of deadline for submission of public comments.

SUMMARY: On Thursday, December 15, 1977, a notice of proposed rulemaking and public hearing was published (42 FR 61834) by this agency, proposing the establishment of fuel economy standards for pickup trucks, vans, and other "nonpassenger automobiles" manufactured in model years 1980-81. That notice specified a deadline of January 30, 1978, for the submission of written comments on the proposal. Subsequently, several participants in this proceeding requested that this deadline be extended by 10 to 45 days. Due to statutory constraints regarding the time for issuance of these standards, it was necessary to deny those requests except in one limited respect. The agency will consider data or other additional material which is supplemental to submissions made by January 30, if that supplemental material is received by February 9, 1978.

DATE: The deadline for submission of written comments on this rulemaking is January 30, 1978. Material supplementing submissions made by January 30 must be received by February 9, 1978. Material submitted after that date will be considered to the extent possible.

ADDRESSES: Comments must be submitted (preferably in ten copies) in writing to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW, Washington, D.C. 20590. Submissions containing information for which confidential treatment is requested should be submitted (preferably in three copies) to: Chief Counsel, National Highway Traffic Safety Administration, Room 5219, 400 Seventh Street SW., Washington, D.C. 20590, and seven additional copies from which the purportedly confidential information has been deleted should be sent to the Docket Section.

FOR FURTHER INFORMATION  
CONTACT:

Mr. George L. Parker, Office of Automotive Fuel Economy, room 4102, National Highway Traffic

Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590, 202-472-6902.

(Sec. 9, Pub. L. 89-670, 80 Stat. 931 (49 U.S.C. 1657); sec. 502, Pub. L. 94-163, 89 Stat. 902 (15 U.S.C. 2002); delegation of authority at 41 FR 25015, June 22, 1976.)

Issued on January 19, 1978.

JOAN CLAYBROOK,  
Administrator, National Highway  
Traffic Safety Administration.

## DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric  
Administration

[50 CFR Part 611]

NEW ENGLAND FISHERY MANAGEMENT  
COUNCIL AND MID-ATLANTIC FISHERY  
MANAGEMENT COUNCIL

Amendment to Public Hearing on Proposed  
Regulation of Cod, Haddock and Yellowtail  
Flounder

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Public hearing announcement.

SUMMARY: This notice announces public hearings of the New England Fishery Management Council and the Mid-Atlantic Fishery Management Council to receive comments on the proposed regulation of Cod, Haddock and Yellowtail Flounder.

## PROPOSED RULES

DATES: The hearings will be held on January 26, January 27, and January 30, 1978. See Supplementary Information below.

ADDRESSES: The hearings will be held at Atlantic City, N.J., Chincoteague, Va., and Centereach, N.Y. See Supplementary Information below.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Spencer Apollonio, Executive Director, New England Fishery Management Council, Peabody Office Building, 1 Newbury Street, Peabody, Mass. 01960, 617-535-5450.

Mr. John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, Federal Building, Room 2115, North and New Streets, Dover, Del. 19901, 302-674-2331.

## SUPPLEMENTARY INFORMATION:

Notice is hereby given that the announcement pertaining to the New England Fishery Management Council's meetings published in the FEDERAL REGISTER, Vol. 43, No. 784, Wednesday, January 4, 1978, is amended to reflect additional public hearings to be held by the Mid-Atlantic Fishery Management Council on the 1978 Groundfish (cod, haddock, yellowtail flounder) management plan. The hearings will be held to receive public comment on the proposed regulation of the fisheries of cod, haddock, and yellowtail flounder in the Fishery Conservation Zone established under the Fishery Conservation Management Act of 1976.

The proposed plan would include the same regulations as in 1977 for li-

censing, mesh sizes, closed areas and minimum sizes for cod, haddock and yellowtail flounder, and quarterly quotas and landings restrictions for yellowtail flounder. It would amend the requirements for vessel identification, and set quarterly quotas for cod and haddock. Other modifications to the 1977 plan which may be considered by the Councils will be presented for consideration of the public at the Public Hearings.

The hearings will be held from 7 p.m. to 10 p.m. at the following locations and dates: January 26, 1978, Holiday Inn, on the Boardwalk at Missouri Avenue, Atlantic City, N.J. 08404; January 27, 1978, Flag Ship Restaurant, Maddox Boulevard, Chincoteague, Va. 23336; January 30, 1978, Holiday Inn, 4089 Nesconset Highway, Centereach, N.Y. 11720.

For further information, contact Mr. Spencer Apollonio, Executive Director, New England Fishery Management Council, Peabody Office Building, 1 Newbury Street, Peabody, Mass. 01960, 617-535-5450, or Mr. John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, Federal Building, Room 2115, North and New Streets, Dover, Del. 19901, 302-674-2331.

Dated: January 23, 1978.

WINFRED H. MEIBOHM,  
Associate Director, National  
Marine Fisheries Service.

### ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

#### NATIONAL ADVISORY COMMITTEE ON AN ACCESSIBLE ENVIRONMENT

##### Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) that the first 1978 meeting of the National Advisory Committee on an Accessible Environment will be held on February 12 and 13, 1978, at 9 a.m. to 5:30 p.m. The February 12 meeting, from 9 a.m. to 11:30 a.m., will be held at the Century Center Hotel, 2000 Century Boulevard NE., Atlanta, Ga. The afternoon meeting, from 1 p.m. to 5:30 p.m., will be held at the Atlanta Veterans Administration Hospital, 1670 Clairmont Road, Decatur, Ga. The February 13 meeting will be held at the Century Center Hotel from 9 a.m. to 5 p.m.

The National Advisory Committee on an Accessible Environment is established under the 1974 amendments to the Rehabilitation Act, Pub. L. 93-516, 29 U.S.C. 792, et seq. The Committee is established to provide advice, guidance, and recommendations to the Architectural and Transportation Barriers Compliance Board in carrying out its functions.

The meeting of the Committee shall be open to the public. On the first morning, the Committee will discuss the status of activities since the previous meeting and orient themselves for the afternoon Public Awareness Session. During the afternoon of the first day, the National Advisory Committee will host a Public Awareness Session concerning the activities and enabling legislation of the Architectural and Transportation Barriers Compliance Board and its Advisory Committee. The specific subject areas of the Public Awareness Session concern communications barriers and transportation accessibility. On the second day, the National Advisory Committee will discuss the status of previous recommendations to the Architectural and Transportation Barriers Compliance Board, and establish its objectives for the 1978 year.

Persons interested in attending the meeting should contact Ms. Laurinda

Steele, Coordinator, Architectural and Transportation Barriers Compliance Board, Mary E. Switzer Building, 330 C Street SW., Washington, D.C. 20201, Telephone 202-245-1801.

ROBERT JOHNSON,  
Executive Director, Architectural and Transportation Barriers Compliance Board.

### DEPARTMENT OF COMMERCE

#### Industry and Trade Administration

### TECHNOLOGY TRANSFER SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

#### Partially Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is hereby given that a meeting of the Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee will be held on Wednesday, February 15, 1978, at 1 p.m., in Room 4833, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974 and January 13, 1977, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee was initially established on April 10, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this Subcommittee, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Technology Transfer Subcommittee was formed to examine the impact of transferring Automatic Data Processing technology to Communist destinations.

The Subcommittee meeting agenda has four parts:

#### GENERAL SESSION

(1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Review the reports prepared on the two critical technologies selected as being of high importance to the Department of Defense and which are applicable to the Computer Systems Technical Advisory Committee's scope of interest.

#### EXECUTIVE SESSION

(4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4) the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on January 27, 1977, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended by section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under Executive Order 11652. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone A/C 202-377-4196.

The complete notice of determination to close meetings or portions thereof of the series of meetings of

## NOTICES

the Computer Systems Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on February 2, 1977 (42 FR 8374).

Dated: January 23, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

[FR Doc. 78-2266 Filed 1-25-78; 8:45 am]

[3510-17]

#### Office of the Secretary

(Dept. Organization Order 10-8, Amdt. 2)

### ASSISTANT SECRETARY FOR MARITIME AFFAIRS

#### Statement of Organization, Functions, and Delegation of Authority

This order effective December 21, 1977 further amends the material appearing at 38 FR 19707 of July 23, 1973, 41 FR 41128 of September 21, 1976, and 41 FR 43753 of October 4, 1976.

Department Organization Order 10-8, dated July 5, 1973, is hereby further amended as shown below. The purpose of this amendment is to authorize the General Counsel and his Deputy to act, in lieu of the Secretary, to waive or modify procedural requirements in cases involving appeals to the Secretary from Maritime Subsidy Board actions (paragraph 7.06).

In Section 7, "Review and finality of actions by Maritime Subsidy Board," paragraph .06 is revised to read as follows:

"06 The General Counsel or Deputy General Counsel of the Department by written order may, for good cause and/or in order to prevent undue hardship in any particular case, waive or modify the procedural provisions of this section regarding filing dates and numbers of copies."

Effective date: December 21, 1977.

ELSA A. PORTER,  
Assistant Secretary for Administration.

[FR Doc. 78-2280 Filed 1-25-78; 8:45 am]

[2510-17]

(Dept. Organization Order 10-9)

### CHIEF ECONOMIST OF THE DEPARTMENT

#### Statement of Organization, Functions, and Delegation of Authority

This order effective December 29, 1977 supersedes the material appearing at 41 FR 8520 of February 27, 1976.

SECTION 1.—Purpose. 01 This order prescribes the scope of authority and

the functions of the Chief Economist of the Department of Commerce (the "Chief Economist").

02 This revision reflects the establishment of the Office of Economic Affairs (paragraph 5.b.), the establishment of offices resulting from the transfer of the statistical policy function from OMB (paragraph 5.c.), and industrial economic analysis functions from ITA (paragraph 5.d.).

Sec. 2.—Administrative designation. The position of Chief Economist is hereby continued, as designated by the Secretary of Commerce on February 2, 1976. The Chief Economist shall report and be responsible to the Secretary.

Sec. 3.—Delegation of authority. Pursuant to the authority vested in the Secretary of Commerce by law, and subject to such policies and directives as the Secretary may prescribe, the Chief Economist:

a. Is delegated the authorities of the Secretary contained in Executive Order 12013 of October 7, 1977, which provides for the performance of certain functions related to statistical policy and standards. The authorities previously delegated by the Secretary under Executive Orders 10033, dated February 8, 1949, and 11961, dated January 19, 1977, to the Bureau of Economic Analysis and the ITA shall remain in effect.

b. Is authorized to exercise the functions contained in 15 U.S.C. 1516 which relate to statistical information.

c. Is authorized to exercise the functions contained in 15 U.S.C. 171 et seq. relating to the collection and dissemination of statistical information.

d. May exercise other authorities of the Secretary as applicable to performing the functions assigned in this order.

e. May redelegate authority and prescribe conditions on its exercise.

Sec. 4.—Functions. 01 The Chief Economist shall advise the Secretary on economic and statistical affairs; shall serve as adviser to other Commerce officials with respect to economic and statistical matters; and shall serve as the Department's liaison with the Council of Economic Advisers, the Council on Wage and Price Stability and other government agencies concerned with economic and statistical affairs.

02 The Chief Economist shall exercise policy direction and general supervision over the Bureau of the Census and the Bureau of Economic Analysis.

Sec. 5.—Office of the Chief Economist. The Chief Economist shall be assisted by the following officials who shall have responsibilities described in this section.

a. The "Deputy Chief Economist" shall be the principal assistant to the Chief Economist and shall assume full responsibility for carrying out the

functions and duties of the Chief Economist during the latter's absence.

b. The "Director of the Office of Economic Affairs" shall be responsible for the following functions:

1. Monitor and interpret current economic developments, prepare projections of the economic outlook, and draft speeches, articles and reports on economic issues.

2. Review and evaluate the economic impact of proposed legislation and assist the Office of the General Counsel in preparing Departmental positions on such legislation.

3. Review and evaluate analyses by agencies within and outside of Commerce on the economic impact of government regulations and legislation pursuant to Executive Orders 11821 and 11949 and Department Administrative Order 218-6.

4. Represent the Chief Economist in interagency working groups involved in the preparation of economic forecasts and similar material.

5. Assist the Chief Economist in advising the Secretary, the Council of Economic Advisers, the Council on Wage and Price Stability and related agencies on economic policy matters.

6. In conjunction with the Office of Communications, coordinate contacts with the communications media concerning press releases, public statements and news conferences by the Chief Economist.

7. Review material prepared for use by other Departmental officials to assure that the information contained therein regarding the current economic situation is accurate and timely.

c. The "Director of the Office of Federal Statistical Policy and Standards" shall be responsible for the following functions:

1. Plan and promote the development of an improved organizational structure for the performance of statistical services by the Federal Government;

2. Foster the development of coordinated programs so that information collected and analyzed by Federal agencies meets the needs of policymakers in operational and research programs;

3. Reduce burdens imposed on respondents to statistical surveys by eliminating duplication in existing statistical programs and research services and by promoting joint agency programs to plan, conduct, and use statistical and research methods and materials;

4. Initiate actions, when appropriate, to designate single collecting agencies to serve the needs of all agencies in a particular field and assure the availability and interchange of statistical and analytical information among Federal agencies;

5. Investigate and determine whether proposals to collect information for

statistical purposes meet the needs of Federal agencies and the public;

6. Coordinate the activities of Federal, State, and local cooperative programs in statistics, with particular emphasis on those areas where Federal and State programs overlap;

7. Identify and resolve common Federal statistical problems and policies through the establishment of, and reliance on, interagency advisory committees;

8. Act as liaison in the coordination of statistical reporting between the Federal Government and representatives of business and industry as appropriate;

9. Serve as lead agency for the U.S. Government in its relationship and activities with international statistical organizations;

10. Development and promulgate Government-wide standards with respect to classification systems, statistical procedures, and data dissemination;

11. In conjunction with the Office of the General Counsel, provide advice to the Office of Management and Budget with respect to proposed legislation on statistical matters; the review and preparation of that portion of the annual Budget of the U.S. Government dealing with gathering, interpreting, and disseminating statistics and statistical information; and on clearance of proposed statistical reports; and

12. Provide assistance to the Cabinet-level Statistical Policy Coordination Committee in its efforts to improve Federal statistical services.

d. The "Director of the Office of Industrial Economics" shall be responsible for the following functions:

1. Coordinate the development and maintenance of a data system to aid in the analysis of issues relating to specific industries or sectors of the economy;

2. Perform research and analysis on industrial and sectoral problems, including matters such as long-run growth and stabilization, cost-price relationships, short-run forecasts of industrial activity on a detailed basis and the impact of economic conditions on businesses of varying sizes;

3. Evaluate the impact of proposed government rules, regulations and legislation on specific industries or sectors;

4. Assess the outlook for capacity utilization, by industry, and the prospects of supply and material shortages;

5. Determine the impact on specific industries of major developments and events, such as natural disasters, strikes or major price increases;

6. Review and comment on industrial analysis studies performed by other Commerce units; and

7. Assist the Chief Economist in advising the Secretary, the Council of Economic Advisers, the Council on Wage and Price Stability and other economic policy agencies on matters affecting specific industries and sectors.

Effective date: December 29, 1977.

ELSA A. PORTER,  
Assistant Secretary for  
Administration.

[FR Doc. 78-2281 Filed 1-25-78; 8:45 am]

### [3510-17]

[Dept. Organization Order 45-1]

### ECONOMIC DEVELOPMENT ADMINISTRATION

Statement of Organization, Functions, and  
Delegation of Authority

This order effective October 1, 1977, supersedes the materials appearing at 40 FR 5549 of February 6, 1975, 40 FR 7111 of February 19, 1975, 41 FR 5858 of February 10, 1976, 42 FR 35672 of July 11, 1977, and 42 FR 37433 of July 21, 1977.

SECTION 1. Purpose. .01 This order prescribes the organization and assignment of functions within the Economic Development Administration (EDA). Department Organization Order 10-4, "Assistant Secretary for Economic Development," prescribes the scope of authority of the Assistant Secretary for Economic Development and the functions of EDA.

.02 This revision changes the title of the Deputy Assistant Secretary for Economic Development Planning to the Deputy Assistant Secretary for Economic Development Policy and Planning (section 4.); transfers responsibility for the formulation, development, and definition of policy issues from the Deputy Assistant Secretary (section 3.) to the Deputy Assistant Secretary for Economic Development Policy and Planning; and establishes the Office of Policy Development and Coordination (subparagraph 4.01d.) to execute these responsibilities. In addition, this revision incorporates all outstanding amendments.

SEC. 2. Organization structure. The principal organization structure and line of authority of the Economic Development Administration shall be as depicted in the attached organization chart (exhibit 1). A copy of the organization chart is on file with the original of this document with the Office of the Federal Register.

SEC. 3. Office of the Assistant Secretary for Economic Development. .01 The Assistant Secretary directs the programs and is responsible for the conduct of all activities, including overall direction and coordination of the regional offices, of EDA subject to the policies and directives prescribed by the Secretary of Commerce.

.02 The Office of Special Projects shall serve as a principal staff office of the Assistant Secretary. The Office shall provide advice, direction, and coordination for the development and implementation of selected innovative economic development programs and projects to assist selected urban areas, special areas such as the Mexican-American border and Puerto Rico, and special groups identified by the Assistant Secretary. In accomplishing these functions the Office shall develop necessary implementation plans, strategies, and procedures and coordinate, as appropriate, with other Federal, State, and local organizations. The Office shall be headed by a director who shall report and be responsible to the Assistant Secretary.

.03 The Deputy Assistant Secretary shall serve as Executive Secretary and provide or arrange for staff support, as required, for the National Public Advisory Committee on Regional Economic Development; represent the Administration on international organizations when so designated; establish uniform overview standards and procedures to be followed by the regional offices' environmental specialists in their review of projects under sections 101 and 201 of the Public Works and Economic Development Act of 1965, as amended (the "Act"); supervise the activities of the investigations and inspections staff and the Indian program staff; assist the Assistant Secretary in all matters affecting EDA; and perform the duties of the Assistant Secretary during the latter's absence.

.04 The Investigations and Inspections Staff shall investigate alleged violations of law or other impropriety on the part of applicants or recipients; conduct inspections relating to the conduct and performance of field personnel and review the suitability of applicants for financial assistance. The staff shall also conduct special investigations requested by the Assistant Secretary, as well as inspections to assure the physical security of all EDA offices.

.05 The Indian Program Staff shall administer the Indian economic development program and advise the Deputy Assistant Secretary concerning its general effectiveness. It shall recommend approval or denial of projects proposed for Indian areas except all projects under sections 101 and 201 of the Act which do not require special action; and negotiate and monitor interagency agreements relating to Indian economic development. (Projects requiring special action are those which are called to Washington for purposes of monitoring, involve controversial aspects, or—for example—require an environmental impact statement which must be approved by the Special Assistant for Environmental Affairs.)

SEC. 4. Deputy Assistant Secretary for Economic Development Policy and Planning. .01 The Deputy Assistant Secretary for Economic Development Policy and Planning is the principal adviser to the Assistant Secretary on matters of overall EDA policy and development planning; including the development, recommendation, and formulation of EDA policy strategy and initiatives, and policies for improving Federal, State, and local government economic programming. Through the offices reporting to him, the Deputy Assistant Secretary shall:

a. Coordinate and direct EDA economic development planning activities relating to regions, districts (including economic development centers), redevelopment areas, and other areas of substantial needs;

b. Formulate and recommend to the Assistant Secretary standards and criteria for administration of economic development planning by regional offices;

c. Exercise responsibility for EDA's interagency and intergovernmental relations and its relations with those quasi-public and private agencies interested in economic development for districts and areas;

d. Recommend designation of economic development districts, economic development centers, redevelopment areas, and Title I areas which fulfill the statutory criteria;

e. Conduct an annual review of the areas and districts designated for assistance under the Act, and recommend such modifications or terminations of eligibility as may be appropriate;

f. Provide economic data, analyses, and studies, and planning grants to development districts and areas; and

g. Recommend technical assistance proposals for areas and districts.

.02 The Deputy Assistant Secretary for Economic Development Policy and Planning shall direct and supervise the following organization elements:

a. The Office of Planning and Program Support which shall:

1. Have prime responsibility for coordinating the preparation, review, and approval of EDA-developed planning documents;

2. Develop analyses and recommended strategies of economic development, including a system of priorities of EDA's financial assistance, for areas and districts;

3. Develop economic development planning systems that reflect EDA objectives and respond to local and regional problems and potentials;

4. Develop the methods and techniques needed to evaluate established planning systems including the ability of local representatives to understand and utilize the planning system as well as the compatibility of locally developed plans with annual agency objectives;

5. Participate in the development of budgetary requirements and coordinate with the Office of Administration and Program Analysis in the allocation of resources among regional offices as well as among EDA programs;

6. Provide information and special services on domestic and international regional development planning;

7. Provide guidance to regional offices on the application of economic development planning techniques and systems to the specific problems of the regions;

8. Advise and assist regional offices in implementing economic planning activities after the formal designation of economic development districts and areas;

9. Guide regional offices in assisting development organizations to prepare overall economic development programs (OEDPs);

10. In coordination with regional offices, provide guidance to economic development district and area organizations on the techniques and methods of economic analysis;

11. Formulate planning and development policies and procedures for guiding the preparation and submission of district and area OEDPs, including the establishment of policies and standards for their review by regional offices;

12. Initiate suspension of the receipt and processing of all applications for assistance from areas and districts which fail to submit acceptable OEDP progress reports;

13. Evaluate services, efficient existing capacity, and competitive producers for use in making determinations on excess capacity, pursuant to section 702 of the Act;

14. Identify industries which have demonstrated growth trends for the purpose of relating those industries to agency plans; and

15. Certify and decertify firms and communities as eligible to apply for adjustment assistance under the Trade Act of 1974 and perform those functions of the Secretary in section 264 of the Trade Act except subsection (b) which is reserved to the Secretary.

b. The Office of Economic Research which shall:

1. Direct and conduct a program of internal and external economic research designed to meet both planning and operating needs and concerned with economic development problems and opportunities for geographical subdivisions (e.g., regions, development districts, redevelopment areas, etc.);

2. Arrange for and monitor EDA-sponsored research conducted by other elements of the Department, other Government agencies, or private organizations;

3. Encourage and stimulate research and data collection on economic devel-

opment, both in and out of Government;

4. Review, evaluate, integrate, and disseminate: (a) The results of research sponsored by EDA, and (b) current methodological and other research findings wherever generated that are relevant to EDA's objectives and programs;

5. Maintain a central reference collection of economic development materials; and

6. Study and evaluate the effects of Government policies on subnational economic development.

c. The Office of Development Organizations which shall:

1. Design and direct a program to establish multi-county development districts in consultation with and with the assistance and cooperation of EDA regional offices, and with the concurrence of the States affected;

2. Initiate policy guidelines and criteria concerning the development district and area organizations for use by other elements of EDA, and by appropriate State and local agencies;

3. Evaluate and approve proposed area and district economic development organizations;

4. Assist regional office efforts to organize economic development districts, including the recruitment of staff;

5. Develop and recommend model administrative budgets, reporting procedures, and job specifications for use by area and district economic development organizations;

6. Establish policies and standards for the review of progress reports by regional offices in cooperation with the Office of Planning and Program Support;

7. Design a system of records to indicate progress as compared to planned objectives on all grants made under section 301(b) of the Act and assist regional offices in implementing the system;

8. Provide guidelines to regional offices in order to administer planning grants made under the Act to State, district, and area agencies;

9. Evaluate and recommend candidates for appointments to professional staff positions in economic development districts in cooperation with the regional offices;

10. Review regional office recommendations for the designation and/or termination of economic development districts and economic development centers;

11. Promptly advise interested Federal, State, and local agencies of all changes affecting the eligibility status of existing or proposed economic development districts;

12. Prepare and distribute maps and related materials showing organizational and designation status of economic development districts;

13. Determine whether an area meets the statistical criteria to qualify

as a redevelopment area or a Title I area;

14. Recommend changes in the qualification status of redevelopment areas and Title I areas;

15. Recommend designation or change in the designation status of redevelopment or Title I areas;

16. Conduct an annual review of area eligibility and recommend termination of areas no longer eligible for designation; and

17. Recommend minor adjustments to boundaries of redevelopment areas.

d. The Office of Policy Development and Coordination which shall:

1. Serve as the principal advisor to the Deputy Assistant Secretary/Planning on all policy matters affecting the mission, objectives, and goals of EDA;

2. Develop, recommend, and coordinate the formulation of overall EDA policy strategy;

3. Exercise responsibility for EDA's interagency and intergovernmental relations and its relations with those quasi-public and private agencies interested in economic development;

4. Develop policies for improving Federal, State, and local government economic development programming;

5. Provide staff assistance in defining policy issues, coordinate the development and formulation of policy for consideration by the Assistant Secretary; and exercise principal staff responsibility for policy review and evaluation;

6. Coordinate and manage EDA's representation on interagency committees;

7. Review and evaluate legislative and administrative proposals related to economic development and intergovernmental relations for substantive policy implications;

8. Maintain liaison and interagency coordination, on policy matters, with the Office of Management and Budget; and

9. Coordinate and assist in the formulation of policy development efforts undertaken by the various program units of EDA.

Sec. 5. *Deputy Assistant Secretary for Economic Development Operations.* .01 The Deputy Assistant Secretary for Economic Development Operations, through the offices reporting to him, shall:

a. Provide coordinated direction of all EDA activities related to financial assistance for or to physical projects which will improve local economies and supervise the execution of this aspect of EDA's program;

b. Recommend standards, policies, and criteria for the technical evaluation and processing of project applications for financial assistance, including public works grants and loans, business loans, and technical assistance;

c. Direct, conduct, coordinate, monitor and, where appropriate, originate

technical assistance projects (including management assistance and feasibility studies) subject to coordination with the Deputy Assistant Secretary for Economic Development Planning on proposed technical assistance projects related to area, district or center planning;

d. Review and recommend approval or denial of project applications except all projects under sections 101 and 201 of the Act, which do not require special action. (Projects requiring special action are those which are called to Washington for purposes of monitoring, involve controversial aspects, or—for example—require an environmental impact statement which must be approved by the Special Assistant for Environmental Affairs.)

e. Evaluate activities of the regional offices in applying policies, standards, and procedures for processing project applications to assure efficient, effective, and economical accomplishment of approved projects;

f. Execute agreements with other Federal departments and agencies for the conduct of specialized technical assistance; and

g. Study and evaluate the manpower development and training needs of redevelopment areas and of economic development districts, and recommend appropriate joint action with the Departments of Labor and Health, Education and Welfare.

.02 The Deputy Assistant Secretary for Economic Development Operations shall direct and supervise the following organization elements:

a. The Office of Public Works which shall:

1. Direct and oversee all phases of the public work program;

2. Recommend policies, standards and procedures for accepting, processing, reviewing, and approving requests for public works grants and loans, consistent with the procedures contained in the Act;

3. Maintain surveillance, evaluate progress, and submit reports on the application by regional offices of standards, policies, and procedures to assure efficient, effective, and economical accomplishment of the approved projects;

4. Arrange for services from other Federal agencies for the administration of approved public works grants and loans;

5. Maintain operating liaison with Federal agencies having grant-in-aid programs which may supplement EDA programs, and with those Federal agencies delegated responsibility for administering or servicing EDA projects;

6. Make program and policy reviews and initiate action for the reservation of funds for all public works grants and loans, overruns, amendments, and revisions, and concur in all major

amendments and major revisions to approved projects which require no additional funding; and

7. For projects which require special action at the Washington level, review the project file and recommend approval or disapproval to the Assistant Secretary.

b. The Office of Business Development which shall:

1. Recommend policies, standards, and procedures for processing and approving applications for financial assistance for industrial or commercial usage, consistent with the criteria contained in the Act;

2. Review applications for commercial or industrial loans and working capital guarantees, and recommend approval or denial;

3. Maintain surveillance over the implementation by regional offices and policies, standards, and procedures related to the processing of loan applications for business development to assure efficient, effective, and economical accomplishment of the business development programs;

4. Develop and implement EDA approved agreements with the Small Business Administration and other Federal agencies to secure support of the business development programs;

5. Monitor operations of industrial and commercial projects approved by EDA, including outstanding loans for projects approved under provisions of the Area Redevelopment Act, and prepare reports of accomplishments;

6. Arrange for or provide needed specialized assistance to recipients of EDA industrial and commercial loans and guarantees and Area Redevelopment Act loans;

7. Develop policies, plans, and procedures to improve or terminate projects in default of loan conditions;

8. Provide assistance in the liquidation of the affairs and functions conducted under the Area Redevelopment Act;

9. Establish contact and promote large scale involvement of the private sector in EDA's economic development activities; and

10. Maintain operating liaison with other agencies concerned with the activities of this Office.

c. The Office of Technical Assistance which shall:

1. Propose policies, standards, and procedures pertaining to the acceptance, review, and approval of requests for technical assistance, consistent with the criteria of the Act;

2. Plan and develop technical assistance projects in cooperation with other offices, where appropriate;

3. Direct or monitor the performance and implementation of approved technical assistance projects;

4. Recommend policies, standards, and procedures for evaluating and utilizing the results of technical assistance projects;

5. Execute agreements with other Federal departments and agencies for the conduct of specialized technical assistance;

6. Recommend policies and practices to facilitate effective relationships with other Government agencies which have complementary programs for technical assistance;

7. Maintain surveillance over the application of policies, standards, and procedures by the regional offices in processing project applications;

8. Review and recommend project applications for approval or denial; and

9. Coordinate the efforts of EDA in the manpower training program.

Sec. 6. *Office of Administration and Program Analysis.* The Office of Administration and Program Analysis shall be responsible for providing the full range of administration management services and for program analysis and evaluation functions with respect to EDA's substantive programs. These functions shall be carried out through the principal organizational elements of the Office, as prescribed below, except that personnel management services, accounting for administrative funds, and inhouse equal opportunity staff services shall be obtained from the appropriate departmental offices.

.01 The Program Analysis Division shall develop and implement measures of resource utilization for programing and budgeting purposes; develop and conduct a systematic program evaluation effort for EDA; prepare the annual Program Memorandum and analytical studies required by the Office of Management and Budget; and develop cost benefits studies to aid the Assistant Secretary in making choices and decisions between alternative programs for economic development projects, activities, and programs in achieving the objectives of the Act and EDA.

.02 The Management Analysis Division shall conduct organization and management studies and surveys; plan and conduct a program for achieving maximum economy, effectiveness, and efficiency, and for obtaining optimum personnel utilization; develop and conduct a program for the efficient management of all official records, including an issuance system for administrative and program orders, and the design and control of official forms; and develop and administer a report control system for all administrative and operational reports.

.03 The Budget Division shall develop and manage an integrated financial management and budgeting system for EDA. It shall develop and prepare the annual budget for EDA; be responsible for the total financial program of EDA, and for the fiscal aspects of EDA programs entrusted to

other Federal agencies; and operate a fiscal control system for both program and administrative expenses consistent with the requirements of the Anti-Deficiency Act, which shall include but not be restricted to, allotment of funds; operating budgets, employment limitations, and analyses of reports and proposed actions relating thereto.

.04 The Accounting Division shall develop and maintain accounting systems and prepare financial reports for internal and external use, according to the needs of management, the requirements of laws or regulations, and established policies, analyze financial and operating data to assure that financial and management policies are being followed; and serve as the liaison with the Office of the Secretary and other Federal agencies in all accounting matters.

.05 The Information Systems and Services Division shall plan, develop, acquire, and coordinate the use of automatic data processing systems and equipment for EDA; provide data processing services, including the conduct of feasibility studies and the development of systems and programs for the applications of automatic data processing techniques; develop and maintain a comprehensive information and data base system to meet specified requirements for administrative, planning, operational, program management, and program evaluation purposes; and provide periodic and special summary reports on current optional trends and performance comparisons to planned goals.

.06 The Office Services Division shall provide or arrange for office services for EDA's headquarters and, as required, for the regional offices, including the procurement of administrative supplies, vehicle hire, furniture, equipment, and the distribution of printed and bound materials; evaluate, report on, and make recommendations on the utilization of space, supplies, equipment, communications, and related services within EDA; and serve as liaison with the Office of the Secretary on office services matters.

.07 The Executive Secretariat shall receive all correspondence addressed to the Office of the Assistant Secretary, and assign it to the appropriate office for action; record controlled and noncontrolled correspondence, maintain prompt followup of replies to insure that deadlines are met; and provide a selective reference service to files as requested by EDA officials.

Sec. 7. *Office of the Chief Counsel.* The Office of the Chief Counsel shall:

a. Render all necessary legal services, subject to the provisions of Department Organization Order 10-6;

b. Have primary responsibility for the preparation, coordination, and clearance of all legislation, regulations, and external orders subject to the provisions of applicable Department orders; and

c. Establish uniform overview standards and procedures to be followed by the regional offices' legal staffs in their review of projects under sections 101 and 201 of the Act.

SEC. 8. *Office of Public Affairs.* The Office of Public Affairs shall:

a. Advise on all public information matters;

b. Conduct a public information program under the policy guidance of the Assistant Secretary; and

c. Provide assistance in the editing, printing, or reproduction, and distribution of technical materials and publications.

SEC. 9. *Office of Congressional Relations.* The Office of Congressional Relations shall:

a. Advise on all congressional matters pertinent to the activities under the direction of the Assistant Secretary; and

b. Serve as the primary point of coordination for continuing liaison with the Congress in collaboration with the counsellor to the Secretary for Congressional Affairs.

SEC. 10. *Office of Civil Rights.* The Office of Civil Rights shall:

a. Advise the Assistant Secretary in the development and implementation of policy and guidance affecting equality of opportunity connected with economic development programs;

b. Maintain liaison with Federal, State, and local governmental organizations and with nongovernmental organizations to coordinate and assist in planning operations aimed at achieving

ing nondiscrimination and equality of opportunity;

c. Provide leadership, staff services, and advice in matters affecting nondiscrimination to economic development program units, to organizations obligated as participants in an economic development program to achieve nondiscrimination, and to ultimate beneficiaries of economic development program activities;

d. Conduct, sponsor, or coordinate meetings, conferences, and training courses for equal employment specialists, program managers, and executives to achieve nondiscrimination in economic development programs;

e. Establish effective systems throughout EDA to obtain and monitor reports concerning the program of equality of opportunity and assure conformance thereto;

f. Establish report requirements to insure equality of opportunity by participants in economic development programs, conduct onsite inspections, and receive, investigate, and adjust complaints;

g. Receive, investigate, review, adjust complaints, and evaluate EDA experience relating to the equal employment opportunity program and make recommendations to the Assistant Secretary for improvement of employment practices within EDA; and

h. Establish uniform overview standards and procedures to be followed by the regional offices' civil rights staffs in their reviews of projects under sections 101 and 201 of the Act.

SEC. 11. *Economic Development Regional Offices.* .01 The Economic Development regional offices, headed by regional directors, are as follows:

Name	Located at	Serves
Atlantic	Philadelphia, Pa.	Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Puerto Rico, Rhode Island, Vermont, Virginia, Virgin Islands, and West Virginia.
Southeastern	Atlanta, Ga.	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.
Midwestern	Chicago, Ill.	Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.
Rocky Mountain	Denver, Colo.	Colorado, Kansas, Iowa, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.
Southwestern	Austin, Tex.	Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.
Western	Seattle, Wash.	Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, and Washington.

.02 Each Regional Director, for the EDA programs in his region, shall:

a. Assist designated areas and districts in organizing, staffing, and funding

for economic planning through the development of OEDPs;

b. Assist local communities in the development of applications for financial

assistance to meet the needs of areas and districts serviced by the Regional Office;

c. Process applications for economic development assistance, monitor and service approved projects, including appropriate public works construction projects and, when appropriate, liquidate projects.

d. Forward appropriate processed public works projects documents to EDA headquarters with recommendations to the Assistant Secretary for approval or denial. On projects which require special action, Washington, staff offices will review the project file and recommend approval or disapproval to the Assistant Secretary.

.03 The geographic areas of the EDA Regional Offices are depicted in Exhibit 2. A copy of the geographic area map is on file with the original of this document with the Office of the Federal Register.

Effective date: October 1, 1977.

ELSA A. PORTER,  
Assistant Secretary  
for Administration.

[3510-17]

(Dept. Organization Order 20-10)

OFFICE OF CIVIL RIGHTS

Statement of Organization, Functions, and  
Delegation of Authority

This order effective December 28, 1977 supersedes the material appearing at 37 FR 6416 of March 29, 1972.

SECTION 1.—*Purpose.* .01 This order prescribes the functions and organization of the Office of Civil Rights.

.02 The Office of Civil Rights is hereby established as a Departmental Office under the Assistant Secretary for Administration. The functions and responsibilities of the Special Assistant for Civil Rights, and certain functions and responsibilities of the Office of Personnel as specified below, are transferred to the Office of Civil Rights.

SEC. 2.—*Status and line of authority.*

.01 The Office of Civil Rights shall be headed by a Director, who shall report and be responsible to the Assistant Secretary for Administration.

The Director shall be the Assistant Secretary's principal assistant with respect to that official's responsibilities for fulfilling the objectives of, and effecting compliance throughout the Department with, the requirements of Title VI of the Civil Rights Act of 1964, the Age discrimination in Em-

ployment Act of 1967, the Equal Employment Opportunity Act of 1972, Title IX of the Education Amendments of 1972, the Rehabilitation Act of 1973, Executive Orders 11246, 11247, 11478, 11764, 11758, 11914, and all other statutes, Executive Orders, and regulatory provisions relating to equal opportunity, non-discrimination and civil rights.

.02 The Office of Civil Rights will work in close cooperation with the Office of Personnel with respect to Equal Employment Opportunity (EEO) and affirmative action within the Department. The Office of Civil Rights will provide policy direction and guidance to the Office of Personnel in EEO and affirmative action matters, so that personnel operations will fully reflect the policy of the Department and the Executive Branch. In addition, since EEO policy and personnel management policy are often interrelated, the two Offices will jointly develop policy recommendations in such areas.

.03 The Office of Civil Rights will maintain liaison with the Office of the General Counsel on all civil rights and EEO matters for which the Assistant Secretary and the General Counsel have mutual or overlapping responsibility.

SEC. 3.—*Functions.* .01 The functions of the Office of Civil Rights relate generally to two major areas of responsibility. These are:

a. Insuring equal employment opportunity, including affirmative action, for employees and job applicants within the Department of Commerce.

b. Insuring nondiscrimination in activities and projects supported by Department of commerce programs, including Title VI, nondiscrimination for the handicapped, equal employment opportunity by Federal contractors and contractors involved in Federally assisted construction contracts, and other civil rights mandates.

.02 In carrying out these responsibilities the Director and the Office of Civil Rights shall:

a. Develop, direct, and coordinate throughout the Department programs, policies and activities to insure the effective fulfillment by the Department and all its elements of its responsibilities in these areas.

b. Develop program policy recommendations for the Assistant Secretary. Monitor and evaluate the implementation of approved recommendations.

c. Advise and assist the operating units in the performance of their EEO and civil rights responsibilities.

d. Develop and administer evaluation programs to determine the effectiveness of all Department operating units in the area of EEO and civil rights. Report the results of such evaluations to the Assistant Secretary and

the head of the operating unit, and make recommendations for improvement including recommendations for corrective action by the Assistant Secretary as necessary.

e. Work closely with the Office of personnel, including, as necessary, establishing coordinating procedures and policy development, to insure unified implementation of Federal and Department requirements and programs.

f. Recommend to the Assistant Secretary final decisions on EEO complaints within the Department.

g. Advise the Assistant Secretary of any violations of civil rights or EEO Statutes, Executive Orders, or regulations over which the Department has jurisdiction and for which legally sufficient corrective action has not been initiated, and recommend such corrective action by the Assistant Secretary. The Director shall consult with the Office of General Counsel prior to such advice and recommendation.

h. Represent the Department and the Assistant Secretary with other Federal agencies, including the Civil Service Commission, Department of Justice, Department of Health, Education, and Welfare, and Department of Labor, and with States, municipalities, labor unions, and other public and private groups on matters concerning equal employment opportunity, nondiscrimination, and civil rights.

i. Maintain liaison with, and solicit the views of, minority group and women's organizations within and outside of the Department on matters relating to civil rights and equal opportunity.

j. Develop for the Assistant Secretary statements of goals, and periodic reports of achievement against the goals, for the responsibilities of the Office of Civil Rights.

SEC. 4.—*Organization.* Under the supervision and direction of the Director, the functions of the Office will be organized and carried out as follows:

.01 *Equal Employment Opportunity (EEO) Division.* The EEO Division is responsible for developing, directing, coordinating and evaluating the EEO programs and activities of the Department except for the processing of complaints. The Division's area of responsibility includes, among other things, Affirmative Action Plans, the special emphasis programs for women, Spanish-speaking, the handicapped, and policy direction and monitoring of the Upward Mobility program. The Division shall:

a. Provide policy direction, advice, and guidance to the Office of Personnel and the operating units in establishing and maintaining effective affirmative action employment programs.

b. Review and assess policies and practices throughout the Department relating to affirmative action and

equal employment opportunity and, on the basis of such study, develop and recommend the adoption of new or revised programs and policies to insure that the Department's activities in this area are consistent with the spirit and requirements of law, Executive Orders, and Federal regulations.

c. Develop policy and provide technical assistance in the Special Emphasis programs such as the Federal Women's Program, Spanish-speaking Program, and Program for the Handicapped.

d. Develop orders, policy statements, regulations and other directives relating to affirmative action and monitor the effectiveness of their implementation.

e. Develop and operate a program to evaluate the EEO programs and activities of the operating units. Provide the results of evaluation to the Assistant Secretary and the head of the operating unit concerned, and recommend measures for improvement, including recommendations for corrective action by the Assistant Secretary, as necessary.

f. Provide leadership and guidance to operating units in the development of Affirmative Action Plans; take appropriate measures to assure their adequacy; and arrange for the submission of plans requiring Civil Service Commission approval.

g. Gather and synthesize materials for reports, review proposed and existing legislation and make recommendations for implementation, and undertake similar assignments, in the area of EEO. Data in this area will normally be developed by the Office of Personnel, in line with requirements specified by the Office of Civil Rights.

h. Work closely with the Office of Personnel to insure effective and coordinated implementation of EEO programs, requirements, and regulations.

i. As designated, represent the Department and the Assistant Secretary in meetings and conferences with other government agencies and private groups with respect to EEO and affirmative action policies and programs of the Department.

j. Provide staff assistance to the Department EEO Committee (see Section 5.).

k. Perform such other functions as the Director may assign.

1. The EEO Division shall include Program Coordinators assigned responsibility for the following programs:

Federal Women's Program, Spanish-speaking Program, Program for the Handicapped, and Upward Mobility Program.

The Coordinators shall have primary responsibility for the effective development and coordination of their programs within the Office of Civil Rights and by the operating units. As

part of their responsibilities the Coordinators shall:

1. Determine program emphasis areas and plan activities in support of those areas.

2. Provide staff assistance to operating units and their special program coordinators.

3. Analyze statistical data relating to the special emphasis programs.

4. Publicize the programs within the Department, and assure that supervisors and employees are informed and educated on the goals and objectives of the program.

.02 *Compliance Division.* The Compliance Division is responsible for: Nondiscrimination in Federal programs administered by the Department; equal employment opportunity by Federal contractors and contractors involved in Federally assisted construction contracts; and the Department's internal discrimination complaint program.

The Division shall: a. Provide policy direction, advice and assistance to the operating units with respect to their implementation of external civil rights and equal opportunity programs, including Title VI, Title IX, handicapped, and contract compliance.

b. Maintain technical review of, and provide guidance to, the operating units in the implementation of the Department's external civil rights responsibilities, policies and regulations with respect to the conduct of compliance reviews, complaint investigations, and other matters related to negotiation, conciliation, and enforcement. Develop recommendations to improve the processing, investigation, and adjudication of such complaints.

c. Assist operating units in establishing a uniform internal EEO complaint processing system, including arranging for the training of EEO Officers and counselors.

d. Review and assess policies and practices throughout the Department related to internal EEO complaints, and evaluate their effectiveness. Develop and recommend new or revised policies and programs, including recommendations to the Assistant Secretary for corrective action, as necessary.

e. Provide staff assistance to the Director and the Assistant Secretary with respect to the investigation, adjustment, and adjudication of EEO complaints, and the preparation of reports on the status of complaints. Develop recommended final determinations on EEO complaints within the Department.

f. Advise the Director of any apparent violations of civil rights or EEO statutes, Executive Orders, or regulations over which the Department has jurisdiction. As directed, prepare recommendations for corrective action of such violations. The Office of General

Counsel shall be consulted in the development of the recommendations.

g. Work closely with the Office of Investigations and Security in matters relating to that Office's responsibility for investigating internal EEO complaints. Provide training and information to the EEO investigators in the area of EEO policy, procedures and requirements.

h. Respond to requests for data and information, gather and synthesize materials for reports, review proposed and existing legislation and make recommendations concerning implementation, in its area of responsibility.

i. As designated, represent the Department and the Assistant Secretary in meetings and conferences involving its area of responsibility.

j. Perform such other functions as the Director may assign.

Sec. 5.—*Department EEO Committee.* .01 The Assistant Secretary, with the advice of the Director, Office of Civil Rights, will establish a Department EEO Committee. The purpose of the Committee is to provide advice to the Assistant Secretary and, as appropriate, other top officials of the Department, the Director of the Office of Civil Rights, and the Director of Personnel; to keep those officials informed on EEO and civil rights developments and problems in the Department; to constitute an informal channel of information from the operating units to the Departmental level; and to recommend changes in policies and practices to improve the effectiveness of the EEO and civil rights program in the Department.

.02 Committee members will be selected in a manner to be prescribed by the Assistant Secretary, which will provide for a representative cross-section of Department organizations, minority groups, and others concerned with civil rights and EEO. The Committee will elect its own Chairperson.

.03 The establishment of this Committee does not affect in any way the EEO Committees established within the various operating units.

Sec. 6.—*Implementation.* The Assistant Secretary for Administration shall determine the schedule and quantity for the transfer of funds, positions, and employees, as required by this order.

ELSA A. PORTER,  
Assistant Secretary for  
Administration.

## DEPARTMENT OF DEFENSE

Office of the Secretary of Defense

## DEFENSE INTELLIGENCE AGENCY SCIENTIFIC ADVISORY COMMITTEE

## Closed Meeting

Pursuant to the provisions of subsection (d) of section 10 of Pub. L. 92-463, as amended by section 5 of Pub. L. 94-409, notice is hereby given that a closed meeting of a Panel of the DIA Scientific Advisory Committee will be held as follows: Wednesday, 22 February 1978, Pomponio Plaza, Rosslyn, Va.

The entire meeting commencing at 0900 hours is devoted to the discussion of classified information as defined in section 552b(c)(1), Title 5 of the U.S. Code and therefore will be closed to the public. Subject matter will be used in a study on the functional use of phased array radars.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives, Office of the Assistant  
Secretary of Defense  
(Comptroller).

## DEPARTMENT OF ENERGY

## AMOCO OIL CO.

## Request for Interpretation

Notice is hereby given that, pursuant to 10 CFR Part 205, Subpart F, the Office of General Counsel of the Department of Energy (DOE) is considering a request for Interpretation submitted by the Amoco Oil Co. (Amoco). The request for Interpretation concerns the computation of depreciation cost increases in the context of the refiner price rule, 10 CFR 212.83. Because the treatment of depreciation costs for refiners using the refinery fuel conservation incentive (as described below) may have a substantial impact on nonproduct cost increases computed under the refiner price rule, the DOE wishes to solicit comments from any party who believes it may be affected by a DOE decision in this request for Interpretation.

Under the present provisions of 10 CFR 212.83(c)(2)(iii)(E), which set forth the formulae for computing increased nonproduct costs which are attributable to specific covered products, a refiner may elect to compute its depreciation cost increase in one of two ways. The method which the refiner may use, however, depends upon the manner in which the refiner calculates its refinery fuel cost increase.

If the refiner chooses to calculate its refinery fuel cost increase under the general formula for "E<sub>1</sub>," then it may include in its E<sub>1</sub> calculation for depreciation cost increase all depreciation costs associated with capital investments, including those which effect fuel conservation. See 10 CFR 212.83(c)(2)(iii)(E)(I)(aa) and (IX)(aa). However, if the refiner elects to calculate its refinery fuel cost increase using the refinery fuel conservation incentive, it then uses a formula based upon the "base refinery fuel usage" per barrel of refinery throughput in May 1973. This method permits the refiner to retain any savings it has realized, through fuel conservation efforts since May 1973, in the amount of refinery fuel used per barrel of throughput. In order to use the refinery fuel conservation incentive, however, the refiner must exclude from its E<sub>1</sub> calculation of depreciation cost increase "the depreciation costs associated with capital investments which effect fuel conservation." See 10 CFR 212.83(c)(2)(iii)(E)(I)(bb) and (IX)(bb).

In its request for Interpretation, Amoco notes that it is a refiner using the refinery fuel conservation incentive. Amoco recognizes that where it makes a capital investment for the purpose of conserving refinery fuel, it is clear that it may not include the depreciation cost associated with that investment in its E<sub>1</sub> calculation of depreciation cost increase. However, Amoco also points out that most capital investments in refinery machinery or equipment will have some effect on fuel conservation. Thus, even where new machinery or equipment is not primarily intended to conserve fuel, the mere fact that it is new may mean that it is more fuel-efficient and, therefore, conserves some fuel. Amoco argues that in this instance the refiner price rule was not intended to require that it omit all depreciation costs associated with that capital investment from its E<sub>1</sub> calculation of depreciation cost increase.

Amoco, therefore, seeks an interpretation of the phrase "capital investments which effect fuel conservation." Amoco requests the DOE Office of General Counsel to define the manner in which depreciation costs may be computed by a refiner that uses the refinery fuel conservation incentive formula, and that invests in machinery or equipment which, although not primarily intended to conserve refinery fuel, results in some fuel savings.

The interpretation which Amoco has suggested to the DOE Office of General Counsel would permit the firm to include a portion of the depreciation cost associated with such a capital investment in its E<sub>1</sub> calculation of depreciation cost increase. That portion would be determined by separating out the amount of the capital investment

which results in refinery fuel conservation. Amoco contends that analysis of either investment records or the fuel conservation benefits actually obtained from an investment project will, in most cases, yield sufficient information to permit it to identify the portion of the capital investment which is related to fuel conservation. Amoco would then exclude that portion of the depreciation cost associated with the investment from its E<sub>1</sub> calculation, but would include the remainder.

In its argument in support of this proposed interpretation, Amoco states that the Mandatory Petroleum Price Regulations should provide refiners with incentives to invest in refinery improvements. Thus, if a refiner uses the refinery fuel conservation incentive formula, Amoco contends that the exclusion from the depreciation cost increase E<sub>1</sub> calculation of all depreciation costs associated with an investment that has an incidental or minimal effect on fuel conservation will deprive the refiner of nonproduct cost increases to which it is entitled. These increases, in Amoco's view, provide an incentive to invest in refinery improvements.

Copies of the documents submitted by Amoco in this matter are available for public review in the DOE Freedom of Information Reading Room, Room 2107, 12th & Pennsylvania Avenue NW., Washington, D.C.

Interested parties are invited to submit their views and comments on this matter. In the case of refiners employing the refinery fuel conservation incentive, it would be helpful if the comments include a description of the method by which the refiner is presently computing depreciation costs on capital improvements which have an incidental effect on fuel conservation. Comments should be directed to:

Office of Regulations Management, Box RJ,  
Room 2214, 2000 M Street NW., Washington, D.C. 20461.

All submissions should be made in five copies, and should be received no later than February 17, 1978. Comments should be identified both on the outside envelope and on the material submitted with the designation "Comments on Amoco Request for Interpretation."

Any information or data considered by the party furnishing it to be confidential must be so identified, and submitted in writing in accordance with the procedures set forth in 10 CFR 205.9(f). The DOE Office of General Counsel reserves the right to determine the confidential status of the information or data, and to treat such information according to its determination, subject to the procedures set forth in § 205.9(f)(2).

Any person desiring additional information may contact Ted P. Gerarden,

Interpretations Division, Office of General Counsel, Room 1119, 12th & Pennsylvania Avenue NW., Washington, D.C. 20461, telephone 202-566-9070.

Issued in Washington, D.C. January 20, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration,  
Department of Energy.

[3128-01]

## Bonneville Power Administration

## ALLOCATION OF ELECTRIC ENERGY

## Intent To Develop Formula for Allocation of Electric Energy

On December 14, 1977, the Department of Energy published in the FEDERAL REGISTER (42 FR 62950) the adopted "Procedure for Public Participation in Marketing Policy Formulation" for the Bonneville Power Administration (BPA). The procedure provides interested members of the public an opportunity to participate in the formulation of certain BPA power marketing policies, including the development of an allocation formula for electric energy available from the Federal Columbia River Power System (FCRPS).

BPA has contracts for the sale of firm power with 115 preference customers (public bodies and cooperative utilities), 6 Federal agencies, and 17 direct-service industrial (DSI) customers in the Pacific Northwest. These contracts will expire between 1981 and 1994.

BPA anticipates that under existing law the preference rights of public bodies and cooperative utilities to BPA's power will preclude execution of new power sales contracts with DSI customers with provisions similar to those in existing contracts. As the contracts with DSI customers expire in the period between 1981 and 1991, current preference customers and other public bodies and cooperative utilities are expected to make application for all or a portion of the electric power now being sold to DSI customers.

BPA has given notice to current preference customers that it has insufficient firm energy to supply their load growth after July 1, 1983. After that date BPA will be obligated to make available to each current preference customer during the term of its present power sales contract, an allocation of firm energy determined by a formula specified in the current sales contracts. This allocation formula does not include a method for allocating the energy which will be available when current power sales contracts expire.

In addition, new public bodies and cooperatives that may also be entitled

to a statutory preference and priority to power from the Federal System have applied for energy, and additional public bodies and cooperative utilities may be formed. These applications must be considered when BPA allocates the Federal System energy.

BPA intends to develop a formula that will allocate the energy available to BPA and which BPA is not obligated under contract to supply. The allocation formula that BPA will develop may be substantially different than the allocation formula in current preference customers' present power sales contracts.

BPA will consider many variables and alternatives before selecting a proposed formula. Issues BPA expects to consider include, but are not limited to, the following: (1) Class of customer served—current preference customers, new preference customers, preference customers that have net-billing agreements, investor-owned utilities, Federal agencies, and DSI; (2) customer-owned generation committed to load; (3) types of load served—residential, commercial, industrial, agricultural, and other; (4) load determination—based on historical data or a forecast; (5) grades of energy; (6) allocation duration; (7) rates charged for power; (8) conservation; and (9) amount of energy available for allocation—reevaluation of quantity and quality of energy, including any which may become available to BPA. In addition, BPA will consider the capacity requirements necessary to deliver Federal System energy to its loads in developing the allocation formula.

BPA is seeking recommendations from the public concerning the allocation formula BPA intends to develop. These recommendations will be used to assist BPA in developing the proposed allocation formula. BPA will invite further comment from the public (1) in the spring of 1979 when the proposed allocation formula is developed, (2) in the summer of 1979 during public comment forums on the proposed allocation formula, and (3) in the winter of 1979-80 when the Administrator will announce BPA's allocation formula. The comments received at the public comment forums and through the mail will be used to assist in developing BPA's allocation formula. BPA will also schedule public information forums during the summer of 1979, before the public comment forums, to explain the purpose and basis of the proposed allocation formula and to answer questions regarding the proposal and alternative formulas considered.

For further information, contact Donna Lou Geiger, Public Involvement Coordinator, Bonneville Power Administration, P.O. Box 12999, Portland, Ore. 97212, 503-234-3361. Submit written recommendations con-

cerning the development of BPA's allocation formula to the preceding address no later than May 1, 1978.

Dated: January 23, 1977.

WILLIAM S. HEFFELFINGER,  
Director of Administration.

[3128-01]

Economic Regulatory Administration

DOMESTIC CRUDE OIL ALLOCATION PROGRAM

Entitlement Notice for November 1977

In accordance with the provisions of 10 CFR § 211.67 relating to the domestic crude oil allocation program of the Department of Energy (DOE), administered by the Economic Regulatory Administration (ERA) of the DOE, the monthly notice specified in § 211.67(i) is hereby published.

Based on reports for November 1977 submitted to the DOE by refiners and other firms as to crude oil receipts, crude oil runs to stills, eligible product imports and imported naphtha utilized as a petrochemical feedstock in Puerto Rico; application of the entitlement adjustment for residual fuel oil production for sale in the East Coast market provided in § 211.67(d) (4); December 1977 deliveries of crude oil for storage in the Strategic Petroleum Reserve; and application of the entitlement adjustment for small refiners provided in § 211.67(e), the national domestic crude oil supply ratio for November 1977 is calculated to be .238733.

In accordance with § 211.67(b) (2), to calculate the number of barrels of deemed old oil included in a refiner's adjusted crude oil receipts for the month of November 1977, each barrel of old oil is equal to one barrel of deemed old oil and each barrel of upper tier crude oil is equal to .257276 of a barrel of deemed old oil.

The issuance of entitlements for the month of November 1977 to refiners and other firms is set forth in the Appendix to this notice. The Appendix lists the name of each refiner or other firm to which entitlements have been issued, the number of barrels of deemed old oil included in each such refiner's adjusted crude oil receipts, the number of entitlements issued to each such refiner or other firm, and the number of entitlements required to be purchased or sold by each such refiner or other firm.

Pursuant to 10 CFR § 211.67(i) (4), the price at which entitlements shall be sold and purchased for the month of November 1977 is hereby fixed at \$8.61, which is the exact differential as reported for the month of November between the weighted average per barrel costs to refiners of old oil and

of imported and exempt domestic crude oil, less the sum of 21 cents.

In accordance with 10 CFR § 211.67(b), each refiner that has been issued fewer entitlements for the month of November 1977 than the number of barrels of deemed old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of November 1977 equal to the difference between the number of barrels of deemed old oil included in those receipts and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of November 1977 in excess of the number of barrels of deemed old oil included in their adjusted crude oil receipts for that month and other firms issued entitlements shall sell such entitlements to refiners required to purchase entitlements. In addition, certain refiners are required to purchase or sell entitlements to effect corrections for reporting errors for the months September 1975 through October 1977 pursuant to 10 CFR § 211.67(j) (1).

The listing of refiners' old oil receipts contained in the Appendix reflects any adjustments made by ERA pursuant to § 211.67(h).

The listing contained in the Appendix identifies in a separate column additional entitlements issued to refiners pursuant to relief granted by ERA's Office of Administrative Review (prior to October 1, 1977, the Office of Exceptions and Appeals of the Federal Energy Administration). Also set forth in this column are adjustments for relief granted by the Office of Administrative Review for 1975 and 1976, which adjustments are reflected in monthly installments. The number of installments is dependent on the magnitude of the adjustment to be made. For a full discussion of the issues involved, see Beacon Oil Company, et al. 4 FEA par. 87,024 (November 5, 1978).

The listing contained in the Appendix continues the "Consolidated Sales" entry initiated in the October 1977 entitlement notice. The "Consolidated Sales" entry is equal to the November 1977 entitlement purchase requirement of Arizona Fuels. The purpose of providing for the "Consolidated Sales" entry is to ensure that Arizona Fuels is not relieved of its November 1977 entitlement purchase requirement and that no one firm will be unable to sell its entitlements by reason of a default by Arizona Fuels. For a full discussion of the issues involved, see Entitlement Notice for October 1977. (42 FR 64401, December 23, 1977).

The listing contained in the Appendix rescinds the October 1977 entitlement sale requirements of several firms to the extent such firms were

unable to sell their October 1977 entitlements because of stays issued by the ERA's Office of Administrative Review to Young Refining Co. and Lundy Thagard Oil Co. The listing contained in the Appendix reflects these October 1977 entitlement sale requirements in such firms' November 1977 entitlement purchase or sale requirements. The total adjustment in deemed old oil receipts reflected by the "carry-forward" of October 1977 entitlement sale requirements equals 622,837 barrels.

For purposes of § 211.67(d) (6) and (7), which provide for entitlement issuances to refiners or other firms for sales of imported crude oil to the United States Government for storage in the Strategic Petroleum Reserve, the number of barrels sold to the Gov-

ernment totaled 1,198,790 barrels.

For purposes of the adjustments to refiners' crude run volumes under § 211.67(d)(4), total production of residual fuel oil for sale in the East Coast market (in excess of the first 5,000 barrels per day thereof for each refiner reporting such production) was 11,221,424 barrels for November 1977. For that month, imports of residual fuel oil eligible for entitlement issuances totaled 24,524,186 barrels.

The total number of entitlements required to be purchased and sold under this notice is 21,947,985.

Based on reports submitted to the DOE by refiners as to their adjusted crude oil receipts for November 1977, the pricing composition and weighted average costs thereof are as follows:

Category	Volumes	Weighted average cost	Percent of total volumes <sup>1</sup>
Lower tier .....	103,940,937	\$5.70	22.1
Upper tier .....	88,980,593	12.09	18.9
Exempt domestic:			
Stripper .....	33,645,441	14.53	7.1
Naval petroleum reserve ..	3,040,951	12.82	.6
Total domestic .....	229,557,922	9.56	48.7
Total imported <sup>2</sup> .....	241,619,232	14.54	51.3
Total reported crude oil receipts .....	471,177,154	12.12	100.0

<sup>1</sup> Numbers may not add due rounding.

<sup>2</sup> Under current reporting procedures includes Alaska North Slope crude oil.

Payment for entitlements required to be purchased under 10 CFR § 211.67(b) for November 1977 must be made by January 31, 1978.

On or prior to February 10, 1978, each firm which is required to purchase or sell entitlements for the month of November 1977 shall file with the DOE the monthly transaction report specified in 10 CFR § 211.66(i) certifying its purchases and sales of entitlements for the month of November. The monthly transaction report forms for the month of November have been mailed to reporting firms. Firms that have been unable to locate other firms for required entitlement transactions by January 31, 1978 are requested to contact the ERA at 202-254-3336 to expedite consumma-

tion of these transactions. For firms that have failed to consummate required entitlement transactions on or prior to January 31, 1978, the ERA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR § 211.67(k).

This notice is issued pursuant to Subpart G, 10 CFR Part 205. Any person aggrieved hereby may file an appeal with ERA's Office of Administrative Review in accordance with Subpart H of 10 CFR Part 205. Any such appeal shall be filed on or before February 27, 1978.

Issued in Washington, D.C. on January 19, 1978.

DAVID J. BARDIN,  
Administrator, Economic  
Regulatory Administration.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

(Docket Nos. ER77-551 and ER-77-485)

CAROLINA POWER & LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Schedule, Consolidating for Hearing, Providing for Hearing, and Establishing Procedures

JANUARY 19, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above-mentioned authorities.

On August 3, 1977, Carolina Power & Light Co. (CP&L) tendered for filing an amendment to its rate schedule FPC No. 102 and at the same time filed a notice of cancellation of its rate schedule FPC No. 93.<sup>1</sup> Each rate schedule covers firm electric service to the city of Fayetteville, N.C. (city). The rate changes are proposed in order to accommodate the operation of the city's five new combustion turbines located at its Fayetteville east substation. CP&L requested that the

<sup>1</sup>The filing is designated as supplement No. 10 to rate schedule FPC No. 102 (supersedes FPC No. 93 as supplemented.)

effective date of the amended rate schedule be June 20, 1977. Consequently, waiver of the Commission's notice requirements is implied.

Rate schedule FPC Nos. 102 and 93 provide firm service to the city of Fayetteville where the energy is received by the city at a separate delivery point for each rate schedule service. Under the new agreement entered into by the city and CP&L, as reflected in the instant filing for amendment of rate schedule No. 102, partial requirements service will be provided in lieu of full service and totalized metering of the two points will be initiated. This action necessitates the cancellation of rate schedule FPC No. 93.

The amended rate schedule provides that the city will receive partial requirements service for the load not served by its five gas turbines; back-up service by CP&L for emergency contingencies; and the purchase by CP&L of capacity from the city when it becomes available.

The city now has installed and operating five 20 MW gas turbine generators. The city and CP&L estimate that during the first 12 months of operation under the new amendment, the city's peak shaving service will range from zero to approximately 60 MW. The amended rate schedule further provides that three of the five gas turbines will be used for peak shaving while the last two units will be held in reserve totaling approximately 67 percent of reserve capacity for the city's peak shaving operation. The city is contemplating installation of three additional gas turbine units by June, 1983.

With respect to the proposed rates charged for the amended service, demand and energy charges for the partial requirements service to the city are the same as those now specified for total requirements service. The agreement provides for the adjustment of metered demand and energy quantities for billing purposes to recognize the back-up service provided by CP&L to the city and the purchase of capacity by CP&L from the city.

The emergency backup service will be supplied at a capacity charge of 7.4 cents/kW/day in addition to an energy charge of CP&L's out-of-pocket costs, plus 10 percent. If the backup service is not available in CP&L's system and, therefore it must be purchased by CP&L for delivery to the city, the charge will be the cost of such capacity and energy plus the greater of 10 percent of the cost of the purchase, or 2 mills/kWh.

When CP&L purchases surplus capacity and energy from the city, the proposed rate will be at 5.5 cents/kW plus out-of-pocket costs plus 10 percent. The city of Fayetteville agrees to the terms of the CP&L filing.

Public notice of CP&L's filing was

issued on August 17, 1977. The notice provided that all protests or petitions for intervention must be filed on or before August 31, 1977. None have been filed.

The proposed amendment including the reserve obligation has not been shown to be just and reasonable and may be unjust, unreasonable, or otherwise unlawful. Accordingly, the proposals should be accepted for filing on June 19, 1977, and suspended for one day to become effective, subject to refund, on June 20, 1977.

Since there is an existing proceeding in Docket No. ER77-485 concerning a previous rate filing by CP&L which was set for hearing in the order of July 19, 1977, and contains common questions of law and facts as are contained in the instant filing, it is appropriate to consolidate the instant docket with the proceeding in Docket No. ER77-485 for purposes of hearing and determination.

The Commission finds: (1) Good cause exists to accept for filing and suspend the proposed change in rates and cancellation of service tendered by the Carolina Power & Light Co. on August 3, 1977.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the proposed rate changes tendered by CP&L on August 3, 1977, to consolidate that hearing with the hearing set in Docket No. ER77-485, establish procedures for that hearing, and that the proposed rate changes be accepted for filing, suspended, and the use thereof deferred, all as hereinafter ordered.

(3) Good cause exists to waive the notice requirements of section 35.11 of the Commission's regulations under the Federal Power Act for the amendment to rate schedule FPC No. 102.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction set out in the Federal Power Act, particularly sections 205, 206, 301, 307, 308, and 309 thereof, and pursuant to the Commission's rules of practice and procedure and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of the proposed rates proposed by CP&L in this proceeding.

(B) Pending such hearing and decision thereon, the proposed changes in rates filed by CP&L on August 3, 1977, and identified above, are hereby accepted for filing as of June 19, 1977, suspended and the use thereof deferred until June 20, 1977, when they shall become effective, subject to refund.

(C) Carolina Power & Light's implied request for waiver of section

35.11 notice requirements is hereby granted.

(D) The instant proceeding shall be consolidated for purposes of hearing and determination with the proceeding in Docket No. ER77-485 now set for hearing by the order of July 19, 1977, and the procedures set forth in the July 19th order are to be retained for this consolidated proceeding.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-2240 Filed 1-25-78; 8:45 am]

#### [6740-02]

[Docket No. E-7740 et al]

#### INDIANA AND MICHIGAN ELECTRIC CO.

##### Notice of Proposed Settlement

JANUARY 19, 1978.

Take notice that by joint motion filed December 30, 1977, Indiana and Michigan Electric Co., (I&ME) and Richmond Power and Light of the City of Richmond, Ind., (Richmond), Docket Nos. E-7740, E-9239 and ER76-716, tendered for filing in the above-entitled docket an Agreement of Settlement and Compromise.

Attached to the joint motion and Agreement of Settlement and Compromise as an exhibit is an interconnection agreement negotiated between I&ME and Richmond providing for a variety of services to be rendered including, firm service, short-term service, limited-term service, emergency service, and transmission service. Copies of the tendered filing and attachments thereto are available for inspection in the offices of the Commission.

Any party desiring to file comments with respect to the Offer of Settlement and Compromise may do so, and all such comments, if any, should be filed on or before February 10, 1978, with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC, 20246. Comments so filed, if any, will be considered by the Commission in determining what action should be taken with regard to the Offer of Settlement and Compromise, but will not serve to make the party filing such comments an intervenor herein. Copies of this filing are on file with the Commission and available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

#### [6740-02]

[Docket No. ER76-5321]

#### PACIFIC GAS AND ELECTRIC CO.

##### Order Denying Motion for Approval of Settlement, Conditionally Accepting Settlement Rates, and Providing for Hearing

JANUARY 20, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402 of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On March 1, 1976, Pacific Gas and Electric Co (PG&E) filed with the Federal Power Commission its notice, pursuant to section 205(d) of the Federal Power Act, and Part 35 of the Commission's Regulations, of a proposed increase in rates for electric wheeling services pursuant to a schedule on file with the Commission providing service for the United States Bureau of Reclamation (USBR) from the Central Valley Power Project (CVP) in California. Under the provisions of its contract with USBR dated July 31, 1967, the rates for this service are subject to review between the two parties commencing April 1, 1971, and every five years thereafter and, if the parties are unable to agree, the issue is submitted to the Federal Power Commission. Prior to this filing PG&E and USBR reviewed the charge for the wheeling service and were unable to

agree on a change in rate. The matter was submitted to the Federal Power Commission which accepted the rates for filing, suspended them for one day to April 1, 1976, and set the matter for hearing by order issued March 29, 1976.<sup>1</sup>

The Staff of the Federal Power Commission submitted its "top sheet" computations on August 23, 1976, and October 8, 1976. The hearing was scheduled for May 3, 1977. Prior to the hearing, various pre-hearing conferences and formal settlement conferences were held. On December 22, 1976, PG&E and USBR entered into a settlement agreement resolving all issues in this proceeding. On January 31, 1977, PG&E submitted the Settlement Agreement reached between itself and USBR. The settlement was noticed on February 11, 1977, setting February 25, 1977, and March 14, 1977, as the dates for comments and reply comments, respectively.

The settlement provides for a rate of 0.133 cents per kilowatt hour for delivery at 44,000 volts or higher.<sup>2</sup> In contrast, the March 1, 1976, filing by PG&E requested rates of 0.17 cents per kilowatt hour. The settlement rates are to apply to the wheeling service here involved for the period April 1, 1976 through March 31, 1981.

PG&E's proposed annual increase in tariff charges was in the amount of \$2,735,000 for the test year 1976. Staff's studies indicated that an increase of \$2,321,000 was cost justified and the settlement provides for an increase of \$1,172,000. The settlement also provides that inasmuch as PG&E has not actually collected or received payments in excess of the settlement rates from USBR for this wheeling service, no refunds are required.

Comments on the proposed settlement were filed by the Staff of the Federal Power Commission, USBR, the Northern California Power Agency (NCPA), the Arvan-Edison Water Storage District (ARVAN), the Federal Agencies, represented by the Department of the Navy. The Federal Power Commission Staff and USBR support the settlement while the other parties filed objections.

<sup>1</sup> Rehearing was denied on May 28, 1976. The Northern California Power Agency petitioned for review contending the contract did not permit PG&E unilaterally to file a rate increase. *Northern California Power Agency v. F.P.C.*, No. 76-1671 (D.C. Cir., appeal docketed July 26, 1976).

<sup>2</sup> For delivery of less than 44,000 volts, the settlement sets a rate of 0.226 cents per kilowatt hour from April 1, 1976, through March 31, 1978, and no more than 0.300 cents per kilowatt hour through March 31, 1981, subject to review of the parties and submittal to the Commission for final decision if the parties are unable to agree on a rate adjustment for the lower voltage.

NCPA in its comments filed February 11, 1977, contends both the prior and proposed rates are excessive and that its studies attached to its comments show the rates should be within the range of 0.4 to 0.7 mills/kWh depending upon the method adopted by the Commission. It criticizes the USBR settlement rate for including too many facilities in PG&E's rate base and for failing to credit against the rolled-in PG&E transmission cost, PG&E's use of the government's transmission system [the Central Valley Project (CVP) facilities]. It offers, instead, two alternative methods designed to meet these deficiencies. NCPA also suggests the settlement rate is discriminatory, citing nine allegedly similar transmission services rendered by PG&E at a lower rate. It also says the settlement fails to resolve the appropriate rate for service below 44 kV. Therefore, because facts are in dispute, it requests a hearing.

Replies to the comments of the various parties were filed, almost all indicating that some hearing procedure will be necessary in this proceeding. The Staff of the Federal Power Commission suggests that the settlement be approved and the settlement rates be put into effect subject to refund in the event the hearing indicates they are too high. USBR supports Staff's position but suggests that because the USBR is paying PG&E for service in accordance with the Settlement Agreement retroactive to April 1, 1976, with the understanding that higher or lower retroactive adjustment may be required upon final Commission decision, Staff's suggestion that the Settlement Agreement be approved subject to refund seems to be moot. NCPA's reply stated that it opposes acceptance of the Settlement but that it would not object to Staff's suggestion for a conditional settlement approval. ARVAN states any Commission approval action should be conditioned upon ultimate resolution of the factual disputes through the hearing process. Navy states, along with the other "Federal Agencies," that there is disagreement whether the contract provisions permit a cost of service approach, or require some other rate determining method. They contend that acceptance of the settlement as proposed by staff is inappropriate absent a hearing on contract interpretation and cost allocation issues. PG&E suggests that any hearings should be strictly limited and that the objectors should have the burden of proof as to why the settlement is not justified.

We shall accept the settlement rates subject to the condition that the settlement rates will be collected subject to refund or upward adjustment up to the level of the currently suspended rate and order a hearing as proposed

by the Federal Power Commission Staff and as modified by the USBR. Pending the outcome of such hearing it will be necessary to deny the motion of PG&E for approval of its settlement as a just and reasonable rate in resolution of all the issues in this case.

PG&E has already submitted its computations for the record in this proceeding. However, the Commission staff has to date served only its "top sheets." USBR has filed a motion to provide for the scheduling of the hearing. Although no objections to the motion were raised, we deem it a more desirable policy in the administration of the Federal Power Act that such matters be referred to the presiding Judge for disposition as he finds appropriate in the conduct of the remanded proceedings.

The Commission finds: (1) The motion for approval of the Settlement Agreement to resolve all outstanding matters in this proceeding should be denied without prejudice to its resubmittal at the conclusion of the hearing in this proceeding.

(2) The rates as proposed in the Settlement Agreement to be denominated as 2d Revised Sheet No. 60 to PG&E's FPC Electric Tariff, Original Volume No. 4, superseding 1st Revised Sheet No. 60 of said tariff should, upon filing, within 30 days of the date of this order, be accepted, effective April 1, 1976, on the condition that they are subject to refund or upward adjustment up to the level of the currently suspended rate upon conclusion of the proceeding.

(3) Good cause exists to waive Section 35.0 of the Commission's Regulations as to filing fees and Section 35.3 and 35.13 of the Commission's Regulations with respect to notice requirements and rate change filing requirements.

The Commission orders: (A) This proceeding is hereby remanded for hearing before an Administrative Law Judge and for ruling upon the procedural matters raised by the motion of the Secretary of the Interior filed August 11, 1977.

(B) The motion of PG&E for approval of Settlement Agreement is hereby denied without prejudice.

(C) The rates proposed in the Settlement Agreement between PG&E and USBR shall become effective April 1, 1976, upon PG&E's filing and Commission acceptance of tariff sheets referred to in finding paragraph (2) above, subject to refund or reimbursement with 9 percent interest pending the outcome of the hearing as ordered in this proceeding.

(D) The Commission's Regulations, Section 35.0, 35.3, and 35.13, are

hereby waived with respect to the settlement rates.

By the Commission:

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-2243 Filed 1-25-78; 8:45 am]

#### [6740-02]

[Docket No. RP77-138]

#### UNITED GAS PIPE LINE CO.

##### Notice of Supplement To Petition for Advance Approval for Accounting and Rate Treatment of Research, Development and Demonstration Expenditures

JANUARY 20, 1978.

Take notice that on December 5, 1977, United Gas Pipe Line Co. (United) submitted a supplement to its original filing in the above referenced docket made on September 23, 1977. The supplement was filed pursuant to the written request of the Commission's Secretary dated October 28, 1977.

United states that because of curtailments and the continuing decline of natural gas reserves available to its customers, it is apparent that supplemental gas supplies must be developed. In this connection, United states that it recognizes that to meet the fundamental objective of enhancing gas supplies would require, among other things, its commitment to and participation in current research, development and demonstration (RD&D) projects as well as the initiation of new projects. As a result of this realization, it is stated, United conducted an investigation and the results were incorporated into a plan for a biomass conversion RD&D project which would involve the research, design, construction and operation of an experimental anaerobic digestion pilot plant for the conversion to synthetic gas of a unique and heretofore untested combination of selected biomass and waste feedstock.

The proposed project, subsequently known as Project SNG-Biomass, was structured to ensure an adequate review of and coordination with Federal RD&D programs and with other related private efforts of national scope, it is stated.

United states that it is anticipated that Project SNG-Biomass will further its RD&D objectives. It is indicated that as the project proceeds it will yield valuable knowledge of a new and potentially significant supplemental source of gas supply, which may be used to benefit United's customers within a reasonable period of time. Based upon present and projected technical and economic information, commercial scale gasification as contemplated in Project SNG-Biomass is likely to prove technically feasible

\*Chairman Curtis voted present.

while the economic feasibility of such an undertaking is unproven. The feasibility and desirability of establishing a commercial scale facility will be undergoing continual analysis in the various phases of the project and the project would be terminated at an early date should such an analysis demonstrate that commercial application of the process is economically unfeasible. If United's project goals and timetables are achieved it is anticipated that United will possess the technical know-how and expertise to enhance its gas supply at a reasonable cost to United's customers.

United indicates that it will seek to patent significant inventions arising from the RD&D activities of Project SNG-Biomass, with the jurisdictional portion of revenues from the use and licensing of these patents to flow through to its ratepayers. It is the intent of United to provide, whenever feasible, for the protection of United's proprietary rights in any inventions, applications or patents resulting from research funded by United. United further states that the jurisdictional portion of any revenues realized as a result of the possible uses of the pilot plant gas will be credited to United's jurisdictional customers.

Any person desiring to be heard or to make any protest with reference to said supplement should, on or before February 6, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of United's filings in this docket are on file with the Commission and available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

## [6740-02]

[Project No. 2402]

UPPER PENINSULA POWER CO.

Order Providing for Hearing

JANUARY 19, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4,

1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the Federal Power Commission on the date the DOE Act takes effect shall not be affected, and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued, and further actions shall be taken by the appropriate component of DOE now responsible for the functions under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary of Energy and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

By order dated January 25, 1968, the FPC issued a major license to the Upper Peninsula Power Co. (Licensee) for the Prickett Project, FERC No. 2402, located on the Sturgeon River, in Baraga and Houghton Counties, Mich. Article 33 of the license requires the Licensee to discharge at all times a minimum flow of six cubic feet per second (cfs) from the project powerhouse to the Sturgeon River. The FPC also reserved by Articles 13<sup>a</sup> and 16<sup>a</sup> of

<sup>a</sup>Order Issuing License, Upper Peninsula Power Company, Project No. 2402, 39 F.P.C. 86 (January 25, 1968).

<sup>a</sup>Article 13 provides, in part, that: "... the operations of the Licensee, so far as they affect the use, storage and discharge from storage of waters affected by the license, shall at all times be controlled by such reasonable rules and regulations ..." as the Commission may prescribe for the protection of life, health, and property, and in the interest of the fullest practicable conservation and utilization of such waters for power and other beneficial public uses, including recreational purposes; and the Licensee shall release water from the project reservoir at such rate in cubic feet per second ... as the Commission may prescribe for the other purposes hereinbefore mentioned.

<sup>a</sup>Article 16 reads as follows: The Licensee shall, for the conservation and development of fish and wildlife resources, construct, maintain, and operate, or arrange for the construction, maintenance and operation of such facilities and comply with such reason-

the license for Project No. 2402, the right to require the Licensee to modify the operation of the project, including increasing the minimum flow release, for the conservation and development of fish and wildlife resources, and other beneficial public uses, including recreational purposes.

By letter dated November 3, 1975, the Michigan Department of Natural Resources (DNR) forwarded to the Licensee a proposal that the current minimum flow discharge from the project be increased to 70 cfs, or an amount equal to the inflow into the reservoir, whichever is the lesser amount, for the protection of fish, other aquatic life, and wildlife resources. The Licensee by letter dated December 3, 1975, rejected DNR's proposal, stating that any increase in the minimum discharge would not be in the interest of the rate payer and would not be in keeping with the "National policy" on fossil fuel conservation.

DNR by letter dated February 9, 1976, requested the FPC to order the Licensee to release at all times a minimum flow of 70 cfs or the inflow into the reservoir, whichever is the lesser amount, from the Prickett project for the protection of fish, other aquatic life, and wildlife resources. DNR stated that the Licensee's on-off operational policy of the project was having a disastrous effect on the newly established coho and chinook salmon runs, as well as the native populations of trout, sturgeon, and walleye. DNR also stated that a 70-cfs minimum flow would provide 80 percent of the downstream wetted perimeter to become available for the production of fish food organisms, and permit approximately 65 percent of downstream spawning gravel to be utilized for fish production. It appears that the increase in flow is requested to enhance the current downstream fishery resources as well as to promote the introduction of anadromous fish that are not indigenous to the Sturgeon River.

By letter dated April 8, 1976, the United States Department of the Interior, Fish and Wildlife Service (Department), stated that flows below 70 cfs have adverse impacts on the downstream aquatic ecosystem, particularly during periods when the Prickett project is not generating electricity. The Department claims that the Sturgeon

able modifications of the project structures and operation as may be ordered by the Commission upon its own motion or upon the recommendation of the Secretary of the Interior or the fish and wildlife agency or agencies of any State in which the project or a part thereof is located, after notice and opportunity for hearing and upon findings based on substantial evidence that such facilities and modifications are necessary and desirable, reasonably consistent with the primary purpose of the project, and consistent with the provisions of the Act.

River below the project has the potential to support a high quality and productive fishery for trout, salmon, walleye, sturgeon, and various forage species, provided an adequate minimum flow is established and maintained. The Department recommended and requested that the Licensee be required to provide a minimum flow from the Prickett dam in conformance with the aforementioned DNR proposal.

On August 20, 1976, notice of the request for a change in the minimum flows was given in the FEDERAL REGISTER and local newspapers in the vicinity of the project.

By letter dated September 27, 1976, the Licensee stated that it believed that the current minimum flow requirement of 6 cfs is best adapted to a comprehensive plan for the development of the Sturgeon River. The Licensee also stated that an increase in the existing minimum flow requirement as requested by DNR would result in greater reliance on fossil-fuel generation and higher costs for the rate payer. The Licensee further stated that should the Commission determine that modification of Article 33 of the license is appropriate, a hearing should be held in accordance with the Commission's Rules of Practice and Procedure.

Upon investigating the matter, the Commission staff determined that the Licensee and DNR may not have exhausted all of the possibilities of reaching an accommodation on the question of minimum flow releases. At an informal technical conference conducted by staff on March 24, 1977, all parties agreed that further cooperative studies would be useful as an aid to assessing their own priorities and concerns as well as determining the basis for a possible agreement on operation of the Prickett Project. Licensee and DNR agreed to enter into negotiations following the cooperative studies, and DNR stated that it would renew its request for a hearing only at such time as an impasse was reached in the negotiations. The information compiled during the studies was to be made available to all parties as well as the Commission staff.

The cooperative studies were carried out as agreed in June, 1977, and negotiations ensued later in the summer. The discussions did not prove fruitful, and DNR renewed its request for a hearing by letter of October 20, 1977. The information compiled during the field investigation of June, 1977, has not been made available to the Commission staff.

In light of the above, we believe that it is appropriate and in the public interest that a hearing be held to determine whether the operation of the Prickett project, including the minimum flow releases, should be modified

for the conservation and development of fish and wildlife resources, and other beneficial public uses, including recreational purposes. In so doing, we recognize that there is an inadequate record before us which would permit an informed decision on this matter at this time. By the same token, we are also unable at this time to determine whether any modification requirement to the minimum flow releases would be a major Federal action significantly affecting the quality of the human environment, and thus require the preparation of an environmental impact statement pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. § 4332(2)(C), and our implementing Order No. 415-C. It shall therefore be the objective of the Presiding Administrative Law Judge to develop a complete record in order that an informed decision can be made. The Presiding Administrative Law Judge shall also determine whether a staff environmental impact statement (EIS) is required. The Presiding Judge shall, however, hear the parties' direct case and afford the parties an opportunity to submit written statements on the need for an EIS before arriving at his decision.

The Commission finds: It is appropriate for the purposes of the Federal Power Act and in the public interest to hold a hearing, as hereinafter provided, to determine whether the operation of the Prickett project, including the minimum flow releases, should be modified for the conservation and development of fish and wildlife resources, and other beneficial public uses, including recreational purposes. In addition, the Presiding Administrative Law Judge assigned to this proceeding shall determine whether an environmental impact statement is required as discussed above.

The Commission orders: (A) Pursuant to the authority contained in, and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by the Federal Power Act, particularly sections 10(a), 10(g), 308, and 309 thereof, the license for Project No. 2402, and the Commission's Rules of Practice and Procedure, an initial conference shall be held at 9:30 a.m. on February 8, 1978, in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C., respecting the matters involved and the issues presented in the finding above.

(B) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose pursuant to section 3.5 of the Commission's regulations, 18 C.F.R. § 3.5 (1977), shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates and to rule on all motions with the exception of petitions to intervene,

motions to consolidate and sever, and motions to dismiss, as provided in the Commission's Rules of Practice and Procedure.

(C) The Commission's Rules of Practice and Procedure shall apply in this proceeding except to the extent that they are modified and supplemented herein.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission, Commissioner Holden voted present.

KENNETH F. PLUMB,  
Secretary.

## FEDERAL COMMUNICATIONS COMMISSION

[SS Docket Nos. 78-22, 78-23; File Nos. 31-A-RL-107, 16-A-L-117]

DU PAGE AVIATION CORP. AND  
PLANEMASTER SERVICES, INC.

Designating Applications for Consolidated  
Hearing on Stated Issues, Order

Adopted: January 19, 1978.

Released: January 23, 1978.

In re application of DuPage Aviation Corp., West Chicago, Ill., SS Docket No. 78-22, File No. 31-A-RL-107; Planemaster Services, Inc., West Chicago, Ill., SS Docket No. 78-23, File No. 16-A-L-117; for an aeronautical advisory station to serve DuPage County Airport, West Chicago, Ill.

1. DuPage Aviation Corp. (hereinafter called DuPage), and Planemaster Services, Inc. (hereinafter called Planemaster), have each filed an application for authority to operate an aeronautical advisory station at the same airport. DuPage seeks renewal of its current station license while Planemaster filed for a new station authorization. In that § 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized at a landing area, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate these applications for comparative hearing in order to determine which, if any, should be granted.

2. In view of the foregoing: It is ordered, That pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, and § 3.31 of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order on the following comparative issues:

(a) To determine which applicant would provide the public with better

aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications, including but not limited to operation of stations in the aviation services (Part 87) that may be or have been authorized to the applicant;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed-base operators;

(b) To determine the manner in which DuPage has operated aeronautical advisory station WBU6 at DuPage County Airport; and

(c) To determine in light of the evidence adduced on the foregoing issues which of the applications should be granted.

3. *It is further ordered*, That the burden of proof and the burden of proceeding with the introduction of evidence is on each applicant with respect to its application except issue (b) where the burdens are on DuPage and issue (c) which is conclusory.

4. *It is further ordered*, That to avail themselves of an opportunity to be heard, DuPage and Planemaster, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

CHARLES A. HIGGINBOTHAM,  
Chief, Safety and Special  
Radio Services Bureau.

(FR Doc. 78-2249 Filed 1-25-78; 8:45 am)

[6730-01]

FEDERAL MARITIME COMMISSION

(Independent Ocean Freight Forwarder  
License No. 466)

B. H. SOBELMAN & CO., INC.

Order of Revocation

The bond issued in favor of B. H. Sobelman & Co., Inc., 248 Bourse Building, Philadelphia, Pa., 19106, FMC No. 466, was canceled effective January 11, 1978.

By letter dated December 14, 1977, the licensee was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License

No. 466 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before January 11, 1978.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

The licensee has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01(d) dated August 8, 1977:

*It is ordered*, That Independent Ocean Freight Forwarder License No. 466 issued to B. H. Sobelman & Co., Inc. be returned to the Commission for cancellation.

*It is further ordered*, That Independent Ocean Freight Forwarder License No. 466 be and is hereby revoked effective January 11, 1978.

*It is further ordered*, That a copy of this Order be published in the FEDERAL REGISTER and served upon B. H. Sobelman & Co., Inc.

LEROY F. FULLER,  
Director, Bureau of  
Certification and Licensing.

(FR Doc. 78-2207 Filed 1-25-78; 8:45 am)

[6730-01]

(Independent Ocean Freight Forwarder  
License No. 1569)

WEICKER TRANSFER & STORAGE CO., D.B.A.  
WEICKER INTERNATIONAL

Order of Revocation

The bond issued in favor of Weicker Transfer & Storage Co., d.b.a. Weicker International, P.O. Box 5207 T. A., Denver, Colo. 80217, FMC No. 1569, was canceled effective January 14, 1978.

By letter dated December 19, 1977, the licensee was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1569 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before January 14, 1978.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4 further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

The licensee has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission

as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), Section 5.01(d), dated August 8, 1977:

*It is ordered*, That Independent Ocean Freight Forwarder License No. 1569 issued to Weicker Transfer & Storage Co. d.b.a. Weicker International, be returned to the Commission for cancellation.

*It is further ordered*, That Independent Ocean Freight Forwarder License No. 1569 be and is hereby revoked effective January 14, 1978.

*It is further ordered*, That a copy of this order be published in the FEDERAL REGISTER and served upon Weicker Transfer & Storage Co., d.b.a. Weicker International.

LEROY F. FULLER,  
Director, Bureau of  
Certification and Licensing.

[6730-01]

(Independent Ocean Freight Forwarder  
License No. 1607)

NORMA E. SANCHEZ

Order of Revocation

The bond issued in favor of Norma E. Sanchez, P.O. Box S-2350, Old San Juan, P.R. 00903, FMC No. 1607, was canceled effective December 24, 1977.

By letter dated November 28, 1977, the licensee was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1607 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before December 24, 1977.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

The licensee has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), Section 5.01(d), dated August 8, 1977:

*It is ordered*, That Independent Ocean Freight Forwarder License No. 1607, issued to Norma E. Sanchez, be returned to the Commission for cancellation.

*It is further ordered*, That Independent Ocean Freight Forwarder License No. 1607 be and is hereby revoked effective December 24, 1977.

*It is further ordered*, That a copy of this order be published in the FEDERAL

REGISTER and served upon Norma E. Sanchez.

LEROY F. FULLER,  
Director, Bureau of  
Certification and Licensing.

(FR Doc. 78-2208 Filed 1-25-78; 8:45 am)

[6730-01]

(Docket No. 78-11)

SAIPAN SHIPPING CO., INC. v. ISLAND  
NAVIGATION CO., LTD. AND OCEANIA LINE,  
INC.

Filing of Complaint

Notice is hereby given that a complaint filed by Saipan Shipping Co., Inc., against Island Navigation Co., Ltd., and Oceania Line, Inc., was served January 19, 1978. The complaint alleges violations by respondents of sections 15, 17, and 18(b) of the Shipping Act, 1916, in connection with carriage of cargo by respondents in the Guam/Northern Marianas trade.

Hearing in this matter, if any is held, shall commence on or before June 18, 1978. The hearing shall include oral testimony and cross examination in the discretion of the presiding officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statement, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

JOSEPH C. POLKING,  
Assistant Secretary.

FEDERAL OPEN MARKET COMMITTEE

Domestic Open Market Operations;  
Authorization

In accordance with the Committee's rules regarding availability of information, notice is given that at its meeting on January 17, 1978, a new paragraph 4 was added to the Committee's authorization for domestic open market operations. The new paragraph reads as follows:

4. In order to ensure the effective conduct of open market operations, while assisting in the provision of short-term investments for foreign and international accounts maintained at the Federal Reserve Bank of New York, the Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York: (a) For System Open Market Account, to sell U.S. Government securities to such foreign and international accounts on the bases set forth in paragraph 1(a) under agreements providing for the resale by such accounts of those securities within 15 calendar days on terms comparable to those available on such transactions in the market; and (b) for New York Bank account, when appropriate, to undertake with dealers, subject to the conditions imposed on purchases and sales of securities in paragraph 1(c), repurchase agreements in U.S. Government and agency securities, and to arrange corresponding sale and repurchase agreements between its own account and foreign and international accounts maintained at the Bank. Transactions undertaken with such accounts under the provisions of this paragraph may provide for a service fee when appropriate.

By order of the Federal Open Market Committee, January 20, 1978.

ARTHUR L. BROIDA,  
Secretary.

National Institute of Education

PANEL FOR THE REVIEW OF LABORATORY  
AND CENTER OPERATIONS

Meeting

Notice is hereby given that the next meeting of the Panel for the Review of Laboratory and Center Operations will be held on February 11-12, 1978, at the Dupont Plaza Hotel, Connecticut and Massachusetts Avenues NW., Washington, D.C., in the Dupont Room. The Panel will meet from 9 a.m. until 5 p.m. on February 11 and from 9 a.m. until approximately 4 p.m. on February 12.

The Panel for the Review of Laboratory and Center Operations is established under section 405 of the General Education Provisions Act as amended by section 403(d) of the Education Amendments Act of 1976, 20 U.S.C. 1221e. Its functions include:

(a) Preparing recommendations on initial long-range funding and program plans submitted by the 17 educational laboratories and research and development centers;

(b) Reviewing and assessing the operations of the laboratories and centers and making recommendations for the improvement and continuation of individual laboratories and centers and for the support of new laboratories and centers.

The entire meeting will be open to the public. The agenda below will revolve around the follow-up of issues raised in the Panel's interim report on the long-range plans submitted by the laboratories and centers and the planning of site visits by the Panel.

SATURDAY, FEBRUARY 11, 1978

9 a.m.—Convene.  
9-9:15—Approve January 7-9 minutes.  
9:15-9:45—General business.  
9:45-10:30—Discussion of follow-up communications with labs and centers.

10:30-10:45—Break.  
10:45-12—Discussion of issues raised in interim report.  
12-1:15—Lunch.  
1:15-2:45—Discussion of lab and center site visits.  
2:45-3—Break.  
3-5—Discussion with NIE officials on lab and center relationships and policies.

SUNDAY, FEBRUARY 12, 1978

9:00-10:30—Discussion of lab and center site visits.  
10:30-10:45—Break.  
10:45-12—Discussion of lab and center site visits.  
12-1:15—Lunch.  
1:15-2:30—Discussion of future work and meetings.  
2:30-2:45—Break.  
2:45-4—General business.

Members of the public are invited to attend the sessions. Written statements relevant to an agenda item (or to any other item considered of interest to the Institute) may be submitted at any time and should be sent to the address shown below.

In accordance with the announcement previously made, 42 FR 43131, August 26, 1977, copies of the records of all Panel proceedings can be obtained by contacting the Panel office. Minutes require approval by the Panel at a subsequent meeting and are available to the public two weeks following their approval.

In order to verify the tentative agenda, or assure adequate seating arrangements, interested persons are requested to contact the Panel office at the address or telephone number listed below:

Panel for the Review of Laboratory & Center Operations, National Institute of Education, Washington, D.C. 20208, 202-254-5680.

Dated: January 23, 1977.

CAROLYN BREEDLOVE,  
Staff Director, Panel for the  
Review of Laboratory and  
Center Operations.

Office of Education

NATIONAL ADVISORY COUNCIL ON BLACK  
HIGHER EDUCATION AND BLACK COLLEGES  
AND UNIVERSITIES

Meeting

AGENCY: National Advisory Committee on Black Higher Education and Black Colleges and Universities.

ACTION: Notice.

SUMMARY: This notice sets forth the schedule and proposed agenda of the third meeting of the National Advisory Committee on Black Higher Education and Black Colleges and Universities. Notice of this meeting is required

# NOTICES

under section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix 1). This document is intended to notify the general public of their opportunity to attend.

DATES: February 13 and 14, 1978, 9 a.m. to 5 p.m.

ADDRESS: Shoreham Americana Hotel, 2500 Calvert Street NW., Washington, D.C. 20008.

FOR FURTHER INFORMATION CONTACT:

Ms. Carol J. Smith, Program Delegate, National Advisory Committee on Black Higher Education and Black Colleges and Universities, Room 4913, ROB-3, 400 Maryland Avenue SW., Washington, D.C. 20202, AC 202-245-2825 or 245-2352.

The National Advisory Committee on Black Higher Education and Black Colleges and Universities is governed by the provisions of Part D of the General Education Provisions Act (Pub. L. 90-247 as amended; 20 U.S.C. 1233 et seq.) and the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. Appendix 1) which set forth standards for the formation and use of advisory committees.

The Committee is directed to advise the Secretary of Health, Education, and Welfare, the Assistant Secretary for Education, and the Commissioner of Education. The Committee shall examine all approaches to higher education of Black Americans as well as the needs of historically Black colleges and universities.

The meeting on February 13 and 14, 1978, will be open to the public beginning at 9:00 a.m. and ending 5 p.m. each day. The meeting will be held at the Shoreham Americana Hotel, 2500 Calvert Street NW., 20008.

The proposed agenda includes continuation of the drafting of policy recommendations on access, diversity and productivity of Blacks in higher education and Black colleges and universities.

Records shall be kept of all Committee proceedings and shall be available for public inspection at the Office of the National Advisory Committee on Black Higher Education and Black Colleges and Universities located at 7th and D Streets SW., Room 4913, ROB-3, Washington, D.C.

Signed at Washington, D.C., on January 19, 1978.

CAROL J. SMITH,  
Program Delegate, National  
Advisory Committee on Black  
Higher Education and Black  
Colleges and Universities.

Office of Human Development Services  
(Program Announcement No. 13628-781)

## SPECIAL PROJECTS FOR SERVICES AND FACILITIES

Announcement of Grants for Fiscal Year 1978

The Rehabilitation Services Administration, Office of Human Development Services, announces that applications will be accepted until March 31, 1978, from State vocational rehabilitation agencies, rehabilitation facilities and other public or nonprofit agencies and organizations wishing to compete for grants in fiscal year 1978 under the rehabilitation special projects for services and facilities program authorized by sections 302(b), 302(c), 304(b)(1), and 304(c) of the Rehabilitation Act of 1973, as amended (29 U.S.C. 762).

All applications received by the closing date which are complete and conform to the requirements of this program announcement will be accepted for review and considered for an award.

Regulations applicable to this program were published in the FEDERAL REGISTER in Subparts, A, B, and C of Chapter XIII of Title 45 of the Code of Federal Regulations (45 CFR, Part 1362) on November 25, 1975.

Scope of this program announcement. This program announcement identifies the general program objectives and funding priorities, evaluation criteria and application procedures for the specified sections of the Rehabilitation Special Projects for Services and Facilities Program for Fiscal year 1978.

### A. PROGRAM PURPOSE

The purpose of the Rehabilitation Special Projects for Services and Facilities Program is to expand or improve vocational rehabilitation services for the physically and mentally handicapped.

### B. PROGRAM OBJECTIVES AND ELIGIBLE APPLICANTS

Section 302(b).—Training services. Under this section grants may be made for projects which are designed to provide vocational training in occupational skills, leading to maximum employability of handicapped individuals. Emphasis is on training services directed to the most severely disabled.

Priority will be given to those applications which have the following specific objectives:

1. Preparation of handicapped persons, particularly those who are severely disabled, for employment.
2. Encouragement of handicapped persons to undertake and complete skill training.
3. Improvement and expansion of occupational skill training opportunities

and related training services for the handicapped.

4. Encouragement of rehabilitation facilities to be more responsive to changing employment opportunities and changing training needs of State Rehabilitation Agencies.

5. Encouragement of experimentation in training methods relating to the teaching of occupational skills.

Application may be made by States and public or private nonprofit organizations and agencies. The rehabilitation facility to be involved in the provision of vocational training services shall:

1. Be a public or private nonprofit rehabilitation facility;
2. Have been in operation at least one year;
3. Provide training courses in occupational skills (with the major portion of each course being provided within the rehabilitation facility) and provide related services including work evaluation, work testing and job tryouts (with the major portion of each of these items with the exception of job tryouts being provided within the rehabilitation facility);
4. Meet occupational health and safety standards prescribed by regulations of the Secretary of Labor;
5. Substantially meet any standards for rehabilitation facilities established by the Secretary; and
6. Prepare trainees for gainful employment.

Section 302(c).—Facility improvement. Facility improvement grants may be made to analyze, improve and increase professional services, management effectiveness or other operational aspects of rehabilitation facilities affecting the facility's capability to provide employment and services for the handicapped.

Application may be made by any public or private nonprofit rehabilitation facility, or an organization or combination of such facilities, which has been in operation for at least twelve months.

Section 304(b)(1).—Special projects for severely disabled. Under this section, grants may be made to support projects and demonstrations to establish programs which hold promise of expanding or otherwise improving rehabilitation services to handicapped individuals. Specific target disability groups are older blind individuals, deaf persons whose maximum vocational potential has not been achieved and those individuals with epilepsy, cerebral palsy, multiple sclerosis or mental illness. Applications under this section must address one of these target groups.

Any State or other public or nonprofit agency or organization is eligible to apply.

For projects directed toward the mentally ill, priority will be given to

those applications which have the following specific objectives:

1. Cooperative programming involving a State rehabilitation agency and a community mental health center, department of mental health, institution or other treatment resource designed to expand and improve vocational rehabilitation services for people with severe mental illness.
2. Prevention of institutionalization through the development of alternative vocationally-oriented rehabilitation programs in the community.
3. Demonstration of the role and function of a State rehabilitation agency within a system of community support services aimed at assisting individuals currently in institutions to achieve a satisfactory vocational adjustment in a less-restrictive environment.

4. Determination of the special needs in job development, placement, and follow-up services for persons severely handicapped by mental illness.

For projects directed toward individuals with epilepsy, cerebral palsy, or multiple sclerosis, priority will be given to those applications which have project objectives as follows:

1. Development of cooperative arrangements between a State rehabilitation agency and the State or local affiliate of a national organization concerned with the target population (e.g., United Cerebral Palsy, Epilepsy Foundation of America, National Multiple Sclerosis Society) to foster early referral and a coordinated approach to the provision of vocational rehabilitation services.
2. Identification of the constellation of services essential to the optimal vocational adjustment of the target population.
3. Exploration of rehabilitation needs unique to the target disability group in such areas as job development and post-employment services, psycho-social and recreational activities, services to families, and effective measures for dealing with intermittent exacerbation-remission of symptomatology in the vocational rehabilitation process.

4. Establishment of a coordinated relationship between a State rehabilitation agency and a specialized medical resources (e.g., a seizure clinic) in the interest of joint programming aimed at the integration of treatment and vocational rehabilitation services.

Section 304(c).—Handicapped migratory agricultural and seasonal farmworkers. Under this authority grants may be made for projects or demonstrations which will provide vocational rehabilitation services to physically or mentally disabled migratory agricultural workers or seasonal farmworkers or to members of their families who are with them where such services are necessary to the vo-

cational rehabilitation of the handicapped migratory agricultural worker or seasonal farmworker.

Only State or local vocational rehabilitation agencies are eligible to apply.

### C. AVAILABLE FUNDS

An estimate of total monies available for new or competing extension projects in fiscal year 1978 is as follows: (1) Training Services and Facility Improvement, \$4,052,000; (2) Severely Disabled, \$1,200,000; and (3) Migratory Workers, \$600,000. Normally, projects under the Special Projects for the Severely Disabled program (Section 304(b)(1)) are funded at a level of approximately \$75,000-\$120,000. During fiscal year 1978 from the monies available, it is expected that at least two projects will be funded in each of the priority areas of deafness and blindness and at least one project in each of the remaining priority areas. Size of individual grants and number of awards to be made under the other programs is variable. Applicants are advised to consult with the Regional Office in the Region where the applicant is located before making application to ascertain whether funds will be available in that specific Region for funding new or competing extension application in fiscal year 1978.

### D. GRANTEE SHARE OF PROJECT

It is generally expected that grantees will provide at least some of the total project costs. Applicants for Training Service and Migratory Worker projects will be expected to provide at least 10 percent of total project costs. Applicants for Facility Improvement projects must provide a minimum of 20 percent. Grantee contributions must be project-related and allowable under the Department's applicable cost principles in 45 CFR Part 74, Subpart Q.

### E. THE APPLICATION PROCESS

A-95 Clearinghouse notice. In compliance with the Department of Health, Education and Welfare's implementation of Office of Management and Budget Circular No. A-95 Revised (interim procedures at 41 FR 3160, July 29, 1976), applicants who request grant support must, prior to submission of an application, notify both the State and Area-wide A-95 Clearinghouses of the intent to apply for Federal Assistance. If the application is for a statewide project which does not affect area-wide or local planning and programs, the notification need be sent only to the State Clearinghouse. Some State and Area Clearinghouses provide their own forms on which such information is to be submitted. Applicants should contact the appropriate State Clearinghouse (listed at

3625

42 FR 2210, Jan. 10, 1977) for information on how they can meet the A-95 requirements.

**State VR agency approval.** Applicants are advised to consult with their State Vocational Rehabilitation Agency in the initial stages of application development to ensure State Agency requirements are met and approval is obtained. All applications submitted under this program must have State Agency approval before submission to the Rehabilitation Services Administration.

**Application submission.** In order to be considered for a grant, all applications must be submitted on standard forms provided for this purpose by the Commissioner in accordance with guidelines established by the Commissioner. The application shall be executed by an individual authorized to act for the applicant agency and to assume the obligations imposed by the terms and conditions of the grant award, including the regulations for the Rehabilitation Special Projects for Services and Facilities Program.

One signed original and two copies of the grant application, including all attachments, are required. The original and the two copies of all completed applications, except for applications pursuant to section 304(b)(1) should be submitted to the Regional Office from which the application was obtained or as otherwise specifically instructed in the application material. Applications for projects pursuant to section 304(b)(1) should be submitted to the Division of Grants and Contract Management, Office of Human Development Services, Room 1427, Mary E. Switzer Bldg., 330 "C" Street SW., Washington, D.C. 20201.

**Application consideration.** The Director, Office of Rehabilitation Service in the Regional Office or, in the case of projects pursuant to section 304(b)(1), the Commissioner of Rehabilitation Services determine the final action to be taken with respect to each grant application.

All grant applications are subjected to a competitive review and evaluation conducted by qualified persons outside the cognizant Program Office. The results of the competitive review assist the Director, Office of Rehabilitation Services or the Commissioner's consideration of the competing applications. This consideration also takes into account the comments of the A-95 Clearinghouses, State VR Agencies, the HEW Regional Offices or the headquarters program office. Comments on the applications may also be requested from appropriate specialists and consultants inside and outside the Government.

After the Director, Office of Rehabilitation Services or the Commissioner have reached a decision either to disapprove or not to fund a competing

grant application, the unsuccessful applicant is notified of that decision.

**Grant awards.** The Director, Office of Rehabilitation Services or the Commissioner make grant awards consistent with the purposes of the Act, the regulations, and program announcements within the limits of Federal funds available. The official grant award document is the Notice of Grant Awarded. The Notice of Grant Awarded sets forth in writing to the grantee the amount of funds granted, the purpose of the grant, the terms and conditions of the grant award, the effective date of the award, the budget period for which support is given and the total grantee participation, if any. The initial award also specifies the total project period for which support is contemplated.

#### F. CRITERIA FOR REVIEW AND EVALUATION OF APPLICATIONS

All new and competing extension applications received in response to this announcement will receive a technical review by qualified experts. Applications are evaluated against the following criteria:

1. Project objectives are identical with or are capable of achieving program objectives as defined in this announcement.
2. Project activities or tasks are capable of achieving project objectives.
3. Estimated cost to the Government is reasonable in relation to anticipated project results.
4. Budget items are appropriate in relation to project activities.
5. Adequate facilities are available to the applicant to carry out the project.
6. Project personnel, actual or proposed, are, or will be, well trained and qualified.
7. Staffing levels are adequate to carry out the project.
8. Project contains an adequate evaluation component.
9. Project provides for adequate liaison with the State Agency and community groups to ensure client referrals, outreach and utilization of project results.
10. Applicant employs sound financial management practices and controls to ensure the proper management of Federal funds.
11. Project demonstrates the potential for the project to be continued after termination of Federal support.
12. Project demonstrates the potential for project results to be effectively utilized after termination of support.

#### G. CLOSING DATE FOR RECEIPT OF APPLICATIONS

Applications are due by close of business (COB) on March 31, 1978. Applications will be judged on time if:

1. The application was sent by registered or certified mail not later than March 31, as evidenced by the U.S.

Postal Service postmark or the original receipt from the U.S. Postal Service;

2. The application is sent by mail and received on or before the closing date in the Department of Health, Education, and Welfare, the Office of Human Development Services or the Rehabilitation Services Administration mailrooms as evidenced by the time date stamp or other documentary evidence of receipt maintained by such mailroom, or

3. The application is hand delivered to the office designated to receive the application in the application instructions. Hand delivered applications will be accepted no later than COB March 31 in any case.

#### H. LATE APPLICATIONS

Late applications are not accepted and applicants are notified accordingly.

#### AVAILABILITY OF APPLICATION FORMS

Application kits which contain the prescribed application forms and information for the applicant may be obtained by writing to the Director, Office of Rehabilitation Services for the Region in which the applicant is located. Addresses are listed below. When requesting application kits, applicants must specify the program (e.g., Section 302(b), 304(b)(1), etc.) under which they are applying in order to ensure they are applying in order to ensure they receive the relevant application material. Applicants should request kits for only those programs for which they are eligible (see Section B above).

#### J. REGIONAL OFFICE ADDRESSES

**Region I.** Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, John F. Kennedy Federal Building, Room 2011, Government Center, Boston, Mass. 02203.

**Region II.** Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Federal Building, Room 4106, 26 Federal Plaza, New York, N.Y. 10007.

**Region III.** Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Office of Human Development Services, P.O. Box 13716, Philadelphia, Pa. 19101.

**Region IV.** Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 50-7th Street, N.E., Room 362, Atlanta, Ga. 30323.

**Region V.** Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 300 South Wacker Drive, 31st Floor, Chicago, Ill. 60606.

**Region VI.** Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Fidelity Union Life Building, Room 340, 1511 Bryan Street, Dallas, Tex. 75201.

**Region VII.** Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 601 East 12th Street, Room 384, Kansas City, Mo. 64106.

Signed at Washington, D.C., on January 19, 1978.

ERNEST BARTELL,  
Director, Fund for the Improvement of Postsecondary Education.

##### PUBLIC MEETING ON INFLUENZA

The Secretary, DHEW, announces his intent to hold a public meeting to discuss the new strain of influenza, A/USSR/1977. Issues relating to an appropriate national influenza immunization policy for 1978-79, such as formulation, supply, usage, and other such relevant matters will be examined. An expert group with competence to address these issues has been convened by the Secretary.

The meeting will be open to the public, attendance limited only by the space available.

Date: January 30, 1978.  
Time: 8 a.m. (Registration: 7:45 a.m.)  
Place: Conference Room 800, H. H. Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201.

Contact: H. Bruce Dull, M.D., Assistant Director for Program, Center for Disease Control, Atlanta, Ga. 30333, Phone: 404-633-3311, extension 3701 or FTS: 236-3701.

Other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: January 23, 1978.

JOHANNES STUART,  
Acting Director,  
Center for Disease Control.

##### DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

##### Office of the Secretary

(Docket No. D-78-497)

##### ADMINISTRATOR OF THE FEDERAL DISASTER ASSISTANCE ADMINISTRATION

##### Amendment to Delegation of Authority

AGENCY: Department of Housing and Urban Development.

ACTION: Notice.

SUMMARY: This Notice amends the Delegation of Authority to the Administrator of the Federal Disaster Assistance Administration, to include authority to issue rules and regulations to implement the Legal Services provisions of the Disaster Relief Act of 1974. The amendment excludes the au-

thority to redelegate authority to issue rules and regulations.

FOR FURTHER INFORMATION CONTACT:

Michael Hirsch, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-7055.

Accordingly, the Delegation of Authority to the Administrator, published at 41 FR 19365, May 12, 1976, is amended as follows:

1. Section A is amended by adding the following phrase to the end of the first sentence: "... including the authority to issue rules and regulations." Section A will now read:

Section A. *Authority delegated.* The Administrator of the Federal Disaster Assistance Administration is authorized to exercise the power and authority of the Secretary of Housing and Urban Development with respect to Section 412 of the Disaster Relief Act of 1974 (42 U.S.C. 5182) relating to disaster legal services, including the authority to issue rules and regulations. Said power and authority is conferred upon the Secretary pursuant to Executive Order 11910, entitled "Delegating Legal Services Functions Pursuant to the Disaster Relief Act of 1974." (April 14, 1976, 41 FR 15681).

2. Section B is amended by adding this phrase at the end of the sentence: "... except the authority to issue rules and regulations." Section B will now read:

Section B. *Authority to redelegate.* The Administrator may redelegate to employees of the Department of Housing and Urban Development any of the authority delegated in Section A, except the authority to issue rules and regulations.

(Disaster Relief Act of 1974, 88 Stat. 143 (42 U.S.C. 5121n.); Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)); Executive Order 11910, signed April 14, 1976, 41 FR 15681.)

PATRICIA ROBERTS HARRIS,  
Secretary of Housing and Urban Development.

(FR Doc. 78-2203 Filed 1-25-78; 8:45 am)

#### [4210-01]

(Docket No. D-78-498)

##### ADMINISTRATOR OF THE FEDERAL DISASTER ASSISTANCE ADMINISTRATION

##### Amendment to Delegation of Authority

AGENCY: Department of Housing and Urban Development.

ACTION: Notice.

SUMMARY: This Notice amends the Delegation of Authority to the Administrator of the Federal Disaster Assistance Administration, under the Disaster Relief Act of 1974, to exclude authority to redelegate authority to issue rules and regulations.

FOR FURTHER INFORMATION CONTACT:

Michael Hirsch, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-7055.

Accordingly the Delegation of Authority to the Administrator, published at 39 FR 28227, August 5, 1974, is amended by adding the following phrase to the end of Section C: "... except the authority to issue rules and regulations." Section C of the Delegation of Authority will now read as follows:

Sec. C. *Authority to redelegate.* The Administrator may redelegate to employees of the Department of Housing and Urban Development any of the authority delegated in Section A except the authority to issue rules and regulations.

##### Application

JANUARY 18, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Colorado Interstate Gas Co., has filed an application for a right-of-way to construct a 4 1/4 inch O.D. pipe-

#### NOTICES

line for the purpose of transporting natural gas across the following described public lands:

##### SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 19 N., R. 93 W.,  
Sec. 12, W 1/2 NW 1/4, SE 1/4 NW 1/4, SW 1/4.

The pipeline will transport natural gas produced from the Echo Springs Federal No. 1 well at a location in the SW 1/4 of Section 12, T. 19 N., R. 93 W., into existing pipeline facilities in the SW 1/4 of Section 1, T. 19 N., R. 93 W., Carbon County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyo. 83201.

##### National Park Service GLACIER NATIONAL PARK Boundary Revision

Pursuant to the act of April 11, 1972, Pub. L. 92-272 (86 Stat. 121) sections 301 and 302, the Secretary of the Interior is authorized to revise the boundaries of Glacier National Park to add approximately 267.90 acres and to exclude approximately 68.47 acres, and to publish these revisions by map or other boundary description in the FEDERAL REGISTER.

In accordance with the above act, notice is hereby given that the boundaries of Glacier National Park, Mont., have been partially revised to add approximately 316.76 acres and to exclude approximately 22.24 acres as depicted on boundary map numbered 80,011B, dated August 1977, prepared by the Denver Service Center of the National Park Service. This map is on file and available for inspection in the administrative office of Glacier National Park, West Glacier, Mont. 59936, The Rocky Mountain Regional Office of the National Park Service, 655 Parfet Street, Lakewood, Colo. 80225, and the Department of Interior, Washington, D.C. 20240.

All federally owned lands lying within the revised boundary as delineated on the referenced map are therefore included in Glacier National Park and are subject to the laws and regulations applicable to the park.

Dated: January 13, 1978.

CECIL D. ANDRUS,  
Secretary of the Interior.

# INTERNATIONAL TRADE COMMISSION

(AA1921-Inq.-8 and 9)

## CARBON STEEL BARS AND CARBON STEEL STRIP FROM THE UNITED KINGDOM

### Inquiries and Hearing

The U.S. International Trade Commission (Commission) received advice from the Department of the Treasury (Treasury) on January 17, 1978, that during the course of determining whether to initiate an investigation with respect to carbon steel bars and carbon steel strip from the United Kingdom in accordance with section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)), Treasury concluded from the information available to it that there is substantial doubt that an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of this merchandise into the United States. Therefore, the Commission on January 23, 1978, instituted inquiries AA1921-Inq.-8 and 9, under section 201(c)(2) of that act, to determine whether there is no reasonable indication that an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

The Treasury advised the Commission as follows:

DEAR MR. CHAIRMAN: In accordance with section 201(c) of the Antidumping Act of 1921, as amended, antidumping investigations are being initiated with respect to imports of carbon steel bars and carbon steel strip from the United Kingdom. Pursuant to section 201(c)(2) of the Act, you are hereby advised that the information developed during our preliminary investigations has led to the conclusion that there is substantial doubt that an industry in the United States is being, or is likely to be, injured, or is prevented from being established, by reason of the importation of this merchandise into the United States.

Based upon discussions with the U.S. Customs Service and your staff, it was decided that carbon steel bars and carbon steel strip each constitute a separate "class or kind of merchandise" for the purposes of an antidumping investigation.

For purposes of these investigations, the term "carbon steel bars" means bars of steel, other than alloy, provided for in item numbers 608.45 and 608.46 of the Tariff Schedules of the United States (TSUS) and the term "carbon steel strip" means strip of steel, other than alloy, provided for in item numbers 609.02, 609.03, and 609.04 of the TSUS.

The information available to Treasury with respect to imports of carbon steel bars from the United Kingdom indicates that

## NOTICES

those imports increased substantially during the period January-September 1977—the most recent period for which data are available—over the same period in 1976. However, imports of carbon steel bars from the United Kingdom accounted for only 1.4 percent of domestic consumption during the period January-September 1977. With respect to imports of carbon steel strip, the information available to Treasury indicates those imports also increased during the first nine months of 1977 over the comparable period in 1976. However, imports of carbon steel strip from the United Kingdom accounted for only 0.2 percent of domestic consumption during the first nine months of 1977.

Furthermore, although in recent years profitability and employment declined appreciably throughout the domestic industry producing the classes or kinds of merchandise described above, there is no evidence before Treasury that those declines were caused by imports of the alleged sales at less than fair value from the United Kingdom.

Accordingly, from the available information the Department has concluded that there is substantial doubt that an industry is being, or is likely to be, injured, or is prevented from being established, by reason of the alleged sales at less than fair value from the United Kingdom.

Based upon the data submitted by petitioner, the margins of sales at less than fair value range from 2.6 to 12 percent on bars and from 24 to 26 percent on strip.

Some of the enclosed data is regarded by Treasury to be of a confidential nature. It is therefore requested that the U.S. International Trade Commission consider all the enclosed information to be for the official use of the ITC only, and not to be disclosed to others without prior clearance from the Treasury Department.

Sincerely yours,

(s) ROBERT H. MUNDHEIM,  
General Counsel.

**Hearing.** A public hearing in connection with the inquiries will be held in Washington, D.C., beginning at 9:30 a.m., e.s.t., on Wednesday, February 1, 1978, in the Hearing Room, U.S. International Trade Commission Building, 701 E Street NW. All persons have the right to appear by counsel or in person, to present evidence, and to be heard. Requests to appear at the public hearing should be received in writing in the office of the Secretary to the Commission not later than noon, Friday, January 27, 1978.

**Written statements.** Interested parties may submit statements in writing in lieu of, and in addition to, appearance at the public hearing. A signed original and nineteen true copies of such statements should be submitted. To be assured of their being given due consideration by the Commission, such statements should be received no later than Monday, February 6, 1978.

By order of the Commission:

Issued: January 24, 1978.

KENNETH R. MASON,  
Secretary.

# NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

## MEDIA ARTS ADVISORY PANEL

### Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Media Arts Advisory Panel (Production Aid/Radio) to the National Council on the Arts will be held on February 14, 1978, from 9:30 a.m. to 7 p.m., in Room 1219, Columbia Plaza, 2401 E Street NW., Washington, D.C. 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of March 17, 1977, these sessions will be closed to the public pursuant to subsection (c) (4), (6), and 9(B) of section 552 of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6378.

# NATIONAL COUNCIL ON THE ARTS

## Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the National Council on the Arts will be held on February 10, 1978, from 9 a.m. to 5:30 p.m., on February 11, 1978, from 9:30 a.m. to 5:30 p.m., and on February 12, 1978, from 9 a.m. to 1 p.m., in the Mayflower Hotel, 1127 Connecticut Avenue NW., Washington, D.C.

A portion of this meeting will be open to the public on February 10, 1978, from 9 a.m. to 5:30 p.m., and on February 11, 1978, from 9:30 a.m. to 3 p.m. The agenda for these meetings will include discussions of guidelines for Literature, Artists-in-Schools, Dance Touring Program, Orchestra and Opera Programs, Folk Arts, and Special Projects, assistance for previ-

ously ineligible groups, and general policy.

The remaining sessions of this meeting on February 11, 1978, from 3 p.m. to 5:30 p.m., and February 12, 1978, from 9 a.m. to 1 p.m., are for the purpose of Council review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determinations of the Chairman published in the FEDERAL REGISTER of March 17, 1977, these sessions may be closed to the public pursuant to subsections (c) (4), (6), and 9(B) of section 552(b) of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6378.

# NATIONAL TRANSPORTATION SAFETY BOARD

(N-AR 78-41)

## ACCIDENT REPORT; SAFETY RECOMMENDATIONS

### Availability

**Highway Accident Report.**—The National Transportation Safety Board has completed its investigation into the August 20, 1976, collision of a tractor-semitrailer with 10 automobiles on State Route 17 in Valley View, Ohio. The tractor, leased to the Long Transportation Co. of Detroit, Mich., went out of control while descending a steep 10-percent grade; the automobiles were stopped at a traffic signal at the bottom of the grade. Eight of the 27 occupants died and 15 were injured.

The Safety Board determined that the probable cause of the accident was the inability of the improperly adjusted and partially inoperative service brake system on the tractor-semitrailer to adequately slow the vehicle as it descended the grade. Inadequate pretrip inspections by the driver and the lack of required maintenance and inspection by the carrier failed to identify and to correct the unsafe condition of the brake system.

Further, the Board found that the failure of the road signs to provide ad-

vance warning information concerning the length and steepness of the grade and the presence of the signalized intersection, prevented the driver from taking early evasive action.

On January 12, as a result of its investigation of this accident, the Safety Board issued the following recommendations:

### To the State of Ohio:

Conduct, in cooperation with the city of Garfield Heights and the Village of Valley View, a traffic survey and analysis of that part of State Route 17 (Granger Road), extending from the approach to the hill crest in Garfield Heights to Canal Road in Valley View, to determine and install needed advance warning signs which will provide drivers of all types of vehicles information relating to the length and steepness of the grade and the presence of the signalized intersection. (H-77-38)

Consider amending State laws to allow the Director of Transportation to place and maintain traffic control devices that conform to its manual and specifications upon all extensions of State highways through local jurisdictions. (H-77-39)

### To the Federal Highway Administration:

Require the State of Ohio to renew its emphasis toward the implementation at the local level of established procedures for the accurate identification of accident locations on all roads and streets, as outlined in Highway Safety Program Standard No. 9, Chapter 7, Section 3A, B, and C. (H-77-40)

Require local jurisdictions to obtain State approval before installing traffic control devices on State routes through their jurisdictions. (H-77-41)

### To the U.S. Department of Transportation:

Seek the necessary funding from the Congress to increase the resources of the Federal Bureau of Motor Carrier Safety to enable it to increase its activities devoted to the roadside inspection of commercial motor vehicles and the safety compliance survey of carrier operations. (H-77-42)

### To the Bureau of Motor Carrier Safety:

Request added resources to give greater priority to increased roadside inspections of commercial motor vehicles and safety compliance surveys of carrier operations to insure greater compliance of vehicle maintenance operations and records. (H-77-43)

Each of these six recommendations is designated "Class II, Priority Action. Copies of the accident investigation report will be made available to the public in the near future.

**Intermodal Transportation Safety Recommendation.**—The Safety Board has recommended that the Secretary of Transportation develop, publish, and maintain an official list of regulated hazardous materials that cross-references all United States, United Nations, Intergovernmental Maritime Consultative Organization, and International Air Transport Association commodity descriptions and reference

numbers. The list should be arranged for convenient use by all persons engaged in the export or import of hazardous materials. (I-78-1)

The Board's recommendation letter, issued January 17, notes that international trade in hazardous materials by the United States is a multi-billion dollar activity affecting all transportation modes. In shipping these materials U.S. manufacturers and carriers must comply with U.S. Department of Transportation regulations as well as rules of other countries in which the goods move. For example, DOT regulations govern domestic transportation and U.S. flag carriers. Intergovernmental Maritime Consultative Organization regulations apply to ocean transportation. International Air Transport Association restricted articles regulations have been adopted by over 50 other countries but not by the United States. Many European countries base their surface transportation regulations on the recommendations of a United Nations Committee of Experts.

The Board also notes that the name and reference number used for a commodity frequently differs among these regulations. Whenever a shipper exports or imports hazardous materials, such differences must be identified and reconciled to insure compliance with all governing regulations. This complex task requires access to the latest revisions of all applicable regulations, by every party involved in this trade. This case-by-case approach increases the likelihood of misinterpretation and violations. These violations, even unintentional, could have catastrophic results.

The Board believes that a cross-reference list of regulated hazardous materials commodity descriptions and reference numbers must be published and maintained by DOT to achieve official status and widespread use. Once established, this list could serve as a bridge code to information systems developed for other official purposes, such as environmental protection, worker safety, and customs.

**NOTE.**—The above notice summarizes Safety Board documents made available during the preceding week.

Single copies of the Board's safety recommendation letters in their entirety are available to the public without charge. Requests for copies must be in writing, identified by the recommendation number (shown in parentheses) and the date of publication of this notice in the FEDERAL REGISTER. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,  
Federal Register  
Liaison Officer.

[Docket No. 50-141]

**STANFORD UNIVERSITY****Proposed Issuance of Order Authorizing  
Termination of Facility License**

The Nuclear Regulatory Commission (the Commission) is considering issuance of an order authorizing the termination of Facility License No. R-60 issued to Stanford University (the licensee), for the Stanford Pool Reactor located on the University's campus near Palo Alto, Calif., in accordance with the licensee's application dated August 9, 1976, as supplemented December 9, 1977.

Prior to issuance of any order, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By February 27, 1978, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the order in connection with the licensee's application. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to

matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application dated August 9, 1976, as supplemented December 9, 1977, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Maryland, this 18th day of January 1978.

[Docket No. 50-271]

**VERMONT YANKEE NUCLEAR POWER CORP.**  
Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 43 to Facility Operating License No. DPR-28 issued to Vermont Yankee Nuclear Power Corporation (the licensee), which revised the license and Technical Specifications for operation of the Vermont Yankee Nuclear Power Station (the facility) located near Vernon, Vermont. The amendment becomes effective 30 days after the date of issuance.

This amendment adds a license condition relating to the completion of facility modifications for fire protection. It also revises Technical Specifications to incorporate limiting conditions for operation and surveillance requirements for existing fire protection systems and administrative controls. Additional operating and surveillance requirements for the modifications being performed will be added to the Technical Specifications after the modifications are completed.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the

**NOTICES**

3635

Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the licensee's submittals dated January 31, March 18, July 14, August 18, September 13, and November 30, 1977, (2) Amendment No. 43 to License No. DPR-28, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Brooks Memorial Library, 244 Main Street, Brattleboro, Vermont. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 13th day of January 1978.

**OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS**

[Doc. No. 301-14]

**AMERICAN INSTITUTE OF MARINE UNDERWRITERS****Complaint; Petition and Hearing**

On November 10, 1977, the Chairman of the section 301 Committee received from the American Institute of Marine Underwriters a petition alleging discriminatory and unfair trade practices and policies by the Union of Soviet Socialist Republics. The complaint alleges that the Soviet Union discriminates against the American marine insurance market, restricts the freedom of American exporters and importers, and burdens and restricts

U.S. commerce by requiring that insurance on exports or imports be placed with a Soviet state insurance operation. By agreement with the petitioner, institution of the complaint was deferred until after a formal meeting was held between the government of the U.S. and the Government of the USSR in early January. That meeting did not result in a resolution of the problem. Therefore, the Marine Underwriters complaint is now being instituted pursuant to section 301 of the Trade Act of 1974 (Pub. L. 93-618; 88 Stat. 1978). The text of the complaint is as follows:

NOVEMBER 4, 1977.

CHAIRMAN,  
Section 301 Committee, Office of the Special Representative for Trade Negotiations,  
Washington, D.C.

DEAR MR. CHAIRMAN: Pursuant to section 301 of the Trade Act of 1974 (Pub. L. 93-618, 88 Stat. 1978; 19 U.S.C. § 2411 (Supp. 1977)) and Section 2006.0 et seq. of Title 15 of the Code of Federal Regulations, the American Institute of Marine Underwriters hereby submits this complaint against the discriminatory and unfair trade practices and policies of the Union of Soviet Socialist Republics, such practices and policies being unjustifiable, unreasonable, and burdensome to United States commerce.

The complainant, the American Institute of Marine Underwriters, whose office is at 14 Wall Street, New York City, is a non-profit trade association of 126 insurance companies, each of which is authorized to engage in the business of marine insurance in one or more States of the United States. Collectively, they underwrite more than 90 percent of the marine insurance written in the United States. Over the years the Institute and its members have contributed significantly to the growth and development of the American maritime industry and, at present, represent a significant share of what has come to be recognized as one of the world's leading insurance markets.

Marine insurance is a service vital to the proper functioning of international trade. The American marine insurance industry is interrelated with and makes significant contributions to the development of a strong international commerce for the United States. This industry provides the lubricant necessary to permit the safe and inexpensive ocean transport of goods and raw materials, a service essential to the American economy. The American marine insurance industry also plays a significant role in the implementation of United States foreign policy and in our country's increasingly difficult attempt to maintain a favorable balance of payments position.

Traditionally, exporters and importers have been free to choose their own insurers from the highly competitive international insurance marketplace. This system has effectively and economically served world trade for many years. Given freedom of competition, it will continue to do so for years to come. The Union of Soviet Socialist Republics, however, denies that freedom to compete by requiring that virtually all insurance on exports or imports be placed with Ingosstrakh, a Soviet state insurance operation. This practice of the Soviet Union discriminates against the American marine insurance market, restricts the freedom of

the American exporter or importer, thereby burdening and restricting United States commerce, and adversely affects the United States balance of payments.

Since the beginning of renewed trade between the United States and the Soviet Union in 1972, American companies have had to negotiate sales contracts with the Soviet Foreign Trade Organizations. These state-controlled organizations, as buyers, have refused from the very beginning to countenance contract terms on any basis other than F.O.B.-U.S.A. port of export or F.A.S.-U.S.A. port of export, so that American exporters would have no control over the placement of insurance. Regardless of the terms of delivery, the Soviet Foreign Trade Organizations always insist on a provision like the following, which provides that they, as buyers, "are to take care of and to bear expenses for insurance with Upravleniye Inostrannogo Strakhovaniya SSSR (Ingosstrakh) of the equipment to be delivered under the contract from the moment of its despatch from the Sellers' and/or their subcontractors' works up to the moment of its arrival at the Buyer's works."

These provisions on insurance in the Soviet form contracts also provide that the American seller shall bear some of the costs of such insurance. Again quoting from a Soviet form contract for the purchase of equipment from an American seller:

"The expenses for insurance from the Sellers' and/or their subcontractors' works up to the moment of loading the goods on board the ship at the port of shipment (or franco-railway carborder) at the rate of 0.075% of the insurance amount are to be charged to the Sellers' account and deducted by the Buyers from the Sellers' invoices when effecting payment for the equipment."

If a U.S. exporter wishes to make a sizable sale to the U.S.S.R., he is under pressure to sell on these Soviet-dictated terms and he naturally will be most reluctant to take issue with any item of the terms because it might delay or cause the loss of the sale. Because of this Soviet practice an American exporter is not free to negotiate whether it is more favorable for him to insure the exports under his customary open cargo insurance policy. The American Institute of Marine Underwriters has been informed by many American exporters that they would prefer American marine insurance coverage due to low cost, familiarity with conditions insured, confidence in its security, speedy claims services available, availability of open cargo policies covering and exporter's worldwide business, and a desire to assist in the U.S. balance of payments situation. The Soviet practices complained of prevent the American exporter from selling his goods on a C.I.F. basis and thereby prevent him from exercising choice and preference in insurance matters. This is a restriction and burden placed on U.S. commerce.

Soviet insurance practices restrict and burden U.S. commerce in another, more harmful way. The American Marine Insurance Market is completely shut out by these Soviet practices from participating in the trade between the United States and the Union of Soviet Socialist Republics. This results in great losses of premium to this Market. According to figures provided by the U.S. Department of Commerce, Domestic and International Business Administration, in 1976 U.S. exports to the U.S.S.R. amounted to \$2,306 millions, and U.S. imports from the U.S.S.R. totalled \$221 mil-

lions. By applying to these 1976 figures (U.S. Sources) for U.S.-U.S.S.R. trade, a premium rate of 3/10 of 1% of insured value, the cargo insurance premium for U.S. exports to the U.S.S.R. can be seen as having

amounted to \$8,918,000, and for U.S. imports from the U.S.S.R. to \$663,000.

Comparable figures for earlier years are as follows (U.S. sources):

	U.S. exports	U.S. imports	Potential premium
Year:			
1975	1,833,000,000	254,000,000	6,261,000
1974	1,607,000,000	350,000,000	2,871,000
1973	1,195,000,000	220,000,000	4,245,000

While it is true that the Russian Government, responding to pressures from this Institute and from other American sources both public and private, has permitted a trickle of cargo insurance to be placed with American underwriters during these years, when compared with the potential premiums set forth above the amount of cargo insurance placed in the American Marine Insurance Market is almost infinitesimal.

Since 1973 the American Institute of Marine Underwriters has worked closely with the United States Government, through the Departments of State and Commerce, in attempting to negotiate with representatives of the Soviet Insurance operation, Ingosstrakh, some workable formula or understanding whereby the services of American marine insurers could be made available to U.S.-U.S.S.R. traders. The Institute has over the last five years participated in a variety of attempts to persuade the Soviet Government to share some of the insurance business from U.S.-U.S.S.R. trade. All of these efforts were undertaken with the approval and cooperation of the United States Government, and all were unsuccessful. We, therefore, feel that there is no other means of redress of these unfair trade practices by the Soviet Union than section 301 of the Trade Act of 1974, which we hereby invoke.

It is the firm opinion of the American Institute of Marine Underwriters that the restrictions placed on insurance by the Union of Soviet Socialist Republics are inconsistent with the reciprocal obligations of trading partners and violative of the spirit of détente as embodied in the Basic Principles of Relations Between the United States of America and the Union of Soviet Socialist Republics of May 29, 1972, especially the Seventh provision (Signed at Moscow on May 29, 1972, Department of State Bulletin, June 26, 1972, p. 898). The American Institute of Marine Underwriters further alleges that the Soviet restrictions on U.S. commerce which are the basis of this complaint also violate the Long Term Agreement Between The United States Of America and The Union Of Soviet Socialist Republics To Facilitate Economic, Industrial, and Technical Cooperation, especially Articles I and II(b), 25 UST 1782; TIAS 7910 (Signed at Moscow June 29, 1974; entered into force June 29, 1974; Department of State Bulletin, July 29, 1974, p. 219); the Final Act of the Conference on Security and Cooperation in Europe, adopted at Helsinki on August 1, 1975, in particular those provisions dealing with "Commercial Exchanges" under the Section entitled "Co-operation In The Field Of Economics, Of Science And Technology And Of The Environment" (Department of State Bulletin, September 1, 1975, pp. 323-350, at pp. 329-331); and the United Nations Resolution on Development and International Economic Cooperation

(Resolution of UN General Assembly, Seventh Special Session, September 16, 1975 (A/RES/3362 (S-VIII))), in particular Article I (10).

The American Institute of Marine Underwriters hereby certifies that it has not filed for other forms of relief under the Trade Act of 1974 or any other Act.

Pursuant to section 301 of the Trade Act of 1974, we respectfully request a public hearing on the foregoing complaint. It is our hope that your office will conduct a review of the complained-of restrictions by the Union of Soviet Socialist Republics and will urge the President to respond to such unjustifiable and unreasonable restrictions in the manner authorized by Section 301 of the Trade Act of 1974.

Respectfully submitted,

THOMAS A. FAIR,  
President, American Institute of  
Marine Underwriters.

#### HEARINGS

1. The Complainant has requested that hearings be held on this matter. Such hearing will be held on Tuesday, February 28, 1978 and if necessary will continue on Wednesday, March 1. The Hearing is to be held at the Office of the Special Representative for Trade Negotiations, 1800 G Street NW., Washington, D.C., Room 730, beginning at 10 a.m.

2. Requests to present oral testimony and accompanying briefs must be received on or before February 23, 1978. Written briefs from those persons not wishing to present oral testimony should be received in the Office of the Special Representative for Trade Negotiations on or before the date of the hearing, February 28, 1977, in order to be considered by the section 301 Committee.

Interested persons are advised to refer to the regulations promulgated by the Office of the Special Representative for Trade Negotiations covering procedures to be followed in all section 301 proceedings (15 CFR 2006 as amended by FEDERAL REGISTER notice of Tuesday, October 18, 1977, page 55611). Please note that all communications to the Chairman of the Section 301 Committee should be addressed to the Office of the Special Representative for Trade Negotiations, Room 715, 1800 G Street NW., Washington, D.C. 20506.

(a) *Submission of briefs and requests to present oral testimony.* Requests for

oral testimony and submission of written briefs should conform to the procedures set forth in 15 CFR 2006.6 and 2006.7 (found in the FEDERAL REGISTER of August 28, 1975, page 39497).

(b) *Rebuttal briefs.* In order to assure parties an opportunity to contest information provided by other interested parties in the written briefs and the oral testimony, rebuttal briefs may be filed by any party within 15 days after the transcript of the hearing becomes available.

(c) *Attendance at hearings.* The hearings will be open to the public.

SHIRLEY A. COFFIELD,  
Chairman, 301 Committee,  
Office of the Special Representative  
for Trade Negotiations.

#### OFFICE OF THE FEDERAL REGISTER

##### LEGAL DRAFTING WORKSHOPS SCHEDULED

February and March 1978

The Legal Drafting Workshop covers the following material:

1. Drafting conventions, preferred usage, the rule of consistency.
2. Drafting exercises-proposed and final rules and preambles.
3. Review techniques that improve your work.

4. What you can do to make regulations easier to read and easier to use. The aim of this workshop is to improve the quality of Federal regulations by teaching you how to design and draft clear documents.

Who: Any Federal employee who drafts documents or who reviews documents for substance that are published in the FEDERAL REGISTER.

When: February 13, 14, 15, and 16, 1978, for people who are new to the Federal Government or to the rule-making process and want a basic course. March 27, 28, 29, and 30, 1978, the same course will be given for people who are familiar with the rule-making process and want to examine course material in depth.

Where: Office of the Federal Register, Washington, D.C.

Cost: \$150 for each person. Send a form 170 or the training authorization form used by your office to: Special Projects Unit, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

How: Each participant must call the Office of the Federal Register, 202-523-4534 to make a reservation in addition to completing the training form.

For more information: Write: Special Projects Unit, Office of the Federal

Register, National Archives and Records Service, Washington, D.C. 20408, or phone 202-523-4534.

FRED J. EMERY,  
Director of the Federal Register.

#### SECURITIES AND EXCHANGE COMMISSION

(Release No. 14393; SR-DTC-77-8)

##### DEPOSITORY TRUST CO.

Order Approving Rule Change To Permit  
Inclusion of Municipal Bonds in DTC

JANUARY 19, 1978.

On August 25, 1977, the Depository Trust Co., 55 Water Street, New York, N.Y. 10041, ("DTC") submitted, pursuant to Rule 19b-4 under the Securities Exchange Act of 1934 (the "Act"), a proposed rule change to include interchangeable municipal bonds in DTC. As a result, participants in DTC will be able to deposit interchangeable municipal bonds deemed eligible for the program and thereafter effect receipt and delivery of such securities with other participants upon instructions made to, and book entry effected at, DTC. The proposal also enables a participant to withdraw a municipal security from DTC in either bearer or registered form. In connection with the proposed rule change, DTC requested that the Commission continue its finding pursuant to paragraph (g) of Rules 8c-1 and 15c2-1 under the Act, 17 CFR 240.8c-1(g) and 15c2-1(g), that the agreements, provisions and safeguards established by DTC are adequate for the protection of investors.

In accordance with section 19(b) of the Act and Rule 19b-4 thereunder, notice of the proposed rule change was published in the FEDERAL REGISTER (42 FR 45399 (September 9, 1977)), and the public was invited to comment thereon. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 13929, (September 2, 1977). The only letter of comment received was from the Public Securities Association and expressed support for the proposed rule change.

In a letter dated January 6, 1978, DTC further described the safeguards that will apply to the operation of the proposed service.

The Commission has reviewed the submission and finds, pursuant to paragraph (g) of Rules 8c-1 and 15c2-1 under the Act, that the agreements, provisions and safeguards established by DTC are adequate for the protection of investors.

The Commission has, pursuant to section 17A under the Act, considered

the anti-competitive impact which this proposal may have on other clearing agencies and on brokers and dealers and transfer agents. Under the proposed rule change, the largest securities depository would extend its service for the first time to interchangeable municipal bonds. Currently, no other depository offers a book entry movement capability for municipal securities. No comments were received from any clearing agency on the DTC proposal. Nevertheless, the Commission has closely examined the DTC proposal with respect to possible anti-competitive effects on other clearing agencies and depositories. The Commission has found that the proposal does not contain anti-competitive features, such as provisions tying the availability of DTC's present services to the offering of the proposed services in municipal securities. Other depositories may develop a similar program if they choose to do so. Moreover, the proposal does represent a step in the immobilization of certain municipal securities and the extension to DTC participants of the ability to effect receipts and deliveries of these securities through book entry. As such, the proposal promotes efficiency in the clearance and settlement process and contributes to a national system for the prompt and accurate clearance and settlement of transactions in securities. Furthermore, to the extent securities in bearer form are converted to registered form and immobilized in depositories, thefts and losses of these securities will be reduced.

The proposal does not on its face have an anti-competitive impact upon transfer agents and the Commission did not receive any comment from any transfer agent. Any transfer agent desiring to participate may execute the necessary agreements with DTC, but the proposal does have certain performance time and other requirements which make physical presence in or near DTC a virtual necessity. These requirements, however, reflect the safeguards DTC has devised to handle deposits and withdrawals of municipal bonds in bearer form and the needs of participants who wish to achieve overnight withdrawal from DTC of a municipal bond in bearer form.

The Commission does not believe the program would impose any anti-competitive impacts upon brokers and dealers that would be not necessary or appropriate in furtherance of the purposes of the Act. No comments from any broker-dealers, writing in an individual capacity, were received. As noted above, the Long Range Planning Subcommittee of the Public Securities Association commented in support of the proposal.

The Commission's approval of the proposal comports with the Congress-

sional mandate contained in section 17A(e) of the Act that "the Commission use its authority under . . . (the Act) to end the physical movement of securities certificates in connection with the settlement among brokers and dealers of transactions in securities . . ."

The Commission finds, therefore, that the proposed rule change is consistent with the maintenance of fair competition among brokers and dealers, clearing agencies and transfer agents and does not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Commission finds also that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies, and, in particular, with the requirements of section 17A and the rules and regulations thereunder. The Commission will, of course, examine this proposal and all of DTC's rules for compliance with the Act at the time it makes its determination whether to grant permanent registration to DTC.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rule change contained in File No. SR-DTC-77-8 be, and hereby is, approved.

For the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

#### NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

JANUARY 19, 1978.

On October 7, 1977, the New York Stock Exchange, Inc., 11 Wall Street, New York, N.Y. 10005, filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and rule 19b-4 thereunder, copies of a proposed rule change to amend margin requirement rules 431 and 432 to ensure that member organizations understand that regulation T supersedes any Exchange margin requirement, permit member organizations who carry options accounts to utilize the uniform net capital rule, and eliminate Form MF-1, the margin requirements met by liquidation form.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission release (Securities Exchange Act Release No. 34-14183 (November 17, 1977)) and by publication in the Fed-

3638

ERAL REGISTER (42 FR 60824 (November 29, 1977)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

##### Self-Regulatory Organizations; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 6, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission proposed rule changes as follows:

##### NYSE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

On January 1, 1978, the following charges went into effect for specific services provided by the NYSE Exchange regulation and surveillance group. These charges will be included in the Exchange's quarterly statements beginning March, 1978.

The new charges are:  
Regulation T and 15c3-3 extensions: \$2 per request;

FOCUS feedback service: \$150 per request;

Annual file maintenance fee: \$10 per registered person;

NYSE directory and guide: \$25 annual subscription per volume;

Interpretation handbook service: \$75 per annum;

Weekly bulletin service: \$60 per annum.

The complete information memorandum detailing the new charges is attached to this filing as exhibit IA.

##### STATEMENT OF BASIS AND PURPOSE

##### NYSE'S STATED PURPOSE OF PROPOSED RULE CHANGE

The purpose of this fee schedule is to offset the increased costs of supply-

(c) Not applicable.

##### COMMENTS RECEIVED FROM MEMBERS, PARTICIPANT, OR OTHERS ON PROPOSED RULE CHANGE

The Exchange has not formally solicited comments regarding this proposed change, nor has the Exchange received any unsolicited written or verbal comments from members or other interested parties.

##### NYSE'S STATEMENT ON BURDEN ON COMPETITION

None.

The foregoing rule change has become effective, pursuant to section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 16, 1978.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS  
Secretary.

#### OHIO POWER CO.

##### Proposed Issuance and Sale at Competitive Bidding of First Mortgage Bonds and Cumulative Preferred Stock

JANUARY 20, 1978.

Notice is hereby given that Ohio Power Co. ("Ohio"), 301 Cleveland Avenue SW., Canton, Ohio 44701, an electric utility subsidiary company of American Electric Power Co., Inc. ("AEP"), a registered holding company, has filed with this Commission an application pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Ohio proposes to issue and sell, subject to the competitive bidding requirements of rule 50 under the Act, up to \$38,000 aggregate principal amount of its first mortgage bonds of a new series ("bonds"), having a maturity date of March 1, 2008. The interest rate (which will be expressed in a multiple of one-eighth of 1 percent and the price to be paid to Ohio for the bonds (which shall not be less than 100 percent, unless Ohio shall authorize a lower percentage, not less than 99 percent, and shall not exceed 102 1/2 percent will be determined by competitive bidding. None of the bonds may be redeemed prior to March 1, 1983, if such redemption is for the purpose of refunding such bond through the use, directly or indirectly, of borrowed funds at an effective interest cost less than the effective interest cost of the bonds.

Ohio also proposes to issue and sell at competitive bidding up to 1,600,000 shares of a new series of its cumulative preferred stock ("preferred stock"), par value \$25 per share. The price to be paid to Ohio shall be \$25 per share, which shall also be the price at which the preferred stock shall be initially offered to the public. The dividend rate (which will be expressed in a multiple of \$0.01) and the amount per share to be paid by Ohio as compensation to the purchasers will be determined by competitive bidding. None of the shares of the preferred stock may

#### U.S. ADVISORY COMMISSION ON INTERNATIONAL EDUCATIONAL AND CULTURAL AFFAIRS

##### Meeting

The United States Advisory Commission on International Educational and Cultural Affairs will meet in open session on Monday, February 27, in Room 1410 of the State Department. The meeting will run from 9:30 a.m. until 1 p.m.

There will be two items on the agenda, in addition to any old or new business which any Commission member wishes to raise.

1. Final approval of the Commission's 14th Annual report.
2. Final approval of Commission recommendation on coordination of U.S. Government exchange/training programs.

Members of the general public may attend and participate in the discussion subject to the instructions of the Chairman. They will be accommodated up to the seating capacity of the room.

For purposes of fulfilling building security requirements, anyone wishing to attend the meeting must advise the Staff Director of the Commission by close of business Tuesday, February 21, of his intention to attend. He may be reached by telephone at 202-632-2764.

Dated: January 13, 1978.

W. E. WELD, Jr.,  
Staff Director, U.S. Advisory  
Commission on International  
Educational and Cultural Affairs.

#### [4910-14]

#### DEPARTMENT OF TRANSPORTATION

##### Cost Guard

(CGD 78-002)

#### CHEMICAL TRANSPORTATION INDUSTRY ADVISORY COMMITTEE

##### Meeting of Officers

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Chemical Transportation Industry Advisory Committee's Officers to be held on Tuesday, February 28, 1978, beginning at 9:30 a.m., in Room 8332, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

The agenda for this meeting is as follows:

1. To discuss the program and plan for the annual meeting tentatively scheduled for April 5 and 6, 1978.

be redeemed prior to March 1, 1983, if such redemption is for the purpose of refunding such stock, directly or indirectly, through the incurring of debt or the issuance of stock ranking equally with or prior to the preferred stock at an effective interest cost or effective dividend cost less than the effective dividend cost of the preferred stock.

It is stated that no condition is to be contained in the bond purchase contract requiring the issuance and sale of the preferred stock, nor is any condition to be contained in the preferred stock purchase contract requiring the issuance and sale of the bonds. Neither the bonds nor the preferred stock will, however, be issued and sold unless Ohio shall have received, prior to such sale, one or more cash capital contributions in an aggregate amount of \$20,000,000 from AEP. The making of such cash capital contributions was authorized by order of this Commission dated January 5, 1978 (HCAR No. 20365).

The proceeds from the sale of the bonds, together with other funds available to Ohio, will be used to pay at maturity the \$38,232,000 principal amount of Ohio's first mortgage bonds, 3 percent series, due April 1, 1978. The proceeds from the sale of the preferred stock will be used to repay unsecured short-term indebtedness and to reimburse Ohio's treasury for expenditures incurred in connection with its construction program. As of December 30, 1977, Ohio had approximately \$108,107,000 principal amount of unsecured short-term debt outstanding, and it is anticipated that at the time of the issuance and delivery of the bonds and preferred stock approximately \$125,000,000 principal amount of such unsecured short-term debt will be outstanding. Ohio estimates its 1978 construction costs will be approximately \$203,000,000 (exclusive of construction costs of its generating subsidiary).

The fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment. It is stated that the Public Utilities Commission of Ohio has jurisdiction over the proposed transactions. No other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than February 21, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securi-

ties and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

#### DEPARTMENT OF STATE

(Public Notice CM-8/4)

#### STUDY GROUP 7 OF THE U.S. ORGANIZATION FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

##### Meeting

The Department of State announces that Study Group 7 of the U.S. Organization for the International Radio Consultative Committee (CCIR) will meet on February 22, 1978, at the Systematics General Corp., National Scientific Laboratories Division, Room 300, 2290 Telestar Court, Falls Church, Va. The meeting will begin at 9 a.m.

Study Group 7 deals with time-signal services by means of radiocommunications. The main purpose of the meeting will be to discuss the results of the international meeting of Study Group 7 and preparations for the Special Preparatory Meeting which will be held in Geneva starting in October 1978, as a preliminary to the 1979 World Administrative Radio Conference.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman.

Dated: January 16, 1978.

GORDON L. HUFFCUTT,  
Chairman, U.S. CCIR,  
National Committee.

(FR Doc. 78-2230 Filed 1-25-78; 8:45 am)

2. To review the status of subcommittee reports to be presented at the annual meeting.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the meeting. Any member of the public may present a written statement to the committee at any time. For additional information contact: Capt. C. E. Mathieu, Commandant (G-MHM/83), U.S. Coast Guard, Washington, D.C. 20590, 202-426-2306. Persons wishing to attend and persons wishing to present oral statements should notify this office not later than the day before the scheduled meeting.

Issued in Washington, D.C., on January 16, 1978.

H. G. LYONS,  
Acting Chief, Office of  
Merchant Marine Safety.

[CGD 78-008]

**PROPOSED AMENDMENT OF A PERMIT TO CONVERT A DRAWBRIDGE ACROSS THE BUSH RIVER, MILE 6.8, AT PERRYMAN, MD. TO A FIXED BRIDGE STRUCTURE**

Public Hearing

The Commandant has authorized a public hearing to be held by the Commander, Fifth Coast Guard District, at Edgewood Senior High School, Edgewood, Md., on March 29, 1978, at 8 p.m. The purpose of the hearing is to consider the permit application from Amtrak to convert a railroad drawbridge across the Bush River, mile 6.8, Perryman, Md., to a fixed bridge structure.

The plans provide for the same as the existing published vertical clearance of 12 feet above mean high water in the closed position. The horizontal clearance normal to the axis of the channel is 35 feet.

The determination of whether a Coast Guard bridge permit will be issued must rest primarily on the project's impact on navigation and the environment.

The hearing will be informal. A Coast Guard representative will preside at the hearing, make a brief opening statement, and announce the procedures to be followed at the hearing. Each person who wishes to make an oral statement should notify the Commander (oan), Fifth Coast Guard District, Federal Building, 431 Crawford Street, Portsmouth, Va. 23705 by March 24, 1978. Such notification should include the approximate time required to make the presentation. Comments previously submitted are a matter of record and need not be resubmitted at the hearing. Speakers are

encouraged to provide written copies of their oral statements to the hearing officer at the time of the hearing. Those wishing to make written comments only may submit those comments at the hearing, or to the Commander (oan), Fifth Coast Guard District. Comments must be received by April 14, 1978. Written comments will be available for public inspection in the office of the Commander (oan), Fifth Coast Guard District. A transcript of the hearing will also be available for inspection approximately 30 days after the hearing.

All comments, oral and written, will be considered before a final determination is made of the subject application by the Commandant, U.S. Coast Guard, Washington, D.C. 20590.

(Section 502, 60 Stat. 847, as amended (33 U.S.C. 525, 49 U.S.C. 1655(g) (6) (C)); 49 CFR 1.46(c) (10).)

Dated: January 19, 1978.

A. F. FUGARO,  
Rear Admiral, U.S. Coast Guard  
Chief, Office of Marine Environment and Systems.

**INTERSTATE COMMERCE COMMISSION**

(Notice No. 574)

**ASSIGNMENT OF HEARINGS**

JANUARY 23, 1978.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 120981 (Sub 22), Bestway Express, Inc., now assigned February 27, 1978 at Nashville, Tennessee, will be held at the Ramada Inn-Airport, 709 Spence Lane.

MC 139495 (Sub 266), National Carriers, Inc. now being assigned February 1, 1978 (1 day) at New York N.Y., and will be held in Room No. E-2222, Federal Building, 26 Federal Plaza.

MC-F 13164 Overnite Transportation Co.—Purchase—Bonifield Bros. Truck Lines, Inc. and MC 109533 Sub No. 85 Overnite Transportation Co., now assigned February 22, 1978 at Washington, D.C. is postponed to February 23, 1978 at the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 71459 (Sub 65), O.N.C. Freight Systems, now assigned February 13, 1978 at Phoe-

nix, Ariz., will be held at the Granada Royale Motel, 3210 Northwest Grand Avenue.

MC 142809, Don Penick and Harvey Keenan, d.b.a. Double Eagle Trucking, now assigned February 28, 1978 at Olympia, Wash., will be held in Room 340, Federal Building, 915 Second Avenue.

MC 107515 (Sub 1075), Refrigerated Transport Co., Inc., now assigned February 28, 1978 at Madison, Wis., will be held at the Park Motor Hotel, 22 South Carroll Street.

MC 74321 (Sub 130), B. F. Walker, Inc. now assigned January 30, 1978 at Denver, Colo., is cancelled.

MC 19447 (Sub-No. 235), Leonard Bros. Trucking Co., Inc., now assigned February 7, 1978 at Kansas City, Mo., will be held in Room 609, Federal Office Bldg., 911 Walnut Street.

MC 116004 (Sub-No. 430), Texas Oklahoma Express, Inc., now assigned February 8, 1978 at Kansas City, Mo., will be held in Room 609, Federal Office Bldg., 911 Walnut Street.

MC 24784 (Sub-No. 8), Barry, Inc., now assigned February 9, 1978 at Kansas City, Mo., will be held in Room 609, Federal Office Bldg., 911 Walnut Street.

MC 118535 (Sub-No. 100), Tiona Truck Line, Inc., now assigned February 10, 1978 at Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut Street.

MC 135797 (Sub-No. 73), J. B. Hunt Transport, Inc., now assigned February 13, 1978 at Kansas City, Mo., will be held in Room 609, Federal Office Bldg., 911 Walnut Street.

MC 143448 (Sub-No. 1), Doonan Truck & Equipment, Inc., and MC 143449 (Sub-No. 1), Red Ball Wrecker Service, Inc., now assigned February 14, 1978 at Kansas City, Mo., will be held in Room 609, Federal Office Bldg., 911 Walnut Street.

MC 134755 (Sub-No. 114), Charter Express, Inc., MC 115841 (Sub-No. 564), Colonial Refrigerated Transportation, MC 136786 (Sub-No. 119), Robco Transportation Inc., MC 134755 (Sub-No. 99), Charter Express, Inc., and MC 114569 (Sub-No. 175), Shaffer Trucking, Inc., now assigned February 16, 1978 at Kansas City, Mo., will be held in Room 609, Federal Office Bldg., 911 Walnut Street.

MC 124896 (Sub-No. 30), Williamson Truck Lines, Inc., now being assigned February 16, 1978 (2 days) for hearing in Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut Street.

MC-F 13314, Consolidated Freightways Corporation—Delaware—Purchase (Portion)—M & M Transportation Co. now being assigned March 6, 1978 for prehearing conference at the Offices of the Interstate Commerce Commission in Washington, D.C.

(Exemption No. 142)

**CAR SERVICE ORDERS**

**Exemption Under Provision of Rule 19 of the Mandatory Car Service Rules Ordered in Ex Parte No. 241**

To: *The Baltimore and Ohio Railroad Company and Consolidated Rail Corporation*: There has been a substantial increase in the demand for plain boxcars for railroad shipments of insulating material from Newark, Ohio, because of a shortage of motor trucks caused by heavy snow and blocked highways. This shortage of trucks is threatening to force a major manufacturer of insulating materials to curtail production, with resulting loss of employment, unless sufficient railroad cars can be utilized to offset the reduction in the supply of motor trucks. Although the railroads named above are unable to furnish currently sufficient boxcars of suitable ownership that can be loaded in compliance with Car Service Rules 1 and 2, the flow of the traffic is such that the majority of the cars will move in the direction of the owners in compliance with those rules.

It is ordered, That pursuant to the authority vested in me by Car Service

Rule 19, plain boxcars described in the Official Railway Equipment Register, I.C.C.-R.E.R. No. 405, issued by W. J. Trezise, or successive issues thereof as having mechanical designation "XM" may be loaded with insulating material by shippers served by The Baltimore and Ohio Railroad Company (BO) and by the Consolidated Rail Corporation (CR) at Newark, Ohio, without regard to the requirements of Car Service Rules 1 and 2 subject to exceptions 1 to 3 inclusive, shown below.

**EXCEPTIONS**

1. Cars of Canadian or Mexican ownership.
2. Cars subject to a car relocation or car assistance directive issued by the Car Service Division, Association of American Railroads.
3. Cars with inside length of 59-ft. 8-in. or greater.

Effective January 18, 1978.

Expires January 31, 1978.

Issued at Washington, D.C., January 18, 1978.

For the Interstate Commerce Commission.

JOEL E. BURNS,  
Agent.

**MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS**

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be

filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 113855 (Sub-No. 399), filed January 11, 1978. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Thomas J. Van Osdel, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, in interstate or foreign commerce, transporting: (1) Construction equipment from Honeoye, N.Y. and Brunswick, Ga., to points in the United States (including Alaska but excluding Hawaii), and (2) equipment, materials and supplies used or useful in the manufacture and distribution of the commodities in (1) above, from points in the United States (including Alaska but excluding Hawaii), to Honeoye, N.Y. and Brunswick, Ga. Restricted to traffic originating at or destined to the plantsites and warehouse facilities of Stone Construction Equipment, Inc., located at or near Honeoye, N.Y. and Brunswick, Ga.

NOTE.—Common control may be involved.

Hearing: February 2, 1978 at the Office of the Interstate Commerce Commission, Washington, D.C.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

## NOTICES

[7035-01]

[Volume No. 54]

## MOTOR CARRIER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

JANUARY 18, 1978.

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR §1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 30237 (Sub-No. 35), filed November 29, 1977. Applicant: YEATTS TRANSFER CO., a corporation, P.O. Box 666, Altavista, Va., 24517. Applicant's representative: Eston H. Alt, P.O. Box 666, Altavista, Va., 24517. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: New furniture, from Worcester County, Mass., and points in Vermont, to points in Arkansas, Delaware, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, West Virginia and the District of Columbia.

NOTE.—If a hearing is deemed necessary applicant requests that it be held at Boston, Mass., or Washington, D.C.

No. MC 42261 (Sub-No. 131), filed November 4, 1977. Applicant: LANGER TRANSPORT CORP., Box 305, Jersey City, N.J. 07303. Applicant's representative: W. C. Mitchell, 370 Lexington Avenue, New York, N.Y. 10017. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting Liquid wax, in bulk, in tank vehicles, from Catlettsburg, Ky., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont and the District of Columbia.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at New York, N.Y.

No. MC 52709 (Sub-No. 344), filed November 22, 1977. Applicant: RINGSBY TRUCK LINES, INC., P.O. Box 7240, 3980 Quebec Street, Denver, Colo. 80207. Applicant's representative: Robert P. Tyler, P.O. Box 7240, 3980 Quebec Street, Denver, Colo. 80207. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting Insulating material, from Fruita, Colo. to points in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin and Wyoming.

NOTE.—If a hearing is deemed necessary applicant requests that it be held at San Francisco, Calif. or Denver, Colo. Common control may be involved.

No. MC 52781 (Sub-No. 5), filed November 28, 1977. Applicant: OVERCASH TRANSFER, INC., P.O. Box 3117, C.R.S., 21 By-Pass, Rock Hill, S.C. 29730. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, D.C. 20004. Authority sought to operate in interstate or foreign commerce, over irregular routes, as a contract carrier, in the transportation of (a) Fabricated pipe, tubing, fittings, and (b) materials equipment and supplies used in the

## NOTICES

manufacture, erection and maintenance of the above named commodities, between the plantsite and facilities of I.T.T. Grinnell Industrial Piping, Inc., at or near Kernersville, N.C. on the one hand, and, on the other, points in the United States, (except Alaska and Hawaii, under a continuing contract with I.T.T. Grinnell Industrial Piping, Inc.

NOTE.—If a hearing is deemed necessary the applicant does not specify a location.

No. MC 57622 (Sub-No. 3), filed November 28, 1977. Applicant: LEE-LANAU MOTOR FREIGHT, INC., 3868 Rennie School Road, Traverse City, Mich. 49684. Applicant's representative: Karl L. Gotting, 1200 Bank of Lansing Building, Lansing, Mich. 48933. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Traverse City, Mich., and Grawn, Mich., from Traverse City via U.S. 31 to Grawn and from Grawn to Traverse City via County Road 633, serving all intermediate points; (2) between Traverse City, Mich., and Leland, Mich., from Traverse City over Michigan Highway 22 north to Northport, Mich., thence over County Road 629 to Northport Point, Mich., and return to Michigan Highway 22, thence south over Michigan Highway 22 to Leland; and from Leland south over Michigan Highway 22 to junction Michigan Highway 204, thence east over Michigan Highway 204 to Michigan Highway 22, thence south over Michigan Highway 22 to Traverse City, serving all intermediate points.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Lansing or Grand Rapids, Mich.

No. MC 61592 (Sub-No. 409), filed November 22, 1977. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: E. A. DeVine, 101 First Avenue, P.O. Box 737, Moline, Ill. 61265. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Yard tractors, between Lyons, Ill., on the one hand, and on the other, points in the United States, including Alaska but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held in Chicago, Ill., and be consolidated with other similar applications.

No. MC 74321 (Sub-No. 139), filed December 23, 1977. Applicant: B. F. WALKER, INC., P.O. Box 17-B, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger, Steele Park, Suite 330, 50 South Steele Street, Denver, Colo. 80209. Authority is sought to operate as a common carrier by motor vehicle over irregular routes in the transportation of: Iron and steel articles, (1) between El Paso, Tex., on the one hand, and, on the other, points in Arizona, California, Colorado, New Mexico, Nevada, Oregon, Idaho, Montana, Washington, Wyoming, Utah, Nebraska, and Texas; and (2) between Fort Worth and Dallas, Tex., on the one hand, and, on the other, points in Arizona, Arkansas, Colorado, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, Illinois and Texas.

NOTE.—Common control may be involved. Hearing: February 15, 1978 (3 days), at 9:30 a.m. local time, in Room 5A15-17, Federal Building, 1100 Commerce Street, Dallas, Tex., before Administrative Law Judge Wallace H. Nations.

No. MC 95876 (Sub-No. 220), filed November 7, 1977. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue, North, St. Cloud, Minn. 56301. Applicant's representative: Robert D. Gisvold, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a common carrier, over irregular routes, transporting: Fiberboard, pulpboard and strawboard, from Coldwater, Mich., to points in the United States (except Alaska and Hawaii); and equipment, materials and supplies used in the manufacture of fiberboard, pulpboard and strawboard, from points in the United States (except Alaska and Hawaii) to Coldwater, Mich.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich.

No. MC 106398 (Sub-No. 790), filed November 28, 1977. Applicant: NATIONAL TRAILER CONVOY, INC., 525 South Main, Tulsa, Okla. 74103. Applicant's representative: Irvin Tull, 525 South Main, Tulsa, Okla. 74103. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Composition board from Otsego, Mich., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill. Common control may be involved.

No. MC 106603 (Sub-No. 165), filed November 28, 1977. Applicant: DIRECT TRANSIT LINES, INC., 200 Colrain St., SW., Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Composition board from Coldwater, Mich. to points

in Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, and Wisconsin. (2) Equipment, materials, and supplies from points in Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, and Wisconsin to Coldwater, Michigan.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill. or Washington, D.C. Common control may be involved. Applicant holds motor contract carrier permit in MC 46240, and other subs, therefore dual operations may be involved.

No. MC 107002 (Sub-No. 522), filed November 8, 1977. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth, P.O. Box 8573, Battlefield Station, Jackson, Miss. 39204. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vegetable oil and products thereof, in bulk, in tank vehicles, (1) from the facilities of Cargill, Inc. at or near Gainesville, Ga., to points in the United States in and east of Minnesota, Iowa, Nebraska, Kansas, Oklahoma, and Texas, and (2) from points in Alabama, Arkansas, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, and Virginia to the facilities of Cargill, Inc. at or near Gainesville, Ga.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 107295 (Sub-No. 868), filed November 28, 1977. Applicant: PREFAB TRANSIT CO., a corporation, P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Mack Stephenson, 42 Fox Mill Lane, Springfield, Ill. 62707. Authority sought to operate as a common carrier, by motor vehicle over irregular routes, transporting: (1) Lumber and lumber products, from the plantsite and warehouses facilities of Southwest Forest Industries (or its subsidiaries), located at or near Flagstaff, McNary and Eagar, Arizona, and South Fork, Colo., to points in New Mexico, Oklahoma, Missouri and Arkansas; (2) treated and nontreated poles, posts and pilings, from the plantsite and warehouse facilities of Southwest Forest Industries at Prescott, Ariz., to points in New Mexico, Texas, Oklahoma, Missouri and Arkansas; and (3) molding, from the plantsite and warehouse facilities of Southwest Forest Industries, at McNary, Ariz., to points in Arkansas,

3644

Illinois, Indiana, Missouri, New Mexico, Oklahoma, Texas, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Phoenix, Ariz.

No. MC 112304 (Sub-No. 123), filed November 28, 1977. Applicant: ACE DORAN HAULING & RIGGING CO., a corporation, 1601 Blue Rock Street, Cincinnati, Ohio 45223. Applicant's representative: John D. Herbert (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Vehicle lifts, and accessories, attachments and parts thereof*, from the plantsite of Dover Corp./Rotary Lift Division, Madison, Ind., to points in the United States including Alaska, but excluding Hawaii; and (2) *Equipment, materials and supplies* used in the manufacture of the commodities in (1) above, from points in the United States including Alaska, but excluding Hawaii, to the plantsite named above.

NOTE.—If a hearing is deemed necessary applicant requests it be held at Washington, D.C. or Cincinnati, Ohio. Common control may be involved.

No. MC 113651 (Sub-No. 240), filed November 7, 1977. Applicant: INDIANA REFRIGERATOR LINES, INC., P.O. Box 552, Muncie, Ind. 47305. Applicant's representative: George E. Batty, P.O. Box 552, Muncie, Ind. 47305. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *fresh and frozen inedible meats* (except commodities in bulk) from Frankfort and Shelbyville, Ind. to points in Illinois, Iowa, Kansas, Missouri, Nebraska, Ohio, Pennsylvania, and Wisconsin. Restriction: Restricted to traffic originating at the plantsite and storage facilities of Bausback Fertilizer Co. located at or near the named origins.

NOTE.—If a hearing is deemed necessary applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 114045 (Sub-No. 483), filed November 7, 1977. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 61228, Dallas-Fort Worth Airport, Tex. 75261. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Confectionery*, in vehicles equipped with mechanical refrigeration, from Reno, Nev., to points in Arizona, restricted to the transportation of shipments having prior movement from the facilities of E. J. Brach & Sons, at Chicago and Carol Stream, Ill.

NOTE.—Common control may be involved. If a hearing is deemed necessary applicant requests it be held at Chicago, Ill., or Dallas, Tex.

## NOTICES

No. MC 114045 (Sub-No. 489), filed November 28, 1977. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 61228, Dallas-Fort Worth Airport, Tex. 75261. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Merchandise dealt in by wholesale, retail, chain grocery, and food business houses*, in vehicles equipped with mechanical refrigeration, (except commodities in bulk, in tank vehicles) from the plant and warehouse facilities of Kraft, Inc., at Springfield, Mo., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Kansas, Kentucky, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia. Restricted to traffic originating at the above-named origin and destined to the above named destination points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Dallas, Tex. Common control may be involved.

No. MC 114211 (Sub-No. 340), filed January 11, 1978. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Daniel Sullivan, Suite 1600, 10 South La Salle, Chicago, Ill. 60604. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron, steel, zinc, lead and articles or products thereof, building materials, construction materials, supplies and equipment*, and (2) *materials, supplies and equipment* used in the manufacture and distribution of commodities named in (1) above, from (a) the plant sites and warehouse facilities of Penn Dixie Steel Corp. and Penn-Dixie Steel Industries, Inc. and Stephen Springs Co., located at or near Kokomo, Ind., Elkhart, Ind., Toledo, Ohio, Columbus, Ohio, Lansing, Mich., Grand Rapids, Mich., Denver, Colo., Albuquerque, N. Mex., Centerville, Iowa, Blue Island, Ill., Joliet, Ill., Jackson, Miss., Nazareth, Pa., Cabot, Pa., Petoskey, Mich., Holland, Mich., Detroit, Mich., Chicago, Ill., Milwaukee, Wis., West Des Moines, Iowa, Kingsport, Tenn., Richard City, Tenn., Atlanta, Ga., Salisbury, N.C., North Arlington, N.J., North Judson, Ind., Cicero, Ind., and Newton, Kans., to points in the United States (except Alaska and Hawaii); (b) from points in the United States (except Alaska and Hawaii), to the plantsites and warehouse facilities of Penn Dixie Steel Corp. and Penn-Dixie Steel Industries, Inc. and Stephen Springs Co., located at or near Kokomo, Ind., Elkhart, Ind., Toledo, Ohio, Columbus, Ohio, Lansing, Mich., Grand Rapids, Mich., Denver, Colo., Albuquerque, N. Mex., Centerville, Iowa, Blue Island, Ill., Joliet, Ill., Jack-

son, Miss., Nazareth, Pa., Cabot, Pa., Petoskey, Mich., Holland, Mich., Detroit, Mich., Chicago, Ill., Milwaukee, Wis., West Des Moines, Iowa, Kingsport, Tenn., Richard City, Tenn., Atlanta, Ga., Salisbury, N.C., North Arlington, N.J., North Judson, Ind., Cicero, Ind., and Newton, Kans.

NOTE.—Prehearing conference: January 31, 1978, 9:30 a.m. Local Time at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. MC 114273 (Sub-No. 309), filed November 22, 1977. Applicant: CRST, INC., P.O. Box 68, Cedar Rapids, Iowa 52408. Applicant's representative: Kenneth L. Core (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors, wines and malt beverages* (except in bulk in tank vehicles), from Allen Park, Mich.; Baltimore, Md.; Bardonia, Ky.; Boston, Mass.; Cincinnati, Ohio; Clermont, Ky.; Detroit, Mich.; Dundalk, Md.; Frankfort, Ky.; Lawrenceburg, Ind.; Linden, N.J.; Louisville, Ky.; New York, N.Y.; Owensboro, Ky.; Pekin, Ill.; Peoria, Ill.; Philadelphia, Pa.; Plainfield, Ill.; Relay, Md.; and Schenley, Pa., to points in Minnesota.

NOTE.—Applicant states it is presently providing service from Allen Park, Mich.; Boston, Mass.; Cincinnati, Ohio; Detroit, Mich.; Lawrenceburg, Ind.; Louisville, Ky.; and Schenley, Pa. on a joint-line basis. The purpose of this application is to substitute single-line service for existing joint-line service. Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at either Chicago, Ill., or Washington, D.C.

No. MC 115311 (Sub-No. 258), filed December 13, 1977. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles and construction materials* (except in bulk), from the facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corp., and subsidiaries of the foregoing companies, at or near Lansing, Mich.; Grand Rapids, Mich.; Petoskey, Mich.; Holland, Mich.; Detroit, Mich.; Milwaukee, Wis.; Chicago, Ill.; Blue Island, Ill.; Joliet, Ill.; Kokomo, Ind.; Fort Wayne, Ind.; North Judson, Ind.; Elkhart, Ind.; Cicero, Ind.; Centerville, Iowa; West Des Moines, Iowa; Denver, Colo.; Albuquerque, N. Mex.; Jackson, Miss.; Columbus, Ohio; Toledo, Ohio; Kingsport, Tenn.; Knoxville, Tenn.; South Pittsburgh, (Richard City), Tenn.; Atlanta, Ga.; Salisbury, N.C.; Cabot, Pa.; Nazareth, Pa.; North Arlington, N.J.; and Newton, Kans.; to points in the United States in and east of North Dakota, South

Dakota, Nebraska, Colorado, and New Mexico (except Maine, New Hampshire, and Vermont); and (2) *Materials, equipment and supplies*, (except in bulk), used in the manufacture and distribution of commodities named in (1) above, from points in the United States in and east of North Dakota, South Dakota, Nebraska, Colorado, and New Mexico (except Maine, New Hampshire, and Vermont), to facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corp., and subsidiaries of the foregoing companies, at or near Lansing, Mich.; Grand Rapids, Mich.; Petoskey, Mich.; Holland, Mich.; Detroit, Mich.; Milwaukee, Wis.; Chicago, Ill.; Blue Island, Ill.; Joliet, Ill.; Kokomo, Ind.; Fort Wayne, Ind.; North Judson, Ind.; Elkhart, Ind.; Cicero, Ind.; Centerville, Iowa; West Des Moines, Iowa; Denver, Colo.; Albuquerque, N. Mex.; Jackson, Miss.; Columbus, Ohio; Toledo, Ohio; Kingsport, Tenn.; Knoxville, Tenn.; South Pittsburgh, (Richard City), Tenn.; Atlanta, Ga.; Salisbury, N.C.; Cabot, Pa.; Nazareth, Pa.; North Arlington, N.J.; and Newton, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Atlanta, Ga., or Chicago, Ill. Prehearing conference, January 31, 1978, at 9:30 a.m. at the offices of the Interstate Commerce Commission, Washington, D.C.

No. MC 115841 (Sub-No. 582), filed November 30, 1977. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 9041 Executive Park Drive, Suite 110, Knoxville, Tenn. 37919. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th Street NW., Washington, D.C. 20001. Authority sought by applicant to operate in interstate or foreign commerce as a common carrier by motor vehicle, over irregular routes, transporting: *Prepared flour mixed and frosting mixes*, from the plantsite and storage facilities of Chelsea Milling Co., at or near Chelsea, Mich., to points in Georgia, North Carolina, South Carolina, and Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held in Detroit, Mich., or Washington, D.C.

No. MC 115904 (Sub-No. 89), filed November 28, 1977. Applicant: GROVER TRUCKING CO., a corporation, 1710 West Broadway, Idaho Falls, Idaho 83401. Applicant's representative: Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Masonry articles and supplies*, between points in the United States located on and west of a line beginning at the mouth of the Mississippi River and extending along the Mississippi

River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international Boundary Line between the United States and Canada, restricted to the account of Rocky Mountain Supply, and further restricted against the transportation of commodities which be reason of their size and weight require the use of special equipment, commodities in bulk and those commodities falling within the category described in Mercer Extension—Oil Field Commodities, 74 MCC 459.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho, or Salt Lake City, Utah.

No. MC 117940 (Sub-No. 242), filed November 17, 1977. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Alan L. Timmerman, 5300 Highway 12, P.O. Box 104, Maple Plain, Minn. 55359. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dairy products* (except commodities in bulk), from points in Wisconsin to points in Louisiana, restricted to traffic originating at the facilities of Milkhouse Cheese Corp. at named origins and destined to named destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Houston, Tex. Applicant holds contract carrier authority in MC 114789 (Sub-No. 16) and other subs, therefore dual operations may be involved.

MC 118202 (Sub-No. 81), filed November 28, 1977. Applicant: SCHULTZ TRANSIT, INC., P.O. Box 406, 323 Bridge St., Winona, Minn. 55987. Applicant's representative: Robert S. Lee, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products and articles* distributed by meat packinghouses, as described in sections A and C of Appendix I to the *Report and Descriptions in Motor Carrier Certificates*, 61 MCC 209 and 766 (except hides and commodities in bulk), from the plantsite and warehouse facilities utilized by King Foods, Inc., at South St. Paul, Minn. to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 118318 (Sub-No. 32), filed November 21, 1977. Applicant: IDA-CAL FREIGHT LINES, INC., P.O. Drawer M, Nampa, Idaho 83651. Applicant's representative: Timothy R. Stivers, P.O. Box 162, Boise, Idaho 83701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in by wholesale, retail and chain grocery and food business houses*, from the facilities of Lever Brothers Co. at or near City of Commerce and Richmond, Calif.; and the facilities of White King, Inc., at or near Los Angeles, Calif., to points in Box Elder, Cache, Davis, Morgan, Salt Lake, Tooele, Utah and Weber Counties, Utah.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Los Angeles, Calif. Common control may be involved.

No. MC 118959 (Sub-No. 158), filed November 1, 1977. Applicant: JERRY LIPPS, INC., 130 South Frederick St., Cape Girardeau, Mo. 63701. Applicant's representative: Robert M. Pearce, P.O. Box 1899, Bowling Green, Ky. 42101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Tanks, accessories for tanks, parts for tanks*, from Dexter, Mo., and Hialeah, Fla., to points in the United States (except Alaska and Hawaii); (2) *machinery, equipment, materials and supplies* used in connection with the commodities described in (1) above from points in the United States (except Alaska and Hawaii), to Dexter, Mo., and Hialeah, Fla.

NOTE.—Applicant holds motor contract carrier authority in No. MC 125664 and therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Nashville, Tenn., or Memphis, Tenn. Common control may be involved.

No. MC 119349 (Sub-No. 6), filed November 22, 1977. Applicant: STARLING TRANSPORT LINES, INC., P.O. Box 1733, Fort Pierce, Fla. 33450. Applicant's representative: Harry C. Ames, Jr., 805 McLachlen Bank Building, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products, vehicle body sealer and/or sound deadener compound* (except in bulk), and *filters*, from points in Marion County, Tenn., to points in Alabama, Florida, Georgia, Louisiana, Mississippi, and Texas, restricted to traffic originating at points in Marion County, Tenn.; (2) *materials, supplies and equipment* used in the manufacture, sale, and distribution of the commodities named in (1) above (except in bulk) from points in Alabama, Geor-

gia, Kentucky, Ohio, Pennsylvania, Virginia, and West Virginia, to points in Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn., and (3) *petroleum and petroleum products, vehicle body sealer and/or sound deadening compound* (except in bulk) and *fillers*, from points in New York, Ohio, Pennsylvania, Rhode Island, and West Virginia to points in Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn.

NOTE.—Dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C., or Atlanta, Ga.

No. MC 123387 (Sub-No. 11), filed November 17, 1977. Applicant: E. E. HENRY, 1923 Sparrow Road, Chesapeake, Va. 23320. Applicant's representative: William P. Jackson, Jr., 3426 N. Washington Boulevard, P.O. Box 1267, Arlington, Va. 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors* (except in bulk), from Texas-Mexico border points, to points in North Carolina, Virginia, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, the District of Columbia, New Hampshire, Vermont, Maine, Ohio, and Florida.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Norfolk, Va. Common control may be involved.

No. MC 123407 (Sub-No. 420), filed December 1, 1977. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: H. E. Miller, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pre-cut log homes* from Englewood, Colo., to points in Illinois, Indiana, Michigan, Ohio, and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Denver, Colo.

No. MC 123522 (Sub-No. 3), filed November 25, 1977. Applicant: SEYLLER TRANSPORT, INC., 262 Mill St., Hampshire, Ill. 60140. Applicant's representative: R. D. Higgins, 7222 Cunningham Road, Rockford, Ill. 61102. Authority sought by applicant to operate in interstate or foreign commerce as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Illinois and Indiana, to points in Illinois, Wisconsin, Ohio, Indiana, Iowa, and Michigan, under continuing contract or contracts with BTU Contracts, Inc.

NOTE.—Applicant states that common control may be involved. If a hearing is deemed

necessary applicant requests that hearing be held in Chicago, Ill.

No. MC 124679 (Sub-No. 86), filed November 22, 1977. Applicant: C. R. ENGLAND & SONS, INC., 975 West 2100 South, Salt Lake City, Utah 84119. Applicant's representative: Daniel E. England, 975 West 2100 South, Salt Lake City, Utah 84119. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionery* from the plantsite and/or storage facilities of Mrs. J. G. McDonald's Chocolate Co. at or near Salt Lake City, Utah, to points in California, Florida, Georgia, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Texas and Washington.

NOTE.—Applicant holds motor contract carrier authority in number MC 128813 and subnumbers thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Salt Lake City, Utah.

No. MC 124692 (Sub-No. 185), filed November 28, 1977. Applicant: SAMMONS TRUCKING, a corporation, P.O. Box 4347, Missoula, Mont. 59806. Applicant's representative: J. David Douglas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles, construction equipment, tools, materials, and supplies*, from the plantsite and fabricating facilities of Brown Minneapolis Tank Co., at St. Paul, Minn., to points in Texas, New Mexico, Oklahoma, and Arizona; and (2) *construction equipment, tools, materials and supplies* in shipper owned trailers, from points in Texas, Oklahoma, Arizona, and New Mexico, to St. Paul, Minn., restricted to traffic for the account of Brown Minneapolis Tank Fabricating Co. in (1) and (2) above.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Minneapolis, Minn.

No. MC 125745 (Sub-No. 4), filed September 30, 1977. Applicant: RAY D. SIMMONS d.b.a. SIMMONS TRUCKING CO., Route 6, Box 316, Carthage, Mo. 64836. Applicant's representative: Turner White, 910 Plaza Towers, Springfield, Mo. 65804. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and iron and steel articles* (except those of such size and weight as to require special equipment), (1) from Jasper County, Mo. to points in Kansas, Oklahoma, Arkansas, and Texas, and (2) from points in Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, Ohio, Indiana, Illinois, Wisconsin, Iowa, Minnesota, Nebraska, Oklahoma, Texas, Kansas, Michigan,

Pennsylvania, Colorado, Alabama, and Utah to points in Jasper County, Mo.

NOTE.—If an oral hearing is deemed necessary, applicant requests it be held at Kansas City, Mo. or Tulsa, Okla.

No. MC 126305 (Sub-No. 87), filed November 22, 1977. Applicant: BOYD BROTHERS TRANSPORTATION CO., INC., R.D. 1, Clayton, Ala. 36016. Applicant's representative: George A. Olsen, P.O. Box 357, Glayton, Ala. 07934. Authority sought to operate as a *common carrier*, over irregular routes, transporting: (1) *Moulded rubber parts, pipe, gaskets and fittings, parts and accessories thereof*, (except commodities in bulk), from the warehouse and plant facilities of Murray Rubber Co., Harris County, Tex. to points in New Jersey, Ohio, Virginia, Alabama, Georgia, Pennsylvania, North Carolina, New York, Michigan, Louisiana, Arkansas, and Florida; (2) *materials, equipment, machinery and supplies* used in the manufacturing, processing and distribution of the above named commodities (except commodities in bulk), from the above named States to the facilities of the Murray Rubber Co., Harris County, Tex.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Birmingham or Montgomery, Ala.

No. MC 127579 (Sub-No. 5), filed November 30, 1977. Applicant: HAUL-MARK TRANSFER, INC., P.O. Box 343, Cockeysville, Md. 21030. Applicant's representative: Glenn M. Heagerty, P.O. Box 343, Cockeysville, Md. 21030. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Equipment, materials, and supplies used in the manufacture, sale and distribution of shampoo, toilet preparations, cosmetics and hair care products* from points in Delaware, Maryland, Pennsylvania, Virginia and West Virginia to facilities utilized by Clairol, Inc. at or near Baltimore, Md.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 129026 (Sub-No. 4), filed November 29, 1977. Applicant: J.C.D. TRANSPORTATION CORP., 5950 Fisher Road, P.O. Box 487, East Syracuse, N.Y. 13057. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, equipment, materials, and supplies used in the conduct of such business (except commodities in bulk), (1) Between East Hartford, Conn.; Springfield and Westwood,

Mass.; Baltimore and Landover, Md.; and Columbus and Salem, Ohio; (2) between the above specified points on the one hand, and, on the other, points in New York (except those in Nassau, Suffolk, Westchester, Putnam, Orange, and Rockland Counties) and Berks, Bradford, Carbon, Clinton, Columbia, Dauphin, Erie, Juniata, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Lycoming, McKean, Monroe, Montour, Northampton, Northumberland, Perry, Pike, Potter, Schuylkill, Snyder, Sullivan, Susquehanna, Tioga, Union, Warren, Wayne, Wyoming, and York Counties, Pa., under continuing contract or contracts with The Great Atlantic & Pacific Tea Co., Inc.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Washington, D.C.

No. MC 134477 (Sub-No. 199), filed November 28, 1977. Applicant: SCHANNO TRANSPORTATION INC., 5 West Mendota Road, West St. Paul, Minn. 55118. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies and equipment* used in the manufacture and sale of clothing and finished goods (except commodities in bulk), from Los Angeles, Calif.; Seattle, Wash.; and points in North Carolina (except Albemarle, Altamahaw, Belmont, Charlotte, Gastonia, Landis, Ranlo, and Salisbury, N.C.), to the facilities of Munsingwear, Inc., located at or near Ashland, Wis. and Little Falls and Minneapolis-St. Paul, Minn. Restricted to traffic originating at the above named origins and destined to the above named destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Minneapolis, Minn.

No. MC 134477 (Sub-No. 200), filed November 28, 1977. Applicant: SCHANNO TRANSPORTATION INC., 5 West Mendota Road, West St. Paul, Minn. 55118. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), from Independence, Mo. to points in Alabama, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee. Restricted to the transportation of traffic originating at the facilities of Commercial Distribution Center, Inc., at or near Independence, Mo. and destined to the above described destination points.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Minneapolis, Minn.

## NOTICES

No. MC 134922 (Sub-No. 246), filed November 28, 1977. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rugs, carpet and yarn*, between Fresno, Calif., on the one hand, and, on the other, points in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas.

NOTE.—Common control may be involved. If a hearing is deemed necessary, it is requested that it be held in San Francisco, Calif. or Little Rock, Ark.

No. MC 136008 (Sub-No. 89), filed November 28, 1977. Applicant: JOE BROWN CO., INC., P.O. Box 1669, Ardmore, Okla. 73401. Applicant's representative: G. Timothy Armstrong, Suite 200, Timbergate Office Gardens, 6161 North May Avenue, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry rendered tankage, meal and bone meal*, between points in Arkansas, Colorado, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Oklahoma City, Okla. or Kansas City, Mo.

No. MC 138627 (Sub-No. 24) (correction), filed October 18, 1977, published in the FEDERAL REGISTER issue of December 8, 1977, and republished as corrected this issue. Applicant: SMITHWAY MOTOR XPRESS, INC., P.O. Box 404, Fort Dodge, Iowa 50501. Applicant's representative: Arlyn L. Westergren, Suite 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plasterboard joint system, joint compound, tape, texturing compounds, and articles* used in the installation thereof, from Matteson, Ill., to points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

NOTE.—The purpose of this republication is to delete the word "manufacture" from the commodity description as published in the FEDERAL REGISTER issue of December 8, 1977, and substitute the word "installation" in lieu thereof. If a hearing is deemed necessary, applicant requests that it be held in Chicago, Ill., or Omaha, Nebr.

No. MC 138941 (Sub-No. 24), filed November 22, 1977. Applicant: COUNTRY WIDE TRUCK SERVICE, INC., 1110 South Reservoir Street, Pomona, Calif. 91766. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, trans-

porting: *Plastic articles* (except in bulk), (1) from points in Wayne, Ontario, and Monroe Counties, N.Y., to points in Montana, Nevada, Idaho, Utah, Wyoming, and Colorado; (2) from Jacksonville, Ill., and Springfield, Ill., to points in Montana, Nevada, Idaho, Utah, Wyoming, and Colorado; (3) from Covington and Conyers, Ga., to points in Montana, Nevada, Idaho, Utah, Wyoming, Colorado, Texas, Arizona, and New Mexico; (4) from Washington, N.J., to points in Montana, Nevada, Idaho, Utah, Arizona, Wyoming, Colorado, and New Mexico; (5) from Shawnee, Okla., to points in Montana, Idaho, and Wyoming; (6) from Lowell, Mass., to points in Montana, Nevada, Idaho, California, Utah, Oregon, Arizona, Wyoming, Washington, Colorado, New Mexico, and Texas; (8) from Temple, Tex., to points in Montana, Nevada, Idaho, Utah, Wyoming, and Colorado; (9) from Dallas, Tex., to points in Oregon, Washington, Montana, Nevada, Idaho, Utah, Arizona, Wyoming, Colorado, and New Mexico, under a continuing contract, or contracts, with Mobil Chemical Co., Plastics Division.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Buffalo, N.Y., or Los Angeles, Calif.

No. MC 140665 (Sub-No. 19), filed November 7, 1977. Applicant: PRIME, INC., Route 1, Box 115-B, Urbana, Mo. 65767. Applicant's representative: Clayton Geer, P.O. Box 786, Ravenna, Ohio 44266. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electric lamps, Christmas tree lamp outfits, electric cord sets, dry cell batteries, portable battery chargers, and materials and supplies* used in the manufacture and distribution of the above commodities, from Winchester, Va., St. Louis, Mo., Mattoon, Ill., and Lexington, Ky. to points in the states of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Cleveland, Ohio or Washington, D.C. Common control may be involved.

No. MC 140768 (Sub-No. 9), (correction), filed October 16, 1977, published in the FEDERAL REGISTER issue of December 1, 1977, and republished, as corrected, this issue. Applicant: AMERICAN TRANS-FREIGHT, INC., P.O. Box 796, Manville, N.J. 08835. Applicant's representative: Eugene M. Malkin, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregu-

lar routes, transporting: *Heating equipment, stoves, fireplaces, furnaces and incinerators*, from Athens and Huntsville, Ala., to points in the United States, except Alaska and Hawaii.

NOTE.—The purpose of this republication is to delete the restriction from the authority sought by applicant as published in the FEDERAL REGISTER issue of December 1, 1977. Applicant holds motor contract authority in MC 134404 and Subs thereunder and, therefore, dual operations may be involved. If a hearing is deemed necessary applicant requests that it be held at Washington, D.C.

No. MC 140768 (Sub-No. 13), filed November 29, 1977. Applicant: AMERICAN TRANS-FREIGHT, INC., P.O. Box 796 Manville, N.J. 08835. Applicant's representative: Eugene M. Malkin, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Electrolyte battery acid, brake fluid, lacquer, gas line antifreeze, and windshield washer solution* (except in bulk) (a) from the plantsite and warehouse facilities of Scholle Corp. at or near Ridgefield, N.J. to points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, (b) from the plantsite and warehouse facilities of Scholle Corp. at or near Northlake, Ill., to points in Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, Pennsylvania, West Virginia, and Wisconsin, (c) from the plantsite and warehouse facilities of Scholle Corp. at or near College Park, Ga., to points in Alabama, Florida, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, (2) *materials, and supplies* used in the manufacture, packaging and distribution of the commodities named in (1) above from the destinations named in (1) (a) (b) and (c) to their respective origins.

NOTE.—Applicant holds contract carrier authority in No. MC 134404 and subs thereunder; therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests that it be held at either New York, N.Y. or Washington, D.C.

No. MC 142065 (Sub-No. 9), filed November 3, 1977. Applicant: DAVID BENEUX PRODUCE AND TRUCKING, INC., P.O. Drawer F, Mulberry, Ark. 72947. Applicant's representative: Don Garrison, 324 North Second Street, Rogers, Ark. 72756. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Processed meats* from Allen Township, at or near Quincy, Mich., to points in Alabama, Arizona, Georgia, Kansas, Missouri, Oklahoma, Tennessee, and Texas, under a continuing contract or con-

tract with Peter Eckrich and Sons, Inc., of Fort Wayne, Ind., restricted to the transportation of traffic originating at the plantsite and facilities of Peter Eckrich and Sons, Inc., of Allen Township, at or near Quincy, Mich.

NOTE.—If oral hearing is deemed necessary, applicant requests it be held at Fort Wayne, Ind. or Tulsa, Okla. Applicant holds pending common carrier authority in MC 142672 and subs thereunder, therefore dual operation may be involved.

No. MC 142368 (Sub-No. 9), filed November 28, 1977. Applicant: DANNY HERMAN TRUCKING, INC., 15252 Valley Boulevard, City of Industry, Calif. 91744. Applicant's representative: William J. Monheim, 13710 East Whittier Boulevard, Suite 203, P.O. Box 1756, Whittier, Calif. 90609. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shower-bath stall doors, tub enclosures, glass, and materials, equipment, and supplies* used in the manufacture and distribution of shower-bath stall doors, tub enclosures, and glass between Seattle, Wash., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii) restricted against the transportation of commodities in bulk and those which because of size or weight require the use of special equipment.

NOTE.—If a hearing is deemed necessary, applicant request it be held at Seattle, Wash.

No. MC 142672 (Sub-No. 9), filed November 4, 1977. Applicant: DAVID BENEUX PRODUCE AND TRUCKING, INC., P.O. Drawer F, Mulberry, Ark. 72947. Applicant's representative: Don Garrison, 324 North Second Street, Rogers, Ark. 72756. Authority sought as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared frozen foods*, from Carrollton, Macon, Marshall, and Moberly, Mo., to points in Alabama, Delaware, Georgia, Maryland, New York, New Jersey, North Carolina, Pennsylvania, South Carolina, Virginia, and the District of Columbia.

NOTE.—If oral hearing is deemed necessary, applicant requests same be held at St. Louis, Mo. or Little Rock, Ark. Applicant holds contract carrier authority in MC 142065 Subs 1 and 3, therefore dual operations may be involved.

No. MC 142715 (Sub-No. 7), filed November 4, 1977. Applicant: LENERTZ, INC., 411 Northwestern National Bank Building, South St. Paul, Minn. 55101. Applicant's representative: Andrew R. Clark, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs and articles distributed by meat packing plants* (except hides and commodities in bulk), from the plantsites and

storage facilities of Geo. A. Hormel & Co., located at or near Austin, Minn.; Fort Dodge and Algona, Iowa; Fremont and Scottsbluff, Nebr., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee, restricted to product originating at the named origins and destined to the named points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 143071 (Sub-No. 7), filed November 28, 1977. Applicant: UNIVERSAL DEVELOPMENT, INC., Box 568, York, Nebr. 68467. Applicant's representative: William B. Barker, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Preformed plastic and fiberglass tubs, drums and tanks*, from the plantsite and facilities of Snyder Industries at Lincoln, Nebr., to points in the United States (except Connecticut, Delaware, Hawaii, the District of Columbia, Maine, Massachusetts, Alaska, Nevada, Rhode Island, Utah, and Vermont.)

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Omaha, Nebr. or Kansas City, Mo.

No. MC 143177 (Sub-No. 1), filed November 4, 1977. Applicant: MICHAEL C. STRICKLAND d.b.a. STRICKLAND FEED SERVICE, P.O. Box 30, Luverne, Ala. 36049. Applicant's representative: Michael C. Strickland (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Dry animal and poultry feeds and feedstuff* only in bulk, in tank trailers with auger self-unloading devices from the plantsite and storage facilities of Cargill, Inc., Nutrena Feed Division, in the Montgomery Industrial terminal in Montgomery, Ala., to all points in Georgia and Florida.

NOTE.—If a hearing is deemed necessary, applicant requests it be held either in Montgomery or Birmingham, Ala.

No. MC 143236 (Sub-No. 11), filed January 12, 1978. Applicant: WHITE TIGER TRANSPORTATION, INC., 115 Jacobus Avenue, Kearny, N.J. 07032. Applicant's representative: George A. Olsen, P.O. Box 357, Gladstone, N.J. 07934. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities the transportation of which because of size or weight require the use of special equipment), between points in New Jersey on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C. Applicant holds motor contract permit in MC 142786 and other subs, therefore dual operations may be involved.

No. MC 143462 (Sub-No. 1), filed November 30, 1977. Applicant: ERWIN TRUCKING, INC., 7176 North 50th Street, Omaha, Nebr. 68152. Applicant's representative: Donald L. Stern, Suite 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel nails and staples, pneumatic hand tools, and parts and accessories for pneumatic hand tools*, from Cincinnati, Ohio, to Des Moines, Iowa, Denver, Colo., Omaha, Nebr., Wichita, Kans. and Eden Prairie, Minn., and (2) *coils steel strapping and mechanics hand tools other than power*, from New York City, N.Y., to Des Moines, Iowa, Denver, Colo., Omaha, Nebr., Wichita, Kans. and Eden Prairie, Minn. All service limited to that performed under contract with Carlson Stapler & Shippers Supply, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Omaha, Nebr.

No. MC 143563 (Sub-No. 1), filed November 7, 1977. Applicant: R. C. MOORE, INC., Box 346, Waldoboro, Maine 04572. Applicant's representative: Chester A. Zyblut, 366 Executive Building, 1030 15th Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood products*, from Skowhegan, Maine to points in the United States (except Alaska, Hawaii, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey and points in New York east of Interstate 81).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held in Portland, Maine. Applicant holds motor contract carrier authority in No. MC 140572 (Sub-No. 1), therefore, dual operations may be involved.

No. MC 143592 (Sub-No. 4), filed November 28, 1977. Applicant: EDWARDS TRUCKING CO., INC., P.O. Box 123, Clinton, Md. 20735. Applicant's representative: James E. Savitz, Suite 145, 4 Professional Drive, Gaithersburg, Md. 20760. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Magnetic tapes, office furniture, and microfilm equipment and supplies*, between the National Headquarters of the Social Security Administration location in Baltimore, Md., and the National Records Center at or near Boyers, Pa., under a continuing contract, or contracts, with Social Security Administration.

NOTICES

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Washington, D.C. or Baltimore, Md.

No. MC 143786 (Sub-No. 2), filed November 22, 1977. Applicant: HAL MAST TRUCKING CO. INC., Route 1, Sugar Grove, N.C. 28679. Applicant's representative: William P. Parthing, Jr., 1100 Cameron-Brown Building, Charlotte, N.C. 28204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Baskets, wicker*, from Boone, N.C., to Buffalo, N.Y., and its commercial zones and to Greencastle, Pa., under continuing contract with American Wicker, Inc., located at Boone, N.C.

NOTE.—Applicant believes that its application is susceptible of handling without oral hearing and hereby requests such handling. If a hearing is deemed necessary, however, Applicant requests that it be held at Charlotte, N.C. or Boone, N.C.

No. MC 143822 (Sub-No. 1), filed October 31, 1977. Applicant: Y's TRUCKING CO., INC., 2378 Caladium Drive NE., Atlanta, Ga. 30345. Applicant's representative: Virgil H. Smith, Suite 12, 1587 Phoenix Boulevard, Atlanta, Ga. 30349. Authority to operate as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of: *Plastic articles*, from the plantsite of Rehrig Pacific Co., located at or near Doraville (Gwinnett County), Ga., to points in Alabama, Georgia, North Carolina, south Carolina, Florida, Mississippi, Louisiana, Arkansas, Oklahoma, Texas, Tennessee, Kentucky, Illinois, Indiana, Ohio, and St. Louis, Mo., under a continuing contract or contracts, with Rehrig Pacific Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 143949 (Sub-No. 1), filed November 7, 1977. Applicant: JOHN GALT LINE, INC., 9600 Lucas Ranch Road, Cucamonga, Calif. 91730. Applicant's representative: Lucy Kennard Bell, 1800 United California Bank Building, 707 Wilshire Boulevard, Los Angeles, Calif. 90017. ## OPERATING AUTHORITY APPLICATIONS; ORAL HEARINGS

## Special Orders

JANUARY 18, 1978.

All interested persons are advised that commencing February 1, 1978, special orders will be promptly issued in all operating authority applications referred to the Office of Hearings for oral hearing. These orders will call upon all parties to confer promptly to determine whether any issues can be reduced or eliminated by amendment or otherwise. Applicants will have 30 days from the service date of the order to request approval of any proposed amendments. Protestants will have 45 days from the service date of the order to notify the Commission of their intent to participate in the hearing or to withdraw. Failure of a protestant to notify the Commission will be construed as a waiver of its right to further participation.

H. G. HOMME, Jr.,  
Acting Secretary.

[FR Doc. 78-2273 Filed 1-25-78; 8:45 am]

[Volume No. 55]

Petitions, Applications, Finance Matters (Including Temporary Authorities), Railroad Abandonments, Alternate Route Deviations, and Intrastate Applications

JANUARY 20, 1978.

PETITIONS FOR MODIFICATION, INTERPRETATION, OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

The Commission has recently provided for easier identification of substantive petition matters and all documents should clearly specify the "docket," "sub," and "suffix" (e.g. M1, M2) numbers identified by the FEDERAL REGISTER notice.

An original and one copy of protests to the granting of the requested au-

thority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 3581 (Sub-No. 1) (M1) (notice of filing of petition to modify certificate and remove restriction), filed December 9, 1977. Petitioner: THE MOTOR CONVOY, INC., P.O. Box 82432, Hapeville, Ga. 30054. Petitioner's representative: Edward Wolcott, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Petitioner holds a motor *common carrier* certificate in No. MC 3531 (Sub-No. 1), issued April 24, 1951, authorizing as pertinent transportation over irregular routes (A) *automobiles and trucks, finished or unfinished, tractors and chassis in driveway and truckaway service in secondary movements, between points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee, restricted against the transportation (1) of shipments moving from Guntersville, Ala., and Memphis, Tenn., which have previously moved to such points by barge, and (2) of shipments which have originated at Detroit, Mich., or Toledo, Ohio and are destined to any point in North Carolina or South Carolina; and (B) automobiles and truck bodies and cabs, automobile show equipment, paraphernalia, and display material, between points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee, subject to the restriction that neither parts nor accessories shall be transported at the same time as, and in the same vehicle in which the transportation of the commodities authorized herein is being performed.*

By the instant petition, petitioner seeks to modify part (a) so as to authorize the transportation of tractor attachments, parts and accessories when moving at the same time and in the same vehicle with tractors. Petitioner further seeks to remove the restriction in part (b) prohibiting the transportation of parts and accessories in the same vehicle and at the same time in which the transportation of other authorized commodities is being performed.

No. MC 6516 (Sub-No. 2)(M1) (notice of filing of petition to add an origin

\*Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

and destination point), filed December 8, 1977. Petitioner: TRIBORO TRUCKING INC., 439 Orchard Street, Carlstadt, N.J. 07072. Petitioner's representative: Robert Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Petitioner holds a motor *common carrier* permit in No. MC 6516 (Sub-No. 2), issued June 18, 1969, authorizing transportation over irregular routes of *grease, soap, oil, paint, varnish, disinfectant, and water proofing material* from Belleville, N.J., to points in Hudson, Essex, Union, and Passaic Counties, N.J., that part of Connecticut west of the Connecticut River, those in that part of New York on and south of a line beginning at the Connecticut-New York State Line and extending along U.S. Highway 6 to junction New York Highway 17M, near Central Valley, N.Y., thence along New York Highway 17M to junction U.S. Highway 6 near Goshen, N.Y., thence along U.S. Highway 6 to the New York-Pennsylvania State Line, and those in that part of Pennsylvania east of a line beginning at Lewisville, Pa., and extending northerly through Parkersburg, Reading, Hazleton, Tunkhannock, and Montrose, Pa., to the Pennsylvania-New York State Line, including the points specified; and such above specified commodities as are damaged or refused and empty containers therefor, from points in the above specified destination territory, to Belleville, N.J. By the instant petition, petitioner seeks to add Philadelphia, Pa., as an origin and destination point.

No. MC 114552 (Sub-Nos. 3, 12, 13, 18, 98G, E3, E4, E5, E6, E7, E8, E9, E10, E11, E12, E13, E50, and E51)(M1) (notice of filing of petition to broaden commodity), filed October 14, 1977. Petitioner: SENN TRUCKING CO., a corporation, P.O. Drawer 220, Newberry, S.C. 29108. Petitioner's representative: William P. Jackson, Jr., P.O. Box 1267, Arlington, Va. 22210. Petitioner holds motor *common carrier* certificates in Nos. MC 114552 (Sub-No. 3) issued July 17, 1961; MC 114552 (Sub-No. 12) issued July 13, 1961; MC 114552 (Sub-No. 13) issued September 26, 1961; MC 114552 (Sub-No. 18) issued June 22, 1964; and MC 114552 (Sub-No. 98G) issued Sept. 19, 1975; petitioner also holds letter-notices in MC 114552 (Sub-No. E3), published in the FEDERAL REGISTER issue of August 19, 1974, and republished, as corrected, in the FEDERAL REGISTER issues of July 28, 1976 and January 12, 1977; MC 114552 (Sub-No. E4), published in the FEDERAL REGISTER issue of September 10, 1974, and republished, as corrected, in the FEDERAL REGISTER issue of October 8, 1974; MC 114552 (Sub-No. E5), published in the FEDERAL REGISTER issue of September 24, 1974; MC 114552 (Sub-No. E6), published in the FEDERAL REGISTER issue of October 3,

1974; MC 114552 (Sub-No. E7), published in the FEDERAL REGISTER issue of October 10, 1974, and republished, as corrected, in the FEDERAL REGISTER issue of November 7, 1974; MC 114552 (Sub-No. E8) published in the FEDERAL REGISTER issue of May 28, 1975, and republished, as corrected, in the FEDERAL REGISTER issue of July 1, 1975; MC 114552 (Sub-No. E9) published in the FEDERAL REGISTER issue of June 3, 1975, and republished, as corrected, July 1, 1975; MC 114552 (Sub-No. E10) published in the FEDERAL REGISTER issue of May 28, 1975; MC 114552 (Sub-No. E11) published in the FEDERAL REGISTER issue of August 11, 1975; MC 114552 (Sub-No. E12) published in the FEDERAL REGISTER issue of June 17, 1975, and republished, as corrected in the FEDERAL REGISTER issue of March 23, 1977; MC 114552 (Sub-No. E13) published in the FEDERAL REGISTER issue of July 28, 1975; MC 114552 (Sub-No. E50) published in the FEDERAL REGISTER issue of July 18, 1975; and MC 114552 (Sub-No. E51) published in the FEDERAL REGISTER issue of June 13, 1975, authorizing transportation, over irregular routes, of *lumber* (except plywood and veneer), generally between points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas. By the instant petition, petitioner seeks to broaden the commodity description by deleting the exceptions.

No. MC 123993 (Sub-No. 17) (M1) (notice of filing of petition to change origin point), filed December 22, 1977. Applicant: FOGLEMAN TRUCK LINE, INC., P.O. Box 1504, Crowley, La. 70526. Applicant's representative: Austin L. Hatchell, 1102 Perry Brooks Building, Austin, Tex. 78701. Petitioner holds a motor *common carrier* certificate in MC 123993 (Sub-No. 17), issued September 20, 1971, authorizing the transportation of: *Sugar, in bags*, from the plantsite of Southdown Sugars, Inc. at Houma, La. to points in Alabama and Mississippi. By the instant petition, petitioner seeks to change the origin of such authority so that it will read: "Sugar, in bags, from Supreme, La. to points in Alabama and Mississippi.

No. MC 138899 (Sub-No. 2) (M1) (notice of filing of petition to substitute contracting shipper), filed December 5, 1977. Petitioner: GREEN RIVER TRANSPORTATION CO. INC., Central City, Ky. 42330. Petitioner's representative: Kenneth Kusch, 107 North Railroad Street, P.O. Box 655, Central City, Ky. 42330. Petitioner holds a motor *contract carrier* permit in MC 138899 (Sub-No. 2) issued August 19, 1977, authorizing transportation over irregular routes of *Wooden pallets, boxes, crates and bases* from points in Muhlenberg

County, Ky., to points in Indiana and Illinois; and *lumber*, from the destination points above to the facilities of Expendable Pallet Manufacturing Co. Inc., in Muhlenberg County, Ky., under continuing contract or contracts with Expendable Pallet Manufacturing Co. Inc., of Muhlenberg, Ky. By the instant petition, petitioner seeks to substitute Geibel Lumber Co. Inc., as the contracting shipper in lieu of Expendable Pallet Manufacturing Co.

No. MC 139495 (Sub-No. 13) (M1) (notice of filing of petition to add commodity description), filed December 5, 1977. Petitioner: NATIONAL CARRIERS INC., 1501 East Eighth Street, P.O. Box 1358, Liberal, Kans. 67901. Petitioner's representative: Herbert Alan Dubin, 1320 Fenwick Lane, Silver Spring, Md. 20910. Petitioner holds a motor *common carrier* certificate in No. MC 139495 (Sub-No. 13), issued November 2, 1977 authorizing transportation over irregular routes of *Sodium bicarbonate and sodium carbonate* (except in bulk and except soda ash) from the facilities of Church & Dwight Co., Inc., located in Sweetwater County, Wyo., to points in Alabama, Mississippi, Louisiana, Arkansas, Iowa, Indiana, Ohio, Kentucky, Michigan, Tennessee, Missouri, Nebraska, Kansas, Oklahoma, and Texas. By the instant petition, petitioner seeks to add *cleaning, scouring, and washing compounds* to the commodity description.

No. MC 140484 (Sub-No. 17) (M1) (notice of filing of petition to add origin point), filed December 27, 1977. Petitioner: LESTER COGGINS TRUCKING INC., 2671 East Edison Avenue, P.O. Box 69, Fort Myers, Fla. 33901. Petitioner's representative: Chester A. Zyblut, 1030 15th Street NW., Washington, D.C. 20007. Petitioner holds a motor *common carrier* certificate in No. MC 140484 (Sub-No. 17), issued October 31, 1977, authorizing transportation over irregular routes, *Glassware, chinaware, earthenware, porcelain, stoneware, plastic bowls, cups, dishes, and plates*, between Lake City and Jeannette, Pa., and Sebring, Ohio, on the one hand, and, on the other, points in Alabama, Arkansas, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, Oklahoma, Tennessee, and Texas. By the instant petition, petitioner seeks to add the plantsite and storage facilities of Walker China Co., located in Bedford Heights, Ohio as an origin point.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATION

The following applications are governed by special rule 247 of the Commission's General Rules of Practice (49 CFR §1100.247). These rules pro-

## NOTICES

vide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the *FEDERAL REGISTER*. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority, which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the *FEDERAL REGISTER* of a notice that the proceeding has been assigned for oral hearing. Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 21684 (Sub-No. 25), filed December 1, 1977. Applicant: CHARLES E. DANBURY CO., a corporation, 292 South Fifth Street, Cincinnati, Ohio 45176. Applicant's representative: Jack B. Josselson, 700 Atlas Bank Building, Cincinnati, Ohio 45202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Trailers, trailer chassis, semitrailers, semitrailer chas-*

*sis, container trailers, trailer converter dollies, and parts and accessories for the foregoing commodities*, from Denton County, Tex., to points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with Pullman, Inc. (Trailer mobile Division) located at Chicago, Ill.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Cincinnati, Ohio, or Chicago, Ill.

No. MC 37896 (Sub-No. 26), filed December 2, 1977. Applicant: YOUNGBLOOD TRUCK LINES, INC., P.O. Box 778, Fletcher, N.C. 28732. Applicant's representative: Charles Ephraim, Suite 600, 1250 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Stoves and stove parts*, from points in Buncombe County, N.C., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Asheville, N.C.

No. MC 47171 (Sub-No. 101), filed December 2, 1977. Applicant: COOPER MOTOR LINES, INC., P.O. Box 4259, Greenville, S.C. 29608. Applicant's representative: Harris G. Andrews (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals; coal tar dyes (except indigo); softeners, fabric or textile; cleaning compounds; and dye intermediates (except commodities in bulk)*, from Toms River, N.J., to Charlotte, N.C. and Lobero, S.C.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held in Washington, D.C., or Columbia, S.C.

No. MC 50069 (Sub-No. 528), filed December 5, 1977. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum lubricating oil*, in bulk, in tank vehicles, from Detroit, Mich., and Cleveland, Ohio, to points in Minnesota.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held in Washington, D.C.

No. MC 59150 (Sub-No. 108), filed November 2, 1977. Applicant: PLOOF TRUCK LINES, INC., 1414 Lindrose Street, Jacksonville, Fla. 32206. Applicant's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville,

Fla. 32207. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Hardwood flooring*, from Memphis, Tenn., and Grenada, Miss., to points in Georgia, Florida, and Alabama; and (2) *lumber*, from New Orleans, La., to points in Alabama, Georgia, Mississippi, and Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Memphis, Tenn.

No. MC 60014 (Sub-No. 63), filed November 30, 1977. Applicant: AERO TRUCKING, INC., Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Copper articles* from Pulaski, Tenn., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Colorado, Oklahoma, and Texas; and (2) *scrap copper* from points in the United States in and east of North Dakota, South Dakota, Nebraska, Colorado, Oklahoma, and Texas to Pulaski, Tenn.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Nashville, Tenn., or Washington, D.C.

No. MC 60014 (Sub-No. 64), filed November 30, 1977. Applicant: AERO TRUCKING, INC., Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, lumber and lumber products, plywood and machinery*, from Savannah, Ga., to points in Connecticut, Delaware, District of Columbia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Atlanta, Ga., or Washington, D.C.

No. MC 64932 (Sub-No. 580), filed December 12, 1977. Applicant: ROGERS CARTAGE CO., a corporation, 10735 South Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulphur Trioxide*, in bulk, in tank vehicles, from the plantsite of E. I. duPont de Nemours & Co. at Fort Hill, Ohio, to Millsdale, Ill., Midland and St. Louis, Mich.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., or Washington, D.C.

No. MC 67156 (Sub-No. 1), filed December 5, 1977. Applicant: CONTAINER TRANSPORT CO., a corporation, 55 Francisco Street, San Francisco, Calif. 94133. Applicant's representative: Patrick Pollock (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper articles* from the plantsite of Pacific Paperboard Products, Inc., at Stockton, Calif., to Oakland and San Francisco, Calif. Restriction: The operations authorized herein are limited to shipments in containers via piggyback service or ocean carriage, under a continuing contract or contracts with Pacific Paperboard Products, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco or Stockton, Calif.

No. MC 68860 (Sub-No. 28), filed November 21, 1977. Applicant: RUSSELL TRANSFER, INC., 444 Glenmore Drive, Salem, Va. 24153. Applicant's representative: Linell G. Gregory, Jr., (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and related advertising materials*, from Eden, N.C., to points in Alabama, Delaware, Florida, Georgia, Kentucky, Maryland, South Carolina, Virginia, West Virginia, Ohio, and the District of Columbia; and (2) *materials, supplies and equipment* used in the manufacture, sale, and distribution of malt beverages, and returned empty malt beverage containers (except commodities in bulk), from points in Alabama, Delaware, Florida, Georgia, Kentucky, Maryland, South Carolina, Ohio, Virginia, West Virginia, and the District of Columbia, to Eden, N.C., restricted against the transportation of commodities in bulk, in tank vehicles, or commodities requiring the use of special equipment.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at Roanoke, Va.; Washington, D.C., or Charlotte, N.C.

MC 71452 (Sub-No. 15), filed November 28, 1977. Applicant: INDIANA TRANSIT, INC., 4300 West Morris Street, Indianapolis, Ind. 46241. Applicant's representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, Tenn. 38137. Authority is sought to operate as a motor *common carrier* in interstate or foreign commerce, over irregular routes, transporting: *General commodities (except classes A and B explosives, commodities in bulk, household goods as defined by the Commission, and articles which, because of size or weight, require special equipment)*, between points in Adams, Allen, Bartholomew, Blackford, Boone, Brown, Carroll, Cass, Clay, Clinton, Daviess, Decatur,

Restricted against the transportation of single articles or pieces which exceed 100 pounds in weight.

NOTE.—If a hearing is deemed necessary applicant requests that it be held at Indianapolis, Ind.

No. MC 74321 (Sub-No. 138), filed December 9, 1977. Applicant: B. F. Walker, Inc., P.O. Box 17-B, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger, Steele Park, Suite 330, 50 South Steele Street, Denver, Colo. 80209. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles and construction materials (except in bulk)*, from facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corp., and subsidiaries of the foregoing companies, at or near Lansing, Mich.; Grand Rapids, Mich.; Petoskey, Mich.; Holland, Mich.; Detroit, Mich.; Milwaukee, Wis.; Chicago, Ill.; Blue Island, Ill.; Joliet, Ill.; Kokomo, Ind.; Fort Wayne, Ind.; North Judson, Ind.; Elkhart, Ind.; Cicero, Ind.; Centerville, Iowa; West Des Moines, Iowa; Denver, Colo.; Albuquerque, N. Mex.; Jackson, Miss.; Columbus, Ohio; Toledo, Ohio; Kingsport, Tenn.; Knoxville, Tenn.; South Pittsburgh (Richard City), Tenn.; Atlanta, Ga.; Salisbury, N.C.; Cabot, Pa.; Nazareth, Pa.; North Arlington, N.J.; and Newton, Kans., to points in the United States, except Alaska, Connecticut, Hawaii, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont; and (2) *materials, equipment and supplies (except in bulk)* used in the manufacture and distribution of commodities named in (1) above, from points in the United States, except Alaska, Connecticut, Hawaii, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont, to facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corp., and subsidiaries of the foregoing companies, at or near points named in (1) above.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held in Indianapolis, Ind., Chicago, Ill., or Washington, D.C. Prehear-

ing conference, January 31, 1978, at 9:30 a.m., local time, at the offices of the Interstate Commerce Commission in Washington, D.C.

No. MC 75281 (Sub-No. 12), filed December 1, 1977. Applicant: RIGHTER TRUCKING CO., INC., 1238 Meadowbrook Drive, Cape Girardeau, Mo. 63701. Applicant's representative: Frank D. Hall, Suite 713, 3384 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ground silica*, from Alexander County, Ill., to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Jersey, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, West Virginia, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Cairo, Ill.

No. MC 78400 (Sub-No. 57), filed November 28, 1977. Applicant: BEAUFORT TRANSFER CO., a corporation, P.O. Box 151, Gerald, Mo. 63037. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Glasshouse pots and accessories*, requiring protection from freezing service; and, (2) *refractory and refractory products*, from the plantsite and facilities of Laclede-Christy Clay Products Co. at Owensville, Mo., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Louis or Jefferson City, Mo.

No. MC 82079 (Sub-No. 56), filed December 2, 1977. Applicant: KELLER TRANSFER LINE, INC., 5635 Clay Avenue SW., Grand Rapids, Mich. 49508. Applicant's representative: Edward Malinzak, 900 Old Kent Building, Grand Rapids, Mich. 49503. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionery products (except in bulk)*, in mechanically refrigerated vehicles, from the plantsites and warehouse facilities of E. J. Brach & Sons, Inc., in Chicago and Carol Stream, Ill., to points in Michigan on, east and south of a line beginning at the intersection of U.S. Highway 23 and the Michigan-Ohio State line, and extending along U.S. Highway 23 north to its junction with Michigan Highway 21, then east along Michigan Highway 21 to its junction with Michigan Highway 15, then along Michigan Highway 15 to Bay City, Mich., restricted to traffic

## NOTICES

originating at the named origins and destined to the named destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich. or Chicago, Ill.

No. MC 84739 (Sub-No. 27), filed: November 28, 1977. Applicant: SEVERSON TRANSPORT, INC., 621 Albion Road, Edgerton, Wis. 53534. Applicant's representative: Michael S. Varda, 121 South Pinckney Street, Madison, Wis. 53703. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from the facilities of Krier Preserving Co. located at or near Belgium and Random Lake, Wis. to points in Pennsylvania on and west of U.S. Highway 15.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 97699 (Sub-No. 47), filed November 28, 1977. Applicant: BARBER TRANSPORTATION CO., a corporation, P.O. Drawer 1970, Rapid City, S. Dak. 57701. Applicant's representative: Leslie R. Kehl, Suite 1660 Lincoln Center, 1600 Lincoln Street, Denver, Colo. 80264. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities (except household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving points in Campbell, Sheridan, Johnson, Weston and Crook Counties, Wyo., as off-route points in connection with the carrier's authorized regular-route operations between Spearfish, S. Dak. and Billings, Mont.,*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Rapid City, S. Dak.

No. MC 103993 (Sub-No. 911), filed December 5, 1977. Applicant: MORGAN DRIVE-AWAY, INC., 28651 U.S. 20 West, Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani, (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic pipe and fittings*, from Tulsa, Okla., to points in Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, New York, North Carolina, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Wisconsin, Alabama, Pennsylvania, Maryland, New Jersey, West Virginia, Virginia and Delaware.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Tulsa, Okla.

No. MC 106674 (Sub-No. 273), filed December 2, 1977. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123,

Remington, Ind. 47977. Applicant's representative: Linda J. Sundry, P.O. Box 123, Remington, Ind. 47977. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitrogen fertilizer solution* from the storage facilities of CF Industries, Inc., at or near Burns Harbor, Ind. to points in Michigan and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in Chicago, Ill., or Indianapolis, Ind.

No. MC 108676 (Sub-No. 114), filed November 28, 1977. Applicant: A. J. METLER HAULING & RIGGING, INC., 117 Chicamauga Avenue, Knoxville, Tenn. 37917. Applicant's representative: Louis J. Amato, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Aluminum products and aluminum extrusions, and parts, materials and attachments* used in the assembly thereof, from the plantsite of Jarl Extrusions, Inc. located at Elizabethton, Tenn., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Nashville, Tenn. or Atlanta, Ga.

No. MC 110525 (Sub-No. 1216), filed November 2, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chicken fat*, in bulk, in tank vehicles, from Linville and Winchester, Va. to Maspeth, N.Y.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in New York, N.Y.

No. MC 110817 (Sub-No. 23), filed November 18, 1977. Applicant: E. L. FARMER & CO., a corporation, P.O. Box 3512, Odessa, Tex. 79760. Applicant's representative: J. Michael Alexander, 136 Wynnewood Professional Building, Dallas, Tex. 75224. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Bentonite* (except those commodities described in the Mercer description) from points in Big Horn County, Wyo. to points in Texas, New Mexico, and Oklahoma.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at (1) Houston, Tex. or (2) Dallas, Tex.

No. MC 111231 (Sub-No. 223), filed November 14, 1977. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, Ark. 72764. Applicant's representative: James B. Blair, 111 Holcomb Street, P.O. Box 869,

Springdale, Ark. 72764. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), (1) between New Orleans, La., and Hattiesburg, Miss., serving all intermediate points: From New Orleans over U.S. Highway 90 to junction U.S. Highway 11, thence over U.S. Highway 11 via Slidell, La., to Hattiesburg, and return over the same route; (2) between Mobile, Ala., and Poplarville, Miss., serving the intermediate point of Wiggins, Miss.: From Mobile over U.S. Highway 98 to junction Mississippi Highway 26 near Lucedale, Miss., thence over Mississippi Highway 26 to Poplarville, and return over the same route; (3) between Livingston, Ala., and Hattiesburg, Miss., serving all intermediate points: From Livingston over U.S. Highway 11 (also over Interstate Highway 59) to Hattiesburg, and return over the same route; (4) between Vicksburg, Miss., and Meridian, Miss., serving all intermediate points: From Vicksburg over U.S. Highway 80 (also 20) to Meridian, and return over the same route; (5) Between Jackson, Miss., and New Orleans, La., serving all intermediate points: From Jackson over U.S. Highway 51 to its junction with Interstate Highway 10, thence over Interstate Highway 10 to New Orleans (also Interstate Highway 55 and Interstate Highway 10), and return over the same route; (6) between Brookhaven, Miss., and Laurel, Miss., serving all intermediate points: From Brookhaven over U.S. Highway 84 to Laurel, and return over the same route; (7) between Jackson, Miss., and Gulfport, Miss., serving all intermediate points: From Jackson over U.S. Highway 49 to Gulfport, and return over the same route; (8) between Hattiesburg, Miss., and Lucedale, Miss., serving all intermediate points: from Hattiesburg over U.S. Highway 98 to Lucedale, and return over the same route; (9) between Mobile, Ala., and the junction of U.S. Highway 11 and Interstate Highway 10 near Slidell, La., serving all intermediate points in Louisiana: from Mobile over Interstate Highway 10 (also U.S. Highway 90) to its junction with U.S. Highway 11 near Slidell, and return over the same route; (10) Between Slidell, La., and Lafayette, La., serving all intermediate points: from Slidell over U.S. Highway 190 (also over Interstate Highway 12 and Interstate Highway 10), and return over the same route; (11) between Baton Rouge, La., and New Orleans, La., serving all intermediate points: from Baton Rouge over U.S. Highway 61 to New Orleans, and return over the same route; (12) be-

tween Hattiesburg, Miss., and McComb, Miss., serving all intermediate points: from Hattiesburg over U.S. Highway 98 to McComb, and return over the same route; (13) between Leland, Miss., and Vicksburg, Miss., serving no intermediate points: from Leland over U.S. Highway 61 to its junction with Interstate Highway 20, thence over Interstate Highway 20 to Vicksburg, and return over the same route; (14) Serving as off-route points in connection with the regular routes described above, points in Louisiana and Mississippi within 200 miles of Poplarville, Miss.; alternate routes for operating convenience only: (15) between junction U.S. Highway 61 and 80 and Interstate Highway 20 bypass north and east of Vicksburg, Miss., and Baton Rouge, La., in connection with carrier's regular-route operations serving no intermediate points but serving Vicksburg, Miss., for purpose of joinder and local service. From junction U.S. Highways 61 and 80 and Interstate Highway 20 bypass north and east of Vicksburg, Miss., over U.S. Highway 61 to junction U.S. Highway 80 and Interstate Highway 20, thence over combined U.S. Highway 80 and Interstate Highway 20 to junction U.S. Highway 61, thence over U.S. Highway 61 to Baton Rouge, and return over the same route.

NOTE.—Any duplication of authority requested herein shall not be construed as conferring more than one operating right.

It is further requested that the certificate requested herein supersede certificate number MC 11231, Sub-No. 192 dated January 23, 1976. Said application intends to convert irregular-route authority to regular-route authority. If a hearing is deemed necessary, the applicant requests it be held in Jackson, Gulfport and Biloxi, Miss., Baton Rouge and New Orleans, La.

No. MC 111310 (Sub-No. 27), filed December 1, 1977. Applicant: BEER TRANSIT, INC., P.O. Box 352, Black River Falls, Wis. 54615. Applicant's representative: Wayne W. Wilson, P.O. Box 8004, Madison, Wis. 53708. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pre-cast concrete products*, (1) from the facilities of Chicago Pre-cast Products, Division of Condux International, Inc., located at or near Naperville, Ill., to points in Indiana, Iowa, Michigan, and Wisconsin, (2) from the facilities of Janesville Concrete Products, Division of Condux International, Inc., located at or near Janesville, Wis., to points in Illinois, Indiana, Iowa, and Michigan, under a continuing contract or contracts in (1) and (2) above with Chicago Pre-cast Products, Division of Condux International, Inc., and (3) from the facilities of Material Service Corp., located at or near Lockport, Ill., to points in Indiana, Iowa, Michigan, and Wisconsin, under a continuing contract or contracts with Material Service Corp.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Chicago, Ill.

No. MC 144011 (Clarification), filed November 14, 1977, published in the FEDERAL REGISTER issue of January 12, 1978, and republished, this issue. Applicant: HALL SYSTEMS, INC., 212 South 10th Street, Birmingham, Ala. 35233. Applicant's representative: Robert D. Hunter, 1700 First Alabama Bank Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Between Birmingham, Ala., and New Orleans, La., from Birmingham over Interstate Highway 65 to junction Interstate Highway 10 thence over Interstate Highway 10 to New Orleans and return over the same route, (2) between Birmingham, Ala., and New Orleans, La., from Birmingham over U.S. Highway 31 to junction U.S. Highway 90 thence over U.S. Highway 90 to New Orleans and return over the same route. In connection with route 1 and route 2 above serving all intermediate points on route 2 from the Mississippi-Alabama state line to New Orleans and serving those same points as off-route points on route 1. In connection with route 1 above, serving Gainesville, Miss., as an off-route point. (3) Between Birmingham, Ala., and New Orleans, La., from

Birmingham over Interstate Highway 59 to New Orleans and return over the same route, (4) between Birmingham, Ala., and New Orleans, La., from Birmingham over U.S. Highway 11 to New Orleans and return over the same route. In connection with route 3 and route 4 above, serving Meridian, Miss., Laurel, Miss., Hattiesburg, Miss., and Slidell, La., as intermediate points and serving Gainesville, Miss., as an off-route point. Also serving all intermediate points on route 4 from the Mississippi-Alabama state line to New Orleans and serving the same points as off-route points on route 3. (5) Between Birmingham, Ala., and Jackson, Miss., from Birmingham over Interstate Highway 20 to Jackson and return over the same route, (6) between Birmingham, Ala., and Jackson, Miss., from Birmingham over U.S. Highway 11 to junction U.S. Highway 80 thence over U.S. Highway 80 to Jackson and return over the same route. In connection with route 5 and route 6 above, serving Meridian, Miss., as an intermediate point on both routes. Also serving all intermediate points on route 6 from the Mississippi-Alabama state line to Jackson, Miss., and serving those same points as off-route points on route 5. (7) between Jackson, Miss., and Gulfport, Miss., from Jackson over U.S. Highway 49 to Gulfport and return over the same route. In connection with route 7 above, serving all intermediate points between Jackson and Gulfport. Restrictions: No service from New Orleans, La., to points in Mississippi. No service to any Alabama points not in the commercial zone of Birmingham, Ala.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., New Orleans, La. or Meridian, Miss. The purpose of this republication is to clarify number assigned to this applicant.

No. MC 144020 (Sub-No. 1), filed December 5, 1977. Applicant: LANE TRUCKING INC., 12642 O Street, Omaha, Nebr. 68137. Applicant's representative: Marshall D. Becker, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts* (except hides and commodities in bulk) as described in Appendix I, Sections A and C of Descriptions in Motor Carrier Certificates, 61 MCC at 273: From Davenport, Dubuque, Cedar Rapids, Ottumwa, Marshalltown, Iowa Falls, Waterloo, Estherville, Des Moines, Fort Dodge, Sioux City, Cherokee, Denison, Glenwood, Perry, Storm Lake, and Columbus Junction, Iowa, Omaha, Fremont, Crete, Madison, Lyons, Schuyler, and Dakota City, Nebr., Minneapolis, St. Paul, Austin, Albert Lea, and Worthington, Minn.,

Huron, Mitchell, and Sioux Falls, S. Dak., Kansas City, Arkansas City, Great Bend, and Garden City, Kans., St. Louis and Marshall, Mo., to Merced, Stanislaus, San Joaquin, Alameda, San Francisco, Santa Clara, Yolo, Los Angeles, San Mateo, Sacramento, and Fresno Counties, Calif., under a continuing contract, or contracts, with Pacific Provisions, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Omaha, Nebr. or San Francisco, Calif.

## PASSENGERS

No. MC 143851, filed October 14, 1977. Applicant: JAMES SULESKI, 11 Harwood Road, Marlton, N.J. 08053. Applicant's representative: James Suleski (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *passengers*, having a prior or subsequent movement by air and such individuals associated in the movement of such passengers in specialized equipment, in special operations between John F. Kennedy Airport, Jamaica, N.Y., LaGuardia Airport, Queens, N.Y., Teterboro Airport, Teterboro, N.J., Newark International Airport, Newark, N.J., Philadelphia International Airport, Philadelphia, Pa., Bader Field, Atlantic City, N.J., Pomona Airport, Pomona, N.J., and Atlantic and Cape May Counties, N.J.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Atlantic City, N.J. or Philadelphia, Pa.

No. MC 143998 (Correction), filed November 8, 1977, published in the FEDERAL REGISTER issue of December 30, 1977 as MC 144011, and republished, as corrected, this issue. Applicant: CLIFFORD T. GLENN, d.b.a. TALLY-HO CHARTER SERVICE, 1501 North Stanton, No. 6, El Paso, Tex. 79902. Applicant's representative: Clifford T. Glenn (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *passengers, and their baggage* in same vehicle with passengers, in special and charter party operations, beginning and ending in El Paso, Tex., and extending to points in New Mexico, Arizona, and points on and east of U.S. Highway 15 in Utah, and points on and west of U.S. Highways 25 and 90 in Wyoming, and points on and west of U.S. Highway 25 in Colorado. Limited to twelve passengers including chauffeur in limousines.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either El Paso, Tex., or Albuquerque, N. Mex. The purpose of this correction is to show correct number assigned as MC 143998.

## FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge,

lease operating rights and properties, or acquire control through ownership of stock, or rail carriers or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

No. MC-F-12720. Authority sought to reopen the proceeding for amendment of the original application to seek authority for the merger of H. M. WITMYER, INC., 15 South Wolf Street, Manheim, Pa., into CENTRAL TRANSFER CO., 1080 Springfield Road, Union, N.J., for ownership, management, and operation, and for control by P. A. Albanese, of Union, N.J., of the operating rights and properties of H. M. Witmyer, Inc., through the merger. Applicant's attorney: A. David Millner, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J. 07006. Operating rights sought to be controlled: *General commodities*, with exceptions, as a *common carrier* over regular routes between Manheim, Pa., and Philadelphia, Pa., serving the intermediate points of Lititz and Lancaster, Pa., and *truck casters, machinery and parts, leather belting and leather*, as a *common carrier* over irregular routes between Manheim and Lancaster, Pa., on the one hand, and, on the other, Camden, N.J. Central Transfer Co., is authorized to operate as a *common carrier* in New York, New Jersey, and Pennsylvania. By order entered November 5, 1976, the Commission granted the original application by which Central Transfer Co. sought control of H. M. Witmyer, Inc. By order entered September 16, 1977, the Commission granted the requested reopening, permitted amendment of the application, and granted authority for the merger of H. M. Witmyer, Inc., into Central Transfer Co., for ownership, management, and operation, and for control by P. A. Albanese of the operating rights and properties of H. M. Witmyer, Inc., through the merger, subject to publication in the FEDERAL REGISTER of notice of filing of the amendment seeking merger.

No. MC-F-13443. Authority sought for purchase by DUFF TRUCK LINE, INC., Broadway and Vine Streets, Lima, Ohio, 45802, of a portion of the operating rights of Eastern Express, Inc., 1450 Wabash Avenue, Terre

Haute, Ind., 47808, and for acquisition by L. Eugene Duff, also of Broadway and Vine Streets, Lima, Ohio, of control of such rights through the purchase. Applicants' attorneys: A. David Millner, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J., 07006, and Roland Rice, 501 Perpetual Building, 1111 E Street N.W., Washington, D.C. 20004. Operating rights sought to be transferred: (1) That portion of Certificate No. MC-106943, authorizing the transportation of: *general commodities*, with the usual exceptions, as a *common carrier* over regular routes, (a) serving to and from points in Marion County, Ind., as intermediate or off-route points in connection with carrier's regular route operations to or from Indianapolis, Ind., (b) between Huntington, Ind., and Fort Wayne, Ind., serving no points, but serving the off-route point of Marion, Ind.: From Huntington over U.S. Highway 24 to Fort Wayne, and return over the same route, with restrictions; (c) between Indianapolis, Ind., and Huntington, Ind., serving the intermediate point of Marion, Ind.: From Indianapolis over Indiana Highway 37 to Huntington, and return over the same route, with restrictions; (d) between Indianapolis, Ind., and Cincinnati, Ohio, serving no intermediate points: From Indianapolis over U.S. Highway 52 to Cincinnati, and return over the same route. (2) That portion of Certificate No. 106943 (Sub-No. 51) authorizing the transportation of general commodities, except those of unusual value, Class A and B explosives other than small-arms ammunition, livestock, household goods as defined by the Commission, and liquids in bulk in tank trucks, between Indianapolis, Ind., and Cincinnati, Ohio, serving no intermediate points. From Indianapolis over U.S. Highway 52 to Cincinnati, and return over the same route. Vendee is authorized to operate as a *common carrier* in Illinois, Indiana, Kentucky, Michigan, Missouri, and Ohio. Application has been filed for temporary authority under Section 210a(b).

NOTE.—MC-14314 (Sub-No. 26) is a directly related matter.

No. MC-F-13463. Authority sought for purchase by THE LAKE SHORE MOTOR FREIGHT CO., 1200 South State Street, Girard, Ohio, 44420 of the operating rights of Olson Express, Inc., Ronald H. Gordon, Receiver, 309 Broadway Building, Lorain, Ohio, 44052, and for acquisition by Howard J. O'Malley, Jr., of 1200 South State Street, Girard, Ohio, 44420, John J. O'Malley of 2620 Thorntree Drive, Pittsburgh, Pa., and Lucille A. O'Linn of 30301 Windsor Drive, Bay Village, Ohio, of control of such rights through the purchase. Attorneys for transferor: Michael Spurlock and Paul Berry, Esquire, 275 East State Street, Columbus, Ohio, 43215. Transferee's

attorneys: John P. Tynan and A. David Millner, Esquire, c/o Bowes, Millner, Rodgers, Liberstein, & Werner, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J., 07006. Operating rights sought to be transferred: Under a Certificate of Registration in Docket No. MC-99038, authorizing the transportation of property from and to Lorain County, Ohio, also household goods, office furniture and fixtures to and from any point in Lorain County, Ohio, or within the State of Ohio. Vendee is authorized to operate as a *motor common carrier* in Connecticut, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, West Virginia, and Wisconsin. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC-13569 (Sub-Nos. 34 and 35) is a directly related matter.

No. MC-F-13473. Authority sought for purchase by CENTRAL TRANSPORT, INC., P.O. Box 7007, Uwharrie Road, High Point, N.C., 27264, of a portion of the operating rights of Spector Freight System, Inc., 1050 Kingery Highway, Bensenville, Ill., 60106, and for acquisition by A. L. Honbarrier, P.O. Box 7007, Uwharrie Road, High Point, N.C., 27264, of control of such rights through the transaction. Applicants' representatives: Earle O. Jones, director, traffic and sales, P.O. Box 7007, High Point, N.C., 27264; E. Stephen Heisley, 666 Eleventh Street N.W., Washington, D.C., 20001; and Jack Goodman, Axelrod, Goodman, Steiner, & Bazelon, 39 South LaSalle Street, Chicago, Ill., 60603. Operating rights sought to be acquired: *Chemicals*, in bulk, over irregular routes, from Jersey City, N.J. to Charlotte, N.C. (portion of MC-69116). Vendee is authorized to operate as a *common carrier* in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, and West Virginia. Application has not been filed for temporary authority under Section 210a(b).

NOTE.—MC-118831 (Sub-No. 155) is a directly related matter.

No. MC-F-13476. Authority sought for purchase by COLONIAL TRANSPORTATION, INC., 38 May Avenue, Brockton, Mass., 02401 of the operating rights of Superior Motor Transportation Co., Inc., 69 Proctor Street, Boston, Mass., 02119, and for acquisition by Richard Bodel, 38 Hillcrest Drive, Pembroke, Mass., 02359 and John A. Buckley, 38 May Avenue,

Brockton, Mass., 02401 of control of such rights through the purchase. Transferee's attorney: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Transferors attorney: Kenneth B. Williams, 84 State Street, Boston, Mass., 02109. Operating rights sought to be purchased: (I) *General commodities* (with exceptions), as a *common carrier*, over (A) regular routes, between (1) Boston, Mass. and Providence, R.I.; (2) Boston, Mass. and Worcester, Mass.; and (3) Boston, Mass. and Lynn, Mass.; (B) irregular routes between (1) Boston, Mass. and points in Massachusetts within 10 miles of Lowell, on the one hand, and, on the other, Boston, Mass. and points and places in Massachusetts within 12 miles of Boston; and, (II) *specific commodities*, over irregular routes, as more fully described in Certificates of Public Convenience and Necessity Nos. MC-2123 and MC-2123 (Sub-No. 3). Vendee is authorized to operate as a common carrier in Massachusetts pursuant to Certificate of Registration No. MC-120799 (Sub-No. 1). Application has been filed for temporary authority under Section 210a(b). A directly related application seeking conversion of vendee's certificate of registration to a certificate of public convenience and necessity is being simultaneously filed. Application has been filed for temporary authority under Section 210a(b).

NOTE.—MC-120799 (Sub-No. 2) is a directly related matter.

No. MC-F-13477. Authority sought for purchase by ARLEDGE TRANSFER, INC., 1100 Arnold Drive, West Burlington, Iowa, 52632, of the operating rights and property of Eugene C. Warren, d.b.a. Warren Trucking Co., Box 1144, Keokuk, Iowa 52632, and for acquisition by James G. Arledge, 2330 Mason Road, Burlington, Iowa 52601, and Arnold G. Arledge, 1426 Pine Street, Burlington, Iowa 52601, of control of such rights through the purchase. Applicants' representative: Thomas E. Leahy, Jr., 1980 Financial Center, Des Moines, Iowa, 50309. Operating rights sought to be transferred: *General commodities*, with exceptions as a *common carrier* over irregular routes between Elvaston, Ill., on the one hand, and, on the other, points in Illinois, Iowa, and Missouri within 85 miles of Elvaston, Ill., as set forth in Certificate MC-141139. Vendee is authorized to operate as a *common carrier* in Iowa, Illinois, and Missouri. Application has been filed for temporary authority under section 210a(b).

NOTE.—If a hearing is required, applicant requests assignment at Chicago, Ill. Application states Transferee intends to join Transferor's irregular route authority with Transferee's present regular route authority.

No. MC-F-13481. Authority sought for purchase by MORGAN TRUCK-

ING CO., 1201 E. 5th Street, P.O. Box 714, Muscatine, Iowa, 52761, of the operating rights and property of Glen R. Dusenberry, an individual, 1414 Grandview Ave., Muscatine, Iowa 52761, and for acquisition by Donald L. Morgan, 1201 E. Fifth Street, Muscatine, Iowa 52761, of control of such rights through the purchase. Applicants' attorney: Larry D. Knox, 600 Hubbell Building, Des Moines, Iowa 50309. Operating rights sought to be transferred: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), as a *common carrier* over irregular routes from Columbus Junction and Waterloo, Iowa, to points in Illinois, with restrictions; from the facilities of Wilson & Co., Inc., at Cedar Rapids, Iowa, to Chicago, Ill., with restrictions; from Columbus Junction and Waterloo, Iowa, to points in Missouri. Vendee is authorized to operate as a *common carrier* in all the States in the United States (except Alaska and Hawaii) including the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-13486. Authority sought for purchase by WITTE TRANSPORTATION CO., P.O. Box 43564, St. Paul, Minn., 55164, of a portion of the operating rights of Scott's Transportation Service, Inc., P.O. Box 1136, Cedar Rapids, Iowa 52406, and for acquisition by Space Center, Inc., 444 Lafayette Road, St. Paul, Minn. 55101, of control of such rights through the transaction. Transferee's attorney: William S. Rosen, 630 Osborn Building, St. Paul, Minn. 55102; Transferor's attorney: James R. Madler, 120 West Madison, Chicago, Ill. 60602. Operating rights sought to be purchased: *General commodities*, with exceptions as a *common carrier*, over irregular routes, between points in Iowa and Illinois within 25 miles of Rock Island, Ill., including Rock Island, Ill.; *General commodities*, with exceptions as a *common carrier* over irregular routes, from Iowa City, Iowa, to points within 25 miles of Iowa City, except those located on or north of U.S. Highway 30; *General commodities*, with exceptions as a *common carrier*, over irregular and regular routes, from Chicago, Illinois to Iowa City, Iowa, serving intermediate and off route points in Cook County, Ill.; From Chicago over irregular routes to Bristol, Ill., thence over U.S. Highway 34 to junction Illinois Highway 92, thence over Illinois Highway 92 to junction U.S. Highway 6, and thence over U.S. Highway 6 to Iowa City, and return over the same route; as more fully described in Certificate No. MC-115554. Vendee is au-

thorized to operate as a common carrier in the states of Minnesota, Wisconsin, Iowa, and Missouri under authority contained in Certificate No. MC-8964 and subs thereunder. Approval of the transaction will not result in dual operations, splitting of operating authority, or duplicating authority. Application has been filed for temporary authority under section 210a(b).

#### OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights application(s) are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rules 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 1647 (Sub-No. 7), filed December 28, 1977. Applicant: READING VAN AND STORAGE CO., a corporation, 1846 N.W. Boulevard, Vineland, N.J. 08360. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Avenue NW., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, in the transportation of: *Household Goods* as defined by the Commission, Between points in New Jersey, Delaware, and New York City, N.Y., and Philadelphia, Pa., on the one hand, and, on the other, points in New York, New Jersey, Delaware, Maryland, Virginia, Pennsylvania, Massachusetts, Rhode Island, Connecticut, Georgia, North Carolina, South Carolina, Ohio, West Virginia, Florida, and the District of Columbia.

NOTE.—This is a gateway elimination application and is a matter directly related to FC-76849, published in the FEDERAL REGISTER issue of February 22, 1977. If a hearing is deemed necessary, applicant requests it be held at Vineland, N.J.

No. MC 13569 (Sub-No. 34), filed December 15, 1977. Applicant: THE

LAKE SHORE MOTOR FREIGHT CO., a corporation, 1200 South State Street, Girard, Ohio 44420. Applicant's attorneys: A. David Millner, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J. 07006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities*, (except those of unusual value, Classes A & B explosives, and household goods), between Lorain, Ohio, on the one hand, and, on the other, points in Ohio, household goods, office furniture and fixtures, between points in Lorain County, Ohio, on the one hand, and, on the other, points in Ohio.

NOTE.—This application is directly related to MC-F-13463, The Lake Shore Motor Freight Co.—Purchase—Olson Express, Inc., published in a previous section of this FEDERAL REGISTER issue, and is for the purpose of converting the Certificates of Registration of Olson to a Certificate of Public Convenience and Necessity. If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio.

No. MC 13569 (Sub-No. 35), filed December 15, 1977. Applicant: THE LAKE SHORE MOTOR FREIGHT CO., a corporation, 1200 South State Street, Girard, Ohio 44420. Applicant's attorneys: A. David Millner, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J. 07006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities*, (except those of unusual value, Classes A & B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Ohio, on the one hand, and, on the other, points and places in Ohio, that part of New York, south of U.S. Highway 104 and west of U.S. Highway 11, that part of Pennsylvania west of a line beginning at the Pennsylvania-New York State Line and extending along U.S. Highway 11 to Pittston, Pa., thence along U.S. Highway 309 to Hazleton, Pa., thence along Pennsylvania Highway 29 to Tamaqua, Pa., thence along U.S. Highway 209 to Pottsville, Pa., thence along U.S. Highway 122 to Oxford, Pa., and thence along U.S. Highway 1 to the Pennsylvania-Maryland State Line, and those in that part of West Virginia west of U.S. Highway 19 and north of U.S. Highway 60, including points and places on the indicated portions of the highways specified; and points in Essex, Union, Bergen, Passaic, Hudson and Middlesex Counties, N.J.

NOTE.—This application is directly related to MC-F-13463, The Lake Shore Motor Freight Co.—Purchase—Olson Express, Inc., published in a previous section of this FEDERAL REGISTER issue. The Lake Shore Motor Freight Co., holds authority to transport general commodities, with the usual exceptions, over irregular routes in Certificate MC-13569 and Sub 11 thereto. The purpose

of this GATEWAY ELIMINATION application is to provide for tacking of the authority sought to be acquired in MC-F-13463 with that presently held under Certificate MC-13569 and Subs. If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio.

No. MC 14314 (Sub-No. 26), filed November 29, 1977. Applicant: DUFF TRUCKLINE, INC., Broadway and Vine Street, Lima, Ohio 45802. Applicant's representative: A. David Millner, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J. 07006. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *General commodities*, (except Class A and B explosives, livestock, grain, petroleum products, in bulk, household goods as defined by the Commission, and commodities requiring special equipment), serving to and from points in Marion County, Ind., as intermediate or off-route points in connection with carrier's regular route operations to or from Indianapolis, Ind. between Huntington, Ind., and Fort Wayne, Ind., serving no points, but serving the off-route point of Marion, Ind.: from Huntington over U.S. Highway 24 to Fort Wayne, and return over the same route. Between Indianapolis, Ind., and Huntington, Ind., serving the intermediate point of Marion, Ind.: from Indianapolis over Indiana Highway 37 to Huntington, and return over the same route. Alternate routes for operating convenience only: between Indianapolis, Ind., and Cincinnati, Ohio, serving no intermediate points; from Indianapolis over U.S. Highway 52 to Cincinnati, and return over the same route. (2) *General commodities*, (except those of unusual value, Class A and B explosives other than small-arms ammunition, livestock, household goods as defined by the Commission, and liquids in bulk in tank trucks), between Indianapolis, Ind., and Cincinnati, Ohio, serving no intermediate points, from Indianapolis over U.S. Highway 52 to Cincinnati, and return over the same route.

NOTE.—This application is directly related to MC-F-13443 Duff Truck Line, Inc.—Purchase portion—Eastern Express, Inc., published in a previous section of this FEDERAL REGISTER issue. The purpose of this filing is to eliminate certain restrictions contained in the authority of Eastern Express, Inc., sought to be purchased by applicant. If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio or Washington, D.C.

No. MC 63837 (Sub-No. 6), filed September 9, 1977. Applicant: DIGGINS & ROSE, INC. 3 Sagamore Park Road, Hudson, N.H. 03051. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* (1) between points in

Massachusetts, New Hampshire, Maine, Vermont, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, and the District of Columbia; and (2) between Auburn and Lewiston, Me. on the one hand, and, on the other, points in Maine, New Hampshire, and Massachusetts and ports of entry on the United State-Canada boundary line at or near Caanan, Norton, Derby Line and Troy, Vt.

NOTE.—This application is directly related to transfer application simultaneously filed in Docket No. MC-FC-77457. The purpose of this application is to tack transferor's and Transferee's certificates and eliminate the gateway of 25 miles of Boston, Mass.

No. MC 118831 (Sub-No. 155), filed December 29, 1977. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 7007, High Point, N.C. 27264. Applicant's representative: Earlie O. Jones (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals*, in bulk, over irregular routes, from Jersey City, N.J., to points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Michigan, Mississippi, Missouri, North Carolina, Ohio, South Carolina, Tennessee, Virginia, West Virginia (except Kanawha County), and Wisconsin; and (2) *dry chemicals*, in bulk, over irregular routes from Jersey City, N.J., to points in Iowa, Kansas, Louisiana, Minnesota, Oklahoma, and Texas.

NOTE.—This application is directly related to the application filed by Central Transport, Incorporated in MC-F-13473 to purchase a portion of the operating rights to Spector Freight System, Inc. Applicant seeks to eliminate the gateways at Charlotte, N.C.; Lorette, Ala., and Robertson County, Tenn. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Chicago, Ill.

No. MC 120799 (Sub-No. 2), filed December 28, 1977. Applicant: COLO-NIAL TRANSPORTATION, INC., 38 May Avenue, Brockton, Mass. 02401. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, commodities in bulk and those commodities requiring special equipment), between points in Massachusetts.

NOTE.—The purpose of this filing is to convert a Certificate of Registration to a Certificate of Public Convenience and Necessity. This matter is directly related to a Section 5(2) finance proceeding in Docket No. MC-F-13476 published in a previous section of this FEDERAL REGISTER issue. If a hearing is

deemed necessary, applicant requests that it be held at Boston, Mass.

#### MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices, to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

#### MOTOR CARRIERS OF PROPERTY

No. MC 1074 (Deviation No. 11), ALLEGHENY FREIGHT LINES, INC., P.O. Box 2080, Winchester, Va. 22601, filed January 13, 1978. Carrier proposes to operate as a common carrier, by motor vehicle, of: General commodities, with certain exceptions, over a deviation route as follows: From Cincinnati, Ohio, over Interstate Highway 71 North to junction Interstate Highway 270 East, thence over Interstate Highway 270 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 79, thence over Interstate Highway 79 to Morgantown, W. Va., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cincinnati, Ohio, over U.S. Highway 50 to junction Interstate Highway 79, thence over Interstate Highway 79 to Morgantown, W. Va., and return over the same route.

No. MC 2202 (Deviation No. 165), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Boulevard, Akron, Ohio 44309, filed January 11, 1978. Carrier proposes to operate as a common carrier, by motor vehicle, of: General commodities, with certain exceptions, over a deviation route as follows: From Pryor, Okla., over Oklahoma Highway 20 to Claremore, Okla., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Pryor, Okla., over U.S. Highway 69 to junction U.S. Highway 86, thence over U.S. Highway 86 to Claremore, Okla., and return over the same route.

#### NOTICES

No. MC 109533 (Deviation No. 15), OVERNITE TRANSPORTATION CO., P.O. Box 1216, Richmond, Va. 23209, filed January 11, 1978. Carrier proposes to operate as a common carrier, by motor vehicle, of: General commodities, with certain exceptions, over a deviation route as follows: From Hagerstown, Md., over Interstate Highway 81 to junction Interstate Highway 64, thence over Interstate Highway 64 to Lexington, Va., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Hagerstown, Md., over Interstate Highway 70 to junction Interstate Highway 270, thence over Interstate Highway 270 to junction Interstate Highway 495, thence over Interstate Highway 495 to junction Interstate Highway 66, thence over Interstate Highway 66 to junction U.S. Highway 29 thence over U.S. Highway 29 to junction Interstate Highway 64, thence over Interstate Highway 64 to junction Interstate Highway 81, thence over Interstate Highway 81 to junction U.S. Highway 11, thence over U.S. Highway 11 to Lexington, Va., and return over the same route.

#### MOTOR CARRIER INTRASTATE APPLICATION(S)

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the Intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act. These applications are governed by special rule 245 of the Commission's general rules of practice (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. A. 57752, filed December 20, 1977. Applicant: ARVO LYL & SONS, a copartnership, end of Old Hollow Tree Road, P.O. Box 483, Ukiah, Calif. 95482. Applicant's representative: Alvin A. Lyly (same address as applicant). Certificate of public convenience and necessity sought to operate freight service, as follows: Transportation of: Iron and steel products and lumber and forest products, (1) between the San Francisco territory as described in note A of appendix hereto, on the one hand, and all points in the counties of Del Norte,

Humboldt, Mendocino, Shasta, Sonoma, and Tehama, on the other hand; (2) between the Los Angeles territory as described in note B of appendix hereto on the one hand, and all points in the counties of Del Norte, Humboldt, Mendocino, Shasta, Sonoma, and Tehama, on the other hand; (3) between all points in the counties of Humboldt and Del Norte, on the one hand, and all points in the counties of Shasta and Tehama, on the other hand. Such authority does not include the right to render service from, to or between intermediate points. Forest products, whether or not creosoted or otherwise chemically treated, viz.: Atmospheric water cooling towers, knocked down; and iron or steel fixtures for same, consisting of castings, tie rods, not exceeding 30 feet in length, and turnbuckles, weight of such fixtures not to exceed 10 percent of the total weight of shipments, bark, bee hives, knocked down, blocks, wooden paving, creosoted or uncreosoted, boards, particles, bolts, wooden brackets, insulator (wooden), cants, wheel, wooden, in the rough, covers, guy wire, cross arms, wooden, with or without riveted ends, and with or without wooden pins attached, heading, honey box lumber, lath, lumber, pencil slats, pickets, piles, pins, insulator, pipe material, wooden, pipe, wooden, poles, plant, plain, creosoted or stained, poles, telegraph and telephone, posts, sawdust, shakes, shavings, shingles, shin knees, shook, box and crate, silo material, wooden, and fixtures, stakes, plain creosoted or stained, staves, steps, pole (wooden), stock, battery separator, machined, viz.: grooved, farrowed, or corrugated, not treated with caustic soda, asphaltum, or other solution, tank material, wooden, and fixtures, ties, railroad, timbers, rough, timbers, mining, wedges, mine, woodpulp. San Francisco territory includes all the city of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County line meets the Pacific Ocean; thence easterly along said county line to a point 1 mile west of State Highway 82; southerly along an imaginary line 1 mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Co. right-of-way at Arastradero Road; southeasterly along the Southern Pacific Co. right-of-way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue; easterly along West Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific Co. right-of-way to

#### NOTICES

the Campbell-Los Gatos City limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to State Highway 82; northwesterly along State Highway 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northerly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 238 (Oakland Road); northerly along State Highway 238 to Warm Springs; northerly along State Highway 238 (Mission Boulevard) via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard and MacArthur Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard to Warren Boulevard (State Highway 13); northerly along Warren Boulevard to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; westerly,

northerly, and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (State Highway 123); northerly along San Pablo Avenue to and including the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning.

NOTE B.—The Los Angeles territory includes that area embraced by the following boundary: Beginning at the intersection of Sunset Boulevard and State Highway 1; thence northeasterly on Sunset Boulevard to Interstate Highway 405; thence northerly along Interstate Highway 405 to State Highway 118 at San Fernando (including the city of San Fernando); thence southeasterly along State Highway 118 to and including the city of Pasadena; thence easterly along Foothill Boulevard from the intersection of Foothill Boulevard and Michilinda Avenue to Valencia Way; northerly on Valencia Way to Hillcrest Boulevard; easterly and northerly along Hillcrest Boulevard to Grand Avenue; easterly and southerly along Grand Avenue to Greystone Avenue; easterly on Greystone Avenue and the prolongation thereof to the west side of Sawpit Wash; southerly on Sawpit Wash to the intersection of Mountain Avenue and Royal

Oaks Drive; easterly along Royal Oaks Drive to Buena Vista Street; south on Buena Vista Street and due south on a prolongation thereof to the west bank of the San Gabriel River; southerly along the west bank of the San Gabriel River to Beverly Boulevard; southeasterly on Beverly Boulevard to Painter Avenue in the city of Whittier; southerly on Painter Avenue to Telegraph Road; westerly on Telegraph Road to the west bank of the San Gabriel River; southerly along the west bank of the San Gabriel River to Imperial Highway (State Highway 90); westerly on Imperial Highway to Lakewood Boulevard (State Highway 19); southerly along Lakewood Boulevard to its intersection with State Highway 1 at Ximeno Street; southerly along Ximeno Street and its prolongation to the Pacific Ocean; westerly and northerly along the shoreline of the Pacific Ocean to a point directly south of the intersection of Sunset Boulevard and State Highway 1; thence northerly along an imaginary line to point of beginning. Intrastate, interstate, and foreign commerce authority sought.

Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to California Public Utilities Commission, California State Building, 350 McAllister Street, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

#### [6351-01]

#### COMMODITY FUTURES TRADING COMMISSION.

TIME AND DATE: 11 a.m., January 27, 1978.

PLACE: 2033 K Street NW., Washington, D.C., 8th Floor Conference Room.

STATUS: Closed.

MATTERS TO BE CONSIDERED: Market Surveillance meeting.

CONTACT PERSON FOR MORE INFORMATION:

Jane Stuckey, 254-6314.

(S-191-78 Filed 1-24-78; 3:24 pm)

#### [6355-01]

#### CONSUMER PRODUCT SAFETY COMMISSION.

LOCATION: 3rd Floor Hearing Room, 1111 18th Street NW., Washington, D.C.

TIME AND DATE: February 1, 1978, 9:30 a.m.

STATUS: Open.

MATTERS TO BE CONSIDERED:

NOTICE OF PROCEEDING TO DEVELOP STANDARDS FOR CELLULOSE HOME INSULATION

At its November 10, 1977 Meeting, the Commission directed the staff to

prepare a notice to initiate a proceeding to develop a mandatory safety standard for cellulose home insulation, in response to a petition from the Metropolitan Denver District Attorney's Office. In this briefing, the staff and Commission will discuss issues related to this possible proceeding.

#### CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Office of the Secretary, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

(S-179-78 Filed 1-24-78; 9:07 am)

#### [6355-01]

#### CONSUMER PRODUCT SAFETY COMMISSION.

LOCATION: 3rd Floor Hearing Room, 1111 18th Street, NW., Washington, D.C.

TIME AND DATE: 10 a.m., February 2, 1978.

STATUS: Partly Open, Partly Closed.

MATTERS TO BE CONSIDERED:

A. Open to the Public

1. Recommendation to Accept Corrective Action Plan: Deere & Co. lawn tractors, ID 77-71. The staff has recommended that the Commission accept the corrective action plan which Deere has implemented to deal with a possible brake hazard in certain lawn tractors it manufactures.

2. Recommendation to Accept Corrective Action Plan: Caloric Corp. waist-high gas ranges, ID 77-83. The staff has recommended that the Commission accept the corrective action plan which Caloric has implemented to deal with a possible gas leak hazard in certain gas ranges.

3. Petition Seeking Labeling for Coal- and Wood-burning Stoves, AP 77-2. The Commission will consider a petition in which Adam Paul Banner, Midland, Mich., has asked for a mandatory rule requiring manufacturers of coal- and wood-burning stoves to label these products with warnings on chimney clearance and chimney types.

4. Unvented Gas-Fired Space Heaters. In September 1977, the Commission published a finding that a standard for unvented gas-fired space heaters was not feasible, and that only

a ban could sufficiently protect the public from the hazards of carbon monoxide poisoning or asphyxiation which these products present. At this meeting, the Commission will consider whether or not to issue such a ban.

#### B. Closed to the Public

5. Requests for Authorization to Seek Consent Agreements: Cases No. 770210, No. 770069, and No. 770040. The staff has recommended that the Commission authorize it to seek consent agreements in these three carpet cases under the Flammable Fabrics Act.

Agenda Approved January 19, 1978.

#### CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Office of the Secretary, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

(S-178-78 Filed 1-24-78; 9:07 am)

#### [6714-01]

#### FEDERAL DEPOSIT INSURANCE CORPORATION.

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation met in closed session at 9:20 p.m. on January 19, 1978, by telephone conference call, to (1) accept sealed bids for the purchase of certain assets of and the assumption of the deposit liabilities of The Drovers National Bank of Chicago, Chicago, Ill., which was closed by the Comptroller of the Currency as of the close of business on January 19, 1978; (2) approve a resulting application from Drovers Bank of Chicago, Chicago, Ill., for insurance and for consent to purchase assets of and assume the deposit liabilities of the closed bank; and (3) provide such financial assistance, pursuant to section 13(c) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)), as was necessary to effect the purchase and assumption transaction.

In calling the meeting, the Board of Directors determined, on motion of Chairman George A. LeMastre, seconded by Director John G. Heilmann (Comptroller of the Currency), that Corporation business required its consideration of the matter on less than 7 days' notice to the public; that no ear-

lier notice of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the meeting was exempt from the open meeting requirements of the "Government in the Sunshine Act" by subsections (c)(8) and (c)(9)(A)(ii) thereof (5 U.S.C. 552b(c)(8) and (c)(9)(A)(ii)).

Dated: January 20, 1978.

For the Federal Deposit Insurance Corporation.

ALAN R. MILLER,  
Executive Secretary.

(S-180-78 Filed 1-24-78; 9:07 am)

#### [6714-01]

#### FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of change in subject matter of agency meeting.

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that on January 20, 1978, Chairman George A. LeMastre and Director John G. Heilmann (Comptroller of the Currency) voted to add the following item to the agenda for the previously announced open meeting of the Corporation's Board of Directors scheduled for 3 p.m. on Wednesday, January 25, 1978:

Memorandum and resolution establishing procedures for the initiation of enforcement actions against certain insured banks which have not yet submitted, or were delinquent in submitting, reports required by the recent survey on bank stock loans, insider loans, and overdrafts.

In voting to add the item to the agenda, the Board determined that Corporation business required its consideration of the item on less than seven days' notice to the public and that no earlier notice of a change in the subject matter of the meeting was practicable.

Dated: January 23, 1978.

For the Federal Deposit Insurance Corporation.

ALAN R. MILLER,  
Executive Secretary.

(S-181-78 Filed 1-24-78; 9:07 am)

#### [6740-02]

#### FEDERAL ENERGY REGULATORY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: (Published January 20, 1978, 43 FR 3009).

### SUNSHINE ACT MEETINGS

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: January 25, 1978, 10 a.m.

CHANGE IN MEETING: The following item has been added:

Item No., Docket No., and Company.

CP-8.-CP78-403, Texas Gas Transmission Corp., CP78-76, Transcontinental Gas Pipe Line Corp., CP78-86, Texas Eastern Transmission Corp.

LOIS D. CASHELL,  
Acting Secretary.

(S-183-78 Filed 1-24-78 11:15 am)

#### FEDERAL TRADE COMMISSION.

TIME AND DATE: 10 a.m., Tuesday, January 31, 1978.

PLACE: Room 432, Federal Trade Commission Building, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

The Commission has not yet scheduled any matters for discussion at this meeting. If no item is placed on the agenda by 10:00 a.m., on Tuesday, January 31, 1978, the meeting will automatically be cancelled. Any item that is placed on the agenda before that time will be announced in accordance with the Additional Information procedures posted with Commission Meeting Notices outside Room 130 of the Federal Trade Commission Building.

CONTACT PERSON FOR MORE INFORMATION:

Wilbur T. Weaver, Office of Public Information 202-523-3830, recorded message: 202-523-3806.

## SUNSHINE ACT MEETINGS

[4410-01]

16

## PAROLE COMMISSION.

TIME AND DATE: Wednesday, January 25, 1978, 2:30 p.m.

PLACE: Room 338, 320 First Street NW., Washington, D.C.

STATUS: Closed.

CHANGES IN THE MEETING: By majority vote on January 23, 1978, the Commission determined pursuant to 5 U.S.C. § 552b(e)(2) (A) and (B) and § 16.204(c) (1) and (2) that the following item be added to the agenda of the above meeting.

Ratification of the Chairman's action in preparing and forwarding the Commission's fiscal year 1979 Authorization Request pursuant to section 204 of Pub. L. 94-503.

The Commission further determined that Commission business requires that this agenda item be held on less than one week's notice and that no earlier announcement of the change is possible.

## SECTION 1

### DIRECTION, DUTIES AND RESPONSIBILITIES WITH RESPECT TO THE NATIONAL INTELLIGENCE EFFORT\*

#### 1-1. National Security Council.

1-101. *Purpose.* The National Security Council (NSC) was established by the National Security Act of 1947 to advise the President with respect to the integration of domestic, foreign, and military policies relating to the national security. The NSC shall act as the highest Executive Branch entity that provides review of, guidance for, and direction to the conduct of all national foreign intelligence and counterintelligence activities.

1-102. *Committees.* The NSC Policy Review Committee and Special Coordination Committee, in accordance with procedures established by the Assistant to the President for National Security Affairs, shall assist in carrying out the NSC's responsibilities in the foreign intelligence field.

#### 1-2. NSC Policy Review Committee.

1-201. *Membership.* The NSC Policy Review Committee (PRC), when carrying out responsibilities assigned in this Order, shall be chaired by the Director of Central Intelligence and composed of the Vice President, the Secretary of State, the Secretary of the Treasury, the Secretary of Defense, the Assistant to the President for National Security Affairs, and the Chairman of the Joint Chiefs of Staff, or their designees, and other senior officials, as appropriate.

#### 1-202. Duties. The PRC shall:

- (a) Establish requirements and priorities for national foreign intelligence;
- (b) Review the National Foreign Intelligence Program and budget proposals and report to the President as to whether the resource allocations for intelligence capabilities are responsive to the intelligence requirements of the members of the NSC.
- (c) Conduct periodic reviews of national foreign intelligence products, evaluate the quality of the intelligence product, develop policy guidance to ensure quality intelligence and to meet changing intelligence requirements; and
- (d) Submit an annual report on its activities to the NSC.

1-203. *Appeals.* Recommendations of the PRC on intelligence matters may be appealed to the President or the NSC by any member of PRC.

#### 1-3. NSC Special Coordination Committee.

1-301. *Membership.* The NSC Special Coordination Committee (SCC) is chaired by the Assistant to the President for National Security Affairs and its membership includes the statutory members of the NSC and other senior officials, as appropriate.

1-302. *Special Activities.* The SCC shall consider and submit to the President a policy recommendation, including all dissents, on each special activity. When meeting for this purpose, the members of the SCC shall include the Secretary of State, the Secretary of Defense, the Attorney General, the Director of the Office of Management and Budget, the Assistant to the President for National Security Affairs, the Chairman of the Joint Chiefs of Staff, and the Director of Central Intelligence.

1-303. *Sensitive Foreign Intelligence Collection Operations.* Under standards established by the President, proposals for sensitive foreign intelligence collection operations shall be reported to the Chairman by the Director of Central Intelligence for appropriate review and approval. When meeting for the purpose of reviewing proposals for sensitive foreign intelligence collection operations,

\* Certain technical terms are defined in Section 4-2.

the members of the SCC shall include the Secretary of State, the Secretary of Defense, the Attorney General, the Assistant to the President for National Security Affairs, the Director of Central Intelligence, and such other members designated by the Chairman to ensure proper consideration of these operations.

1-304. *Counterintelligence.* The SCC shall develop policy with respect to the conduct of counterintelligence activities. When meeting for this purpose the members of the SCC shall include the Secretary of State, the Secretary of Defense, the Attorney General, the Director of the Office of Management and Budget, the Assistant to the President for National Security Affairs, the Chairman of the Joint Chiefs of Staff, the Director of Central Intelligence, and the Director of the FBI. The SCC's counterintelligence functions shall include:

(a) Developing standards and doctrine for the counterintelligence activities of the United States;

(b) Resolving interagency differences concerning implementation of counterintelligence policy;

(c) Developing and monitoring guidelines consistent with this Order for the maintenance of central records of counterintelligence information;

(d) Submitting to the President an overall annual assessment of the relative threat to United States interests from intelligence and security services of foreign powers and from international terrorist activities, including an assessment of the effectiveness of the United States counterintelligence activities; and

(e) Approving counterintelligence activities which, under such standards as may be established by the President, require SCC approval.

1-305. *Required Membership.* The SCC shall discharge the responsibilities assigned by sections 1-302 through 1-304 only after consideration in a meeting at which all designated members are present or, in unusual circumstances when any such member is unavailable, when a designated representative of the member attends.

1-306. *Additional Duties.* The SCC shall also:

(a) Conduct an annual review of ongoing special activities and sensitive national foreign intelligence collection operations and report thereon to the NSC; and

(b) Carry out such other coordination and review activities as the President may direct.

1-307. *Appeals.* Any member of the SCC may appeal any decision to the President or the NSC.

#### 1-4. *National Foreign Intelligence Board.*

1-401. *Establishment and Duties.* There is established a National Foreign Intelligence Board (NFIB) to advise the Director of Central Intelligence concerning:

(a) Production, review, and coordination of national foreign intelligence;

(b) The National Foreign Intelligence Program budget;

(c) Interagency exchanges of foreign intelligence information;

(d) Arrangements with foreign governments on intelligence matters;

(e) The protection of intelligence sources and methods;

(f) Activities of common concern; and

(g) Other matters referred to it by the Director of Central Intelligence.

1-402. *Membership.* The NFIB shall be chaired by the Director of Central Intelligence and shall include other appropriate officers of the CIA, the Office of the Director of Central Intelligence, the Department of State, the Department of Defense, the Department of Justice, the Department of the Treasury, the Department of Energy, the Defense Intelligence Agency, the offices within the Department of Defense for reconnaissance programs, the National Security Agency and the FBI. A representative of the Assistant to the President for National Security Affairs may attend meetings of the NFIB as an observer.

1-403. *Restricted Membership and Observers.* When the NFIB meets for the purpose of section 1-401(a), it shall be composed solely of the senior intelligence officers of the designated agencies. The senior intelligence officers of the Army, Navy and Air Force may attend all meetings of the NFIB as observers.

#### 1-5. *National Intelligence Tasking Center.*

1-501. *Establishment.* There is established a National Intelligence Tasking Center (NITC) under the direction, control and management of the Director of Central Intelligence for coordinating and tasking national foreign intelligence collection activities. The NITC shall be staffed jointly by civilian and military personnel including designated representatives of the chiefs of each of the Department of Defense intelligence organizations engaged in national foreign intelligence activities. Other agencies within the Intelligence Community may also designate representatives.

1-502. *Responsibilities.* The NITC shall be the central mechanism by which the Director of Central Intelligence:

(a) Translates national foreign intelligence requirements and priorities developed by the PRC into specific collection objectives and targets for the Intelligence Community;

(b) Assigns targets and objectives to national foreign intelligence collection organizations and systems;

(c) Ensures the timely dissemination and exploitation of data for national foreign intelligence purposes gathered by national foreign intelligence collection means, and ensures the resulting intelligence flow is routed immediately to relevant components and commands;

(d) Provides advisory tasking concerning collection of national foreign intelligence to departments and agencies having information collection capabilities or intelligence assets that are not a part of the National Foreign Intelligence Program. Particular emphasis shall be placed on increasing the contribution of departments or agencies to the collection of information through overt means.

1-503. *Resolution of Conflicts.* The NITC shall have the authority to resolve conflicts of priority. Any PRC member may appeal such a resolution to the PRC; pending the PRC's decision, the tasking remains in effect.

1-504. *Transfer of Authority.* All responsibilities and authorities of the Director of Central Intelligence concerning the NITC shall be transferred to the Secretary of Defense upon the express direction of the President. To maintain readiness for such transfer, the Secretary of Defense shall, with advance agreement of the Director of Central Intelligence, assume temporarily during regular practice exercises all responsibilities and authorities of the Director of Central Intelligence concerning the NITC.

#### 1-6. *The Director of Central Intelligence.*

1-601. *Duties.* The Director of Central Intelligence shall be responsible directly to the NSC and, in addition to the duties specified elsewhere in this Order, shall:

(a) Act as the primary adviser to the President and the NSC on national foreign intelligence and provide the President and other officials in the Executive Branch with national foreign intelligence;

(b) Be the head of the CIA and of such staff elements as may be required for discharge of the Director's Intelligence Community responsibilities;

(c) Act, in appropriate consultation with the departments and agencies, as the Intelligence Community's principal spokesperson to the Congress, the news media and the public, and facilitate the use of national foreign intelligence products by the Congress in a secure manner;

(d) Develop, consistent with the requirements and priorities established by the PRC, such objectives and guidance for the Intelligence Community as will

enhance capabilities for responding to expected future needs for national foreign intelligence;

(e) Promote the development and maintenance of services of common concern by designated foreign intelligence organizations on behalf of the Intelligence Community;

(f) Ensure implementation of special activities;

(g) Formulate policies concerning intelligence arrangements with foreign governments, and coordinate intelligence relationships between agencies of the Intelligence Community and the intelligence or internal security services of foreign governments;

(h) Conduct a program to protect against overclassification of foreign intelligence information;

(i) Ensure the establishment by the Intelligence Community of common security and access standards for managing and handling foreign intelligence systems, information and products;

(j) Participate in the development of procedures required to be approved by the Attorney General governing the conduct of intelligence activities;

(k) Establish uniform criteria for the determination of relative priorities for the transmission of critical national foreign intelligence, and advise the Secretary of Defense concerning the communications requirements of the Intelligence Community for the transmission of such intelligence;

(l) Provide appropriate intelligence to departments and agencies not within the Intelligence Community; and

(m) Establish appropriate committees or other advisory groups to assist in the execution of the foregoing responsibilities.

1-602. *National Foreign Intelligence Program Budget.* The Director of Central Intelligence shall, to the extent consistent with applicable law, have full and exclusive authority for approval of the National Foreign Intelligence Program budget submitted to the President. Pursuant to this authority:

(a) The Director of Central Intelligence shall provide guidance for program and budget development to program managers and heads of component activities and to department and agency heads;

(b) The heads of departments and agencies involved in the National Foreign Intelligence Program shall ensure timely development and submission to the Director of Central Intelligence of proposed national programs and budgets in the format designated by the Director of Central Intelligence, by the program managers and heads of component activities, and shall also ensure that the Director of Central Intelligence is provided, in a timely and responsive manner, all information necessary to perform the Director's program and budget responsibilities;

(c) The Director of Central Intelligence shall review and evaluate the national program and budget submissions and, with the advice of the NFIB and the departments and agencies concerned, develop the consolidated National Foreign Intelligence Program budget and present it to the President through the Office of Management and Budget;

(d) The Director of Central Intelligence shall present and justify the National Foreign Intelligence Program budget to the Congress;

(e) The heads of the departments and agencies shall, in consultation with the Director of Central Intelligence, establish rates of obligation for appropriated funds;

(f) The Director of Central Intelligence shall have full and exclusive authority for reprogramming National Foreign Intelligence Program funds, in accord with guidelines established by the Office of Management and Budget, but shall do so only after consultation with the head of the department affected and appropriate consultation with the Congress;

(g) The departments and agencies may appeal to the President decisions by the Director of Central Intelligence on budget or reprogramming matters of the National Foreign Intelligence Program.

(h) The Director of Central Intelligence shall monitor National Foreign Intelligence Program implementation and may conduct program and performance audits and evaluations.

1-603. *Responsibility For National Foreign Intelligence.* The Director of Central Intelligence shall have full responsibility for production and dissemination of national foreign intelligence and have authority to levy analytic tasks on departmental intelligence production organizations, in consultation with those organizations. In doing so, the Director of Central Intelligence shall ensure that diverse points of view are considered fully and that differences of judgment within the Intelligence Community are brought to the attention of national policymakers.

1-604. *Protection of Sources, Methods and Procedures.* The Director of Central Intelligence shall ensure that programs are developed which protect intelligence sources, methods and analytical procedures, provided that this responsibility shall be limited within the United States to:

(a) Using lawful means to protect against disclosure by present or former employees of the CIA or the Office of the Director of Central Intelligence, or by persons or organizations presently or formerly under contract with such entities; and

(b) Providing policy, guidance and technical assistance to departments and agencies regarding protection of intelligence information, including information that may reveal intelligence sources and methods.

1-605. *Responsibility of Executive Branch Agencies.* The heads of all Executive Branch departments and agencies shall, in accordance with law and relevant Attorney General procedures, give the Director of Central Intelligence access to all information relevant to the national intelligence needs of the United States and shall give due consideration to requests from the Director of Central Intelligence for appropriate support for CIA activities.

1-606. *Access to CIA Intelligence.* The Director of Central Intelligence, shall, in accordance with law and relevant Attorney General procedures, give the heads of the departments and agencies access to all intelligence, developed by the CIA or the staff elements of the Office of the Director of Central Intelligence, relevant to the national intelligence needs of the departments and agencies.

1-7. *Senior Officials of the Intelligence Community.* The senior officials of each of the agencies within the Intelligence Community shall:

1-701. Ensure that all activities of their agencies are carried out in accordance with applicable law;

1-702. Make use of the capabilities of other agencies within the Intelligence Community in order to achieve efficiency and mutual assistance;

1-703. Contribute in their areas of responsibility to the national foreign intelligence products;

1-704. Establish internal policies and guidelines governing employee conduct and ensure that such are made known to each employee;

1-705. Provide for strong, independent, internal means to identify, inspect, and report on unlawful or improper activity;

1-706. Report to the Attorney General evidence of possible violations of federal criminal law by an employee of their department or agency, and report to the Attorney General evidence of possible violations by any other person of those federal criminal laws specified in guidelines adopted by the Attorney General;

1-707. In any case involving serious or continuing breaches of security, recommend to the Attorney General that the case be referred to the FBI for further investigation;

1-708. Furnish the Director of Central Intelligence, the PRC and the SCC, in accordance with applicable law and Attorney General procedures, the information required for the performance of their respective duties;

1-709. Report to the Intelligence Oversight Board, and keep the Director of Central Intelligence appropriately informed, concerning any intelligence activities of their organizations which raise questions of legality or propriety;

1-710. Protect intelligence and intelligence sources and methods consistent with guidance from the Director of Central Intelligence and the NSC;

1-711. Disseminate intelligence to cooperating foreign governments under arrangements established or agreed to by the Director of Central Intelligence;

1-712. Execute programs to protect against overclassification of foreign intelligence;

1-713. Instruct their employees to cooperate fully with the Intelligence Oversight Board; and

1-714. Ensure that the Inspectors General and General Counsel of their agencies have access to any information necessary to perform their duties assigned by this Order.

1-8. *The Central Intelligence Agency.* All duties and responsibilities of the CIA shall be related to the intelligence functions set out below. As authorized by the National Security Act of 1947, as amended, the CIA Act of 1949, as amended, and other laws, regulations and directives, the CIA, under the direction of the NSC, shall:

1-801. Collect foreign intelligence, including information not otherwise obtainable, and develop, conduct, or provide support for technical and other programs which collect national foreign intelligence. The collection of information within the United States shall be coordinated with the FBI as required by procedures agreed upon by the Director of Central Intelligence and the Attorney General;

1-802. Produce and disseminate foreign intelligence relating to the national security, including foreign political, economic, scientific, technical, military, geographic and sociological intelligence to meet the needs of the President, the NSC, and other elements of the United States Government;

1-803. Collect, produce and disseminate intelligence on foreign aspects of narcotics production and trafficking;

1-804. Conduct counterintelligence activities outside the United States and coordinate counterintelligence activities conducted outside the United States by other agencies within the Intelligence Community;

1-805. Without assuming or performing any internal security functions, conduct counterintelligence activities within the United States, but only in coordination with the FBI and subject to the approval of the Attorney General;

1-806. Produce and disseminate counterintelligence studies and reports;

1-807. Coordinate the collection outside the United States of intelligence information not otherwise obtainable;

1-808. Conduct special activities approved by the President and carry out such activities consistent with applicable law;

1-809. Conduct services of common concern for the Intelligence Community as directed by the NSC;

1-810. Carry out or contract for research, development and procurement of technical systems and devices relating to authorized functions;

1-811. Protect the security of its installations, activities, information and personnel by appropriate means, including such investigations of applicants,

employees, contractors, and other persons with similar associations with the CIA as are necessary;

1-812. Conduct such administrative and technical support activities within and outside the United States as are necessary to perform the functions described in sections 1-801 through 1-811 above, including procurement and essential cover and proprietary arrangements.

1-813. Provide legal and legislative services and other administrative support to the Office of the Director of Central Intelligence.

1-9. *The Department of State.* The Secretary of State shall:

1-901. Overtly collect foreign political, sociological, economic, scientific, technical, political-military and associated biographic information;

1-902. Produce and disseminate foreign intelligence relating to United States foreign policy as required for the execution of the Secretary's responsibilities;

1-903. Disseminate, as appropriate, reports received from United States diplomatic and consular posts abroad;
